This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, and MySQL are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

## About the WebCenter Forms Recognition Solution Configuration Manager Technical Specifications

WebCenter Forms Recognition Solution Configuration Manager (SCM) is a web-based application for the administrators of WebCenter Forms Recognition. This application allows you to configure and manage the database for the different packaged solutions delivered by Oracle.

This document provides the technical specifications for Solution Configuration Manager.

Use the requirements provided in this document as a guideline. The actual hardware and software configuration depends on your specific requirements.

## Compatibility

The following table lists the WebCenter Forms Recognition versions compatible with Solution Configuration Manager.

Releases	12.2.1.3	12.2.1.4	12.2.1.4 BP1	14.1.1.0
SCM 1.3	Yes	Yes	Yes	No
SCM 2.0	Yes	Yes	Yes	Yes

## Server Requirements

The following table lists the minimum requirements for SCM servers.

Element	Specification
Processor	As a minimum requirement, use a dual core processor running at 2GHz.
Memory	Minimum 2GB RAM.
Disk space	20 GB available disk space.

## Internet browsers

The Solution Configuration Manager application is certified to use the Google Chrome browser.

## Additional Server Requirements

The following table lists the additional requirements for SCM servers.

Specification	Description
Operating Systems	<ul style="list-style-type: none"> <li>- Microsoft Windows 10</li> <li>- Microsoft Windows Server 2016</li> <li>- Microsoft Windows Server 2019</li> </ul>
Software	<ul style="list-style-type: none"> <li>- Microsoft .NET Framework 4.6</li> <li>- Internet Information Server 7 or later</li> <li>- .NET Extensibility 3.5</li> <li>- ASP .NET 3.5</li> </ul>

## Database

The Solution Configuration Manager module requires central management of project data in a database. The Solution Configuration Manager database is certified to run on the following database platforms.

- Oracle 11g

**Note:** To be able to install SCM 2.0 on an Oracle 11g database, you will need to install Oracle Client 12c on the SCM server.

- Oracle 12c
- Oracle 19c
- Microsoft SQL Server 2012
- Microsoft SQL Server 2014
- Microsoft SQL Server 2016

**Note:** Every installation of Oracle requires to be configured for odp.net4 and OracleDatabaseAccessComponents (ODAC) for the installed Oracle client.
