# 1. Create User Utility

## 1.1 Introduction

This chapter details out the configuration of create user utility.

## 1.2 Steps to be followed for Create User Utility

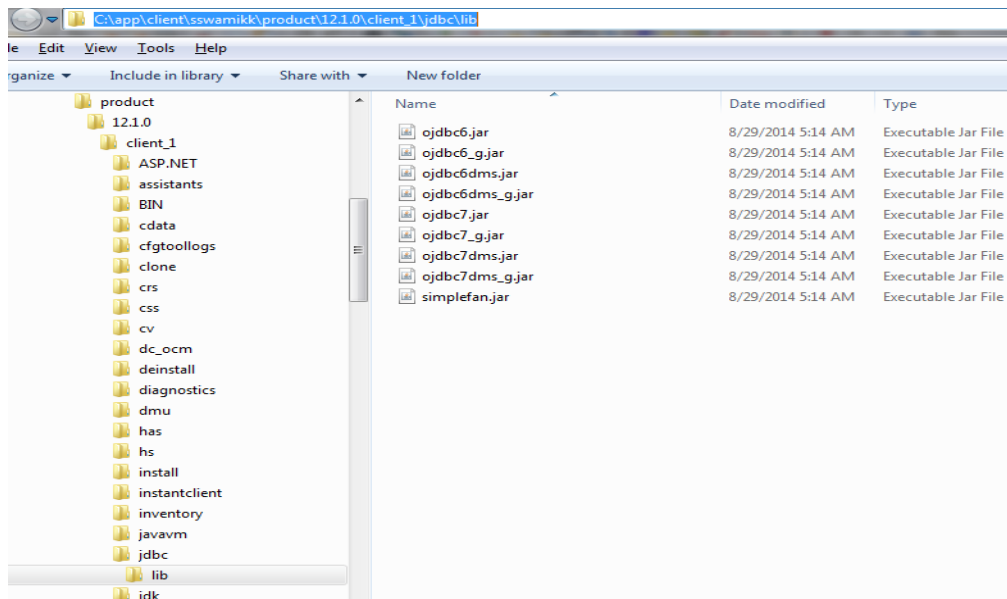

1. Go to the CreateUserUtility folder in the OSDC Package.

2. Right Click **CreateUserUtility** Folder and open Command Prompt and go to bin folder.

3. To set the Classpath, Search for **ojdbc7.jar** file, that will be available in **Oracle Database Client** folder.

4. Set the Class path in Command prompt, run the below command.

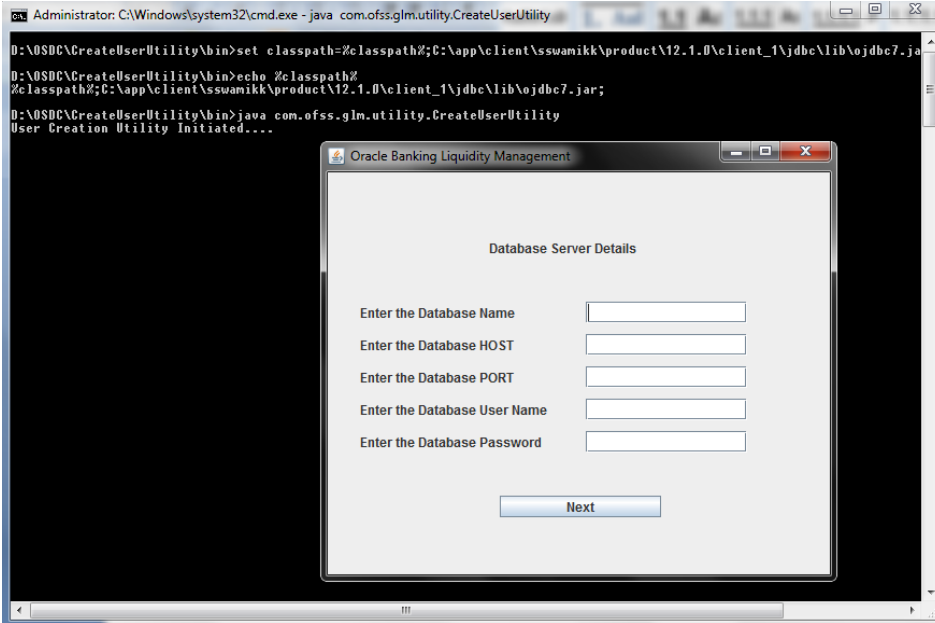

set

```
classpath=%classpath%;D:\Oracle\product\12.1.0\dbhome_1\jdbc\lib\ojdbc7.jar;
```

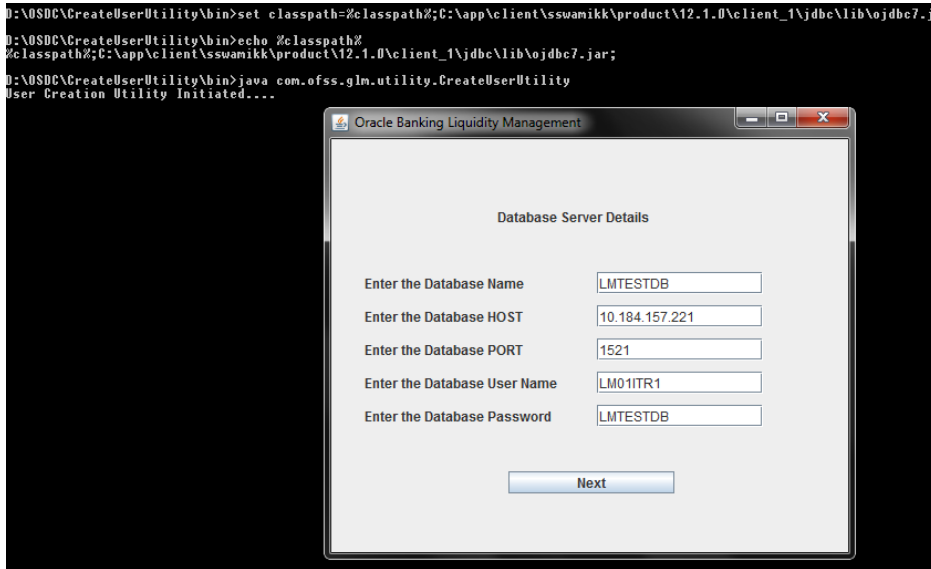

5. Run the **CreateUserUtility** class by entering the following command:

```
java com.ofss.glm.utility.CreateUserUtility
```

6. Enter **Database Server Details**, Find the sample data below

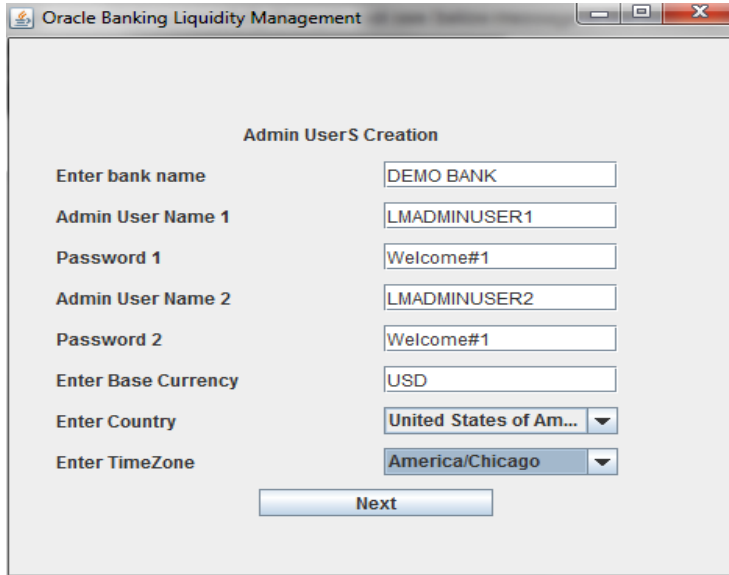

Database Name: LMTESTDB  
HOST: 10.184.157.221  
PORT: 1521  
User Name: LM01TR1  
Password: LMDB

If Database connected successfully then you can see below message in the console,

```
Connecting to Database.....  
Database Connected.....
```

7. Create Admin Users to login to the application.

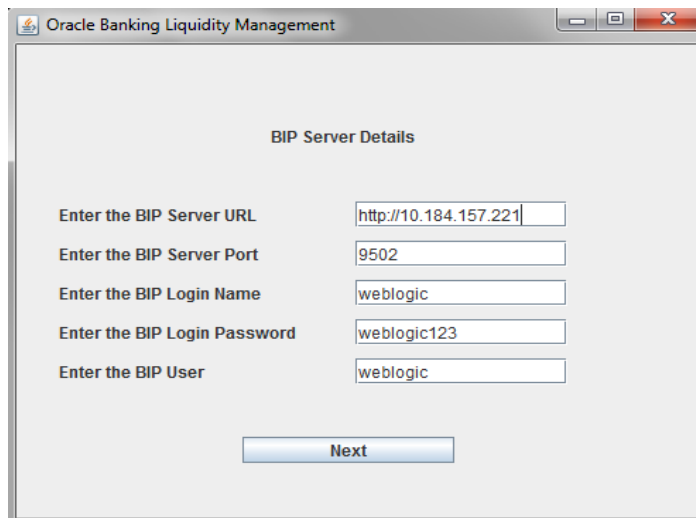

The screenshot shows a window titled "Oracle Banking Liquidity Management" with a form titled "Admin UserS Creation". The form contains the following fields and values:

Field	Value
Enter bank name	DEMO BANK
Admin User Name 1	LMADMINUSER1
Password 1	Welcome#1
Admin User Name 2	LMADMINUSER2
Password 2	Welcome#1
Enter Base Currency	USD
Enter Country	United States of Am...
Enter TimeZone	America/Chicago

A "Next" button is located at the bottom of the form.

Sample values are available in the Text box, proceed with the same names and passwords or give your inputs.

8. Enter **BIP Server Details**

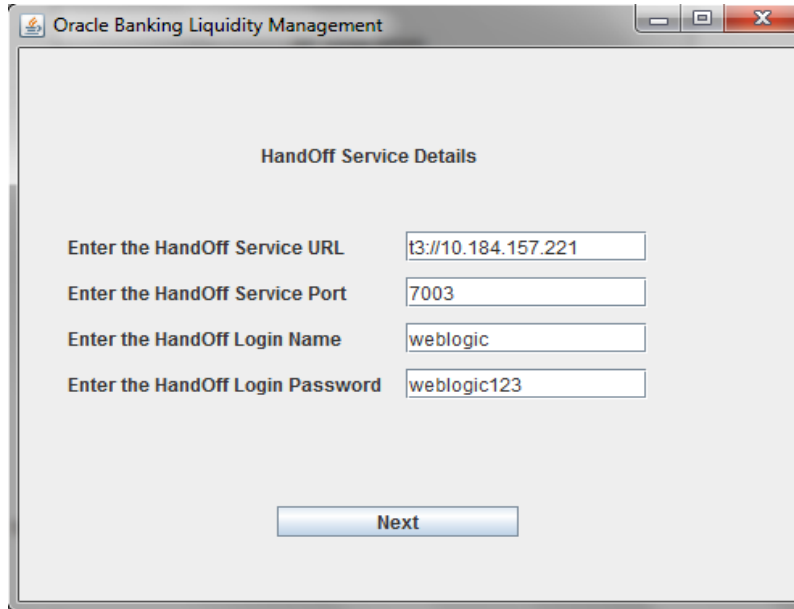

The screenshot shows a window titled "Oracle Banking Liquidity Management" with a form titled "BIP Server Details". The form contains the following fields and values:

Field	Value
Enter the BIP Server URL	http://10.184.157.221
Enter the BIP Server Port	9502
Enter the BIP Login Name	weblogic
Enter the BIP Login Password	weblogic123
Enter the BIP User	weblogic

A "Next" button is located at the bottom of the form.

BIP Server Sample details are available in the text boxes , but whatever the details given during the BIP installation should be given here.

9. Enter **Handoff Service Details** here; These details are required for calling the JMS queue, so Service URL and PORT should be Applications Local host URL and PORT. Login Name and Password should be the Application Server's User Name and Password. If the server is SSL then the Service URL will be **t3s://10.184.157.221** and Port should be SSL Port.

Oracle Banking Liquidity Management
