This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle and Java are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

# Preface

This document contains release notes describing enhancements and repairs to this release of Oracle Utilities Work & Asset Management. Items are sorted by subsystem and module, then by Bug DB number.

## Audience

These release notes are intended for anyone installing or using Oracle Utilities Work and Asset Management Release 1.9.1.2 Service Packs.

## Related Documents

For more information on this release, refer to the following related documentation. Please ensure that you are using the appropriate guide based on whether you are installing on Windows or Linux Application Server.

### User Documentation

Please visit the UGBU Documentation portal for Oracle Utilities Work and Asset Management user documentation:

[http://docs.oracle.com/cd/E55384\\_01/index.htm](http://docs.oracle.com/cd/E55384_01/index.htm)

- *Oracle Utilities Work and Asset Management Configuration Guide*
- *Oracle Utilities Work and Asset Management Online Help*
- *Oracle Utilities Work and Asset Management User Guide*
- *Oracle Utilities Work and Asset Management Customization Guide*

### Installation Documentation

#### About the Release

- *Oracle Utilities Work and Asset Management Quick Install Guide for Release 1.9.1.3*
- *Oracle Utilities Work and Asset Management Release Notes Guide for Release 1.9.1.3*

#### New Installations

- *Oracle Utilities Work and Asset Management Installation Guide for Release 1.9.1.3 on Linux*
- *Oracle Utilities Work and Asset Management Installation Guide for Release 1.9.1.3 on Windows*

### Supporting Docs

- Oracle WebLogic Server 12.2.1.3.0 Documentation:  
<https://docs.oracle.com/middleware/12213/wls/index.html>
- Oracle Fusion Middleware Oracle Forms and Reports 12.2.1.3.0 Documentation:

### Knowledge Base Articles

Please access <https://support.oracle.com> to find related knowledge base articles.

- Support for Add-ons (Article ID 1336258.1)
- Practical Example for demonstrating Oracle Utilities Work and Asset Management 1.9.1.3 Installation and Configuration (Doc ID 2530422.1)

## Conventions

The following text conventions are used in this document:

Convention	Meaning
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

# Supported Platforms and Hardware Requirements

This section provides information regarding the operating systems and servers on which this release has been tested and certified.

## Supported Platforms

The installation has been certified to operate on many operating system, application server, and database server combinations. See below for details on the browser, operating system and application server combinations on which this release has been tested and certified. If you are consulting this matrix in between releases (including service pack and patch releases), you should contact customer support for the most up to date version.

Operating System	Chipset	Application Server	Database Server	Client Operating System
*AIX 7.1 TL4 (64-bit)	Power 64-bit	Not Supported	Supported Oracle Database versions include	Microsoft Windows10 x86 (64-bit)
Oracle Linux 6.5+, 7.x (64-bit)	x86_64	Weblogic Server 12.2.1.3. Forms and Reports12.2.1.3	12c Standard or Enterprise Edition 12.2.0.2.0 - 64-bit	
Red Hat Enterprise Linux 6.5+, 7.x (64-bit)			and	
*Oracle Solaris 11 (64-bit)	SPARC	Not Supported	Oracle Database 12c Standard or Enterprise Edition	
Microsoft Windows 2012/ 2012R2 Server Enterprise Edition (64-bit)	x86_64	Weblogic Server 12.2.1.3. Forms and Reports12.2.1.3	12.1.0.2.0 - 64bit	
Microsoft Windows 2016 Standard (64-bit)	x86_64	Weblogic Server 12.2.1.3. Forms and Reports12.2.1.3		

## Client Operating System Specific

### Browsers

- Internet Explorer 11 (32-bit)
- Mozilla Firefox ESR 60+ (32-bit)

### Java

- Java Runtime Environment (JRE) / Java Virtual Machine (JVM) Plug-in for Browser  
This list reflects the highest supported versions. Refer to the community website for a full list.
  - 1.8.0\_201-b09 (32-bit)

## Application Server Specific

### Java

- JDBC Driver 12c (WebLogic)

## Integrations

- GIS - ESRI ArcGIS 10.x
- Oracle Business Intelligence Publisher 11g Release 1 (11.1.1.7.0)
- Oracle Integration Pack for Oracle Utilities Field Work v12.1

## Notes

- Fine Grain Access functionality requires Enterprise Edition Database Server.
- \* If your database server is installed on AIX, HP or Solaris, please refer to the database support document for these servers.
- You can also refer to the Oracle Utilities Work and Asset Management community website for more information on this release and interaction with the application community.  
[https://communities.oracle.com/portal/server.pt/community/work\\_and\\_asset\\_management/527](https://communities.oracle.com/portal/server.pt/community/work_and_asset_management/527)

# Support for Software Patches and Upgrades

Due to the ongoing nature of software improvement, outside vendors and other Oracle products will issue patches and service packs for the operating systems, application servers and database servers on top of specific versions that Oracle Utilities Work and Asset Management has been tested with. If it is necessary to apply an upgrade, please do that in a test environment prior to updating the Oracle Utilities Work and Asset Management production environment.

Always contact Oracle support prior to applying vendor updates that do not guarantee backward compatibility.

# Release Notes

These release notes contain the following sections:

- [About This Release](#)

## About This Release

Refer to the quick install guide and installation guide for information regarding supported platforms and installation steps.

Please visit My Oracle Support (<http://support.oracle.com>) for the most recent service packs and/or patches for this release to ensure you have the most current version of this product.

This release introduces new versions of Oracle Weblogic Server (12.2.1.3) and Oracle Forms and Reports (12.2.1.3). As such, it is a recompilation of the latest Oracle Utilities Work and Asset Management 1.9.1.2 code line.

This release requires a complete new install of the 1.9.1.3 application. The database can be upgraded to 1.9.1.3 from any 1.9.1.2.x version.

All updated described in the release notes from previous 1.9.1.2.x releases are included in this new version.

## Unwrapped Database Procedures

This release of Oracle Utilities Work and Asset Management includes database procedures that are no longer wrapped to encode the programs. This was provided to allow customers to better understand the business logic that happens within various procedures so that it is easier to integrate Oracle Utilities Work and Asset Management with other products. These procedures are provided as a reference resource only. They should not be altered as they are an important part of the Oracle Utilities Work and Asset Management Base application and changing them will cause adverse affects to the application.
