1. Preface

1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.

1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info or visit http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs if you are hearing impaired.

1.4 Structure

This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual.

Introduction provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure.

If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

3. **Scan to Pay**

Using this option, user can scan the QR code and make payment to the Merchant without having to enter merchant account details.

Merchant will have the QR code provided by the bank which can be scanned by the customers of the same bank to make payments.

On scanning the QR code, system will display the name of the Merchant and user will select the CASA account from which payment needs to be made, enter amount and remarks to complete the transaction.

---

**Note:**
- This option is available to the user on the pre-login page as well as post login within the payments option.
- Only internal payments can be made using QR code i.e. QR codes generated by the bank to which the customer belongs can be scanned and not the ones generated externally.

---

**Pre-Requisites**
- Merchant to whom the payment needs to be made has the QR code generated by the bank
- User must have a valid account with bank with online banking enabled.

3.1 **To make QR payment (Pre-Login)**

1. Launch the **Zigbank App** Page. The **Zigbank** homepage pre-login screen appears.
Zigbank Home Page

2. Click Scan to Pay option on the pre-login page

3. User will be asked to login with credentials or through alternate login i.e. Pin / Pattern / Touch ID depending on whether the user has setup alternate login

4. In the **Username** field, enter the user ID.

5. In the **Password** field, enter the password.

**Note:** The user has to provide the necessary permission to the application for accessing the mobile device camera to perform the QR code payment.

6. On successful authentication, the mobile device camera is launched with defined scan area to scan the QR code.

7. There will be an additional option to adjust flash on this screen so that if there is an issue with light, the user can enable flash and then scan the QR code.

8. User will scan the QR code in the defined area and on successful scan, user will be navigated to a screen to complete the payment transaction.
9. Scan the QR code within the defined dimensions.
10. System displays the merchant details on successful scanning of QR code to confirm that the payment being made is to the intended merchant. The **Scan To Pay** screen appears.
**Field Description**

<table>
<thead>
<tr>
<th>Field Name</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Transfer To</strong></td>
<td>Name of the merchant to whom payment is to be made.</td>
</tr>
<tr>
<td><strong>Transfer From</strong></td>
<td>Source account with account nickname from which the funds are to be transferred.</td>
</tr>
<tr>
<td><strong>Balance</strong></td>
<td>Available balance in the selected account.</td>
</tr>
<tr>
<td><strong>Currency</strong></td>
<td>Currency of the amount to be transferred.</td>
</tr>
<tr>
<td><strong>Amount</strong></td>
<td>Amount to be transferred.</td>
</tr>
<tr>
<td><strong>View Limits</strong></td>
<td>Link to view the transaction limits for the user.</td>
</tr>
<tr>
<td><strong>Notes</strong></td>
<td>Remarks for the transaction. This is an optional field.</td>
</tr>
</tbody>
</table>

FAQs

1. **Can I initiate a payment to a merchant who is not on boarded on Zigbank as a Merchant?**
   No. Payment by scanning the QR code can be made only to merchants on boarded with Zigbank and the QR code has been generated by Zigbank.

2. **Am unable to see the merchant details on QR code scan, what could be the possible issues?**
   This can be due to scenarios like the QR code being scanned is not generated by Zigbank or it was not scanned within the defined scan area etc.
