1 Preface

This preface provides supporting information for the Oracle Financial Services Regulatory Reporting for US Federal Reserve – Lombard Risk Integration Pack Release Notes (and includes the following topics:

- [Overview of OFSAA](#)
- [Purpose of This Document](#)
- [Intended Audience](#)
- [Access to Oracle Support](#)
- [Related Documents](#)

1.1 Overview of OFSAA

In today's turbulent markets, financial institutions require a better understanding of their risk-return, while strengthening competitive advantage and enhancing long-term customer value. Oracle Financial Services Analytical Applications (OFSAA) enable financial institutions to measure and meet risk-adjusted performance objectives, cultivate a risk management culture through transparency, lower the costs of compliance and regulation, and improve insight into customer behavior.

OFSAA uses industry-leading analytical methods, shared data models, and applications architecture to enable integrated risk management, performance management, customer insight, and compliance management. OFSAA actively incorporates risk into decision making, enables to achieve a consistent view of performance, promote a transparent risk management culture, and provide pervasive intelligence.

Oracle Financial Services Analytical Applications delivers a comprehensive, integrated suite of financial services analytical applications for both banking and insurance domains.

1.2 Purpose of this Document

This document contains release information for Oracle Financial Services Regulatory Reporting for US Federal Reserve – Lombard Risk Integration Pack (OFS REG REP US FED).

1.3 Intended Audience

This document is intended for users of Oracle Financial Services Regulatory Reporting for US Federal Reserve – Lombard Risk Integration Pack.

1.4 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info>
Or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.5 Related Documents

This section identifies additional documents related to OFS REG REP US FED Application 8.0.9.5.1. You can access Oracle documentation online from the Documentation Library ([OHC](#)).

- [OFS Analytical Applications Technology Matrix](#)

2 Introduction to Oracle Financial Services Regulatory Reporting for US Federal Reserve – Lombard Risk Integration Pack

In terms of regulatory reporting, financial institutions feel increasingly boxed in. On one hand, the number, frequency, and complexity of reports continue to spiral, especially for global financial institutions. At the same time, regulators are strongly encouraging firms to spend more time on analysis and review, such as the U.S. Federal Reserve's guidance that financial institutions spend 80% of the time allocated for regulatory reporting on analytics or reviews and 20% on data compilation. Financial institutions also continue to struggle with data aggregation and quality, and in many cases, the last stages of reporting are often a largely manual process.

While facing growing regulatory costs and complexity, financial services organizations are struggling to realize the positive impact of more rigorous reporting requirements. They are compiling significantly more data for reporting purposes, but do not have adequate time and resources to fully analyze and gain new insight from this data – translating to a missed opportunity.

Through Oracle Financial Services Regulatory Reporting for US Federal Reserve – Lombard Risk Integration Pack (OFS REG REP US FED), Oracle Financial Services and Lombard Risk have collaborated to create a first-to-market solution that addresses these important requirements and helps financial services organizations find a much-welcome silver lining in today's prescriptive regulatory climate.

OFSAA Regulatory Reporting features the OFSAA Data Foundation as well as a reporting portal that integrates Lombard Risk's Reporter Portal for final-mile automation. The solution ensures data integrity and frees firms to focus more time on analyzing and gaining new business insight from their growing stores of data instead of simply preparing data and reports with the sole objective of meeting submission deadlines.

Additionally, multi-jurisdiction institutions, using these integrated tools, are now able to establish a global regulatory report production platform integrated with a single source of truth and full data lineage no matter where they are situated or how many jurisdictions, they operate in. The OFSAA Data Foundation has all the detailed granular data which are used to aggregate and populate the Lombard report templates. This enables seamless drill-down and lineage from individual template cells to the source systems where the granular data was sourced from. The rules used to derive the aggregated and calculated data are also clearly visible.

OFS Regulatory Reporting for US Federal Reserve – Lombard Risk Integration Pack is a separately licensed product.

Patch ID **31643359** - Oracle Financial Services Regulatory Reporting for US Federal Reserve – Lombard Risk Integration Pack v8.0.9.5.0 One-off Patch Release #1 (8.0.9.5.1).

This chapter includes the following topics:

- [New Features](#)
- [Pre-installation Requirements](#)
- [Applying this One-off Patch Release](#)
- [Post-installation Steps](#)
- [Post US FED Run Execution](#)

- [Deploying Template Package](#)
- [Bugs Fixed in this Release](#)
- [Known Issues or Limitations in this Release](#)

2.1 New Features

There are no new features in this release but supports bug fixes and enhancements from the previous releases.

For detailed information on the usage of the existing features, see [Oracle Financial Services Regulatory Reporting for US Federal Reserve – Lombard Risk Integration Pack User Guide Release 8.0.9.0.0](#) from the [OHC](#) Documentation Library.

For more information on the OFS AAI requirements, see [OFS Advanced Analytical Applications Infrastructure Application Pack 8.0.9.0.0 Readme](#) in the [OHC](#) Documentation Library.

2.2 Pre-installation Requirements

The prerequisite software that must be installed are as follows:

- Oracle Financial Services Regulatory Reporting for US Federal Reserve – Lombard Risk Integration Pack 8.0.9.5.0 (patch ID **31503679**).
- AgileREPORTER version **20.2.0-b124**
- AgileREPORTER Templates version **FED v1.22.1.1-b43_sign**
- Ensure that you have executed the .profile file before you trigger the installation.
- Ensure that the FICServer is up and running before you trigger the installation. For information on restarting the services, see the [OFS Analytical Applications Infrastructure Installation and Configuration Guide Release 8.0.7.0.0](#).

2.3 Applying this One-off Patch Release

To install this one-off patch release:

1. Download the 31643359_GENERIC.zip archive file from [My Oracle Support](#) by searching patch **31643359** under the Patches & Updates tab.
2. Copy the archive file to your OFSAA server in Binary mode.
3. Shut down all the OFSAAI Services. For more information, see the *Stopping Infrastructure Services* section in the [OFS Analytical Applications Infrastructure Installation and Configuration Guide Release 8.0.7.0.0](#).

NOTE Ensure that the FICSERVER is up and running.

4. Execute `unzip -a <name of the file to be unzipped>`
For example: `unzip -a 31643359_GENERIC.zip`

NOTE The above "-a" option is mandatory to unzip the patch. If you notice an error message "*unzip: not found [No such file or directory]*", contact your UNIX administrator to resolve this issue.

5. Execute `chmod -R 755 OFS_REG_REP_USFED`
6. Navigate to the `<>/OFS_REG_REP_USFED/conf` directory.
7. Configure the **UPLOAD_MODEL** parameter in the `params.conf` file to determine if Model Upload is required or not:
 - 0 = If you have already performed Model Upload and want to skip Model Upload process
 - 1 = If you want to perform Model Upload
8. Navigate to the `<>/OFS_REG_REP_USFED/bin` directory and execute `./install.sh`
9. The installation progress can be viewed by periodically refreshing the log file under the `<>/OFS_REG_REP_USFED/logs` directory.
10. After installation is completed, verify the log file for any Errors or Warnings. Contact [My Oracle Support](#) in case of any issues.

NOTE This patch installation requires approximately 10 minutes to complete in Oracle Test Labs.

For more details on the previous releases, see the following Release Notes:

- [OFS Regulatory Reporting for US Federal Reserve – Lombard Risk Integration Pack Release Notes \(8.0.9.0.0\)](#)
- [OFS Regulatory Reporting for US Federal Reserve – Lombard Risk Integration Pack Release Notes \(8.0.9.1.0\)](#)
- [OFS Regulatory Reporting for US Federal Reserve – Lombard Risk Integration Pack Release Notes \(8.0.9.1.1\)](#)
- [OFS Regulatory Reporting for US Federal Reserve – Lombard Risk Integration Pack Release Notes \(8.0.9.1.2\)](#)
- [OFS Regulatory Reporting for US Federal Reserve – Lombard Risk Integration Pack Release Notes \(8.0.9.2.0\)](#)
- [OFS Regulatory Reporting for US Federal Reserve – Lombard Risk Integration Pack Release Notes \(8.0.9.3.0\)](#)
- [OFS Regulatory Reporting for US Federal Reserve – Lombard Risk Integration Pack Release Notes \(8.0.9.4.0\)](#)
- [OFS Regulatory Reporting for US Federal Reserve – Lombard Risk Integration Pack Release Notes \(8.0.9.5.0\)](#)

2.4 Post-installation Steps

Perform the following instructions after successful installation of the 8.0.9.5.1 one-off patch:

- See the log file in the `/OFS_REG_REP_USFED/logs` directory to ensure that there are no errors reported.
- Generate the application EAR or WAR file and redeploy the application on the configured Web Application Server. For more information on generating and deploying the EAR or WAR file, see the *Post Installation Configuration* section in the [OFS Analytical Applications Infrastructure Installation and Configuration Guide Release 8.0.7.0.0](#).
- Restart all the OFSAA services. For more information, see the *Starting Infrastructure Services* section in the [OFS Analytical Applications Infrastructure Installation and Configuration Guide Release 8.0.7.0.0](#).
- Resave DE for FFIEC-031, FFIEC-041, FR Y-9C, FR Y-15, and FR-2900 or resave the Derived Entity in a sequence according to the level numbers as mentioned in the following table to reflect the changes.

NOTE

All the DEs at the same level can be resaved in parallel and the resave of all the set of DEs at each level must be completed before starting the next level. The order of resaving execution is from the highest level to the lowest level.

0	DERG0050	Regulatory Common	Regulatory Run
0	DERGV060	Regulatory Common	Regulatory Run

- Along with the existing Run Parameter Derived Entity (DERG0051), a new Derived Entity DERG0050 is introduced to use it in T2T_FCT_REG_ACCOUNT_SUMMARY. If there is any customization in the run in the customer site, then the new DE DERG0050 must be added to the customized run for resaving along with the existing DE DERG0051. See the ready-to-use **US Regulatory Reporting Run** (RNUS_REG_RUN) under **Run** menu of the **Run Rule Framework**.
- Along with the Regulatory set up parameter PERCENT_COL_DIVISOR, a new parameter PERCENT_COL_MULTIPLR is introduced in the FSI_REGREPORTING_PARAM table to use in USFD Metadata layer, wherever the percentage column must be reported in full numbers, that is 50% as 50. The default value for this parameter is set as 1 and if the sourcing of percentage columns is in decimals that is, 50% as 0.50 then, the parameter must be updated to 100 as one-time activity. If the sourcing of the percentage columns is in full numbers, then there is no action required. For more information, see the *FSI_REGREPORTING_PARAM* section in the [OFS Regulatory Reporting for US Federal Reserve – Lombard Risk Integration Pack User Guide Release 8.0.9.0.0](#)
- To perform additional steps for secure configuration of drill down from the AgileREPORTER portal, see the *Configuration for Referrer Header Validation* section in the [OFS Analytical Applications Infrastructure Security Guide](#).

- Perform the additional configurations if required as mentioned under the *Additional Configurations* section in the [OFS Analytical Applications Infrastructure Installation and Configuration Guide Release 8.0.7.0.0](#).

The Oracle Financial Services Regulatory Reporting for US Federal Reserve is now ready for use. If you encounter any problems during set up, contact OFSAA Support at [My Oracle Support](#).

2.5 Post US FED Run Execution

After the US FED Run execution, follow these steps:

1. For prior date reporting, see the [Prior Date Reporting](#) document.
2. Execute the <<INFODOM>>_REG_RUNEXE_RESAVE batch to populate the RUNEXESUMM table if you are not using the FFIEC-002 or FFIEC-002S report.

If you are using the FFIEC-002 or FFIEC-002S report, then execute the

<Installer Path>/OFS_REG_REP_USFED/Post_Scripts/RUNEXESUMM_VW.sql file in atomic schema.

Lombard AgileREPORTER will display additional filters of Run Execution ID and Run Status during report retrieval based on the RUNEXESUMM table.

- a. Run Execution ID is the Run Execution Identifier concatenated with Run Description.
 - b. Run Status shows the status of US FED Run Execution.
 - c. Define the entities as SOLO or CONSOLIDATED in Lombard AgileREPORTER before retrieving returns.
3. Execute the REFRESH batches to refresh the Derived Entities.

2.6 Deploying Config Package

After saving the derived entities, follow these steps to deploy the config package:

1. To deploy the product configuration on Lombard AgileREPORTER using the package OFSAA_REG_REP_USFED_80950.zip bundled inside the Config_Package directory of the installer:

- a. Navigate to the <LombardAgileREPORTER>/bin directory under the installed location

- b. Add a new configuration with the following command:

```
./config.sh -a <Config_Package Full Path>
```

For example:

```
./config.sh -a /scratch/kit/80950/OFS_REG_REP_USFED/Config_Package/OFSAA_REG_REP_USFED_80950.zip
```

2. Update the Alias with the following command:

```
./config.sh -ea OFSAA_REG_REP_USFED_80950 -iv 8.0.9.5.0 -alias "OFSAA FED DATA SOURCE" -aif <LombardAgileREPORTER>/bin/aliasinfo.properties
```

If you encounter any problems during deployment, contact OFSAA Support at [My Oracle Support](#).

2.7 Bugs Fixed in this Release

The fixed, enhanced, or modified bugs as part of OFS REG REP US FED Release 8.0.9.5.1 are as follows.

Bug Number	Bug Description	Change Comments
31566434	FFIEC-031: RC-O: CLARIFICATION FOR TABLES FCT_CP_CREDIT_QUALITY_SUMMARY & FCT_CP_CONCENTRATION_DETAILS, USAGE IN CONFIGURATION AND CLARIFICATION FORM SVF	Added the additional data path for K673 for RC-O Schedule using N_RANK_BY_TOTAL_BASSEL_EXPOSURE.
31582477	FFIEC-031/FFIEC-041/FR Y-9C: RC-S/HC-S: A591 STG_CREDIT_PARTCPN_DETAILS.N_EOP_PR IN_BAL	Added a new measure code for HC-S, RC-S for MDRM A591.
31582525	REPORTING OF FIXED RATE "OTHER REVOLVING CREDIT PLANS" IN RC-C MEMO LINE ITEM	Updated the Fixed-rate Credit cards and Other revolving credit plans to consider without the maturity date for the line item 2.b.(3). Introduced a check if Purchase date falls within the financial year for the HC-C/RC-C MDRMs: DG091, DG092, DG093, DG094, DG095, DG096, DG097, DG098, DG099, DG100, DG101, DG102, KG091, KG092, KG093, KG094, KG095, KG096, KG097, KG098, KG099, KG100, KG101, KG102, NG091, NG092, NG093, NG094, NG095, NG096, NG097, NG098, NG099, NG100, NG101, and NG102.
31473005	STG_INVESTMENTS: DATA ELEMENT CLARIFICATIONS/ALTERNATE SOURCING	Updated the MDRM to Product Processor Mapping to synchronize the Lineage and the Stable Value File.
31473085	STG_INVESTMENTS: DATA ELEMENT USAGE CLARIFICATIONS (HC-S, RC-S, RC-O, FR Y-15 A, B, D)	Updated the MDRM to Product Processor Mapping to synchronize the Lineage and the Stable Value File.
31534812	RC-O: UNINVESTED TRUST FUNDS INLINE 1	Modified the DSRMP013 to have a default value for the Org Unit and Line of Business Joins.
31534920	HC: 19A, 19B: CONFIGURATION ISSUES	Removed the internal customer flag, updated the cust org structure conso flag to 'N', and added the balance sheet category as a liability for the MDRM BHCKC699.
31540317	HC-C: LINE ITEM 3: INCLUSION OF CARDS TO FINANCE AGRICULTURAL LOANS	Added the Reg product type group CARDS in the Reg product classification rules RLUS_FRAS_REG_PROD_CLASS_03, 05, 07, 08, 09, 11, 12, and 15.
31433448	STG_BORROWINGS: DATA ELEMENT CLARIFICATIONS	Updated the MDRM to Product Processor Mapping to synchronize the Lineage and the Stable Value File.

Bug Number	Bug Description	Change Comments
31444764	FFIEC-031: RC-C: REPORTING FOR PURCHASED CARDS UNDER REAL ESTATE SECURED	Modified the Regulatory Product Classification Rule to additionally check on the Parent Account LTV Flag for the purchase card line items.
31453970	HC-L, RC-L: REPORTING MARKET RISK COVERED POSITIONS	Introduced additional data paths using the Credit Participation Details for both the Account and the Credit Line for Schedule L MDRMs such as J459, 6566, 3820, 6570, 3822, 3411, J457, J458.
31459102	RC-N: LINE 11 (K038): MISSING LOGIC TO IDENTIFY SOVEREIGN GUARANTEED	Added the Guarantor and Issuer Country Filter Logic in the Guaranteed By Sovereign Indicator population logic.
31308885	RC-B/HC-B: MEMO 4A/4B: CONFIGURATION CLARIFICATIONS	Updated the configuration for HC-B/RC-B 8782, 8783 MDRMS with additional data paths where the Standard Interest Rate Curve is not used.
31358109	RC-M: LINE 3: OTHER REAL ESTATE OWNED VERSUS RC-C	Configured Additional Data Path of Fixed Assets granularity for the Real Estate Line Items in Schedule M 5508, 5509, 5510, 5511, 5512, 5513, K187, K188, K189, K190, K191, K260, K192, and Schedule V K009, JF89, and updated the existing data paths measure to Mitigant value.
31389748	RC-O: SVF VS LINEAGE-CLARIFICATION ON STG_INVESTMENTS	Updated the MDRM to Product Processor Mapping to synchronize the Lineage and the Stable Value File.
31419821	RRS: ELIMINATION LOGIC CHANGES	Added an Intra Company Elimination Flag in Schedules HI-B, HI-C, RI-B, RI-C, RC-T Account Summary Granularity.
29402956	FFIEC-031/FFIEC-041: SCH RC-O: INSURED AMOUNT REPORTING FOR LINE ITEM RCON5597	Updated the measure in the configuration for RC-O: MDRM RCON5597 to LRM Acct Uninsured Amt RCY.
30793675	HC-S/RC-S: KNOWN ISSUE: TRANCHE CREDIT ENHANCEMENT LEVEL	Introduced a new rule to Populate Sec Tranche Credit Enhancement Level.
30934402	FFIEC-031: RC-F: CLARIFICATION ON N_INDEMNIFICATION_ASSET_AMT USED IN DERIVATIVE TABLES	Added an extra data path with Reg Acct Indemn Asst Amt RCY measure for J448 MDRM of Schedule F.
31223364	RC-O: EXCLUDE LOANS FULLY SECURED BY CASH COLLATERAL	Updated the fully cash collateralized condition to check the sanctioned limit and line committed amount against the Mitigant value of cash.
31234632	HIGHER RISK COMMERCIAL AND INDUSTRIAL LOANS	Introduced new rules to populate the High-Risk Indicator for Schedule O.
31255289	RC-O: LINE 6: HOLDINGS OF LONG-TERM UNSECURED DEBT	Updated the configuration filters for line items K655, N029, and N030 in RC-O.
31286230	RC-O: MULTIPLE ISSUES	Updated the Schedule RC-O Configuration to synchronize with other cross reports.
31705378	DEPOSIT REPORTING AS PER ULTIMATE BENEFICIARY	Added the HIR - RR Account Type to DEFD1539.

Bug Number	Bug Description	Change Comments
31644919	RC-C: REPORTING OVERDRAFTS FROM ESCROW ACCOUNTS AS LOANS SECURED BY REAL ESTATE	Added a Regulatory Product Classification Rule for overriding the classification for OD Accounts if a Parent Account is available with the Parent's Real Estate Loan Classification.
31631021	HC-H: LINE ITEM 1. BHCK3197: INCORRECT MEASURE USED	Updated the MDRM BHCK3197 to use the Regulatory Asset EOP Balance.
31687823	INCONSISTENCY BETWEEN RC-E/HC-E AND RC-O	Configured correct replines in SCH-E for RCONB550 and RCFNB553WORK.
31329267	RC-C: MISSING CONFIGURATION TO USE MATURITY DATE FOR REPRICING DATE NEAR MATURITY	Moved the Default Value for Term Computation (for example, Remaining Maturity, Next Reprice, and so on) to the respective Metadata from T2T to ensure downstream reporting logic like Least of Two Terms are reported correctly.
31705449	HC-E: EXCLUSION OF BROKERED DEPOSITS WHILE REPORTING TIME DEPOSITS	Updated the Broker Deposit Type filter to handle the time deposit configuration for the MDRM BHDMMHK32.

2.8 Known Issues or Limitations in this Release

The known issue or limitation in this release is that the Seeded Data for Standard product type will be enhanced to include 'Balances with Banks – Liabilities' as a new member.

3 Hardware or Software Technology Stack Details

Send Us Your Comments

Oracle welcomes your comments and suggestions on the quality and usefulness of this publication. Your input is an important part of the information used for revision.

- Did you find any errors?
- Is the information clearly presented?
- Do you need more information? If so, where?
- Are the examples correct? Do you need more examples?
- What features did you like most about this manual?

If you find any errors or have any other suggestions for improvement, indicate the title and part number of the documentation along with the chapter/section/page number (if available) and contact the My Oracle Support.

Before sending us your comments, you might like to ensure that you have the latest version of the document wherein any of your concerns have already been addressed. You can access My Oracle Support site that has all the revised or recently released documents.
