

# Oracle® AutoVue Product Variations

Feature Matrix

Release 21.0.2

F10650-01

October 2018

The tables in this document list the available features of the AutoVue Enterprise Visualization product family. Oracle AutoVue can be deployed either as Client/Server Deployment or Desktop Deployment. In Client/Server Deployment, Oracle AutoVue is installed on a server, to which client machines connect to access and view documents. You can then run Oracle AutoVue as a standalone application or integrate it with a DMS. Oracle AutoVue Desktop Deployment is a solution for users who want to run AutoVue locally on their individual desktops.

The tables are organized by the following features: general features, 2-D and EDA common features, raster/graphics features, 2-D features, EDA features, 3-D features, markup features, and collaboration features. For the most up-to-date version of this document, go to the AutoVue Documentation Web site on the Oracle Technology Network at

<https://www.oracle.com/technetwork/documentation/autovue-091442.html>.

Note that several of the following features are supported only if the file that is being viewed in AutoVue contains relevant information.

## 1 General Features

The General Features are discussed in [Table 1, "General Features"](#).

**Table 1 General Features**

| Feature                                    | AutoVue Office | AutoVue 2D Professional | AutoVue 3D Professional Advanced <sup>1</sup> | AutoVue EDA Professional | AutoVue EMP <sup>1</sup> | AutoVue for Agile PLM 2D | AutoVue for Agile PLM EMP |
|--------------------------------------------|----------------|-------------------------|-----------------------------------------------|--------------------------|--------------------------|--------------------------|---------------------------|
| File Properties                            | Yes            | Yes                     | Yes                                           | Yes                      | Yes                      | Yes                      | Yes                       |
| Edit, Select, and Copy                     | Yes            | Yes                     | Yes                                           | Yes                      | Yes                      | Yes                      | Yes                       |

| Configuration <sup>4</sup>     | Yes            | Yes                     | Yes                                           | Yes                      | Yes                      | Yes                      | Yes                       |

<sup>1</sup> Only 2D formats can be converted.

<sup>2</sup> Applies to Client/Server Deployment only

<sup>3</sup> Not supported for 3-D designs and when AutoVue Server is installed on Linux OSes.

<sup>4</sup> AutoVue provides different configuration options for different file types.

## 2 2-D and EDA Common Features

The 2-D and EDA Common Features are discussed in [Table 2, "2-D and EDA Common Features"](#).

**Table 2 2-D and EDA Common Features**

| Feature                          | AutoVue Office | AutoVue 2D Professional | AutoVue 3D Professional Advanced | AutoVue EDA Professional | AutoVue EMP | AutoVue for Agile PLM 2D | AutoVue for Agile PLM EMP |

**Table 2 (Cont.) 2-D and EDA Common Features**

| Feature                    | AutoVue Office | AutoVue 2D Professional | AutoVue 3D Professional Advanced | AutoVue EDA Professional | AutoVue EMP | AutoVue for Agile PLM 2D | AutoVue for Agile PLM EMP |
|----------------------------|----------------|-------------------------|----------------------------------|--------------------------|-------------|--------------------------|---------------------------|
| Compare Files <sup>3</sup> | Yes            | Yes                     | Yes                              | Yes                      | Yes         | Yes                      | Yes                       |

<sup>1</sup> Not supported for raster formats

<sup>2</sup> Not supported for spreadsheet formats

<sup>3</sup> Not supported for Office formats (Spreadsheet, Microsoft Word, Outlook, RTF and TXT)

### 3 Raster/Graphics Features

The features applicable to rasters/graphics are provided in [Table 3, "Raster/Graphics Features"](#).

**Table 3 Raster/Graphics Features**

| Feature                   | AutoVue Office | AutoVue 2D Professional | AutoVue 3D Professional Advanced | AutoVue EDA Professional | AutoVue EMP | AutoVue for Agile PLM 2D | AutoVue for Agile PLM EMP |
|---------------------------|----------------|-------------------------|----------------------------------|--------------------------|-------------|--------------------------|---------------------------|
| <b>Image Enhancements</b> |                |                         |                                  |                          |             |                          |                           |
| Anti-Alias <sup>1</sup>   | Yes            | Yes                     | Yes                              | Yes                      | Yes         | Yes                      | Yes                       |
| Invert                    | Yes            | Yes                     | Yes                              | Yes                      | Yes         | Yes                      | Yes                       |

<sup>1</sup> Applies to raster formats and to raster overlays in other formats

### 4 2-D (Vector) Features

The features applicable to 2-D features are provided in [Table 4, "2-D \(Vector\) Features"](#).

**Table 4 2-D (Vector) Features**

| Feature             | AutoVue Office | AutoVue 2D Professional | AutoVue 3D Professional Advanced | AutoVue EDA Professional | AutoVue EMP | AutoVue for Agile PLM 2D | AutoVue for Agile PLM EMP |
|---------------------|----------------|-------------------------|----------------------------------|--------------------------|-------------|--------------------------|---------------------------|
| <b>Measurements</b> |                |                         |                                  |                          |             |                          |                           |
| Entity Snapping     | Yes            | Yes                     | Yes                              | Yes                      | Yes         | Yes                      | Yes                       |
| Angle               | Yes            | Yes                     | Yes                              | Yes                      | Yes         | Yes                      | Yes                       |
| Arc                 | Yes            | Yes                     | Yes                              | Yes                      | Yes         | Yes                      | Yes                       |
