# 1. Preface

## 1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

## 1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

## 1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

## 1.4 Structure

This manual is organized into the following categories:

*Preface* gives information on the intended audience. It also describes the overall structure of the User Manual.

*Introduction* provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure.

If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

## 1.5 Related Information Sources

For more information on Oracle Banking Digital Experience Release 18.3.0.0.0, refer to the following documents:

- Oracle Banking Digital Experience Licensing Guide
- Oracle Banking Digital Experience Installation Manuals

### 3. Chatbot Mobile Banking Application

Chatbot is an artificial intelligence system that interacts with users over a messaging platform. It answers questions and fulfills an array of tasks for business users.

Customers need to be in regular touch with their bank for various queries and daily transactions. Therefore, banks needed a platform to answer customers' questions within the communication mediums their customers are already using, without them having to log into their internet banking or mobile banking application each time they want to check their balance or pay a utility bill. By using ZigBank Chatbot for mobile application, banks can alleviate a lot of the complexity for the user.

To ensure security, before providing any information about user's accounts or cards, Chatbot authenticates the customer by sending an OTP on user's registered mobile number.

---

Note: Chatbot will ask user to input the OTP sent on his mobile number before displaying information.

---

#### Features Supported In Application

- Account Balance Inquiry
- Fund Transfer
- Locate ATM or Branch
- View Recent Transactions
- Inquire about user's spends
- Inquire upcoming payments
- Inquire about credit card due
- Inquire about cash and credit limits of credit card

Application displays the details and related links to desired product.

#### Products Inquiry

## **FAQs**

**1. What are the benefits of using a chatbot?**

The chatbot service eliminates customer waiting time in getting answers to queries and the user can access his account information without logging in to his net banking account for the same.

**2. How does the chatbot authenticate the user before providing any information?**

Chatbot asks user his/her mobile number and sends an OTP on the registered mobile number so that user can be authenticated.

**3. Can the user transfer fund to new payee or beneficiary using chatbot?**

No, chatbot can only transfer funds to existing payee or beneficiary.

**4. Can the user make credit card payment using chatbot?**

No, user can only inquire about amount due on credit card and card limits (Cash and Credit Limit).
