1. Welcome to Oracle Banking Credit Facilities Process Management

Welcome to the Oracle Banking Credit Facilities Process Management (OBCFPM) User Manual. This manual provides an overview on the OBCFPM application and guides you through the various steps involved in creating and processing collaterals and credit facilities transactions.

If you need any information, look out for the help icon.

This document is intended for helping you to conveniently create and process collaterals and credit facilities transactions in OBCFPM

Overview of OBCFPM

OBCFPM is a collateral and credit facilities middle office platform which enables your bank to streamline the Collateral and Credit facilities operations.

Benefits

OBCFPM application provides service for the customers and financial institutions. This service helps the financial institutions to manage the Collaterals and Credit Facilities of the corporate clients.

OBCFPM allows you to:

- Handle Collateral Evaluation, Collateral Perfection, Collateral Review and Collateral Release process
- Handle Credit Proposal with Customer on-boarding
- Financial Document Upload of the corporate clients.
- Quantitative and Qualitative analysis of the corporate clients
- Handle Credit Exceptions

Key Features

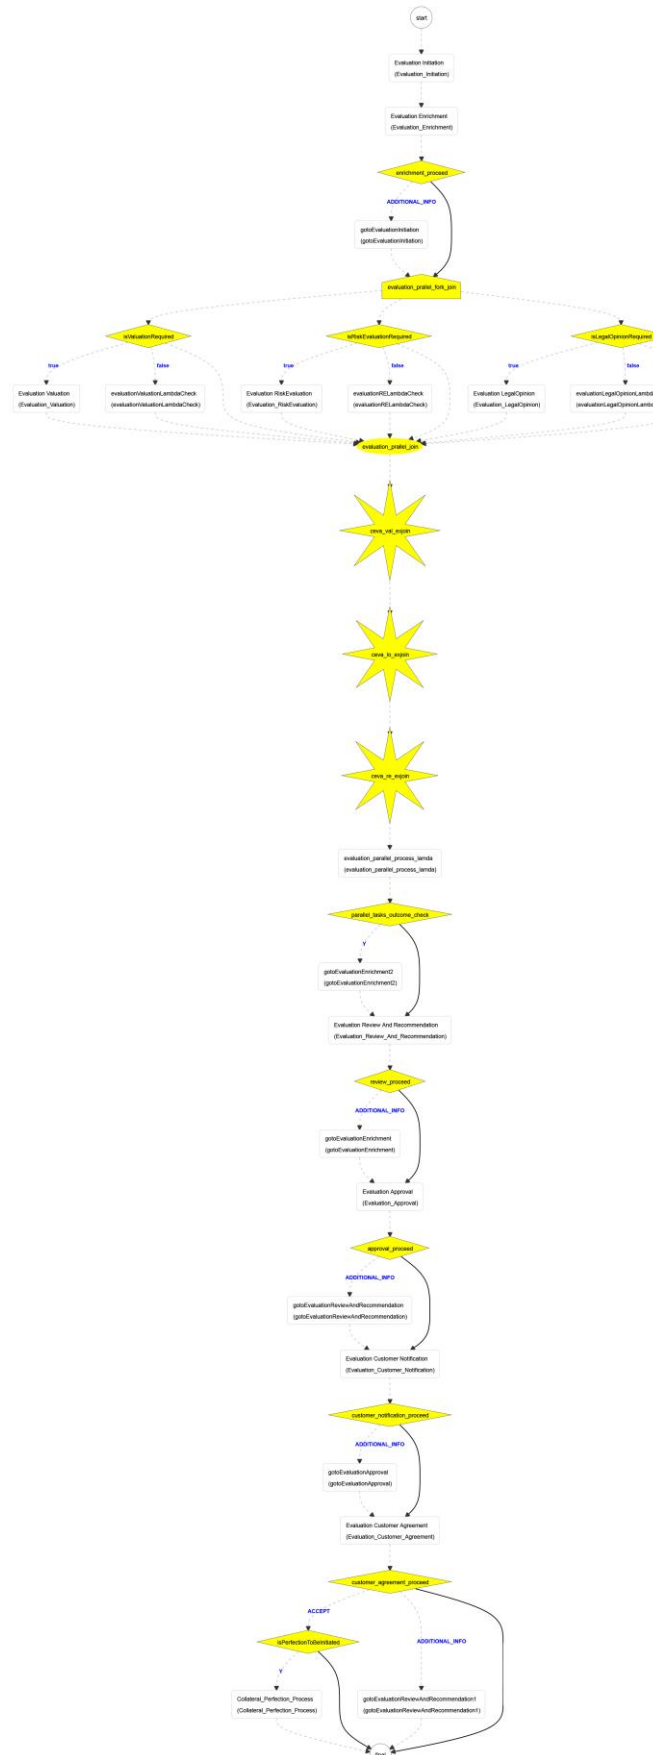

- Stand-alone system agnostic to back office application
- Requires very little change to bank's existing core systems
- Faster time to market
- Highly configurable based on corporate specific needs
- Flexibility in modifying processes
- Roll Based Dashboards

2. Collateral Evaluation

A Collateral Evaluation is a process in which the customer approaches the bank and requests the bank to evaluate the collateral. The Bank does an in-principle collateral evaluation and informs the customer about the collateral value. The various activities performed for Collateral Evaluation are

- Input Application Details
- Upload of related Mandatory and Non Mandatory documents
- Verify Documents and Capture Details
- Internal Legal Evaluation
- Risk Evaluation
- Internal Valuation of the Collateral
- Generate In-principal Collateral Agreement
- Receive the customer acceptance of the Collateral Agreement
- On customer acceptance initiate a detailed Collateral Perfection

2.1 Collateral Evaluation - Process Flow Diagram

The Collateral Evaluation process has the following stages handled by users authorized to perform the task under those stages.

1. Initiation
2. Data Enrichment
3. Legal Evaluation
4. Risk Evaluation
5. Valuation
6. Review & Recommendation
7. Approval
8. Draft Generation
9. Customer Acceptance

2.2 Initiation

Collateral Evaluation can be initiated when a customer approaches the bank and provides the application for collateral evaluation or when the Relationship Manager visits the customer location and Initiates the Collateral Evaluation on behalf of the customer.

On receiving the application for collateral evaluation the basic details of the application along with collateral details can be captured. On submit of the request, the request will be available for a Credit Operations user to enrich the collateral evaluation.

As a user, you will be able to login to the OBCFPM application with appropriate credentials. On login, you will be able to view the dashboard screen with dashboards, widgets mapped for your user profile.

Menu→Collaterals →Evaluation

(Screen)

From the 'menu bar', you can initiate a new collateral evaluation.

On selecting, Collateral Evaluation, a new screen will open to capture the details.

As a user, you can provide the basic application details.

2.2.1 Quick Initiation

The Relationship Manager can do a quick initiation of the collateral evaluation or the operations user can do a quick initiation of collateral evaluation on receiving the application from the customer.

Field Name	Description	Attribute Type	Object Type	Size	Mandatory/Optional	Field Validation
Application Priority	Select the Application Priority	Input	Toggle Button	3	Mandatory	
Customer Id	Key in the customer id or choose the customer id from the List of	Input	LOV	16	Mandatory	Open and Active corporate customer can be selected

	Values					
Customer Name	The customer name of the selected customer will be displayed	Display	Text Box			
Collateral Type	Select the Collateral Type	Input	Drop Down	22	Mandatory	
Collateral Description	Specify the brief description of the Collateral	Input	Free Text	255	Optional	
Purpose of Collateral	Specify the purpose of the Collateral	Input	Free Text	255	Optional	
Collateral Currency	Key in the currency or choose the currency from the List of Values	Input	LOV	3	Mandatory	Open and Active Currencies can be selected
Owner Estimated Value	Specify the owner estimated value of the collateral	Input	Amount	22,3	Mandatory	
Comments	Specify the generic comments of the collateral	Input	Free Text		Optional	
Documents	Upload the Collateral Documents	Input	Document		Optional	

Action Buttons

After providing required data, you will be able to perform one of the below actions –

- a. **Submit** – On Submit, the details entered will be saved and system will trigger collateral evaluation task with the collateral details Task will be available in the Free Task queue for the operations user to acquire and enrich the collateral details. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.
- b. **Submit and Enrich** - The details entered will be saved and system will trigger collateral evaluation task with the collateral details and Collateral Evaluation Initiation screen will be opened and you will be able to enrich the collateral details. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

2.2.2Initiation

2.2.3Application/Collateral Details

The Collateral and Application details captured as part of Quick Initiation will be defaulted and you will be able to modify the same. You will be able select the application category. Based on the Application category selected the documents to be uploaded and the Checklists applicable for the stage will be defaulted to the Document Upload and Checklists screens.

- d. **Next** – On click of Next, the details of the captured will be saved and then system will move to the Next Screen.
 - b. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

2.2.4 Ownership Details

The Ownership details of the collateral will be defaulted and you will be able to modify the same. By default the customer details captured as part of application details will be defaulted as the primary customer with ownership percentage as zero. You will be able to modify the same.

The screenshot displays the 'Ownership Details' section of the 'Collateral Evaluation - Initiation' process. It features a progress bar with four steps: Application Details, Ownership Details (current), Seniority Details, and Comments. The main area shows 'Ownership Type' set to 'Single' and a 'COS' customer with a 100% ownership percentage. A modal window titled 'Ownership Details' is open, allowing for updates to the Customer Id (000000), Customer Name (COS), Primary Customer status (unchecked), Ownership Percentage (100%), and Remarks. Navigation buttons (Hold, Back, Next, Save & Close, Cancel) are visible at the bottom right.

Field Name	Description	Attribute Type	Object Type	Size	Mandatory/Optional	Field Validation
Ownership Type	Select the Ownership type	Input	Dropdown	1	Mandatory	if ownership type is Joint then multiple ownership details should be captured
Customer Id	Key in the customer id or choose the customer id from the List of Values	Input	LOV	16	Mandatory	Open and Active corporate customer can be selected
Customer Name	The customer name of the selected customer will be displayed	Display	Text Box			
Is Primary Customer	Select if it is the Primary Customer	Input	Checkbox	1	Optional	Only one owner can be the Primary owner of the collateral.

Ownership Percentage	Capture the ownership Percentage	Input	Number	3	Mandatory	Percentage should not be greater than 100 and less than or equal to zero. If ownership type is joint then the total ownership percentage should not be greater than 100
Remarks	Capture the remarks for the owner	Input	Free Text	255	Optional	

Action Buttons on the Ownership Tile

- a. **View** – On click of View, the details of the selected owner will be displayed.
- b. **Edit** – On Click of Edit the details of the selected owner will be displayed and you will be able to modify the same.
- c. **Delete** – On Click of Delete system will ask for a confirmation message. On confirming the owners details will be deleted.

Action Buttons on the footer

- c. **Save & Close** – On click of Save & Close, the details of the captured will be saved.
 - a. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.
 - b. If the total ownership percentage is not equal than 100 then system will display an error message.
 - c. If there is more than one primary owner then system will display an error message.
- d. **Hold** – On Click of Hold the task status will be suspended and the task will be available in the Hold queue.
 - a. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.
 - b. If the total ownership percentage is not equal than 100 then system will display an error message.
 - c. If there is more than one primary owner then system will display an error message.
- c. **Cancel** – On Click the system will ask for confirmation and on confirming the task will be closed without saving the data.
- d. **Back** – On Click of Back, the previous screen will be opened.
- e. **Next** – On click of Next, the details of the captured will be saved and then system will move to the Next Screen.
 - d. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.
 - e. If the total ownership percentage is not equal than 100 then system will display an error message.
 - f. If there is more than one primary owner then system will display an error message.

2.2.5 Seniority Details

The Seniority of Charge of our bank on the Collateral can be captured. If the Seniority of Charge of our bank is Second Charge or Third Charge then the existing Charge details of the collateral has to be captured. You can capture the existing charge details by click on the Add button.

The screenshot displays the 'Collateral Evaluation - Initiation' interface. At the top, there is a navigation bar with 'Futura Bank' and 'Evaluation' on the left, and 'In-Country (004) 04/13/18' and 'Radhika' on the right. Below this is a progress bar with four steps: 'Application Details', 'Ownership Details', 'Seniority Details' (which is the active step), and 'Comments'. There is an 'Add Documents' button in the top right corner.

The 'Seniority Details' section has three tabs: 'First', 'Second', and 'Third'. The 'Second' tab is selected. Above the table, there are buttons for 'Refresh', 'Add', 'View', 'Edit', and 'Delete'. The table has the following columns: 'Entity Name', 'Percentage Owned', 'Point of Contact', 'Branch Phone', and 'Branch Email'. The table is currently empty.

Below the table, there are two sections: 'Total Percentage Of Seniority' and 'Percentage Available For Us', both of which are currently empty.

At the bottom right of the interface, there are five buttons: 'Hold', 'Back', 'Next', 'Save & Close', and 'Cancel'.

2.3.4.12 Precious Metals

The screenshot displays the 'Precious Metals' section of a web application. At the top, there is a navigation bar with 'Futura Bank' and 'My Tasks'. Below this is a breadcrumb trail: 'Collateral Evaluation - Data Enrichment'. A progress bar shows the current step as 'Precious Metals'. The main content area is titled 'Preciousmetals' and contains a table with the following data:

Serial Number	Metal Type	Invoice Currency	Invoice Value
DN007	Diam	BZD	600000000

Below the table, there is a pagination control showing 'Page 1 of 1 (1 of 1 items)'. At the bottom right of the application window, there are buttons for 'Hold', 'Back', 'Next', 'Save & Close', and 'Cancel'.

Premium Currency	Capture the Premium currency	Input	Search Box	3	Mandatory	
Premium Amount	Capture the Premium amount	Input	Number	22,3	Mandatory	
Premium Frequency	select the premium frequency	Input	LOV	1	Optional	
Premium End Date	Capture the Phone Number of the entity	Input	Date		Mandatory	

Action Buttons on the footer

- a. **Save & Close** – On click of Save & Close, the details of the captured will be saved.
 - a. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

- b. **Hold** – On Click of Hold the task status will be suspended and the task will be available in the Hold queue.
 - a. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

- c. **Cancel** – On Click the system will ask for confirmation and on confirming the task will be closed without saving the data.

- d. **Next** – On click of Next, the details of the captured will be saved and then system will move to the Next Screen.
 - b. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

2.3.4.14 Configuration

The data enrichment user can send the task for Legal Opinion or Valuation or the Risk Evaluation stage by selecting the following fields.

Field Name	Description	Attribute Type	Object Type	Size	Mandatory/Optional	Field Validation
Is Legal Opinion Required ?	Select if Legal Opinion task is required	Input	Switch		Optional	
Is Valuation Required ?	Select if Valuation task is required	Input	Switch		Optional	
Is Risk Evaluation Required?	Select if Risk Evaluation task is required	Input	Switch		Optional	

Action Buttons on the footer

- a. **Save & Close** – On click of Save & Close, the details of the captured will be saved.
 - a. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

- b. **Hold** – On Click of Hold the task status will be suspended and the task will be available in the Hold queue.
 - a. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

- c. **Cancel** – On Click the system will ask for confirmation and on confirming the task will be closed without saving the data.

- d. **Next** – On click of Next, the details of the captured will be saved and then system will move to the Next Screen.

- b. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

2.3.4.15 Comments

Field Name	Description	Attribute Type	Object Type	Size	Mandatory/Optional	Field Validation
Comments	Specify the comments for the stage. This will be visible in all the stages	Input	Free Text	600	Mandatory	

Action Buttons

After providing required data, you will be able to perform one of the below actions –

- f) **Submit** – On Submit, the checklists applicable for the stage will be defaulted based on the application category. On Verifying all the checklist and on selection of the Outcome of the task the task will be submitted.
- g) **Save & Close** – On click of Save & Close, the details of the captured will be saved.
 - a. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.
- h) **Hold** – On Click of Hold the task status will be suspended and the task will be available in the Hold queue.

- a. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.
- i) **Cancel** – On Click the system will ask for confirmation and on confirming the task will be closed without saving the data.
- j) **Back** – On Click of Back, the previous screen will be opened.

2.4 Internal Legal Evaluation

As a Legal Officer the user will review the collateral and its documents to see if the collateral can secure bank's exposure. Generally legal department of the bank considers the following possible aspects

How helpful the local jurisdiction in facilitating quick disposal and recovery of money (legal processes related to collateral sale)

Whether the collateral submission has been duly authorized by customer's board (board resolution to authorize company management to provide collateral),

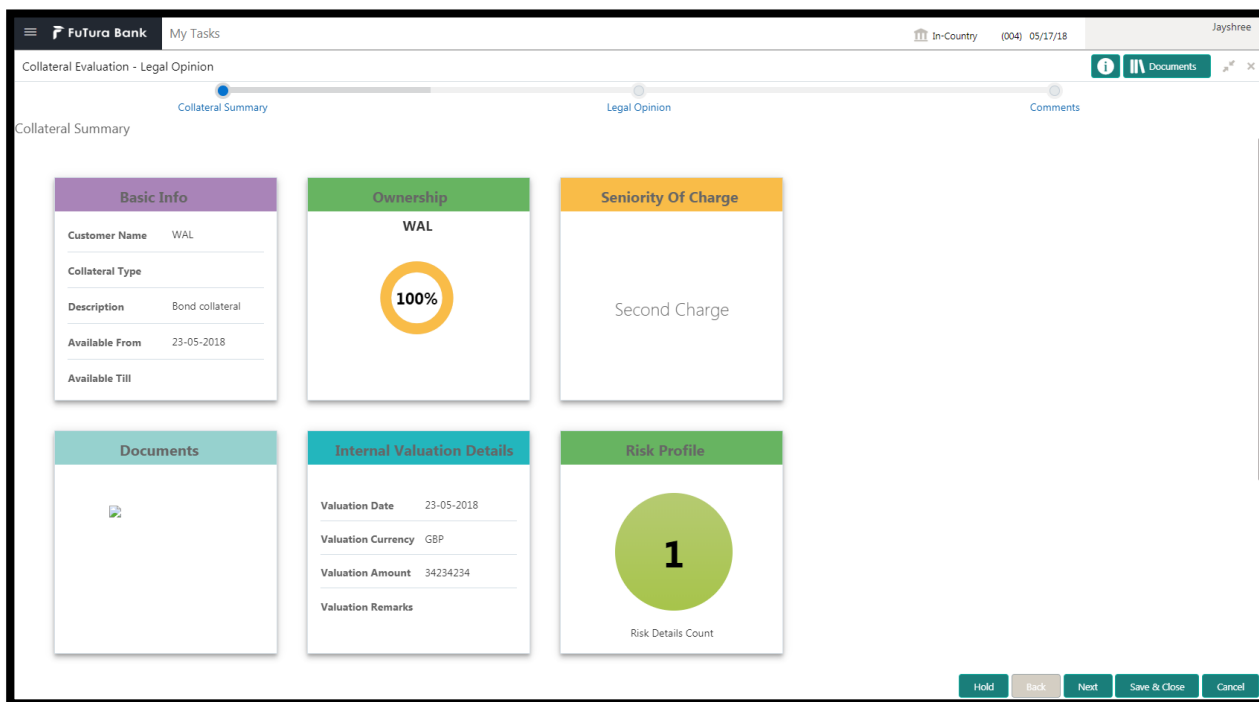

In case of existing first charge, will there be any issue in claiming

Following details will available for the user to review the collateral and provide the Legal Opinion.

- Collateral Summary
- Internal Legal Opinion
- Checklist
- Comments

2.4.1 Collateral Summary

The user can click on each of the tiles to view the detailed information of the Collateral.

Field Name	Description	Attribute Type	Object Type	Size	Mandatory/Optional	Field Validation

2.7.2 Review and Recommendation

As a Credit Reviewer, the user would review the details of the collateral along with the Legal Opinion of the Legal department, Risk Evaluation and Valuation details and recommend the Collateral Value.

Field Name	Description	Attribute Type	Object Type	Size	Mandatory/Optional	Field Validation
Valuation Currency	Displays the collateral currency selected.	Display	Read Only			
Valuation Amount	Capture the valuation amount.	Input	Amount	22,3		.
Recommendation	Captures the recommendation.	Input	Free Text		Optional	

Action Buttons on the footer

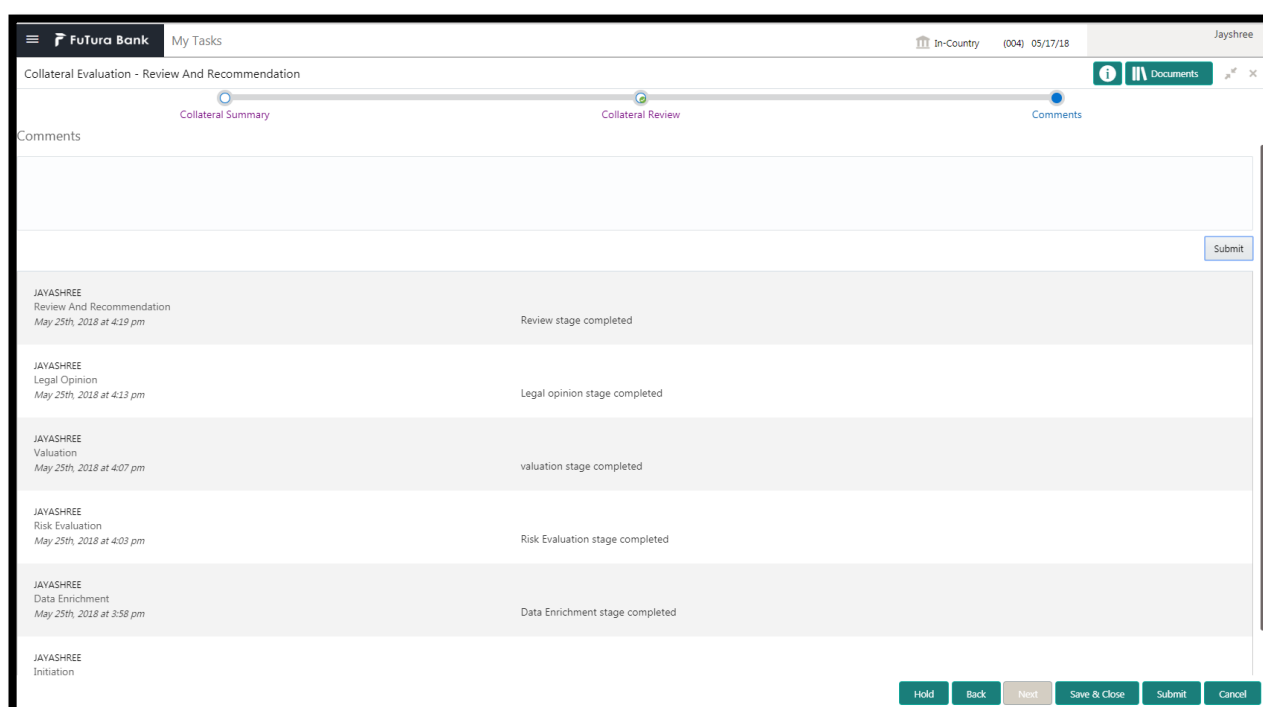

- a. **Save & Close** – On click of Save & Close the screen gets closed.
- b. **Hold** – On Click of Hold the task status will be suspended and the task will be available in the Hold queue.
 - a. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.
- c. **Cancel** – On Click the system will ask for confirmation and on confirming the task will be closed without saving the data.

d. **Next** – On click of Next, the details of the captured will be saved and then system will move to the Next Screen.

b. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

2.7.3 Comments

Field Name	Description	Attribute Type	Object Type	Size	Mandatory/Optional	Field Validation
Comments	Specify the comments for the stage. This will be visible in all the stages	Input	Free Text	600	Mandatory	

Action Buttons

After providing required data, you will be able to perform one of the below actions –

- Submit** – On Submit, the checklists applicable for the stage will be defaulted based on the application category. On Verifying all the checklist and on selection of the Outcome of the task the task will be submitted.
- Save & Close** – On click of Save & Close, the details of the captured will be saved.
 - If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.
- Hold** – On Click of Hold the task status will be suspended and the task will be available in the Hold queue.
 - If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

- d) **Cancel** – On Click the system will ask for confirmation and on confirming the task will be closed without saving the data.
- e) **Back** – On Click of Back, the previous screen will be opened.

2.8 Approval

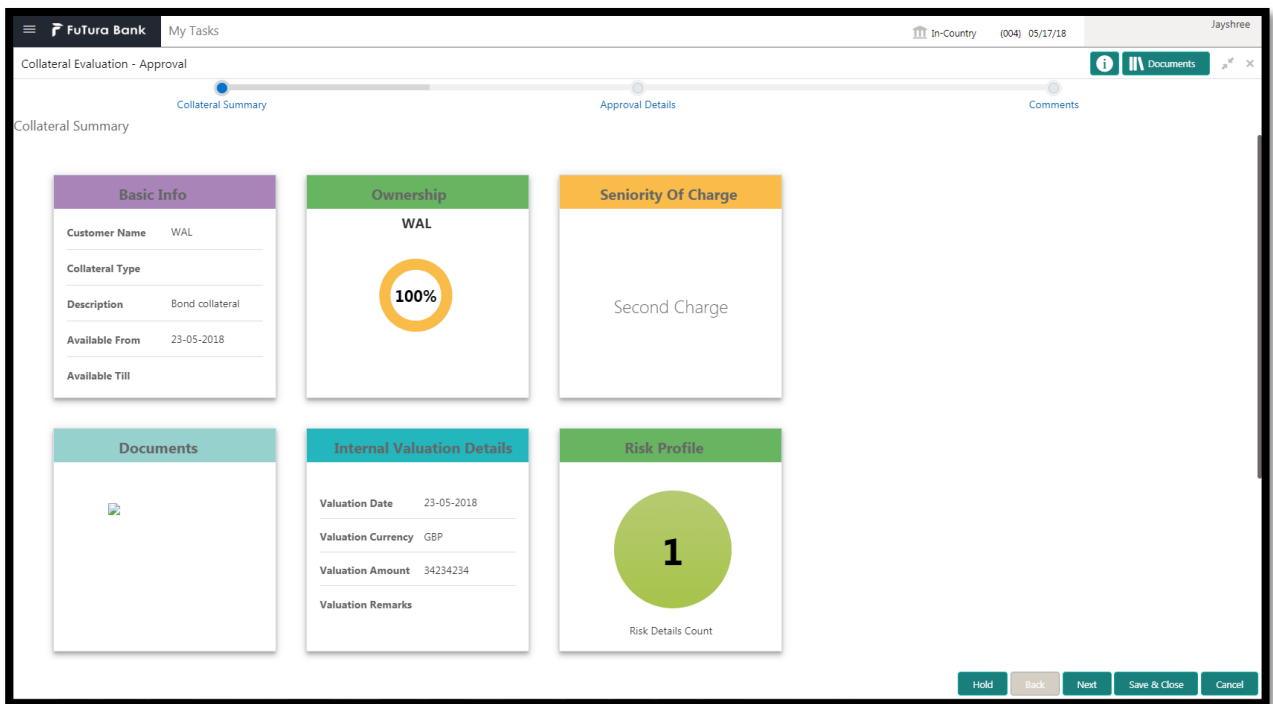

As a Credit Approver, the user would review the details of the collateral along with the Legal Opinion of the Legal department, Risk Evaluation and Valuation details and recommendation of the review and approve the Collateral.

Following details will available for the user to review the collateral and provide the recommendations.

- Collateral Summary
- Approval
- Checklist
- Comments

2.8.1 Collateral Summary

The user can click on each of the tiles to view the detailed information of the Collateral.

Field Name	Description	Attribute Type	Object Type	Size	Mandatory/Optional	Field Validation
