U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are “commercial computer software” pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate failsafe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

This software or hardware and documentation may provide access to or information on content, products and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.

## 1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

## 1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>

## 1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support.

For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info>

or visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

## 1.4 Structure

This manual includes reference user interface style guide for Desktop, Tablet and Mobile. It covers screen layout and UI components details.

# Primary Elements

## Grid

The application follows a responsive bootstrap grid system which allows upto 12 columns across the page.

All the designs are created within and around the grid and breakpoints. They have a minimum of 10px outer margin.

### Why 1200?

The modern monitors (mostly wide-screen) support at least 1280 x 1024 pixel resolution.

1200 is divisible by 2, 3, 4, 5, 6, 8, 10, 12, 15, 16, 20, 24, 30, 40, 48, 60, 80, 120, 150, 200, 240 and 400. This makes it a highly flexible base number to work with.

### Desktop

- Grid size: 1366px, 12 column
- Maximum width: Website locks at 1400px

### Tablet

- Grid size: 768px, 12 column
- Maximum width: Website locks at 1400px

### Phone

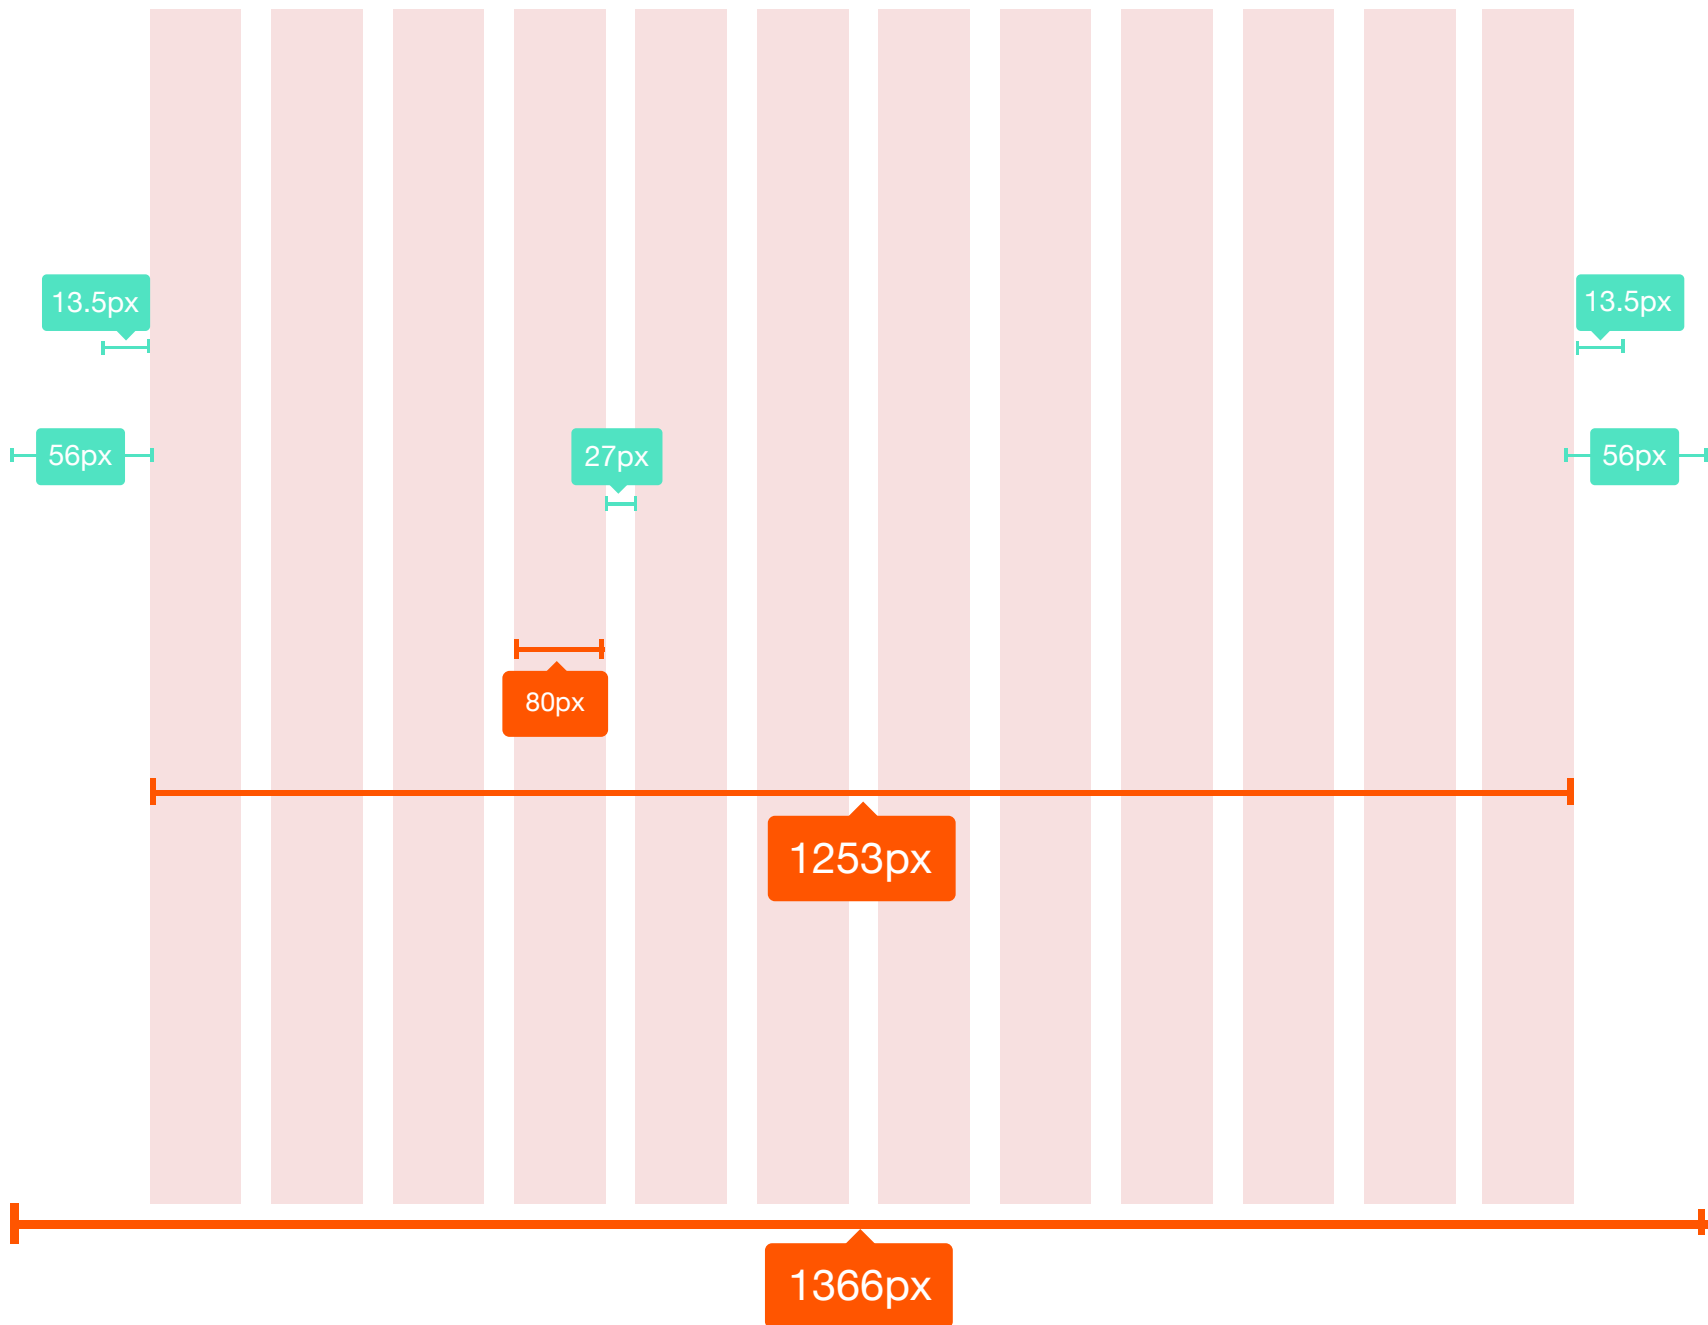

- Comp size: 320px, 12 column

Grids are used to structure the page layout. They allow elements to be aligned horizontally and vertically, which creates columns that keep things organized. Optimal spacing, type sizes and layout relationships should be maintained throughout.

The following grid examples show the transition from desktop designs to tablet and down to phone.

**Note:** Some images in the style guide have been reduced in size to fit the dimensions of this guide's layout. Note:

# Grids Example (Administrator)

Welcome, superadmin  
Last login 26 Jun 03:02 AM

### Dashboard

#### Onboarding

Onboard and manage users, billers and merchants.

- User Management
- Merchant Management
- Biller Onboarding

### Notifications

**No New Notifications**  
Check this section for new notifications

### Communications

Manage user communications by publishing mailers and by definition alerts for each event.

- User Group Subject Mapping
- Alerts Maintenance
- Mailers

### Security

Reduce security threats by maintaining two factor authentication and by defining complex password policy.

- Authentication
- Security Question Maintenance
- Password Policy Maintenance

### Templates

Define templates for capturing service requests and customer feedback. Set up SMS and Missed Call Banking.

- Service Request- Form Builder
- Feedback Template
- SMS and Missed Call Banking

### Limits

Manage various types of limits for transaction and transaction group.

- Limit Definition
- Limit Package Management
- Transaction Group Maintenance

### Common Services

Manage entities and Day 1 configurations and various transaction aspects. Maintain ATM and Branch locations and update services offered. Enable Term deposit and Recurring deposit products on digital banking platform.

- System Configuration
- System Rules
- ATM/Branch Maintenance
- Product Mapping
- Transaction Aspects

### Payments

Payment purpose definition for each payment type. Restrict the number of payees that a retail user can create. Define and map biller categories. Set up forex deal related maintenances.

- Payment Purpose Mapping
- Payee Restrictions
- Biller Category Maintenance
- Forex Deal Maintenance
- Biller Category Maintenance - Integrated

### Access Policies

Manage access points. Control access by defining user role-transaction mapping and by maintaining account relationships-transaction access.

- Access Points
- Access Point Groups
- Role Transaction Mapping
- View Entitlements
- Relationship Mapping
- Relationship Matrix

### Personal Finance

Maintain spend and goal categories to facilitate customers to manage their personal finance.

- Spend Category Maintenance
- Goal Category Maintenance

### User Experience

Build seamless digital customer experience by managing brands.

- Manage Brand
- Dashboard Builder

### Activity Log (0)

Date	Description	Party Name	Reference No	Status
No data to display.				

Page 1 (0 of 0 items) | < 1 >

### Controls & Monitoring

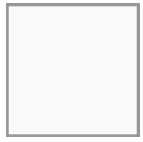

Define transaction working window and blackout window. Check audit logs.

- Transaction Blackout
- Transaction Working Window
- Audit Log
- Feedback Analytics

## Accordions

The screenshot shows a 'Payees List' interface. At the top, there are radio buttons for 'Payees' (selected) and 'Billers'. Below is a search bar with the placeholder 'Enter Payee name' and a search icon. To the right of the search bar is a 'Sort' dropdown menu set to 'Alphabetically'. The list contains several payees: Allwyn Dsouza, Anders, Joseph Johnson, Lynda Pollock, and Rosa John. Under 'Rosa John', there are two sub-entries: 'Rosa John Loan' and 'Rosa John Party', both with 'Recent transfers' and 'RTGS' labels. At the bottom, there are links for 'Add New Account' and 'Add New DD'. A pagination bar at the bottom indicates 'Page < 1 > of 7 items | View 10 records'. On the right side, there is a call-to-action box with an icon of a person and a plus sign, containing the text 'Want to make a payment to someone new?' and a link 'Add New Payee'. Annotations include '10px' pointing to the search bar and '10px' pointing to the list items.

## Review Component

The review component is a horizontal bar with a light orange background. It features an information icon and the word 'REVIEW' in bold. The text reads: 'You initiated a request for Cheque Book. Please review details before you confirm'. Annotations include 'Type Spec: Body on Light' pointing to the text, 'fill: #9f6b3f' and 'border: 7px' pointing to the left side of the bar, and 'fill: #fdf4e3' pointing to the right side of the bar.

## Confirmation Component

The confirmation component is a horizontal bar with a light green background. It features a checkmark icon and the word 'CONFIRMATION' in bold. The text reads: 'Your request has been accepted'. Annotations include 'Type Spec: Body on Light' pointing to the text, 'fill: #2e7d32' and 'border: 7px' pointing to the left side of the bar, and 'fill: #e7f6e8' pointing to the right side of the bar.

## (In - Form) Confirmation Component

The (In - Form) Confirmation component is a horizontal bar with a light green background. It features a checkmark icon and the text '1 Transaction(s) successfully Completed'. There is a close button (X) on the right. Annotations include 'Type Spec: Body on Light' pointing to the text and 'icon- confirm' pointing to the checkmark icon.
