Executive Summary

The document consists of all the installation, Pre and Post configuration procedures which have been structured considering all the 8.0.4.0.0 features. You can find the latest copy of this document in OTN library which includes all the recent additions/revisions (if any) done till date.

Before you begin the installation, ensure that you have an access to Oracle Support Portal with the required login credentials to quickly notify us for any specific issues. You can obtain one by contacting Oracle Support.

Preface

Oracle Financial Services Regulatory Reporting for De Nederlandsche Bank (OFS_AGILE_RP_DNB) enables the customers to enable the banks to comply with BCBS 239 regulations. It integrates risk data reporting systems and enhances the accuracy of reporting in banks. OFS Risk Regulatory Solution (RRS) helps in achieving the objectives by enabling preset steps based on the generalization of a set of solutions. This is made possible by:

- Providing a centralized data storage for risk data through relevant subject areas of Financial Services Data Foundation (FSDF).
- Interfacing with a Regulatory Reporting tool – OFS AgileREPORTER to build necessary template reports to meet the regulatory expectations.
- Managing accuracy of risk reporting through Data Governance Studio (DGS).

This document provides step-by-step instructions to install the Oracle Financial Services Regulatory Reporting for De Nederlandsche Bank (OFS_AGILE_RP_DNB) Release 8.0.4.

This chapter discusses the following topics:

- **Audience**
- **Scope**
- **Prerequisites for the Audience**
- **How this Guide is organized**
- **Documentation Accessibility**
- **Access to Oracle Support**
- **Recommended Environment**
- **Related Documents**
- **Conventions and Acronyms**

**Audience**

This manual is meant for Oracle Financial Services Regulatory Reporting for De Nederlandsche Bank System Administrator. It provides step-by-step instructions necessary for installing the OFS_AGILE_RP_DNB application components.

**Scope**

This manual provides a step-wise instruction to install Oracle Financial Services Regulatory Reporting for De Nederlandsche Bank.
Prerequisites for the Audience

Following are the expected preparations before starting the actual installation:

The document assumes you have experience in installing Enterprise components. Basic knowledge about the Oracle Financial Services Data Foundation Application Pack components, OFSAA Architecture, UNIX commands, Database concepts and Web Server/ Web Application Server is recommended.

How this Guide is Organized

The Installation Manual is organized into the following chapters.

- **Prerequisites** section identifies the hardware and base software environment that is required for a successful installation and functioning of the Oracle Financial Services Regulatory Reporting for European Banking Authority.

- **Installing the Application** section details the steps to be followed during the installation.

- **Post-installation Actions** section details the steps that are required to be performed after a successful installation of Oracle Financial Services Regulatory Reporting for European Banking Authority.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at [http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc](http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc)

Access to Oracle Support

Related Documents

This section identifies additional documents related to Oracle Financial Services Regulatory Reporting for De Nederlandsche Bank. You can access Oracle documentation online from OHC Documentation Library (OHC):

- Oracle Financial Services Regulatory Reporting for European Banking Authority User Guide
- Oracle Financial Services Data Foundation Installation Manual Release 8.0.3.1.0 Java 7 and Java 8
- Oracle Financial Services Analytical Applications Infrastructure Environment Check Utility Guide (present in this OHC Documentation Library)

1 Hardware and Software Requirements and Specifications

This section describes the various Operating Systems, Database, Web Server, and Web Application Server version and other variant details on which this release of the OFS Regulatory Reporting for De Nederlandsche Bank (OFS_AGILE_RP_DNB) application has qualified.

1.1 Configurations Supported for Java 7

The following table shows the minimum hardware and software requirements for OFS_AGILE_RP_DNB (Java 7) application on each machine.

<table>
<thead>
<tr>
<th>Requirement</th>

2 Preparing for Installation

This chapter provides necessary information to review before installing the OFS_AGILE_RP_DNB Application v8.0.4.0.0. This chapter includes the following topics:

- Obtaining the Software
- Prerequisites for Installation
- Configuration for GUI Mode Installation
- Copying and Extracting the Software

2.1 Obtaining the Software

This release of OFS_AGILE_RP_DNB 8.0.4.0.0 can be downloaded from the Oracle Software Delivery Cloud (https://edelivery.oracle.com). You need to have a valid Oracle account in order to download the software.

2.2 Prerequisites for Installation

The following are the prerequisites to install OFS_AGILE_RP_DNB application:

- OFS Analytical Applications Infrastructure 8.0.4.0.0 should be installed and configured in your Machine.
- OFS Data Foundation 8.0.4.0.0 Application Pack should be installed and configured in your Machine.
- OFS AgileREPORTER version 1.15.2 should be installed and configured in your Machine.
- Make sure you have executed .profile before you trigger the installation.
- Make sure FIC Server is up and running before you trigger the installation. For information on restarting the services, Refer OFS AAI Release 8.0.4.0.0 Installation Guide (OHC Documentation Library) for more information.

2.3 Configuration for GUI Mode Installation

To install OFS_AGILE_RP_DNB in GUI mode, you need to ensure the below software and configurations are available:

- Install and configure any PC X Server software such as Open Text Exceed (formerly Hummingbird Exceed) on the user desktop system from which the installation is triggered.
- Configure DISPLAY variable.
  
  Ensure to set the DISPLAY variable on the system on which the OFSAA is installed, to point to the user desktop system where the PC X Server software has been installed.
  
  Syntax:
  
  export DISPLAY=hostname:n.n1

  where, hostname is the IP Address/ Host Name of the user desktop system and n is the sequence number (usually 0).

  For example, 10.11.12.13:0.0 or myhostname:0.0
2.4 Copying and Extracting the Software

Once you obtain the installer, copy the installer (in BINARY mode) to the system on which the OFS_AGILE_RP_DNB application components are installed.

**NOTE:** You must be logged in to the UNIX operating system as a non-root user.

1. Download the unzip utility (OS specific) `unzip_<os>.Z`, and copy it in Binary mode to any directory and include the directory in your PATH variable. If you already have the unzip utility to extract the contents of the downloaded archive, skip to the next step.

2. Uncompress the unzip installer file using the command:
   ```
   uncompress unzip_<os>.Z
   ```

   **NOTE:** In case you notice an error message "uncompress: not found [No such file or directory]" when the package is not installed, contact your UNIX administrator.

3. Give EXECUTE permission to the file using the command:
   ```
   chmod 751 unzip_<os>
   ```
   For example, `chmod 751 unzip_sparc`

4. Extract the contents of the OFS_AGILE_RP_DNB 8.0.4.0.0 in the Download Directory installer archive file using the following command:
   ```
   unzip OFS_AGILE_RP_DNB_8.0.4.0.0_<os>.zip
   ```

   **NOTE:** DO NOT rename the Application installer folder name on extraction from the archive.

5. Give below permission to the installer folder. Navigate to the Download Directory and execute the command:
   ```
   chmod –R 755 OFS_AGILE_RP_DNB
   ```
3 Oracle Financial Services Regulatory Reporting for De Nederlandsche Bank

The OFS_AGILE_RP_DNB installer can be installed in both GUI and silent mode.

For executing the installer in silent mode, refer to the section Silent Mode Installation.

For running in GUI mode:

1) Log in to the system as non-root user
2) Execute the user .profile
3) Navigate to installer location OFS_AGILE_RP_DNB/bin
4) Run the installer in GUI Mode by executing the command:
   
   ./setup.sh GUI

Refer to the below steps for installation in GUI mode:

1. Execute the following command to start the installation for Oracle Financial Services Regulatory Reporting for De Nederlandsche Bank – Lombard Risk Integration Pack:

   ./Setup.sh GUI

   
   /scratch/ofsaapp1/kit/804/OFS_AGILE_RP_DNB/bin>ls
   Setup.bin  Setup.sh
   /scratch/ofsaapp1/kit/804/OFS_AGILE_RP_DNB/bin>./Setup.sh GUI

   Shutdown of OFSAAI services started...

   Installation Start Screen
2. The Introduction screen displays the prerequisites for installation. Ensure that the prerequisites are satisfied before you proceed.
3. Choose the **Log Mode** for this installer. If you select, **Debug**, the Passwords are printed in the log file.

![Pre-Setup Information – Log Mode Screen](image)

4. In the **Pre-Setup Information** screen, specify the existing infodom name to be used for the application installation and click **Next**.

![Pre-Setup Information – Infodom Type Screen](image)
5. In the **Pre-Setup Information** screen, select **New application/source pair** to create a new ETL application and click **Next**.

6. In the **Pre-Setup Information** screen, enter the **ETL Application Name** and **Description** as you wish and **ETL Source Name** and **Description** as you wish. Then click **Next**.
7. In the **Pre-Setup Information** screen, enter the **OFSAAI User ID** and click **Next**. Default Value is: **SYSADMIN**

![Pre-Setup Information – OFSAAI User ID Screen](image)

8. The **Pre-Install Configuration (Please Wait)** screen is displayed.

![Pre-Install Configuration – Please Wait Screen](image)
9. Review the settings in the **Pre-Installation Summary** screen and click **Install**.

![Pre-Installation Summary Screen](image)

10. The following message is displayed. Select **Yes** to begin the installation process.

![Confirmation Screen](image)
11. The **Installing SolutionSetup** screen is displayed.

![Installing SolutionSetup Screen](image)

12. The **Install Complete** screen is displayed.

![Installation Complete Screen](image)
13. Refer to the log file created in the path `/OFS_AGILE_RP_DNB/logs` of installer directory for any error messages.

14. Click **Done** to complete the installation.
4 Silent Mode Installation

Silent installation is achieved via a properties file (Silent.props) that must be updated with proper values, before attempting to install using the silent mode. Follow the below steps to install the product in Silent Mode:

1) Navigate to installer directory OFS_AGILE_RP_DNB/conf containing the template file Silent.template.

2) Create a copy of this file and rename the copy as Silent.props.

3) Edit the Silent.props file and specify the parameters as per the requirements.

The following table lists all the properties that must be specified.

<table>
<thead>
<tr>
<th>Property Name</th>
<th>Description of Property</th>
<th>Permissible Values</th>
<th>Comments</th>
</tr>
</thead>
<tbody>
<tr>
<td>LOG_MODE</td>
<td>Mode for logging</td>
<td>0 = Debug 1 = General</td>
<td>Optional; Default : 0</td>
</tr>
<tr>
<td>INFODOM_NAME</td>
<td>Specify name of Information Domain (Infodom) into which you wish to install.</td>
<td>For example: OFSBFNDINFO</td>
<td>MANDATORY. Specify Infodom Name Value where FSDF Application is got installed</td>
</tr>
<tr>
<td>APPFTP_LOG_PATH</td>
<td>Specify the Infodom App Maintenance log path</td>
<td>For example: /home/ftpshare/OFSBFNDINFO/logs</td>
<td>MANDATORY. Path value should be same as the path which was given during FSDF installation</td>
</tr>
<tr>
<td>DBFTP_LOG_PATH</td>
<td>Specify the Infodom DB Maintenance log path</td>
<td>For example: /home/ftpshare/OFSBFNDINFO/logs</td>
<td>MANDATORY. Path value should be same as the path which was given during FSDF installation</td>
</tr>
<tr>
<td>SEGMENT_1_CODE</td>
<td>Specify the De Nederlandsche Bank Segment Code</td>
<td>For example: DNBRPSEG</td>
<td>MANDATORY</td>
</tr>
<tr>
<td>ETL_APPSRC_TYPE</td>
<td>Please specify if you want create new ETL App/Src pair or use an existing one.</td>
<td>0 = If you want to create a new ETL app/src pair 1 = If you want to use an existing pair</td>
<td>MANDATORY</td>
</tr>
<tr>
<td>ETL_APP_1_NAME</td>
<td>Specify the ETL Application Name where the Definitions will be deployed.</td>
<td>For example: DNB</td>
<td>MANDATORY</td>
</tr>
<tr>
<td>------------------</td>
<td>-----------------------------------------------------------------------</td>
<td>------------------</td>
<td>-----------</td>
</tr>
<tr>
<td>ETL_SRC_1_1_NAME</td>
<td>Specify the ETL Source Name into ETL Area Definitions will be deployed</td>
<td>For example: PROCESSING</td>
<td>MANDATORY</td>
</tr>
<tr>
<td>ETL_APP_1_DESC</td>
<td>Please give description for the ETL Application</td>
<td>For example: DNB Application</td>
<td>MANDATORY</td>
</tr>
<tr>
<td></td>
<td></td>
<td>WHEN ETL_APPSRC_TYPE = 0</td>
<td></td>
</tr>
<tr>
<td>ETL_SRC_1_1_DESC</td>
<td>Please give description for the ETL Source</td>
<td>For example: DNB Processing Source</td>
<td>MANDATORY</td>
</tr>
<tr>
<td></td>
<td></td>
<td>WHEN ETL_APPSRC_TYPE = 0</td>
<td></td>
</tr>
</tbody>
</table>

1) Log in to the system as **non-root** user
2) Execute the user `.profile`
3) Navigate to installer location `OFS_AGILE_RP_DNB/bin`
4) Run the installer in SILENT Mode with the following command:
   ```bash```
   
   `./setup.sh SILENT`
   ```bash```

Refer to the console log (or the `preinstall.log` file) for any error messages.
5 Post Installation Actions

After the installation is complete, perform the following activities:

- Refer to the log file in the path `/OFS_AGILE_RP_DNB/logs` to ensure that there are no errors reported.
- Restart all the OFSAAI Servers. Refer OFS AAI Release 8.0.3 Installation Guide (OTN Documentation library) for more information.

The Oracle Financial Services Regulatory Reporting for De Nederlandsche Bank is now ready for use. If you encounter any problems during set up, contact OFSAA Support at Oracle Support Services.
6 Config Package and Template Package Deployment

This section describes the order to deploy the config package after saving the derived entities:

1. To deploy the product configuration on AgileREPORTER using the package AR_DNB_Package_v1_0_0_2.zip bundled inside Template_Package folder of installer:
   a. Navigate to <AgileREPORTER>/bin under the installed location
   b. Add a new configuration with the following command:
      ```bash
      ./config.sh -a <Template_Package Full Path>
      ```
      For example:
      ```bash
      ./config.sh -a /scratch/kit/803/OFS_AGILE_RP_DNB/
      Template_Package/ AR_ECR_Package_v1_25_0_4.zip
      ```

2. To deploy the product configuration on AgileREPORTER using the package OFSAA_REG_REP_DNB_80400.zip bundled inside Config_Package folder of installer:
   a. Navigate to <AgileREPORTER>/bin under the installed location
   b. Add a new configuration with the following command:
      ```bash
      ./config.sh -a <Config_Package Full Path>
      ```
      For example:
      ```bash
      ./config.sh -a /scratch/kit/803/OFS_AGILE_RP_DNB/Config_Package/
      OFSAA_REG_REP_DNB_80400.zip
      ```
   c. Activate the configuration with the following command:
      ```bash
      ./config.sh -t OFSAA_REG_REP_DNB_80400 -iv 8.0.4.0.0
      ```
   d. Update the Alias with the following command:
      ```bash
      ./config.sh -ea OFSAA_REG_REP_DNB_80400 -iv 8.0.4.0.0 -alias
      "OFSAA DNB DATA SOURCE" -aif
      <AgileREPORTER>/bin/aliasinfo.properties
      ```

If you encounter any problems during deployment, contact OFSAA Support at Oracle Support Services.
