

Textura Payment Management v22.6 Release Notes

Release date: June 13th, 2022

What's New in This Release?

The Textura v22.6 release includes improvements to the user interface, new functionality, and numerous bug fixes.

Below is a summary of the overall changes:

- We've refreshed the **Confirm Contract** page for Head Contractors to make it easier to use!
- **Edit Potential Change Orders** has been refreshed to further simplify your experience and to unify the user interface across Textura.
- **Integration Home** now supports the ability to manage Document Images from the Exported Records tab. Failed exports can easily be reexported from this page!
- The **TPA Program Dashboard** has been updated to allow the ability define a program type (with or without maturity), subcontractor rate, and schedule the timing of TPA progress claim processing.
- For Head Contractors in Australia, Security of Payments functionality is improved to default SOP to be checked for specific regions.
- Numerous bugs have been fixed in this release.
