2. *Murabaha* Corporate Islamic Financing

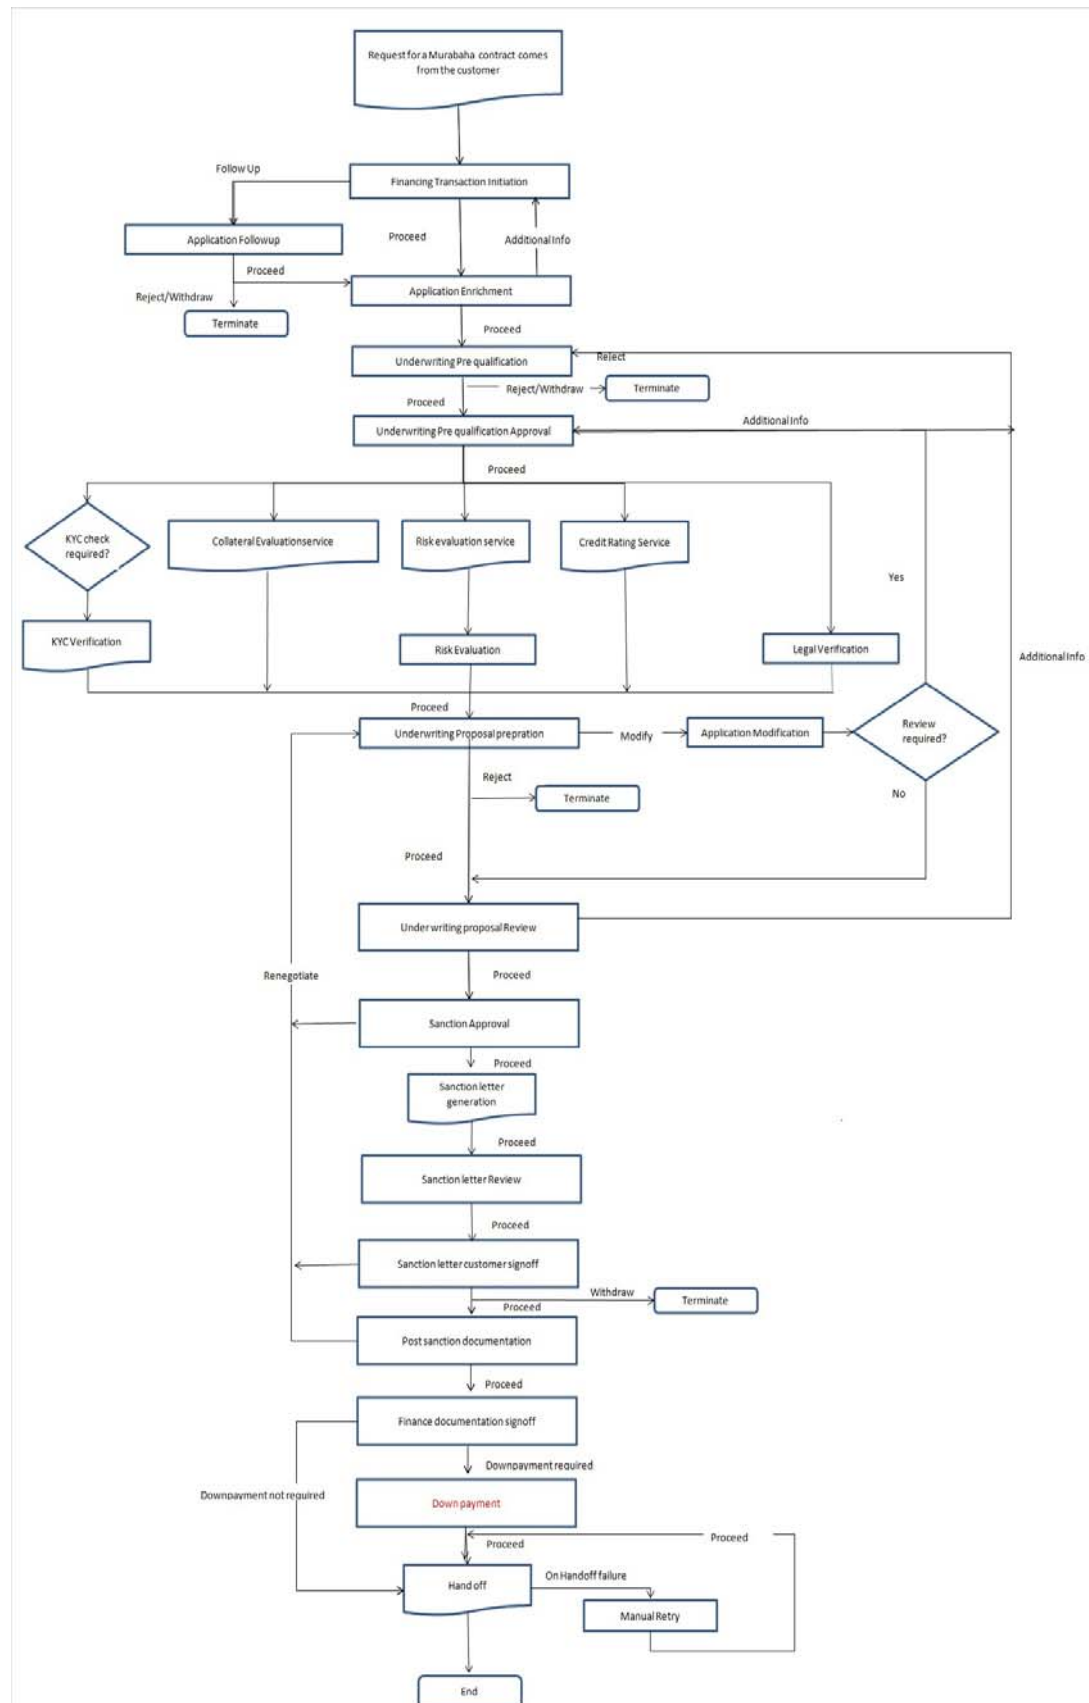

Oracle FLEXCUBE facilitates Corporate Islamic Financing through a process flow. The process of Corporate Murabaha Contract Creation gets initiated when a bank purchases the asset from a vendor on request from the client. The bank then sells the asset to the client on deferred payment basis with mutually agreed profit added to the cost of the asset. The deferred price may be more than the cash price, but it must be fixed at the time of the sale.

This chapter contains the following topics:

- [Section 2.1, "Process Flow Diagram"](#)
- [Section 2.2, "Process Matrix"](#)
- [Section 2.3, "Stages in Corporate Islamic Financing Process Flow"](#)

2.3 Stages in Corporate Islamic Financing Process Flow

Murabaha process flow uses Oracle BPEL framework with multiple human tasks for workflow stages. The capture and enrichment of information in multiple steps can be dynamically assigned to different user roles, so that multiple users can take part in the transaction. Oracle Business rules are used for dynamic creation of multiple approval stages.

Following are the steps followed while processing Corporate Murabaha Financing Transaction Initiation:

Step 1.Financing Transaction Initiation

In the application entry stage, you can initiate the Murabaha contract and capture the requested details. The system populates the applicants details maintained. You can capture the purchase details of the asset in the Purchase Details tab. The system defaults the Asset type from the product. Click 'Multiple Asset' button to enter the details about the asset. You can pull Lead data and simulate application details. You can attach interactions to the application and upload the documents maintained for this stage.

The screenshot displays the 'LBL_MUDARABAH_TEMPLATE' application form. The form is divided into several sections: 'Workflow Reference #' and 'Priority' (set to 'Low') at the top; 'Application Number *', 'Applicant Branch *', 'Application Date *', 'Application Category *', 'Application Type' (set to 'Murabahah'), and 'Asset Type' (set to 'Home') in the middle; 'Additional Details' section with 'Interaction Id' (with a 'View' button), 'Channel', 'Channel Reference', 'External Source', 'External Reference', and 'Additional Approval Required' checkboxes; 'Mudarib' section with 'Branch *', 'Type' (set to 'Existing'), 'Customer Id *', and 'Customer Name'; and 'Financing Enquiry' section with 'Lead Id' and 'Enquiry ID' (with a 'Default' button).
