1. Preface

1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Structure

This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual.

Introduction provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure.

If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

1.5 Related Information Sources

For more information on Oracle Banking Digital Experience Release 19.1.0.0.0, refer to the following documents:

- Oracle Banking Digital Experience Licensing Guide
- Oracle Banking Digital Experience Installation Manuals

2. Introduction

Islamic Banking is a Banking system that is based on the principles of sharia (Islamic law) and guided by the Islamic economics. The Shariah Laws provide guidance on each and every aspect of human life, and the laws which govern and guide financial and commercial transactions define Islamic Banking activities.

Although Islamic banking may seem similar to conventional banking, the two differ conceptually. One key difference is that in conventional banking, banks earn their money by charging interest and fees for services, whereas in Islamic banking, banks earn their money by profit and loss sharing, trading, leasing, charging fees for services rendered, etc.

The OBDX corporate banking modules cater to Islamic accounts as well. Users of an Islamic bank, can view the account details, transfer money, make payments, request for cheque books, etc. using the portal.

A user can either have only Islamic accounts or only conventional accounts or a mix of both types of accounts. The portal caters to each case. If the customer has both conventional CASA accounts and Islamic CASA accounts under the same ID and password, he will have a consolidated view of all accounts on logging.

The current and savings accounts widget has a representation of both conventional & Islamic accounts. This is also true for enquiry and transaction screens. While initialing any transaction or payment, the user selects either an Islamic account or a conventional account, grouped under the respective labels.

The labels on the different pages / screens, for Islamic accounts, reflect the nomenclature as per and in accordance with the requirements of the Shariah law.

4. Accounts

Current and savings accounts are the most basic and critical products of corporate banking. Most banking customers hold either a current or a savings account with their banks. Banks, in turn, encourage the use of current or savings accounts as it helps them leverage them, hence earning a higher profit margin for the bank.

This application provides a platform by which banks are able to offer their customers an enriching online banking experience in performing activities on their accounts.

Through the online banking application, customers can perform various activities on their accounts. Customers can view account balances and statements, initiate service requests and perform other inquiries as well as perform financial transactions in their accounts.

Features Supported In the Application:

The corporate accounts module of the application supports the following features:

- Cheque Status Inquiry
- Stop/Unblock Cheque
- Cheque Book Request
- Request Statement
- Forex Calculator

Pre-Requisites

- Transaction access is provided to corporate users
- Islamic CASA accounts are maintained in the core banking system under a party ID mapped to the user.

4.1 Current and Saving Accounts Widget

The savings accounts widget showcases a summary of the accounts held by the user. It provides the facility for users to access all the important features and information related to the account.

Accounts Widget

Current & Savings

This section lists down all the active and inactive savings accounts that the user holds with the bank.

- **Active Accounts:** Each account page displays the basic details such as the holding pattern along with the name of the primary account holder, account product or offer name, the masked account number and account nickname, if defined., along with the net balance of the account. If the user holds both conventional as well as Islamic accounts, the type of account is also identified on each record. The user is able to view further details of an account by clicking on the account.
- **Inactive / Closed Accounts:** This displays the number of accounts of the customer that are in inactive status. The user can view details of the inactive accounts.
- **Quick Links:** It provides the facility for users to access all the important features like:
 - Cheque Book Request
 - Cheque Status Inquiry
 - Stop/Unblock Cheque
 - Request Statement

Forex Calculator

The forex calculator is a link provided on the dashboard from which the user can access the Forex Calculator.

Account Summary

The account summary displays a top view of the accounts and balance in the respective account. You can click the link under the **Account Number** column to view the account details. You can click the **Download** link to download the account details and balances.

4.2 Account Details

The customer can navigate to this screen by selecting any active account card on the accounts dashboard. The account details screen displays important information pertaining to a current or savings account such as the account holding pattern and the names of all the account holders, the current status of the account and the branch in which the account is held along with details on various balances and limits applicable on the account.

Additionally, the customer can also see the following on the account details page:

- **Account Info:** account number, balance, product name, account type, account currency, account branch, account status.
- **Balance and Limits:** It includes information like available balance, amount on hold, unclear funds, advance against unclear funds limits, financing limits, etc.

Functionalities:

- Cheque status enquiry
- Stop/ unblock cheque
- Cheque Book Request
- Request Statement

Transactions

This shows the list of recent transactions done from the account, along with opening and closing balance.

- To stop/ unblock a cheque, click Stop/ Unblock Cheque.
- To initiate the request for the physical statement for the account, click Request Statement.
- Click on Back to Dashboard link to go to Dashboard screen.

4.3 Cheque Book Request

Cheques are the most widely used instruments that are used to make different kinds of payments. The Cheque Book Request feature enables customers to request for a new cheque book online.

This feature is available only for those accounts for which cheque book facility is enabled. Customers can specify the number of cheque books required, leaves per cheque book, cheque book type and also the delivery location as to where the cheque book is to be delivered, while initiating a cheque book request. On initiating a cheque book request, a service request number is generated. The customer can track the status of the request through this reference number generated.

Tips
 Always ensure that you have a record of cheque serial numbers for cheques you have issued.
 The more payments you make on Online Banking the fewer cheques are likely to go astray and need stopping.

3. To inquire about the cheque request, click **Submit**.
OR
Click **Cancel** to cancel the transaction.
4. The search results screen with cheque number, and status field appears.

4.5 Stop/ Unblock Cheque

Cheques are physical instruments used for making payments; it is likely that user might want to block payment in case of theft or misplacement of a cheque issued to a payee. Hence it is critical

to provide an option to stop cheques so that they cannot be utilized for making payment or cannot be misused.

Stop/ Unblock cheque feature allows user to stop a cheque issued for making payment. User can specify the cheque number and initiate a stop payment. The customer will have to select the account number and the cheque number. The cheque number entered will be validated against the account number selected. This is an online request and cheque status will be changed to stop. The User has to specify the reason while stopping the cheque.

This feature also enables customers to request for a cheque or cheque range that has been stopped or blocked. Both stop cheque as well as unblock cheque requests are online i.e. do not require manual intervention by a bank official and the specific cheque or cheque range is immediately stopped or unblocked based on the request raised.

The Pop-up Message appears. ('Unsubscribe to E-statements - You will stop receiving monthly statements for your account <; Number in masked format> by email at <User's email address >')

(2) Click **Unsubscribe** if users wish to stop receiving monthly statements on registered email address.

(3) Click **Proceed** to Unsubscribe. The success message of request submission appears.

5.2 Request Statement

For more information on Request Statement, refer Request Statement transaction.

5.3 Pre-generated Statement

Pre-generated statements are statements that have been generated by the core banking application, for an account. Through this option, the user can view a statement that was generated previously – he may want to do this if he has missed a past statement for some reason. (Like accidentally deleting e-statements or misplacing his mail in case of a physical copy).

To download pre-generated statements:

1. Click **Pre-generated Statement** to download a pre-generated statement. The **Pre-generated Statement** screen appears.

Pre-generated Statement

Field Description

Field Name	Description
------------	-------------

Select a period to download your pre-generated eStatements

Period

Year The year for which the pre-generated statement is to be generated.

Month The month for which the pre-generated statement is to be generated.

2. From the **Period** list, select the desired year and month for which pre-generated statement is to be generated.
3. Click **Search** to generate the statement for the selected period.
4. Click on **Download** column (.pdf) to save the statement.

5.4 Request Statement

A user may require the physical copy of an account statement for a certain period. The statement request feature enables users to request the bank for a physical copy of the statement of an account for a specific period. This physical copy will be mailed to the user's address registered with the bank.

How to reach here:

Click **Cancel** to cancel the transaction.
5. The success message of Request Statement appears along with the transaction reference number.
6. Click **Go To Account Details** to go to **Account Details** screen.
OR
Click **Go To Dashboard** to go to Dashboard screen.

6. Account Nickname

User can assign their own description or name to all of their individual savings, checking, term deposit, and loan and finance accounts. User's nickname is the unique ID. Nicknames will be displayed on various transactions instead of the standard account description. This option also allows user to modify or delete the nickname whenever required.

To add nickname to account:

1. Click , to add nickname to an account.
2. In the **ADD Nickname** field, enter the nickname you want to use.

Add Nickname- Example

The screenshot shows the ZigBank 'Account Details' page for a 'Savings Account'. The 'Add Nickname' button is highlighted with a red box. Below the account details, there are sections for 'Balances', 'Limits', 'Quick Links', and 'Transactions'.
