Overview & Objectives

Liquidity Management refers to the services the bank provides to its corporate customers thereby allowing them to optimize profit on their checking / current accounts and pool funds from different accounts.

- The Islamic Integrated Liquidity Management (II) module in Oracle FLEXCUBE supports multibranch, multi-currency liquidity management structure using architecture of 'System Accounts'. This enables the system to keep track of balances in accounts in the structure, calculate profit on the accounts in the structure as well as track the history of the sweep / pool structure.
- Islamic liquidity management services are broadly classified as under
 - Sweeping - where physical funds are moved in account structure from child to parent or parent to child.
 - Pooling - where funds are not physically moved in and out of accounts. Instead, the account balances are notionally consolidated and 'profit computations' carried out such notional balances
- Options available to automate periodic processes such as :
 - Accrual of accounts
 - Liquidation of deposits on liquidation frequency defined.

Product Catalogue

1. ILM deposit with header benefit

This offering has all basic features that are needed for a corporate customer to open an account which could participate in the account structure. Moreover, it contributes its balance maintained in each account to a FUND in order to get the profit.

1.1. Business Scenario

The Header account of an account structure will consolidate the whole balance for an ILM group. The profit for this account would be calculated for the balance accumulated through account structure.

Target audience / Beneficiaries: Corporate who wants to participate in liquidity management.

1.2. Synopsis

- Weekly detailed statement
- FUND ID linked to the account Class
- Integrated liquidated management option is enabled

1.3. Detailed Coverage

- Deposits can be opened in GBP currency under this account class
- Daily profit accruals for pool or sweep balances.
- Liquidation at monthly ends
- Back value dated profit adjustments for accruals and liquidations
- Defer liquidation days as 6
- Facility to calculate profit based on pool header profit product
- ATM transaction is allowed

1.4. Account class - IILMHA

Account Class → Details	
Account Type	Current
Account statement format	ACST_DETAILED

Account Class → Preferences	
Limit check	Yes
Overdraft	Yes
Track receivable	Yes
Account statistics	Yes
Exclude Same Day Reversal Transactions from Statement	Yes

IILMCH	GBP	Yes	No	No	No

2.7. Additional information

- Fund id is maintained and attached to account class

3. Integrated liquidity management – Other maintenances

Various maintenances to be done for ILM are listed in this section.

3.1. Event class code maintenance

Event class needs to be maintained for IL module with events as SWBK & RVSU to facilitate sweeps.

Event code ILMTEST is maintained and the below events have been maintained,

<i>Events</i>	<i>Accounting role</i>	<i>Amount tag</i>
SWBK	CHILD	CR_CONT
SWBK	CHILD	DR_CONT
SWBK	PARENT	CR_CONT
SWBK	PARENT	DR_CONT
RVSU	CHILD	CR_CONT
RVSU	CHILD	DR_CONT
RVSU	PARENT	CR_CONT
RVSU	PARENT	DR_CONT

3.2. Group code maintenance

Group code needs to be maintained with different parameters. Below group codes have been maintained in 005 branch,

<i>Group code</i>	<i>Pool benefit</i>	<i>Sweep basis</i>	<i>Intraday sweep</i>	<i>Back value</i>	<i>Back value unit</i>	<i>Back value duration</i>	<i>Reverse sweep</i>
ISLGRBV	Yes	Value date	No	Yes	Monthly	1	Yes
ISLGRP	Yes	Value date	No	No		-	No
ISLGRSU	Yes	Value date	No	No		-	Yes

3.3 Islamic weight maintenance

Islamic weights need to be maintained to apply profit rate on the entire investment to fund id based on weightage. Weightage is defined for amount, tenor and profit payout frequency combination. On profit distribution on defer liquidation days, weights are applied on investment and individual profit is arrived. Following is the weight maintenance done for account classes IILMCH & IILMHA and fund id IAFD10005 combination,

Value Category		Tenor Category		PPO category			
<i>Amount slab</i>	<i>Weight</i>	<i>Tenor</i>	<i>Saving / current account</i>	<i>Days</i>	<i>Months</i>	<i>Years</i>	<i>Weight</i>
10000	50	99	70	0	1	0	50
25000	55			0	3	0	60
50000	60			0	6	0	55
100000	65			0	12	0	66
350000	75						
99999999	85
