U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate failsafe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle and Java are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

This software or hardware and documentation may provide access to or information on content, products and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.

Preface

The release notes contain the details of the components that are part of Oracle Banking Party Management Release 2.7.0.0.0.

Oracle recommends that you review the contents of the release notes before installing or working with the product.

This preface contains the following topics:

- Audience
- Documentation Accessibility
- Related Documents
- Conventions

Audience

This release note is intended for the users of Oracle Banking Party Management.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/us/corporate/accessibility/index.html.

Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit http://www.oracle.com/us/corporate/accessibility/support/index.html#info or visit http://www.oracle.com/us/corporate/accessibility/support/index.html#trs if you are hearing impaired.

Related Documents

For more information, see the following documentation:

- For information related to customization and extension, see the Oracle Banking Party Management Extensibility Guides for HOST, SOA, and UI.
- For information on the functionality and features, see the Oracle Banking Party Management Functional Overview document.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
italic	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
`monospace`	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the page, or text that you enter.

The following acronyms are used in this document:

Acronym	Meaning
OBPM	Oracle Banking Party Management
ABN	Australian Business Number
ARBN	Australian Registered Body Number

1 Oracle Banking Party Management Release 2.7.0.0.0

This chapter provides the release information for Oracle Banking Party Management Release 2.7.0.0.0.

1.1 Oracle Banking Party Management

This section covers release information for Oracle Banking Party Management (OBPM) in Release 2.7.0.0.0

Oracle Banking Party Management provides an end-to-end platform to onboard and maintain the party and financial details. The capability caters to all party types such as individuals, organizations and trusts.

It covers customers, members or prospects, affiliates (people associated with the party), service providers and parties associated with applications. It maintains comprehensive party level information to service a customer effectively.

Key capabilities of Oracle Banking Party Management are as follows:

- Onboard Individual, Organization and Trust parties of roles Customer, Member and Affiliates through Customer Onboarding standalone (Fast Path: PI048).
- Onboard Service providers through Service Provider Onboarding (Fast Path: PI028).
- Perform deduplication check once the party data is captured and before the onboarding is done, to avoid creation of duplicate party records.
- Trigger and complete due diligence process, either automatically or by user intervention.
- Perform various servicing events from Single Party View (Fast Path: PI100).
- Interface with the Master Data Management.
- Capture and maintain the financial details of the party.

> **Note**
>
> For more information on the product features offered by Oracle Banking Party Management, see its functional overview document.

2 System Requirements and Specifications

This chapter lists the Oracle Banking Party Management Release 2.7.0.0.0 system requirements and specifications.

2.1 Technology Stack Components

Oracle Banking Party Management installation and configuration will not complete successfully unless users meet the following hardware and software pre-requisite requirements before installation:

Database

- Oracle Database Server Enterprise Edition 12.2.0.1.0

Operating System

- Oracle Linux 7.1 (64 bit)
  - Red Hat Enterprise Linux Server release 7.1 (Maipo)
  - Linux 3.8.13-118.13.3.el7uek.x86_64 x86_64
- Oracle Linux 6.8 (64 bit)
  - Red Hat Enterprise Linux Server release 6.8 (Santiago)
  - Linux 4.1.12-61.1.16.el6uek.x86_64
- Compatible Oracle VM server release 2.2.3 / 3.2.9 /3.3.9 (Virtualization) (Optional)

Runtime Software

- Oracle JDK 1.8.0_172 (64 bit)
- Oracle JDK 1.7.0_67 (64 bit) (for FMW 11g products)

Enterprise Application Server

- Oracle WebLogic Server 12.2.1.3.0

Integration and Process Management

- Oracle Service Oriented Architecture (SOA) Suite 12.2.1.3.0 (includes Oracle WebServices Manager 12.2.1.3.0)
- Oracle WebServices Manager 12.2.1.3.0
- Oracle Data Integrator (ODI) 12.2.1.3.0

Systems Management

- Oracle Enterprise Manager Cloud Control (OEM) 13.2.0.0.0

Identity Management

- Oracle Platform Security Service Client (OPSS) 12.2.1.3.0
- Oracle Adaptive Access Manager (OAAM) 11.1.2.3.0
- Oracle Entitlement Server (Security Module) 12.2.1.3.0
- Oracle Internet Directory (OID) 12.2.1.3.0
- Oracle Identity Manager (OIM) 12.2.1.3.0
- Oracle Access Manager (OAM) 12.2.1.3.0
- Oracle WebGate 12.2.1.3.0
- Oracle Web Tier 12.2.1.3.0

Content Management

- Oracle WebCenter Content 12.2.1.3.0

Installation Tools

- Oracle Repository Creation Utility (RCU) 12.2.1.3.0
- Oracle JDK 1.8.0_172 (64 bit)
- Oracle JDK 1.7.0_67 (64 bit) (for FMW 11g products)
- Oracle Universal Installer 12.2.1.3.0

Presentation

- Oracle Application Development Runtime 12.2.1.3.0

Business Intelligence

- Oracle Business Intelligence Publisher (BIP) 12.2.1.3.0
- Oracle Business Intelligence Enterprise Edition (OBIEE) 12.2.1.3.0

2.1.1 Out-of-the-Box Applications Integrations

- Oracle Financial Services Analytical Applications 8.0.6.0.0

For more information on the Oracle Banking Party Management requirements from an environment perspective including minimum hardware requirements with Operating System (OS) and the middleware software products which the Oracle Banking Party Management solution depends and runs on (example Database or WebLogic) or interfaces with (for example, OID or IPM), see the Oracle Banking Party Management Installation Guide - Silent Installation.
