

Oracle Financial Services Investigation Hub Release 8.1.2.4.0

Oracle Financial Services Investigation Hub (OFS Investigation Hub) is a separately licensed product.

Description

ID **35371554** – OFS Investigation Hub 8.1.2.4.0 Release

This release of OFS Investigation Hub is the major release, and it is based on OFS Compliance Studio.

New Features in this Release

- Technical updates on Investigation Hub notebooks to support "in-memory" and "offloaded" ECM graphs.
- Deprecated L2 and Generate Correlation Networks notebooks.
- The ML4AML paragraphs are not available in this version. If you need, contact [My Oracle Support](#).

How to Install this Release

For detailed instructions on installing this OFS Investigation Hub Release, see the [OFS Investigation Hub Installation Guide 8.1.2.4.0](#).

Known Issues and Limitations in this Release

[Table 1](#) lists the known issues or limitations in this release.

Table 1: Known Issues and Limitations

SI. No.	Bug ID	Known Issue or Limitation	Workaround
1	32895388	<p>USER ACTIVITY – Export To PDF</p> <p>Exported PDF will not have complete information about the notebook details for the following notebooks:</p> <ul style="list-style-type: none">• Special Investigation (SI)• ECM_Integration L1 <p>For example,</p> <p>When you export the SI notebook as PDF, the Graph Result of the Entity Search details will be missing in the exported PDF.</p>	-

Table 1: Known Issues and Limitations

Sl. No.	Bug ID	Known Issue or Limitation	Workaround
2	-	USER ACTIVITY – Create Objective and Import IH notebooks <ul style="list-style-type: none">There is no separate installer to import the IH notebooks as Model Drafts through the OFS Compliance Studio, which is available for all the users.For IH Notebook to be executable, it needs to be imported into the Sandbox workspace.In the case of the Special Investigation notebook, creating an Objective and Draft to import the notebooks must be performed for each user separately.An Administrator can also import the IH notebooks for all users.	-
3	34786745	Notebook - Error occurs while executing the Quantifind Risk Report Paragraph.	Contact My Oracle Support (if Quantifind is purchased) for integration of Quantifind.
4	35476579	IHUB 81240 - For accounts, input search results/ search for non case entities - Tax ID - User needs to concatenate "acct_tax_id" and "tax_id_frmt_cd" when entering Tax Id as search parameter.	-
5	35432889	IHUB 81240 - Event ID mismatch in ECM UI and IHUB "Entity Summary Historical Report". IHub is showing an internal ID but otherwise the details are same.	-
6	35396425	IHUB 81240 - offloaded graph – "Initial Screening Results" paragraph taking extended times for loading 5 hops.	This issue will be resolved in upcoming Compliance Studio release.
