Security Best Practices

1. Do **not share** your Oracle Textura Payment Management username or password with others.
2. Enable a **verification phone number** to better protect your account from unauthorized password changes. Additionally, having a verification phone number will provide the ability to retrieve your username.
3. Do **not share** your verification code with anyone. Not even Oracle support will ask you for a verification code sent to your phone.
4. Designate **two Enterprise Administrators** for your organization.

User Role and Permission Management

Continued improvements

- Bulk Project Updates
- Introduction of guided process, allowing step by step bulk updates
 - Assign / Unassign permissions across multiple projects easily
 - Sort, filter, and select the projects to be updated
- Improved confirmation messaging notifies users of updates that have been applied, or issues that need to be addressed

The image shows two overlapping screenshots of a web application interface. The background screenshot is titled 'Select Roles' and has a 'Bulk Edit' header. It includes a 'Select action' section with radio buttons for 'Assign roles' and 'Unassign roles', and a 'Required' section for 'Select Project Roles' with checkboxes for 'Project Manager', 'Compliance Manager', 'Invoice Approver', 'Parallel Signatory Approver', 'Serial Signatory Approver', 'Signer', 'Authorizer', and 'Disburser'. The foreground screenshot is titled 'Select Projects' and also has a 'Bulk Edit' header. It features a search bar with the placeholder 'Search by Project Name, Project Number, or Segment' and a table with 12 items. The table has columns for 'Project Name', 'Project Number', 'Segment', and 'Date Created'. The table lists various projects such as 'Mile High - DIA', 'Mile High - Botanical Gardens', 'Mile High - State Park', 'Mile High - Rocky Mountain', 'Deerfield Park Community Center', 'Washington Park', 'City Center', 'Springfield Homes', 'Seattle Mall Renovation', 'Springfield Parking Garage', 'Springfield Police Department', and 'Lincoln School'. At the bottom right of the foreground screenshot are 'Cancel' and 'Continue' buttons.

Textura Payment Accelerator

Increased character limit for Fee Help Text

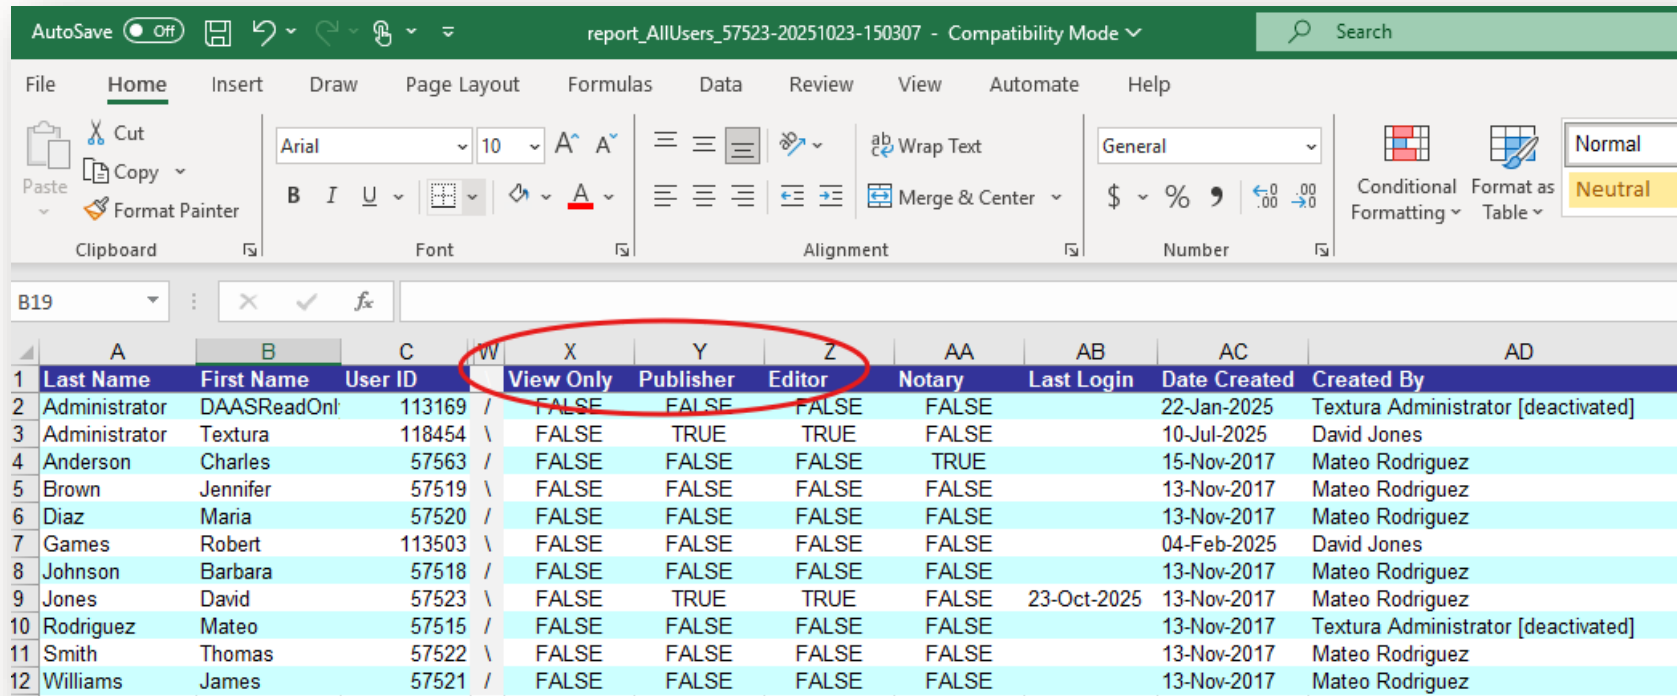

- Character limit for Fee Help Text has been increased to 1,000 characters.
- Increased ability for General Contractors to help their Subcontractors participating in their program to understand the fee being assessed to an invoice.
- Update only applies to Dynamic Discounting Program types.

Fee Help Text

The early payment fee is calculated based on the timing of your payment request. The fee dynamically changes each day and is determined by the number of days between the early payment request and the typical payment disbursement timeline. The earlier you receive payment, the higher the fee. As the disbursement date gets closer to the original due date, the fee decreases.

Bug Fixes

The following bug fixes are resolved with this release:

- Some users were unable to copy/paste text from their conversations with the Assistant
- Lien Waiver Status page performance degraded on projects containing > 1,000 manual contractors
- Subcontractors were blocked from signing their unconditional lien waiver, when the project's "notary required" setting was updated after invoice signing
