1. Welcome to Oracle Banking Credit Facilities Process Management

Welcome to the Oracle Banking Credit Facilities Process Management (OBCFPM) User Manual. This manual provides an overview on the OBCFPM application and guides you through the various steps involved in creating and processing collaterals and credit facilities transactions.

If you need any information, look out for the help icon.

This document is intended for helping you to conveniently create and process collaterals and credit facilities transactions in OBCFPM

Overview of OBCFPM

OBCFPM is a collateral and credit facilities middle office platform which enables your bank to streamline the Collateral and Credit facilities operations.

Benefits

OBCFPM application provides service for the customers and financial institutions. This service helps the financial institutions to manage the Collaterals and Credit Facilities of the corporate clients.

OBCFPM allows you to:

- Handle Collateral Evaluation, Collateral Perfection, Collateral Review and Collateral Release process
- Handle Credit Proposal with Customer on-boarding
- Financial Document Upload of the corporate clients.
- Quantitative and Qualitative analysis of the corporate clients
- Handle Credit Exceptions

Key Features

- Stand-alone system agnostic to back office application
- Requires very little change to bank's existing core systems
- Faster time to market
- Highly configurable based on corporate specific needs
- Flexibility in modifying processes
- Roll Based Dashboards

2. Collateral Perfection

A Collateral Perfection is a process in which the customer approaches the bank and requests the bank to evaluate the collateral. The Bank does an detailed collateral perfection and informs the customer about the collateral value. The various activities performed for Collateral Perfection are

- Input Application Details
- Upload of related Mandatory and Non Mandatory documents
- Verify Documents and Capture Details
- Internal/External Legal Opinion
- Risk Evaluation
- Internal/External Valuation of the Collateral
- Field Investigation
- Generate Collateral Agreement
- Receive the customer acceptance of the Collateral Agreement
- Collateral Submission
- Collateral Safekeeping

2.1. Collateral Perfection - Process Flow Diagram

The Collateral Perfection process has the following stages handled by users authorized to perform the task under those stages.

1. Initiation
2. Data Enrichment
3. Internal Legal Evaluation
4. External Legal Opinion
5. External Check
6. Field Investigation
7. Risk Evaluation
8. Internal Valuation
9. External Valuation
10. Final Valuation
11. Review & Recommendation
12. Legal Approval
13. Risk Approval
14. Approval
15. Draft Generation
16. Customer Acceptance
17. Collateral Submission
18. Await for Collateral Registration
19. Collateral Safekeeping
20. Manual Retry

2.2. Initiation

Collateral Perfection can be initiated when a customer approaches the bank and provides the application for collateral perfection or when the Relationship Manager visits the customer location and Initiates the Collateral perfection on behalf of the customer.

On receiving the application for collateral perfection the basic details of the application along with collateral details can be captured. On submit of the request, the request will be available for a Credit Operations user to enrich the collateral perfection.

As a user, you will be able to login to the OBCFPM application with appropriate credentials. On login, you will be able to view the dashboard screen with dashboards, widgets mapped for your user profile.

Menu→Collaterals →Perfection

(Screen)

From the ‘menu bar’, you can initiate a new collateral perfection.

On selecting, collateral perfection, a new screen will open to capture the details.

As a user, you can provide the basic application details.

2.2.1. Quick Initiation

The Relationship Manager can do a quick initiation of the collateral perfection or the operations user can do a quick initiation of collateral perfection on receiving the application from the customer.

Seniority Of Charge	Displays the seniority of charge details.	Display	Tile			
Documents	Displays the document details.	Display	Tile			
Collateral Type	Displays the collateral type details.	Display	Tile			
Field Investigation	Displays the Field Investigation details	Display	Tile			
External Check	Displays the External Details	Display	Tile			
Legal Opinion	Displays the Legal opinion of the Collateral	Display	Tile			
Valuation	Displays the Internal/External Valuation	Display	Tile			

Action Buttons on the footer

- a. **Save & Close** – On click of Save & Close the screen gets closed.
- b. **Hold** – On Click of Hold the task status will be suspended and the task will be available in the Hold queue.
 - a. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.
- c. **Cancel** – On Click the system will ask for confirmation and on confirming the task will be closed without saving the data.
- d. **Next** – On click of Next, the details of the captured will be saved and then system will move to the Next Screen.
 - b. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

2.12.2. Review and Recommendation

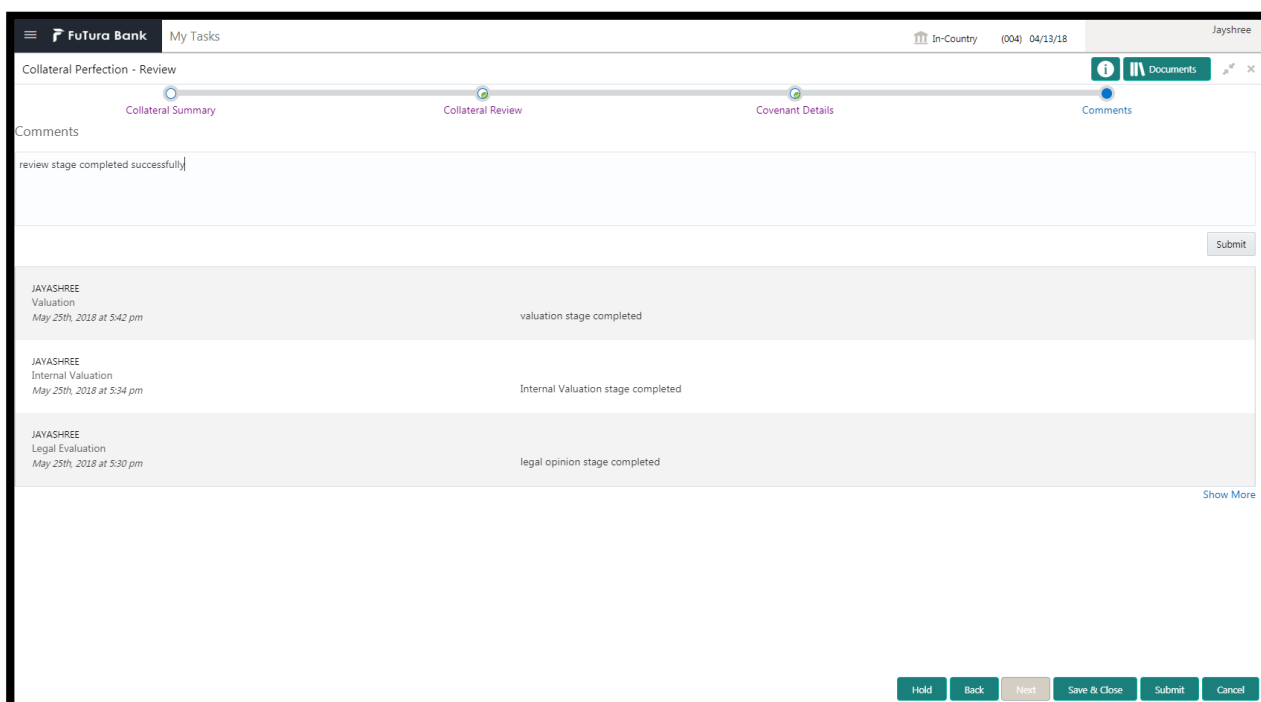

As a Credit Reviewer, the user would review the details of the collateral along with the Legal Opinion of the Legal department, Risk Evaluation and Valuation details and recommend the Collateral Value.

Field Name	Description	Attribute Type	Object Type	Size	Mandatory/Optional	Field Validation
Valuation Currency	Displays the collateral currency selected.	Display	Read Only			
Valuation Amount	Capture the valuation amount.	Input	Amount	22,3		.
Recommendation	Captures the recommendation.	Input	Free Text		Optional	

Action Buttons on the footer

- a. **Save & Close** – On click of Save & Close the screen gets closed.
- b. **Hold** – On Click of Hold the task status will be suspended and the task will be available in the Hold queue.
 - a. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.
- c. **Cancel** – On Click the system will ask for confirmation and on confirming the task will be closed without saving the data.
- d. **Next** – On click of Next, the details of the captured will be saved and then system will move to the Next Screen.
 - b. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

2.12.3. Comments

Field Name	Description	Attribute Type	Object Type	Size	Mandatory/Optional	Field Validation
Comments	Specify the comments for the stage. This will be visible in all the stages	Input	Free Text	600	Mandatory	

Action Buttons

After providing required data, you will be able to perform one of the below actions –

- a) **Submit** – On Submit, the checklists applicable for the stage will be defaulted based on the application category. On Verifying all the checklist and on selection of the Outcome of the task the task will be submitted.
- b) **Save & Close** – On click of Save & Close, the details of the captured will be saved.
 - a. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.
- c) **Hold** – On Click of Hold the task status will be suspended and the task will be available in the Hold queue.
 - a. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.
- d) **Cancel** – On Click the system will ask for confirmation and on confirming the task will be closed without saving the data.
- e) **Back** – On Click of Back, the previous screen will be opened.

2.13. Legal Approval

As a Legal approver, the user can review the collateral, its documents and the internal/external legal opinion to see if the collateral can secure bank's exposure and decide on approving or rejecting. Generally legal department of the bank considers the following possible aspects

How helpful the local jurisdiction in facilitating quick disposal and recovery of money (legal processes related to collateral sale)

Whether the collateral submission has been duly authorized by customer's board (board resolution to authorize company management to provide collateral),

In case of existing first charge, will there be any issue in claiming

Following details will be available for the user to review the collateral and provide the recommendations.

- Collateral Summary
- Approval
- Checklist
- Comments

2.13.1. Collateral Summary

The user can click on each of the tiles to view the detailed information of the Collateral.
