# Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTfPM) User Guide. This guide provides an overview on the OBTfPM application and takes you through the various steps involved in creating and processing trade finance transactions.

This document will take you through following activities in OBTfPM:

- To create and handle trade finance transaction.
- Help users to conveniently create and process trade finance transaction

## Overview

OBTfPM is a trade finance middle office platform, which enables bank to streamline the trade finance operations. OBTfPM enables the customers to send request for new trade finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

## Benefits

OBTfPM helps banks to manage trade finance operations across the globe in different currencies. OBTfPM allows you to:

- Handle all trade finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

## Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

---

## Import LC Amendment

Import LC Amendment process enables the user to make an amendment to the LC which had been already issued. The common amendments that are made to an Import LC are:

- Expiry date
- Latest Shipment Date
- Increase/Decrease in LC amount
- Tolerance percentage
- Confirmation instruction
- Available with bank
- Port of loading/discharge
- Goods quantity
- Related documents to be submitted

The amendments may need consent from the beneficiary of the amendment. In such scenarios, after the processing of amendment, the amended LC is parked awaiting beneficiary consent.

In the following sections, let's look at the details for Import LC amendment process.

This section contains the following topics:

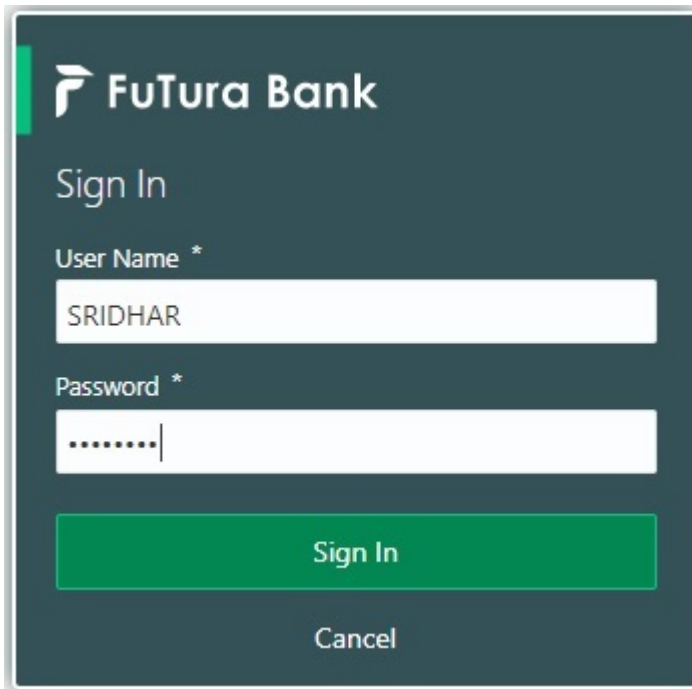

<a href="#">Registration</a>	<a href="#">Scrutiny</a>
<a href="#">Data Enrichment</a>	<a href="#">Customer Response - Draft Confirmation</a>
<a href="#">Exceptions</a>	<a href="#">Multi Level Approval</a>
<a href="#">Customer - Acknowledgement</a>	<a href="#">Customer - Reject Letter</a>
<a href="#">Reject Approval</a>	

### Registration

If the Letter Of Credit amendment request is submitted through branch either by fax, mail, or physical application form, the Import LC amendment process starts from the Registration Stage.

During Registration stage, user can capture the basic details of the amendment application, check the signature of the applicant and upload the related documents of the applicant. On submit of the request, the customer will be notified with an acknowledgment and the request will be available for an LC Amendment expert to handle the request in the next stage.

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

Provide the Application Details based on the description in the following table:

Field	Description	Sample Values
Documentary Credit Number	Provide the documentary credit number. Alternatively, user can search the documentary credit number using LOV.  In LOV search/advanced LOV search, user can input Customer ID, Beneficiary, Currency, Amount and User Reference to fetch the LC details. Based on the search result, select the applicable LC to be amended.	
Received From - Customer ID	Read only field. Customer ID will be auto-populated based on the selected LC from the LOV.	001344
Customer Name	Read only field. Customer Name will be auto-populated based on the selected LC from the LOV.	EMR & CO
Branch	Read only field. Branch details will be auto-populated based on the selected LC from the LOV.	203-Bank Futura -Branch FZ1
Amendment Number	Read only field. Amendment number will be auto-populated based on selected LC using documentary credit number. Amendment number increases by 1 for each amendment.	
Process Reference Number	Unique sequence number for the transaction. This is auto generated by the system based on process name and branch code.	
Priority	System will default the Priority as Low/Medium/High based on maintenance.	High
Submission Mode	Select the submission mode of Import LC Amendment request. By default the submission mode will have the value as 'Desk'.  <b>Desk-</b> Request received through Desk <b>Fax-</b> Request received through Fax <b>Email-</b> Request received through Email <b>Courier-</b> Request received through Courier	Desk
Application Date	By default, the application will display branch's current date and enables the user to change the date to any back date.   <b>Note</b> Future date selection is not allowed.	04/13/2018

Field	Description	Sample Values
Customer Reference Number	User can enter the 'Reference number' provided by the applicant/ applicant bank. Enables the user to provide a unique Customer Reference Number for the amendment.	

## LC Amendment Details

Details in this screen displays the data from the LC issued.

Provide the LC Details based on the description in the following table:

Field	Description	Sample Values
LC Type	Read only field. LC type will be populated based selected LC using documentary credit number.	
Product Code	Read only field. This field displays the product code of the selected LC.	
Product Description	Read only field. This field displays the description of the product as per the product code.	
Advising Bank	This field displays the advising bank details (if provided) of the selected LC and user can amend if required.	

Field	Description	Sample Values
40A - Form of Documentary Credit	Read only field. This field displays the form of documentary credit details of the selected LC.	
Date of Issue	Read only field. This field displays the LC issuance date.	
Applicable Rules	This field displays the rules of the selected LC and user can amend if required.	
Date Of Expiry	This field displays the expiry date of the selected LC. and user can amend if required.	09/30/18
Place of Expiry	This field displays the place of expiry of the selected LC and user can amend if required.	
Applicant Bank	Read only field. This field displays the applicant bank details of the selected LC.	
Applicant	Read only field. This field displays the details of the applicant of the selected LC.	
Beneficiary	This field displays the beneficiary details of the selected LC and user can amend if required.	
Currency/Amount	This field displays the value of LC along with the currency details of the selected LC and user can amend if required.	
Percentage Credit Amount Tolerance	This field displays the percentage credit amount tolerance details of the selected LC and user can amend if required.	
Additional Amount Covered	This field displays the details of additional amount covered of the selected LC and user can amend if required.	
Limits Required	<b>Toggle On:</b> Set the toggle 'On' to enable limit check. <b>Toggle Off:</b> Set the toggle 'Off' to disable limit check.

Provide the Miscellaneous Details based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the required documents.	
Remarks	Provide any additional information regarding the LC. This information can be viewed by other users processing the request.	
View LC	Enables user to view the details of the LC.	
<b>Action Buttons</b>		
Submit	On submit, system will trigger acknowledgment to the customer and give confirmation message for successful submission. Task will get moved to next logical stage of Import LC Amendment. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the information provided and displays the task in you queue for working later. This option will not submit the request.	
Cancel	Cancels the Import LC Amendment Registration stage inputs.	

Field	Description	Sample Values
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Checklist	<p>Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not marked, system will display an error on submit.</p> 	

## Scrutiny

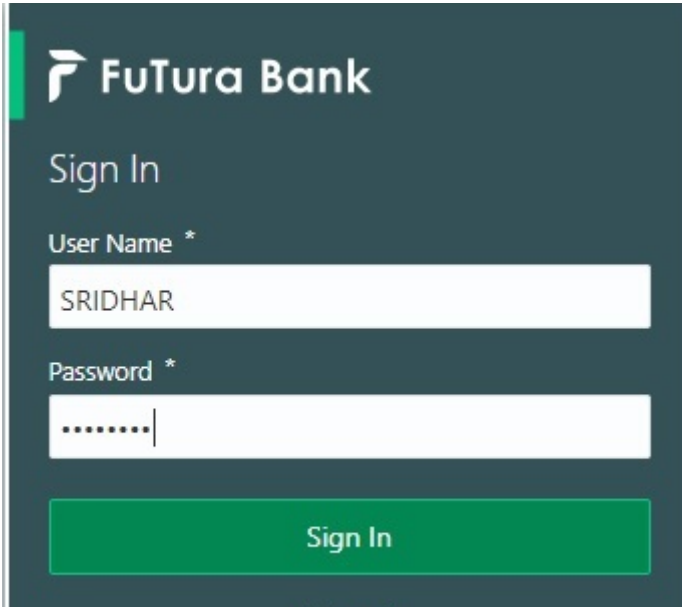

On successful completion of Registration of an Import LC Amendment request, the request moves to Scrutiny stage. At this stage the gathered information during Registration are scrutinized.

**Non-Online Channel** - Import LC Amendment request that were received at the desk will move to Scrutiny stage post successful Registration. The requests will have the details entered during the Registration stage.

**Online Channel** - Requests that are received via online channels like trade portal, external system and SWIFT are available directly for further processing from Scrutiny stage and available data for all data segments from Application stage to Data Enrichment stage would be auto populated.

Do the following steps to acquire a task currently at Scrutiny stage:

1. Using the entitled login credentials for Scrutiny stage, login to the OBTFPM application.

Field	Description	Sample Values
Submit	On successful submission, task moves to next logical stage of Import LC Amendment. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request.	
Cancel	Cancel the Import LC amendment Scrutiny stage inputs.	

Field	Description	Sample Values
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance/Limits</li> <li>• R5 - Others.</li> </ul> <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Next	Click Next to move to next logical step in Scrutiny stage.	

## Payment Details

### Payment Details

As part of amendment, user can change the values available in the fields based on the description in the following table:

Field	Description	Sample Values
Spl Paymt Cond - Beneficiary	This field displays the value of Spl Paymt Cond - Beneficiary as per the issued LC and can be amended if required. If any special payment condition has to be provided to beneficiary, the details for the same must be captured in this field.	
Spl Paymt Cond - Rec Bank	This field displays the value of Spl Paymt Cond - Rec Bank as per the issued LC and can be amended if required. If any special payment condition has to be provided to receiving bank, the details for the same must be captured in this field. This field specifies special payment conditions applicable to the receiving bank without disclosure to the beneficiary, for example, post-financing request/ conditions for receiving bank only.	
Period for Presentation	This field displays the value of Period for Presentation as per the issued LC and can be amended if required. If the period of presentation is based on any event other than shipment, then you can capture the event name in text along with the number of days in number.	

Field	Description	Sample Values
Confirmation Instructions	<p>This field displays the value of Confirmation Instructions as per the issued LC and can be amended if required.</p> <p>Select the confirmation instruction for the LC from the available LOV values – CONFIRM, MAY ADD, WITHOUT.</p> <p>Applicable only if field 49 - confirmation instruction is 'confirm' or 'may add'. You can search through LOV, Party type with banks should only be displayed in LOV. The system must display the following:</p> <ul style="list-style-type: none"> <li>a) SWIFT code (if available),</li> <li>b) Name and address of the bank</li> </ul> <p>On selection of the record, if SWIFT code is available then SWIFT code will be defaulted. If SWIFT code is not available then the bank's name and address to be defaulted.</p>	
Requested Confirmation Party	<p>This field displays the value of Requested Confirmation Party as per the issued LC and can be amended if required.</p>	
Reimbursing Bank	<p>This field displays the value of Reimbursing Bank as per the issued LC and can be amended if required.</p> <p>Search through LOV. Party type with banks will be displayed in LOV.</p> <ul style="list-style-type: none"> <li>• SWIFT code (if available),</li> <li>• Name and address of the bank</li> </ul> <p>On selection of the record if SWIFT code is available, then SWIFT code will be defaulted. If SWIFT code is not available then the bank's name and address to be defaulted.</p>	
Advise Through Bank	<p>Online Channel – User can update the details received.</p> <p>Non-Online Channel -</p> <p>Search through LOV. Party type with banks must be displayed in LOV.</p> <ul style="list-style-type: none"> <li>• SWIFT code (if available)</li> <li>• Name and address of the bank</li> </ul> <p>On selection of the record if SWIFT code is available, then SWIFT code will be defaulted. If SWIFT code is not available then the bank's name and address to be defaulted.</p>	
Instructions to P/A/N Bank	<p>This field displays the value of Instructions to P/A/N Bank as per the issued LC and can be amended if required.</p>	

Field	Description	Sample Values
Sender to Receiver Information	This field displays the value of Sender to Receiver Information (FFT Details) as per the issued LC and can be amended if required.	
Charges	Charge Description as maintained in FFT will be available. User can modify the description.	
Amendment Charges Payable by	This field specifies the party who bear the amendment charges.	

## Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Submit	Task will get moved to next logical stage of Import LC amendment.  If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the information provided and holds the task in you queue for working later.  This option will not submit the request	
Cancel	Cancel the Scrutiny stage inputs.	
Hold	The details provided will be registered and status will be on hold.  This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Reject	On click of Reject, user must select a reject reason from a list displayed by the system.  Reject Codes: <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance/Limits</li> <li>• R5 - Others.</li> </ul> Select a reject code and give a reject description.  This reject reason will be available in the remarks window throughout the process.	
Next	Click Next to move to next logical step in Scrutiny stage.	

## Amendment Details

This section lists the amendments made to the issued LC. The amendment details table displays the amended value and the value prior to the amendment of the amended fields in two different columns to enable Scrutiny user to identify the modifications made to the issued LC.

## Data Enrichment

As part of Data Enrichment, user can enter/update basic details of the incoming request.

Do the following steps to acquire a task at Data Enrichment stage:

1. Using the entitled login credentials for Data Enrichment stage, login to the OBTFPM application.

**FuTura Bank**

Sign In

User Name \*

SRIDHAR

Password \*

.....

Sign In

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

The dashboard displays several widgets for monitoring bank operations. The 'Draft Confirmation Pending' widget shows a table with columns: Customer Name, Application Date, and Status. The 'Hand-off Failure' widget shows a table with columns: Branch, Process Name, and Stage Name. The 'Priority Details' widget shows a table with columns: Branch, Process Name, and Stage Name. The 'High Value Transactions' widget shows a bubble chart with a Y-axis ranging from -20K to 140K and an X-axis ranging from -2 to 12. The 'SLA Breach Details' widget shows a table with columns: Customer Name, SLA Breached(mins), and Priority. The 'Priority Summary' widget shows a table with columns: Branch, Process Name, and Stage Name. The 'Hold Transactions' widget shows a table with columns: Branch, Process Name, and Stage Name. The 'SLA Status' widget shows a table with columns: Customer Name, SLA Breached(mins), and Priority. The 'Tasks Detailed' widget shows a table with columns: Branch, Process Name, and Stage Name.

3. Click **Trade Finance> Tasks> Free Tasks**.

The 'Free Tasks' page displays a table of tasks. The table has the following columns: Action, Priority, Application Number, Branch, Customer Number, Amount, Process Name, Stage, and Back Office Ref No. The 'Action' column contains links like 'Acquire & Edit' and 'Acquire'. The 'Priority' column contains values like 'M' and 'H'. The 'Application Number' column contains values like 'GS1ILCA000006076'. The 'Branch' column contains values like 'GS1'. The 'Customer Number' column contains values like '000262'. The 'Amount' column contains values like '£12,000.00'. The 'Process Name' column contains values like 'Import LC Amendment'. The 'Stage' column contains values like 'Data Enrichment'. The 'Back Office Ref No.' column contains values like 'GS1LUN190322501'. The page also includes a 'Refresh' button, a 'Delegate' button, a 'Reassign' button, and a 'Flow Diagram' button. The page number is 'Page 1 of 1 (1-10 of 10 items)'.

4. Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks** tab.

The 'Free Tasks' page displays a table of tasks. The table has the following columns: Action, Priority, Application Number, Branch, Customer Number, Amount, Process Name, Stage, and Back Office Ref No. The 'Action' column contains links like 'Acquire & Edit' and 'Acquire'. The 'Priority' column contains values like 'M' and 'H'. The 'Application Number' column contains values like 'GS1ILCA000006076'. The 'Branch' column contains values like 'GS1'. The 'Customer Number' column contains values like '000262'. The 'Amount' column contains values like '£11,000.00'. The 'Process Name' column contains values like 'Import LC Amendment'. The 'Stage' column contains values like 'Scrutiny'. The 'Back Office Ref No.' column contains values like 'GS1LUN190322501'. The page also includes a 'Refresh' button, a 'Delegate' button, a 'Reassign' button, and a 'Flow Diagram' button. The page number is 'Page 1 of 1 (1-10 of 10 items)'.

5. The acquired task will be available in **My Tasks** tab. Click **Edit** to provide input for Data Enrichment stage.

## Preview

User can view the draft LC amendment message (outgoing MT707 SWIFT message format) being displayed on the preview message text box.

A copy of draft LC amendment can be sent for customer confirmation and the same can be done by choosing the customer response toggle as 'yes'. On submit, the message will be sent to the customer. The task will be moved to 'pending customer response' stage. Upon receipt of customer's confirmation, the transaction moves to approval.

In case the customer has requested for changes, the transaction will move to Data Enrichment and once the necessary changes made, the request moves to approval stage.

Provide the Preview details based on the description in the following table:

Field	Description	Sample Values
Language	Select the language for the SWIFT message.	
Preview Draft Message	Display a preview of the draft message.	
Draft Confirmation Required	This toggle enables the user to select if draft confirmation is required or not.	

Following fields will have values on receipt of customer response.

Customer Response	User can enter the response received from customer. If the response is received online, the response is auto populated in this field by the system.	
Customer Remarks	Remarks from the customer for the draft.	
Response Date	Customer Response received date.	

Field	Description	Sample Values
Default Email list	Default Email address of the customer.	
Add Recipients	Enables to add more recipients for the customer response.

- Main Details - User can view and modify details about application details and LC details, if required.
- Party Details - User can view and modify party details like beneficiary, advising bank etc., if required.
- Availability and Shipment - User can view and modify availability and shipment details, if required.
- Payments - User can view and modify all details related to payments, if required.
- Amendment Details - User can view the amended details of the issued LC.
- Documents & Condition - User can view and modify the documents required grid and the additional conditions grid, if required.
- Additional Fields - User can view and modify the details of additional fields, if required.
- Limits and Collaterals - User can view and modify limits and collateral details, if required.
- Charges - User can view and modify charge details, if required.
- Revolving Details - User can view revolving details on revolving LC, if applicable.
- Preview Messages - User can view and modify preview details, if required.
- Compliance - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.

## Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Submit	Task will get moved to next logical stage of Import LC Amendment.  If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the information provided and holds the task in you queue for working later.  This option will not submit the request	
Cancel	Cancel the Data Enrichment stage inputs.	
Hold	The details provided will be registered and status will be on hold.  This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system.  Reject Codes: <ul style="list-style-type: none"><li>• R1- Documents missing</li><li>• R2- Signature Missing</li><li>• R3- Input Error</li><li>• R4- Insufficient Balance/Limits</li><li>• R5 - Others.</li></ul> Select a Reject code and give a Reject Description.  This reject reason will be available in the remarks window throughout the process.	

## Customer Response - Draft Confirmation

The customer response can be received both by online and offline mode.

In non-online mode, user receives the response in the branch.

In online mode the customer will share their response online that will be automatically updated in the customer response field in the task, which is available in the customer response pending stage.

Log in into OBTFPM application, and open the task to see customer response screen.

### Customer Response

Language - Read only field

Draft Message - Read only field

## Draft Confirmation

Draft Confirmation required - Read only field

Customer Response - This field will be available for you to update any of the below response based on the customer's reply

- Accepted
- Changes Required - Change and proceed

For non-online response – User can select customer response from one of the three drop list values mentioned above.

For Online response – Read only

Customer Remarks - Capture the remarks of the customer.

Response Date - Non-Online channel – Update the date on which the customer response has been received.

Online Channel – Read only

## Summary

Tiles Displayed in Summary

- Main Details - User can view and modify details about application details and LC details, if required.
- Party Details - User can view and modify party details like beneficiary, advising bank etc., if required
- Availability and Shipment - User can view and modify availability and shipment details, if required.
- Payments - User can view and modify all details related to payments, if required.
- Amendment Details - User can view the amended details of the issued LC.
- Documents & Condition - User can view and modify the documents required grid and the additional conditions grid, if required.
- Limits and Collaterals - User can view and modify limits and collateral details, if required.
- Charges - User can view and modify charge details, if required.
- Revolving Details - User can view revolving details on revolving LC, if applicable.
- Preview Messages - User can view and modify preview details, if required.
- Compliance - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.

Documents – User must be able to view the documents uploaded in the system and upload documents if customer response has been received through non- online channel.

Remark - Capture remarks if required and must be able to view the remarks captured during earlier stages.

## Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Submit	Task will get moved to next logical stage of Import LC Amendment.  If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Cancel	Cancel the Draft Confirmation.	
Hold	The details provided will be registered and status will be on hold.  This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system.  Reject Codes: <ul style="list-style-type: none"><li>• R1- Documents missing</li><li>• R2- Signature Missing</li><li>• R3- Input Error</li><li>• R4- Insufficient Balance/Limits</li><li>• R5 - Others.</li></ul> Select a Reject code and give a Reject Description.  This reject reason will be available in the remarks window throughout the process.	
Refer	User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.  Refer Codes: <ul style="list-style-type: none"><li>• R1- Documents missing</li><li>• R2- Signature Missing</li><li>• R3- Input Error</li><li>• R4- Insufficient Balance- Limits</li><li>• R5 - Others</li></ul>	

## Exceptions

The Import LC Amendment request, before it reaches the approval stage, the application will validate the Amount Block, KYC and AML. If any of these failed in validation will reach exception stage for further clearance for the exceptions.

## Exception - Amount Block

As part of amount block validation, application will check if sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into OBTFPM application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of important fields with values.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

Approve:

- Settlement amount will be funded (outside of this process)
- Allow account to be overdrawn during hand-off

Refer:

- Refer back to DE providing alternate settlement account to be used for block.
- Different collateral to be mapped or utilize lines in place of collateral.

Reject:

Reject the transaction due to non-availability of sufficient balance in settlement account

## Amount Block Exception

This section will display the amount block exception details.

## Exception - Know Your Customer (KYC)

As part of KYC validation, application will check if necessary KYC documents are available and valid for the applicant. The transactions that have failed KYC due to non-availability / expired KYC verification will reach KYC exception stage.

Log in into OBTFPM application, KYC exception queue. KYC exception failed tasks for trade finance transactions must be listed in your queue. Open the task, to see summary tiles that display a summary of important fields with values.

User can pick up a transaction and do the following actions:

### Approve

- After changing the KYC status in the back end application (outside this process).
- Without changing the KYC status in the back end application.
- Reject (with appropriate reject reason).

## Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance/Limits</li> <li>• R5 - Others.</li> </ul> <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Refer	<p>User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance- Limits</li> <li>• R5 - Others</li> </ul>	

Field	Description	Sample Values
Cancel	Cancel the Import LC Amendment Limit exception check.	
Approve	On approve, application must validate for all mandatory field values, and task must move to the next logical stage.	
Back	Task moves to previous logical step.	

## Multi Level Approval

Log in into OBTFPM application and open the task to see the summary tiles. The tiles should display a list of important fields with values. User must be able to drill down from summary Tiles into respective data segments to verify the details of all fields under the data segment.

## Authorization Re-Key

For non online channel, application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

Open the task and re-key some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.:

- Applicant Party
- Application Date

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able to see the summary tiles and the details in the screen by drill down from tiles.

The screenshot displays the Futura Bank application interface. On the left is a navigation menu with options like Core Maintenance, Dashboard, Maintenance, Security Management, Tasks, and Trade Finance. The main area shows a 'Free Tasks' section with a table of tasks. An 'Approval Rekey' modal window is open, allowing users to re-enter values for 'Applicant Party' (000262) and 'Application Date' (Feb 1, 2019). The modal includes buttons for 'Proceed', 'Refer', and 'Cancel'. In the background, a table lists process details with columns for Process Name, Stage, and Back Office Ref No.

## Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the required documents.	

Field	Description	Sample Values
Remarks	Provide any additional information regarding the LC Amendment. This information can be viewed by other users processing the request.	
Incoming Message	Displays the incoming message, if any.	
<b>Action Buttons</b>		
Proceed	On proceed, the screen navigates to approval summary screen.	
Refer	User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system. Refer Codes: <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R5 - Others</li> </ul>	
Cancel	Cancel the Import LC Amendment Approval Rekey.

Cancel	Cancel the approval.	

Field	Description	Sample Values
Approve	On approve, application must validate for all mandatory field values, and task must move to the next logical stage. If there are more approvers, task will move to the next approver for approval. If there are no more approvers, the transaction is handed off to the back end system for posting.	

## Customer - Acknowledgement

Customer Acknowledgment is generated every time a new Import LC Amendment is requested from the customer. The acknowledgment letter format is as follows:

To:

<CUSTOMER NAME>

DATE: DD-MM-YYYY

<CUSTOMER ADDRESS>

Dear Sir,

SUB: Acknowledgment to your LC Amendment Application number <USER REFERENCE> dated <APPLICATION DATE>

This letter is to let you know that we have received your application requesting amendment to Import LC with the below details.

APPLICATION DATE:< APPLICATION DATE>

APPLICANT NAME: <APPLICANT NAME>

CURRENT/AMOUNT: <LC CCY/AMT>

YOUR REFERENCE NO: <USER REFERENCE NUMBER>

OUR REF NUMBER: <PROCESS REF NUMBER>

We have registered your request. Please quote our reference < PROCESS REF NUMBER> for any future correspondence.

This acknowledgment does not warrant Amendment of LC on you behalf.

Thank You for banking with us.

Regards,

<DEMO BANK>

Notice: This document is strictly private, confidential and personal to its recipients and should not be copied, distributed or reproduced in whole or in part, nor passed to any third party. The information contained in this e-mail/ message and/or attachments to it may contain confidential or privileged information. If you are not the intended recipient, any dissemination, use, review, distribution, printing or copying of the information contained in this e-mail message and/or attachments to it are strictly prohibited. If you have received this communication in error, please notify us by reply e-mail or telephone and immediately and permanently delete the message and any attachments. Thank you

## Customer - Reject Letter

Reject Letter is generated by the system and addressed to the customer, when a task is rejected by the user. The Reject Letter format is as follows:

FROM:

<BANK NAME>

<BANK ADDRESS>

TO:

DATE <DD/MM/YYYY>

<CUSTOMER NAME>

<CUSTOMER ADDRESS>

<CUSTOMER ID>

Dear Sir,

SUB: Your LC Application <User Ref> under our Process Ref <Process Ref No> - Rejected

Further to your recent LC amendment application request dated <Application Date -dd/mm/yy>, under our process ref no <process ref no>, this is to advise you that we will not be able to issue the required LC amendment.

After a thorough review of your application and the supporting documents submitted, we have concluded we will not be able to issue the LC due to the below reasons

1. XXXXXXXXXX
2. XXXXXXXXXX
3. XXXXXXXXXX

On behalf of Demo Bank, we thank you for your ongoing business and trust we will continue to serve you in future.

For any further queries about details of your LC application review, please contact us at <bank customer support ph.no>

Yours Truly

<Authorized Signatory>

## Reject Approval

As a Reject approver, user can review a transaction rejected and waiting for reject confirmation.

Log in into OBTFPM application to view the reject approval tasks for Import LC Amendment in queue. On opening the task, you will see summary tiles. The tiles will display a list of important fields with values.

The tile containing the screen from where the reject was triggered will be highlighted in red.

User can drill down from reject summary tiles into respective data segments to verify the details of all fields under the data segment.

### Application Details

The application details data segment have values for requests received from both non-online and online channels.

### Summary

The data captured during handling of the transaction until the stage when reject is given will be available in the summary tile. Other fields will be blank when verified from summary tile.

The data segment in which the task was rejected will have the tiles highlighted in a different colour (red).

- Main Details - User can view and modify details about application details and LC details, if required.
- Party Details - User can view and modify party details like beneficiary, advising bank etc., if required
- Availability and Shipment - User can view and modify availability and shipment details, if required.
- Payments - User can view and modify all details related to payments, if required.
- Amended Details - User can view the amended details of the issued LC.
- Documents & Condition - User can view and modify the documents required grid and the additional conditions grid, if required.
- Limits and Collaterals - User can view and modify limits and collateral details, if required.
- Charges - User can view and modify charge details, if required.
- Revolving Details - User can view revolving details on revolving LC, if applicable.
- Preview Messages - User can view and modify preview details, if required.
- Compliance - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.

### Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject Approve	On click of Reject Approve, the transaction is rejected.	
Reject Decline	On click of Reject Decline, the task moves back to the stage where it was rejected. User can update the reason for reject decline in remarks.	
Hold	User can put the transaction on 'Hold'. Task will remain in Pending state.	
Cancel	Cancel the Reject Approval.
