1. Release Notes

1.1 Background

Oracle Financial Services Software Limited has developed Oracle Banking Corporate Lending Process Management (OBCLPM), which enable banks to streamline their Corporate Lending operations. Oracle Banking Corporate Loans Process Management handles the business process for Bilateral Loan funding and servicing of Corporate Loans in addition to Quick Evaluation and Proposals generation.

A robust workflow engine enables transparency of the process from initiation to fulfilment and brings in rich user experience and process efficiencies.

1.2 Purpose

The purpose of this Release Note is to propagate the features of Oracle Banking Corporate Lending Process Management 14.1.0.0.0.

1.3 Abbreviations

Abbreviation	Description
BPEL	Business Process Execution Language
BPMN	Business Process Model and Notation
UI	User Interface
OBCLPM	Oracle Banking Corporate Lending Process Management

1.4 Release Highlights

The scope of the current release of Oracle Banking Corporate Lending Process Management version 14.1.0.0.0 is to support bank's Corporate Loans business processes for Bilateral Loan funding and servicing of Corporate Loans in addition to Quick Evaluation and Proposals generation with enhanced user experience that are essential in competitive market.

This release also focussed on technical qualification to comply with approved Tech Stack along with data privacy features.

1.4.1 Corporate Lending Loan Origination Processes

The following Corporate Lending Origination processes are supported in this release:

- Term Loans
- Working Capital Loan
- Real Estate Financing

1.4.2 Corporate Lending Servicing Processes

On the Servicing Side the Product caters to the Business process flows for:

- Maturity Extensions

- Rollover with Outstanding Principal with/without interest Capitalization

1.4.3 Corporate Lending Quick Evaluation and Draft Proposal Process

The Product caters to the Business process flow for quick evaluation and draft proposal generation

1.4.4 Application Category Configuration

The data that needs to be captured for various business processes that are supported in the product are grouped logically and shipped as data segments. These data segments are configured to the business process stages as per the Bank's requirement.

This feature provides a robust, flexible and powerful configuration mechanism to organize the Bank's process and data capture needs. Following are the data segments supported in the current release

- Draft Proposal
- Loan Details
- Applicant Details
