Welcome to Getting Started User Guide

The Procedure User Guide helps you get started with Oracle Banking applications. This user guide explains the basic design of Oracle and the common operations that you can follow while using it. This user guide should be used as a supplement and must be read in conjunction with Common Core, Security Management System and other application user guides.

This document is intended for the Customer Service Representatives (CSRs) and staff in charge of setting up new products in your bank.

Accessing Application

You can access any application using the link provided by the administrator.

Signing In

1. Enter the URL in the browser address and press Enter. The application page appears.

![Sign In Form]

2. Provide the required information:
   - User Name: Enter the user name provided by the administrator.
   - Password: Enter the password provided by the administrator.

3. Click Sign In to log into the application.

Signing Out

1. In the selected application > toolbar, click the user name logged into the application. The User Profile fly-out menu appears.
2. Click Log Out to sign out of the application.

Application Environment

On successful login, the selected application appears depending on the user privileges. A sample illustration of the home page:

1. Hamburger Menu: Use to expand/collapse the menu.
2. Menu: Use to navigate/open the screens associated with the application.
3. Sub-Menu: Click the menu to view the sub-menu associated with the menu. These are screens associated with the menu.
4. Display Grid: Displays the screens/dashboards selected using the menu.
5. Bank Name: Displays the name of the bank.
6. Branch Code: Displays the branch associated with the bank. Click to select the branches associated with the logged in user.
7. Date: Displays the date on which the branch’s EOD was last performed.
8. User Profile: User profile related options and actions are available.
How to’s

As a new user you might require to perform a set of tasks that are similar in all the screens such as to view, edit, delete existing records and more. These tasks explain how to begin working with your record:

<table>
<thead>
<tr>
<th>Viewing Records</th>
<th>Searching Records</th>
</tr>
</thead>
<tbody>
<tr>
<td>Editing Records</td>
<td>Copying Records</td>
</tr>
<tr>
<td>Unlocking Records</td>
<td>Deleting Records</td>
</tr>
<tr>
<td>Printing Records</td>
<td>Authorizing Records</td>
</tr>
<tr>
<td>Minimizing Records</td>
<td>Closing Records</td>
</tr>
</tbody>
</table>

When you are working with records, it is important to remember that the types of records you can create, view, edit, delete, and so on are determined by administrator settings, such as a user profile or permission set. Work with your administrator to ensure you have access to the records and data you need.

Now that you have learned how to work with your records, you might want to explore more advanced features.

Viewing Records
