Key Enhancements Implemented

Product Area	Feature	Details	Personas Impacted
Organisation Settings	New Roles and Permissions Section with New Compliance Document Hold Setting	A new organisation setting has been added to organisation settings called “Disburser role required to release compliance document holds”. When the setting is enabled in an organisation’s settings, users within the organisation must have the disburser role at the project level in order to release compliance document holds Note, this setting is currently only accessible to Textura employees. Please contact your Textura rep if you would like this setting enabled.	☒ Owner ☒ HC ☐ Subcontractor ☐ Sub-tier
Project Settings	Update Project Display Name Used in Projects	This new project setting enables a HC or owner to display a secondary organisation name to their subcontractors in the application and in application emails. - Display of the funding organisation name is optional and can be configured in project settings - The default will continue to be the organisation’s primary name when the setting is not used - The list of available names in the Project Display Name dropdown is the list of secondary organisations tied to the organisation - When enabled, subcontractors will: - See the Project HC Display Name display name within the TPM User interface (e.g. ‘Accept Contract’, ‘Project Participants’). - Emails received by subcontractors will show as having been sent From the specified name.	☒ Owner ☒ HC ☒ Subcontractor ☒ Sub-tier
Textura Payment Accelerator (TPA)	TPA emails sent to HCs and subs reminding both of TPA invoice “age out” dates have been updated	TPA age out notifications have been updated to more clearly call out actions needed for invoices that approaching the TPA cutoff date (a setting configured by HCs in their TPA program). Note that invoices not disbursed or not extended by the subcontractor by the cutoff date will fall back to standard payment terms.	☒ Owner ☒ HC ☒ Subcontractor ☐ Sub-tier

		The notifications have been updated as follows: - Subcontractor PA508 notifications: <i>"The Invoice for draw 1 on project TPA project is nearing the TPA program cutoff date of 28-Apr-2023. Payments not initiated by their cutoff date <u>will not be accelerated</u> and will be paid in accordance with the payment terms of your subcontract. This project offers the option to extend your cutoff date so that you can still benefit from an accelerated payment."</i> - HC PA509: <i>"Payments not initiated by their cutoff date <u>will not be accelerated</u> and will be paid in accordance with the payment terms of the subcontract."</i>	
Textura Payment Accelerator	EWD Status Details Report Has Been Updated to Include TPA payments	TPA payments have been added to the EWD Status Details report available to disbursers after disbursing payments in Textura. Disbursers will now see both TPA and non-TPA payments in the EWD Status Details report when generating the report.	☐ Owner ☒ HC ☐ Subcontractor ☐ Sub-tier
Enter Billing	Organisations Can See Billing Comments from Their Subcontractors on the Modify Billing Page	Users can now leave comments in the comment modal while entering billing. - Previously, only HCs or Owners could leave comments on the Modify Billing page for their subcontractors to view - HCs or owners can view the comments added by their subcontractors in the comment modal in the 'Modify Billing Details Screen'	☒ Owner ☒ HC ☒ Subcontractor ☒ Sub-tier
Variations	Remove Subcontractor-Requested Variations from Owner Billing Documentation	Variations being requested by subcontractors are also appearing on owner billing documents that are being generated by HCs. This change removes subcontractor-requested variations to HCs from owner billing documents	☒ Owner ☒ HC ☐ Subcontractor ☐ Sub-tier
Variations	Enhancements to the Variation Module for Viewing, Matching, Approving, and/or Deleting Imported Variations	The Variations page has been enhanced as follows: Users can view unallocated, imported variations in a tab called Match Variations on the Variation page	☒ Owner ☒ HC ☐ Subcontractor ☐ Sub-tier

		- Multiple variations can be consolidated and approved on the Match Variations tab - Variations can be deleted on the Match Variations tab - The Match Variations tab has been modernized in terms of look and feel	
Owner Funding	Project Search Has Been Added to Add Payment in Owner Funding	Users can now search projects by project name and project number to assign owner payments to projects. When searching for an owner payment, users will see both the project name and number in the project dropdown list to select.	☐ Owner ☒ HC ☐ Subcontractor ☐ Sub-tier
DocWriter	Improvements to the DocWriter Homepage	The following changes have been added to DocWriter to help with navigation and usability: - A help link is now accessible in the dropdown menu in the top righthand corner of DocWriter - Status badges ('Legacy', 'Draft', 'New', 'In Review', etc.) have been added to the document array for each document template - The 'Document Name' column has been widened for displaying longer template names	☒ Owner ☒ HC ☐ Subcontractor ☐ Sub-tier
Integration	New Web Service called 'getProjects' for Owners to Retrieve a Project List from Textura	A new web service has been built for owners to retrieve a list of projects from Textura. - The new API is called 'getProjects' - The new API is only accessible to owners in Textura	☒ Owner ☐ HC ☐ Subcontractor ☐ Sub-tier
Project Fees	Project-Level Tax Has Been Added to the Project Fees Page	Line level tax information will now be displayed in the Project Metering Data tab of the Project Fees page. This change allows HC and owner admin users to review their project fees. Line level tax is displayed on the Project Fees page in a new column called "Tax This Period"	☒ Owner ☒ HC ☐ Subcontractor ☐ Sub-tier
Project Settings	New Subcontractor Invoice Number Formats	New invoice number formats have been created for HCs and Owners to use in projects. The new invoice number formats use the following rules:	☒ Owner ☒ HC ☒ Subcontractor ☒ Sub-tier

		• Contract Number – Sub Pay App Number • T+Subcontract#subPayAppNumber • R[sub pay app#]-draw end date(MM/YY)-project number (last 4 characters with final character omi • Subcontract#(Characters1-6)Subcontract#(Characters9-13)Draw#(2digits) • Subcontract#(Characters1-6)Subcontract#(Characters11-15)Draw#(2digits) • Subcontract#(Characters1-2)Subcontract#(Characters4-6)Subcontract#(Characters9-10)Subcontract#(Characters12-15)Draw#(2digits)
