1. Welcome to Oracle Banking Credit Facilities Process Management

Welcome to the Oracle Banking Credit Facilities Process Management (OBCFPM) User Manual. This manual provides an overview on the OBCFPM application and guides you through the various steps involved in creating and processing collaterals and credit facilities transactions.

If you need any information, look out for the help icon.

This document is intended for helping you to conveniently create and process collaterals and credit facilities transactions in OBCFPM

Overview of OBCFPM

OBCFPM is a collateral and credit facilities middle office platform which enables your bank to streamline the Collateral and Credit facilities operations.

Benefits

OBCFPM application provides service for the customers and financial institutions. This service helps the financial institutions to manage the Collaterals and Credit Facilities of the corporate clients.

OBCFPM allows you to:

- Handle Collateral Evaluation, Collateral Perfection, Collateral Review, Collateral Release and Collateral Liquidation process
- Handle Credit Proposal with Customer on-boarding
- Financial Document Upload of the corporate clients.
- Quantitative and Qualitative analysis of the corporate clients
- Handle Credit Exceptions

Key Features

- Stand-alone system agnostic to back office application
- Requires very little change to bank's existing core systems
- Faster time to market
- Highly configurable based on corporate specific needs
- Flexibility in modifying processes
- Roll Based Dashboards

2. Collateral Liquidation

As part of Credit Portfolio management, whenever the customer's liability account/contract is not performing well or overdue, the underlying collateral linked to the transaction accounts should be liquidated and the accounts should be settled. The various activities performed for Collateral Liquidation process are

- Capture the Liquidation Details
- Sending Liquidation notice to the customer
- Valuating the Collateral
- Fixing Collateral Base Price
- Bid Publication and identifying Buyer
- Settlement of non-performing account based on proceeds from buyer
- Field Investigation
- Transfer of asset to the Buyer

2.1 Collateral Liquidation - Process Flow Diagram

The Collateral Liquidation process has the following stages handled by users authorized to perform the task under those stages.

1. Collateral Liquidation Initiation
2. External Valuation
3. Notice to Customer And RM
4. Base Price Fixation
5. Base Price Review
6. Base Price Approval
7. Sale of Liquid Assets
8. Bid Publication
9. Bid Capture
10. Buyer Recommendation
11. Buyer Approval
12. Buyer Confirmation
13. Document Retrieval
14. Document De-Registration
15. Asset Transfer to Bank
16. Assignment of Settlement Account
17. Fund Allocation and Liquidation
18. Await for Collateral Release Confirmation

2.2 Initiation

Collateral Liquidation process will be triggered by the back-office system based on the performance of the account where the collateral is linked. Once the collateral liquidation task is initiated, the task will be available in the free task queue and the user can acquire the task and work on the task.

The below mentioned screen will be displayed for initiating a collateral liquidation

The screenshot displays the 'Collateral Liquidation - Initiation' screen in the FuTura Bank system. The interface includes a header with the bank logo, user name (Sasikala), and date (04/16/18). A progress bar at the top indicates the current step is 'Collateral Details'. The form contains several input fields and toggle switches for collateral information. At the bottom right, there are five action buttons: Hold, Back, Next, Save & Close, and Cancel.

The initiation screens provide the basic details of the Collateral and the following fields will be available in the screen

Field Name	Field Description
Collateral Type	Displays the Collateral Type
Collateral Description	Displays the brief description of the Collateral
Customer Id	Displays the customer Id with whom the collateral is associated
Customer Name	Displays the Customer Name with whom the collateral is associated
Seniority of Charge	Displays the Charge Seniority of collateral
Collateral Currency	Displays the currency in which the collateral is valued
Collateral Value	Displays the current value of the collateral

Ownership Type	Displays the Ownership type of the collateral
Available From	Displays the date from which the collateral is available
Available Till	Displays the date till which the collateral will be available
Is Shareable Across Customers	Displays the nature of the collateral that if its shared across multiple customers or not
Purpose of Collateral	Displays the purpose of creating the collateral transaction
Is Insurance Available	Display if any insurance is associated with the collateral or not
Insurance Expiry Date	Displays the expiry date of the insurance

Action Buttons on the footer

Save & Close – On click of Save & Close, the captured details will be saved.

- If mandatory fields have not been captured, system will display error until the mandatory fields are captured.

Hold – On Click of Hold, the captured details will be saved and the task status will be suspended and will be available in the Hold queue. This option is used, if there are any pending information to be captured.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

Cancel – On Click the system will ask for confirmation and on confirming the task will be closed without saving the data.

Next – On click of Next, the details of the captured will be saved and then system will move to the Next Screen.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

2.2.1 Seniority Details

Seniority Details section displays the charge seniority associated with the collateral. If the collateral is second charge or third charge, all the pervious charge details will also be displayed

Field Name	Description
Seniority of Charge	Displays the charge seniority associated with the collateral

Action Buttons on the footer

Save & Close – On click of Save & Close, the captured details will be saved.

- If mandatory fields have not been captured, system will display error until the mandatory fields are captured.

Hold – On Click of Hold, the captured details will be saved and the task status will be suspended and will be available in the Hold queue. This option is used, if there are any pending information to be captured.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

Cancel – On Click the system will ask for confirmation and on confirming the task will be closed without saving the data.

Next – On click of Next, the details of the captured will be saved and then system will move to the Next Screen.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

2.2.2 Linked Transaction

Collateral Liquidation - Initiation

Action Buttons

Save & Close – On click of Save & Close, the captured details will be saved.

- If mandatory fields have not been captured, system will display error until the mandatory fields are captured.

Hold – On Click of Hold, the captured details will be saved and the task status will be suspended and will be available in the Hold queue. This option is used, if there are any pending information to be captured.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

Cancel – On Click the system will ask for confirmation and on confirming the task will be closed without saving the data.

Next – On click of Next, the details of the captured will be saved and then system will move to the Next Screen.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

2.2.3 Liquidation Details

The screenshot displays the 'Collateral Liquidation - Initiation' screen in the FuTura Bank system. The interface includes a top navigation bar with the bank logo, 'My Tasks', and user information (SBI (004), 04/16/18, Sasikala). A progress bar at the top indicates the current step is 'Liquidation Details'. The main form area contains several fields: 'Liquidation Date' with a calendar icon, 'Refer External Valuation' with a toggle switch, 'Refer Last Review Price' with a toggle switch, 'Reason For Liquidation' with a text input field, and 'Liquidation Description' with a text input field. At the bottom right, there are five action buttons: 'Hold', 'Back', 'Next', 'Save & Close', and 'Cancel'.

Liquidation Details screen provides the capability to capture all the attributes pertaining to the Collateral Liquidation

Field Name	Description
Liquidation Date	Select a date from the calendar to indicate when the Liquidation request is captured
Refer External Valuation	Switch on the toggle button if External Valuation is to be done for the Collateral
Refer Last Review Price	Switch on the toggle button if the Last Valuation is to be referred instead of doing a fresh valuation
Reason for Liquidation	Enter brief description on the reason for liquidating the collateral

Liquidation Description	Enter brief description about liquidating the collateral
-------------------------	--

Action Buttons

After providing required data, you will be able to perform one of the below actions –

Save & Close – On click of Save & Close, the captured details will be saved.

- If mandatory fields have not been captured, system will display error until the mandatory fields are captured.

Hold – On Click of Hold, the captured details will be saved and the task status will be suspended and will be available in the Hold queue. This option is used, if there are any pending information to be captured.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

Cancel – On Click the system will ask for confirmation and on confirming the task will be closed without saving the data.

Next – On click of Next, the details of the captured will be saved and then system will move to the Next Screen.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

2.2.4 Comments

The screenshot displays the 'Collateral Liquidation - Initiation' workflow in the FuTura Bank system. The 'Comments' step is the current active stage. The interface includes a progress bar at the top with five steps: Collateral Details, Seniority Details, Linked Transaction, Liquidation Details, and Comments. The Comments section features a large text input area, a 'Submit' button, and a message 'No items to display.' at the bottom. The footer contains buttons for Hold, Back, Next, Save & Close, Submit, and Cancel.

Field Name	Description
Comments	Capture the user comments. This will be visible in all the stages

Action Buttons

After providing required data, you will be able to perform one of the below actions –

Submit – On Submit, the checklists applicable for the stage will be defaulted based on the application category. On Verifying all the checklist and on selection of the outcome, the task will be submitted.

Save & Close – On click of Save & Close, the captured details will be saved.

- If mandatory fields have not been captured, system will display error until the mandatory fields are captured.

Hold – On Click of Hold, the captured details will be saved and the task status will be suspended and will be available in the Hold queue. This option is used, if there are any pending information to be captured.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

Cancel – On Click the system will ask for confirmation and on confirming the task will be closed without saving the data.

Next – On click of Next, the details of the captured will be saved and then system will move to the Next Screen.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

2.3 External Valuation

When the Collateral Liquidation request is submitted, there would be a need to do a Valuation of the Collateral in order to ascertain the current value of the collateral. The External Valuation stage provides the facility to capture various valuation details for the collateral provided by the external agencies.

2.3.1 External Valuation

Save & Close – On click of Save & Close, the captured details will be saved.

- If mandatory fields have not been captured, system will display error until the mandatory fields are captured.

Hold – On Click of Hold, the captured details will be saved and the task status will be suspended and will be available in the Hold queue. This option is used, if there are any pending information to be captured.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

Cancel – On Click the system will ask for confirmation and on confirming the task will be closed without saving the data.

Next – On click of Next, the details of the captured will be saved and then system will move to the Next Screen.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

2.3.2 Comments

Field Name	Description
Comments	Capture the user comments. This will be visible in all the stages

Action Buttons

After providing required data, you will be able to perform one of the below actions –

Submit – On Submit, the checklists applicable for the stage will be defaulted based on the application category. On Verifying all the checklist and on selection of the outcome, the task will be submitted.

Save & Close – On click of Save & Close, the captured details will be saved.

- If mandatory fields have not been captured, system will display error until the mandatory fields are captured.

Hold – On Click of Hold, the captured details will be saved and the task status will be suspended and will be available in the Hold queue. This option is used, if there are any pending information to be captured.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

Cancel – On Click the system will ask for confirmation and on confirming the task will be closed without saving the data.

Next – On click of Next, the details of the captured will be saved and then system will move to the Next Screen.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

2.4 Notice to Customer and RM

When the Bank decides on liquidating collateral and post the Liquidation request is registered, there would be a need to do a send the Notice to Customer and his RM stating that the Collateral will be liquidated and the proceeds will be used to settle the accounts. There will be a Liquidation notice generated and sent to the customer's preferred communication medium

2.4.1 Document Generation

The Document generation screen gives provision to generate the Liquidation Notice and sent to the customer

The screenshot displays the 'FuTura Bank' interface for 'Collateral Liquidation - Notice To Customer And RM'. The top navigation bar includes 'My Tasks', 'SBI (004)', '04/16/18', and a user profile 'Bharath sample@sample.com'. The main content area has a progress bar with three steps: 'Collateral Details', 'Document Generation' (active), and 'Comments'. Below the progress bar, the 'Document Generation' section is visible, showing a 'Collateral Liquidation Notice' with a search icon, a download icon, and a table with columns for 'Created -', 'By -', 'Last Updated -', and 'By -'. At the bottom right, there are five buttons: 'Hold', 'Back', 'Next', 'Save & Close', and 'Cancel'.

Action Buttons

After providing required data, you will be able to perform one of the below actions –

Save & Close – On click of Save & Close, the captured details will be saved.

- If mandatory fields have not been captured, system will display error until the mandatory fields are captured.

Hold – On Click of Hold, the captured details will be saved and the task status will be suspended and will be available in the Hold queue. This option is used, if there are any pending information to be captured.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

Cancel – On Click the system will ask for confirmation and on confirming the task will be closed without saving the data.

Next – On click of Next, the details of the captured will be saved and then system will move to the Next Screen.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

2.4.2 Comments

The screenshot shows the 'FuTura Bank' interface with 'My Tasks' selected. The task is 'Collateral Liquidation - Notice To Customer And RM'. The progress bar indicates three stages: 'Collateral Details', 'Document Generation', and 'Comments'. The 'Comments' stage is currently active, showing a large text input area with a 'Submit' button. Below the input area, it says 'No items to display.' At the bottom, there is a row of action buttons: 'Hold', 'Back', 'Next', 'Save & Close', 'Submit', and 'Cancel'.

Field Name	Description
Comments	Capture the user comments. This will be visible in all the stages

Action Buttons

After providing required data, you will be able to perform one of the below actions –

Submit – On Submit, the checklists applicable for the stage will be defaulted based on the application category. On Verifying all the checklist and on selection of the outcome, the task will be submitted.

Save & Close – On click of Save & Close, the captured details will be saved.

- If mandatory fields have not been captured, system will display error until the mandatory fields are captured.

Hold – On Click of Hold, the captured details will be saved and the task status will be suspended and will be available in the Hold queue. This option is used, if there are any pending information to be captured.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

Cancel – On Click the system will ask for confirmation and on confirming the task will be closed without saving the data.

Next – On click of Next, the details of the captured will be saved and then system will move to the Next Screen.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

2.5 Base Price Fixation

2.5.1 Past Valuation Details

Past Valuation Details screen provides the details about all the past valuation details of the collateral

The screenshot displays the 'Past Valuation Details' screen in the FuTura Bank system. The interface includes a top navigation bar with the bank logo, user name (SBI (004)), date (Apr 16, 2018), and user ID (Sasikala). Below the navigation bar, there are tabs for 'Collateral Details', 'Past Valuation Details' (selected), 'History Of Collateral Liquidated', 'Base Price Fixation', and 'Comments'. The 'Past Valuation Details' section contains a table with the following data:

Agency	Valuation Amount	Valuation Currency	Valuation Date	Valuer Remarks
EV02	67890	INR	2018-12-02	rem

Below the table, there is a pagination bar showing 'Page 1 of 1 (1 of 1 items)' and navigation buttons. At the bottom of the screen, there are buttons for 'Hold', 'Back', 'Next', 'Save & Close', and 'Cancel'.

Field Name	Description
Agency	Displays the Agency that is designated by the bank for performing valuation of collateral
Valuation Date	Enter the date on which the collateral is valued
Valuation Currency	Enter the currency in which the collateral is valued
Valuation Amount	Enter the valuation amount
Valuation Expiry Date	Select the date on which the validity of valuation will expire
Valuer Remarks	Enter the valuer comments on the collateral

Action Buttons

After providing required data, you will be able to perform one of the below actions –

Save & Close – On click of Save & Close, the captured details will be saved.

- If mandatory fields have not been captured, system will display error until the mandatory fields are captured.

Hold – On Click of Hold, the captured details will be saved and the task status will be suspended and will be available in the Hold queue. This option is used, if there are any pending information to be captured.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

Cancel – On Click the system will ask for confirmation and on confirming the task will be closed without saving the data.

Next – On click of Next, the details of the captured will be saved and then system will move to the Next Screen.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

2.5.2 History of Collateral Liquidated

History of Collateral Liquidated Screen provides the history of similar collateral those were liquidated in the past.

Collateral Id	Customer Name	Collateral Type	Currency	Amount	Utilized Amount	Info

Action Buttons

After providing required data, you will be able to perform one of the below actions –

Save & Close – On click of Save & Close, the captured details will be saved.

- If mandatory fields have not been captured, system will display error until the mandatory fields are captured.

Hold – On Click of Hold, the captured details will be saved and the task status will be suspended and will be available in the Hold queue. This option is used, if there are any pending information to be captured.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

Cancel – On Click the system will ask for confirmation and on confirming the task will be closed without saving the data.

Next – On click of Next, the details of the captured will be saved and then system will move to the Next Screen.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

2.6.4 Comments

The screenshot displays the 'Collateral Liquidation - Base Price Review' interface in the FuTura Bank system. The interface features a progress bar at the top with five stages: 'Collateral Details', 'Past Valuation Details', 'History Of Collateral Liquidated', 'Base Price Fixation', and 'Comments'. The 'Comments' stage is currently active. Below the progress bar, there is a large text area for entering comments, a 'Submit' button, and a message 'No items to display.' at the bottom. The top of the interface shows the 'FuTura Bank' logo, 'Free Tasks', and user information 'SBI (004)' and 'Apr 16, 2018'. The bottom of the interface has a row of buttons: 'Hold', 'Back', 'Next', 'Save & Close', 'Submit', and 'Cancel'.

Field Name	Description
Comments	Capture the user comments. This will be visible in all the stages

Action Buttons

After providing required data, you will be able to perform one of the below actions –

Submit – On Submit, the checklists applicable for the stage will be defaulted based on the application category. On Verifying all the checklist and on selection of the outcome, the task will be submitted.

Save & Close – On click of Save & Close, the captured details will be saved.

- If mandatory fields have not been captured, system will display error until the mandatory fields are captured.

Hold – On Click of Hold, the captured details will be saved and the task status will be suspended and will be available in the Hold queue. This option is used, if there are any pending information to be captured.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

Cancel – On Click the system will ask for confirmation and on confirming the task will be closed without saving the data.

Next – On click of Next, the details of the captured will be saved and then system will move to the Next Screen.

If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

2.7 Base Price Approval

2.7.1 Past Valuation Details

Past Valuation Details screen provides the details about all the past valuation details of the collateral

The screenshot displays the 'Past Valuation Details' screen in the FuTura Bank system. The screen has a header with the bank logo, user name (SBI (004)), date (Apr 16, 2018), and a 'Sasikala' label. Below the header is a breadcrumb trail: 'Collateral Liquidation - Base Price Fixation'. The main content area is titled 'Past Valuation Details' and contains a table with the following data:

Agency	Valuation Amount	Valuation Currency	Valuation Date	Valuer Remarks
EV02	67890	INR	2018-12-02	rem

Below the table, there is a pagination bar showing 'Page 1 of 1 (1 of 1 items)' and navigation buttons (Refresh, Add, View, Edit, Delete). At the bottom right, there are buttons for 'Hold', 'Back', 'Next', 'Save & Close', and 'Cancel'.

Field Name	Description
Agency	Displays the Agency that is designated by the bank for performing valuation of collateral
Valuation Date	Enter the date on which the collateral is valued
Valuation Currency	Enter the currency in which the collateral is valued
Valuation Amount	Enter the valuation amount
Valuation Expiry Date	Select the date on which the validity of valuation will expire

Next – On click of Next, the details of the captured will be saved and then system will move to the Next Screen.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

2.7.4 Comments

The screenshot displays the 'Free Tasks' section of the FuTura Bank interface. The task is 'Collateral Liquidation - Base Price Review'. The progress bar indicates five stages: 'Collateral Details', 'Past Valuation Details', 'History Of Collateral Liquidated', 'Base Price Fixation', and 'Comments'. The 'Comments' stage is currently active. Below the progress bar, there is a 'Comments' section with a large text input area and a 'Submit' button. A message 'No items to display.' is shown below the input area. The bottom of the interface features a row of action buttons: 'Hold', 'Back', 'Next', 'Save & Close', 'Submit', and 'Cancel'.

Field Name	Description
Comments	Capture the user comments. This will be visible in all the stages

Action Buttons

After providing required data, you will be able to perform one of the below actions –

Submit – On Submit, the checklists applicable for the stage will be defaulted based on the application category. On Verifying all the checklist and on selection of the outcome, the task will be submitted.

Save & Close – On click of Save & Close, the captured details will be saved.

- If mandatory fields have not been captured, system will display error until the mandatory fields are captured.

Hold – On Click of Hold, the captured details will be saved and the task status will be suspended and will be available in the Hold queue. This option is used, if there are any pending information to be captured.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

Cancel – On Click the system will ask for confirmation and on confirming the task will be closed without saving the data.

Next – On click of Next, the details of the captured will be saved and then system will move to the Next Screen.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

2.8 Bid Publication

Bid Publication provides the capability to publish the Collateral Details, Collateral Base Price and the Bid Terms and Conditions. The Bidding document will be submitted by the potential suitors of the collateral

2.8.1 Bid Publication

Bid Publication screen provides the capability to upload the Bid Document submitted by the potential suitors

The screenshot displays the 'Collateral Liquidation - BID Publication' screen in the FuTura Bank system. The top navigation bar includes the bank logo, 'Free Tasks', user 'SBI (004)', date 'Apr 16, 2018', and name 'Sasikala'. A progress bar indicates the current step is 'Document Generation'. Below this, a 'Bidding Document' section contains icons for file upload, search, and download. At the bottom right, a row of action buttons is visible: 'Hold', 'Back', 'Next', 'Save & Close', and 'Cancel'.

Action Buttons

After providing required data, you will be able to perform one of the below actions –

Save & Close – On click of Save & Close, the captured details will be saved.

- If mandatory fields have not been captured, system will display error until the mandatory fields are captured.

Hold – On Click of Hold, the captured details will be saved and the task status will be suspended and will be available in the Hold queue. This option is used, if there are any pending information to be captured.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

Cancel – On Click the system will ask for confirmation and on confirming the task will be closed without saving the data.

Next – On click of Next, the details of the captured will be saved and then system will move to the Next Screen.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

2.8.2 Comments

The screenshot displays the 'Free Tasks' interface for 'Collateral Liquidation - BID Publication'. A progress bar at the top indicates the current stage is 'Comments', following 'Document Generation'. The 'Comments' section features a large text input area with a 'Submit' button below it. A message 'No items to display.' is shown in a box below the input area. The top navigation bar includes the 'FuTura Bank' logo, 'Free Tasks', 'SBI (004)', the date 'Apr 16, 2018', and the user name 'Sasikala'. The bottom navigation bar contains buttons for 'Hold', 'Back', 'Next', 'Save & Close', 'Submit', and 'Cancel'.

Field Name	Description
Comments	Capture the user comments. This will be visible in all the stages

After providing required data, you will be able to perform one of the below actions –

Submit – On Submit, the checklists applicable for the stage will be defaulted based on the application category. On Verifying all the checklist and on selection of the outcome, the task will be submitted.

Save & Close – On click of Save & Close, the captured details will be saved.

- If mandatory fields have not been captured, system will display error until the mandatory fields are captured.

Hold – On Click of Hold, the captured details will be saved and the task status will be suspended and will be available in the Hold queue. This option is used, if there are any pending information to be captured.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

Cancel – On Click the system will ask for confirmation and on confirming the task will be closed without saving the data.

Next – On click of Next, the details of the captured will be saved and then system will move to the Next Screen.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

2.15 Asset Transfer to Buyer

Once the documents are de-registered, the asset will be transferred to the new buyer

2.15.1 Buyer Details

Buyer Details screen displays the buyer details for validation

The screenshot shows the 'Buyer Details' screen in the FuTura Bank application. The screen is titled 'Collateral Liquidation - Asset Transfer To Buyer'. It features a progress bar at the top with four steps: 'Collateral Details', 'Buyer Details' (the current step), 'Transfer Details', and 'Comments'. The 'Buyer Details' section is divided into two columns. The left column contains fields for 'Buyer Name' (ABCX), 'Buyer Details' (ABCX), 'Street' (Link Street), 'Landmark' (Enter Landmark), 'City' (Mumbai), and 'Zip-Code' (400006). The right column contains fields for 'Organization Details' (PHARMA), 'House/Building' (76, Aden Building), 'Locality' (Kandivali), 'Area' (Mumbai), 'State' (Maharashtra), 'Country' (115), and 'Phone Number'. At the bottom right, there are buttons for 'Hold', 'Back', 'Next', 'Save & Close', and 'Cancel'.

Field Name	Description
Buyer Name	Displays the selected buyer name
Organization Details	Displays the Organization details
Buyer Details	Displays the buyer details of the buyer
House/Building	Displays the Building details of the buyer
Street	Displays the Street details of the buyer
Locality	Displays the Locality details of the buyer
Landmark	Displays the landmark details of the buyer
Area	Displays the area details of the buyer
City	Displays the City of the buyer
State	Displays the state of the buyer
Zip-Code	Displays the Zip code of the buyer

Country	Displays the Country of the buyer
Email Address	Displays the E-mail address of the buyer
Phone Number	Displays the phone number of the buyer
Approver Remarks	Enter the Approver Remarks

Action Buttons

After providing required data, you will be able to perform one of the below actions –

Save & Close – On click of Save & Close, the captured details will be saved.

- If mandatory fields have not been captured, system will display error until the mandatory fields are captured.

Hold – On Click of Hold, the captured details will be saved and the task status will be suspended and will be available in the Hold queue. This option is used, if there are any pending information to be captured.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

Cancel – On Click the system will ask for confirmation and on confirming the task will be closed without saving the data.

Next – On click of Next, the details of the captured will be saved and then system will move to the Next Screen.

- If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

2.15.2 Transfer Details

Transfer Details screen captured all the asset transfer related attributes

The screenshot displays the 'Transfer Details' screen within the FuTura Bank application. The top navigation bar includes the bank logo, 'Free Tasks', and user information. A progress bar at the top indicates the current step in the process. The main form area contains several input fields and a dropdown menu for capturing transfer details. The bottom of the screen features a row of action buttons.

Field Label	Value
Transfer Request Date *	10/31/18
Transfer Completion Date *	11/06/18
Asset Transferred From	MICROSOFT
Asset Transferred To	ABCX
Acknowledgement Reference Number	ACKREF001
