<b>Components</b>		
Adobe Reader 11	N/A	N/A
Adobe Reader DC		
*1 As Microsoft de-supported Microsoft Internet Explorer 7, 8, 9, and 10 on January 12, 2016, it is highly recommended that you upgrade to Microsoft Internet Explorer 11 to avoid being exposed to potential security risks. See the link ( <a href="https://www.microsoft.com/en-us/WindowsForBusiness/End-of-IE-support">https://www.microsoft.com/en-us/WindowsForBusiness/End-of-IE-support</a> ) for the announcement from Microsoft.		
*2 OPERA Professional Premium/Standard Cloud Service and OPERA Enterprise Premium/Standard Cloud Service are browser agnostic. This adds support to any modern operating system and browser (including Microsoft Internet Explorer 11 (Version 1.18.06 forward) and Microsoft Edge. For security and compatibility purposes, update both the operating system and browser to the latest available versions.
