2.1 Stages in Retail Loan Creation

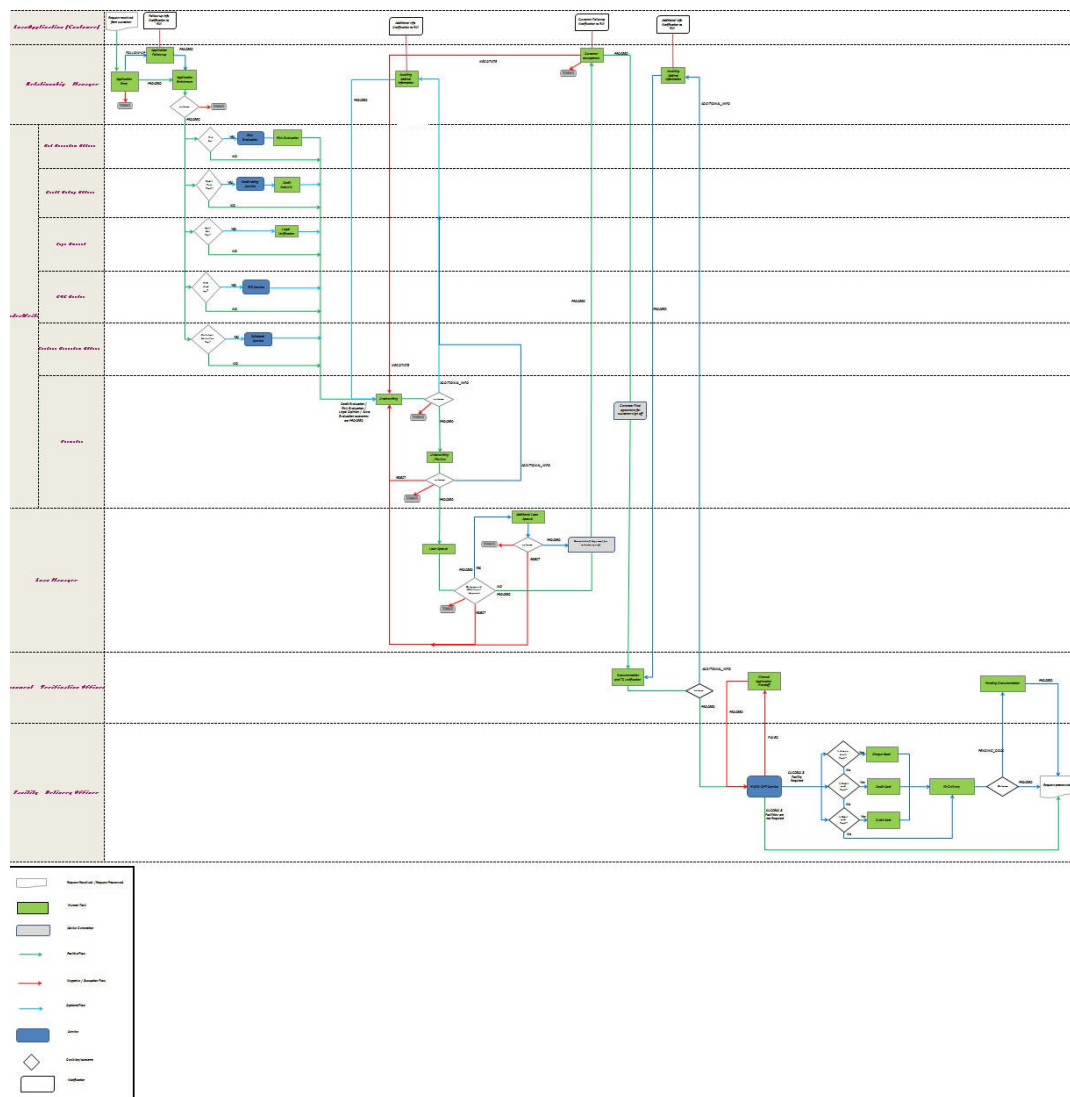

The process of creating a collateral involves the following stages:

- **Application Entry** - In the application entry stage, the user captures all the loan requirements of the customer based on the type of loan. You can also capture additional request for facilities like cheque book, debit and credit card issuance along with loan application.
- **Application Follow-up** - At this stage the documents collected from the customer is scanned and uploaded. If the documents are not submitted, then it is followed up with the customer.
- **Application Enrichment** - In this stage the application is enriched with details like professional, financial, linkage, asset, working capital and so on. If the applicant is not an existing customer, additional details of the customer are also captured at this stage.
- **Credit Check** - Credit information of the customer will be pulled for evaluation from various rating agencies. After the credit rating process is completed for the loan application, the internal or external service provide the credit score and rating for the applicant.
- **Credit Evaluation** - At this stage, credit officer evaluates the credit and analyses again to check if there are any changes in the credit rating. If there is a change in the credit rating, then the Credit Officer provides reason for the change.
- **Risk Check** - In this stage the risk involved with the loan application is analysed and shared.

- Risk Evaluation - In this stage the Risk Assessment Officer collects the risk associated with the loan application from various services. The income/expense details, asset/liability details of the customer is considered during the evaluation of the risk. The reported risk related documents are uploaded after risk analysis.
- Legal Verification - Any legal constraints associated with the applicant and the loan application are evaluated in this stage.
- KYC Review - In this stage a background verification is done on the loan applicant and the KYC compliant information of the customer is submitted.
- Collateral Evaluation - The collaterals submitted for the loan application are evaluated at this stage. After evaluation the details are passed on to the underwriter.
- Underwriting - The underwriter collects the reports from various departments and arrives at a best offer for the loan application. Underwriter reviews the application and prepares review note to proceed or reject the application.
- Awaiting Additional Information - At this stage, any additional information requested by the underwriter will be followed up with the customer and captured in the application. Any missed out document or documents without customer attestation are collected and uploaded in this stage.
- Underwriting Review - During this stage the loan application is reviewed and verified and is forwarded for approval and sanction if there is no discrepancy.
- Loan Approval - At this stage, the Loan Manager verifies the reports of underwriting department and approves the loan for sanction. For any clarification, the loan application will be send back to underwriting or review stage for collecting the required information.
- Additional Loan Approval - You can send the application for approval from a senior loan manager who will verify and provide approval for the loan. This stage is triggered only if 'Additional Approval Required' check box is checked.
- Customer Acceptance - At this stage the customer signs the loan sanction letter and accepts the granted loan. The signed copy of the sanction letter is uploaded to the system.
- Documentation and TC Verification - All the legal and regulatory compliance checks are performed in this stage. The loan documents are prepared and uploaded to the system to complete the application process.
- Awaiting Additional Information - At this stage, the missed out information are collected from the concerned department for loan agreement preparation. At this stage you can adjust the loan effective date if there is a delay in the sanctioned application process.
- Sanction/Handoff - At this stage, an automated sanction will be performed by the system once all the documents are approved for loan application. The application details are handed over to various services like customer, customer account, limits, collaterals, cards and loans.
- Manual Application Handoff - If there is any exception like unavailability or error in the system while sanctioning the loan, then the loan application will be manually taken up by the loan administrator for the processing.
- Debit Card Follow-up - At this stage, the account manger will follow-up for the debit card delivery.
- Credit Card Follow-up - The account manager follows up for the credit card delivery.
- Cheque Book Follow-up - The account manager follows up for the cheque book delivery.
- Kit Delivery - This stage is mandatory if facilities like cheque book, debit card or credit card are availed. The facility manager will keep record of the kit number and verifies the delivery address for the facility kit dispatch.
- Pending Documentation - The documentation team will prepare the loan documents for execution.
