1.4 Structure

This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual.

Introduction provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure.

If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

3. Payments

Customers have various payments required to be done in day to day life. This requires customer to transfer money from one account to another account of an individual. The transfer of money could be towards payment of fees, payment of utility bills, vendor payments, salary payment of individuals etc.

The digital banking application simplifies the user's requirement of transferring funds from one bank account to others. By using the payments module of the digital banking application, users can transfer funds between accounts (including their own as well as to other accounts held within the same bank or outside the bank either domestically or internationally) at their convenience in a simplified manner.

The following sections in this document detail all the features offered to users through the payments module of the digital banking application.

Features Supported In Application

Payment features supported in application includes:

- Favorite Transactions
- Payee Setup
- Biller Setup
- Repeat Transfer
- Make Single Payment
- Make Multiple Payments
- Adhoc Payment
- Single Bill Payment
- Multiple Bill Payments
- Demand Draft Issuance
- Upcoming Payments
- Payment Inquiries

4. Manage Payees

A 'Payee' is the final recipient of payment transactions. The online banking application enables users to register and maintain payees towards whom payments are to be made frequently or on a regular basis. Payee maintenance is beneficial to users as, it spares the user the effort and time spent to fill out the payee information every time a payment is to be initiated towards the payee's account.

The 'Manage Payee' feature not only enables users to register payees, but also enables them to add accounts to a registered payee and view and delete the accounts of existing payees. Additionally, the user can also initiate a payment from this screen by selecting the option 'Pay' against a specific account of a payee.

Payee Maintenance is provided for following payment transactions:

- Bank Account
 - Internal Bank Account
 - Domestic Bank Account
 - International Bank Account
- Demand Drafts
 - Domestic Bank Account
 - International Bank Account

Payee Access Type:

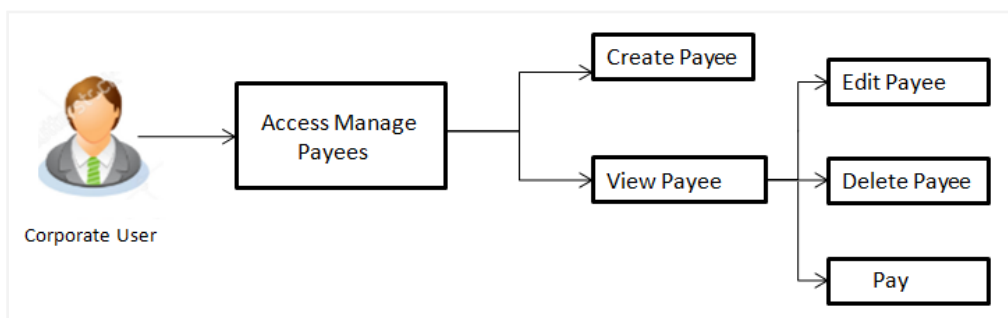

User can specify payee access type while maintaining a payee. Payee access type decides if only creator of a payee or all users of a party can access a payee. Payee access type is categorized as 'Private' and 'Public'.

- Public: A Payee marked as 'Public' is visible to all the users mapped to the Party ID of the user who created a payee. While, all users of the party can view and use the payee while initiating payments, only the user who has created the payee, can edit and delete the payee.
- Private: A Payee marked as 'Private' is available to only the creator of the payee. Only the creator of the payee can use such payees while initiating payment and modify or delete the private payees.

Pre-Requisites

- Transaction access is provided to corporate user
- Approval rule set up for corporate user to perform the actions

Workflow

Features Supported In the application

Functions available on Payees are as follows:

- Create Payee
- View Payee
- Edit Payee (Access Type)
- Delete Payee

How to reach here:

Dashboard > Toggle menu > Payments > Setups > Manage Payees

4.1 Payee Summary

A summarized view of all the Payees maintained by the logged in user, along with the public payees created by other users of the Party, are listed on the Payee Summary screen. A separate section is provided on the screen to view the 'Accounts' payees and 'Demand Drafts' payees. By default, all the payees maintained (created by the logged in user and shared by other users of a party) under type 'Accounts' are listed on the screen.

Users can search for a specific payee by entering the name of the payee in the search field provided. The user is able to view payee details by selecting the provided option and is also able to edit (only access i.e. private or public and payee photo) or delete a payee record. Moreover, the option to add new account payees or new demand draft payees is also provided on this screen.

To manage payees:

1. All the registered payees are listed down by their names, photos (if uploaded) and other details defined at the time of payee creation. If no photo has been uploaded against a payee, the initials of the payee appear in place of a photo.

6. Add Payee - Demand Draft

A Demand Draft is a pre-paid negotiable instrument. The issuing bank undertakes to make payment in full when the instrument is presented by the payee. The demand draft is made payable at a specified center and can be issued in local currency as well as in (allowed) foreign currencies. A foreign currency demand draft can be requested using International Demand Draft while a pay order or local currency demand draft can be requested using Domestic Demand Draft transaction. A Demand Draft, unlike a cheque is issued by the Bank against the Bank's own funds and hence there is a reduced risk of the draft not clearing. Application allows user to save the payee details of the draft through payee maintenance. Payees for demand drafts are of two types:

- Domestic Demand Draft
- International Demand Draft

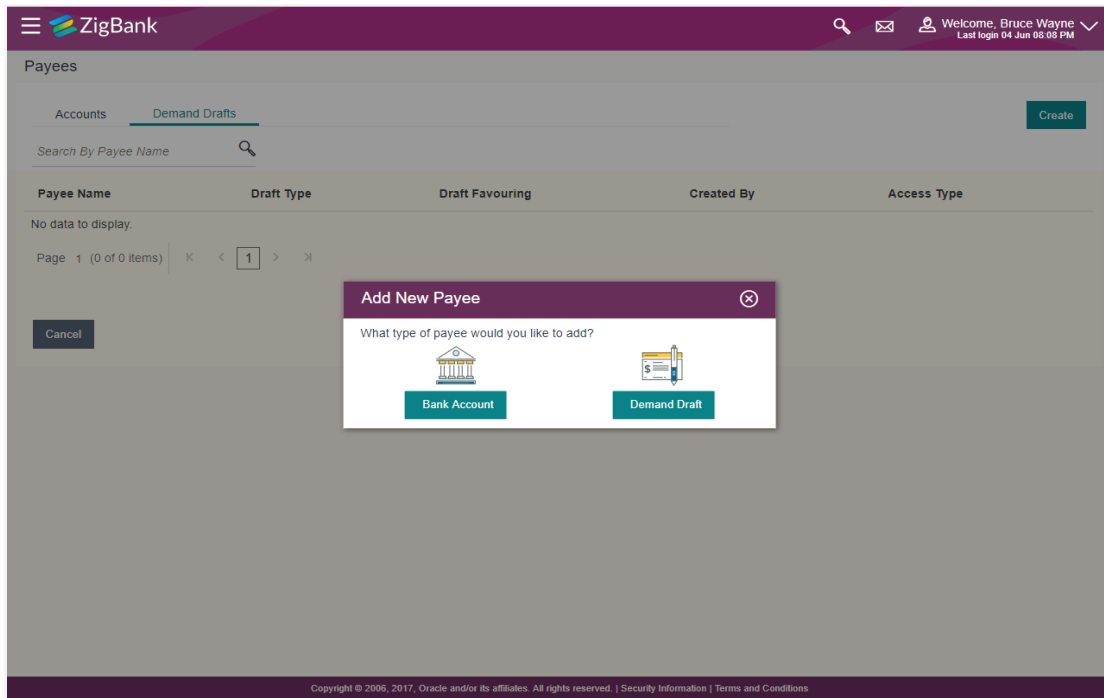

The application also provides an additional option to have the demand draft delivered at the customer's convenience. The following options are provided for the same:

- Branch Near Me – This option enables the user to select a branch of the bank (issuing bank) at which the draft is to be delivered.
- My address – This option enables the user to specify which registered address of the user (out of the user's work, residential or postal address) the draft is to be delivered at.
- Other Address – This option enables the user to specify an address at which the draft is to be delivered. The user can select this option if he wishes to have the draft delivered to an address that is different from that of any of the bank's branches or any of the user's registered addresses.

FAQs

1. Can I delete payees that I no longer need to make payments to?

Yes. You can choose to delete the payees that you no longer need.

2. When can I make the payment to newly added payee?

After successfully adding a payee, you may proceed to transfer funds immediately or set a future date for the transaction to take place.

3. Who can access the payees created with access type as 'Private'?

Private payees can only be accessed by creator of the payee. Only creator of the payee can apply such payees while initiating payment.

4. Who can access the payees created with access type as 'Public'?

Payee marked as 'Public' are visible to all the users mapped to the Party ID of the user who created a payee. All users of the party will be able to view and use these payees while initiating payments, while only the creator will be able to edit and delete the payee.

5. If I delete or edit a payee, what will happen to the in-flight transactions?

Payee modification or deletion will not have any impact on the transactions which are initiated with a same payee and are pending for further processing. In-flight transactions will continue to progress with the data with which the transaction was initiated.

7. Adhoc Demand Draft

Users can initiate requests for demand drafts to be payable towards beneficiaries that are not registered as payees in the system, via the adhoc demand draft feature. Since the demand draft request is for an unregistered beneficiary, the user is required to specify details of the beneficiary along with demand draft details at the time of adhoc demand draft request.

Once the request for the demand draft is initiated, the user can register the beneficiary as a payee by selecting the Add as Payee option provided on the confirm screen.

Pre-Requisites

- Transaction and account access is provided to the corporate user.
- Transaction working window is maintained.
- Transaction limits are assigned to the user to perform the transaction.

8. Adhoc Payment

An adhoc transfer is one which is used to transfer funds from the user's account to a beneficiary/payee account which is not registered with the bank. Since the transfer is towards an unregistered beneficiary, the user is required to specify all the details of the beneficiary including bank and branch details (depending on the type of transfer) along with transfer details while initiating an adhoc transfer.

Pre-Requisites

- Transaction and account access is provided to the corporate user.
- Approval rules are set up for corporate user to perform the required actions.
- Transaction working window is maintained.
- Purposes of Payments are maintained. This is specific to Internal and Domestic Payments.
- Transaction limits are assigned to the user to perform the transaction.

Workflow

Features Supported In the application

The following types of transactions are supported under Adhoc Payments

- Internal Transfer
- Domestic Transfer
- International Transfer

How to reach here:

Dashboard > Toggle menu > Payments > Payments and Transfers > Adhoc Payment

OR

Dashboard > Quick Links > Adhoc Payment

8.1 Adhoc Payment – Internal Fund Transfer

An Internal Bank Account transfer is a transfer to an account which is maintained within the Bank. Basic payee details i.e. the name of the payee and payee account number are captured. In addition to the payee details, the user is also required to specify transfer specific details while initiating an adhoc internal transfer. The user can also view the transaction limits associated with a current transaction.

An E-Receipt gets generated on successful completion of the transaction in the Core Banking application. The E-Receipt gets displayed in Activity Log detailed view.

To initiate an internal fund transfer:

1. From the **Account Type** field, select the option **Internal**.

The fields in which the user can enter details required to initiate an internal account transfer appear.

FAQs

1. **Can I use the adhoc transfer transaction to transfer funds towards the repayment of a loan which I hold in the same bank?**

No, fund transfers can be made only to current or savings account through the adhoc transfer transaction

2. **Can I set a future date for a fund transfer?**

You can set a future date for a payment using Pay Later payment option.

3. **What happens if I have set up a future dated transfer, but don't have enough funds in my account on the transaction date for the transfer?**

Balance check will not be performed at the time of transaction initiation with future date. The transaction will get declined in case of insufficient funds in the account on the given transaction date.

4. **What happens if the transaction amount is less than set Transaction Limit?**

If the transaction amount is less or more than transaction limit set by the Bank, user cannot proceed to make payment.

5. **Can I make a payment to an account which is currently not registered as my payee?**

Yes, you can make payment to the accounts which are not registered as payees.

6. **Do separate transactions limits get defined if I initiate a transfer using Adhoc Transfer and using Transfer Money by selecting a payee?**

Transactions limits are defined based on each payment network. The same limits get utilized if the transaction is initiated from Adhoc Transfer or by using Transfer Money (provided the payment network is the same).

7. **When can I generate e-receipt?**

The user can generate an e-receipt, after successful transaction processing in the Core banking application. The user can download it, from the Activity log – detailed view screen.

9. Issue Demand Drafts

The Issue Demand Draft transaction enables users to request the bank to issue demand drafts towards payees. In order to initiate a demand draft issue request, the user has to first ensure that the payee i.e. the recipient of the demand draft is registered as a demand draft payee through the Manage Payees feature. Once the payee is registered, the user can initiate a request to the bank to issue a demand draft by specifying details such as the amount for which the draft is to be drawn, the account from which the funds are to be debited as well as the date on which the draft is to be drawn.

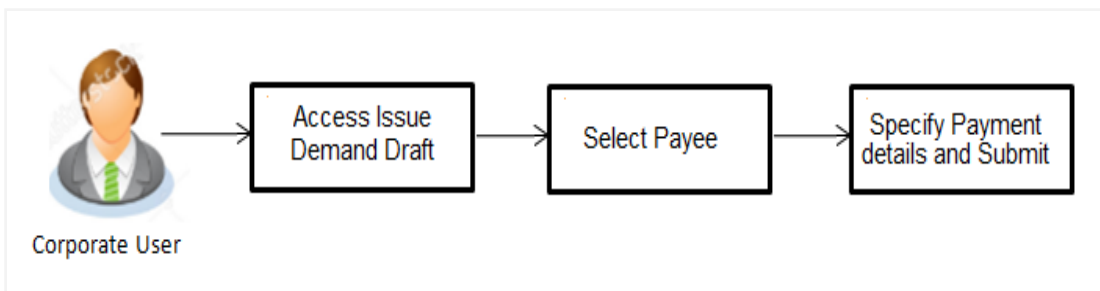

Prerequisites:

- Transaction and account access is provided to corporate user
- Approval rule set up for corporate user to perform the actions
- Transaction working window is maintained
- Required payees are maintained
- Transaction limits are assigned to user to perform the transaction

Features supported in the application

User can request for two types of drafts:

- Domestic Demand Draft – Where the draft is payable within a country
- International Demand Draft – Where the draft is payable outside country

How to reach here:

Dashboard > Toggle menu > Payments > Payments and Transfers > Issue Demand Drafts
 OR
Dashboard > Quick Links > Issue Draft

9.1 Issue Demand Draft

A user can initiate a request for a Demand Draft using this transaction. All Demand Draft payees (Domestic and International Demand Draft payees) created by the logged in user and shared by other users of the party are listed for selection. Details of the selected payee are auto populated on the transaction screen. The user is then required to fill in details such as the source account to be debited, the amount for which the draft is to be drawn and the date on which the draft is payable, in order to initiate the demand draft request.

An E-Receipt gets generated on the successful completion of the transaction. The E-Receipt gets displayed in Activity Log detailed view.

10. Make Payment (Transfer Money)

The Transfer Money feature enables the user to initiate online payments from his bank account to any other bank account. Through this feature, the user is provided with the option to either transfer funds within his own accounts held in the same bank by selecting the 'My Accounts' option or to transfer funds to other accounts (held within the same bank or in other banks within the same country or even to accounts held beyond geographical boundaries) by selecting the 'Existing Payee' option.

On selecting the option, 'Existing Payee', the user has to simply select a payee towards which the transfer is to take place. The user is not required to explicitly select the transfer type (internal, domestic or international) since this categorization is undertaken at the time of payee creation.

Prerequisites:

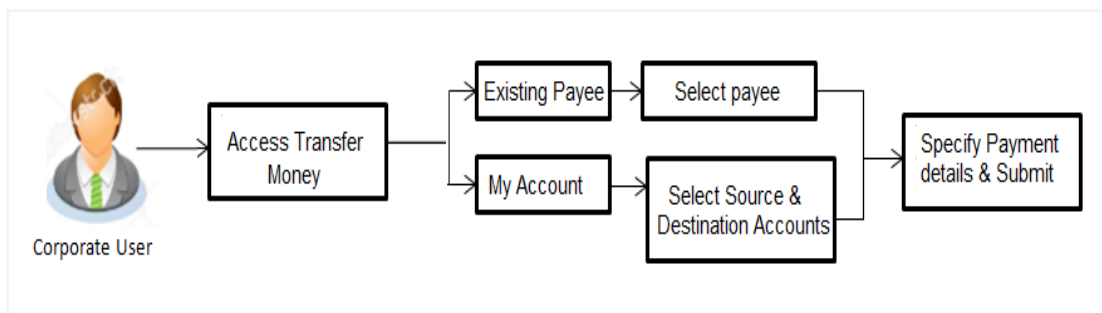

- Transaction and account access is provided to corporate user
- Approval rule set up for corporate user to perform the actions
- Transaction working window is maintained
- Payees are maintained
- Purposes of Payments are maintained which are mandatory for Internal and Domestic Payment
- Transaction limits are assigned to user to perform the transaction

Features supported in the application

The 'Transfer Money' feature enables users to make payments towards:

- Existing Payee – Internal, Domestic and International transfers are supported and are triggered based on the payee and specific payee account selection.
- My Accounts – Users are able to transfer funds within their own accounts held in the bank.

Workflow

How to reach here:

Dashboard > Toggle menu > Payments > Payments and Transfers > Transfer Money

OR

Maker Dashboard > Quick Links > Funds Transfer

OR

Maker Dashboard > Quick Links > Own Account Transfer

10.1 Make Payment - Existing Payee

The existing payee option of the 'Transfer Money' feature enables the user to initiate payments towards existing registered payees. All account payees created by the logged in user and shared by other users of the Party are listed for selection. Once a payee has been selected, the details are auto populated on the transaction screen. The user is then required to fill in payment details to initiate the funds transfer. Payment details will vary based on the transfer type associated with the payee's account. The user can also view the payee and transaction limits by selecting the 'View Limits' link provided on the screen.

An E-Receipt gets generated on the successful completion of the transaction in the Core Banking Application. E-Receipts can also be accessed from **Activity Log** detailed view.

How to reach here:

Dashboard > Toggle Menu > Payments > Payments and Transfers > Transfer Money > Make Payment > Existing Payee

OR

Maker Dashboard > Quick Links > Fund Transfer > Existing Payee

To transfer money to an existing payee:

1. In the **Transfer Type** field, select the **Existing Payee** option.

The fields by which to initiate a fund transfer to an existing payee appear.

12. Repeat Transfers

Repeat Transfers, also referred to as Standing Instructions or Standing Orders, are instructions given by a payer (bank account holder) to the bank to transfer a specific amount to another account at regular intervals.

Once initiated, these transfers are executed repeatedly till the end date.

The application has simplified the user's task of initiating repetitive payments by introducing the **Repeat Transfers** feature. Through this feature, users can set instructions for funds to be transferred at regular intervals towards registered payees or to the user's own accounts. Once initiated, the details of these transfers can be viewed in the View Repeat Transfers screen. The user can also cancel a repeat transfer instruction, if so desired, from the View Repeat Transfers screen.

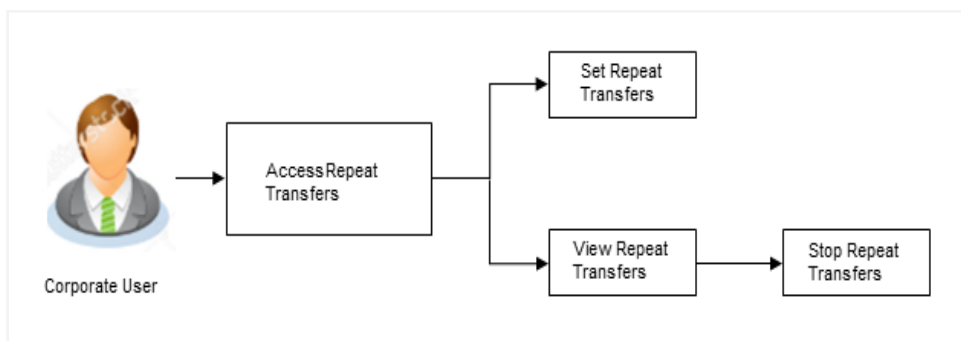

Pre-Requisites

- Transaction and account access is provided to the corporate user
- Approval rule set up for the corporate user to perform the actions
- Transaction working window is maintained
- Purposes of Payments are maintained
- Transaction limits are assigned to the user to perform the transaction

Features supported in the application
