U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate failsafe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

This software or hardware and documentation may provide access to or information on content, products and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.

## **Send Us Your Comments**

### Oracle Financial Services Lending and Leasing User Documentation

Oracle welcomes customers' comments and suggestions on the quality and usefulness of this document. Your feedback is important, and helps us to best meet your needs as a user of our products. For example:

- Are the implementation steps correct and complete?
- Did you understand the context of the procedures?
- Did you find any errors in the information?
- Does the structure of the information help you with your tasks?
- Do you need different information or graphics? If so, where, and in what format?
- Are the examples correct? Do you need more examples?

If you find any errors or have any other suggestions for improvement, then please tell us your name, the name of the company who has licensed our products, the title and part number of the documentation and the chapter, section, and page number (if available).

Note: Before sending us your comments, you might like to check that you have the latest version of the document and if any concerns are already addressed. To do this, access the Oracle Documentation available at [www.docs.oracle.com](http://www.docs.oracle.com) which contains the most current Documentation Library plus all documents revised or released recently.

Send your comments using the electronic mail address: [financialservices\\_ww@oracle.com](mailto:financialservices_ww@oracle.com)

Please give your name, address, electronic mail address, and telephone number (optional).

If you need assistance with Oracle software, then please contact your support representative or Oracle Support Services.

If you require training or instruction in using Oracle software, then please contact your Oracle local office and inquire about our Oracle University offerings. A list of Oracle offices is available on our Web site at [www.oracle.com](http://www.oracle.com).

# 1. Navigation

This document provides an overview of the basic template, navigation, common operations that can be performed, and keyboard short cuts available in Oracle Financial Services Lending and Leasing. Since this section details the general options available in the User Interface, some or all the parts of this section are applicable to you as per access provisions & licensing.

The document is organized into below topics:

- Logging In
- Template and Navigation
- Common Operations
- Hot Keys

---

## Note

The application can be best viewed in 1280 x 1024 screen resolution.

---

## 1.1 Audience

This document is intended to all Prospective Users who would be working on the application.

## 1.2 Conventions Used

Term	Refers to
The system/application	Oracle Financial Services Lending and Leasing
Mnemonic	The underlined character of the tab or button

## 1.3 Logging In

The pre-requisites to log into the system are a valid user ID and a password, defined by the system administrator in Administration > User screen.

You can login to the system using a valid user ID and a password defined by the system administrator, in Administration > User screen. A User ID is disabled automatically by the system if it is inactive for a specified number of days.

When you invoke the application, the **Sign In** screen is displayed.

- **User ID** – Specify a valid User ID.
- **Password** – Specify a valid password for the specified User ID.

The system accepts the User ID and password in upper case only. After specifying valid credentials, click **Sign In** to sign into the application.

## 1.4 Template and Navigation

This section provides a brief input on the template and navigation of the system. Details are grouped into two categories to enable easy understanding. These include:

- Home screen
- Screens

### 1.4.1 Home Screen

Once you login to the application with valid credentials, the system authenticates the details and displays the Home screen.

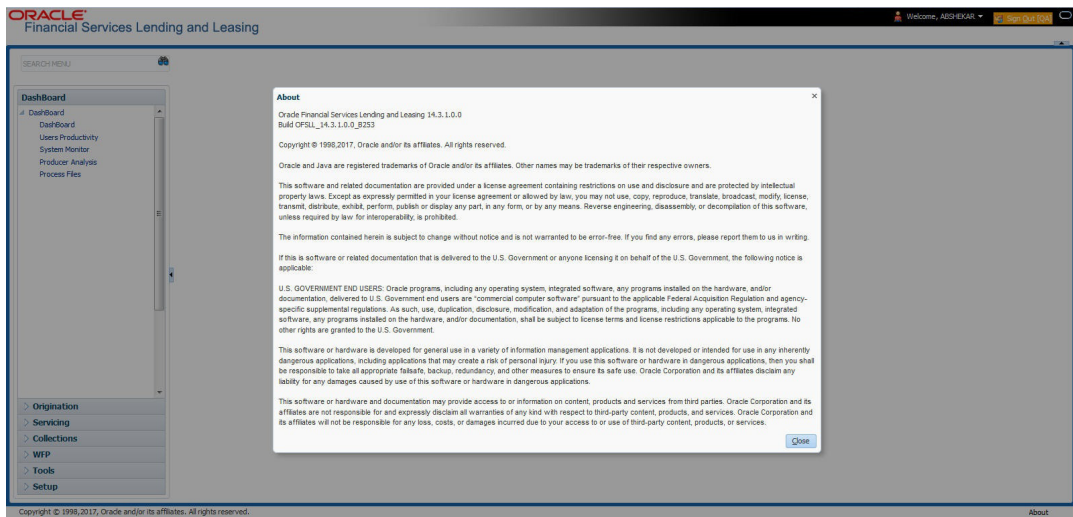

The Home screen consists of the following components:

- Header
- Left Pane

- Right Pane/Work Area

You can view the application version details and copyright information by clicking **About** link at the right corner of the screen.

## Header

In the Header, system displays the following:

- **User ID** that you have currently logged/Signed in. Click the adjoining drop-down arrow, the system displays the following options:

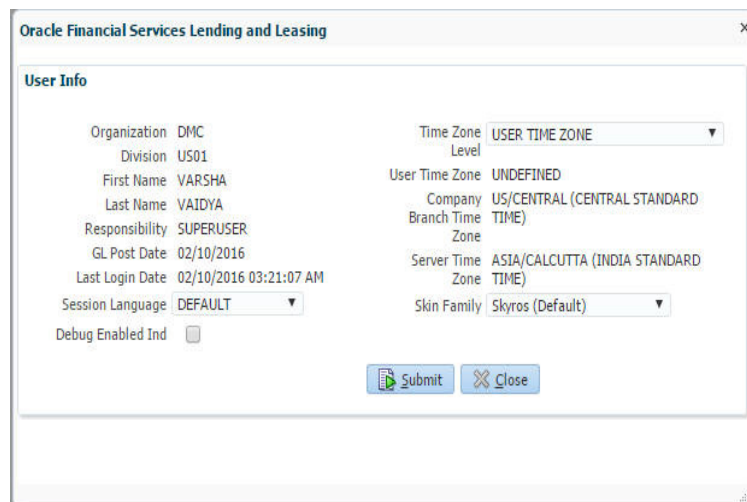

- **Change Password** – Click to change the current password.

Specify the current password in the **Current Password** field and a valid password, you wish to maintain as a new password, in the **New Password** field. Re-enter the password in **Confirm Password** field and click **Submit** to change the password.

- User Info – Click to view the current user info.

In this screen, apart from viewing the user info, you can also set Session Language, enable error log, and specify the time zone preference.

**Session Language** – Select a language that you need to set for the session, from the drop-down list.

**Debug Enabled Ind** – Check this box to enable the debug indicator.

On selection, system records all the debugs into logs files depending on the following two types of system parameters:

System Parameter	Condition to record debug data
CMN_DEBUG_METHOD	If parameter value is 1, then debug data is recorded into a file in Database Server.  If parameter value is 4, then debug data is recorded into the table LOG_FILES_HEADER.
CMN_DEBUG_LEVEL	If parameter value is greater than 0, only then the debug data is recorded.

The debug data can be viewed from Dashboard > System Monitor > Database Server Log Files.

You can click on  **List Files** button to view the list of logged files.

Click on  **Show File** button to view the selected file contents in the 'File Content' section. You can also click  **Download File** button to extract a copy of debug details.

**Time Zone Level** - Select the time zone preference as User/Company Branch/ Application Server Time Zone from the adjoining options list.

*For more details on time zone selection, refer to Time Zone Preference section of this user manual.*

Click **Submit** to save the changes or **Close** to close the screen without changes.

- **Accessibility** – Click the link to view accessibility features of the system.

*Refer accessibility document for further details.*

- **Sign Out** – Click the link to sign off from the application. You can also click on  icon to sign off from the application.

## Left Window

In the left pane, system lists and provides drop-down links for various modules available in the product. Click  to expand the Module Master Tabs and  to collapse them.

To open a screen, navigate to Module Master Tab to which the screen belongs, expand the tabs, and click the screen link you wish to open.

## Menu Search in Left Window

In the left window you can make use of the search option to directly search and open the screen that you are familiar with, and avoid multiple steps of navigation from the LHS menu.

The Search box in the LHS facilitates for an intuitive search of required screens in Oracle Financial Services Lending and Leasing. For example, on typing the first letter of the screen, the search box displays a list of all available screens starting with the letter entered in alphabetical order. You can click on the required screen and press 'Enter'. The screen is displayed in the main window/work area.

When there are multiple matches with same screen name, you can filter the results through the module from which the screen is accessed which is indicated in angular brackets. For example typing 'VEN' displays the following options for selection - Vendors(Collections), Vendors(Origination), Vendors(Servicing), Vendors(Setup System). For subsequent search, you need to clear the data in the search field.

## Right Window

The Right Window can also be termed as work area. When you click the screen link on left pane, system displays the corresponding screen in the right pane.

You can open a maximum of 15 screens at a go. Once the maximum limit is reached, the system displays an error message.

Each active screen is displayed as a tab at the top of right pane, across its width. To view a screen, click the screen tab. You can identify the active screen with its white background. Also, operation on any of the screen will not affect the data in other screens.

You can also open multiple Accounts at the same time as separate tabs in the right window, provided your system administrator has enabled the option 'Mac\_Multi\_tab\_Ind' = 'Y' in MENU\_ACCESS table.

Having this option enabled you can view and update a maximum of 15 Accounts in parallel tabs and Oracle Financial Services Lending and Leasing renders dynamic data across all the opened tabs.

However, this option is restricted only to the following screens in Servicing Module Master Tab. In the Left Menu of Servicing Module Master Tab, you can open multiple accounts by clicking on the Customer Service link. Each successive click, opens a new Customer Service tab.

Few screens in Servicing and Collections are identical and are linked. Hence, when multi tab option is not enabled, you can open only one screen at a time from the group. A sample of the grouping structure is given below, based on stages of the screens:

### Collection:

- Collection

- Bankruptcy
- Repossession
- Deficiency

As per the above listing, you will be able to open only one screen in the corresponding list and need to close the same to open any other screen.

### Right Splitter/Action Window

The Right Splitter/Action Window has quick access to search and other options to avoid switching between tabs or navigating into sub tabs periodically. You can access the Right Splitter/Action Window while working on an Application or Customer Service screens. You can click  and  to toggle the view of Right Splitter/Action Window.

### Origination Screens

In Origination > Application screens, you can use the Right Splitter/Action Window to do the following:

- Use **Quick Search** to search for an application based on application number, last 4 digits of SSN (SSN of the primary applicant) or identification number. If multiple applications or accounts are found during 'Identification #' search, the system displays an error message as "Multiple Matches found for the Identification #, Please use normal Search".
- **Summary** section displays critical information that has to be referred repeatedly during origination like – DTI, PTI, Book Value, Grade, FICO Score, Approved Advance, Rate and Term.
- Use **Change Status** section to change the application status to next level. If the application edit status is restricted, then the 'Change Status' will be read-only.
- Use **Add Comment** section to post an alert or comment during Underwriting and Funding stages.

For detailed information on the above options, refer to respective sections in the document.

## Servicing and Collection Screens

In Servicing and Collection > Customer Service screens, you can use the Right Splitter/Action Window to do the following:

- Use **Quick Search** to search for an account based on account number, or customer Id, or last 4 digits of SSN (SSN of the primary applicant) or identification number. If multiple applications or accounts are found during 'Identification #' search, the system displays an error message as "Multiple Matches found for the Identification #, Please use normal Search". You can also select the Queue Condition and Auto Run options during search. Clicking 'Next Account' button opens the subsequent account listed in search and clicking 'Filtered Account' opens the subsequent account fetched during a queue search and listed in Queue Assignment section.
- Use **Add Comment** section to post an alert or comment based on Type and Sub Type.
- Use **Add Call Activity** section to post all types of call activities including promise to pay, account conditions and so on, irrespective of the screen you are working on. This is similar to the option available in 'Call Activities sub tab' under Customer Service tab.

For detailed information on the above options, refer to respective sections in the document.

The height of Header and width of the Left and Right Panes do not change, with resizing of application screen.

The system facilitates toggling Header and Left and Right Panes of the home screen to increase the visible area of the screens. Click  to toggle upper pane and  to toggle left pane. To un-toggle click  and  respectively.

### 1.4.1.1 Time Zone Preference

User Info			
Organization	DMC	Time Zone	USER TIME ZONE
Division	US01	Level	
First Name	VARSHA	User Time Zone	UNDEFINED
Last Name	VAIDYA	Company	US/CENTRAL (CENTRAL STANDARD TIME)
Responsibility	SUPERUSER	Branch Time Zone	
GL Post Date	02/10/2016	Server Time Zone	ASIA/CALCUTTA (INDIA STANDARD TIME)
Last Login Date	02/10/2016 03:21:07 AM	Skin Family	Skyros (Default)
Session Language	DEFAULT		
Debug Enabled Ind	<input type="checkbox"/>		

You can select any of the following three time zones from the User Info screen:

- Application Server Time Zone
- Company Branch Time Zone
- User Time Zone

The time zones set up at each of these levels are displayed in the user info screen. However, data is always stored in the application server time zone and based on the user preference of time zone, the display time would be User or Company or Application Server time zone. Any time zone related changes done at UI does not impact the other time bound activities which are dependant on database time.

#### Application Server Time Zone (Server Time Zone)

The Application Server Time Zone by default is the Production Server Time Zone. Selecting this time zone will have all date and time fields defined as per the time stored in application server. There is no offset in time if both storage (database server) and display (application server) are in the same time zone.

#### Company Branch Time Zone (Organization - Division Time Zone)

This is the Company time zone and is setup at the organization - division definition level. The various divisions defined under an organization can be set up with different time zones depending on geographical locations. This time can be modified as per requirement.

To modify the Company Branch Time Zone:

- Navigate to Setup > Administration > User > Organization and select the company or division listed under 'Division Definition'.
- In the Display Formats tab, select **Time Zone** and click 'Edit'.
- In the Format field, select the required time zone from the adjoining options list and click 'Save'.

If 'Company Branch Time Zone' is selected as the time zone in User Info screen, then on save, all the time and date fields are automatically updated with the time zone of the company branch.

#### User Time Zone

User Time Zone or User Preference Time Zone can be set up at the User Level in the User Definition screen. Various Users under same divisions defined under an organization can be set up with different time zones depending on geographical locations.

To modify the User Time Zone:

- Navigate to Setup > Administration > User > Users.
- Select the required User record listed in “User Definition” section and click **Edit**.
- In the Time Zone field, select the required time zone from the adjoining options list and click **Save**.

If 'User Time Zone' is selected as the time zone in User Info screen, then on save, all the time and date fields are automatically updated with the current updated time.

## 1.4.2 Screens

Details in few main screens are grouped into different sections. These sections are displayed as tabs, horizontally within the screen. In turn, details in few of these tabs are again grouped horizontally. The details are displayed when you click the tab under which they are grouped. As similar to the main screen tabs, you can identify the active tab with its white background.

For example, Customer Service main screen has four main tabs. When you click on ‘Customer Service’ tab, the corresponding tabs are displayed.

The screenshot displays the Oracle Customer Service interface for account 20120200010231, YUTAKA OZAKA / AKANE. The account details table shows a LEASE VEHICLE product with a status of ACTIVE. The Call Activities section shows a table with columns for Action, Result, Contact, Reason, Cancel, Promise Dt, Promise Amt, Condition, Appointr Followup Dt, Time Zone, and Adj Followup Dt. The active tab is 'Call Activities', and other tabs include Summary, Customer Service, Account Details, Customer Details, Transaction History, Pmt Modes, Bankruptcy, Repo/Foreclosure, Deficiency, Collateral, Bureau, and Cross/Up Sell Activities.

Company	Branch	Sub Unit	Account #	Product	Days Past Due	Currency	Pay Off Amt	Amount Due	Status	Oldest Due Dt
US01	USR1	UNDEFINED	20120200010231	LEASE VEHICLE	0	USD	0.00	0.00	ACTIVE	02/10/2015

Action	Result	Contact	Reason	Cancel	Promise Dt	Promise Amt	Condition	Appointr Followup Dt	Time Zone	Adj Followup Dt	Corr
AT	PH	ANSWERING MACHINE		N	12/30/2015	1,000.00	NONE	N	12/30/2015	12/29/2015 12:30:00 PM	
AT	PH	ANSWERING MACHINE		N	12/30/2015	1,000.00	NONE	N	12/30/2015	12/29/2015 12:30:00 PM	

You can click to view the hidden tabs, if any.

## 1.5 Common Operations

Some of the operations are common to most of the screens. These are grouped into three categories, based on their features.

- Basic Operations
- Basic Actions
- Personalization Options
- De-supported Special characters

### 1.5.1 Basic Operations

All the screens contain buttons to perform all or few of the basic operations. The four basic operations available are:

- Add
- Edit
- View
- Audit

When you click any of the operation tabs, system displays the corresponding records inline, below the respective setup tables.

The table below gives a snapshot of them:

Basic Operation	Description
Add	Click to add a new record. When you click <b>Add</b> , the system displays a new record enabling you to specify the required data. It is mandatory to specify details for the fields marked with '*' symbol.
Edit	Click to edit an existing record. Select the record you want to edit and click 'Edit'. The system displays an existing record in editable mode. Edit the required details.
View	Click to view an existing record. Select the record you want to view and click 'View'. The system displays the record details in display mode.
Audit	Click to view audit info. If an audit is set for a field, then the system tracks the changes for that field. Select the record for which you want to view the audit info and click 'Audit'. The system displays the details tracked for that field.
Close	Click to close a screen or a record. When you try to close an unsaved, modified record, then the system alerts you with an error message. You can click 'Yes' to continue and 'No' to save the record.

## 1.5.2 Basic Actions

Most of the screens contain buttons to perform all or few of the basic actions.

All or few of these actions are enabled when you select any of the Basic Operations.

The table below gives a snapshot of them:

Basic Actions	Description
Save And Add	Click to save and add a new record. This button is displayed when you click 'Add' button.
Save and Stay	Click to save and remain in the same page. This button is displayed when you click 'Add/Edit' button.
Save And Return	Click to save and return to main screen. This button is displayed when you click 'Add' or 'Edit' buttons.
Return	Click to return to main screen without modifications. This button is displayed when you click 'Add', 'Edit' or 'View' buttons.

The Payment maintenance screens consist of the following actions.

The table below gives a snapshot of them:

Basic Actions	Description
Post and Stay	Click to post the transaction and remain in the same section. This button is displayed when you click 'Modify Payment/Modify Payment Transaction' button.
Post and Return	Click to save and return to main section. This button is displayed when you click 'Modify Payment/Modify Payment Transaction' buttons.
Return	Click to return to main section without modifications. This button is displayed when you click 'Modify Payment/Modify Payment Transaction' buttons.

The summary screens consist of the following navigations. The table below gives a snapshot of them:

Basic Actions	Description
	Click to navigate to the first record.
	Click to navigate to the previous record.
	Click to navigate to the next record.
	Click to navigate the last record.

Along with the basic actions, the following buttons are available for specific actions. The table below gives a snapshot of them:

Basic Actions	Description
	Show File - Click to view the details of selected file.
	List Files - Click to generate and view the list of files maintained in the system.
	Download File - Click to download the details of selected data.

### 1.5.3 Personalization Options

You can personalize the data displayed in setup tables. Once personalized, system saves the settings for that User ID until next personalization.

The table below gives a snapshot of them:

Options	Description
View	<p>Click to personalize your view. The drop-down list provides the following options of customization:</p> <ul style="list-style-type: none"> <li>• Customize columns you wish to view</li> <li>• Sort the order of displayed data</li> <li>• Reorder columns</li> </ul> <p>Additionally, the drop-down list provides selection of options adjoining 'View'.</p> 
Format	<p>Click to resize columns or wrap a data in the table cells.</p>  <p>Select the column you need to resize and select <b>Resize Columns</b> option from the <b>Format</b> drop-down list.</p>  <p>Specify the <b>Width</b> and unit for the selected column. Click <b>OK</b> to apply changes and <b>Cancel</b> to revert.</p>
Query by Example	<p>Click to query for the data by an example. When this option is selected, the system displays an empty row above column heads. You can specify all or any of the details of the record you wish to query.</p> 
Freeze	<p>Select the column at which you need to freeze the table and click <b>Freeze</b>. Function is similar to the freeze option in MS excel.</p>
Detach	<p>Click to detach the setup table from the screen. An example of the detached table is provided below.</p>

Options	Description
Wrap	<p>Select the column in which the data needs to be wrapped and click <b>Wrap</b>.</p> 
	Click to refresh the data in the table.
View Last	<p>For usability and performance, some of the data intensive screens have 'View Last' option to sort the volume of data being displayed on screen based on elapsed days.</p>  <p>You can select the 'View Last' option as 1 Day / 1 Week / 1 Month / By Date. When 'By Date' is selected you can specify a date range (within 3 months) in 'Start Dt' and 'End Dt' fields using the adjoining calendar and clicking 'Search'.</p>

### Print option in Customer Service screen

The Print button  option in Customer Service/Collection screen facilitates you to print the contents on the screen as is without scroll bars. This button is available along with other options in the Action block. Clicking on this provides a browser print functionality and a new tab is opened where the print content is displayed.

### Detach

The screenshot shows the Oracle Financial Services Lending and Leasing Customer Service interface. A table titled 'Transaction Batch Information' is displayed with columns for Date, Monetary, Transaction, Status, and Batch. A 'Detach Table' window is open, showing a detailed view of the same table data. The data in the detached table is as follows:

Date	Monetary	Transaction	Status	Batch
02/03/2016	N	ADD CUSTOMER ADDRESS PHONE	POSTED	N
01/07/2016	Y	TERMINATE	ERROR	N
01/06/2016	Y	TERMINATE	VOID	N
01/06/2016	Y	EXTENSION	VOID	N
02/04/2015	Y	PAYOFF QUOTE LEASE	POSTED	N

Click 'Add', 'Edit' or 'View' button to open a new screen in expanded mode with details.

### Drop-down List

The system provides an option to select the required data from LOV, for few fields. You can either select the record from list or enter first alphabet of the value you want. When you provide the alphabet, system limits the selection to the values starting with the specified alphabet. These lists are grouped into two types:

- Drop-down list – Provides the selection option. You can either select a record from the list or enter first alphabet of the required value.
- Combo drop-down list – The LOV contains huge data and provides both selection and search option. These drop-down arrows are smaller in size, when compared to normal drop-down arrows, thus enabling easy identification.

Click the arrow button available before 'Search' to toggle the search options.

Buttons/Menus	Do this
Basic	Click 'Basic' for normal search.
Advanced	Click 'Advanced' for advanced search. In this mode, you can select the search option from drop-down list adjoining the search criteria. Selected record will be highlighted (Hover to select).
Match	Select 'All' to display results exactly matching the specified characters. Select 'Any' to display results matching any of the specified characters.
Search	Click to search for values based on the specified search criteria. The search results are displayed below with the details in respective columns.
Reset	Click to reset the search criteria.
Add Fields	Click to add additional fields to search criteria.

The search criteria are provided below the 'Match' field. These criteria vary based on the Field for which the search is executed.

Also, the system remembers your recent search options and demarcates them from the actual ones.

## Comments

In all the user input screens wherever comments are accepted, the system allows an input of 4000 characters of information in the comment(s) field.

### 1.5.4 De-supported Special characters

OFSLL 'does not' support the following special characters while accepting data through UI, web service and file upload process.

<> {} | \ ^ [ ] `

Hence, ensure that the same is not used while processing any input data in the system.

## 1.6 Keyboard Compatibility

The system facilitates keyboard compatibility. You can perform most of your tasks using keyboard short cuts also termed as 'Hot Keys'. These hot keys are single keyboards or a combination of keyboards. The available options are listed below:

1. **Shift + Alt** + mnemonic to activate buttons in the screen. For example, to open 'Accessibility' screen, press '**Shift + Alt + y**'.
2. **Tab** for forward navigation in the application. **Shift + Tab** for backward navigation in the application. When the required link/tab/button/field is highlighted, press enter on the keyboard to edit.
3. **Space bar** to check or uncheck 'Check Box'.
4. **Arrow Keys** to hover within the drop-down list.

### 1.6.1 Keyboard Compatibility

The application is made compatible with keyboard only-operations. However, there is a change in key combination based on the browser on which the application is running.

Browser	Operating System	Key Combination	Action
Google Chrome	Linux	Alt + mnemonic	Click
Google Chrome	Mac OS X	Control + Option + mnemonic	Click
Google Chrome	Windows	Alt +mnemonic	Click
Mozilla Firefox	Linux	Alt + Shift + mnemonic	Click
Mozilla Firefox	Mac OS X	Control + mnemonic	Click
Mozilla Firefox	Windows	Alt + Shift + mnemonic	Click
Microsoft Internet Explorer 7	Windows	Alt + mnemonic	Set focus
Microsoft Internet Explorer 8	Windows	Alt + mnemonic	Click or set focus
Apple Safari	Windows	Alt + mnemonic	Click

Browser	Operating System	Key Combination	Action
Apple Safari	Mac OS X	Control + Option + mnemonic	Click

Also, one can use the following keyboard shortcuts in order to increase or decrease the zoom level.

Shortcut	Action
Ctrl++	To increase zoom level.
Ctrl+-	To decrease zoom level.
Ctrl+0	To set zoom level to default level.

## 1.7 Tool Tips

The system is facilitated with tool tip option. When the cursor is moved to any of the field in the screen, a popup is displayed with a tip on the action to be performed.

## 1.8 Accessibility

### 1.8.1 Understanding Accessibility

Accessibility is making the application usable for multiple user groups, which includes users with physical challenges. One of the most important reasons to make the application accessible is to provide them the opportunity to work. The four main categories of disabilities are visual, hearing, mobility and cognitive.

A person with disability might encounter one or more barriers that can be eliminated or minimized by making the electronic information user-friendly and approachable.

### 1.8.2 Application Accessibility Preferences

Oracle Financial Services Lending and Leasing is facilitated with the feature of Accessibility to make the application more usable for the people who are differently abled.

By default, the following accessibility options are provided and there is no need to define special accessibility preference in the application:

- The application user interface contents are readily accessible for all types of users without the need to select special accessibility modes.
- The components within the user interface are optimized for use with a screen reader by default.
- The contents are zoomable by default, eliminating the need for an application large fonts mode.
- The user interface components auto-detect if operating system (OS) is set to high contrast mode and automatically render content that is compatible with OS high contrast, eliminating the need for an application high contrast mode.

Note that, Oracle Financial Services Lending and Leasing application user interface is built on Oracle Application Development Framework (ADF) and the default accessibility feature

supported by ADF are made available. For additional information, refer to ADF documentation on accessibility preferences.

### **1.8.3 Documentation Accessibility Preferences**

Apart from assigning the logical sequence and organizing topics, the following techniques are used to enhance the accessibility of documentation.

- Addition of text equivalent to all graphics
- Usage of standard fonts and avoiding shadow or reversed text
- Usage of strong foreground and background color contrast
- Color usages as per Oracle Accessibility guidelines have been ensured
- Usage of styles and formatting elements
- Documentation in simple language to ensure easy understanding
- Including accurate and effective navigational features, such as cross-reference, tables of content and bookmarks as appropriate

## 2. Search Function

Oracle Financial Services Lending and Leasing allows you to search for an account, customer or application using specific search criteria. Since this section details the general search options available in the User Interface, some or all the parts of this section are applicable to you as per access provisions & licensing. The following sections explain the Search options in detail.

### 2.1 Search Criteria

Search criteria has a list of parameters which enables to query the application / account from the database by providing one or more parameter values. There are 15 parameters whose values can be specified in combination with comparison operators which are described in the table below. The Reset button enables to clear the comparison values for a fresh search. Apart from this, Search can also be performed using wild card characters.

Description	Example Expression
LESS THAN	APPLICATION DATE < 01/22/2002 <b>Result:</b> The system searches for all applications created before Jan. 22, 2002.
LESS THAN OR EQUAL TO	APPLICATION DATE <= 01/22/2002 <b>Result:</b> The system searches for all applications created on or before Jan. 22, 2002.
EQUAL	APPLICANT SSN = 111-22-3333 <b>Result:</b> The system searches for all applications with applicant social security number 111-22-3333.
NOT EQUAL	APPLICANT SSN <> 111-22-3333 <b>Result:</b> The system searches for all applications except those with an applicant whose social security number is 111-22-3333.

Description	Example Expression
<b>GREATER THAN</b>	APPLICATION DATE > 01/22/2002 <b>Result:</b> The system searches for all applications created after Jan. 22, 2002.
<b>GREATER THAN OR EQUAL</b>	APPLICATION DATE >= 01/22/2002 <b>Result:</b> The system searches for all applications created on or after Jan. 22, 2002
<b>IN</b>	ACCOUNT NUMBER IN ('20001000012512', '20010100012645', '20010300012817')  IN is used with values that are within parenthesis. <b>Result:</b> The system searches for the applications with the account numbers of '20001000012512', '20010100012645', and '20010300012817'.)
<b>NOT IN</b>	ACCOUNT NUMBER NOT IN ('20001000012512', '20010100012645', '20010300012817')  NOT IN is used with values that are within parenthesis. <b>Result:</b> The system searches for all applications except those with the account numbers of '20001000012512', '20010100012645', and '20010300012817'.)
<b>IS</b>	VIN IS NULL  IS is only used with a value of "NULL". It enables you to search for criteria that has no value; that is, fields where no information is present. <b>Result:</b> The system searches for all applications without a vehicle identification number.
<b>IS NOT</b>	VIN IS NOT NULL  IS NOT is only used with a value of "NULL". It enables you to search for criteria that has any value; that is, fields where information is present. <b>Result:</b> The system searches for all accounts with a VIN, vehicle identification number.
<b>LIKE</b>	ASSET TYPE LIKE VEH%  LIKE enables you to search for close matches using wildcard characters. <b>Result:</b> The system searches for all applications with asset type beginning with the characters "veh" such as "vehicle car" or "vehicle van."
<b>NOT LIKE</b>	ASSET TYPE NOT LIKE VEH%  NOT LIKE enables you to search for close matches using wildcard characters. <b>Result:</b> The system searches for all applications with asset type other than those starting with the characters "veh."

### Using Wildcard Characters

- Wildcard characters can only be used with the operator LIKE and NOT LIKE.
- % (percent) represents any number of characters, including no characters.

- (underline) represents any single character.

### **Using Criteria Value**

Search criteria values of **1234%** will locate character strings of any length that begin with “**1234**” for example,

- **1234ACB**
- **12345678**
- **1234**
- **12348**
- **12340980988234ABIL230498098**

Search criteria values of **1234\_** will locate character strings of five characters that begin with “**1234**” for example,

- **12345**
- **1234A**
- **12340**

Search criteria values of **%1234** will locate character strings of any length that end with “**1234**” for example,

- **1234**
- **01234**
- **098908LKJLJLKJ000988071234**

Search criteria values of **\_1234** will locate five character strings that end in “**1234**” for example,

- **A1234**
- **11234**

Search criteria values of **%1234%** will locate character strings of any length that contain “**1234**” for example,

- **1234**
- **01234**
- **12340**
- **AKJLJ1234128424**

Search criteria values of **\_1234\_** will locate character strings of 6 characters that *contain* “**1234**” for example,

- **A1234B**
- **012341**
- **A12341**

### **Using Search Criteria examples**

**Result:** The system searches for all applications with application date May 1, 2001.

<b>Criteria</b>	<b>Comparison Operator</b>	<b>Value</b>
<b>APPLICATION DATE</b>	EQUAL	05/01/2001

Criteria	Comparison Operator	Value
APPLICATION DATE	EQUAL	05/01/2001
APPLICATION NUMBER	GREATER THAN OR EQUAL	0000000278

**Result:** The system searches for all applications with application date May 1, 2001 and an application number greater than or equal to 0000000278.

Criteria	Comparison Operator	Value
FIRST NAME	EQUAL	JAN

**Result:** The system searches for all applications with applicant whose first name is "JAN"

- JAN ARBOR
- JAN FISHER

Criteria	Comparison Operator	Value
FIRST NAME	LIKE	JAN%

**Result:** The system searches for all applications with applicant's first name starting with "JAN"

- JAN ARBOR
- JAN FISHER
- JANE MEYERS
- JANETTE NORDSTROM

## 2.2 Searching for an Application

Oracle Financial Services Lending and Leasing allows you to search and retrieve a particular application.

During application entry, queues can be created based on your user id and your user responsibility. You can view the assigned queues in the Origination screen of Dashboard.

In each stage of application, the queue name to which the selected application is assigned, appears in Queue name field in Result screen.

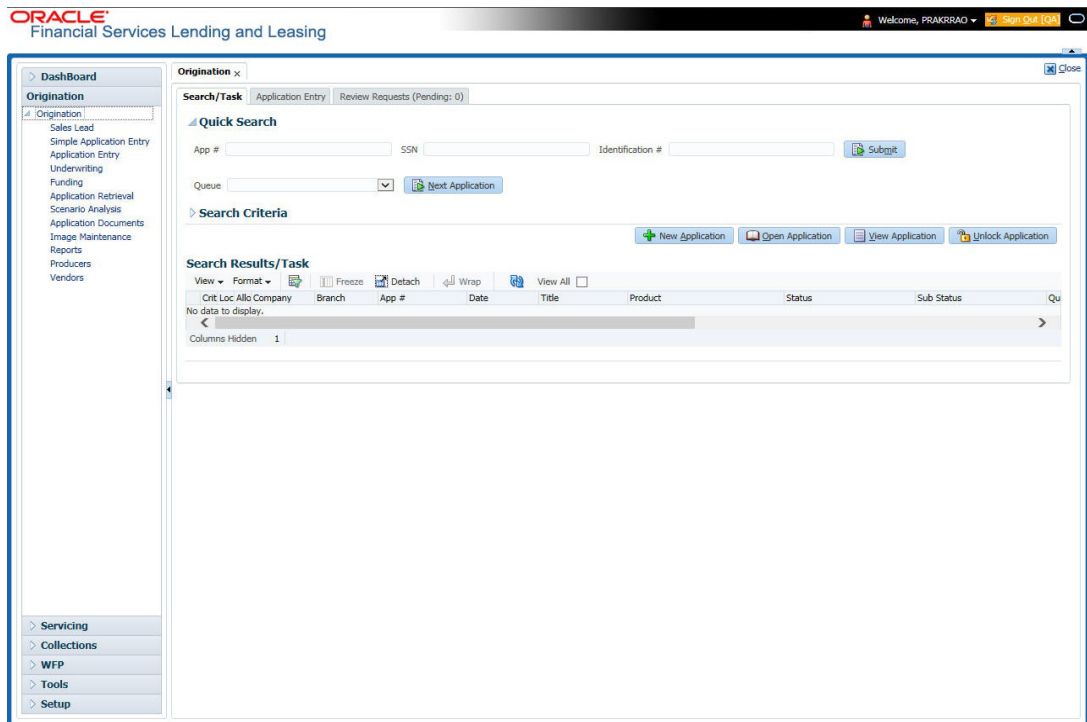

You can begin processing the applications in the order in which they are listed. Select the record and click **Submit**.

## 2.2.1 Search/Task tab

### To view the Search/Task screen during Loan origination

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Origination** master tab.

Depending on the task to be performed and the link clicked, the respective screen opens in the Search Results/Task screen.

2. Click the **Search Criteria** tab.

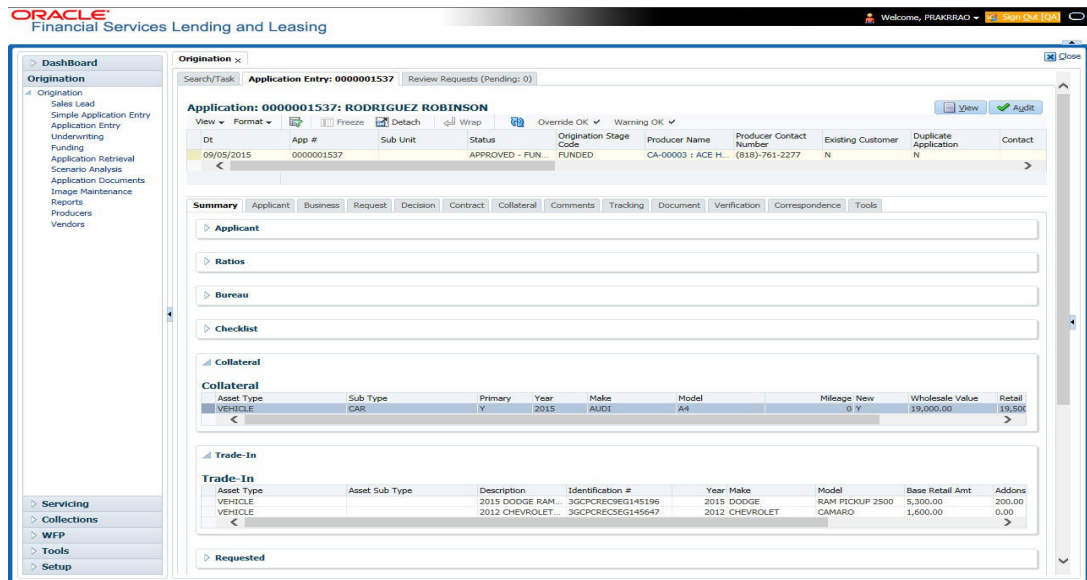

The search tab enables you to locate an application using a broad range of search criteria.

- During Loan origination, the results are sorted according to the priority of application and application identification number. However you can sort the records using any criteria.
- If you try to open an application which is already opened by another user, system displays an alert message indicating “Application is locked by <User Name> Phone <phone number>”.

The Search Results/Task screen.

3. On the **Results** screen, select the application you want to load and click **Open Application**.

The system loads the application on the respective screen.

You are now ready to begin work on the application.

## 2.2.2 Quick Search section

Quick Search enables to search for an account using any one of the following values - Account Number, Customer ID, SSN, Identification Number or Queue.

**To load an account using the Quick Search section:**

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing** master tab.
2. In the Quick Search section's Acc # field, specify the account number you want to load and click **Submit**.

You can also load the account by specifying the last 4 digits of the SSN Number. System retrieves only those accounts where the searched SSN is of the Primary Applicant. If multiple matches are found, system displays an error message as 'Multiple Matches found for the SSN, Please use normal Search'.

## Note

Search cannot be performed using wild card characters in the Quick Search section.

The system loads the selected application.

### To load an account from a queue during application entry

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing** master tab.
2. In the Quick Search section's **Queue** field, select the queue you want to work with and click **Next Account**.

#### 2.2.2.1 Other Features on the Results screen

The Results screen on the Applications screen has below listed common features (these features are not present on the Result screen on Customer Service screen):

What is it?	What does it do?
<b>View All</b>	If you select <b>View All</b> check box, all applications in the system accessible with your user id appear in the Results screen under search section.
<b>Queue Name field</b>	This display only field indicates the queue in which the selected application is currently in. (This is normally related to one or more of the following, based on setup: producer, state, or status.)
<b>Secured box</b>	Indicates that the selected application is secured (that is, that the applicant is an employee of the organization) and may only be loaded by authorized users.
<b>Copy Application button</b>	Creates a copy of the selected application. This feature is usually used when an applicant has submitted a previous application or when an applicant submits a second application and you don't want to retype the information.
<b>New Application</b>	Opens a screen where a user can create a new application by providing required details.

<b>What is it?</b>	<b>What does it do?</b>
<b>Open Application</b>	Displays the application details for the selected application.
<b>Unlock Application</b>	Unlocks the selected application locked by another user.

### 2.2.2.2 Copying an Application

Once the application clears the pre-qualification edits successfully, it moves to the underwriting queue. In the Underwriting/Funding screen, you can copy the information of an existing application into a new application. using Results screen. The new application will contain duplicated data of application information, the requested Loan information, credit bureau data, and collateral information. The new application will have status/sub status as NEW - REVIEW REQUIRED.

#### To copy an application

1. Open the **Underwriting/Funding** screen and use **Quick Search** screen to locate the application you want to copy.
2. Select the application you want to copy on the **Search Results/Task** screen.
3. Click **Copy Application**.

An Information message is displayed as “Application copy successful. New application # (new application number).”

System creates a new application with details of the copied application with status NEW - REVIEW REQUIRED. The new application can be accessed from the underwriting screen

irrespective of whether it is copied in Underwriting/Funding screen. The system also notes that this is a copied application with a system generated comment.

### 2.2.2.3 Unlocking an Application

When an application is opened by a user, the same would be locked for other users. Using Results screen in the Applications screen user can unlock the application.

#### To unlock an application

1. Open **Applications Entry** screen and use **Quick Search** screen to locate the application you want to work with.
2. On Search **Results/Task** screen, select the application you want to load and click **Submit**.

An Information message appears with the message: "An application is locked by another

user.”

3. Click **Unlock Application**.
4. Click Open Application. The system loads application on the Underwriting screen.

#### 2.2.2.4 **View Application**

The **View Application** button is available in all origination screens (Application Entry, Underwriting and Funding). You can view a selected application in the search results by clicking on the **View Application** button even when the application is locked by another User.

The application will be opened in 'View Mode' only and no edits are allowed. However in Tools sub tab, the 'Initialize' and 'Calculate' buttons will be enabled allowing you to use the calculator options.

### 2.3 **Searching for an Account and Customer**

You can search or retrieve a particular account or customer through Customer Service screen. The search tab available in the screen enables you to locate an account or customer using a broad range of search criteria.

#### **To view the Search screen during Loan servicing**

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing** master tab.
2. If you want to perform a **customer service** task on the application, click **Customer Service** link.

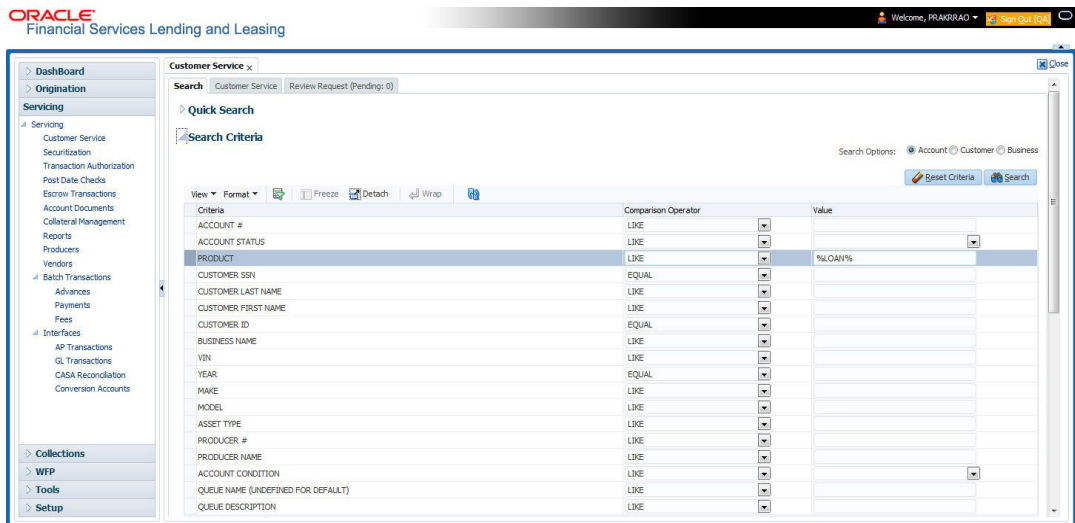

Depending on the link clicked, Customer Service screen appears, opening at Results screen.

### Note

Oracle Financial Services Lending and Leasing does not display the financial details of secured accounts if the logged-in user is not authorized. Though the search display the results, the fields such as Status, Delinquency Days, Amount Due, and Outstanding Balance are masked with 'xxxxx' and clicking on the same displays an error message indicating 'Cannot open secured account'.

### 3. Click the **Search Criteria** tab.

### Using the Search tab

1. Create a search criteria by specifying the required details in **Comparison Operator** and **Value** columns.
2. Click **Search**. System displays all accounts that meet the search criteria in the Results tab.
3. On the **Search Results/Task** screen, select the account you want to load and click **Open Account**.

The system loads account on Customer Service screen.

### 2.3.1 Quick Search section

The Quick Search section in Customer Service screen enables you to load accounts using any one of the fields Account Number, Customer Id, SSN, Identification #, or Queue/Condition.

#### To load an account using the Quick Search section

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing** master tab.
2. If you want to perform **customer service** task on the application, click **Customer Service**.

- In the Quick Search section's **Acc#/Customer Id/SSN/Identification #** fields, specify the corresponding Account number, or Customer Id, or last four digits of SSN or complete SSN in the respective fields and click **Submit**.

- You can also search for accounts which are mapped to a particular Queue or Condition by selecting the same from 'Queue/ Condition' drop-down list and clicking 'Next Account' button. Clicking 'Filtered Account' opens the subsequent account fetched during a queue search and listed in Queue Assignment section.
- When the request to access an application comes from an external system, user needs to check 'Auto Run' and click 'Next' button. System displays the customer service screen for the respective Account.

#### To load an account from a queue

In the Quick Search section's **Queue** field, select the queue you want to work with and click **Next Account**.

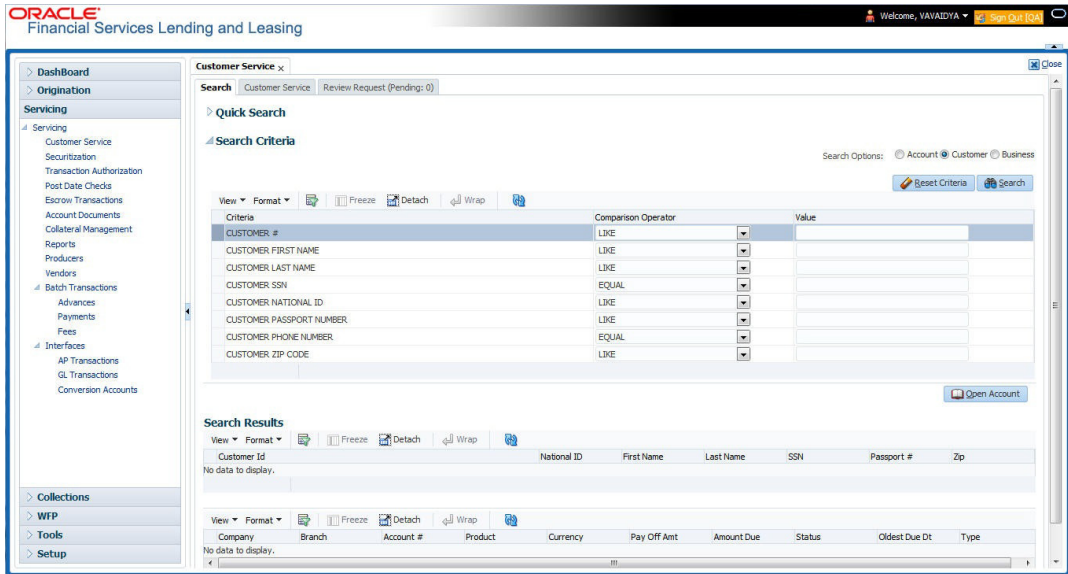

### 2.3.2 Search Using Customer Details

There are different ways to search a customer account using the customer details.

#### To search for and load the customer details with the Search screen

On the Oracle Financial Services Lending and Leasing home screen, click **Servicing > Servicing > Customer Service > Search Criteria**

Select **Customer** as a search option.

1. On **Search Criteria** screen, use **Comparison Operator** and **Value** columns to create a search criteria to find the account using customer details. You can click **Reset Criteria** at any time to clear the **Comparison Operator** and **Value** columns.
2. Click **Search**.

The system locates and displays all the accounts that meet your search criteria on **Search Results** screen.

3. On the Search Results screen, view the following information for each account:

In this field:	View this:
<b>Company</b>	The company of the account.
<b>Branch</b>	The branch of the account
<b>Account #</b>	The account number
<b>Product</b>	The Loan product of the account.

In this field:	View this:
<b>Currency</b>	The currency in which the account is operated.
<b>Pay Off Amt</b>	The total pay off amount on the account.
<b>Amount Due</b>	The total amount due on the account.
<b>Status</b>	The status of the account.
<b>Oldest Due Dt</b>	The oldest payment due date on the account.
<b>Type</b>	The type of account.

Also the 'Customer Details' section below displays the Customer Information along with Addresses, Telecoms, Employments, and Tracking Attributes. You can click 'View' to display the details in each section.

4. On the Search **Results** screen, select the customer you want to retrieve. The system displays all the accounts pertaining to that customer Id. Select an account and click **Open Account**.

The system displays the account details on **Customer Service** tab.

### 2.3.3 Search Using Account Details

To search for and load an account using the Search screen

On the Oracle Financial Services Lending and Leasing home screen, click **Servicing > Servicing > Customer Service > Search Criteria**

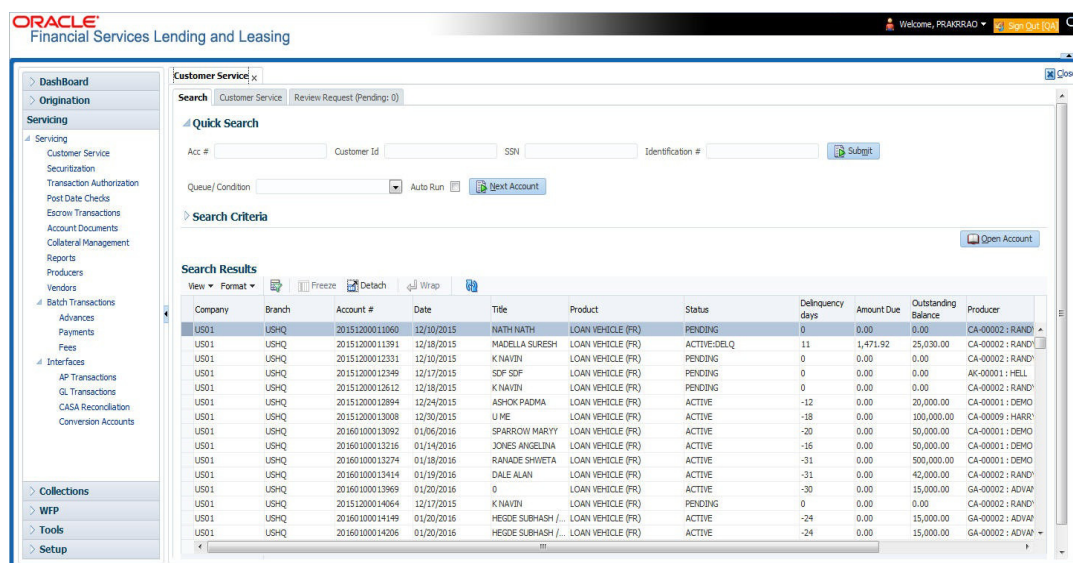

1. Select **Account** as a search option.

2. On the **Criteria** screen, use the **Comparison Operator** and **Value** columns to create a search criteria to find an account. You can click **Reset Criteria** at any time to clear the **Comparison Operator** and **Value** columns.

- Click **Search**. The system locates and displays all the accounts that meet your search criteria on Results screen.

- On the Search Results screen, view the following information for each account:

In this field:	View this:
<b>Company</b>	The company of the account.
<b>Branch</b>	The branch of the account
<b>Account #</b>	The account number
<b>Date</b>	The date the account was created.
<b>Title</b>	The primary and other applicant(s) attached to the account.
<b>Product</b>	The Loan product of the account.
<b>Status</b>	The status of the account.
<b>Delinquency days</b>	The number of days the account has been delinquent.
<b>Amount Due</b>	The total amount due for the account.
<b>Outstanding Balance</b>	The total outstanding balance for the account.
<b>Producer</b>	The producer of the account.
<b>Secured</b>	If selected, indicates the account is secured and may only be loaded by authorized users.

- On the **Results** screen, select the application you want to retrieve and click **Open Account**.

The system loads the account under the Customer Service tab

You are now ready to begin work on the account.

You can view the accounts pending for your review by selecting **Receiver** in the Review Request tab.

### 2.3.4 Search Using Business Details

To search and load an account with specific business using the Search screen

On the Oracle Financial Services Lending and Leasing home screen, click **Servicing > Servicing > Customer Service > Search Criteria**

1. Select **Business** as the search option.

2. On the **Criteria** screen, use the **Comparison Operator** and **Value** columns to create a search criteria to find the business type. You can click **Reset Criteria** at any time to clear the **Comparison Operator** and **Value** columns.

- Click **Search**. The system locates and displays all the records that meet your search criteria on 'Search Results' section.

You can view the view the following information for each business record:

In this field:	View this:
<b>Business #</b>	The registered business number of the company.
<b>Business Name</b>	The name of the business.
<b>Tax ID</b>	The taxation identity number of the business.
<b>Start Dt</b>	The date when the business was initiated.
<b>Phone Number</b>	The contact number of the business.
<b>Zip</b>	The zip code where the business is established.

- On the **Results** screen, select the business type of your interest. The sub section displays the accounts associated with the selected business with the following details:

In this field:	View this:
<b>Company</b>	The company of the account.
<b>Branch</b>	The branch of the account
<b>Account #</b>	The account number
<b>Product</b>	The Loan product of the account.
<b>Currency</b>	The currency in which the account is operated.
<b>Pay Off Amt</b>	The total pay off amount on the account.
<b>Amount Due</b>	The total amount due on the account.
<b>Status</b>	The status of the account.
<b>Oldest Due Dt</b>	The oldest payment due date on the account.

Also the 'Business' section below displays the Business Details along with Addresses, Telecoms, Partners, Affiliates and Tracking Attributes. You can click 'View' to display the details in each section.

5. Select the required account and click **Open Account**. The system loads the account associated with the business type in the Customer Service tab

The screenshot shows the Oracle Financial Services Lending and Leasing Customer Service interface. The main window displays account details for account 20151000011054, K NAVIN. The interface is divided into several sections:

- Alerts:** Shows a single alert with the text "TEST".
- Conditions:** Shows no data to display.
- Account Details:** Includes a table for Dues and Delinquency Information.
 

Late	30	60	90	120	150	180	Category	Days
0	0	0	0	0	0	0		-227
- Other Information:** Includes Collateral Information and Customer Information.
 

Description	Identification #	Year	Asset Class	Asset Type	Sub Type
0	0	NEW	JC	JC	JC
0	0	NEW	JC	JC	JC
0	0	NEW	JC	JC	JC
- Activities:** Shows account activity including Active Dt, Last Activity Dt, Due Day, Last Pmt Dt, Customer Grade, App #, Paid Off Dt, Effective Dt, Current Pmt, Last Bill Amt, Last Pmt Amt, Charge Off Dt, Military Duty, Customer Score, and Behaviour Score.

# 3. Dashboards

## 3.1 Introduction

This document is designed to help acquaint you with the features of Dashboard, on the landing screen of Oracle Financial Services Lending and Leasing. Information from multiple products is integrated and displayed as Dashboard on home screen of the application.

This manual explains the functionality of Dashboard facility and various Dashboards present in the system. Since this section details the general dashboard options available in the User Interface, some or all the parts of this section are applicable to you as per access provisions & licensing. Besides providing these details, the manual also provides a brief description of other features associated with Dashboard link. The Dashboard main Menu further provides links to the following screens:

- Dashboard
- Users Productivity
- System Monitor
- Producer Analysis

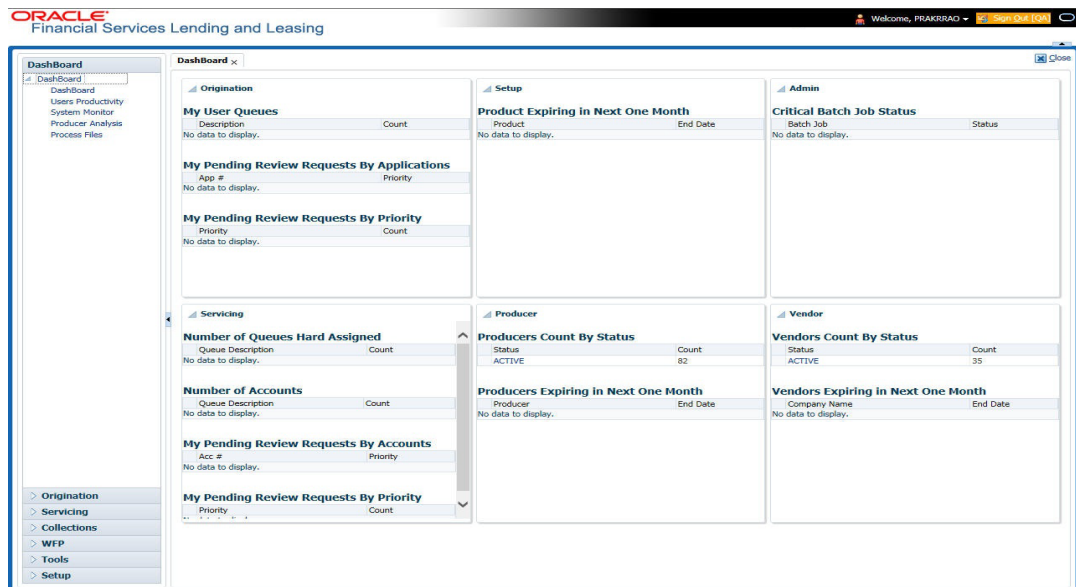

## 3.2 Dashboards

Dashboards are the tiny windows displayed on landing screen of the Application. Dashboard renders quick and crisp information of specific transactions or tasks mapped to the 'User Role', who logs on to the system.

The system facilitates integration of Information from different levels and displays it as Dashboard on home screen, also called the landing screen of the application.

### Navigating to Dashboards

Click **Dashboard > Dashboard > Dashboard**.

### Features

Following are the features of Dashboard:

- The system organizes Dashboards to provide comprehensive and consolidate snapshot in tiny windows, to access information easily. Thus, helping to; analyze, monitor and make better decisions which in turn help save time and cost.
- The screen is designed to display six Dashboards, distributed in two rows with three Dashboards per row, without scroll bars.
- The height and width of all Dashboards are fixed; however, you can expand or collapse the Dashboards. Click the arrow heads at the top left corner of the Dashboard windows to expand or collapse the dashboard windows.
- Each section in Dashboard is hyperlinked to home screen of the respective section. The main screen will present descriptive information of details shown in Dashboard only.
- Each window in the dashboard is provided with a  Refresh button and clicking on the same would fetch the latest status of the dashboard being viewed.

### 3.3 User Productivity

Oracle Financial Services Lending and Leasing User Productivity screen is a supervisor feature that allows you to monitor the daily performances of users completing Loan origination and servicing tasks.

These tasks are categorized as customer service/collection tasks. The system updates these details on daily basis.

Using the User Productivity screen, you can review the following daily tallies:

- Number of funding decisions (verified or funded), by user
- Number of accounts worked and call activities, by user
- Number of accounts worked and call activities, by queue.

This chapter explains how to use the User Productivity screen to view this information.

#### **Navigating to User Productivity Screen**

1. On the Oracle Financial Services Lending and Leasing home screen, click **Dashboard > Dashboard > User Productivity**.
2. The system displays the User Productivity screen. You can view the tasks related to:
  - Underwriting/Funding
  - Customer Service/Collection

#### 3.3.1 Viewing the Customer Service/Collection tasks

Daily tallies from the Customer Service module appear on screens opened from the following tabs on User Productivity Screen:

- Queues Status

##### 3.3.1.1 Service/Collection Queues

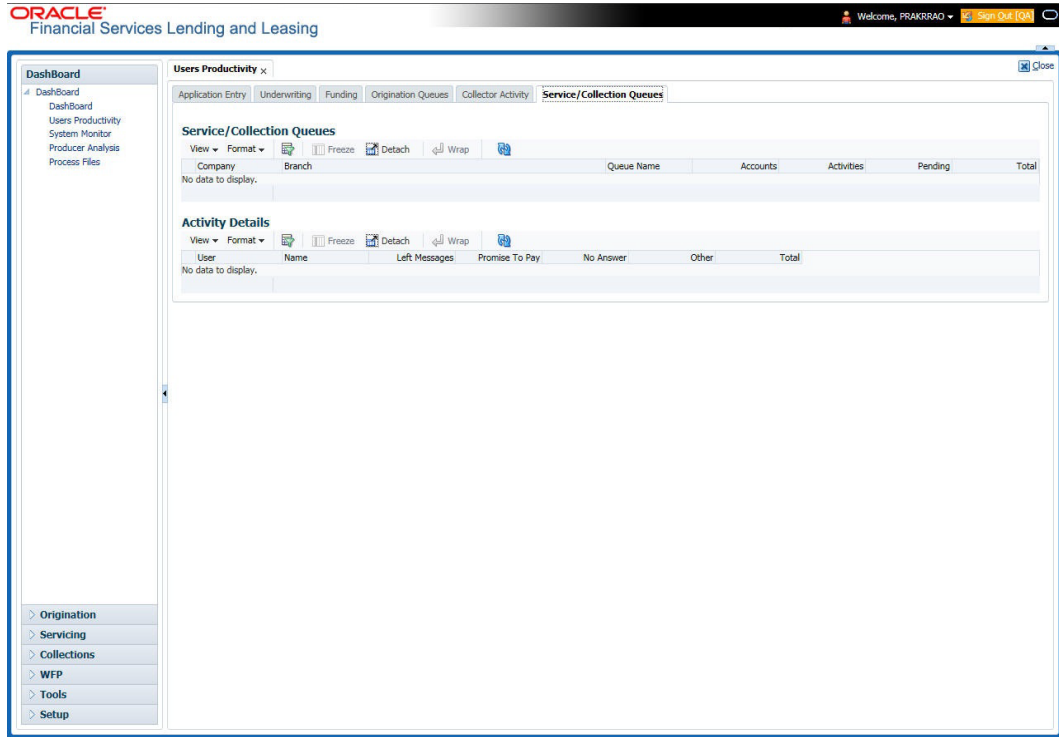

The Service/Collection Queues Status tab displays daily information regarding queues, such as the number of accounts worked, number of call activities, number of accounts pending, and totals number of accounts in the queue. It also displays information about the users who worked on these queues and details of the call activities.

#### **To use the Queues Status tab**

1. Click **Dashboard > Dashboard > User Productivity > Service/Collection Queues** tab. The details are grouped into two:

- Service/Collection Queues
- Activity details

2. In the Service/Collection **Queues** section, you can view the following information.

A brief description of the fields is given below:

Field:	View this:
Company	Displays the company name.
Branch	Displays the branch.
Queue Name	Displays the queue name.
Accounts	Displays the number of accounts worked.
Activities	Displays the number of call activities.
Pending	Displays the number of accounts pending.
Total	Displays the number of total accounts.

In the Activity Details block, you can view information for the selected queue. A brief description of the fields is given below:

Field:	View this:
User	Displays the user code.
Name	Displays the user name.
Left Messages	Displays the left message activity count.
Promise To Pay	Displays the promise to pay activity count.

Field:	View this:
No Answer	Displays the no answer activity count.
Other	Displays the other activity count.
Total	Displays the total activity count.

## 3.4 System Monitor

The System Monitor screen is the one stop place to check all the activities in and around the system. It maintains the progress of;

- Batch Jobs
- Jobs
- Services
- Database Server Log Files
- Parked Transactions
- Users

### **Navigating to System Monitor**

On the Oracle Financial Services Lending and Leasing home screen, click **Dashboard > Dashboard > System Monitor**.

### 3.4.1 Monitoring Batch Jobs

The system tracks the success of each batch process on the Batch Job. If either a set of batch jobs or specific batch job should fail, you can resubmit it on this screen and review the results in Request Details section.

The Monitor Batch Jobs screen is only a display screen that contains the following sections:

- Batch Job Sets
- Batch Jobs
- Batch Jobs Threads
- Request Details
- Request Results

### **To Monitor Batch Job**

1. Click **Dashboard > Dashboard > System Monitor > Batch Jobs**.

2. In the **Batch Job Sets** section, you can view the following information

A brief description of the fields is given below:

Field:	View this:
Set Code	Displays the code for batch job set.
Job Set Description	Displays the description for batch job set.
Status	Displays the job set status.
Frequency Code	Displays the frequency at which the job set is to be executed.
Frequency Value	Displays the value of frequency code chosen for the job set.
Start Time	Displays the start time for the job set.
Enabled	Displays if the job set is enabled or not.
Critical	Displays if this job set is critical or not.
Last Run Dt	Displays the date of last run of the job set.
Next Run Dt	Displays the next run date for job set.
Parent	Displays the preceding job set.
Dependency	Displays the type of dependency on predecessor.

**To resubmit a batch job set**

Whenever a batch job set fails, it is best to resubmit it after correcting the errors that caused the failure. Resubmitting a set causes system to re-perform the batch job set and dependent batch jobs.

- In the **Batch Job Sets** section, choose the batch job set to resubmit (only a batch job set with a status of FAILED can be resubmitted), then click **Resubmit Job Set** button.

The Batch Job screen also allows you to resubmit jobs which are in READY or COMPLETED or FAILED status if you have access key privileges define for your user responsibility. If provisioned, then a 'Force Re-Submit Job Set' button is available instead of 'Resubmit Job Set' button to resubmit the jobs with above status.

The **Batch Jobs** section lists the batch jobs within a job set. The status, threads, commit count, dependencies, enabled indicator and the holiday and weekend runtime indicators are shown for each job.

A brief description of the fields is given below:

Field:	View this:
Seq	Displays the batch job sequence number.
Job Type	Displays the batch job request type.
Job Code	Displays the batch job request code.
Status	Displays the job status.
Job Description	Displays the batch job description.
Threads	Displays the number of threads used by the job.
Commit Count	Displays the number of rows after which auto-commit is triggered.
Errors Allowed	Displays the number of errors allowed.
Weekend	Displays if the batch job will execute job on weekend or not.
Holiday	Displays if the batch job will execute job on a holiday or not.
Enabled	Displays if the job is enabled or not.
Parent	Displays the preceding job.
Dependency	Displays the type of dependency on predecessor.
Command	Displays the command line for the job.
Rollback Segment	Displays the rollback segment for job.

### To resubmit a batch job

Whenever a batch job fails, it is best to resubmit it after correcting the errors that caused failure. Resubmitting a set will cause system to re-perform the batch job.

- In the **Batch Jobs** section, choose the batch job to resubmit (only a batch job with a status of FAILED can be resubmitted), then choose **Resubmit Job Set**.
- The **Batch Job Threads** section displays the status of individual threads.

A brief description of the fields is given below:

Field:	View this:
Thread	Displays the name of thread.

<b>Field:</b>	<b>View this:</b>
Status	Displays the status of thread.
Errors	Displays the number of errors in the thread.
Records	Displays the number of records in the thread.
Trace Level	Displays the SQL trace level (0, 1, 4, 8, 12).
Enabled	Displays if the job thread is enabled or not.

The **Request Details** section displays the status and runtimes for each time the selected job ran.

A brief description of the fields is given below:

<b>Field:</b>	<b>View this:</b>
Request Type	Displays the job request type.
Status	Displays the job request status.
Start Dt	Displays the job request is valid from this date and time.
End Dt	Displays the job request is valid till this date.
Run Start Dt	Displays the date and time on when the job run started.
Run End Dt	Displays the date and time at which the job run ended.
Process Dt	Displays the transaction is posted with this General Ledger effective date.
Description	Displays the job request description.

If a particular job requires that a result message be created, then that message appears in the Request Results section. A message is usually created in the event of an error.

A brief description of the fields is given below:

<b>Field:</b>	<b>View this:</b>
Request Results	Displays the result of job request.
Description	Displays the result details.

### **3.4.2 Monitoring Jobs**

The Monitor Jobs screen provides another view of monitoring all system processes, including credit bureau requests and payment posting. This screen displays the data in reverse chronological order of the Run Start Date/Time, whereas the Monitor Batch Jobs screen provides the historical data about each job and job set.

## To Monitor Job Details

1. Click **Dashboard > Dashboard > System Monitor > Jobs**.

2. On the **Job** screen, you can select any of the following type of jobs which are available in separate tabs:

Select:	System Displays:
Batch	Batch jobs (used primarily for the nightly processes).
Back Ground	User submitted requests, such as reports and payment posting.
Credit Request	Credit bureau requests.

3. In the **Job Details** section, select the time frame based on elapsed days. You can select any of the following options:

Select:	System Displays:
1 Day	All the types of jobs selected in Jobs Type section in last one-day.
1 Week	All the types of jobs selected in Jobs Type section in last one-week.
1 Month	All the types of jobs selected in Jobs Type section in last one-month.
By Date	All the types of jobs selected in Jobs Type section for specific duration. You can specify a date range (within 3 months) in 'Start Dt' and 'End Dt' fields using the adjoining calendar and click 'Search'.

4. If you select **Failed** option in the **View** section, the system displays failed jobs on the type and time frame you have selected.
5. In the **Job Details** section, you can view the following information about jobs matching the contents of Job Type, View Last and Failed boxes:

A brief description of the fields is given below:

Field:	View this:
Request Type	Displays the job request type.
Status	Displays the job request status.
Job Set	Displays the job set code.

<b>Field:</b>	<b>View this:</b>
Job	Displays the job description.
Thread	Displays the job thread.
Errors	Displays the number of errors.
Records	Displays the number of records processed by the job.
Run Start Date/Time	Displays the job run start date time.
Run End Date/Time	Displays the job run end date time.
Description	Displays the job request description.
Process Dt	Displays the job process date.
<b>Valid Execution Period</b>	
Start Date/Time	Displays the job start date/time.
End Date/Time	Displays the job end date time.

6. In the **Job Results** section, you can view the following information about the Job selected in Job Details section:

A brief description of the fields is given below:

<b>Field:</b>	<b>View this:</b>
Request Type	Displays the job request type.
Description	Displays the job request description.

### **3.4.3 Monitoring Services**

The Services screen allows you to track and maintain the system's processing services, including credit bureaus, fax-in and batch job scheduler. The system administrator can start or stop the service on this screen using the action buttons respectively.

#### **To stop, start or refresh a processing service**

1. Click **Dashboard > Dashboard >System Monitor > Services**.

- In the **Services** section, you can view the following information about the system's processing services:

A brief description of the fields is given below:

Field:	View this:
Service	Display the service name.
Company	Display the service company.
Branch	Display the service branch.
Description	Display the service description.
Status	Display the service status.

- In the **Action** section, select the processing service you want to work with and choose one of the following commands in **Action** section.

Choose:	System:
Status	Refreshes (updates) the status of service. The Service screen does not update the status in real time. You must choose Status after choosing Start or Stop to perform that command.
Start	Starts the job service.
Stop	Stops the job service.

### 3.4.4 Database Server Log Files

Various processes in the system create reports in different log files with regards to what tasks they performed and what they encountered (for example, errors, failures, erroneous data and

so on). The Database Server Log files tab lists and describes all such log files within the system on the database server.

### To view a log file on the database server

1. Click **Dashboard > Dashboard > System Monitor > Database Server Log Files**.

2. In the **Database Server Log Files** section, you can sort the list of logs to be displayed based on following options:
  - Select the 'View Last' option to display the logs based on elapsed days by selecting 1 Day / 1 Week / 1 Month / By Date. If 'By Date' option is selected, you can specify a date range (within 3 months) in 'Start Dt' and 'End Dt' fields using the adjoining calendar. Click 'Search'.
  - Select the 'View' option to further filter the list based on the type of logs to be displayed by selecting Alert / Debug / Interfaces.
3. Click on **List Files** button to view the list of logged files. A brief description of the fields are given below

Field	View this:
File Name	Displays the name of file.
File Type	Displays the type of file.
File Size	Displays the size of file.
File Time	Displays the date and time stamp of file.

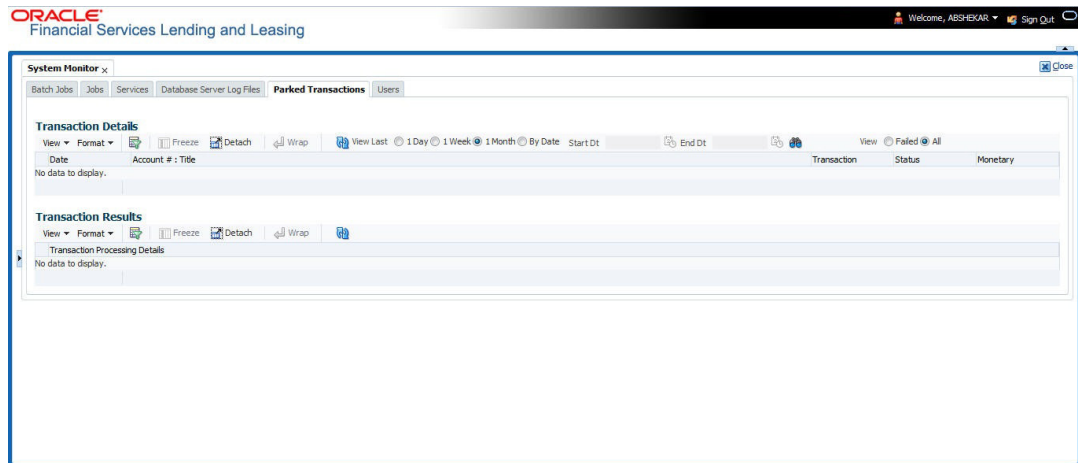

4. To extract a local copy of debug details, click **Download File** button and save the file.
5. In the **File Content** section you can view the content of the file selected in the **Database Server Log Files** by clicking **Show File** button.
6. To sort the view of file contents, select the order as either 'Beginning' or 'End' and specify the value for '# of Lines' to be displayed (default 50).

### 3.4.5 Parked Transactions

Transactions which are posted when the end of day (EOD) batch job process is running, receive a temporary status of HOLD. Once the EOD batch process is complete, the system posts the transactions on hold. These transactions can be thought of as "parked" transactions. They are waiting to be processed after the EOD batch process. The status of such transactions can be viewed in the Parked Transaction screen.

## To Monitor parked transactions

### 1. Click **Dashboard > Dashboard > System Monitor > Parked Transactions**

2. In the screen's **View Last** section, sort the list of transactions to be displayed based on elapsed days by selecting 1 Day / 1 Week / 1 Month / By Date. If 'By Date' option is selected, you can specify a date range (within 3 months) in 'Start Dt' and 'End Dt' fields using the adjoining calendar. Click 'Search'.
3. If you select **Failed** in the **View** section, system displays the failed transactions of the time frame you have selected.
4. In the **Transaction Details** section, you can view the following information about the parked transactions meeting the criteria of the View Last and Failed sections.

A brief description of the fields is given below:

Field:	View this:
Date	Displays the transaction date.
Account #: Title	Displays the account number and title.
Transaction	Displays the transaction
Status	Displays the status of transaction
Monetary	Displays if the transaction is a monetary transaction or not.

5. In the **Transaction Results** section, view the results of transaction in Transaction Processing Details field.

### 3.4.6 Monitoring Users

The Users Logins section allows you to view all users who have logged on to the system, along with the log on time stamp and logout time stamp. The information appears in reverse chronological order of the log on time stamp.

## To monitor users who have logged on to the system

1. Click **Dashboard > Dashboard >System Monitor > Users**.

2. In the **User Logins** section, sort the list of records to be displayed based on elapsed days by selecting 1 Day / 1 Week / 1 Month / By Date. If 'By Date' option is selected, you can specify a date range (within 3 months) in 'Start Dt' and 'End Dt' fields using the adjoining calendar. Click 'Search'.

A brief description of the fields is given below:

Field:	View this:
User	Displays the user ID.
User Name	Displays the user name.
Details	Displays the details.
Login Date and Time	Displays the login date time for the user.
Logout Date and Time	Displays the logout date time for the user.

### 3.4.7 Monitoring JMS Queues

OFSLL uses MDB infrastructure as an interface for asynchronous communication with third-party integrated applications and all the outgoing communications through all the interfaces are tracked in 'JMS Queues' tab.

The 'JMS Queues' tab in System Monitor screen facilitates as a dashboard to monitor the status of all the configured MDB (Message-Driven Bean) queues and provides a statistics of the total messages / requests that are sent from OFSLL to external system along with their status.

The 'JMS Queues' tab has the following sub tabs:

- Status sub tab - to view the last status of configured MDB
- Messages sub tab
  - To view the list of configured interfaces and total messages triggered to the interface.
  - To view the status of response for the message received from the interface.
  - To 'Re-submit' failed messages.

## To view the status of all the configured MDB

1. Click **Dashboard > Dashboard > System Monitor > JMS Queues**. The Status sub tab is displayed by default.

2. In the 'Status' section, you can view the following details of configured MDB:

Field	View this:
Service	Displays the name of the message service suffixed by MDB to differentiate the different MDB services.
Description	Displays the description or abbreviated name of MDB interface.
Last Updated Status	Displays the status of MDB interface. Following are the status displayed: <ul style="list-style-type: none"> <li>• UNKNOWN - indicates that no MDB infrastructure is connected or status ping message is not sent to that MDB.</li> <li>• SUBMITTED - indicates that a dummy ping message is sent to MDB.</li> <li>• RUNNING - indicates that the message is consumed by MDB infrastructure.</li> <li>• STOPPED - indicates if MDB infrastructure is down.</li> </ul>

3. In the 'Status' section, select the required service for which you need the status and click button. On clicking, a dummy ping is sent to the interfaced server and status in 'Last Updated Status' column is updated as 'SUBMITTED'.
4. Click (refresh) button, to fetch the latest status and the response received is updated in 'Last Updated Status' column.

## To view the messages triggered to all configured MDB

1. Click **Dashboard > Dashboard > System Monitor > JMS Queues > Messages** tab.

The screenshot shows the Oracle System Monitor interface for JMS Queues Messages. At the top, there are navigation tabs: Batch Jobs, Jobs, Services, Database Server Log Files, Parked Transactions, Users, JMS Queues, and Events. The 'Messages' tab is active. Below the navigation, there's a 'Status' section with a 'Company' dropdown set to 'ALL' and 'View Last' options for 1 Day, 1 Week, and 1 Month. A 'Messages' table shows a summary of messages for three services: WEBHOOK MDB (132 Submitted, 18 Completed, 104 Failed, 3 Resubmitted), EXP MDB (3 Submitted, 3 Completed, 0 Failed, 0 Resubmitted), and EVENTS MDB (145 Submitted, 145 Completed, 0 Failed, 0 Resubmitted). Below this is a 'Message Details' section with a table listing individual messages with columns for Message ID, Request Type, Request SubType, Message Type, Status, Message Content, and Time. The 'Response Message Details' section at the bottom shows 'Text' and 'No data to display.'

2. In the 'Messages' section, filter the list of messages using the following options:
  - Select the required Company from the drop-down list to view JMS message at company level. The list is populated only with those Company Definitions to which you have been provisioned access. By default, 'ALL' is selected.
  - Select the 'View Last' option to display the messages based on elapsed days by selecting 1 Day (default) / 1 Week / 1 Month / By Date. If 'By Date' option is selected, you can specify a date range (within 3 months) in 'Start Dt' and 'End Dt' fields using the adjoining calendar.
3. The 'Messages' section displays the list of configured interfaces and the total of messages exchanged between OFSLL and MDB in Submitted, Completed, Failed and Resubmitted status. Click (refresh) button to update the latest status.
4. In the 'Messages' section, you can view the following details:

Field	View this:
Service	Displays the name of the message service suffixed by MDB to differentiate the different MDB services.
Description	Displays the description or abbreviated name of MDB interface.
Submitted	Displays the total count of requests submitted.
Completed	Displays the total count of requests completed.
Failed	Displays the total count of requests failed.
Resubmitted	Displays the total count of only those requests which are failed and resubmitted again for processing.

## To 'Re-submit' failed messages

1. Click **Dashboard > Dashboard > System Monitor > JMS Queues > Messages** tab.
2. In the 'Messages' section, select the required MDB interface.

- The 'Message Details' section below displays the list of messages sent to the interface with the following details:

Field	View this:
Message ID	View the system generated MDB message ID
Request Type	View the message request type
Request SubType	View the message request sub type
Message Type	View the message identifier
Status	View the message processing status
Response	This column data is displayed only for Webhook MDB. View the HTTP Header received as response during Webhook event action invocation.
Message Content	View the message content
Time	View the message time stamp

- In the 'Message Details' section, select the message in 'Failed' status. Click  (refresh) button to update the latest status.
- (Optional) You can click 'View' to display the selected record in 'Message Details' section.
- Click  Re-submit. The details are triggered again for processing and the 'Resubmitted' counter in 'Messages' section is updated along with other counters.

### **Response Message Details**

This section is enabled if Events or Webhook type of MDB service is selected in Message section and displays the request Message Details that is propagated to external system for the posted event action.

#### **To view 'Response Message Details' of an Event**

- Select the required record from the Message Details section and click 'Show File'.
  - The first 50 characters of the request in json format is displayed since the default preference selected is 'Beginning' in View option and '# of Characters' is set to 50.
- You can customize the preference using View Option (Beginning / End) and specifying the number of characters to be displayed.
- Also you can click 'Show All' to display the complete request.

### **3.4.8 Monitoring Events**

The Events screen is a dashboard to view all the Events triggered in the system. In the Events screen you can view the latest status of all the processed events and 'Re-submit' only failed events for re-processing. However, this is a display-only field and does not allow to modify the defined event action parameters.

The Events screen has the following sections:

- Event Actions
- Action Parameters

In the 'View Options' section, you can filter and view the list of Events based on following Status:

- ALL
- SUBMITTED
- WAITING FOR USER INPUT
- COMPLETED
- FAILED
- CRITERIA NOT MET
- VOID

In the 'View Last' section, you can further sort the volume of records displayed on the Events screen with the following options:

Select:	System Displays:
1 Day	List of all events posted in last one-day.
1 Week	List of all events posted in last one-week.
1 Month	List of all events posted in last one-month.
By Date	List of all events posted between specific dates. You can specify a date range (within 3 months) in 'Start Dt' and 'End Dt' fields using the adjoining calendar.

### To View the Events triggered in the system

1. On the Oracle Financial Services Lending and Leasing home screen, Click Dashboard > System Monitor > Events tab.

The screenshot shows the Oracle Financial Services Lending and Leasing System Monitor interface. The 'Events' tab is active, displaying a table of Event Actions. The table has columns for Entity Nbr, Event Code, Event Query, Event Action, Process Type, Failure Count, Status, and Run Dt. The first row shows a failed event: LINK\_ABHL\_INT\_0... EVENT TO PROCE... PENDING\_EVENT\_ACTIONS REQUEST FOR CR... ONLINE 0 FAILED 11/01/2019 03:07... Below the table is the 'Action Parameters' section with columns for Description, Value Type, Value, and Required.

2. By default, the Events screen displays all events posted in last one day.
3. In the 'Event Actions' section, view the following information:

Field:	View this:
Entity Nbr	Entity Number on which event generated.
Event Code	Event Definition Description.
Event Query	Event Criteria Definition Description.
Event Action	Event Action Description.

<b>Field:</b>	<b>View this:</b>
Process Type	Event processing type as either Online/Batch fetched from EVENT_PROCESS_TYPE_CD lookup.
Failure Count	Number of times the event processing has failed.
Status	Event action with following execution status: CRITERIA NOT MET SUBMITTED VOID COMPLETED FAILED ALL WAITING FOR USER INPUT
Run Dt	Event Action Generation Date and Time.

4. In the 'Action Parameters' section, view the following information:

<b>Field:</b>	<b>View this:</b>
Description	Event Action Parameter Description.
Value Type	Event Action Input Parameter Type.
Value	Value defined for the event action.
Required	Y/N indicating if the Action Parameter is mandatory.

### **Re-submit Failed Events**

In the Events screen you can filter and re-submit only the 'FAILED status Online Event Actions' for processing. An Event is marked with 'Failed' status when the same could not be processed in the system due to setup/infrastructure issues. This is an additional option to re-process the event actions. On resubmitting an event, the Failure Count against the record is incremented by 1.

However, 'Resubmit' option is not allowed for Webhook and SEND JMS MESSAGE actions since the same functionality is available in JMS Queues.

In the 'Event Actions' section, select the required event record listed with status FAILED and click 'RE-submit'. On triggering the event, the 'Run Dt' column is updated with Event Action Generation Date and Time. Click 'Refresh' to fetch the latest status.

## **3.5 Producer Analysis**

The Producer analysis screen enables you to view and know the status of all applications sourced by different Producers.

## Navigating to Producer Analysis

Click **Dashboard > Dashboard > Producer Analysis**.

You can filter producer details based on any or all of the following criteria:

- Company
- Branch
- Region
- Territory
- Sales Agent
- Underwriter
- Funder

You can select the values from the adjoining drop-down list. Click 'Submit' button. System displays the Producer details satisfying the criteria, you selected.

The following details are displayed under Producer Details section:

- Producer #
- Name
- Company
- Branch
- Type

Select the producer you need to view the statistics. The system displays the statistics under 'Summary' sub tab and the status and sub status of various applications under 'Applications' sub tab, of the selected producer.

The system displays the following details under 'Summary' sub tab:

- Year
- Total Apps

- Approved
- Conditioned
- Rejected
- Withdrawn
- Funded
- Amount

The system displays the following details under 'Applications' sub tab:

- Company
- Branch
- App #
- Date
- Title
- Product
- Status
- Sub Status

## 3.6 Process Files

The Process files screen allows you to view the incoming and outgoing files exchanged between OFSLL and other interfaced systems for processing and also perform a bulk upload of required files.

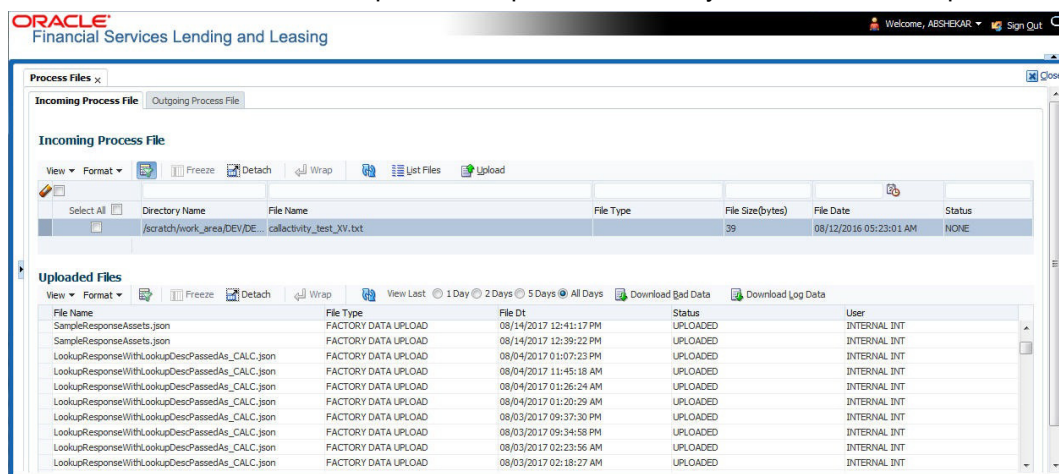

The Process files interface also provide information on the type of files uploaded along with other attributes. In-order to facilitate the process files handling, the following parameters has to be enabled in Setup > Administration > System > System Parameters screen. For more information on enabling system parameters, refer to 'System Parameters' section in Setup Guides.

- **CMN\_FILE\_PROCESS\_TO\_LOB**  
On enabling the above parameter, system stores the incoming / outgoing documents in the relevant tables and not in the file system.
- **UIX\_INCOMING\_FILE\_PATH**
- **UIX\_OUTGOING\_FILE\_PATH**  
On enabling the above two parameters, the incoming and outgoing file path of application server need to be defined to the required folder path by updating the 'Parameter Value' which by default is 'SETME'. (For example: /tmp)
- If both the parameter 'CMN\_FILE\_PROCESS\_TO\_LOB' and 'OUTBOUND\_CALL\_Q' are enabled (status ='Y'), system automatically handles upload/download of files from Weblogic configured process files.

Depending on the CLOB parameter option, if set to 'Y' the incoming/outgoing file directories are to be manually created in Web Logic server. For details of directories, refer to 'Creating Application Home directory' section in Database Installation Guide.

### 3.6.1 Incoming Process File

The incoming process file screen displays the list of files being shared from an external system along with other attributes such as directory path, file name, type, size, date and status. You can select the file required and upload it into the system for immediate processing.

#### View the list Incoming Process File

1. Click **Dashboard > Process Files > Incoming Process File**.
2. In the Incoming Process File section, click **List Files**. System displays the list of incoming files.

A brief description of the fields is given below:

Field:	Description:
Select All	Select this option to select all the listed files.
Directory Name	View the directory path where incoming file is stored.
File Name	View the name of the file.
File Type	View the type of incoming file. The file type is auto populated based on ODD (Output Data Definition) details maintained for the specific file type in INCOMING_FILE_TYPE_CD lookup.
File Size(bytes)	View the size of incoming file.
File Date	View the date and time when the incoming file was placed in the directory.
Status	View the status of the file.

#### Upload Incoming Process File

1. Click **Dashboard > Process Files > Incoming Process File**.
2. In the Incoming Process File section, click **List Files**. System displays the list of incoming files. You can click  to refresh the grid data.
3. Select the check box adjacent to the required file and click **Upload**. You can also click **Select All** check box to perform a bulk upload of all the listed files.

The uploaded files are listed in below 'Uploaded Files' section and the status of the files are changed from 'Generated' to 'Uploaded'. In case of a processing error, the status of the file is indicated as 'Processed Error'.

### 3.6.1.1 Uploaded Files

The uploaded files section displays the list of incoming files uploaded into the system. You can sort and view the list of files depending on the number of days based on Last 1 Day / 2 Days / 5 Days / All Days. You can click  to refresh the grid data.

On selection, you can view the following information:

Field:	Description:
File Name	View the name of file uploaded.
File Type	View the type of file uploaded.
File Dt	View the date and time when the file was uploaded.
Status	View the status of upload.
User	View the login ID of User who performed the file upload.

In the Uploaded Files section, you can do the following:

- Click **Download Bad Data** to download the list of uploaded files which had processing errors due to bad data.
- Click **Download Log Data** to download a log of all the files uploaded.

### 3.6.2 Outgoing Process File

The outgoing process file section displays the list of files being shared for upload to other system for processing and allows you to download the required file for inspection.

You can sort and view the list of files depending on the number of days based on Last 1 Day / 2 Days / 5 Days / All Days.

On selection, you can view the following information:

Field:	Description:
Select All	Select this option to select all the listed files.
File Name	View the name of upload file.
File Type	View the type of file shared for upload. The file type is auto populated based on ODD (Output Data Definition) details maintained for the specific file type in OUTGOING_FILE_TYPE_CD lookup.
File Date	View the date and time when the file was shared for upload.
File Size(bytes)	View the size of upload file.
Status	View the status of upload file.

### **Download Outgoing Process File**

1. Click **Dashboard > Process Files > Outgoing Process File**.  
System displays the list of files shared for upload. You can click  to refresh the grid data.
2. Select the check box adjacent to the required file and click **Download**. You can also click **Select All** check box to download all the listed files.

### **History**

The history section displays the following details:

Field:	Description:
User	View the login ID of User who downloaded the file.
Download Dt	View the date and time when the file was downloaded.

---

## 4. Customer Service

### 4.1 Introduction

After an application has cycled through the Loan origination process, it becomes an account. Account maintenance and collections tasks can be performed with Oracle Financial Services Lending and Leasing's Customer Service screen.

The Customer Service screen enables you to view and manage all customer information in a centralized location to ensure data integrity and provide better service. Oracle Financial Services Lending and Leasing provides online real-time information about the applicant(s), contract, account balances, dues, transactions, call activities, and comments. Oracle Financial Services Lending and Leasing also supports back-dating of financial transactions till the account's opening date.

#### Activating an Account

An account is automatically activated when you fund the contract using Funding main tab or convert from a legacy system. You cannot activate an account using the Customer Service screen.

#### Posting and Reversing Payments

A payment can be posted and reversed on the Payments screen. You cannot post and reverse the payment in Customer Service screen. (For more information, see the **Payment Processing** chapter).

#### Account Mask

After an application completes the Loan origination cycle and is funded or is ported into the system, it becomes an account and receives an account number. The system assigns account numbers using the following logic:

YYYYMMNNNNNNNX

where:

**YYYYMM** = contract date

**NNNNNN** = serial number

**X** = check digit

The system sorts accounts using the **NNNNNN** portion only. That portion is referred to as the account ID.

#### 4.1.1 Quick Search section

##### Conditions and Queues

During the Loan application process, applications had a status and sub status Accounts do not have sub statuses; instead, accounts use *conditions*. Conditions further define the status of an account; for example: delinquent, bankruptcy, scheduled for charge off, Do Not Charge Off. Conditions can be applied automatically by the system based on set up, and manually by the system users using Customer Service screen.

The system can assign accounts to specific users by way of *queues*. Queues are a work flow management tool that allow the users to work on accounts sequentially from a prioritized list, rather than having to manually search for and load them. Queues are created and sorted during nightly processing. Examples of customer service queues include due date change requests, delinquent accounts, deferment requests, and title and insurance follow-up.

Account conditions serve as default queues; that is, an account's condition determines which queue the account is in.

In the following example, account has a condition of DELINQUENT, noted in the Conditions section and Status field. The account was loaded from delinquent queue, DELQ (D).

A queue can be associated with only one condition. In the following example, the Delinquent queue is associated with the Delinquent condition. However, an account can have more than one condition, so an account can be in more than one queue. Multiple queues can be created for a single condition. Account attributes (such as number of days delinquent and product code) can be used for assigning accounts to a queue and sorting accounts within a queue.

You can quickly load an account from a queue using **Next Account** button in the **Quick Search** section.

## 4.2 Customer Service screen

Most of the screens on Customer Service screen contain Account(s) and Customer(s) sections as a header. The Account(s) section provides a quick overview of an account by displaying its company, branch, account number, product, payoff amount and amount due, status, and oldest due date. The information on Customer Service screen always refers to the account selected in this section.

The Customer(s) section displays information about customer(s) attached to the account. The information on Customer Service screen always refers to the customer selected in this section.

To view account details in Account(s) and Customer(s) sections, open **Customer Service** screen and load the account you want to work with.

On **Customer Service** screen's **Account(s)** section, view the following information: The system filters and displays information based on your selection:

Command Button:	Action Performed:
<b>Current</b>	Displays the current searched account only. It does not matter how that account was searched like using account search screen or selected a queue from drop-down and pressed 'Next' button or account number was directly entered in Acc# search field and pressed Submit button. This is the default option.
<b>Show All</b>	Displays the related accounts based on current selected customer's customer Id or list of enabled business accounts matching with 'Tax Number' of current selected business. To view the details of account number(s) other than current account, select the account in Account(s) section.

<b>Command Button:</b>	<b>Action Performed:</b>
<b>Group Follow-up</b>	Displays the set of accounts that share same account condition as the selected account and bear same Customer/Business Id. Other than having same account condition and Customer/Business Id, the queue currently selected should have the Group Follow-up Indicator enabled in queue setup and follow-up date should fall in range of organization level system parameter UCS_GROUP_FOLLOWUP_DAYS.
<b>Associated Accounts</b>	<p>Displays all the Associated Accounts if the selected account is a Master Account. This option is not selected by default.</p> <p>Following are the other combinations on how system displays the accounts:</p> <ul style="list-style-type: none"> <li>- If the selected account is a Master Account, selecting this option displays all Associated Accounts (if exists) of the Master Account including the Master Account.</li> <li>- If the selected account is an Associated Account linked to a Master Account which also has other Associated Accounts, then system displays all Associated Accounts of the Master Account including the Master Account.</li> <li>- If the selected account is not linked to any Master Account, then system displays only the current selected account.</li> <li>- If the selected account is the only Associated Account linked to a Master Account, then system displays the current selected account and its Master Account.</li> </ul> <p>However, on selecting individual account record, system displays the respective account details in all Servicing &gt; Account tabs.</p>

In **Account(s)** section, click **View** to view the following information:

<b>In this field:</b>	<b>View this:</b>
<b>Company</b>	The company of the account.
<b>Branch</b>	The branch of the account.
<b>Sub Unit</b>	View the Sub Unit associated with the company/branch combination. System automatically displays the Sub Unit mapped in Setup > User > Companies > Branch Definition screen.
<b>Account #</b>	<p>The account number.</p> <p>Note: This can also be the external reference number in case of conversion accounts if the value of system parameter AUTO_GEN_ACC_NBR_CONV is set to 'N'.</p>

<b>Master Account #</b>	View the Master Account number of the customer. During the funding process, an application can either be marked as 'Master Account' or 'Linked to Existing Master Account' in the Master Account tab of Origination screen.  - If marked as Master Account, system populates the Master Account # which is same as Account #.  - If Linked to Existing Master Account, system populates the selected Master Account #.  - If the Application is neither marked as 'Master Account' nor 'Linked to Existing Master Account', then this field is displayed as UNDEFINED.
<b>Master Account</b>	View the Master Account indicator value propagated from Origination on funding an application. 'Y' indicates that the current account is a Master Account and 'N' indicates its not.
<b>Product</b>	The product for the account.
<b>Days Past Due</b>	The total number of days elapsed past due date.
<b>Currency</b>	The currency for the account.
<b>Pay Off Amt</b>	The current payoff amount for the account.
<b>Amount Due</b>	The current delinquent amount due for the account.
<b>Status</b>	The account's status.
<b>DLQ Reason</b>	The delinquency reason that gets auto updated by the system as one of the following when the account is marked delinquent.  - 1st Payment Delinquency, when the first payment is delinquent.  - NSF Delinquency, when the payment amount on due date results in NSF (non sufficient funds) in the account.  - Matured Delinquency, when account reaches the 'Maturity Date' with some delinquency amount.  <b>Note:</b> System automatically removes the delinquency reason on the account if the payment is received. However, if the same payment is reversed, the conditions are posted back.
<b>Oldest Due Dt</b>	The oldest due date.

The system allows quick search of an account through **Quick Search** section in the right hand side of screen irrespective of the customer service screen on which you are working on. This is available in addition to the **Quick Search** section available in Results tab.

*For more details on Quick Search refer 'Search Functions' chapter.*

Comments can be added using **Add Comment** section in the right hand side of screen irrespective of screen you are working on. This is available in addition to the **Comments sub tab** available under Customer Service tab. This facilitates quick and easy reference.

For details on Comments refer **Comments sub tab** section in this chapter.

Call Activity functionality can be performed using **Add Call Activity** section in the right hand side of screen irrespective of the screen you are working on. This is available in addition to

the **Call Activities** sub tab available under Customer Service tab. This facilitates quick and easy reference.

For details on Call Activity refer **Call Activities sub tab** section in this chapter.

## 4.3 Customer Service screen's Summary tab

Open **Customer Service** screen and load the account you want to work with. By default the Customer Service screen opens the **Summary** tab.

### Alerts section

Any comment posted as an alert, are displayed in the alert section of Summary tab.

### Conditions section

You can view any conditions like Bankruptcy, Repossession, Foreclosure etc posted on an account. The condition is posted in the account with a start date which is the effective date and follow up date which indicates the next follow-up date for further process.

## Dues section

Unpaid dues and the dates are displayed in a tabular form. Details of payment amount due, fee due, payoff are also displayed.

<b>In this field:</b>	<b>View this:</b>
<b>Delq Due</b>	The total delinquent amount that is due so far in the account.
<b>LC Due</b>	The total amount of non-sufficient fee due in the account.
<b>NSF Due</b>	The non sufficient funds fee due.
<b>Other Due</b>	The total of any other dues pending in the account.
<b>Total Due</b>	The total of all dues including payment amount and all applicable fees.
<b>Total Due (incl current due)</b>	The additional due of current month (included based on pre-bill days).
<b>Today's Pay-off</b>	If the account is to be paid off as per the current date and the amount payable by the borrower.
<b>Future payoff</b>	The total Amount due on a future date. The borrower can know the total pay off amount for a future date, say 10 days from today.
<b>Future Payoff Date</b>	The date on which the future payoff is due.
<b>Future Pmt Dt</b>	The date till which the future payoff quote is valid.
<b>Oldest Due Dt</b>	The due date.
<b>Amt Paid Excess</b>	The excess amount paid.
<b>Memo Excess Amount</b>	The excess amount paid towards the membership fee.
<b>Paid Term</b>	The total count of paid dues.
<b>Remaining Term</b>	The total count of remaining outstanding dues to be paid.
<b>Days to Time Bar</b>	View the total number of days remaining to reach the time bar end date.

## Delinquency Information Section

View the following information in the **Delinquency Information** section:

<b>In this field:</b>	<b>View this:</b>
<b>Late</b>	Total number of times the account was delinquent for less than 30 days since start date.
<b>30</b>	Total number of times the account was delinquent for over 30 days since start date.

<b>In this field:</b>	<b>View this:</b>
<b>60</b>	Total number of times the account was delinquent for over 60 days since start date.
<b>90</b>	Total number of times the account was delinquent for over 90 days since start date.
<b>120</b>	Total number of times the account was delinquent for over 120 days since start date.
<b>150</b>	Total number of times the account was delinquent for over 150 days since start date.
<b>180</b>	Total number of times the account was delinquent for over 180 days since start date.
<b>Category</b>	The delinquency category.
<b>Days</b>	The number of days delinquent. A negative number in this fields denotes the number of days until a payment is due.
<b>Broken Promises (Life)</b>	Total number of broken promises since the account start date.
<b>Broken Promises (Year)</b>	Total number of broken promises since this year.
<b>Kept Promises (Life)</b>	Total number of fulfilled promises since the account start date excluding Broken and Cancelled Promises.
<b>Kept Promises (Year)</b>	Total number of fulfilled promises since this year excluding Broken and Cancelled Promises.
<b>NSF (Life)</b>	Total number of non sufficient funds since the account start date.
<b>NSF (Year)</b>	Total number of non sufficient funds since this year.
<b>Collector</b>	The default collector working on the account.

### **Activities Section**

View the following information in the **Activities** section:

<b>In this field:</b>	<b>View this:</b>
<b>Active Dt</b>	The date account was made active.
<b>Last Activity Dt</b>	The date on which most recent activity was performed in the account.
<b>Due Day</b>	The due day for payment.
<b>Last Pmt Amt</b>	The last payment amount.
<b>Customer Grade</b>	The customer grade.

<b>In this field:</b>	<b>View this:</b>
<b>App#</b>	The application number from which this account was created.
<b>Producer</b>	The producer through which the account was sourced.
<b>X-ref</b>	The cross reference number of third party origination system.
<b>Paid Off Dt</b>	The date on which account was paid off. <b>Note:</b> Filed has value only if account has Paid-off condition.
<b>Effective Dt</b>	The date account became effective.
<b>Current Pmt</b>	The current payment amount.
<b>Last Bill Amt</b>	The last bill amount.
<b>Last Pmt Amt</b>	The last payment amount.
<b>Chargeoff Dt</b>	The Date on which account was charged off. <b>Note:</b> This is applicable only if account has Charged-off condition. Else, no value displayed.
<b>Military Duty</b>	If selected, indicates that at the time of billing, the customer was in active military duty and qualifies for rates in accordance with Service members Civil Relief Act (SCRA) of 2003.
<b>Customer Score</b>	The customer score.
<b>Behaviour Score</b>	The behavior score.

### **Due Date Change section**

The Due Date Change section displays the remaining number of transactions available for the account in the Summary tab. You can view the following information under **Due Date Change** section.

<b>In this Field:</b>	<b>Do This:</b>
<b>Last Txn Dt</b>	The last date on which the due date was changed.
<b>Rem. Txn. Limit (Life)</b>	Remaining number of due date changes allowed till account closure.
<b>Rem. Txn. Limit (Year)</b>	Remaining number of due date changes in the account for current calendar year.

### **Extensions section**

The Extensions section displays the remaining number of transactions available for the account in the Summary tab. You can view following extension details as per the conditions maintained in the contract.

<b>In this Field:</b>	<b>Do This:</b>

<b>Rem. Txn. Limit (Year)</b>	Remaining number of extensions in the account for current calendar year.
<b>Rem. Txn. Limit (Life)</b>	Remaining number of extensions in the account till closure.
<b>Last Txn Dt</b>	The date when last extension was made.
<b>Exten. Gap Rem. (Months)</b>	The number of months remaining before you can post Extensions for an account.

### **Contract Information**

You can view the contract information recorded during the funding process. It's a display only version of the same information found on the Funding screen's > Contract screen.

<b>In this Field:</b>	<b>Do This:</b>
<b>Contract Dt</b>	View the contract funded date.
<b>Amt Financed</b>	View the amount financed for the contract excluding the prepaid finance charges.
<b>Term</b>	View the contract term.
<b>Rate</b>	View the interest rate. <b>Note:</b> For Islamic products this field is displayed as 'Profit Rate'.
<b>Maturity Dt</b>	View the contract maturity date.

### **Account Information**

You can view the loan account information recorded in Account Details > Account Information screen.

<b>In this Field:</b>	<b>Do This:</b>
<b>Contract Dt</b>	View the contract funded date.
<b>Amt Financed</b>	View the loan amount financed for the contract excluding the prepaid finance charges.
<b>Term</b>	View the contract term.
<b>Rate</b>	View the interest rate. <b>Note:</b> For Islamic products this field is displayed as 'Profit Rate'.
<b>Maturity Dt</b>	View the contract maturity date.

### **Settlement Information**

You can view the account settlement details as recorded in Account Details when the 'Account Settlement Transaction' is posted.

<b>In this Field:</b>	<b>Do This:</b>

<b>Effective Dt</b>	View the settlement agreement start date.
<b>Good Through Dt</b>	View the settlement agreement expiry date.
<b>Agreed Amt</b>	View the settlement amount agreed by customer to the lender.
<b>Paid Till Dt</b>	View the total amount paid by the customer and allocated to account balances during the agreed period (between effective date and Good through date).

### **Collateral Information section**

You can view the Collateral Information in this section:

<b>In this field:</b>	<b>View this:</b>
<b>Primary</b>	If selected, indicates that this is the primary collateral.
<b>Description</b>	A brief description on the collateral. This is a hyper-link which when clicked opens Collateral Management screen with relevant collateral details.
<b>Identification #</b>	The identification number of the collateral. This is a hyper-link which when clicked takes you to the collateral management screen with the relevant asset details.
<b>Year</b>	The year of manufacture of the collateral.
<b>Asset Class</b>	The asset class of the collateral.
<b>Asset Type</b>	The type of collateral.
<b>Sub Type</b>	The sub type of the collateral.

### **Customer/Business Information section**

On Customer Service screen's **Customer Information** section, select the record you want to work with. Based on type of account selected as either Customer or Business, you can view the related information as indicated below:

For a Customer account, view the following details:

<b>In this field:</b>	<b>View this:</b>
<b>Customer #</b>	Customer identification number (unique customer identifier).
<b>Name</b>	Customer's full name.
<b>Relation</b>	Customer's relationship to the account.
<b>SSN</b>	Customer's social security number. If the organizational parameter <code>UIX_HIDE_RESTRICTED_DATA</code> is set to Y, this appears as a masked number; for example, XXX-XX-1234.
<b>National ID</b>	Customer's national identification number.

<b>In this field:</b>	<b>View this:</b>
<b>Birth Dt</b>	Customer's date of birth.
<b>Gender</b>	Customer's gender.
<b>Email</b>	Customer's e-mail address.

#### **Additional Customer Details**

<b>In this field:</b>	<b>View this:</b>
<b>Email</b>	Customer's e-mail address.
<b>Language</b>	Language spoken by the customer.
<b>Marital Status</b>	Customer's marital status.
<b>Disability</b>	Customer's disability indicator. If selected, this indicates that the customer is disabled.
<b>Skip</b>	Customer's skip indicator. If selected, this indicates that the customer is a skip debtor. This is selected using the Maintenance screen.
<b>Stop Correspondence</b>	Stop correspondence indicator. If selected, Oracle Financial Services Lending and Leasing will not send correspondence to customer. This is selected using the Maintenance screen.
<b>Privacy Opt-Out</b>	Privacy opt-out indicator. If selected, indicates that customer does not want the FI to share his /her information with any other body, other than regulatory requirements. (optional).
<b>Active Military Duty</b>	Customer's Active Military Duty indicator. If selected, this indicates that the customer is serving Military Duty. This is selected using the Maintenance screen.
<b>Time Zone</b>	Customer's time zone.

For a Business account, view the following details:

<b>In this field:</b>	<b>View this:</b>
<b>Business #</b>	The registered business number.
<b>Name of the Business</b>	The name of the business.
<b>Organization Type</b>	The type of Organization to which the business belongs.
<b>Business Category</b>	The type of Category to which the business belongs.
<b>Type of Business</b>	The type of business.
<b>Legal Name</b>	The legal name of the business.
<b>Tax ID #</b>	The taxation identity number of the business.

### **Additional Business Details**

<b>In this field:</b>	<b>View this:</b>
<b>Email</b>	Business e-mail address.
<b>Contact Person</b>	The contact person at the business.
<b>Start Dt</b>	The Business start date.
<b>Management Since</b>	The year the current management was established.
<b>Bankruptcy</b>	Business's bankruptcy indicator.
<b>Skip</b>	Business's skip indicator. If selected, indicates that the Business has debts and the customer is a skip debtor.
<b>Stop Correspondence</b>	Stop correspondence indicator. If selected, Oracle Financial Services Lending and Leasing will not send correspondence to Business.
<b>Privacy Opt-Out</b>	Privacy opt-out indicator. If selected, indicates that Business does not want the financial information to share information with any other body, other than regulatory requirements.
<b>Time Zone</b>	Business time zone.

### **Address Information section**

This section displays Customer Address or Business Address depending on the type of account selected as either Customer or Business only account.

<b>In this field:</b>	<b>View this:</b>
<b>Type</b>	Address type.
<b>Current</b>	If selected, indicates that this is the current address.
<b>Permission to Call</b>	If selected, indicates that you can contact the customer.
<b>Mailing</b>	If selected, indicates that this is the mailing address.
<b>Address</b>	Address details.
<b>Phone</b>	Phone number.

### **Employment Information section**

The section is not displayed for Business only accounts. The details defined in Customer Service > Customer Details > Employments tab are populated here.

<b>In this field:</b>	<b>View this:</b>
<b>Type</b>	Type of Employment as PART TIME, FULL TIME and so on.
<b>Current</b>	If selected, indicates that this is the current employer.

<b>Permission to Call</b>	If selected, indicates that you can contact the employer.
<b>Employer</b>	Employer Details.
<b>Next Pay Day</b>	The next payment day of the month.
<b>Frequency</b>	Frequency of the payment.
<b>Address</b>	Address details.
<b>Phone</b>	Phone number.

### **Telecom Information Section**

This section displays Customer Telecom or Business Telecom depending on the type of account selected as either Customer or Business only account.

<b>In this field:</b>	<b>View this:</b>
<b>Type</b>	The type of phone contact such as Home / Office / Car / Mobile phone.
<b>Current</b>	If selected, indicates that this is the current phone contact.
<b>Permission to Call</b>	Permission as either Yes 'Y' or No 'N' to contact the customer over phone.
<b>Phone</b>	The customer's phone number.
<b>Extn</b>	The customer's phone extension.
<b>Time Zone</b>	The customer's time zone.
<b>Best day to call</b>	Preferred day of the week to contact the customer, if specified.
<b>Best Time To Call</b>	Preferred time to contact the customer, if specified.

### **Outbound Call History**

Displays outbound call statistics with following references:

<b>In this field:</b>	<b>View this:</b>
<b>Today</b>	The total number of outbound calls as of today.
<b>Last 7 days</b>	The total number of outbound calls in the past 7 days.
<b>Last 30 days</b>	The total number of outbound calls in the past 30 days.

## Work Order Details

Displays work order details as indicated below:

In this field:	View this:
Work Order #	View the work order number.
Case #	View the case number if associated with the work order.
Work Order Type	View the type of work order.
Vendor	View the vendor to whom the work order is assigned.
Status	View the status of work order.

## 4.4 Customer Service screen's Collections tab

The Collections tab in the Customer Service screen displays the collection-related account information required for a collector to work on the account. It is a quick snap-shot of the payment dues and promises along with other account details maintained in the system.

The screenshot displays the Oracle Customer Service interface for account 20000100021366. The 'Collections' tab is active, showing a summary of dues and promises. The 'Dues & Promises' section includes a table with columns for dates from 06/10/2017 to 09/10/2017, and a 'Late Fee' column. The total amount due is 13,365.79. Below this, there are sections for 'Customer Information' and 'Address Information'. A calendar for August 2017 is also visible, with a 'DUE' label on the 9th.

The Collections tab consists of the following sub sections:

### Dues & Promises

This section displays the details of unpaid dues and promises on the selected customer account.

- Total Amt Due - Indicates the total amount due on the account.
- Arranged - Indicates the amount agreed as Promise to Pay (PTP).
- Unarranged - Indicates the difference between total amount due and Promise to Pay.

The adjacent section display the following details depending on the account status:

- 'Historical' due amount on the account from previous dues.
- Last 4 unpaid dues with the Due Date and Due amount.
- 'Late Fee' amount charged on the account.

- 'NSF Fee' charged on the account.
- 'Other Fee' charged on the account.
- Consolidated amount agreed as PTP (Promise to Pay).
- 'Unarranged' indicates the total outstanding due excluding the Promise to Pay amount.
- Each bucket display the consolidated due amount with current and previous dues (if any).

---

**Note**

When a due is partially paid and the Payment Received flag = N, system displays only the remaining due amount and not the full due amount.

---

**Account Details**

This section displays the summary of account-related information maintained in the system. Since some of the sections are already detailed in the above 'Customer Service screen's Summary tab' the same have been referenced in required instances.

**Customer/Business Information**

Displays the customer's information starting with primary customer or Business information depending on the type of account selected as either Customer or Business only account. For detailed information, refer to '[Customer/Business Information section](#)'.

**Address Information**

Displays corresponding Customer Address or Business Address depending on the type of account selected as either Customer or Business only account. For detailed information, refer to '[Address Information section](#)'.

**Employment Information**

Displays the corresponding Employment information of the customer selected in 'Customer Information' section. For detailed information, refer to '[Employment Information section](#)'. The section is not displayed for Business only accounts.

**Telecom Information**

Displays the corresponding Customer or Business Telecommunication details depending on the type of account selected as either Customer or Business only account. For detailed information, refer to '[Telecom Information Section](#)'.

**Collateral Information**

Displays the corresponding collateral details maintained in Customer Service > Collateral tab for the selected customer account. For detailed information, refer to '[Collateral Information section](#)'.

**Reference & Other Contacts**

Displays the following details maintained in Customer Service > References tab.

- Relationship
- Name
- Phone1
- Phone2
- Comment

For detailed information, refer to '[References sub tab](#)'.

## Customer Preferences

This section displays the details of customer communication preferences maintained in Customer Service > Customer Preferences tab.

In this field:	View this:
<b>Communi- cation Mode</b>	The mode of communication preferred by customer such as Email or Phone.
<b>Value</b>	Communication details such as email ID or phone number.
<b>Type</b>	Preferred type of communication in case of ADHOC TELECOM.
<b>Time Zone</b>	Customer's time zone.
<b>Best day to call</b>	Preferred day of the week to contact the customer, if specified.
<b>Best Time To Call</b>	Preferred time to contact the customer, if specified.

## Calendar

This section displays the dues and payment related activities on account for the current month in Calendar format. By default, the calendar is displayed in Monthly format and can be changed to view by 'Day' on clicking  icon. The navigation buttons (◀ and ▶) facilitates to move to Previous or Next Month/Day depending on the selection. However, clicking 'Today' button reverts the selection to the current Month/Day.

The following events are highlighted in the Calendar on specific dates:

- The next payment due date as 'DUE'.
- The next payment day as 'PAY DAY' (displayed only for Primary Customer of the account with Current indicator as 'Y' and for latest record in Employments tab).
- Paid Date as 'PAID'.
- Promised to Pay Date as 'PTP'.
- Current Date.

When multiple events occur on the same day, the same is indicated with the count along with a link to view the events. Also depending on the time zone configured, an event may be extended and highlighted to two days in the calendar when there is an overlap.

## Eligibility

This section displays the customer account eligibility to take an 'Extension' for payment due date and if 'Due Date Change' (DDC) is allowed on the account. If yes, the same is indicated with a  (tick mark).

## Activities

This section displays the dues and payment related activities on account for 36 activities starting from A01 up to A36.

## 4.5 Customer Service screen's Customer Service tab

Open the **Customer Service** screen and load the account you want to work with. Click the **Customer Service** tab to view the sections under it.

### 4.5.1 Call Activities sub tab

Call activity section includes calls from customer, calls you make regarding the account or changes to the condition of the account. Entries in the **Call Activities** section are listed in reverse chronological order of follow-up date.

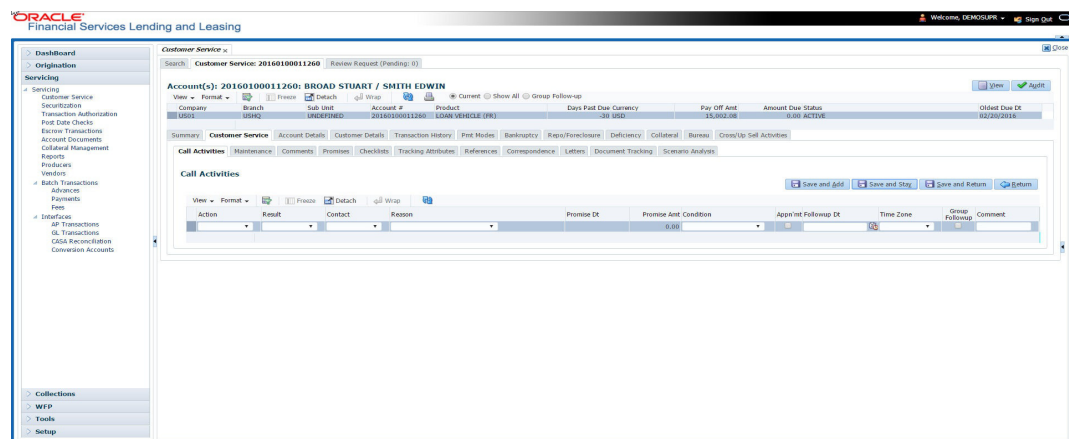

Each action and result has a code and description. The code for the call action and call result is what appears on the Call Activity sub screen. The Call activity action codes (Action field) and call activity results codes (Results field) are user-defined.

The Call Activities sub tab displays all the call activities defined by users in both “Customer Service > Call Activities tab” and in “Right Hand Splitter > Add Call Activity section”.

#### 4.5.1.1 Recording a Call Activity

##### To record a call activity

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Customer Service** sub tab and then click **Call Activities** tab under it. Click **Add**. The system displays the following screen.

3. You can complete the following optional fields:
4. Perform any of the [Basic Operations](#) mentioned in Navigation chapter.

In this field:	Do this:
<b>Dt</b>	System defaults the current date.
<b>Action</b>	Select the action performed from the drop-down list.
<b>Result</b>	Select the result of the action from the drop-down list. Depending on the action selected, filtered results are displayed for selection.
<b>Contact</b>	Select who person you contacted from the drop-down list.
<b>Reason</b>	Select the reason for the communication from the drop-down list.
<b>Promise Date</b>	Select the promise date from the adjoining calendar.

In this field:	Do this:
<b>Promise Amt</b>	Specify the promise amount.
<b>Condition</b>	Select the condition or queue type from the drop-down list. The list displays a combination of all the possible conditions depending on the action and result selected along with any open conditions applicable on the account. You can select 'None' if there are no specific conditions.
<b>Appointment</b>	Check this box to take an appointment. If <b>Appointment</b> is checked, then system allows you to select date and appointment time as per customer request. If appointment flag is not checked, then you can only enter the date with date picker.
<b>Followup Dt</b>	Specify the next follow-up date. Based on this date, system automatically adds the account in queue for follow-up.
<b>Time Zone</b>	Select the time zone of the customer.
<b>Group Followup</b>	Check this box to enable group followup.
<b>Comment</b>	Specify additional information of the call activity, if any.

5. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.
6. Click to **Save and Add** to add a new record. Click to **Save and Return** to return to the main screen. The system creates two entries on Customer Service screen for the call activity.

The codes for Action and Result appear as a record on the Customer Service screen, under Call Activities tab. The description for Action and Result appear as a system generated comment on the Customer Service screen, under Comments tab. If the account is delinquent, then the delinquency days is also appended in the system generated comment.

#### 4.5.1.2 **Making an Appointment**

The Appointment box on **Call Activities** section enables you to schedule an account to appear in a particular queue at a future date and time. When you make an appointment, account will appear in the front of queue listed in the Conditions field at the time listed in the Follow Up Dt field.

In order to view the account, you must be working in that queue at follow up time. Refer the 'Recording a Call Activity section'.

##### **To make an appointment**

1. Open **Customer Service** screen and load the account you want to work with.
2. Click **Customer Service** sub tab and then click **Call Activities** tab under it.
3. Click **Add** and specify the field details on **Call Activities** section (Refer, **Recording a call activity** section).
4. In **Condition** field, select the condition for queue you want the account to appear in.
5. In **Follow Up Dt** field, select the date and time you want account to appear using the calendar. This can be either current day or a day in future.
6. Select the **Appn'mt** box.
7. Click **Save And Add / Save And Return**.

If account is not worked within the queue on day of the appointment, nightly jobs will cancel the appointment. If the account's queue condition changes during nightly batch jobs, the outstanding appointments are cancelled.

### 4.5.1.3 Canceling an Appointment

Using the **Call Activities** screen, you can cancel an appointment for an account. The account will still appear in the queue on follow up date, but no longer receive a priority.

#### To cancel an appointment

1. Open **Customer Service** screen and load the account you want to work with.
2. Click **Customer Service** sub tab and then click **Call Activities** tab under it.

Click **Add**. The system displays **Call Activities** screen. If you need to change time for the appointment, create a new entry on account's **Call Activities** section with the same condition, but enter a new follow up date. If you need to cancel the appointment, create a new entry on account's **Call Activities** section with same condition, but don't check the **Appointment** check box.

(To create a new entry, refer **Recording a Call Activity** section.)

3. Click **Save**.

### 4.5.1.4 Recording a Promise to Pay

If you record an action on **Call Activities** screen as a 'promise to pay', it appears as a record on the **Account Details** screen's **Promises** section. The Promises section enables you to quickly view these actions without searching for them individually.

#### To record a promise to pay

1. Open **Customer Service** screen and load the account you want to work with.
2. Click **Customer Service** sub tab and then click **Call Activities** tab under it.
3. Click **Add**. The system displays the **Call Activities** screen. In **Action** field, select the action which is already performed, such as DC - DEALER CALLED
4. In the **Result** field, select a result involving a promise to pay, such as PP - PROMISE TO PAY.
5. You can complete the following optional fields:

In this field:	Do this:
<b>Contact</b>	Select the contact type. (Who was the person you communicated with?).
<b>Reason</b>	Select the reason, as stated by the contacted person. (What is the reason for this contact?).

6. In the **Promise Dt** field, record date when the person you spoke with promises to make payment.
7. In the **Promise Amt** field, record amount of payment the person you spoke with promises to pay.
8. In the **Condition** field, select the condition or queue type.
9. In the **Follow up Dt** field, enter next follow-up date for the promise-to-pay or accept the default date.
10. Click **Save**. The system automatically notes this information as an entry on the Promises and Comments sub screens.

---

**Note**

If payment amount is within the tolerance limit, promise is considered to be kept. If the payment amount is not within tolerance limit, promise is considered to be broken.

---

#### **4.5.1.5 Cancelling a Promise to Pay**

Oracle Financial Services Lending and Leasing enables you to cancel promises to pay using the **Account Detail**'s screen **Call Activities** section. You might do this when a customer informs you prior to the promise date that he or she cannot make the payment.

##### **To cancel the existing promise to pay**

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Customer Service** sub tab and then click **Call Activities** tab under it.
3. Click Add. The system displays the **Call Activities** screen.
4. Select the call activity entry for the promise to pay you want to cancel.

Click the **Cancel** box. The promise is marked as cancelled and will not be considered when processing promises; in other words, it will not be counted as either satisfied or broken.

#### **4.5.1.6 Posting Offline Call Activities**

The system facilitates posting of offline call activities against an account.

##### **To Post Offline Call Activities:**

1. The source file is provided in CSV format (pre-determined for fields & size). Each field in the file is separated by a comma (,) and each line is separated by return (New Line).
2. A batch job Offline call activity posting, loads the provided flat file in the specified format and system will process it line by line.
3. For each line, the system posts Call Action Code and the corresponding Call Result Code, for a given account number with SYSDATE.
4. The system will perform respective call activities and sets the follow-up date as SYSDATE + Follow up Days (As provided in the feed file)
5. During offline call activity, you can specify comments, if any, in the comments field. The system defaults comments received from offline call activity in the comments section sub tab under Customer Service screen.
6. During offline call activity, you can also include the alert flag as 'Y' or 'N' for a comment as the last parameter (i.e. after comments and separated by a comma). Oracle Financial Services Lending and Leasing recognizes this comment as an alert and displays in Customer Service > Summary Tab, in Alerts section.

#### **4.5.2 Maintenance sub tab**

The Customer Service screen's Maintenance screen acts as a single command stations that enables you to post a wide array of monetary and non monetary transactions for any given account. Transaction available is based on the account's Loan produce and the user's responsibility. This section explains how to complete the following tasks:

##### **Monetary tasks**

###### **Loan:**

- Apply, adjust, or waive servicing expenses

- Adjust or waive late charges
- Adjust or waive non-sufficient funds
- Apply, adjust, or waive repossession expenses
- Apply, adjust, or waive bankruptcy expenses
- Apply or adjust phone pay fees
- Change an index/margin rate
- Apply, adjust, or cancel financed insurance
- Generate a payoff quote
- Generate a backdated payoff quote
- Payoff an account
- Charge-off an account/Do Not Charge-Off an account
- Close an account
- Trading of Accounts - Monetary Transactions
- Account Settlement Transaction
- Adjust, charge-off, or waive the advance/principal balance
- Adjust the interest balance
- Stop interest accrual
- Indicate a borrower as on or off active military duty
- Change a due date
- Apply, adjust, or waive an extension fee
- Change payment amount
- Adjust or waive a prepayment penalty
- Reschedule an escrow payment
- Adjust or waive an escrow payment
- Adjust or waive a payoff quote fee
- Place an account in a nonperforming condition
- Reverse a nonperforming condition
- Reschedule precompute loan to interest bearing loan

### **Non-Monetary tasks**

#### **Loan:**

- Update a customer's/Business name
- Maintain customer details
- Mark a customer/business as a skipped debtor
- Change a customer's Privacy Opt-Out indicator
- Stop correspondence
- Modify financed insurance information
- Start or stop an ACH
- Reprint a statement (batch only)
- Add or stop servicing of accounts with post dated checks as a repayment method
- Re-order coupon books
- Cancel or adjust an ESC
- Apply a refund payment to an ESC

- Cancel insurance (or reverse the insurance cancellation)
- Add new escrow insurance details
- Add new escrow tax details
- Change insurance annual disbursement
- Change insurance disbursement plan
- Change escrow indicators of insurance
- Change insurance expiration date
- Change insurance maturity date
- Change tax annual disbursement
- Change tax disbursement plan
- Change escrow indicators of tax
- Resume escrow analysis
- Resume escrow disbursements
- Stop escrow analysis
- Stop escrow disbursements
- Refund or adjust insurance
- Adjust Dealer Compensation
- Trading of Accounts - Non-Monetary Transactions
- Bankruptcy Reporting Indicator
- Sub Unit Account Transfer

The system enables you to post a monetary transaction immediately or submit it for nightly processing. The transaction is identified as either a 'real-time' or nightly batch transaction in Oracle Financial Services Lending and Leasing's transaction setup codes. The system also enables you to cancel the future dated transactions or transactions those have been submitted for nightly processing. All activities in the account, including who performed it, date and time stamp, are captured in the audit trail.

#### **4.5.2.1 Creating Monetary and Non monetary Transactions**

All monetary and non monetary tasks listed in the appendix **Transaction Parameters** are available for use on Maintenance screen. Each task requires a Transaction value and a Parameter value.

##### **To use the Maintenance screen to complete monetary transaction**

1. Open **Customer Service** screen and load the account you want to work with.

- Click **Customer Service** sub tab and then click **Maintenance** tab under it.

- On the Maintenance screen's **Action** section, click **Add** in the **Transaction Batch Information Section**:
  - Select the **Monetary** box to complete a monetary transaction.
  - or-
  - Clear the **Monetary** box to complete a non monetary transaction.
- In the **Transaction** field, select transaction for the task you want to complete. Transaction availability depends on the type of Loan account, whether the transaction is monetary or non monetary, and user responsibility.
 

Note that, during set up, all transactions are configured to be processed either in real time or as a batch transaction. Accordingly, the 'Batch' check box is selected only if the selected transaction is to be performed through batch execution.
- Click **Load Parameters**.
- Specify all the required parameter values and click **Post**. The system displays result (success or failure) in the Results section.

You can cancel a transaction by selecting the record and clicking **Void**. The parameter 'TPE\_TXN\_POST\_DEFAULT\_GLDATE' is used to default the transaction date to GL date. If the 'Default Transaction Date to GL Date' is Yes, then GL date will be defaulted as transaction date. If the value is 'No', then the transaction date will not be defaulted and you can specify the transaction date manually.

When transaction date is not equal to or less than the system date, transaction is considered to be back dated. System Date is 'OFSLL System Date' which is the GL Date. When user posts the back dated transaction, system displays warning message as "Confirm to post the back dated transaction" with YES/NO. If user selects 'Yes', then transaction proceeds. If user selects 'No', then the transaction gets cancelled.

System displays back dated posting warning message only if the parameter 'TPE\_SHOW\_BACKDATE\_WARNING' is set to 'Y'

When an 'ON MILITARY DUTY TRANSACTION' is posted in an account:

- The system restricts users from bankruptcy /repossession/foreclosure conditions.

- System posts DO NOT CHARGE OFF condition on that account to exclude the account from Auto Charge Off process.
- The DO NOT CHARGE OFF condition is removed when 'OFF Military Duty' transaction is posted.

### 4.5.3 Comments sub tab

Oracle Financial Services Lending and Leasing enables you to record/delete comments on the Customer Service screen using **Comments** tab. These comments also appear under the **Comments** sub tab.

All the user added Comments in either Customer Service > Comments tab or in Right Hand Splitter > Add Comment section, are displayed in the Comments sub tab including system generated comments.

#### 4.5.3.1 Recording an Additional Comment

##### To record an additional comment

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Customer Service** sub tab and then click **Comments** tab under it.
3. Click Add. The system displays the **Comments** screen.

4. If you want to tag this comment as important, select the **Alert** box. If selected, the comment appears on Customer Service screen's Alerts section, after **Save**.
5. In the **Type** field, select what type of comment you are adding.
6. In the **Sub Type** field, select what sub type of comment you are adding.
7. In the **Comment** field, specify your comment.
8. Click **Save and Add** to add a new record. Click **Save and Return** to return to the main screen.

Comments can be viewed under the Comments tab View the following:

In this field:	View this:
<b>Alert</b>	If selected, Oracle Financial Services Lending and Leasing to recognizes this comment as an alert and displays in Customer Service > Summary Tab, in Alerts section.
<b>Type</b>	The type of comment.
<b>SubType</b>	The sub type of comment.
<b>Comment</b>	The text message entered in the Add Comments section.
<b>Comment By</b>	The user ID of person who entered comment in the Add Comments section.
<b>Comment Dt</b>	The date on which comment was entered in the Add Comments section.

#### 4.5.3.2 Deleting Comment(s)

You can delete 'REGULAR' type comments displayed in the Comments sub tab.

##### To delete a comment

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Customer Service** sub tab and then click **Comments** tab under it.
3. Select the row which consists of the comment and click **Delete** from the actions.
4. Click 'Yes' to confirm delete in the warning message displayed.

#### 4.5.4 Promises sub tab

The system automatically updates promise to pay request information as an entry under the Promises sub tab based on value defined in parameter at setup level.

In this field:	View this:
<b>Promise Amt</b>	The amount promised.
<b>Promise Dt</b>	The date by which customer promises to pay the said amount.
<b>Taken By</b>	The user who took promise.
<b>Taken Dt</b>	The date promise was taken.
<b>Collected Amt</b>	The amount collected against the promise.
<b>Broken ind</b>	If 'Y', indicates that this is a broken promise.
<b>Cancelled</b>	If 'Y', indicates that this is a cancelled promise

If a call was recorded as a PROMISE TO PAY on the **Call Activities** section, it will appear under the **Promises** sub tab. The **Promises** sub tab enables you to quickly view details about the call and subsequent actions and displays 25 most recent promises to pay.

A promise is considered to be broken in either of the following conditions:

- If system does not receive the promised amount 'ON or Before' the promised date.
- If a payment is received but the paid amount is not up to the tolerance limit, as defined in Setup > Contract screen.

System automatically updates the consolidated status of all promises in Customer Service > Summary tab, 'Delinquency Information' section. View the following information in the **Promises** sub tab.

### Create Multiple Promises

In the Promises sub tab, you can capture more than one Promise at a go and track all promises, instead of adding multiple call activities to capture multiple promises.

To record multiple promises related to call activity, Click **Create Multiple Promises**. The system displays the 'Promises' section with the following fields:

In this field:	View this:
<b>Action</b>	Select the type of action from the drop-down list.
<b>Result</b>	Select the required result of action from the drop-down list. The Result field drop-down list displays only "Promise to Pay" related results based on the action selected.
<b>Contact</b>	Select the type of person you contacted from the drop-down list.
<b>Reason</b>	Based on the account condition and the reason stated by the contact, select the appropriate reason from the drop-down list.
<b>Promise St Dt</b>	Select the date from which the first promise is made from the adjoining calendar icon.
<b>Frequency</b>	Select the frequency of payment from the drop-down list.
<b>Promise Amt</b>	Specify the amount promised by the contact. Ensure that you do not enter zero or a decimal value.
<b>No. of Promises</b>	Specify the total number of promises made by the contact. A minimum of one promise need to exist.
<b>Appointment</b>	Select the check box if a prior appointment is to be taken for future follow-up.
<b>Comment</b>	Specify additional details of the promise, if any.

Click **Create** to record the promise details. Based on the number of promises, equivalent records are created in the section below with the following information:

In this field:	View this:
<b>Promise Dt</b>	The first record indicates the promise start date and subsequent records will have dates incremented based on frequency and number of promises.
<b>Promise Amt</b>	View the amount promised.

In this field:	View this:
<b>Reason</b>	Indicates the reason stated by the contact.
<b>Contact</b>	Indicates the contact selected.
<b>FollowUp Dt</b>	Indicates the followup date which is auto calculated by the system by adding 2-3 additional days from the promise date.
<b>Appointment</b>	Indicates if a prior appointment is required for future follow-up.
<b>Comment</b>	Specify additional details of the promise, if any.

If required, You can further modify the details of each record.

Click **Save and Return**. The recorded promises are populated in Call Activities tab for tracking.

*For more information on Call Activities, refer Customer Service > Call Activities sub tab section.*

#### 4.5.5 Checklists sub tab

In this field:	View this:
<b>Promise Amt</b>	The amount promised.
<b>Promise Dt</b>	The date by which customer promises to pay the said amount.
<b>Taken By</b>	The user who took promise.
<b>Taken Dt</b>	The date promise was taken.
<b>Collected Amt</b>	The amount collected against the promise.
<b>Broken</b>	If selected, indicates that this is a broken promise.
<b>Cancelled</b>	If selected, indicates that this is a cancelled promise

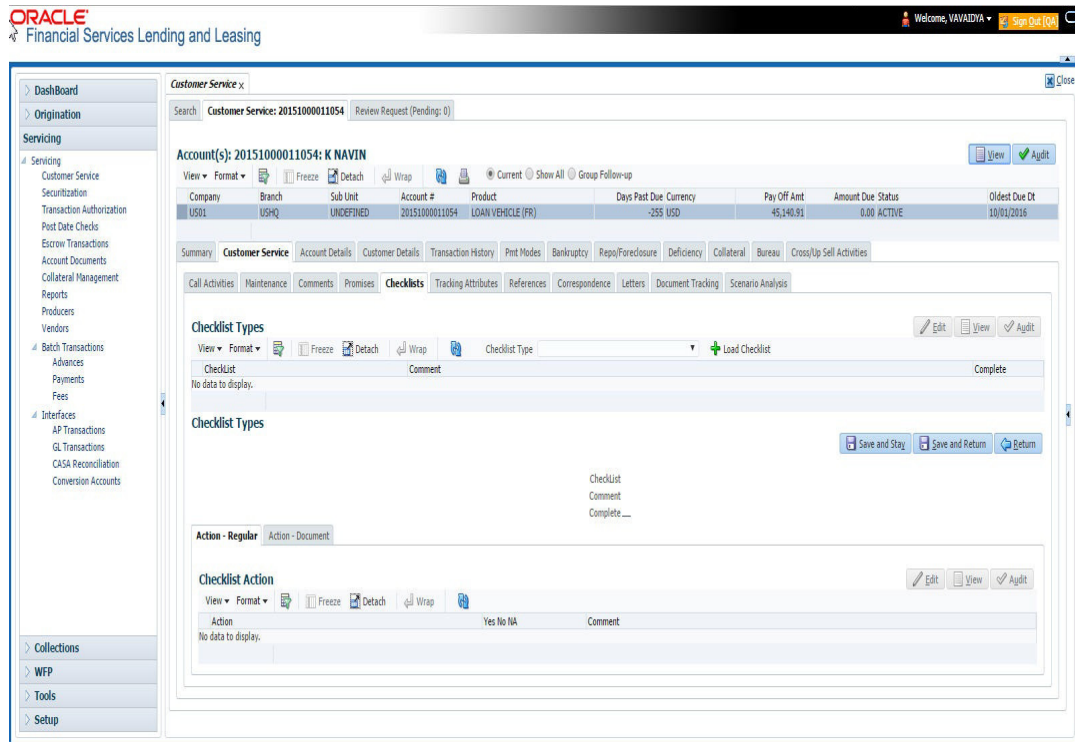

Oracle Financial Services Lending and Leasing enables you to use checklist to ensure that procedures are followed to complete various tasks. This instructional information appears under the **Checklist** sub tab.

##### 4.5.5.1 Completing a Checklist for an Account

**To complete a checklist for an account**

1. Open the **Customer Service** screen and load the account you want to work with.

2. Click **Customer Service** tab, Click **Checklist** sub tab.

3. In the **Check List Type** field, select the type of checklist you want to complete and then click **Load Checklist**. The system loads checklist in the **Checklist** and **Checklist Action** sections.
4. Under **Action - Regular** tab, Click **Edit**. In the Action field, select an action you want to complete.
5. Under **Action - Document** tab, Click **Edit**. In Document tab, you can track documents pertaining to the checklist type and update the status.
6. Note your work with the **Yes/No/NA** option buttons. You can also add comments to each action on the checklist in the Comment column.
7. Click **Save and Add** to add a new record. Click **Save and Return** to return to the main screen.

#### 4.5.6 Tracking Attributes sub tab

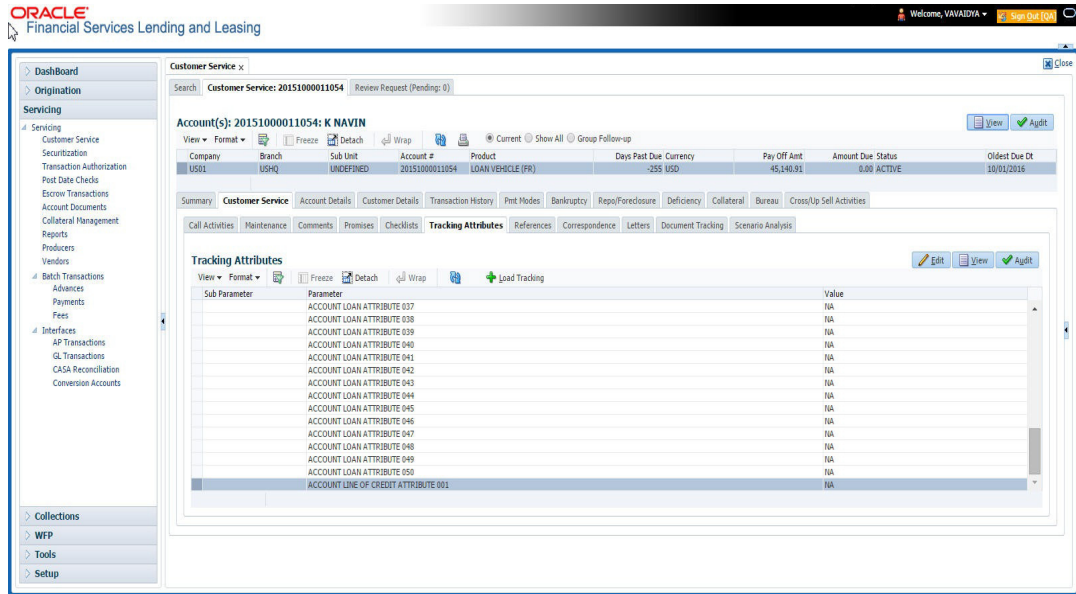

The Tracking Attributes screen enables you to link information to an account that is not tracked by default in the system, but is part of your company's business practices; for example, the location of important documents, how customers receive pay checks, or the hint questions for remembering a PIN. Such attributes are defined during system setup.

The Tracking Attributes for Loan accounts in this screen can also be loaded in bulk through file upload process. While doing so, ensure that the input data file definitions are in sync with attribute names. Before processing the bulk upload, system validates if the Tracking Attributes are already loaded. If not, system loads the Tracking Attributes and then updates the details.

#### **To use the Customer Service screen's Tracking Attributes screen**

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click the **Customer Service** tab, then click **Tracking Attributes** sub tab.

3. Click **Load Tracking**. The system loads the tracking parameters.

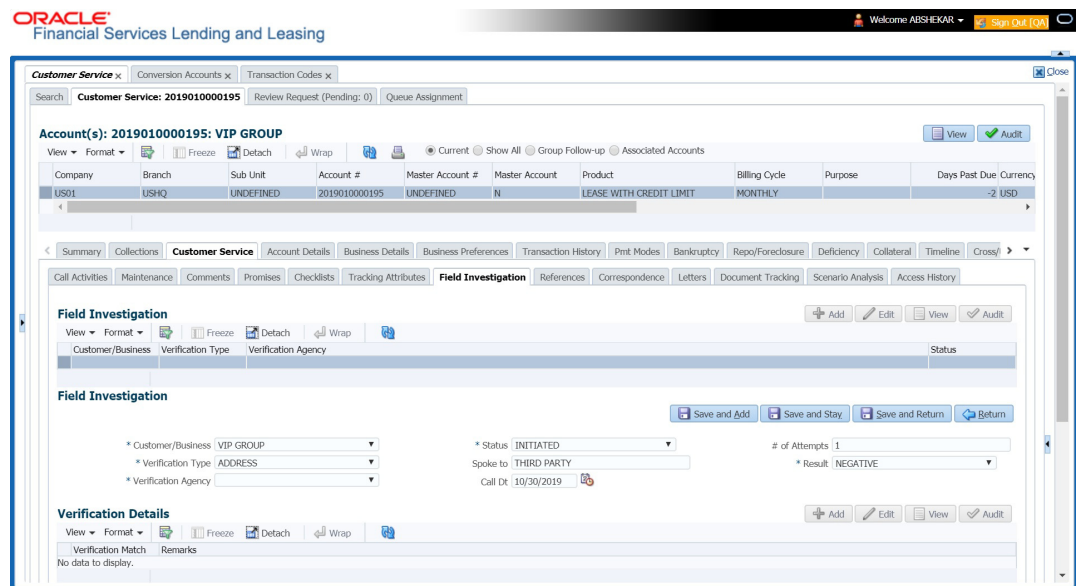

4. Complete **Tracking** section by entering the requested parameter in the **Value** field.
5. Save any changes you made to the account.

### 4.5.7 Field Investigation Sub Tab

The Field Investigation sub tab allows you to record the field investigation details for further processing. Field investigation primarily consists of verifying customer's contact points and the other details to be verified such as address, employment, asset etc through a specific verifying agency.

#### To record field investigation and create work-order

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click the **Customer Service** tab, then click **Field Investigation** sub tab.

3. In **Field Investigation** section, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields are given below:

Field	Do this
Customer/Business	Select the customer attached to the account or Business Name if it is an 'SBL' or Business account from the adjoining drop-down list.
Verification Type	Select the field verification type from the adjoining drop-down list.
Verification Agency	Select the verification agency from the adjoining drop-down list.
Status	Select the field verification status from the adjoining drop-down list.
Spoke to	Specify the name of the person contacted during field verification.
Call Dt	Select the date when the customer was contacted from the adjoining calendar.
# of Attempts	Specify the number of attempts made to contact the customer.
Result	Select the field verification result from the adjoining drop-down list

4. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.
5. In **Verification Details** section, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields are given below:

Field	Do this
Remarks	Specify remarks, if any regarding the field verification.
Verification Match	Check the box if the verification has matched.

6. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

#### 4.5.8 **References sub tab**

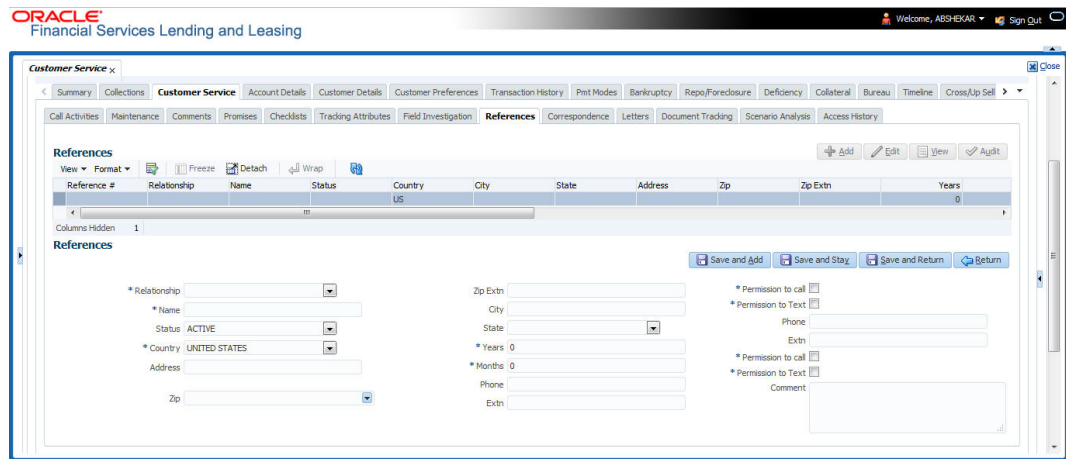

The **References** sub tab enables you to view/add/edit references attached to the account during Loan origination cycle.

##### **To use the Customer Service screen's References screen**

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click the **Customer Service** tab, then click **References** sub tab.

### 3. Click Add.

Specify the following details:

In this field:	Specify this:
<b>Relationship</b>	Referee's relationship with borrower.
<b>Name</b>	Referee's name and details in the following fields.
<b>Status</b>	Select the status of the reference as either 'Active' or 'Inactive' from the drop-down list.
<b>Country</b>	The country.
<b>Address</b>	The address line.
<b>Zip</b>	The zip code.
<b>Zip Extn</b>	The zip code extension
<b>City</b>	The city.
<b>State</b>	The state.
<b>Years</b>	Number of years that the reference is known by the borrower.
<b>Months</b>	The number of months that the reference is known by the borrower.
<b>Phone</b>	The reference's primary phone number.
<b>Extn</b>	The reference's primary phone extension.
<b>Permission to call</b>	Check this box if customer has provided permission to contact through the specified phone number.
<b>Permission to Text</b>	Check this box if customer has provided permission to contact through text message.
<b>Phone</b>	The reference's secondary phone number.
<b>Extn</b>	The reference's secondary phone extension.
<b>Permission to call</b>	Check this box if customer has provided permission to contact through the specified phone number.

<b>In this field:</b>	<b>Specify this:</b>
<b>Permission to Text</b>	Check this box if customer has provided permission to contact through text message.
<b>Comment</b>	The comments regarding the reference.

4. Click **Save and Add** to add a new record. Click **Save and Return** to return to the main screen.

### Note

You can also post a non-monetary transaction to add or modify contact reference details. For more details, refer to Appendix - 'Transaction Parameters' chapter. For references updated through the Customer Service screen, system automatically appends a comment as 'Direct Update' while posting the respective transactions.

## 4.5.9 Correspondence sub tab

Ad-hoc correspondence enables you to include information from accounts in document templates you create yourself without manually transferring the data. Ad-hoc documents can be generated as either Microsoft Word or PDF files.

Ad-hoc correspondence can be viewed on the Correspondence screen when you have opened an account. The screen enables you to generate a new letter or view a previously generated letter.

### To generate an ad hoc correspondence

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click the **Customer Service** tab, then click **Correspondence** sub tab.

The screenshot displays the Oracle Financial Services Lending and Leasing Customer Service interface. The top navigation bar includes the Oracle logo, the text 'Financial Services Lending and Leasing', and a user welcome message 'Welcome, VAAADYA'. The main window title is 'Customer Service x'. The search bar contains 'Customer Service: 20151000011054' and 'Review Request (Pending: 0)'. The account information section shows 'Account(s): 20151000011054: K NAVIN'. Below this is a table with columns: Company, Branch, Sub Unit, Account #, Product, Days Past Due, Currency, Pay Off Amt, Amount Due Status, and Oldest Due Dt. The table contains one row: US01, USHQ, UNDEFINED, 20151000011054, LOAN/VEHICLE (FR), -255 USD, 45,140.91, 0.00 ACTIVE, 10/01/2016. The 'Correspondence' sub-tab is active, showing a 'Correspondences' table with columns 'ID Correspondence' and 'Date'. The table is currently empty. Below the correspondence table are sections for 'Documents' and 'Document Elements', both showing 'No data to display.' The interface includes various action buttons like 'View', 'Format', 'Freeze', 'Detach', 'Wrap', 'Add', 'View', 'Audit', 'Save and Add', 'Save and Stay', 'Save and Return', and 'Return'.

- In the **Correspondence** section, click **Add**. In the **Correspondence** section, use **Correspondence** field to select type of correspondence you want to generate. The system displays following information in the Correspondence screen for selected type of correspondence:

In this field:	View this:
<b>Id</b>	The correspondence id.
<b>Correspondence</b>	The correspondence which is to be generated.
<b>Date</b>	The correspondence generation date.

- In the **Correspondence** section, click **Save**. The **Documents** section displays all types of documents available for the type of correspondence you selected.
- In the **Documents** section, click **View**. View the following information for each document:

In this field:	View this:
<b>Document Id</b>	The document id.
<b>Document</b>	The document description.
<b>Recipient</b>	The recipient description.
<b>E-Form Source</b>	The e-form source.
<b>Source Type</b>	The source type.
<b>Generated</b>	'Y' indicates that Oracle Financial Services Lending and Leasing generated the document.
<b>Selected</b>	'Y' indicates that this document is selected to be included in the correspondence.

- In the **Documents** section, select the correspondence you want to view.
- The **Document Elements** section displays elements of the system used to generate correspondence.
- Click **All** to view all elements in the correspondence.
- or -
- Click **User Defined**, to view user-defined elements in the correspondence. In the **Document Elements** section, view the following information:

In this field:	Do this:
<b>Element Type</b>	View the document element type.
<b>Element</b>	View the element description.
<b>Content</b>	Enter/view value of the element.

- In the **Document Elements** section, click **User Defined** and complete **Content** fields for **Element** fields you want to include in the correspondence.
- In the **Document Elements** section, click **Save**.
- In the **Document Elements** section, click **View**.

The system displays a PDF of the ad hoc correspondence.

#### 4.5.9.1 **Recipient Details Sub Tab**

The recipient details sub tab facilitates you to send ad-hoc correspondence to Customers, Producers, and Others as an email.

##### **To add recipient details**

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Correspondence > Recipient Details**.
3. Perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

<b>Field:</b>	<b>Do this:</b>
Recipient	Select the recipient from the drop-down list. The list displays the following options: <ul style="list-style-type: none"> <li>- Applicant</li> <li>- Customer</li> <li>- Producer</li> <li>- Others</li> <li>- Business</li> </ul>
Customer Type	This field is enabled if you has selected the recipient as 'Customer'. Select the type of customer relation from the drop-down list. The list is populated with all the customer relations linked to the account.
Mode	Select the mode of correspondence from the drop-down list. The list displays the following options: <ul style="list-style-type: none"> <li>- Fax</li> <li>- Email</li> </ul>
Type	Based on the recipient selected, the following type of correspondence is listed for selection:  When the recipient is selected as <b>Customer / Producer</b> , the Type is defaulted as 'Email' and associated email ID is selected for correspondence. You can also change the Type to 'Adhoc' and specify the required email ID.  When the recipient is selected as 'Others' you can specify the email ID in Type field for correspondence.
FAX/Email	View the auto populated FAX/Email details or select from the drop-down list.  Email and Fax details are auto populated if the recipient is selected as Customer / Producer / Business and the 'Mode' and 'Type' is selected as EMAIL.
Comments	Specify additional information as comments.

4. In the Recipient Details section, click **Save**.

5. Click **Send** to email the correspondence details to the specified recipients.

System validates the correspondence details and generates a PDF document through BI Publisher with the Correspondence details. The same is emailed to the specified recipient as an attachment and a system generated comment is updated in 'Comments' Tab. The correspondence consists of following header details::

Alert	Type & Subtype	Comment	Comment By	Comment Date
N	System Generated	<Type> <Correspondence type> sent to <Recipient Type> through < Mode> to <'Email' id>	Logged in user	Current System date with time stamp

#### 4.5.10 Letters sub tab

The Oracle Financial Services Lending and Leasing Customer Service screen's correspondence address matters regarding customer service and collections for accounts. They also enable financial organizations to manage bulk mailings. The Letters screen enables you to create and view the following types of correspondence:

- Welcome letter
- Paid in Full letter
- PayOff quote letter
- Rate change intimation letter
- PDC renewal letter
- Servicing:
  - Pay Off quote letter
  - PDC renewal letter

You can view format of all the above letter types by clicking 'View Letter' button. In case, the correspondence to a particular customer has been stopped using the Maintenance, 'View Letter' button will not be displayed and only Letters screen will be available.

#### To use the Letters screen

1. Open the Customer Service screen and load the account you want to work with.
2. Click the **Customer Service** tab, then click **Letters** sub tab.

The screenshot shows the Oracle Financial Services Lending and Leasing Customer Service interface. The 'Letters' sub-tab is active, displaying a list of correspondence types and their file names. The 'Recipient Details' section is empty, indicating no data to display.

Correspondence	Correspondence Type	File Name
CNUNCE_COL_LTR3_VR	COLLECTION LETTER 1	lc001_em_100_02
CNUNCE_COL_LTR2_VR	COLLECTION LETTER 2	lc002_em_100_02
CNUNCE_COL_LTR3_VR	COLLECTION LETTER 3	lc003_em_100_02
CNUNCE_PDF_LTR_VR	PAID IN FULL LETTER	lcpdf_em_111_01
CNUNCE_POQ_LTR_VR_02	PAYOFF QUOTE LETTER	lcpoq_em_111_02
CNUNCE_POQ_LTR_VR_01	PAYOFF QUOTE LETTER	lcpoq_em_111_01
CNUNCE_PDC_LTR	PDC RENEWAL LETTER	lcpdc_em_111_01
CNUNCE_RAT_LTR_VR	RATE CHANGE	lcrat_em_111_02
CNUNCE_WEL_LTR_VR	WELCOME LETTER	lswel_em_111_02

## Recipient Details

In the **Recipient Details** section, you can maintain the recipient details to whom the letter should be sent. You can specify the following recipient details:

<b>Field:</b>	<b>Do this:</b>
Recipient	Select the recipient from the drop-down list. The list displays the following options: <ul style="list-style-type: none"><li>- Applicant</li><li>- Customer</li><li>- Producer</li><li>- Others</li><li>- Business</li></ul>
Customer Type	This field is enabled if you has selected the recipient as 'Customer'. Select the type of customer relation from the drop-down list. The list is populated with all the customer relations linked to the account.
Mode	Select the mode of correspondence from the drop-down list. The list displays the following options: <ul style="list-style-type: none"><li>- Fax</li><li>- Email</li></ul>
Type	Based on the recipient selected, the following type of correspondence is listed for selection:  When the recipient is selected as <b>Customer / Producer</b> , the Type is defaulted as 'Email' and associated email ID is selected for correspondence. You can also change the Type to 'Adhoc' and specify the required email ID.  When the recipient is selected as 'Others' you can specify the email ID in Type field for correspondence.
FAX/Email	View the auto populated FAX/Email details or select from the drop-down list.  Email and Fax details are auto populated if the recipient is selected as Customer / Producer / Business and the 'Mode' and 'Type' is selected as EMAIL.
Comments	Specify additional information as comments.

3. In the Recipient Details section, click **Save**.
4. Click **Send** to email the correspondence details to the specified recipients.  
System validates the correspondence details and generates a PDF document through BI Publisher with the Correspondence details. The same is emailed to the specified

recipient as an attachment and a system generated comment is updated in 'Comments' Tab. The correspondence consists of following header details:

Alert	Type & Subtype	Comment	Comment By	Comment Date
N	System Generated	<Type> <Correspondence type> sent to <Recipient Type> through < Mode> to <'Email' id>	Logged in user	Current System date with time stamp

#### 4.5.10.1 Servicing: Welcome letter

The predefined loan Welcome letter is automatically sent a configurable number of days after an account is activated after the loan origination process.

The Welcome letter is available for loans (fixed and variable rate).

##### To generate the Welcome letter

1. Open the Customer Service screen and load the account you want to work with.
2. Click the **Customer Service** tab, then click **Letters** sub tab.
3. On the **Letters** section, select **Welcome Letter**.
4. Click **View Letter** to generate Welcome Letter - 3.

Confirm Information Letter

Phone:  
Fax:  
Date: 10/10/2013

Dear ,

Thank you for selecting as your lending source. To provide you with the best possible service, we would like to confirm some of the information on your contract.

Account number:  
First payment date:  
Monthly payment amount:  
Number of payments:

In the event that you do not receive your payment information prior to your first payment being due, please use the coupon provided below. Should you have any questions regarding your account, please contact us at .

Once again, thank you for selecting as your lender.

Sincerely,

Account Name	Account#	Due Date	Amount Due
1			

Mail payment to:

#### 4.5.10.2 Servicing: Paid in Full letter

The predefined Paid in Full letter is automatically sent a configurable number of days after an account is fully paid off on the Customer Service screen.

The Paid in Full letter is available for loans.

**To generate the Paid in Full letter**

1. Open the Customer Service screen and load the account you want to work with.
2. Click the **Customer Service** tab, then click **Letters** sub tab.
3. On the **Letters** section, select **Paid in Full Letter**.
4. Click **View Letter** to generate Paid in Full Letter.

**Payoff Letter**

**Phone:**

**Fax:**

**Date:** 10/10/2013

**Name:**

**Account number:**

**Collateral:**

This letter is to inform you that a payoff was received on the above mentioned account. This loan now shows a zero balance. Please file this letter as evidence that the loan obligation that it references has been satisfied.

We want to take this opportunity to thank you for your business. If we can ever be of service in the future, please do not hesitate to contact us at .

#### 4.5.10.6 Servicing: Rate Change Intimation Letter

For line of credits with interest rates based on index- it is standard practice to inform the borrower about upcoming interest rate changes due to a change in the rate index. Oracle Financial Services Lending and Leasing can print pre-rate change intimation letters both automatically and manually. The Rate Change Intimation letter informs borrowers that their rate index has changed. All borrowers with the changed index may receive a rate revision on the extn rate change, which is due after X days (X is a company parameter that can be set with pre-process days).

The Rate Change Intimation letter is available only for variable rate line of credits.

#### To generate the Rate Change Intimation letter

1. Open the Customer Service screen and load the account you want to work with.
2. Click the **Customer Service** tab, then click **Letters** sub tab.
3. On the **Letters** section, select **Rate Change Intimation Letter**.
4. Click **View Letter** to generate Rate Change Intimation Letter .

#### 4.5.11 Document Tracking sub tab

You can view the documents attached to a particular account by loading the account on **Customer Service** screen, then clicking the **Document Tracking** sub tab. You can also open the Document Tracking screen and select from a list of all accounts with documents attached on the Document Tracking screen.

#### To use the Document Tracking screen

1. Open the **Customer Service** screen and load the account you want to work with.

2. Click the **Customer Service** tab, then click **Document Tracking** sub tab.

3. In the **Documents** section, select the document you want to view and view the following information:

In this field:	Do this:
<b>Document Type</b>	View the document type.
<b>Comment</b>	Specify comment.

4. In the **Account Document Details** section, select the document you want to view and click **Show** in the **Details** column.
5. In the **Account Document Details** section, click **View** to view the following information:

In this field:	Do this:
<b>Document Type</b>	View the document type.
<b>Document Sub Type</b>	View the document sub type.
<b>Version</b>	View the version. Version numbers will be incremental by batch job, first version will start with 1.0.
<b>Page #</b>	View the page number. In multiple paged documents, choose <b>1</b> in the <b>Page #</b> field on <b>Account Document Details</b> section to view all the pages in the document.  Choose a specific page number to view only that page.

In this field:	Do this:
<b>Document File Type</b>	View the document file type.
<b>Status</b>	View the status of the document.
<b>Tracker #</b>	View the tracking number of the document.
<b>Docket #</b>	View the docket number of the document.
<b>Location</b>	View the location of the document.
<b>Received Dt</b>	View the received date of the document.
<b>Effective Dt</b>	View the effective date of the document.
<b>Expiry Dt</b>	View the expiration date of the document.
<b>Comment</b>	Specify comment.

6. Click **View Document**. The system opens a **File Download** dialog box.
  - Click **Open** to view the document in the browser screen
  - or–
  - Click **Save** to download the document to a location of your choice.
7. If you want, add comments to the **Comments** field in the **Documents** and **Account Document Details** sections.
8. Save your entry.

#### 4.5.12 **Scenario Analysis sub tab**

Oracle Financial Services Lending and Leasing enables you to reschedule customer payments with the Customer Service screen's Scenario Analysis screen. You can simulate new payment schedule based on the customer's request and also post the new schedule changes on to the linked Account.

##### **To use the Scenario Analysis screen**

1. Open the **Customer Service** screen and load the account you want to work with.

2. Click the **Customer Service** tab, then click **Scenario Analysis** sub tab.

You can use the Scenario Analysis screen to calculate a change in the account's

- Principal payment amount
- Term
- Balloon payment amount

Following are the options in Scenario Analysis screen:

- Clicking 'Initialize' button clears the field values.
- Clicking 'Import Values' button defaults the values from Account Details to scenario analysis screen.
- Clicking 'Calculate' button calculates values based on specified parameters.
- Clicking 'Post To Account' post the rescheduled payment changes on to linked account (applicable to 'Calculate Payment' option only).

On determining the new payment schedule based on the customer's request you can click Post to Account to replace existing schedule and update the account with new calculated amount.

The posted transaction can also be reversed in the Transactions screen (Customer Service > Transactions tab).

#### 4.5.13 Access History

The Access History tab in Customer Service screen displays the list of users who have accessed a particular account in Oracle Financial Services Lending and Leasing application.

Irrespective of the action performed on the account or the way through which the account is accessed such as using search, queue/conditions, review requests and so on, system records every access and displays the user details in 'Account Access History' section.

Starting with the last user, the Account Access History section displays the list in descending order along with their logged-in User ID (Accessed By), date and time (Access Dt) of login in separate columns.

## To view the account access history

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click the **Customer Service** tab, then click **Access History** sub tab.

You can click  (refresh) to fetch the latest data.

## 4.6 Customer Service screen's Account Details tab

Open the **Customer Service** screen and load the account you want to work with. Click the **Account Details** tab to view the sections under it.

### 4.6.1 Account Details sub tab

Oracle Financial Services Lending and Leasing enables you to view account details using Account Details sub tab. In addition, you can use this screen to derive various account level business specific calculations and populate the computed values into the custom user defined fields.

#### Calculate Parameters

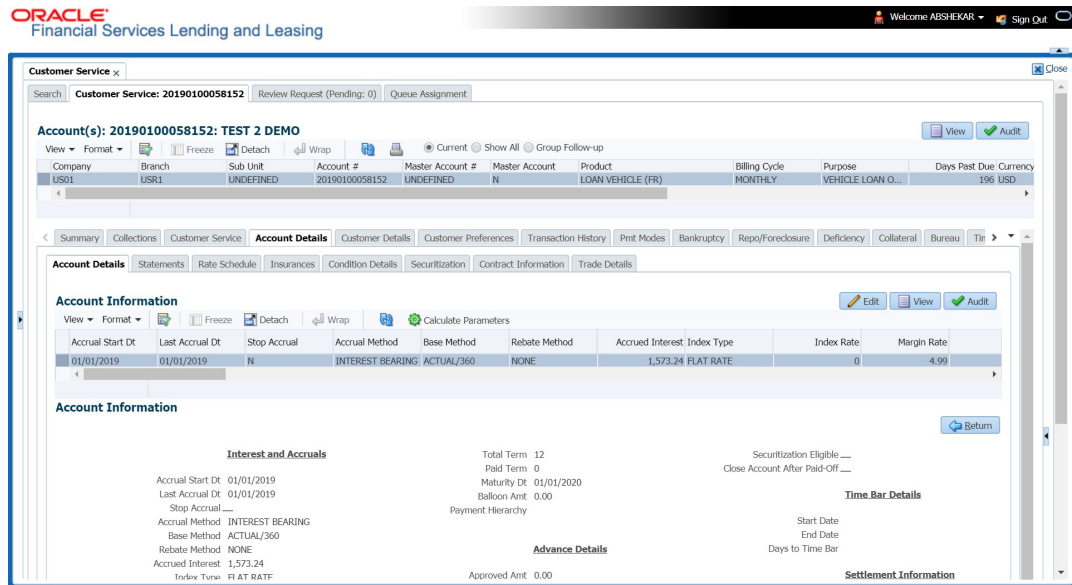

The 'Calculate Parameters' button is available in the Account Information header and clicking on it populates or refreshes the computed values in the custom user defined fields.

However, for system to populate data in custom fields, the following setup is required:

- The custom user defined fields have to be enabled in Setup > Administration > User > Access > 'Field Access Definition' tab.
- User access to these custom fields are to be granted in 'Security User Access Definition Details' sub tab.
- If required, these fields can be customized in the 'Label Configuration' tab in Setup > Administration > System > Label Configuration screen.
- Further, the custom fields are to be configured to compute specific business calculations at Account level in Setup > Administration > System > User Defined Parameters screen.

For more information, refer to specific section in Setup guides.

In the **Account Information** section click **View**.

View the following information for Loan servicing product.

In this field:	View this:
<b>Interest and Accruals section</b>	
<b>Accrual Start Dt</b>	The accrual start date.
<b>Last Accrual Dt</b>	The last accrual date
<b>Stop Accrual</b>	If selected, indicates that the accrual has been stopped for the account.
<b>Accrual Method</b>	The accrual method.
<b>Base Method</b>	The base method.
<b>Rebate Method</b>	The rebate method.
<b>Index Type</b>	The index type.
<b>Index Rate</b>	The current index rate.
<b>Margin Rate</b>	The current margin rate.
<b>Rate</b>	The current rate. <b>Note:</b> For Islamic products this field is displayed as 'Profit Rate'.
<b>Rate Start of the Year</b>	The start rate of the year.
<b>Last Rate Adj Dt</b>	The last rate adjust date.
<b># of Rate Adjs (Year)</b>	The number of due date changes (year).
<b># of Rate Adjs (Life)</b>	The number of due date changes (life).
<b>Reschedule Method</b>	The reschedule method.

<b>In this field:</b>	<b>View this:</b>
<b>Reschedule Value</b>	The reschedule value.
<b>Extn and Due Dates section</b>	
<b># of Extensions (Year)</b>	The number of times extensions granted (year).

<b>Approved Amount</b>	The approved amount.
<b>Consumed Amt</b>	The consumed.
<b>Remaining Amt</b>	The remaining amount.
<b>Last Advance Amt</b>	The last advance amount
<b>Last Advance Dt</b>	The last advance date
<b>Recourse Details</b> - This section displays the recourse information captured in Origination or the information updated during servicing in the respective Contract screen.	
<b>Recourse</b>	View the recourse indicator. If selected, it indicates that there is a recourse associated with the Loan.
<b>Recourse Type</b>	The recourse type as either 'Partial' or 'Full'.
<b>Recourse Reason</b>	The recourse reason depending on the type of recourse selected.

<b>In this field:</b>	<b>View this:</b>
<b>Recourse Max %</b>	Percentage of recourse allowed.
<b>Recourse Amt</b>	Flat recourse amount allowed.
<b>Cure Letter</b> - This section displays the 'Cure Letter' details if it has been issued on the account on nonconforming to certain terms that are in violation of obligations and which are to be fixed within the time provided in cure letter.	
<b>Start Date</b>	Displays the start date mentioned in Cure letter.
<b>Expiry Date</b>	Displays the date when the Cure notice expires.
<b>Others</b>	
<b>Statement Consolidation</b>	<p>View the statement Consolidation indicator propagated from Origination &gt; Funding screen or updated by posting <a href="#">Master Account - Statement Consolidation Indicator Maintenance</a> non monetary transaction.</p> <p>If checked, indicates that system generates consolidated billing statement at Master Account level along with details of all the associated accounts.</p> <p>If unchecked, system generates billing statement to only current account.</p>
<b>Time Zone</b>	Customer's time zone.
<b>Linked Account</b>	<p>The linked account number propagated from Origination after funding the application.</p> <p>Also the Linked account Xref Number or Linked account Number sent as pat of Account Boarding will be updated at Linked account.</p> <p>This field can also be updated by posting non-monetary transaction. For more information, refer to '<a href="#">Linked Account Maintenance</a>' section.</p>
<b>Securitization Eligible</b>	View the Securitization Eligible Indicator. If checked, indicates that the account is eligible for securitization.
<b>Close Account After Paid-Off</b>	<p>If checked, indicates that the account is allowed to be closed once the account is paid off i.e. system closes the account after the number of days specified in the system parameter has elapsed.</p> <p>If not checked, indicates that system does not close the account even if the account is paid off i.e. system keeps the accounts active so that the equity can be traded with other accounts. For information on accounts trading, refer to 'Appendix - Trading of Accounts' chapter.</p>

In this field:	View this:
<p><b>Statement section</b></p> <p>This section display the preferences for Mock Statement generation at Master Account level. The details here are propagated from Origination &gt; Contract screen and can be updated using maintenance transaction. For more details, refer to '<a href="#">Mock Statement Maintenance</a>' section in Appendix chapter.</p>	
<p><b>Stmt preference mode</b></p>	<p>The account statement preference mode (Email or PHYSICAL) as defined in Origination &gt; Contract screen is displayed here.</p>
<p><b>Mock Statement Req</b></p>	<p>If checked, indicates that account is to be included in Mock statement Generation. Based on this selection, others fields related to Mock Statement below are enabled.</p>
<p><b>Mock Statement Run Date Next</b></p>	<p>The next date when Mock Statements is generated.</p> <p><b>Note:</b> While generating Mock Statement, system considers the 'Mock Statement Date' and 'Pre Bill Days' to generate the next Mock Statement Run Date. In case the Mock Statement Next Run Date is less than Contract Date or GL Date which does not match the criteria, system moves the Mock Start Date to same month of next year. For more details, refer to '<a href="#">Mock Statement Maintenance</a>' section in Appendix chapter.</p>
<p><b>Mock Statement Cycles</b></p>	<p>The total number of billings (between 1-12) that are to be generated post Mock Statement Start Date.</p>
<p><b>Mock Pre Statement Days</b></p>	<p>The number of Pre bill days for Mock Statements generation.</p>
<p><b>Settlement Information</b> - System displays the account settlement details when the 'Account Settlement Transaction' is posted.</p>	
<p><b>Effective Dt</b></p>	<p>View the settlement agreement start date.</p>
<p><b>Good Through Dt</b></p>	<p>View the settlement agreement expiry date.</p>
<p><b>Agreed Amt</b></p>	<p>View the settlement amount agreed by customer to the lender.</p>
<p><b>Paid Till Dt</b></p>	<p>View the total amount paid by the customer and allocated to account balances during the agreed period (between effective date and Good through date).</p> <p>System computes the total of all Good payment amounts received between 'effective date' and 'good through date' and displays total amount paid only after the batch (ACCOUNT SETTLEMENT PROCESSING) is executed.</p>

<b>In this field:</b>	<b>View this:</b>
<b>Payment Mode</b>	View the type of repayment mode auto updated with one of the following options: <ul style="list-style-type: none"> <li>- INSTITUTION DRAFT / CHECK</li> <li>- AUTOPAY (ACH)</li> <li>- AUTOPAY (CREDIT CARD)</li> <li>- AUTOPAY (DEBIT CARD)</li> <li>- POST DATED CHECKS</li> </ul> For an active Recurring ACH record, the payment mode is selected as AUTOPAY.
<b>Custom Fields</b> - This section displays the custom User Defined Fields if enabled in Setup and if configured, populates specific business computation values on clicking 'Calculate Parameters' button.	

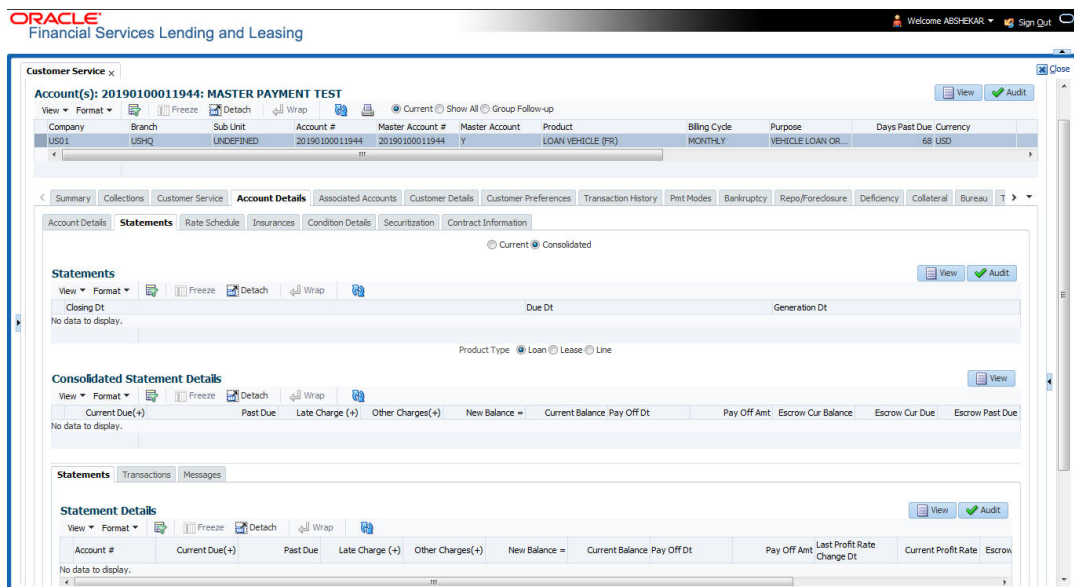

#### 4.6.2 Statements sub tab

The Statements sub tab facilitates to view the list of statements generated for the account till date. In case of Master Account, you can view the list of consolidated statement of Master Account along with the associated accounts.

The Statements sub tab contains Statements, Transactions, and Messages sections. The **Statements** section displays a list of all statements generated during life of the account. The **Transaction** section displays monetary transactions applied to the account from closing date of the previous statement through closing date of the current statement. The **Messages** section displays user-defined message that appears in the statement.

##### To view the Statements screen

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click the **Account Details** tab, then click **Statements sub tab**.

3. Select either 'Current' or 'Consolidated' option.

Note the following:

- The 'Current' or 'Consolidated' option is available only for Master Account to filter and view the list of statements for current Master Account and consolidated statements of Master Account and Associated Accounts.
- On selecting 'Consolidated', an additional section 'Consolidated Statement Details' is enabled to display the list of consolidated statements for Associated Accounts having the 'Statement Consolidation' flag enabled in Account details.
- By default, only those accounts having the same currency of Master Account are displayed.
- The consolidated Account statements associated for each Master Account is generated on executing the batch job MASTER ACCOUNT STATEMENTS GENERATION in batch job set SET-ODD2.

4. In the **Statements** section, click **View**.

View the following information:

In this field:	View:
<b>Closing Dt</b>	The statement closing date.
<b>Due Dt</b>	The statement due date.
<b>Generation Dt</b>	The statement generation date.

5. In the **Consolidated Statements Details** section, select Loan / Line / Lease option to group and view the consolidated statements based on Product/Funding type. The default Product type is Master Account Product type.

6. Click **View** and view the following information:

In this field:	View:
<b>Current Due (+)</b>	The current due.
<b>Past Due (+)</b>	The past due amount.
<b>Late Charge (+)</b>	The late charge due.
<b>Other Charges (+)</b>	The other charges due.
<b>New Balance =</b>	The new balance.
<b>Current Balance</b>	The current balance.
<b>Pay Off Dt</b>	The payoff date.
<b>Pay Off Amt</b>	The payoff amount.
<b>Escrow Current Balance</b>	The current escrow balance.
<b>Escrow Current Due</b>	The current escrow due.
<b>Escrow Past Due</b>	The past due escrow amount.

7. In the **Statements Details** section, select the statement and click **View**.

View the following:

<b>In this field:</b>	<b>View:</b>
<b>Account #</b>	The Customer Account number.
<b>Current Due (+)</b>	The current due.
<b>Past Due (+)</b>	The past due amount.
<b>Late Charge (+)</b>	The late charge due.
<b>Other Charges (+)</b>	The other charges due.
<b>New Balance =</b>	The new balance.
<b>Current Balance</b>	The current balance.
<b>Pay Off Dt</b>	The payoff date.
<b>Pay Off Amt</b>	The payoff amount.
<b>Profile Rate section</b>	
<b>Last Profit Rate Changed Dt</b>	The latest date on which the profit rate was changed.
<b>Current Profit Rate</b>	The current profit rate.
<b>Escrow</b>	
<b>Current Balance</b>	The current escrow balance.
<b>Current Due</b>	The current escrow due.
<b>Past Due</b>	The past due escrow amount.

8. Click **Transactions** sub tab and click **View**

9. View the following information:

<b>In this field:</b>	<b>View:</b>
<b>Account #</b>	The Customer Account number.
<b>Txn Dt</b>	The transaction effective date.
<b>Transaction Type</b>	The type of transaction.
<b>Amount</b>	The transaction amount.

Click **Messages** sub tab and click **View**.

10. View the following information:

<b>In this field:</b>	<b>View:</b>
<b>Account #</b>	The Customer Account number.
<b>Sequence</b>	The sequence number.

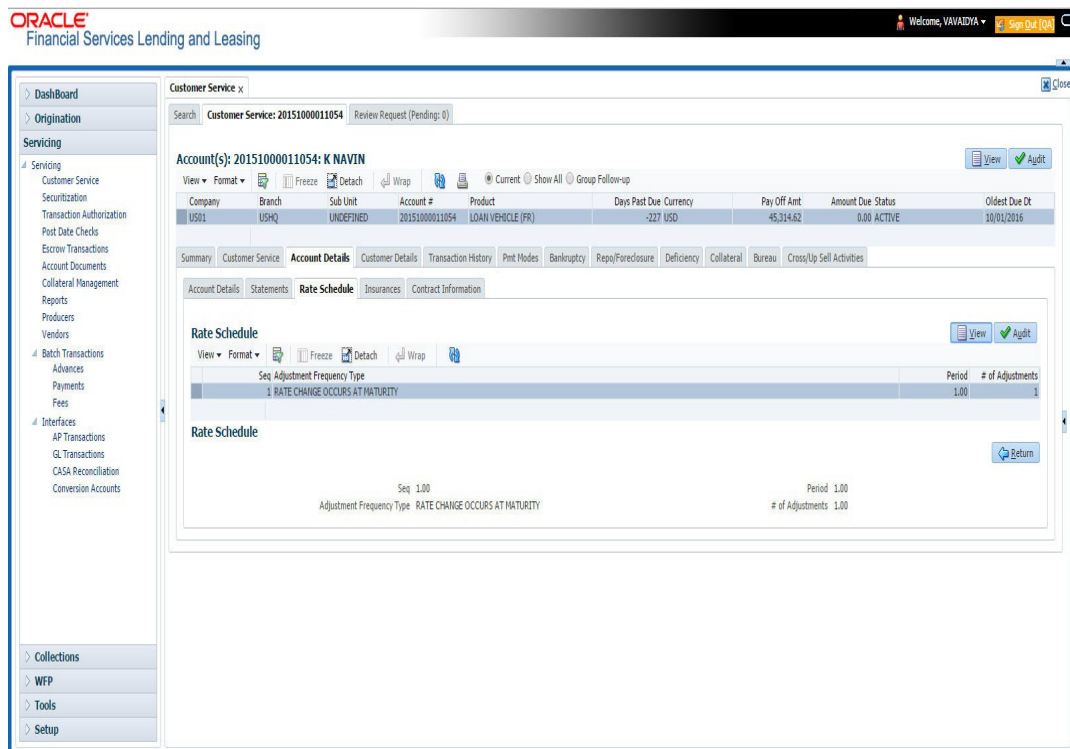

<b>In this field:</b>	<b>View:</b>
<b>Message</b>	The message.

### 4.6.3 Rate Schedule sub tab

The **Rate Schedule** section contains information about rate adjustments, such as the sequence and number of adjustments.

#### To view the Rate Schedule screen

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click the **Account Details** tab, then click **Rate Schedule** sub tab.

The **Rate Schedule** section only applies to variable rate loans.

3. In **Rate Schedule** section, click View.
4. View the following information:

<b>In this field:</b>	<b>View this:</b>
<b>Seq</b>	The sequence number for rate adjustment.
<b>Adjustment Frequency Type</b>	The rate adjustment frequency type.
<b>Period</b>	The rate adjustment period for the frequency.
<b># of Adjustments</b>	The number of rate adjustments for the frequency.

## 4.6.4 Insurances sub tab

If insurance information was entered on Funding screen during Loan origination, you can view financed insurance information on the **Customer Service screen's Insurances** screen. The Insurances screen displays the details of all financed insurances, including cancellation and refund information whenever applicable. It also displays the insurances that were financed after funding of Loan using the **Customer Service screen's Maintenance** screen.

### To view the Insurances screen

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click the **Account Details** tab, then click **Insurances** sub tab.

3. On the **Insurances** screen, view the following information in **Insurance Information** section:

In this field:	View:
<b>Contractual</b>	If selected, indicates that the insurance policy is required by contract.
<b>Insurance Type</b>	The insurance type.
<b>Company</b>	The insurance company.
<b>Policy#</b>	The insurance policy number.
<b>Effective Dt</b>	The insurance effective date.
<b>Premium Amt</b>	The insurance premium amount.
<b>Term</b>	The insurance term.
<b>Status</b>	The insurance status.

Click **View** and view the following information:

<b>In this field:</b>	<b>View:</b>
<b>Policy Information section:</b>	
<b>Contractual</b>	If selected, indicates that the insurance policy is required by contract.
<b>Insurance Type</b>	The insurance type.
<b>Insurance Plan</b>	The insurance plan.
<b>Company</b>	The insurance company.
<b>Policy#</b>	The insurance policy number.
<b>Effective Dt</b>	The insurance effective date.
<b>Premium Amt</b>	The insurance premium amount.
<b>Commission Rule</b>	The rule of commission.
<b>Primary Beneficiary</b>	The primary beneficiary of the insurance.
<b>Secondary Beneficiary</b>	The secondary beneficiary of the insurance.
<b>Status</b>	The status.
<b>Sub Status</b>	The sub status.
<b>Insurance Mode</b>	The insurance mode.
<b>Phone</b>	The insurance company's primary phone number.
<b>Phone 2</b>	The insurance company's alternate phone number.
<b>Itemization</b>	The contract itemization.
<b>Expiry Dt</b>	The insurance expiry date.
<b>Term</b>	The term of insurance.
<b>Commission Amt</b>	The insurance commission amount.
<b>Comments</b>	The comments regarding the insurance policy.
<b><u>Cancellation/Refund section:</u></b>	
<b>Policy Cancellation Dt</b>	The insurance cancellation date.
<b>Refund Allowed</b>	If selected, a refund is allowed. A selected box indicates that the insurance premium can be rebated to the customer in case of early payoff.
<b>Grace Days Cancellation Fee Allowed</b>	If selected, indicates that cancellation fees during grace period is allowed.
<b>Cancellation Fees</b>	View amount of the cancellation fee to be charged when the insurance is cancelled.

<b>In this field:</b>	<b>View:</b>
<b>Complete Refund</b>	If selected, a complete refund is allowed.
<b>Term Remaining</b>	The remaining term on the insurance at cancellation.
<b>Refund Calculation Method</b>	The refund calculation method.
<b>Grace Days</b>	View the number of grace days allowed for cancellation without charging a cancellation fee.
<b>Estimated Refund Amt</b>	The estimated insurance refund.
<b>Received Refund Amt</b>	The insurance refund received.
<b>Itemization</b>	The contract itemization.
<b>Deduct Fee From</b>	View the option defined in setup screen (Setup > Administration > Products > Insurances) to deduct the cancellation fee.  'Premium Amount' indicates fee is deducted upfront before computation and 'Rebate Amount' indicates fee is deducted after computation.

4. In the **Insurance Tracking** section, click **Create Tracking**. The system loads insurance tracking parameters in the Insurance Tracking section.
5. If you want to reduce the list of parameters, select a sub attribute in the unlabelled Sub Attribute box next to Create Tracking button.  
If your system has been configured to use the Sub Attribute field, only attributes in a particular group appear in the parameter display.
6. Click **Edit** and complete the **Parameter** and **Value** fields.
7. Click **Save**.

#### **4.6.5 Condition Details sub tab**

The Customer Service screen's Condition Details tab displays the detailed log report of Account Vs Queue configuration changes i.e. every time an account has been changed from one queue/user/condition to another.

##### **To view Condition Details**

1. Open the **Customer Service** screen and load the account you want to work with.

## 2. Click **Account Details** tab, then click **Condition Details** sub tab.

The Condition Details tab is further categorized into following sections:

- Condition/Queue
- Condition/Queue History

### **Condition/Queue**

The Condition/Queue section displays the closed Conditions, Queues and User changes which were defined initially and later re-assigned to different Queues with Hard Assigned Users.

A current active Condition can be opened in any of the following cases:

- When a Call Activity is posted with Conditions on account
- When Conditions are posted by specific batch events
- When Conditions are posted by specific transactions (For example, Borrower on Military duty)

The Condition/Queue section displays the following information:

- User (Current Queue Assigned User If any)
- Responsibility (Current User Responsibility)
- Account Condition
- Queue Description
- Condition Start Dt
- Queue Start Dt
- User Start Dt

### **Condition/Queue History**

The Condition/Queue section displays only the closed Conditions which were defined on the account and later was re-assigned to different Queues with Hard Assigned Users.

The Condition/Queue History section displays the following information:

- User (Old Queue Assigned User If any)
- Responsibility (Old User Responsibility)
- Account Condition
- Queue Description

- Start Date
- End Date
- Changed Date
- Change Reason
- Reason (specified in Queue Assignment tab)

In the Condition/Queue History section, select the required record and click 'View'.

#### 4.6.6 Securitization Sub Tab

The Securitization sub tab enables you to view the various Pool details of that account. A securitization pool is considered as 'Super Pool' when it is sold (i.e. status of pool is SOLD). If a Super Pool is not assigned to a pool, the 'Super Pool' details are displayed as 'Undefined' in Securitization sub tab.

When a pool with status NEW or OPEN is linked to a Super Pool and that Pool is sold, then Securitization tab displays the 'Super Pool Id' as existing Pool Id and newly added pool with previous Pool ID.

#### To view the securitization details

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Account Details** tab, then click **Securitization** sub tab.

3. On the **Securitization** sub tab, view the following Securitization details:

Securitization Details	
<b>Super Pool Id</b>	View the Super Pool Id (Sold Securitization Pool). The same is displayed as 'Undefined' if 'Super Pool Id' is not configured for the pool.
<b>Pool Id</b>	The pool ID.
<b>Pool Status</b>	The pool status.
<b>Pool Sale Dt</b>	Pool Sale date.

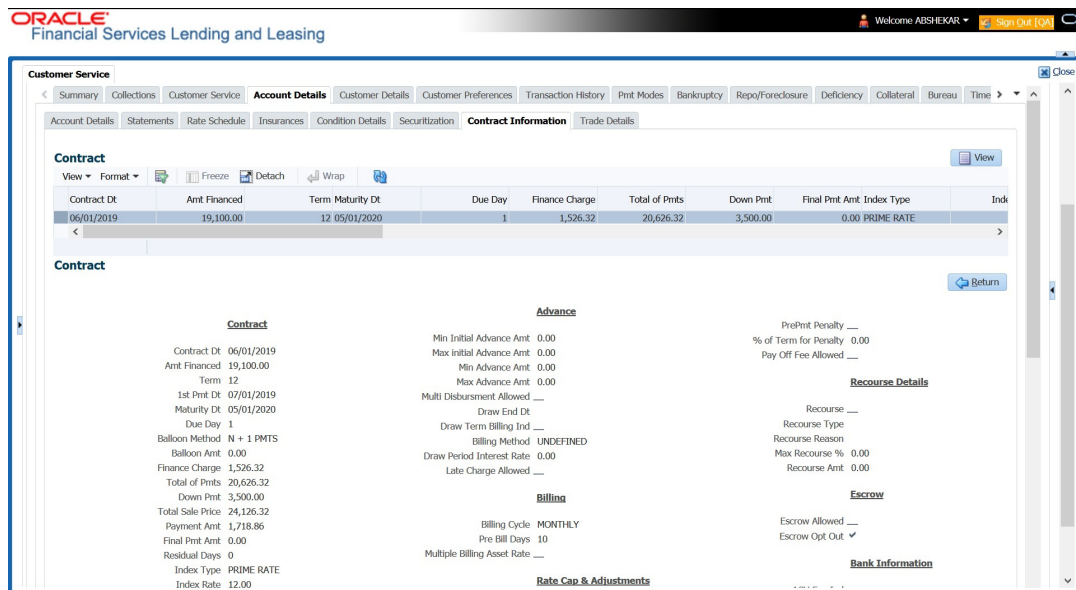

<b>Repurchased</b>	If selected, indicates that it has been repurchased.
<b>Repurchase Dt</b>	The repurchase date.

#### 4.6.7 **Contract Information sub tab**

The Customer Service screen Contract sub tab enables you to view contract and truth-in-lending information recorded during the funding process. It's a display only version of the same information found on the Funding screen's Contract screen.

##### To view an account's contract information

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Account Details** tab, then click **Contract Information** sub tab.

If you selected a Loan account with escrow, Escrow Analysis tab is available.

3. Use the following sub tabs to view more information about the contract, if available:

- Contract
- Repayment
- Itemization
- Trade-In
- Insurances
- ESC
- Escrow
- Escrow Analysis
- Compensation
- Subvention
- Proceeds
- Disbursements
- Fees
- ACH
- Coupon
- PDC

- References
- Real Estate

For more information on the sub tabs of the Contract tab, refer the section Contracts tab in Funding chapter of the Origination User Guide.

#### 4.6.8 Trade Details sub tab

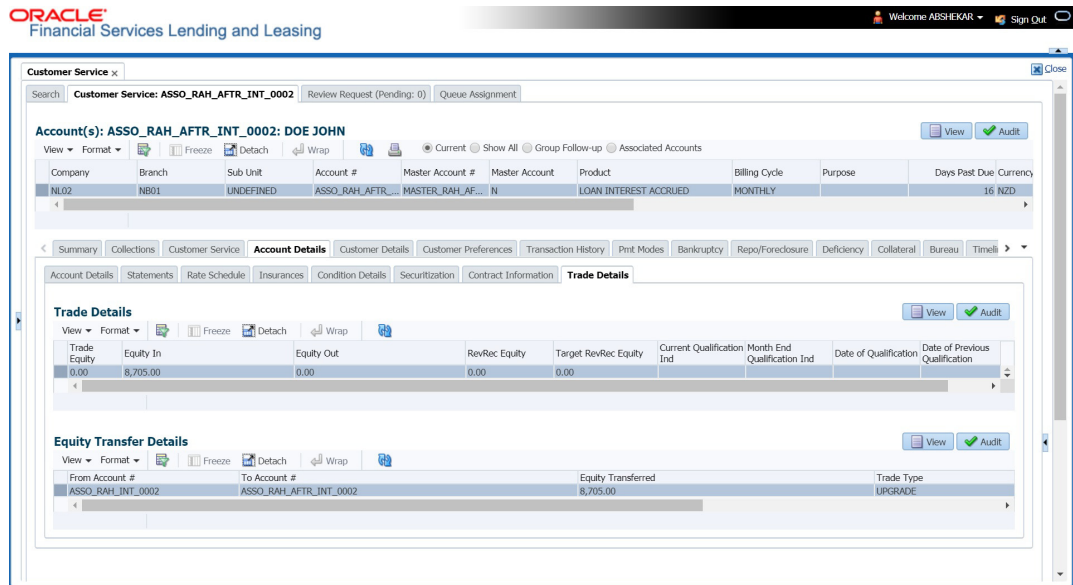

Oracle Financial Services Lending and Leasing provides a end-to-end framework for trading of accounts and transfer of equity from an existing (old) account to a new account. To know in detail about process and workflow, refer to 'Appendix - Trading of Accounts' section.

The Trade Details sub tab in Account Details tab displays account level Trade related information. This is a 'View-Only' screen and consists of the following two sections:

- Trade Details - indicates 'Trade Equity' information with 'Equity In' and 'Equity Out' details of the traded accounts and Revenue Recognition information captured as part of batch job processing.
- Equity Transfer Details - indicates equity transfer between From and To accounts, the 'Equity Transferred' value and 'Status' of Trade.

#### To view the Trade details

1. Open the Customer Service screen and load the account you want to work with.
2. Click Account Details tab, then click Trade Details sub tab.

3. In the Trade Details section, view the following details:

In this field:	View:
Trade Equity	View the value of current Account Trade Equity. This is calculated using the configurable calculation value defined for ACC_EQUITY_AMT in Setup > User Defined Parameters screen. This value is re-calculated during trade transaction.

<b>In this field:</b>	<b>View:</b>
<b>Equity In</b>	View the total of all Equity transferred 'from' different old account(s) contributing to trade.  This field is updated when ' <a href="#">Equity In Transfer Transaction</a> ' is processed during trade.
<b>Equity Out</b>	View the total of all Equity transferred 'to' different new account(s) as part of trade.  This field is updated when ' <a href="#">Equity Out Transfer Transaction</a> ' is processed during trade.
<p><b>The below fields indicate the Revenue Recognition details of the Account and are populated on executing the '<a href="#">Revenue Recognition Processing Batch Jobs</a>'.</b></p> <p><b>Note:</b> In Vacation Ownership Industry, Vendors recognize revenue when equity becomes greater than or equal to threshold value (X)% of net sale price of the asset on the contract. Once the revenue is recognized, Account is marked as Qualified (i.e. Target Revenue is recognized).</p>	
<b>RevRec Equity</b>	View the Account Revenue Recognition Equity Amount. The value is populated based on calculation defined in User Defined Parameters.
<b>Target RevRec Equity</b>	View the Account Target Revenue Recognition Equity Amount. The value is populated based on calculation defined in User Defined Parameters.
<b>Current Qualification Ind</b>	View the Account Revenue Recognition Qualifier indicator. Here 'Y' indicates that the Contract Equity is 'greater than or equal to' Account Revenue Recognition Equity.
<b>Month End Qualification Ind</b>	View the Account Revenue Recognition Qualifier Month End indicator. Here 'Y' indicates that account qualification is required at end of month.
<b>Date of Qualification</b>	View the Account Revenue Recognition Qualifier Date.
<b>Date of Previous Qualification</b>	View the Last Account Revenue Recognition Qualifier Date when the account was previously qualified.

#### 4.6.8.1 Revenue Recognition Processing Batch Jobs

Following are the Revenue Recognition processing batch jobs:

Note that, both the batch jobs picks-up all the accounts only with 'ACTIVE' status, the Trade Equity greater than zero and Master Account indicator set as 'N'.

- DAILY REVENUE RECOGNITION PROCESSING (SET-REV1 Batch Job Set)  
This batch job is processed daily and is used to validate if Account Revenue Recognition Equity is 'greater than or equal to' Target Revenue Recognition Equity. If yes, the Current Qualification Indicator is set to 'Y'. However, the above validation is ignored and Current Qualification Indicator is always set to 'N' if the account is having any condition listed in the lookup code REVREC QUALIFIER EXCLUSION ACCOUNT CONDITION.
- MONTH END REVENUE RECOGNITION PROCESSING (SET-REV2 Batch Job Set)

This batch job is processed monthly and is used to validate the status of 'Account Revenue Recognition Qualifier indicator' and update the following fields as indicated in below table.

- Account Revenue Recognition Qualifier Month End indicator (after month end processing)
- Account Revenue Recognition Qualifier Date
- Last Account Revenue Recognition Qualifier Date

<b>Date of Processing</b>	<b>Account Revenue Recognition Qualifier indicator</b>	<b>Account Revenue Recognition Qualifier Month End indicator (after month end processing)</b>	<b>Account Revenue Recognition Qualifier Date</b>	<b>Last Account Revenue Recognition Qualifier Date</b>
01-Jan-19	N	N		
15-Jan-19	Y	N		
31-Jan-19	Y	Y	31-Jan-19	
01-Feb-19	N	Y	31-Jan-19	
28-Feb-19	N	N		31-Jan-19
01-Mar-19	Y	N		31-Jan-19
31-Mar-19	Y	Y	31-Mar-19	
01-Apr-19	Y	Y	31-Mar-19	
30-Apr-19	Y	Y	31-Mar-19	
01-May-19	N	Y	31-Mar-19	
15-May-19	Y	Y	31-Mar-19	
31-May-19	Y	Y	31-Mar-19	

4. In the Equity Transfer Details section, view the following details:

<b>In this field:</b>	<b>View:</b>
<b>From Account #</b>	Existing (old) account number or Source account number.
<b>To Account #</b>	New account number or Target account number.
<b>Equity Transferred</b>	Value of Equity transferred to new account as part to trade.
<b>Trade Type</b>	Type of Trade transaction processed as one of the following: UPGRADE SPLIT COMBINE  For more details on Trade Type, refer to ' <a href="#">Trade Transaction</a> ' section.

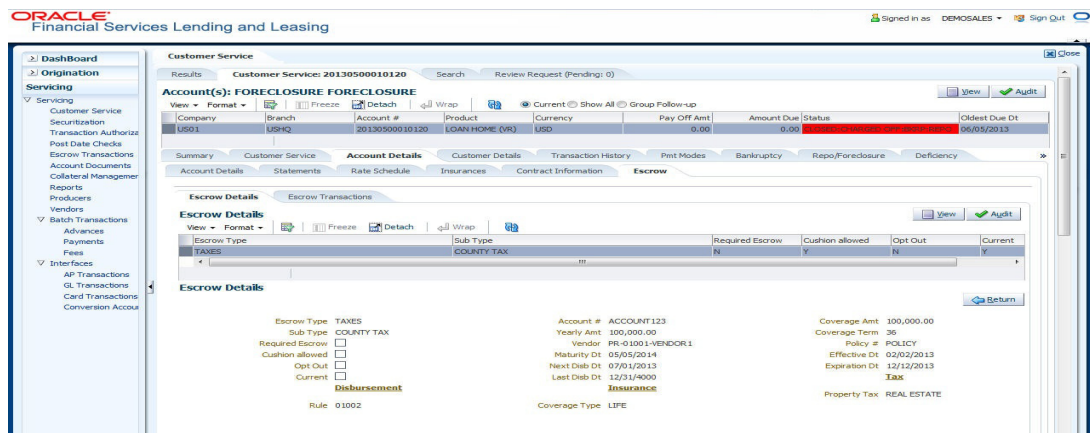

<b>In this field:</b>	<b>View:</b>
<b>Status</b>	Status of Trade transaction processed as one of the following: OPEN COMPLETED FAILED

5. Click  Refresh to update the latest details on screen.

#### 4.6.9 Escrow sub tab

The Escrow sub tab is available only if Escrow is allowed for the account. You can view the Escrow details using the sections in this tab.

1. In **Escrow Details** section, click View

2. View the following information:

<b>In this Field</b>	<b>View this</b>
<b>Escrow Type</b>	The escrow type.
<b>Sub Type</b>	The escrow sub type.
<b>Required Escrow unchecked</b>	If selected, indicates that the escrow is required for the account.
<b>Cushion allowed</b>	If selected, indicates that the cushion is allowed for the account.
<b>Opt Out</b>	If selected, indicates that the escrow is opt out for the account.
<b>Current</b>	If selected, indicates that this is the current record of the escrow.
<b>Disbursement</b>	
<b>Account #</b>	The account number.
<b>Yearly Amt</b>	The yearly amount.
<b>Vendor</b>	The vendor.

<b>In this Field</b>	<b>View this</b>
<b>Maturity Dt</b>	The maturity date.
<b>Next Disb Dt</b>	The next disbursement date.
<b>Last Disb Dt</b>	The last disbursement date.
<b>Insurance</b>	
<b>Coverage Type</b>	The coverage type.
<b>Coverage Amt</b>	The coverage amount.
<b>Coverage Term</b>	The coverage term.
<b>Policy #</b>	The policy number.
<b>Effective Dt</b>	The effective date.
<b>Expiration Dt</b>	The expiration date.
<b>Tax</b>	
<b>Property Tax</b>	The property tax.

3. In **Escrow Transactions** section, click **View**.

View the following information:

<b>In this Field</b>	<b>View this</b>
<b>Post Dt</b>	The post date.
<b>Txn Dt</b>	The transaction date.
<b>Transaction</b>	The transaction.
<b>Txn Amount</b>	The transaction amount.
<b>Details</b>	The details.

## 4.7 Customer Service screen's Associated Accounts tab

The Associated Accounts screen displays all the accounts associated with the selected Master Account in the 'Associated Account Details' section along with a summary of rolled-up balances for the accounts being displayed.

In the 'Associated Account Details' you can use a combination of following type of filters to sort and display the matching account(s).

- **Product Type** - Here you can either select a specific product or select 'All' to display corresponding accounts in combination of Master and associated accounts. However, system defaults this option based on the product type of Master Account.

<b>Command Button:</b>	<b>Action Performed:</b>
<b>Loan</b>	If selected, system filters and displays all Loan accounts associated with Master Account. The 'Summary' section displays consolidated/rolled-up balance of all accounts including Master account if the same is also a 'Loan' account.
<b>Line</b>	If selected, system filters and displays all Line accounts associated with Master Account. The 'Summary' section displays consolidated/rolled-up balance of all accounts including Master account if the same is also a 'Line' account.
<b>Lease</b>	If selected, system filters and displays all Lease accounts associated with Master Account. The 'Summary' section displays consolidated/rolled-up balance of all accounts including Master account if the same is also a 'Lease' account.
<b>All</b>	If selected, system displays all accounts associated with Master Account of same currency. The 'Summary' section displays consolidated/rolled-up balance of all accounts including Master account.

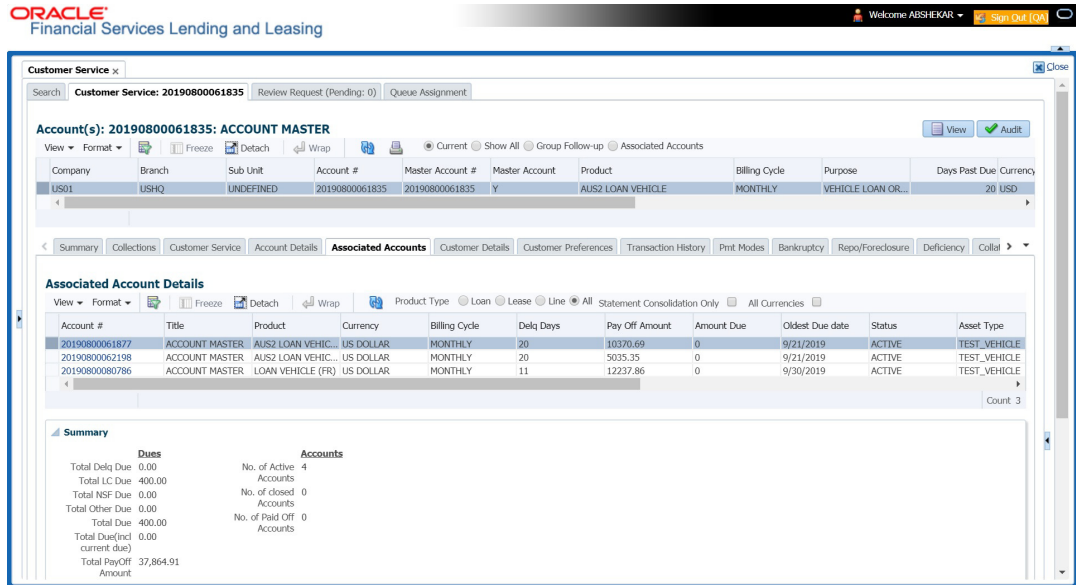

- **Statement Consolidation Only** - If check box is selected, system filters and displays ALL or Product Type specific accounts having the Statement Consolidation indicator enabled. The 'Summary' section displays consolidated/rolled-up balance of all displayed accounts including Master account if the same also has the statement consolidation indicator enabled.
  - By default this check box is not selected and system displays ALL/selected Product Type irrespective of the Statement Consolidation indicator (Enabled or Disabled).
- **All Currencies** - By default, system displays only those accounts having the same currency as that of Master Account. Clicking on this check box displays all the accounts associated with Master Account irrespective of the currency with which the account is operated. Also if checked, only the Accounts counters are updated in 'Summary' section and Dues are reset to zero.

At the bottom of the grid, you can view the Count with total number of records displaying in Associated Account Details.

### **To view associated account details**

1. Open the **Customer Service** screen and load the account you want to work with.

2. Click 'Associated Accounts' sub tab.

A brief description of 'Associated Account Details' are given below:

In this field:	View this:
<b>Account #</b>	The account number. Clicking on the hyperlink opens the respective account in Customer Servicing screen.
<b>Title</b>	The title of the account.
<b>Product</b>	The type of product associated with the account.
<b>Currency</b>	The disbursement currency.
<b>Billing Cycle</b>	The billing frequency.
<b>Delq Days</b>	The number of days the account has been delinquent.
<b>Pay Off Amount</b>	The total pay off amount on the account.
<b>Amount Due</b>	The total amount due on the account.
<b>Oldest Due Dt</b>	The oldest payment due date on the account.
<b>Status</b>	The status of the account.
<b>Asset Type</b>	The type of asset associated with the account.
<b>Asset Sub Type</b>	The asset sub type.
<b>Collateral Description</b>	Details of primary collateral associated with account. In case of Home Collateral, no Collateral Description is displayed.
<b>Identification #</b>	The identification number of the asset.
<b>Company</b>	The portfolio company.

<b>In this field:</b>	<b>View this:</b>
<b>Branch</b>	The portfolio branch.
<b>Statement Consolidation</b>	If checked, this account will be part of Consolidated 'MASTER CUSTOMER/BUSINESS STATEMENT' generated at Master Account. Else, this account is not included in Consolidated 'MASTER CUSTOMER/BUSINESS STATEMENT'.
<b>Linked Account</b>	The linked Account number.  The same is displayed as UNDEFINED if the account is neither marked as 'Master Account' nor 'Linked to Existing Associated Account'.

The 'Summary' section displays the rolled-up balances of the following fields in all accounts displayed:

<b>In this field:</b>	<b>View this:</b>
<b>Dues section</b> - This section displays the total number of accounts available for the selected filter combination of Master and Associated accounts.	
<b>Total Delq Due</b>	The total of delinquent amount due on all the filtered accounts at Associated Account Details tab.
<b>Total LC Due</b>	The total non-sufficient fee due amount on all the accounts.
<b>Total NSF Due</b>	The total of non-sufficient funds fee due on all the accounts.
<b>Total Other Due</b>	The total of any other dues pending on all the accounts.
<b>Total Due</b>	The total of all dues including payment amount and all applicable fees on all the accounts.
<b>Total Due (incl current due)</b>	The total of additional due of current month (included based on pre-bill days) on all accounts.
<b>Total PayOff Amount</b>	The total amount payable by the borrower of all accounts if the same is to be paid off as per the current date.
<b>Accounts section</b> - This section displays the total number of accounts available for the selected filter combination of Master and Associated accounts.	
<b>No. of Active Accounts</b>	Total Number of Active accounts.
<b>No. of closed Accounts</b>	Total Number of Closed accounts.
<b>No. of Paid Off Accounts</b>	Total Number of Paid Off accounts.

## 4.8 Customer Service screen's Customer/Business Details tab

Open the **Customer Service** screen and load the account you want to work with. Click the **Customer/Business Details** tab to view the sections under it.

If the selected account belongs to an individual Customer, this tab is displayed as 'Customer Details' and if there is no customer linked and only a business is involved in the account, this tab is displayed as 'Business Details'. In case both Customer and Business are involved in the account, this is still displayed as 'Customer Details tab' and both the sub tabs 'Customer' and 'Business' are displayed.

Customer/Business Details screen displays the information gathered on application entry process regarding the customer and customer's address, employment data, phone numbers and credit score. Using this screen, you can update or add to a customer's address, employment information, or phone listing. Whenever you add or edit the details, a system generated comment will be posted in the account to keep record of old and new details.

Note that the 'Edit' option on this screen has user level security defined and based on your responsibility, you can either edit a few or all of the fields. The difference is that, you may either have access to edit only non-PII (Personal Identifiable Information) fields or edit all possible fields as per the customer maintenance transaction.

The list of possible editable fields in both these scenarios is given below:

<b>Edit non-PII fields</b>	<b>All editable fields</b>
Marital Status	Birth Date
Language	Marital Status
Education	Language
Mother's Maiden Name	Education
Class Type	Mother's Maiden
Email	Class Type
Stop Correspondence	Email
Disability	Stop Correspondence
Skip	Disability
Privacy opt out	Skip
Existing CIF	Privacy Optout
	Existing CIF
	Identification Details like
	Passport
	Issue Date
	Expiry Date

Edit non-PII fields	All editable fields
	Visa #
	Nationality
	National ID
	SSN
	License #
	License State

#### 4.8.1 Customer sub tab

Using the Customer sub tab, you can view and update the existing Customer details. When an existing record is updated and saved, the same becomes the current/primary details of the customer and the current indicator is set to 'Y' by default. In such a case, the previous customer details are disabled (set to N). You can select the 'Show All' check box in Customer Information section to view the disabled records along with current record.

#### To view or edit customer information

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Customer Details** sub tab.

3. In the **Customer Information** section, click 'Edit'. You can also perform any of the [Basic Operations](#) mentioned in Navigation chapter. A brief description of the fields are given below:

In this field:	View this:
<b>Customer Information section</b>	
<b>Customer #</b>	Customer number.
<b>Relation</b>	Customer 's relation with the bank.
<b>ECOA</b>	The Equal Credit Opportunity Act code.

<b>In this field:</b>	<b>View this:</b>
<b>Name</b>	Customer's name.
<b>Birth Dt</b>	Customer's date of birth.
<b>Marital Status</b>	Customer's marital status.
<b>Enabled</b>	Status of the account.
<b>Language</b>	Customer's language.
<b>Education</b>	Customer's education.
<b>Mother's Maiden Name</b>	Customer's mother's maiden name.
<b>Class Type</b>	Customer's class type.
<b>Email</b>	Customer's e-mail address.
<b>Stop Correspondence</b>	Customer's stop correspondence indicator. If selected, this indicates that the system will not send the customer any correspondence, such as monthly statements. This is selected using the Maintenance screen.
<b>Disability</b>	Customer's disability indicator.
<b>Skip</b>	Customer's skip indicator. If selected, this indicates that the customer is a skip debtor. This is selected using the Maintenance screen.
<b>Bankruptcy</b>	Customer's bankruptcy indicator.
<b>Privacy Opt-Out</b>	Privacy opt-out indicator. If selected, indicates that the applicant has elected to refrain from the non-public sharing of information.
<b>Insurance Opt Out</b>	Insurance Opt Out indicator. If selected, indicates that the applicant has elected to refrain from insurance related inquiries.
<b>Marketing Opt Out</b>	Marketing Opt Out indicator. If selected, indicates that the applicant has elected to refrain from marketing related inquiries.
<b>Share Credit Opt Out</b>	Share Credit Opt Out indicator. If selected, indicates that the applicant has elected to refrain from financial information and share credit related inquiries.
<b>Existing CIF</b>	If selected, indicates that the customer is an existing CIF.
<b>Update Customer Info</b>	If selected, indicates that the system was allowed to override the existing customer information with the latest address and communication details during account creation.
<b>Identification Details section</b>	
<b>Passport #</b>	Customer's passport number.
<b>Issue Dt</b>	Passport issue date.
<b>Expiry Dt</b>	Passport expiry date.

<b>In this field:</b>	<b>View this:</b>
<b>Visa #</b>	Customer's visa number.
<b>Nationality</b>	Customer's nationality.
<b>National ID</b>	Customer's national identification.
<b>SSN</b>	Customer's social security number. If the organizational parameter <code>UIX_HIDE_RESTRICTED_DATA</code> is set to Y, this appears as a masked number; for example, XXX-XX-1234.
<b>License #</b>	Customer's licence number.
<b>License State</b>	State where the licence was issued.
<b>Payment Hierarchy</b>	<p>The payment hierarchy is auto-populated by the system based on following conditions:</p> <ul style="list-style-type: none"> <li>• While funding an application with new customer details, the payment hierarchy is populated with value specified in system parameter <code>PMT_HIERARCHY_CODE</code>.</li> <li>• While funding an application with existing customer details, the same payment hierarchy selected for existing customer record is populated.</li> </ul> <p>The auto populated payment hierarchy can be modified by selecting the required value from the drop-down list. This list is populated based on the hierarchy definitions maintained in Setup &gt; Administration &gt; User &gt; Payment Hierarchy screen.</p>
<b>Military Service</b>	
<b>Active Military Duty</b>	Active military duty indicator. If selected, indicates that customer is on active military duty and may qualify for rates in accordance with the Service members Civil Relief Act of 2003 (SCRA).
<b>Effective Dt</b>	The effective date
<b>Order Ref #</b>	The order reference number.
<b>Release Dt</b>	The release date.
<b>Customer Decease Date</b>	The deceased date of the customer. You can also post a non monetary transaction to indicate if a customer is deceased. Refer to section <a href="#">Mark Customer as Deceased</a> for more information.
<b>KYC section</b>	
<b>Reference #</b>	Specify the reference number of KYC document.
<b>Status</b>	Select the status of KYC document from drop-down list.
<b>FATCA section</b>	
<b>Birth Place</b>	Specify the birth place of the applicant.
<b>Birth Country</b>	Select the country of birth of the applicant from drop-down list.

<b>In this field:</b>	<b>View this:</b>
<b>Permanent US Resident Status</b>	Check the box to indicate if the applicant has permanent US resident status.
<b>Power of Attorney section</b>	
<b>Power of Attorney</b>	Check the box to indicate that the applicant holds Power of Attorney.
<b>Holder Name</b>	Specify the holder name of the power of attorney.
<b>Address</b>	Specify the address of the attorney holder.
<b>Country</b>	Select the country of the power of attorney holder from drop-down list.
<b>Nationality</b>	Select the country of the power of attorney holder from drop-down list.
<b>Telephone Number</b>	Specify the telephone number of the power of attorney holder.
<b>Credit Limit Details section</b>	
<b>Max Limit</b>	View the maximum credit limit amount sanctioned for this customer.
<b>Total Utilized Amt</b>	View the total credit limit amount utilized.
<b>Available Amt</b>	View the credit limit available amount from the sanctioned limit.
<b>Hold Amt</b>	View the credit limit amount on Hold.
<b>Suspended Amt</b>	View the credit limit amount suspended.
<b>Grade</b>	View the grade of the customer.
<b>Max Late Charge</b>	View the maximum amount of late charge that can be levied for this customer. However, there is no system validation performed based on the amount specified.
<b>Limit Expiry</b>	View the credit limit expiry date.
<b>Limit Next Renewal</b>	View the date when credit limit has to be renewed.
<b>Utilization Details</b>	
<b>% of Utilization</b>	View the percentage of credit limit used to fund the account against the customer.
<b>Utilization Amount</b>	View the amount of credit limit contribution of customer towards Account current balance.

4. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

When military duty transaction is posted on an account, the system does the following:

- Restricts the user from posting repossession/ foreclosure and bankruptcy activities on the account.

- Posts “DO NOT CHARGE OFF” condition on that account to exclude the account from Auto Charge Off process.

#### 4.8.1.1 **Addresses sub tab**

1. In the **Address** sub tab, click ‘Add’. You can also perform any of the [Basic Operations](#) mentioned in Navigation chapter. A brief description of the fields are given below:

<b>In this field:</b>	<b>View this:</b>
<b>Type</b>	The address type.
<b>Current</b>	If selected, indicates that this is the customer’s current address.
<b>Confirmed</b>	Check this box to indicate that the address is confirmed by the customer.
<b>Mailing</b>	Check this box to indicate that this is the customer’s mailing address.
<b>Permission to Call</b>	Check this box if customer has provided permission to contact through the specified phone number.
<b>Permission to Text</b>	Check this box if customer has provided permission to contact through text message.
<b>Country</b>	The country.
<b>Postal Address Type</b>	The postal address type.
<b>Address #</b>	The address.
<b>Street Pre</b>	The street pre.
<b>Street Name</b>	The street name.
<b>Street Type</b>	The street type.
<b>Street Post</b>	The street post.
<b>Apt #</b>	The apartment number.
<b>Address 1</b>	The customer’s address.
<b>Address 2</b>	The customer’s address.
<b>Address 3</b>	The customer’s address.
<b>Zip</b>	The zip code.
<b>Zip Extn</b>	The zip code extension.
<b>City</b>	The city.
<b>State</b>	The state code.
<b>Phone</b>	The phone number.
<b>Address</b>	The address.

In this field:	View this:
<b>Time Zone</b>	View the customer time zone auto populated form TIME_ZONE_CD lookup code.
<b>Census Tract/ BNA Code</b>	The census tract/BNA code.
<b>MSA Code</b>	The metropolitan statistical area (MSA) code.
<b>Comment</b>	Comments regarding the address.

2. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

#### 4.8.1.2 **Telecoms sub tab**

When you add new Telecom details or update existing details and save the record, the same becomes the current/primary Telecom of the customer and the current indicator is set to 'Y' by default. In such a case, the previous Telecom details are disabled (set to N).

1. In the **Telecom** sub tab, click 'Add'. You can also perform any of the [Basic Operations](#) mentioned in Navigation chapter. A brief description of the fields are given below:

In this field:	Do this:
<b>Type</b>	Select the telecommunication type.
<b>Phone</b>	Specify the phone number.
<b>Extn</b>	Specify the phone extension.
<b>Current</b>	Select if this telecom number is current.
<b>Permission to Call</b>	Check this box if customer has provided permission to contact through the specified phone number.
<b>Permission to Text</b>	Check this box if customer has provided permission to contact through text message.
<b>Time Zone</b>	Select the applicant's time zone.
<b>Start Time</b>	Specify the best time to call start time.
<b>End Time</b>	Specify the best time to end the call.
<b>Period</b>	Specify the time period.
<b>Best day to call</b>	Select the preferred day of the week to contact the customer from the drop-down list.
<b>End Time</b>	Specify the best time to end the call.
<b>Period</b>	Select the time period for the best time to call end time, AM or PM, from the drop-down list.

2. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

### 4.8.1.3 Employments sub tab

1. In the **Employment** sub tab, click 'Add'. You can also perform any of the [Basic Operations](#) mentioned in Navigation chapter. A brief description of the fields are given below:

<b>In this field:</b>	<b>View this:</b>
<b>Current</b>	If selected, indicates that this is the customer's current address.
<b>Permission to Call</b>	Check this box if customer has provided permission to contact through the specified phone number.
<b>Permission to Text</b>	Check this box if customer has provided permission to contact through text message.
<b>Type</b>	The occupation.
<b>Employer</b>	The employer's name.
<b>Occupation</b>	The occupation.
<b>Title</b>	The title.
<b>Department</b>	The department of the employment.
<b>Country</b>	The country.
<b>Address #</b>	The address line.
<b>Address Line 1</b>	The employer's address.
<b>Address Line 2</b>	The employer's address.
<b>Zip</b>	The zip code.
<b>Zip Extn</b>	The zip code extension.
<b>City</b>	The city.
<b>State</b>	The state.
<b>Phone</b>	The work phone number.
<b>Extn</b>	The work phone number extension.
<b>Comment</b>	Comments regarding the employment.
<b>Pay Day</b>	View or select the payment day of the month using the adjoining calendar.  For OFSLL generated accounts, system propagates the Pay Date defined in Origination > Application Entry > Applicant Tab > Employments Sub Tab and is editable.  For conversion accounts, you need to select the payment day.

In this field:	View this:
<b>Next Pay Day</b>	The next payment day is auto populated based on the Pay Day and Frequency specified. When 'Pay Day' is selected, system posts a non-monetary transaction - EMPLOYMENT ADDRESS MAINTENANCE to calculate the next payment day after the current date has elapsed.
<b>Frequency</b>	Select the income frequency from the drop-down list.

2. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

#### 4.8.1.4 Tracking Attributes sub tab

You can add tracking attribute information to an application at any time on the Customer Details screen's Customer Tracking Attributes section.

The Tracking Attributes for Line of credit accounts in this screen can also be loaded in bulk through file upload process. While doing so, ensure that the input data file definitions are in sync with attribute names. Before processing the bulk upload, system validates if the Tracking Attributes are already loaded. If not, system loads the Tracking Attributes and then updates the details.

In the **Tracking Attributes** section, click **Edit**

When you click **Create Tracking**, the system loads the tracking parameters.

- If you want to reduce the list of parameters, select a sub-attribute in the **Sub Attribute** box.
- If your system has been configured to use the Sub Attribute field, only attributes in a particular group appear in the Parameter display.
- specify the requested parameter in the **Value** field and click **Save**.

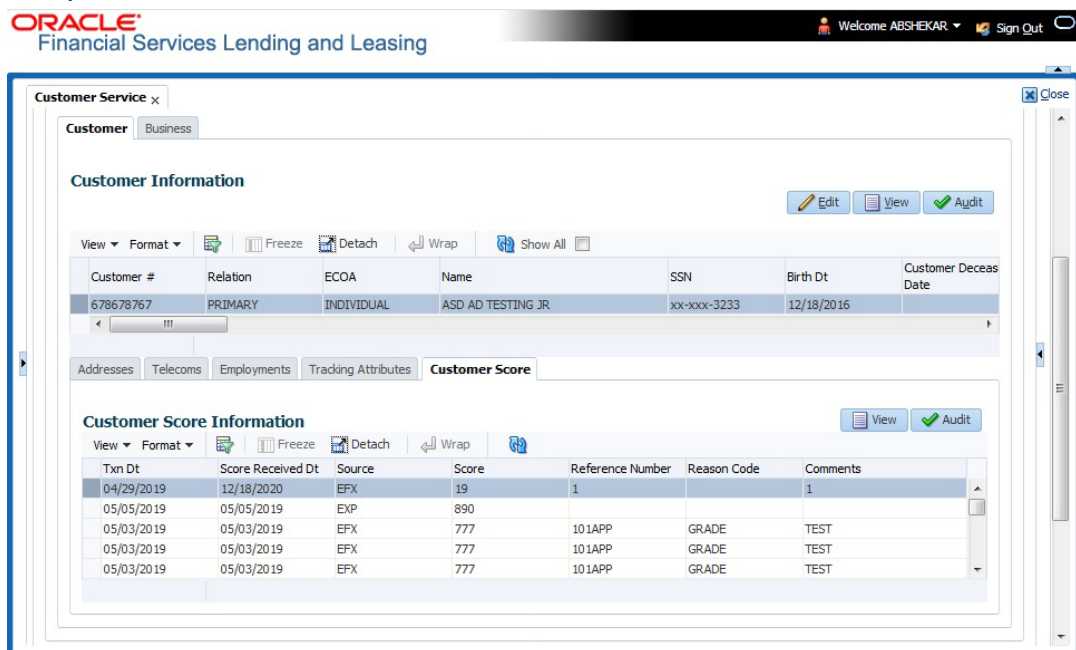

Save any changes you made to the account.

#### 4.8.1.5 Customer Score

Customer score or FICO score, also referred to as 'Fair Isaac & Company' credit score is a numeric summary of credit history compiled by the three major credit bureaus - Equifax, Trans Union, and Experian. This is obtained during Credit bureau pull and is one of the indicator for a customer (SSN) in the entire credit report.

The Customer Score tab displays all the customer FICO score data maintained in the system. Though the customer score is recorded while funding, the same can be captured and updated

regularly during the life cycle of Loan to get a snapshot of credit score movements in recent history.

The customer score can be updated on required intervals by posting 'Customer Credit Score Update' non-monetary transaction and the data is populated into this screen. For more information, refer to [Customer / Business Credit Score Update](#) section.

In the 'Customer Score Information' section, select the required record and click 'View'.

A brief description of the fields are given below:

In this field:	View this:
Txn Dt	View the transaction posted date.
Score Received Dt	View the date when customer score was received from credit bureau.
Relation Type Code	View the account relation type (Primary, Spouse, and so on) which are attached to account.
Source	View the name of credit bureau from where the credit score is received.
Score	View the customer credit score value.
Reference Number	View the reference number associated with the credit score.
Reason Code	View the reason for posting this transaction.
Comments	Additional information if any.

#### 4.8.2 **Business sub tab**

If this is a SME or Business Loan, information gathered on the application entry process regarding the business and business's address, partners data, affiliates data, phone numbers and business credit score appears on the Customer Service screen's Business sub tab.

Using the Business sub tab, you can add new business details to an account and/or update the existing business's address, partners and affiliates information, or phone listing. New business details can be added even after an account is created and is usually done in case when the existing business is taken over by another business.

When you add new business or update existing details and save the record, the same becomes the current/primary business of the customer and the current indicator is set to 'Y' by default. In such a case, the previous business details are disabled (set to N). You can select the 'Show All' check box in Business Details section to view the disabled records along with current business details.

On adding a new business, the Business # is auto generated by the system and other details such as business's Addresses, Telecoms, Partners and so on are to be manually updated. Also, if there is a pre-defined Customer Credit Limit allocation to an existing business, the same is reinstated to new business automatically.

You can also add/update business details by posting a non monetary transaction. For more information, refer to [Add/Update Business Customer Details](#) section in Appendix chapter.

### To add or edit business information

1. Open the **Customer Service** screen and load the account you want to work with.
2. On the Customer Service screen, click the Customer Details tab and then click **Business**.

3. In the **Business Details** section, click 'ADD'. You can also perform any of the [Basic Operations](#) mentioned in Navigation chapter. A brief description of the fields are given below:

In this field:	View this:
<b>Current</b>	'Y' indicates that it is the current / primary business of customer associated with the account. 'N' indicates a non primary Business.
<b>Business #</b>	View the system generated business number. This field is displayed only while you update existing Business details
<b>Organization Type</b>	Select the Organization type from the drop-down list.

<b>In this field:</b>	<b>View this:</b>
<b>Type of Business</b>	Select the Type of the business from the drop-down list.
<b>Business Category</b>	Select the Business category from the drop-down list.
<b>Name of the Business</b>	Specify the name of business.
<b>Legal Name</b>	Specify the legal name of the business.
<b>Tax Id #</b>	Specify the Tax identification number.
<b>Start Dt</b>	Select the Business start date from adjoining calendar.
<b># of Employees (Cur)</b>	Specify the current number of employees at the business.
<b># of Employees</b>	Specify the number of employees at the business after financing.
<b>Contact Person</b>	Specify the contact person at the business.
<b>Business Checking Bank</b>	Specify the bank name of the business's checking account.
<b>Bank Acc #</b>	Specify the bank account number of the business.
<b>Avg Checking Balance</b>	Specify the average checking balance.
<b># of Locations</b>	Specify the number of locations where the business is established.
<b>Management Since</b>	Specify the year the current management was established.
<b>Payment Hierarchy</b>	<p>The payment hierarchy is auto-populated by the system based on following conditions:</p> <ul style="list-style-type: none"> <li>• While funding an application with new customer details, the payment hierarchy is populated with value specified in system parameter PMT_HIERARCHY_CODE.</li> <li>• While funding an application with existing customer details, the same payment hierarchy selected for existing customer record is populated.</li> </ul> <p>The auto populated payment hierarchy can be modified by selecting the required value from the drop-down list. This list is populated based on the hierarchy definitions maintained in Setup &gt; Administration &gt; User &gt; Payment Hierarchy screen.</p>
<b>Stop Correspondence</b>	Stop correspondence indicator. If selected, Oracle Financial Services Lending and Leasing will not send correspondence to the business.
<b>Skip</b>	Business's skip indicator. If selected, indicates that the Business has debts and the customer is a skip debtor.

<b>In this field:</b>	<b>View this:</b>
<b>Bankruptcy</b>	Business's bankruptcy indicator.
<b>Privacy Opt-Out</b>	Privacy opt-out indicator. If selected, indicates that the business has elected to refrain from the non-public sharing of information.
<b>Insurance Opt Out</b>	Insurance Opt Out indicator. If selected, indicates that the business has elected to refrain from insurance related inquiries.
<b>Marketing Opt Out</b>	Marketing Opt Out indicator. If selected, indicates that the business has elected to refrain from marketing related inquiries.
<b>Share Credit Opt Out</b>	Share Credit Opt Out indicator. If selected, indicates that the business has elected to refrain from financial information and share credit related inquiries.
<b>Update Business Info</b>	Value is auto populated and if selected, indicates that the system was allowed to override the existing business details with the latest address and communication details during account creation.
<b>Email</b>	Business's e-mail address.

4. The below fields are displayed only while editing the details of an existing business and information within the fields are populated from Origination > Customer Credit Limit section:

<b>Credit Limit Details section</b>	
<b>Max Limit</b>	View the maximum credit limit amount sanctioned for this business.
<b>Total Utilized Amt</b>	View the total credit limit amount utilized.
<b>Available Amt</b>	View the credit limit available amount from the sanctioned limit.
<b>Hold Amt</b>	View the credit limit amount on Hold.
<b>Suspended Amt</b>	View the credit limit amount suspended.
<b>Grade</b>	View the grade of the business.
<b>Max Late Charge</b>	View the maximum amount of late charge that can be levied for this business. However, there is no system validation performed based on the amount specified.
<b>Limit Expiry</b>	View the credit limit expiry date.
<b>Limit Next Renewal</b>	View the date when credit limit has to be renewed.
<b>Utilization Details</b>	
<b>% of Utilization</b>	View the percentage of credit limit used to fund the account against the business.

<b>Utilization Amount</b>	View the amount of credit limit contribution of Business towards Account current balance.
---------------------------	---

5. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

#### 4.8.2.1 **Addresses sub tab**

1. In the **Address** sub tab, click 'Add'. You can also perform any of the [Basic Operations](#) mentioned in Navigation chapter. A brief description of the fields are given below:

<b>In this field:</b>	<b>View this:</b>
<b>Current</b>	If selected, indicates that this is the customer's current address.
<b>Permission to call</b>	Check this box if customer has provided permission to contact through the specified phone number.
<b>Permission to Text</b>	Check this box if customer has provided permission to contact through text message.
<b>Confirmed</b>	Check this box to indicate that the address is confirmed by the customer.
<b>Mailing</b>	Check this box to indicate that this is the customer's mailing address.
<b>Address Type</b>	Address type.
<b>Country</b>	Country code.
<b>Address #</b>	Address number.
<b>Postal Type</b>	Postal type.
<b>Pre</b>	Pre
<b>Street Name</b>	Name of street.
<b>Street Type</b>	Type of street.
<b>Post</b>	Post box number.
<b>Apt #</b>	Apartment number.
<b>Address 1</b>	Address.
<b>Address Line 2</b>	Address Line 2
<b>Zip</b>	Zip code.
<b>Zip Extn</b>	Zip extension.
<b>City</b>	City.
<b>State</b>	State.
<b>Phone</b>	Phone number.
<b>Ownership</b>	Ownership type.

In this field:	View this:
<b>Time Zone</b>	View the business time zone auto populated form TIME_ZONE_CD lookup code.
<b>Comment</b>	Additional comments.

2. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

#### 4.8.2.2 **Telecoms sub tab**

When you add new Telecom details or update existing details and save the record, the same becomes the current/primary Telecom of the business and the current indicator is set to 'Y' by default. In such a case, the previous Telecom details are disabled (set to N).

1. In the **Telecom** sub tab, click 'Add'. You can also perform any of the [Basic Operations](#) mentioned in Navigation chapter. A brief description of the fields are given below:

In this field:	View this:
<b>Permission to call</b>	Check this box if customer has provided permission to contact through the specified phone number.
<b>Permission to Text</b>	Check this box if customer has provided permission to contact through text message.
<b>Telecom Type</b>	Select the Telecommunication type from the drop-down list.
<b>Phone</b>	Enter the business phone number.
<b>Ext</b>	Enter the phone extension.
<b>Current</b>	Check this box to indicate that this is the current record.
<b>Time Zone</b>	Select the business time zone from the drop-down list. The list is populated with values form TIME_ZONE_CD lookup code.
<b>Best day to call</b>	Select the preferred day of the week to contact the business from the drop-down list.
<b>Start Time</b>	Specify the start time after when you can contact the business.
<b>Period</b>	Select the period as AM/PM from drop-down list.
<b>End Time</b>	Specify the end time before which you can contact the business.
<b>Period</b>	Select the period as AM/PM from drop-down list.

2. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

#### 4.8.2.3 **Partners sub tab**

1. In the **Partners** sub tab, click 'Add'. You can also perform any of the [Basic Operations](#) mentioned in Navigation chapter. A brief description of the fields are given below:

In this field:	View this:
<b>Permission to call</b>	Check this box if customer has provided permission to contact through the specified phone number.

<b>In this field:</b>	<b>View this:</b>
<b>Permission to Text</b>	Check this box if customer has provided permission to contact through text message.
<b>First Name</b>	Partner's first name.
<b>MI</b>	Partner's middle name.
<b>Last Name</b>	Partner's last name.
<b>Suffix</b>	Partner's suffix.
<b>SSN</b>	Partner's social security number.
<b>Birth Dt</b>	Partner's birth date.
<b>Birth Place</b>	Partner's birth place.
<b>Director Ind</b>	If selected, indicates that partner is the director of the business.
<b>Networth</b>	Partner's net worth.
<b>Gross Income</b>	Partner's gross income.
<b>Language</b>	Partner's language.
<b>Nationality</b>	Partner's nationality.
<b>Title</b>	Partner's title.
<b>Ownership (%)</b>	Percentage of ownership held by the partner.
<b>Email</b>	Partner's e-mail.
<b>Phone</b>	Partner's phone.
<b>Extn</b>	Partner's phone extension.

2. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

#### 4.8.2.4 **Affiliates sub tab**

1. In the **Affiliates** sub tab, click 'Add'. You can also perform any of the [Basic Operations](#) mentioned in Navigation chapter. A brief description of the fields are given below:

<b>In this field:</b>	<b>View this:</b>
<b>Organization Type</b>	Affiliate's organization type.
<b>Legal Name</b>	Affiliate's legal name.
<b>Name of the Business</b>	Affiliate's business name.
<b>Tax ID #</b>	Affiliate's tax identification.
<b>Ownership (%)</b>	Affiliate's percentage of ownership.

<b>In this field:</b>	<b>View this:</b>
<b># of Employees</b>	Affiliate's number of employees.
<b>NAICS CODE</b>	Affiliate's North American Industry Classification System code.

2. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

#### 4.8.2.5 Tracking Attributes sub tab

You can add tracking attribute information to an application at any time on the Business Details screen's Business Tracking Attributes section.

The Tracking Attributes for Line of credit accounts in this screen can also be loaded in bulk through file upload process. While doing so, ensure that the input data file definitions are in sync with attribute names. Before processing the bulk upload, system validates if the Tracking Attributes are already loaded. If not, system loads the Tracking Attributes and then updates the details.

In the **Tracking Attributes** section, click **Edit**

When you click **Create Tracking**, the system loads the tracking parameters.

- If you want to reduce the list of parameters, select a sub-attribute in the **Sub Attribute** box.
- If your system has been configured to use the Sub Attribute field, only attributes in a particular group appear in the Parameter display.
- specify the requested parameter in the **Value** field and click **Save**.

Save any changes you made to the account.

#### 4.8.2.6 Business Score

Business score or business credit score is a numeric summary of business credit history compiled by the three major credit bureaus - Equifax, Trans Union, and Experian. This is obtained during Credit bureau pull and is one of the indicator for a business account in the entire credit report.

The Business Score tab displays all the business score data maintained in the system. Though the business score is recorded while funding, the same can be captured and updated

regularly during the life cycle of business Loan to get a snapshot of credit score movements in recent history.

The business score can be updated on required intervals by posting 'Business Credit Score Update' non monetary transaction and the data is populated into this screen. For more information, refer to [Customer / Business Credit Score Update](#) section.

In the 'Business Score Information' section, select the required record and click 'View'.

A brief description of the fields are given below:

In this field:	View this:
Txn Dt	View the transaction posted date.
Score Received Dt	View the date when business score was received from credit bureau.
Source	View the name of credit bureau from where the credit score is received.
Score	View the business credit score value.
Reference Number	View the reference number associated with the credit score.
Reason Code	View the reason for posting this transaction.
Comments	Additional information if any.

## 4.9 Customer Service screen's Customer/Business Preferences tab

The Customer/Business Preferences tab allows you to define the customer communication preferences at an account level for each relation type associated with the account. The details of this tab are populated to Customer Service > Collections tab for further action.

If the selected account belongs to an individual Customer, this tab is displayed as 'Customer Preferences' and if there is no customer linked and only a business is involved in the account,

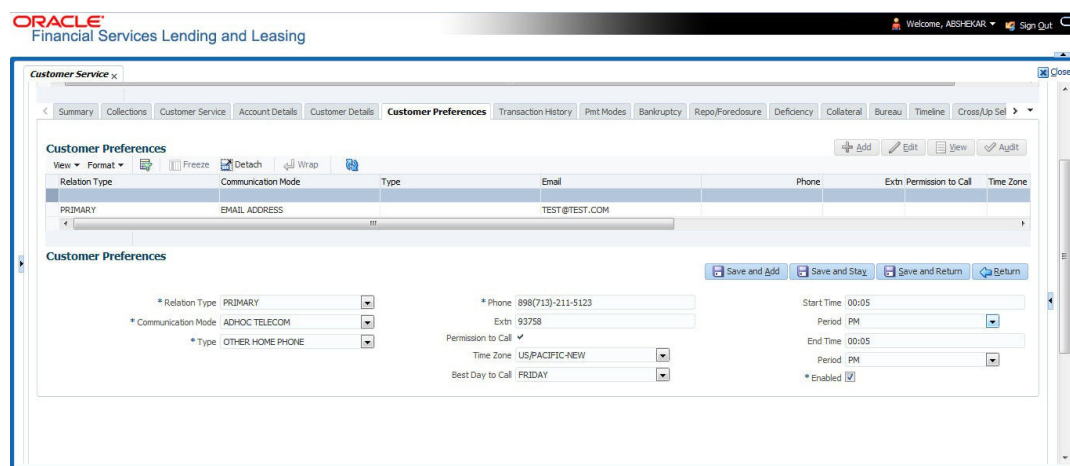

this tab is displayed as 'Business Preferences'. In case both Customer and Business are involved in the account, this is still displayed as 'Customer Details tab'.

However, if any of the following transactions are posted on the account the defined customer communication preferences are disabled and can be manually enabled in specific conditions:

- Customer marked as 'Deceased'
- Changed relation to primary customer
- Disabled/enabled non primary customer relationship
- Swapped relationship

### To view or edit customer/business preferences

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Customer/Business Preferences** sub tab.

3. In the **Customer/Business Preferences** section, click 'ADD'. You can also perform any of the [Basic Operations](#) mentioned in Navigation chapter. A brief description of the fields are given below:

In this field:	View this:
<b>Relation Type</b>	Select the account relation type from the drop-down list. The list displays only those relationship types which are attached to account and are enabled (excluding deceased customer relations).
<b>Communication Mode</b>	<p>Select the preferred mode of communication as one of the following from the drop-down list.</p> <p>EMAIL ADDRESS - if selected, system displays the email ID associated with the selected contact in view mode and allows you to enable/disable the customer preference record.</p> <p>TELECOM - if selected, you can further select the type of communication option as Telecom type, Address or Employment for which the permission to call indicator is 'Y'. On selection, the other details are auto-populated based on the details maintained in Customer Service &gt; Telecom, Address and Employment tabs. You can also enable/disable the customer preference record.</p> <p>ADHOC TELECOM - if selected, you can specify the following field information.</p>

In this field:	View this:
<b>Type</b>	Select the preferred type of communication option from the drop-down list. The list displays the options maintained in TELECOM_-TYPE_CD lookup.
<b>Phone</b>	Specify the phone number of the selected contact.  Note: On saving the record, system updates the specified phone number into 'Telecom' tab by internally posting a non-monetary transaction 'EMPLOYMENT ADDRESS MAINTENANCE'.
<b>Extn</b>	Specify the extension (if any) for the selected contact.
<b>Permission to Call</b>	This check box is selected by default and indicates that the customer has provided permission to contact through the specified phone number.
<b>Time Zone</b>	Select the contact's time zone.
<b>Best Day to Call</b>	Select the preferred day of the week to contact the customer from the drop-down list.
<b>Start Time</b>	Specify the start duration after which the contact can be called.
<b>Period</b>	Specify the time period (AM/PM).
<b>End Time</b>	Specify the end duration before which the contact can be called.
<b>Period</b>	Specify the time period (AM/PM).
<b>Enabled</b>	Check this box to enable the customer preference record.  <b>Note:</b> You can always enable only one record of a particular communication mode and for a particular relation type at any given point.

4. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

---

**Note**

Clicking 'EDIT' in the Customer/Business Preferences section allows you to only enable or disable the customer preference record.

---

## 4.10 Customer Service screen's Transaction History tab

Open the **Customer Service** screen and load the account you want to work with. Click the **Transaction History** tab to view the sections under it.

The screenshot displays the Oracle Financial Services Lending and Leasing Customer Service interface. The main window is titled 'Customer Service' and shows account details for 'Account(s): 20150900014267: SIGG MARK'. The 'Transaction History' tab is selected, showing a 'Balance Group' table with columns for Balance Type, Opening Balance, Posted, Paid, Waived, Charge Off, and Adjusted (-). The table lists various balance types such as ADVANCE / PRINCIPAL, INTEREST, FEE LATE CHARGE, FEE NSF, FEE EXTENSION, FEE PHONE PAY, FEE PERIODIC MAINT..., RENTAL FEE, FEE DELAY, EXPENSE BANKRUPTCY, EXPENSE REPOSESSL, and EXPENSE SERVICING. The current balance is 19,020.00.

Balance Type	Opening Balance	Posted	Paid	Waived	Charge Off	Adjusted (-)
ADVANCE / PRINCIPAL	0	18,900	0	0	0	0
INTEREST	0	0	0	0	0	0
FEE LATE CHARGE	0	120	0	0	0	0
FEE NSF	0	0	0	0	0	0
FEE EXTENSION	0	0	0	0	0	0
FEE PHONE PAY	0	0	0	0	0	0
FEE PERIODIC MAINT...	0	0	0	0	0	0
RENTAL FEE	0	0	0	0	0	0
FEE DELAY	0	0	0	0	0	0
EXPENSE BANKRUPTCY	0	0	0	0	0	0
EXPENSE REPOSESSL	0	0	0	0	0	0
EXPENSE SERVICING	0	0	0	0	0	0
						Current Balance 19,020.00
						Total

### 4.10.1 Balances sub tab

Details of an account balance can be viewed on the Balances sub tab.

The **Balance Group** in Balances section consists of the following four action buttons:

- Current Balance
- Deficiency Balance
- Non-Performing Balance
- Terminate Balance

By default, the Current Balance option is selected. In case the status of an account is 'Charged Off', then the system defaults to 'Deficiency Balance' option.

Depending on which one you select, a different set of balance information appears. In all cases, the Balance screen can be viewed in the following two transaction period modes:

- ITD/CTD (Inception-to-date/Cycle-to-date)
- YTD (year-to-date)

#### To view account balance information

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Transaction History** tab, then click **Balances** sub tab
3. In the **Balance Group** section, select the balance you want to view.

**Current Balance** displays the current balances for accounts with an status of ACTIVE.

In this field:	View:
<b>Balance Type</b>	The balance type.
<b>Opening Balance</b>	The opening balance amount.
<b>Posted</b>	The amount posted (in addition to the opening balance).
<b>Paid Balance</b>	The amount paid.
<b>Waived</b>	The amount waived.
<b>Charged Off</b>	The amount charged off.
<b>Adjusted (-)</b>	The amount adjusted (negative adjustments).
<b>Adjusted (+)</b>	The amount adjusted (positive adjustments).
<b>Balance</b>	The current (closing) balance. The total active balance of the account is displayed at the bottom.

**Deficiency Balance** displays the current balances for accounts with an status of CHARGED OFF. If you click **Deficiency Balance**, the following information appears:

In this field:	View:
<b>Balance Type</b>	The balance type.
<b>Opening Deficiency</b>	The opening deficiency balance.
<b>Chg off Posted</b>	The additional charged off amounts posted.
<b>Recovery</b>	The amount of deficiency balance paid.
<b>Deficiency Balance</b>	The current (closing) deficiency balance. The total deficiency balance of the account is displayed at the bottom.

**Non-Performing Balance** displays the current balance for accounts with status as NON-PERFORMING. Non-Performing accounts fall between CHARGED OFF accounts and ACTIVE accounts. These accounts are treated as active when dealing with the customer, but for accounting purposes are treated differently as they are expected to charge off in the future. Fee and interest balances are not expected to be collected in full and therefore are not recognized as income. If you click **Non-Performing Balance**, the following information appears:

In this field:	View:
<b>Balance Type</b>	The balance type.
<b>Opening Non-Performing</b>	The opening non performing balance.
<b>Paid / Terminate</b>	The amount of non performing balance paid or terminated.
<b>Paid Excess</b>	The additional non performing amounts posted.
<b>Waived</b>	The amount waived.

In this field:	View:
<b>Adjusted (-)</b>	The amount adjusted (Negative adjustments).
<b>Adjusted (+)</b>	The amount adjusted (Positive adjustments).
<b>Balance</b>	The current (Closing) non performing balance. The total non-performing balance of the account is displayed at the bottom.

**Terminate Balance** displays the current balance for accounts with a status of TERMINATE. Selecting **Terminate Balance** option displays the following account details.

In this field:	View:
<b>Balance Type</b>	The balance type.
<b>Opening Balance</b>	The opening non performing balance.
<b>Paid / Terminate</b>	The amount of non performing balance paid or terminated.
<b>Waived</b>	The amount waived.
<b>Charge Off</b>	The additional charged off amounts.
<b>Adjusted (-)</b>	The amount adjusted (Negative adjustments).
<b>Adjusted (+)</b>	The amount adjusted (Positive adjustments).
<b>Terminate</b>	The balance amount to terminate.

- In the **Txn Period Balance** section, select how you want to view the balance:  
 Select **ITD/CTD** to view transactions by Inception-to-date /Cycle-to-date:  
 -or-  
 Select **YTD** to view the transactions by year to date.

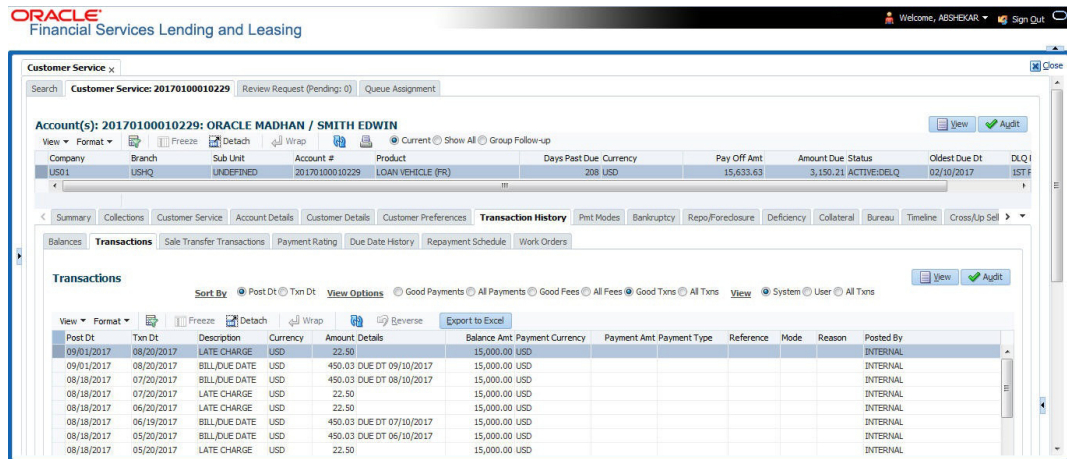

#### 4.10.2 Transactions sub tab

The Transactions screen displays all transactions that have occurred over the life of account. Transactions can be sorted by when the transaction was created (Post Dt) or the effective date of transaction (Txn Dt). You can choose to view all transactions, filter System / User posted transactions, export account transaction details to a file, or reverse certain transactions. This information comes from the payments and advances applied to the account, maintenance tasks, and nightly processes such as billing.

##### To view the transaction history of an account

- Open the **Customer Service** screen and load the account you want to work with.

- Click **Transaction History** tab, then click **Transactions** sub tab.

- In the **View Options** section, select type of transactions in this account's history you want to view on the **Transactions** screen.

If you select this:	The system displays:
<b>Good Payments</b>	All valid payments that was neither voided nor reversed.
<b>All Payments</b>	All transaction involving payments.
<b>Good Fees</b>	All valid fees that was neither voided nor reversed.
<b>All Fees</b>	All transaction involving fees.
<b>Good Txns</b>	All transactions that was neither voided nor reversed.
<b>All Txns</b>	All transactions.

- In the **View** section, you can further filter the list of transactions which are posted by System or User. Selecting ALL transactions displays all the transactions.

If you select this:	The system displays:
<b>System</b>	All system posted transactions filtered based on View option selection are displayed.
<b>User</b>	All User posted transactions filtered based on View option selection are displayed.
<b>All Txns</b>	All posted transactions filtered based on View option selection are displayed.

- In the **Sort Option** section, choose **Post Dt** to sort entries on in **Transactions** section in order of when the transaction was made effective.

-or-

- Select **Txn Dt** to sort the entries on in **Transactions** section in order of when the transaction was created.

- In **View Option** section, click **View** to view the following information:

In this field:	View:
<b>Transactions section</b>	

<b>In this field:</b>	<b>View:</b>
<b>Post Dt</b>	The transaction posting date.
<b>Txn Dt</b>	The transaction effective date.
<b>Description</b>	The transaction details.
<b>Currency</b>	The currency of the transaction.
<b>Amount</b>	The transaction amount.
<b>Details</b>	The transaction details.
<b>Balance Amt</b>	The balance amount. This is the principal balance, not the total balance amount.
<b>Payment Currency</b>	The payment currency.
<b>Payment Amount</b>	The payment amount.
<b>Payment Type</b>	The payment type.
<b>Reference</b>	The reference number associated with the transaction.
<b>Mode</b>	The mode of the transaction.
<b>Reason</b>	The reason for the transaction.
<b>Posted By</b>	Indicates if the transaction is either system posted (marked as INTERNAL) or user posted (marked with User ID)
<b>Allocation Details</b>	
<b>Txn</b>	The transaction allocation details.
<b>Amt</b>	The transaction allocation amount.

#### 4.10.2.1 To Reverse (or Void) a Transaction

1. Open the **Customer Service** screen and load the account you want to work with.
2. On the Customer Service screen, click **Transaction History** tab and then click **Transactions**.
3. In the **Transactions** section, select the transaction you want to reverse.
4. Click **Reverse**. A confirmation dialog is displayed.
5. Click 'Yes' to reverse the transaction. On confirmation, the reversal is posted for processing.

Some transactions cannot be reversed. If a transaction cannot be reversed, the Reverse button will be dimmed when transaction is selected. If the Reverse button is unavailable, the transaction anniversary cannot be reversed.

Access to the **Reverse** button can be restricted by user responsibility and account's product type using the PAYMENT\_REV transaction code (Super Group: ACCOUNT MONETARY TXN) on the Administration screen.

(For more information, see **Txn Codes tab (Transaction Super Group screen)** section of the **Administration (System) Setup** chapter in the **Oracle Financial Services Lending and Leasing Setup Guide**).

#### **4.10.2.2 Voiding an Account**

##### **To void an account**

Oracle Financial Services Lending and Leasing can be configured to void an account using the Reverse button on the Transaction screen.

1. Open the **Customer Service** screen and load the account you want to work with.
2. On the Customer Service screen, click **Transaction History** tab and then click **Transactions**.
3. In the **Transactions** section, select ACTIVE entry in the **Description** field.
4. Click **Reverse**.

On the Transactions screen, Oracle Financial Services Lending and Leasing creates an entry of REVERSE ACTIVE and reverses all transactions. The system also changes status of the account to CLOSED: VOID and changes status of the application to APPROVED-VOID (or whatever the account's last status was before funding).

To use this feature, ACTIVE\_REV transaction code must be enabled and set to manual on the Transaction Super Group screen for your user responsibility and account's product type. (For more information, see the **Txn Codes tab (Transaction Super Group screen)** section of the **Administration (System) Setup** chapter in the **Oracle Financial Services Lending and Leasing Setup Guide**).

#### **4.10.2.3 Export Account Transaction Details**

In the Transactions sub tab, you can export the required account transactions and allocation details to a file.

##### **To export account transaction details**

1. Open the **Customer Service** screen and load the account you want to work with.
2. On the Customer Service screen, click **Transaction History** tab and then click **Transactions**.
3. In the **Transactions** section, select the required transaction.
4. Click **Export to Excel**. The details are exported to a .xls file with options to save or open.

#### **4.10.3 Sale Transfer Transactions**

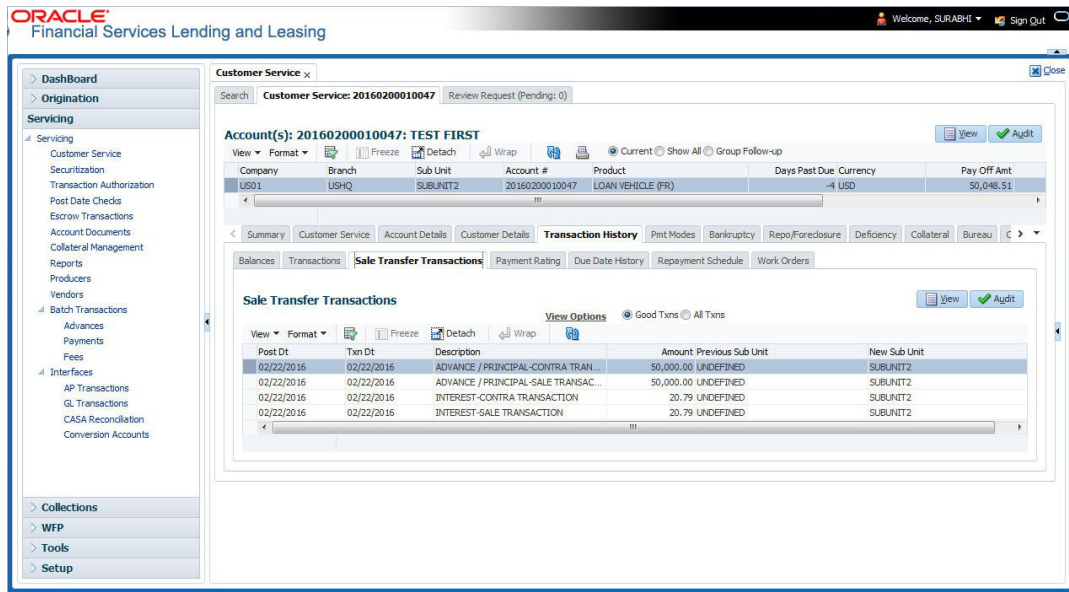

When an existing Sub Unit (referred to as the entity which is the source of funds for the credit application/Account) is transferred to a new Sub Unit, the balance in accounts are moved to the new Sub Unit by posting contra or reverse transactions and the same is re-posted to GL.

The sale transfer transaction sub tab displays all Sub Unit Transfer transactions from Old Sub Unit to New Sub Unit.

##### **To view the Sale Transfer Transaction**

1. Open the **Customer Service** screen and load the account you want to work with.

2. Click **Transaction History** tab, then click **Sale Transfer Transactions** sub tab.

View the following information:

In this field:	View:
<b>Post Dt</b>	View the transaction post date.
<b>Txn Dt</b>	View the transaction date.
<b>Description</b>	View the description of the posted transaction.
<b>Amount</b>	View the balance amount in previous sub unit.
<b>Previous Sub Unit</b>	View the name of previous sub unit.
<b>New Sub Unit</b>	View the name of the new sub unit.

3. You can view the following type of sub unit transfer transactions:

- Select **Good Txns** - System displays the Sub Unit Transfer transactions from Old Sub Unit to New Sub Unit which includes Contra Transactions.
- Select **All Txns** - System displays the Sub Unit Transfer transactions from Old Sub Unit to New Sub Unit which includes Contra Transactions and Reverse Transactions.

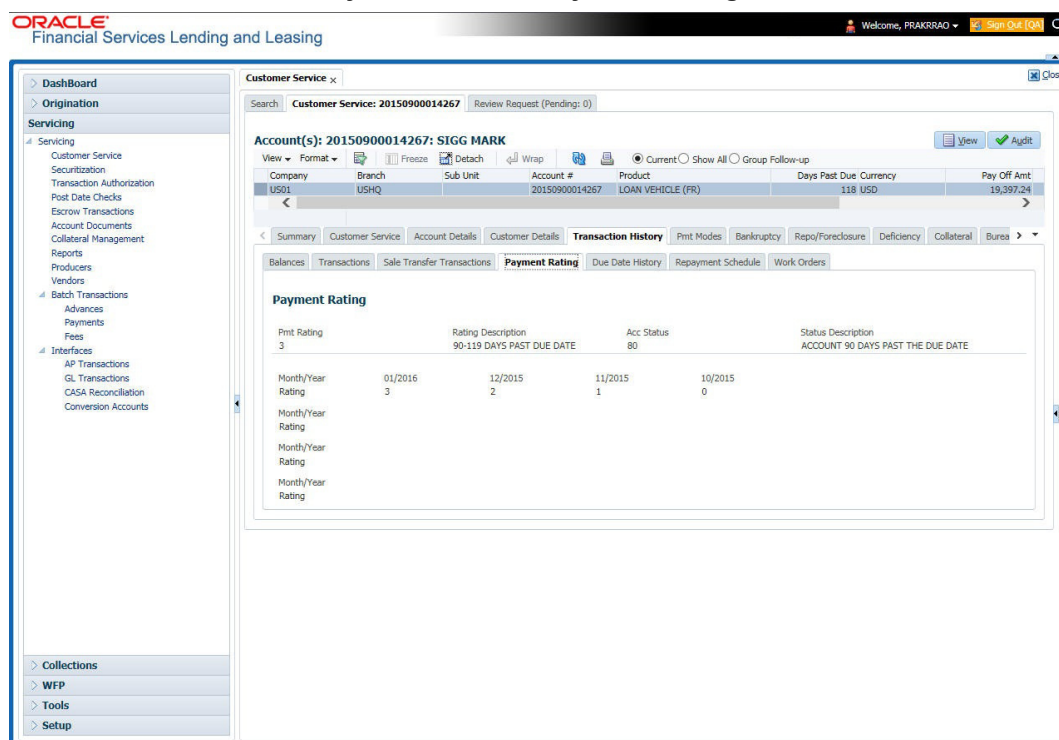

#### 4.10.4 **Payment Rating sub tab**

**To view the transaction history of an account**

1. Open the **Customer Service** screen and load the account you want to work with.

2. Click **Transaction History** tab, then click **Payment Rating** sub tab.

The **Payment Rating** section displays month and year of payment and rating reported to credit bureaus through Metro 2 file for the past 24 months, including the following:

In this field:	View this:
<b>Pmt Rating</b>	The payment rating.
<b>Rating Description</b>	The payment rating description.
<b>Acc Status</b>	The credit bureau account status.
<b>Status Description</b>	The credit bureau account status description.
<b>Month/Year Rating</b>	The month/year of payment rating.

#### 4.10.5 Due Date History sub tab

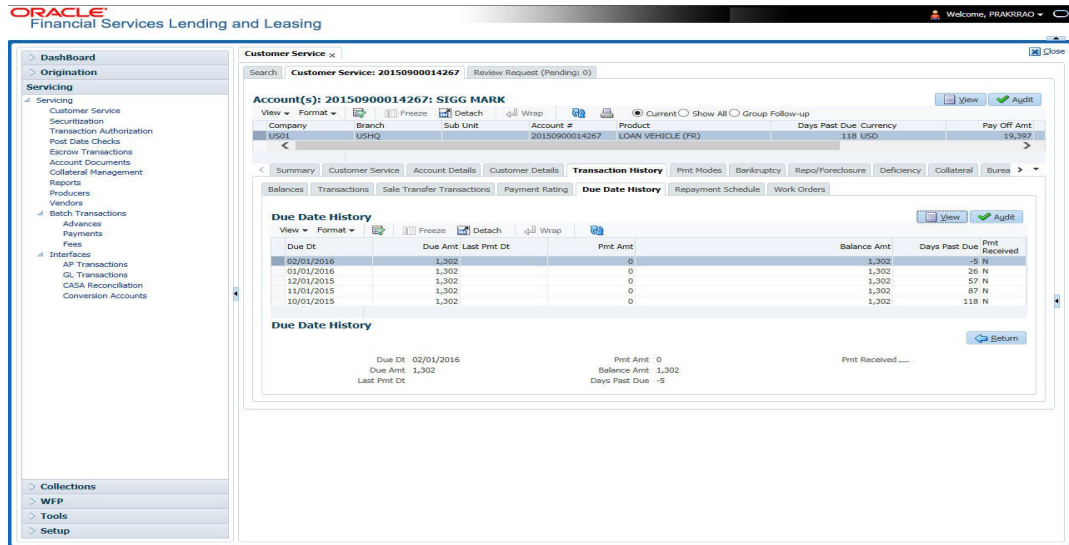

The **Due Date History** tab provides a delinquency history, by payment, by displaying a history of all due dates, along with when actual payment was made for that due date and the subsequent balance. If a payment was delinquent, Due Date History section displays the number of days the customer was delinquent against each due date.

Due Date History sub tab displays all the dues that have crossed the system date and also the history that is currently available in Transaction History > Due Date History sub tab.

1. Open the **Customer Service** screen and load the account you want to work with.

2. Click **Transaction History** tab, then click **Due Date History** sub tab.

In **Due Date History** section, click **View**

View the following:

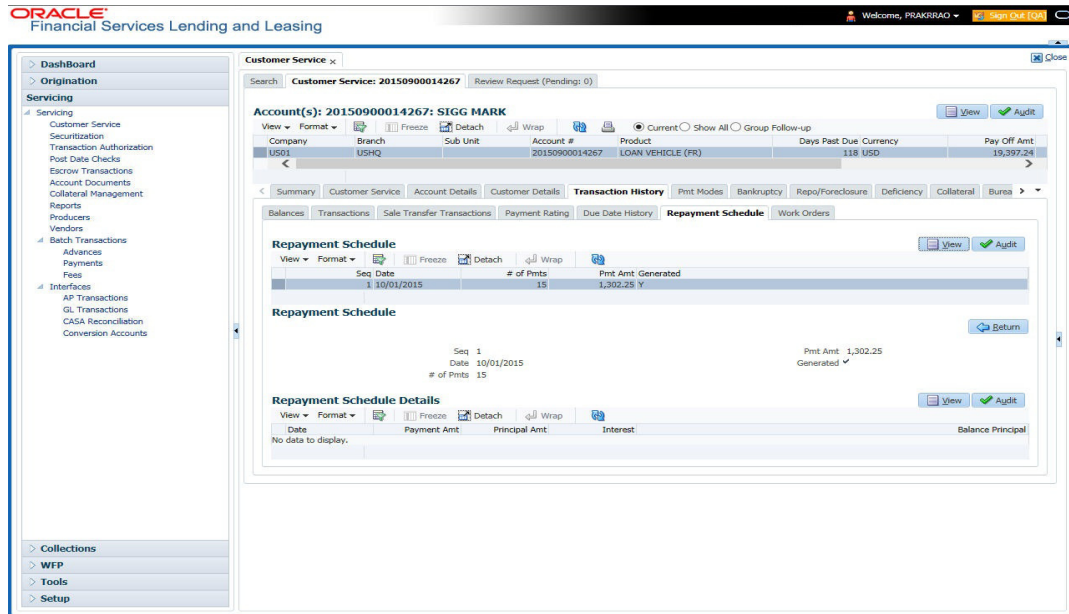

In this field:	View this:
<b>Due Dt</b>	The due date.
<b>Due Amt</b>	The due amount.
<b>Last Pmt Dt</b>	The last payment date.
<b>Pmt Amt</b>	The payment amount.
<b>Balance Amt</b>	The balance amount.
<b>Days Past Due</b>	The days past due.
<b>Pmt Received</b>	If selected, indicates the payment was received.

#### 4.10.6 **Repayment Schedule sub tab**

The **Repayment Schedule** section contains information about schedule of repayment such as the date and payment amount.

1. Open the **Customer Service** screen and load the account you want to work with.

2. Click **Transaction History** tab, then click **Repayment Schedule** sub tab.

View the following information:

In this field:	View this:
<b>Repayment Schedule section</b>	
<b>Seq</b>	The payment sequence number.
<b>Date</b>	The repayment date.
<b># of Pmts</b>	The number of payments.
<b>Pmt Amt</b>	The payment amount.
<b>Generated</b>	If selected, indicates that the repayment schedule has been generated.
<b>Repayment Schedule Details section</b>	
<b>Date</b>	The repayment date.
<b>Payment Amt</b>	The payment amount.
<b>Principal Amt</b>	The amount paid to principal.
<b>Interest</b>	The amount paid to interest.
<b>Balance Principial</b>	The balance of the principal.

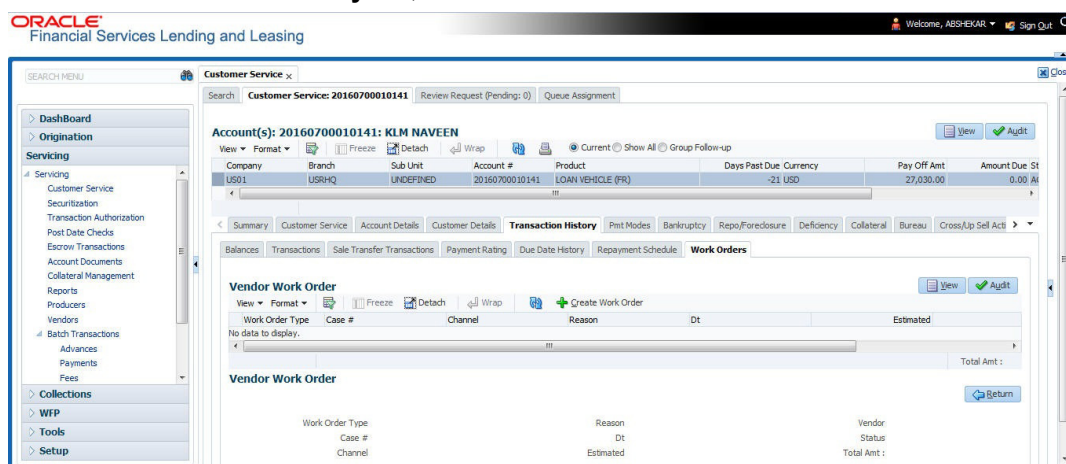

#### 4.10.7 **Work Order sub tab**

To expedite repossessions and foreclosures, the display only Vendor Work Order screen enables you to view all the work orders issued to different vendors for an account.

##### **To view the vendor work order screen**

1. Open the **Customer Service** screen and load the account you want to work with.

2. Click **Transaction History** tab, then click **Work Order** sub tab.

In the **Vendor Work Order** section, click **View**

View the following display only information:

In this field:	View this:
<b>Work Order Type</b>	The assigned work order type.
<b>Dt</b>	The assignment date.
<b>Estimated</b>	The estimated dollar amount of work order.
<b>Vendor</b>	The vendor number and name.
<b>Status</b>	The assigned status.
<b>Total Amt</b>	The total estimated dollar amount of all work orders.

You can create/view and maintain vendor work orders related to an account.

- To create and maintain vendor work orders, click **Create Work Order**. The system opens Vendor Management screen. You can perform tasks and record additional information, such as changing the work order's status and adding comments in the Work Orders section.

If vendor screen is already opened in the main screen and user tries to create new work order or open an existing work order, system displays the warning message as "Vendor management screen is already open. Please close it and retry".

- To view more detailed information about vendor work order, select the work order you want to view and click **View Work Order**. The **View Work Order** button appears faded if the responsibility does not allow access to the Vendor Work Order screen.

3. Click **Close** on the Vendor Management screen to return to the Customer Service screen.

For more information about using the Vendor Management screen, please refer to the **Vendor** chapter in the User Guide.

## 4.11 Customer Service screen's Pmt Modes tab

Open the **Customer Service** screen and load the account you want to work with. Click the **Pmt Modes** sub tab to view the sections under it.

### 4.11.1 ACH sub tab

If used, the **ACH** section displays information about automated clearing house and electronic fund transfers.

**To view the ACH information screen**

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Pmt Modes** tab, then click **ACH** sub tab.

The system displays the ACH details depending on the following option selected:

- Recurring - Select 'Recurring' to display all the Recurring ACH details.
- One-Time Phone - Select this option to display one time ACH details.
- All - Select 'All' to display both recurring and one-time phone ACH details.

If you have selected 'Recurring' or 'One-Time Phone' option, you can further Add, Edit, or Copy the details and perform any of the [Basic Operations](#) mentioned in Navigation chapter. On save, the system will automatically post the transaction capturing the current transaction date along with a comment as 'Direct Record Update' for the particular ACH transactions.

If you have selected 'Recurring' option, the following fields are displayed:

In this field:	View this:
<b>Reference #</b>	The unique reference number.
<b>Bank Name</b>	The bank name.
<b>Bank City</b>	Specify the city where the bank exist.
<b>Bank State</b>	Select the state where the bank exist form the drop-down list.
<b>Routing #</b>	The routing number.

In this field:	View this:
<b>Payment Mode</b>	<p>For an active Recurring ACH record, the payment mode selected in Contract tab is automatically populated. If not, select the type of repayment mode to indicate the type of 'Autopay/Direct Debit' using any of the following option from the drop-down list. The list is populated from REPAYMENT_PMT_MODE_CD lookup code.</p> <ul style="list-style-type: none"> <li>- AUTOPAY (ACH)</li> <li>- AUTOPAY (CREDIT CARD)</li> <li>- AUTOPAY (DEBIT CARD)</li> </ul> <p>For an AUTO PAY type of Payment Mode, ensure that at least one active ACH record exist and for CHECK type of Payment Mode, there are NO active ACH records.</p>
<b>Account Type</b>	The type of account.
<b>Name On Account</b>	Specify the name of the account.
<b>Account #</b>	The account number. If the organizational parameter UIX_HIDE_RESTRICTED_DATA is set to Y, this appears as a masked number; for example, XXXXX1234.
BIC	Select the Business Identifier Code from the drop-down list. The list displays the BIC codes defined in the system.
IBAN	<p>Specify the IBAN (International Bank Account Number). IBAN is used for identifying bank accounts across national borders with a minimal of risk of propagating transcription errors.</p> <p>Ensure that value entered satisfies the check-digit validation based on modulo 97. On save, system automatically validates the IBAN number length based on country code, characters, white spaces, and checksum. Validation is also done during posting non-monetary transaction (ACH Maintenance).</p> <p>You can maintain the IBAN length and other details required as per the country code in the user defined table (Setup &gt; Administration &gt; System &gt; User Defined Tables).</p> <p><b>Note:</b> IBAN for 'NL' country code (IBAN_FORMAT_NL) is defined by default with length of IBAN as 18.</p>
<b>Sequence Type</b>	<p>System displays the current Sequence Type of the selected account.</p> <p>Depending on the nature of direct debit, the sequence type can be one of the following:</p> <ul style="list-style-type: none"> <li>- First - First time direct debit</li> <li>- Recurrent - Subsequent repayments after first direct debit</li> <li>- Final - Final repayment</li> <li>- One-off - One time bullet contract repayment</li> </ul> <p>However, during the life cycle of the payment processing, the direct debit sequence type for an account can change.</p>
<b>Pmt Day</b>	The payment day.

<b>In this field:</b>	<b>View this:</b>
<b>Pmt Amt</b>	The Payment amount.
<b>Pmt Amt Excess</b>	The excess payment.
<b>Pmt Freq</b>	The payment frequency.
<b>Fee Amt</b>	The amount charged as fees.
<b>Direct Debit Fee</b>	If selected indicates that the fees is debited directly.
<b>Start Dt</b>	The date the system began using ACH payments for this account
<b>End Dt</b>	The ACH end date.
<b>Default</b>	If selected indicates that this ACH is the default ACH for the account.
<b>Status</b>	The status of the account.

---

**Note**

This information can be edited using the Maintenance screen and the non monetary transaction ACH MAINTENANCE.

---

If you have selected 'One-Time Phone' or 'All' option, the following fields are displayed:

<b>In this field:</b>	<b>View this:</b>
<b>Reference #</b>	The unique reference number.
<b>Bank Name</b>	The bank name.
<b>Bank City</b>	The bank city.
<b>Bank State</b>	List of available states.
<b>Routing #</b>	The routing number.
<b>Payment Mode</b>	<p>For an active 'One-Time Phone' or 'All' ACH record, the payment mode selected in Contract tab is automatically populated. If not, select the type of repayment mode to indicate the type of 'Autopay/Direct Debit' using any of the following option from the drop-down list. The list is populated from REPAYMENT_PMT_MODE_CD lookup code.</p> <ul style="list-style-type: none"> <li>- AUTOPAY (ACH)</li> <li>- AUTOPAY (CREDIT CARD)</li> <li>- AUTOPAY (DEBIT CARD)</li> </ul> <p>For an AUTO PAY type of Payment Mode, ensure that at least one active ACH record exist and for CHECK type of Payment Mode, there are NO active ACH records.</p>
<b>Account Type</b>	The type of account.

In this field:	View this:
<b>Name On Account</b>	The account name.
<b>Account #</b>	The account number. If the organizational parameter <code>UIX_HIDE_RESTRICTED_DATA</code> is set to Y, this appears as a masked number; for example, XXXXX1234.
<b>BIC</b>	Select the Business Identifier Code from the drop-down list. The list displays the BIC codes defined in the system.
<b>IBAN</b>	<p>Specify the IBAN (International Bank Account Number). IBAN is used for identifying bank accounts across national borders with a minimal of risk of propagating transcription errors.</p> <p>Ensure that value entered satisfies the check-digit validation based on modulo 97. <b>Drawer Address1</b>	Address of withdrawer,
<b>Drawer Address2</b>	Address of withdrawer,
<b>Drawer City</b>	City of withdrawer,
<b>Drawer State</b>	State of withdrawer,
<b>Drawer Zip</b>	Zip of withdrawer,
<b>Status</b>	The status of the account.

---

**Note**

This information can be edited using the Maintenance screen and the non monetary transaction ACH MAINTENANCE.

---

### **Copying ACH Details**

You can copy and maintain ACH details from **Pmt Modes** sub tab of **Customer Service** screen. Copy option is available only when you have selected the ACH option as either Recurring or One-Time Phone.

#### **To copy the ACH details**

1. Select a record and click **Copy**.
2. A confirmation message is displayed as 'Do you want to Copy ACH Record?'. Click **OK** to copy and create a new record.

On confirmation, the system creates a new row with new reference number, Status as 'Active', Default as 'N', Start Dt as 'System Dt + Pre note days' and all the other details as maintained in the copied record. When a new record is created using the **Copy** function, the system will post a 'New ACH Transaction' capturing the current transaction date along with a comment as 'Direct Record Update'.

#### **4.11.2 Coupon sub tab**

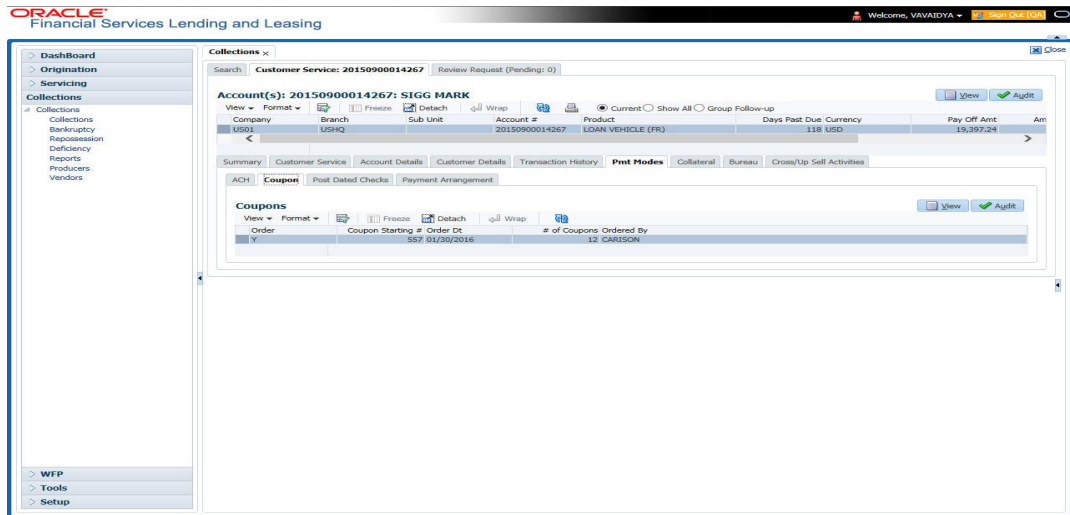

The **Coupon** section displays information regarding coupons associated with the account.

#### **To view the coupon screen**

1. Open the **Customer Service** screen and load the account you want to work with.

2. Click **Pmt Modes** tab, then click **Coupon** sub tab.

View the following:

In this field:	View this:
<b>Order</b>	If the coupons are ordered for the selected account.
<b>Coupon Start-ing #</b>	The starting number of coupon ordered for the customer.
<b>Order Date</b>	The order date of the coupon.
<b># of Coupons</b>	The total number of coupons ordered for the customer.
<b>Ordered By</b>	The person who ordered the coupons

#### 4.11.3 Post Dated Checks sub tab

The **Post Date Check** section enables you to view any post dated check information for the account, if PDC is a method of repayment.

**To view the post dated checks details screen**

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Pmt Modes** tab, then click **Post Dated Checks** sub tab.

View the following:

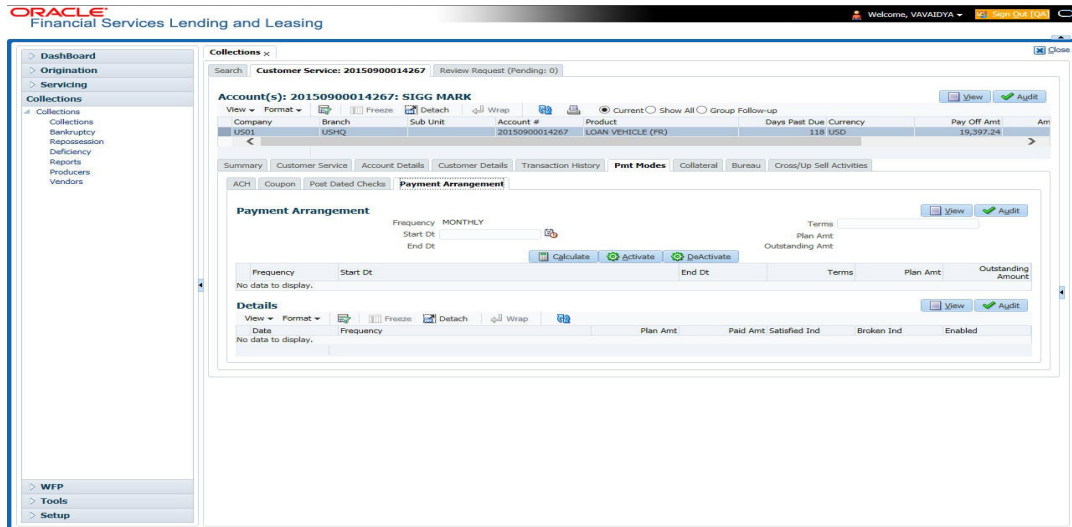

In this field:	View this:
<b>PDC Type</b>	The type of post dated check in use.
<b>Status</b>	The status of the post dated check.
<b>Check #</b>	The check number of the post dated check.
<b>Check Dt</b>	The check date of the post dated check.
<b>Check Amt</b>	The check amount of the post dated check.
<b>Bank Name</b>	The bank name of the post dated check.
<b>Account Type</b>	The account type of the post dated check.
<b>Account #</b>	The account number of the post dated check.
<b>Comments</b>	Additional information as comments, if any.

#### 4.11.4 **Payment Arrangement sub tab**

The **Payment Arrangement** section enables you to define and calculate the payment amount for the account with status Charge-off. An alert message will be displayed in the Customer Service screen when the user tries to view the payment arrangement for account other than charged off status.

##### To view the Payment Arrangement details screen

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Pmt Modes** tab, then click **Payment Arrangement** sub tab.

The Payment Arrangement section is enabled only when the Payment Arrangement Batch job is posted.

3. In the **Payment Arrangement** section, click **View** to view the following details:

In this field:	Do this:
<b>Frequency</b>	Displays the payment frequency.
<b>Start Date</b>	Enter the start date from when the customer pays.
<b>Terms</b>	Enter the number of payments. Note that if the term is specified as zero "0", an error message is displayed.
<b>End Date</b>	View the end date of the payment.
<b>Plan Amount</b>	View the payment amount which the customer plans to pay.
<b>Outstanding Amount</b>	View the outstanding amount.

4. In the **Details** section, click **View** to view the following details:

In this field:	View this:
<b>Date</b>	View the start date of the payment plan.
<b>Frequency</b>	View the payment frequency.
<b>Plan Amount</b>	View the planned payment amount.
<b>Paid Amount</b>	View the paid amount.
<b>Satisfied Ind</b>	Indicates that the customer done the payment arrangements.
<b>Broken Ind</b>	Indicates that the customer did not make the payment arrangement.
<b>Enabled Ind</b>	Indicates that the arrangement is active

On Clicking **Deactivate**, the account will be deactivated.

To add a new payment rearrangement plan, previous plan has to be manually deactivated otherwise the system displays an error message. This condition applies to the payment arrangement previous plan even when the 'Broken Indicator' is selected.

Only one Payment arrangement plan can exist at a time. If a schedule broken by the customer make another payment arrangement, the first payment arrangement has to be deactivated and only then, the other payment can be added.

## 4.12 Customer Service screen's Bankruptcy tab

The Bankruptcy screen enables you to record the details of a bankruptcy. This information usually is supplied from the customer/business or customer's/business attorney. You can track each stage of the bankruptcy process based on its follow-up date and record information using the Details and Tracking sections.

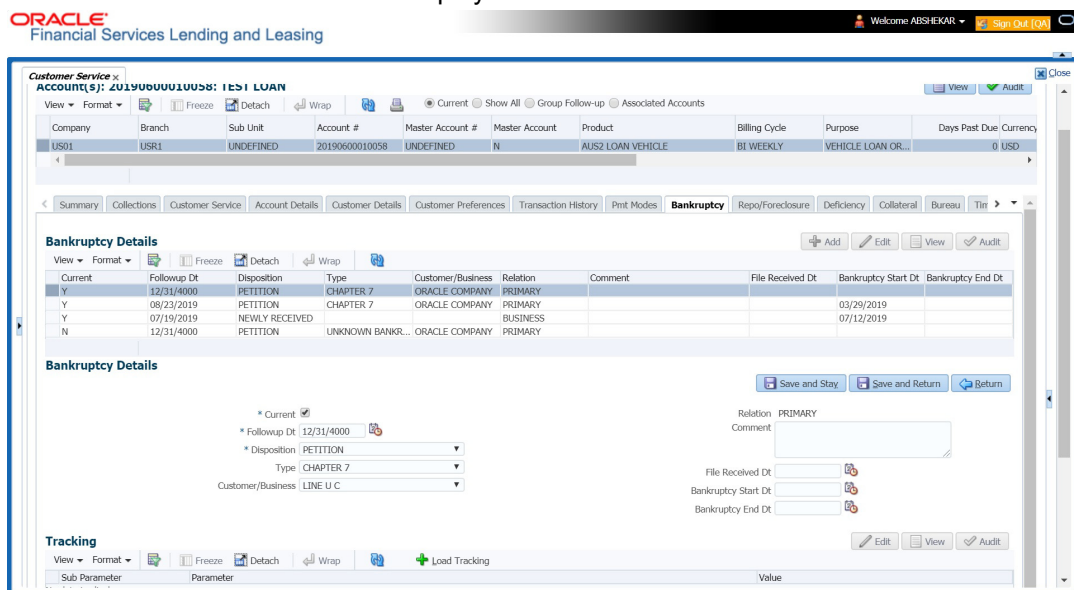

As there are occasions when a borrower files bankruptcy more than once during tenure of the Loan, you can record information for multiple bankruptcies. The **Add** button enables you to create a new bankruptcy record with different start and end dates. You can also use the

Bankruptcy screen to view previous bankruptcy record using Next and Previous buttons in Detail section. The Current box in Detail section indicates the current bankruptcy details.

When a Bankruptcy condition is opened on an account, the system defaults a detailed tracking record with 'Current' field enabled and 'Follow up date' defaulted to system date. The 'Disposition' is defaulted as 'NEWLY RECEIVED'. The system only adds a new detail tracking record. No processing will be done with respect to detail tracking record when the bankruptcy condition is closed.

### To enter bankruptcy details for an account

1. Open the **Customer Service** screen and load the account you want to work with.
  2. Click **Bankruptcy** tab.
  3. In the **Bankruptcy Details** section, select the bankruptcy record you want to work with.
- OF-
4. Select **Add** to refresh the Bankruptcy screen to create a new record.

5. In the **Bankruptcy Details** section, enter, view or edit the following information:

Field:	Do this:
<b>Current</b>	Select to indicate this is the current bankruptcy record. If selected, system disables the current indicator for any previous record for the same relation.
<b>Follow up Dt</b>	Enter the follow-up date for the bankruptcy.
<b>Disposition</b>	Select the bankruptcy disposition.
<b>Type</b>	Select the bankruptcy type.
<b>Customer/Business</b>	Select the customer/business from the drop-down list
<b>Relation</b>	Based on Customer/Business selected, system displays either the type of customer relation or as business relation associated to account.
<b>Comment</b>	Enter a comment.

Field:	Do this:
<b>File Received Dt</b>	Select the file received date for the bankruptcy.
<b>Bankruptcy Start Dt</b>	Select the bankruptcy start date.
<b>Bankruptcy End Dt</b>	Select the bankruptcy end date.

6. Click **Save**.
7. In the **Tracking** section, click **Load Tracking**. The system loads the bankruptcy tracking parameters.
8. If you want to reduce the list of parameters, select a sub attribute in the Sub Attribute field. If your system has been configured to use the Sub Attribute field, only attributes in a particular group appear in parameter display.
9. Complete the **Create Tracking** section by entering information regarding bankruptcy in the Value field for each corresponding Parameter, click Save on the Bankruptcy screen.

#### 4.12.1 **Call Activities sub tab**

Call activity section includes calls from customer, calls you make regarding the account or changes to the condition of the account. Entries in the **Call Activities** section are listed in reverse chronological order of follow-up date.

For details on how to Record a Call Activity, refer [Call Activities sub tab](#) section in “Customer Service screen’s Customer Service tab” section.

#### 4.12.2 **Comments sub tab**

Oracle Financial Services Lending and Leasing enables you to record comments on the Customer Service screen using **Comments** tab. These comments also appear under the Comments sub tab.

For details on how to Record a Comment, refer [Comments sub tab](#) section in “Customer Service screen’s Customer Service tab” section.

#### 4.12.3 **Due Date History sub tab**

The Due Date History tab section provides a delinquency history, by payment, by displaying a history of all due dates, along with when actual payment was made for that due date and the subsequent balance. If a payment was delinquent, Due Date History section displays the number of days the customer was delinquent against each due date.

For more details, refer [Due Date History sub tab](#) section in “Customer Service screen’s Transaction History tab” section.

### 4.13 **Customer Service screen’s Repo/Foreclosure tab**

The Repossession/Foreclosure screen enables you to record information regarding repossessions/foreclosure in a manner similar to how bankruptcies are recorded on the Bankruptcy screen. You can track each stage of repossession/foreclosure process based on the follow-up date and record information using the Details and Tracking section.

## 4.13.1 Repossession sub tab

On occasion, a lender performs multiple repossessions for the same Loan. The Create New Repossession button on the Repossession screen enables you to create a new repossession record for a different collateral and different start and end dates. You can also use the Repossession screen to view previous repossession information using the Next and Previous buttons in the Details section. The Current box in Details section indicates the current repossession record for each asset.

This tab will be available only when the collateral type associated with the Loan account is a Vehicle.

You can update the current record, but previous records cannot be modified.

When the REPO call activity is posted, system defaults the primary collateral details and current status will be checked.

When a Repossession condition is opened on an account, the system defaults a detailed tracking record with 'Current' field enabled and 'Follow up date' defaulted to system date. The 'Disposition' is defaulted as 'NEWLY RECEIVED'. The system only adds a new detail tracking record. No processing will be done with respect to the detail tracking record when the repossession condition is closed.

### To Specify repossession details for an account

1. Open the **Customer Service** screen and load the account you want to work with.
  2. Click the **Repo/Foreclosure** sub tab, then click **Repossession**.
  3. In the **Repossession Details** section, select the repossession record you want to work with.
- or-
4. Click **Add** to refresh the Repossession screen to create a new record.

The screenshot shows the Oracle Financial Services Lending and Leasing interface. The main window is titled 'Customer Service' and displays account details for '20170500010085: JENA PRITAM / DRY SEC'. Below the account information, there is a 'Repossession' section with a table of records. The table has columns for 'Current', 'Followup Dt', 'Type', 'Collateral', 'Disposition', 'File Received Dt', 'Repo Dt', 'Repo End Dt', and 'Comment'. The first record is highlighted, and the 'Current' checkbox is checked. Below the table, there are input fields for 'Current' (checked), 'Followup Dt' (12/31/4000), 'Type' (VOLUNTARY), 'Collateral' (2017 TOYOTA CAMRY SFDG), and 'Disposition' (NEWLY RECEIVED). There are also buttons for 'Save and Add', 'Save and Stay', 'Save and Return', and 'Return'.

5. In the **Details** section, add view or edit the following information:

In this field:	Do this:
<b>Current</b>	Select the check box to indicate if this is the current repossession record.

<b>In this field:</b>	<b>Do this:</b>
<b>Followup Dt</b>	Specify the follow-up date for the repossession from the adjoining calendar.
<b>Type</b>	Select the repossession type.
<b>Collateral</b>	Select the collateral involved in the repossession.
<b>Disposition</b>	Select the repossession disposition.
<b>File Received Dt</b>	Select the file received date for the repossession.
<b>Repo Dt</b>	Select the repossession start date.
<b>Repo End Dt</b>	Select the repossession end date.
<b>Comment</b>	Specify a comment.
<b>Case Repo Details</b> - This section displays the following details based on the case response received from the interfaced third party system.	
<b>Case#</b>	Displays the case number of the repossession.
<b>National Forwarder</b>	If checked, indicates that National Forwarder carrier is equipped in the repossession.
<b>Condition Report Status</b>	If checked, indicates that the condition report exist.
<b>Condition Report Recd Dt</b>	Displays the date when condition report was received.
<b>Mileage</b>	Displays the mileage of the vehicle.
<b>Key Status</b>	Indicates if the vehicle key(s) is available.
<b>Field Agent Name</b>	Displays the name of the field agent involved in the repossession.
<b>Address</b>	Displays the address of the field agent.
<b>Phone</b>	Displays the contact number of the field agent.
<b>Storage Location</b>	Displays the location where the vehicle is currently stored.
<b>Repo Location</b>	Displays the repossession location.
<b>Police Dept Name</b>	Displays the name of police department involved in repossession.

6. In the **Tracking** section, click **Load Tracking**. The system loads the repossession tracking parameters.
7. If you want to reduce the list of parameters, select a sub attribute in the Sub Attribute box. If your system has been configured to use the Sub Attribute field, only attributes in a particular group appear in the parameter display.
8. Complete the **Tracking** section by entering information regarding repossession in the Value field for each corresponding Parameter, then click **Save**.

## 4.13.2 Foreclosure sub tab

The Foreclosure screen enables you to record information regarding foreclosure in a manner similar to how bankruptcies are recorded on the Bankruptcy screen. You can track each stage of the repossession process based on follow-up date and record information using Details and Tracking section.

A lender can perform multiple foreclosures for the same Loan. The Create New Foreclosure button on the Foreclosure screen enable you to create a new foreclosure record for a different collateral and different start and end dates. You can also use the Foreclosure screens to view the previous foreclosure information using Previous and Next buttons in Details section. The Current box in Details section indicates the current foreclosure record for each asset.

This tab will be available only when the Collateral type associated with the Loan account is home.

You can update the current record, but previous records cannot be modified.

### To enter foreclosure details for an account

1. Open the **Customer Service** screen and load the account you want to work with.
  2. Click the **Repo/Foreclosure** sub tab, then click **Foreclosure**.
  3. In the **Foreclosure Details** section, select the foreclosure record you want to work with.
- OR-
4. Click **Add** to refresh the Foreclosure screen to create a new record.

The screenshot shows the Oracle Financial Services Lending and Leasing Customer Service interface. The main window is titled 'Customer Service' and contains a search bar and a 'Review Request (Pending: 0)' indicator. Below this, there's a section for 'Account(s)' with a table showing columns for Company, Branch, Sub Unit, Account #, Product, Days Past Due, Currency, and Pay Off Amt. The 'Repo/Foreclosure' sub-tab is active, displaying 'Repossession Details' and 'Tracking' sections. The 'Repossession Details' section includes a table with columns for Current, Followup Dt, Type, Collateral, Disposition, File Received Dt, Repo Dt, and Repo End Dt. The 'Current' checkbox is checked. Below the table, there are input fields for \* Current, \* Followup Dt (12/31/4000), \* Collateral, \* Disposition, Repo Dt, and Repo End Dt. The 'Tracking' section has a table with columns for Sub Parameter, Parameter, and Value. The 'Call Activities' section has a table with columns for Action, Result, Contact, Reason, Cancel, Promise Dt, Promise Amt, Condition, and App.

5. In the **Foreclosure Details** section, enter view or edit the following information:

In this field:	Do this:
<b>Current box</b>	Select to indicate this is the current repossession/foreclosure record.

In this field:	Do this:
<b>Followup Dt</b>	Select the follow-up date for the repossession/foreclosure.
<b>Disposition</b>	Select the foreclosure disposition.
<b>Type</b>	Select the foreclosure type.
<b>Collateral</b>	Select the foreclosure asset.
<b>File Received Dt</b>	Enter the file received date for the foreclosure.
<b>Foreclosure Start Dt</b>	Enter the foreclosure start date.
<b>Foreclosure End Dt</b>	Enter the foreclosure end date.
<b>Comment</b>	Enter a comment.

6. In the **Tracking** section, click **Load Tracking**. The system loads the foreclosure tracking parameters.
7. If you want to reduce the list of parameters, select a sub attribute in the Sub Attribute box. If your system has been configured to use the Sub Attribute field, only attributes in a particular group appear in the parameter display.
8. Complete the **Tracking** section by entering information regarding foreclosure in the Value field for each corresponding Parameter, then click **Save**.

### 4.13.3 Analysis sub tab

The Analysis screen enables you to create and analyze possible scenarios for re marketing and sale of the asset. This enables you to calculate the possible gain or loss in the sale of an asset. Expenses already incurred on the asset are displayed on Expenses sub screen. You can change the numbers if you expect more expenses by the time asset is sold. You can have up to three Repo/Foreclosure and three Sales analyzes on each Analysis screen.

#### **To complete a repossession/foreclosure analysis or sales analysis for an account**

1. Open the **Customer Service** screen and load the account you want to work with.
2. On the Customer Service screen, click **Repo/Foreclosure** tab and then click **Analysis**.
3. In the **Analysis** section, select the analysis record you want to work with and click **Load**.

-OF-

- Click **Add** to refresh the Foreclosure screen to create a new record.

- In the **Analysis** section, select the **Current** box if you wish to indicate that this is current analysis worksheet.
- In the **Analysis** section, use the **Level** field to select analysis level you want to use, ACCOUNT or ASSET.
  - Select **Account** if you want analysis to use value of the entire account.
  - or -
  - Select **Asset** if you want analysis to use the value of a particular asset.
- In the **Analysis** section, enter, view, or edit the following information:

In this field:	Do this:
<b>Current Ind</b>	Current Indicator. Select the check box if analysis is current.
<b>Level</b>	Select the Analysis level from the drop down list.
<b>Balance %</b>	Specify balance allocation percentage.
<b>Analysis Dt</b>	View the analysis date.
<b>Current Value</b>	View the asset current total value.
<b>Asset</b>	If you want to perform an analysis for a particular asset, select the asset.
<b>Comment</b>	Specify comment associated with the analysis.

- Specify all the required information in **Analysis** or **Bid** section, depending on the type of incident you are analyzing.
- Complete the details in **Expenses** and **Refunds** sub screens, corresponding to analyze or bid number on the **Analysis** screen. The data here is loaded to the analysis and bid columns as 'expenses' and 'refunds'.

- To complete the **Expenses** sub screen:

In this field:	Do this:
<b>Expense Type</b>	Select the expense type.
<b>Manual</b>	Indicates that the expense was entered manually.
<b>Analysis1 Amt</b>	Specify the expense amount for analysis1.
<b>Analysis2 Amt</b>	Specify the expense amount for analysis2.
<b>Analysis3 Amt</b>	Specify the expense amount for analysis3.
<b>Bid1 Amt</b>	Specify the expense amount for bid1.
<b>Bid2 Amt</b>	Specify the expense amount for bid2.
<b>Bid3 Amt</b>	Specify the expense amount for bid3.

- To complete the **Refunds** sub screen:

In this field:	Do this:
<b>Refund Type</b>	Select the refund type.
<b>Manual</b>	Indicates that the refund was entered manually.
<b>Analysis1 Amt</b>	Specify the refund amount for analysis1.
<b>Analysis2 Amt</b>	Specify the refund amount for analysis2.
<b>Analysis3 Amt</b>	Specify the refund amount for analysis3.
<b>Bid1 Amt</b>	Specify the refund amount for bid1.
<b>Bid2 Amt</b>	Specify the refund amount for bid2.
<b>Bid3 Amt</b>	Specify the refund amount for bid3.

10. Select the Corresponding Analysis/Bid to Load details Maintained in the Expense and Refund sections.
11. Repeat steps 4 to 8 with information regarding other repossession/foreclosure or sales analysis.
12. In **Status** field, select status of the analysis: APPROVED or REJECTED.
13. When you have decided which analysis or which sale bid you want to approve, select your choice in either the **Final Analysis** or **Final Bid** section.

---

**Note**

You can approve only one analysis. Based on Analysis approved on 'Save And Return' Corresponding Radio button will be enabled in the Final section of Analysis details.

---

14. Click **Save**.

#### 4.13.4 **Remarketing sub tab**

In the Remarketing sub tab you can trigger remarketing request and auto generate resale work orders. A collateral remarketing request is an instruction to the vendor of third party auctioning system to pick-up the repossessed asset from the storage location and proceed with auction.

In the Remarketing sub tab, you can do the following:

- Define Remarketing request
- View Remarketing Proceed Details
- Maintain Status History, Tracking Attributes, Expenses and Refunds.

For detailed information about the process of collateral remarketing, refer to 'Remarketing' chapter in Collections User Guide.

#### 4.13.5 **Call Activities sub tab**

Call activity section includes calls from customer, calls you make regarding the account or changes to the condition of the account. Entries in the **Call Activities** section are listed in reverse chronological order of follow-up date.

For details on how to Record a Call Activity, refer [Call Activities sub tab](#) section in "Customer Service screen's Customer Service tab" section.

#### 4.13.6 **Comments sub tab**

Oracle Financial Services Lending and Leasing enables you to record comments on the Customer Service screen using **Comments** tab. These comments also appear under the Comments sub tab.

For details on how to Record a Comment, refer [Comments sub tab](#) section in "Customer Service screen's Customer Service tab" section.

#### 4.13.7 **Due Date History sub tab**

The Due Date History tab section provides a delinquency history, by payment, by displaying a history of all due dates, along with when actual payment was made for that due date and the subsequent balance. If a payment was delinquent, Due Date History section displays the number of days the customer was delinquent against each due date.

For more details, refer [Due Date History sub tab](#) section in "Customer Service screen's Transaction History tab" section.

### 4.14 **Customer Service screen's Deficiency tab**

The Deficiency screen enables you to record information about deficiency accounts i.e. accounts that are no longer collectable. You can create and track specific details on status of the charged-off account for timely follow-up and analysis. You can also track each stage of the deficiency process based on its follow-up date and record information using the Details and Tracking sections.

The **Add** button enables you to create a new deficiency record with different start and end dates. You can also use the **Deficiency Details** screen to view deficiency information. The **Current** field in **Deficiency Details** section indicates the current bankruptcy details. To view the balance of a charged off account, click the Transaction History tab on Customer Service screen, then click Balances. On the Account Details screen's Balance Group section, click

Deficiency. For more information on Deficiency Balance, see Balances sub tab section in this chapter.

When a Deficiency condition is opened on an account, the system defaults a detailed tracking record with 'Current' field enabled and 'Follow up date' defaulted to system date. The 'Disposition' is defaulted as 'NEWLY RECEIVED'. The system only adds a new detail tracking record. No processing will be done with respect to the detail tracking record when the deficiency condition is closed.

**To enter deficiency details for an account**

1. Open the **Customer Service** screen and load the account you want to work with.
  2. Click **Deficiency** tab.
  3. In the **Deficiency Detail** section, select the deficiency record you want to work with
- OF-
4. Click **Add** to refresh the Deficiency screen to create a new record.

5. In the **Deficiency Detail** section, enter, view, or edit the following information:

In this field:	Do this:
<b>Current</b>	Select to indicate this is the current deficiency record.
<b>Followup Dt</b>	Specify the follow-up date for the deficiency.
<b>Disposition</b>	Select the deficiency disposition.
<b>Type</b>	Select the deficiency type.
<b>Comment</b>	Specify a comment.
<b>File Received Dt</b>	Specify the file received date for the deficiency.
<b>Charge Off Dt</b>	Specify the deficiency start date.

In this field:	Do this:
<b>Deficiency End Dt</b>	Specify the deficiency end date.

6. Click **Save**.
7. In the **Tracking** section, click **Load Tracking**. The system loads deficiency tracking parameters that track actions taken to collect on the account.
8. If you want to reduce the list of parameters, select a sub attribute in the **Sub Attribute** field. If your system has been configured to use the Sub Attribute field, only attributes in a particular group appear in the parameter display.
9. Complete the Tracking section by entering information regarding deficiency in the Value field for each corresponding Parameter, then click **Save**.

#### **4.14.1 Call Activities sub tab**

Call activity section includes calls from customer, calls you make regarding the account or changes to the condition of the account. Entries in the **Call Activities** section are listed in reverse chronological order of follow-up date.

For details on how to Record a Call Activity, refer [Call Activities sub tab](#) section in “Customer Service screen’s Customer Service tab” section.

#### **4.14.2 Comments sub tab**

Oracle Financial Services Lending and Leasing enables you to record comments on the Customer Service screen using **Comments** tab. These comments also appear under the Comments sub tab.

For details on how to Record a Comment, refer [Comments sub tab](#) section in “Customer Service screen’s Customer Service tab” section.

#### **4.14.3 Due Date History sub tab**

The Due Date History tab section provides a delinquency history, by payment, by displaying a history of all due dates, along with when actual payment was made for that due date and the subsequent balance. If a payment was delinquent, Due Date History section displays the number of days the customer was delinquent against each due date.

For more details, refer [Due Date History sub tab](#) section in “Customer Service screen’s Transaction History tab” section.

### **4.15 Customer Service screen’s Collateral tab**

The Collateral screen displays collateral information regarding any assets associated with an account. Collateral can be a vehicle, home, or something else, such as household goods. The Collateral screen contains the Vehicle/Home/Other and Seller sub tabs. The Vehicle and Other sub tabs further consists of Valuation and Tracking sub tabs. The Collateral tab appears only for the secured loan accounts.

#### **To view the collateral details**

1. Open the **Customer Service** screen and load the account you want to work with.

- Click **Collateral** tab. System displays the following screen:  
If the account's collateral is a vehicle, the **Collateral** screen opens at **Vehicle** tab:

The screenshot shows the Oracle Financial Services Lending and Leasing interface. The top navigation bar includes 'Collateral' and 'Timeline'. The main content area is titled 'Vehicle' and contains a table with the following data:

Primary	Description	Status	Asset Type	Lien Status	Lien Event Date	Second Lien Holder	Lien Release Entity	Entity Name	Identification #
Y	2019 TES LOAN V...	ACTIVE	TEST_VEHICLE	UNDEFINED			CUSTOMER		
N	2019 TATA SD23 ...	SUBSTITUTED	VEHICLE	UNDEFINED			CUSTOMER		

Below the table are various input fields for 'Type & Description', 'Usage/Rental Details (Cycle)', and 'Custom Fields'. The 'Status' is set to 'ACTIVE'.

- If account's collateral is a home, the **Collateral** screen opens at the **Home** tab:

The screenshot shows the Oracle Financial Services Lending and Leasing interface. The top navigation bar includes 'Collateral', 'Bureau', and 'Timeline'. The main content area is titled 'Home' and contains a table with the following data:

Primary	Asset Class	Asset Type	Sub Type	Occupancy	Lien Status	Lien Event Date	Second Lien Holder	Comments	Lien Release Entity	Entity Na
Y	NEW HOME	HOME	SINGLE FAMILY H...		NEW	12/01/2017	second lien holder	User Comments	CUSTOMER	ENTITY
N	NEW HOME	HOME	SINGLE FAMILY H...		UNDEFINED				CUSTOMER	TEST VO

Below the table are various input fields for 'Type & Description', 'Deed Details', and 'Custom Fields'. The 'Status' is set to 'ACTIVE'.

- If account's collateral is neither a vehicle nor a home, the **Collateral** screen opens at the **Other Collateral**:

Clicking on **Asset #** in the Vehicle sub tab takes you to Collateral Management screen opening respective collateral. You can modify the details on **Collateral Management** screen by clicking on 'Edit' and saving the record.

#### Note

While adding Collateral to an account, you can either select/deselect the 'Substitution' check box. If selected (default), system marks all the other collaterals/assets linked to the account as 'Substituted' and the same status is indicated in Collateral Management screen. If deselected, then there is no change in the Asset status.

The system displays a warning message if the Collateral Management screen is already open.

### 4.15.1 Valuation sub tab

With the Valuation sub screen, you can view the collateral or asset valuation for an account.

#### To view the collateral or asset valuation for an account

1. Open the **Customer Service** screen and load the account you want to work with.
2. Click **Collateral** tab and then Valuation.
3. Click the **Valuation** sub tab to view the following information:

In this field:	View this:
<b>Value section</b>	
<b>Current</b>	Select if this is the current valuation.
<b>Valuation Dt</b>	The valuation date of the vehicle.
<b>Source</b>	The valuation source.
<b>Edition</b>	The valuation edition.

In this field:	View this:
<b>Supplement</b>	The valuation supplement.
<b>Wholesale section</b>	
<b>Wholesale Base</b>	The wholesale value.
<b>Usage</b>	The usage. This pertains to Loan and usually is entered as the current mileage.
<b>Retail section</b>	
<b>Retail Amt</b>	Specify the retail base value.
<b>Addons Amt (+)</b>	The add-ons value.
<b>Usage Value Amt (+)</b>	The usage value; that is, the monetary effect that current mileage has on the value of vehicle.
<b>Total Amt (=)</b>	The total value.
<b>Addons section</b>	
<b>Addons/Attributes</b>	Select the add-on/attribute.
<b>Value</b>	The value of the attribute.
<b>Amount</b>	The add-on amount.

---

**Note**

Assets can have exactly one current valuation.

---

#### 4.15.2 Tracking sub tab

With the Tracking sub screen, you can view collateral or asset tracking details to an account, such as the location of title, liens, and insurance information.

The Tracking Attributes for Line of credit accounts in this screen can also be loaded in bulk through file upload process. While doing so, ensure that the input data file definitions are in sync with attribute names. Before processing the bulk upload, system validates if the Tracking Attributes are already loaded. If not, system loads the Tracking Attributes and then updates the details.

**To view the collateral or asset tracking for an account**

1. Open the **Customer Service** screen and load the account you want to work with.
2. On the Customer Service screen, click **Collateral** tab.
3. On the available screen (**Vehicle, Home, or Other**), click the **Tracking** sub tab.
4. On the Tracking sub screen, enter, view, or edit the following information:

In this field:	View this:
<b>Tracking Items section</b>	

In this field:	View this:
<b>Select</b>	If selected, indicates that this is the current record.
<b>Tracking Item</b>	The tracking type.
<b>Disposition</b>	The disposition.
<b>Start Dt</b>	The tracking start date.
<b>End Dt</b>	The tracking end date.
<b>Followup Dt</b>	The next follow-up date.
<b>Comment</b>	Comments if any.
<b>Tracking Item Details section</b>	
<b>Enabled</b>	Select to track the information from start date in the Start Dt field.
<b>Parameter</b>	The parameter.
<b>Value</b>	The tracking parameter value.

### 4.15.3 Vacation Ownership tab

In the Vacation Ownership sub tab you can capture and maintain 'Timeshare' specific collateral details of an account. This tab is displayed only for 'Home' collateral and allows to maintain only one record for the selected account.

In Vacation Ownership or Timeshare industry, 'points' represent monetary equivalent value and in a points-based timeshare ownership system, members/owners use the allotted points to exchange/trade collaterals. OFSLL uses these points for Asst Billing calculations while deriving the transaction amount as detailed in Setup > Asset Billing Rate screen.

Also in Vacation Ownership or Timeshare industry, 'Tiers' are used to classify a membership into different levels based on total points at Master Accounts. Each level of membership offers more perks than previous level. OFSLL supports points-based '[Tier Calculation](#)' at Master Account level using the Formula parameters in Setup > User Defined Parameters screen.

Data in Vacation Ownership tab can also be populated from the following options:

- Create Collateral Web Service
- Create and Update Collateral Upload files
- API Process
- Account Onboarding

#### **To maintain Vacation Ownership Elements for an account**

1. Open the **Customer Service** screen and load the account you want to work with.
2. On the Customer Service screen, click **Collateral** tab.

- Click Home > Vacation Ownership sub tab.

The screenshot displays the 'Vacation Ownership Elements' form in the Oracle Financial Services Lending and Leasing application. The form is organized into several sections: 'Vacation Ownership Elements' at the top with a data grid, a main form area with various input fields and checkboxes, and 'Tracking Attributes' at the bottom. The main form area includes fields for Club Name, Points, Billing Points, First Year Proration, Resort Identifier, Association Id, Building, Room/Unit Type, Unit, Week, Site of Inventory, Phase Number, Usage Type, Usage Start Date, and several membership options (Plus Membership Type, PR Marking, Signature Grand Father, Club Indicator, Expiration Date of Asset, Asset Travel Date, Resale Indicator, Grand Father Points). There are also ten 'Other Attribute' fields and five 'Membership' options (Membership 1 Opt through Membership 5 Opt). The interface includes standard Oracle navigation and control buttons like 'Save and Stay', 'Save and Return', 'Return', 'Edit', 'View', and 'Audit'.

- In the Vacation Ownership Elements section, view, or edit the following information:

In this field:	View this:
<b>Club Name</b>	Select the Club Name from the drop-down list.
<b>Points</b>	Specify the points up to two decimal digit.
<b>Billing Points</b>	View the auto populated billing points. If the Asset Usage Type Sub Code is selected as FULL, this field is populated with total Points available in Points field. If the Asset Usage Type Sub Code is selected as HALF, this field is populated with total Points/2 available in Points field.
<b>First Year Proration</b>	Select the check box for first year proration.
<b>Resort Identifier</b>	Select the Resort Identifier from the drop-down list.
<b>Association Id</b>	Select the Association Id from the drop-down list.
<b>Building</b>	Select the Building from the drop-down list.
<b>Room/Unit Type</b>	Select the Room/Unit Type from the drop-down list.
<b>Unit</b>	Select the Unit from the drop-down list.
<b>Week</b>	Select the Week from the drop-down list.
<b>Site of Inventory</b>	Select the Site of Inventory from the drop-down list.
<b>Phase Number</b>	Select the Phase Number from the drop-down list.
<b>Usage Type</b>	Select the Usage Type from the drop-down list.
<b>Usage Start Date</b>	Select the Usage Start Date from adjoining calendar.
<b>Plus Membership Type</b>	Check this box to indicate Plus Membership Type.
<b>PR Marking</b>	Check this box to indicate PR Marking.

In this field:	View this:
<b>Signature Grand Father</b>	Check this box to indicate Signature Grand Father.
<b>Club Indicator</b>	Check this box to indicate Club Indicator.
<b>Expiration Date of Asset</b>	Select the Expiration Date of Asset from adjoining calendar. This date is used for 'Tier Calculation' in the system.
<b>Asset Travel Date</b>	Select the Asset Travel Date from adjoining calendar.
<b>Resale Indicator</b>	Check this box to indicate Resale. On disabling this check box system considers Asset Points and Grand Father Points for 'Tier Calculation' using formula Parameters.
<b>Grand Father Points</b>	Specify the Grand Father Points. These points are used for 'Tier Calculation' in the system using formula parameters.
<b>Additional Attributes</b> - This section consists of additional 15 configurable fields as indicated below 5 check boxes - Membership 1-5 Opt 5 drop-down lists - Other Attribute 1-5 5 Calendar fields - Other Attribute 5-10	

5. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

### Tier Calculation

Based on the value defined for Expiration Date of Asset, Resale Indicator, and Grand Father Points, OFSLL supports the following types of 'Tier' calculations at Master Account level using pre-defined formula parameters in Setup > User defined Parameters screen.

Type	Formula Parameter	Calculation
Total Tier points at the Master account	\$ASE_TIER_POINTS	Sum of Asset Billing Points where 'Resale Indicator' is 'N' and 'Expiration Date of Asset' is 'greater than' GL Date.
Total Grand Father Points at the Master Account	\$ASE_GRAND_FATHER_POINTS	Sum of Grandfather Points where 'Resale Indicator' is 'N' and 'Expiration Date of Asset' is 'greater than' GL Date.
Note: For a non Master Account, system uses Master Account # to pick-up all Associated Accounts.		

#### 4.15.3.1 Tracking Attributes sub tab

The Tracking Attributes screen enables you to link information to collateral that is not tracked by default in the system. These attributes are loaded when user loads the tracking attributes from Collateral > Collateral (Home) > Tracking tab.

### To maintain the Tracking Attributes

1. On the Customer Service screen, click **Collateral** tab.
2. Click Home > Vacation Ownership > Tracking Attributes sub tab.
3. Complete **Tracking** section by entering the requested parameter in the **Value** field.
4. Save any changes you made to the account.

#### 4.15.4 Seller sub tab

The Collateral link's Seller Details screen enables you to view seller details of the collateral of Loan. You cannot edit or modify details of the seller.

1. In **Seller Details** section, click **View**.
2. View the following:

In this field:	View this:
<b>Seller Details</b>	
<b>Seller Type</b>	The seller type.
<b>Seller Name</b>	The seller name.
<b>Nationality</b>	The nationality of the seller.
<b>National Id</b>	The national Id of the seller.
<b>Authorized Signatory</b>	The authorized signatory of the seller.

3. In **Seller Address** section click **View**.
4. View the following:

<b>Seller Address</b>	
<b>Mailing</b>	If selected, indicates that this address is the mailing address.
<b>Current</b>	If selected, indicates that this address is the current address.
<b>Country</b>	The seller's country name.
<b>Address #</b>	The seller's address.
<b>City</b>	The seller's city name.
<b>State</b>	The seller's state name.

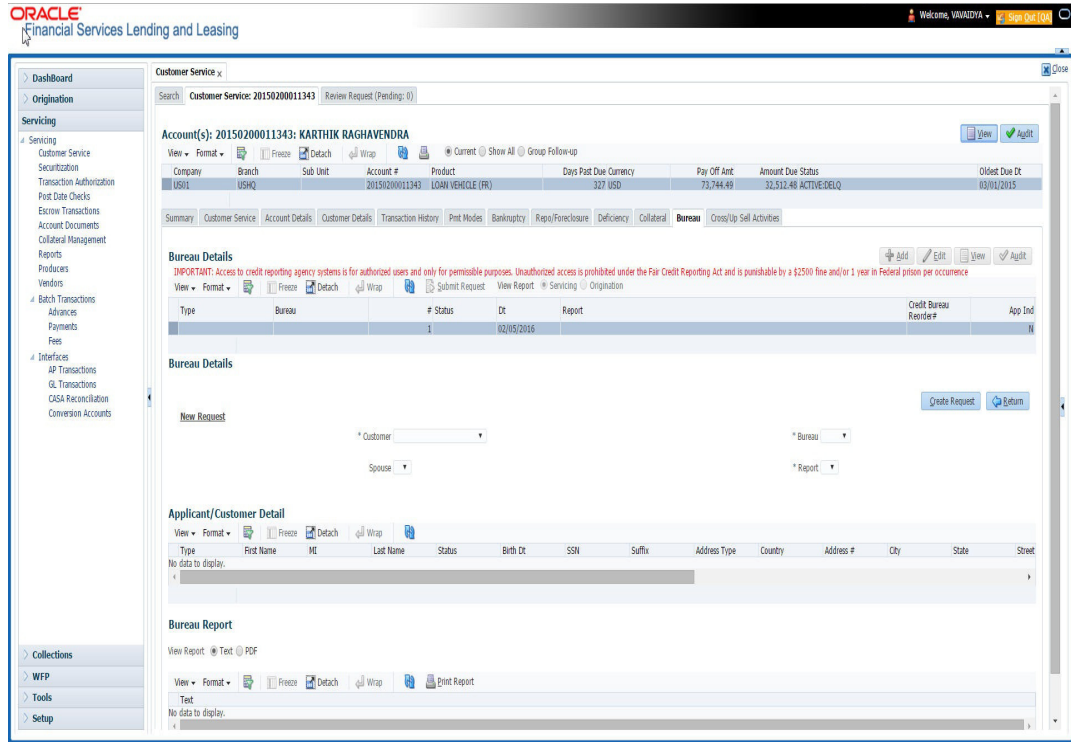

#### 4.16 Customer Service screen's Bureau tab

The Customer Service screen Bureau screen enables you to view credit bureau reports associated with the account that were pulled during servicing for account. You can also use the Bureau screen to create and pull additional credit bureau reports and view the results as a text only file.

##### To view an existing credit bureau report

1. Open the **Customer Service** screen and load the account you want to work with.

- On the Customer Service screen, click **Bureau** tab.

- In the **View Report** section:
  - Click **Servicing** to view credit reports generated with the Customer Service screen.
  - OR-
  - Click **Origination** to view credit reports generated during Loan origination.
- In the **Bureau Details** section, select the report you want to view. The system displays report as a text file in the Text Report section.

**To request a manual credit bureau report**

- Open the **Customer Service** screen and load the account you want to work with.
- On the Customer Service screen, click **Bureau** tab.
- Click **Add** to open **New Request** section.
- Complete the following fields:

In this field:	Do this:
<b>Customer</b>	Select the available customer from the drop-down list.
<b>Spouse</b>	Select the applicant's spouse from the drop-down list.
<b>Bureau</b>	Select the credit bureau from the drop-down list.
<b>Report</b>	Select the credit bureau report type from the drop-down list.

- In the **New Request** section, click **Create Request**. The system displays this information in the Bureau Details section and further information about customer in Customer Detail section.

## Note

If you are requesting a report from Experian Credit Bureau for Premier Attribute Consumer report, you can do so without impacting the consumer FICO score. To facilitate the same, the 'Soft Pull' check box is to be selected in Bureau Details section. This option is available only when the system parameter 'EXP\_PA\_SOFT\_PULL\_IND' is enabled in the System Parameters screen and Bureau is selected as 'EXP' with Report as 'PREMIER ATTRIBUTE' in the Bureau Details section.

6. If you want to receive a copy of a previously pulled credit bureau report, enter credit bureau reorder number in the Credit Bureau Reorder # field on the Bureau Details section.
7. Click **Save**.

You can print the report by selecting the report and clicking on **Print Report**.

## 4.17 Customer Service screen's Timeline tab

The Customer Service screen's Timeline tab provides a graphical representation of specific events on an account over a period of time, The events mainly include Transactions (Monetary/Non Monetary), Payments and Call Activities that are posted on the account.

### To view account timeline

1. Open the **Customer Service** screen and load the account you want to work with.
2. On the Customer Service screen, click **Timeline** tab.

The Timeline Details section facilitates and displays the following options:

- The timeline ranges from 1 month before the account start date till 1 month after the current date.
- Each activity in timeline is arranged as per the transaction date on the account.
- The account activities are categorized as Monetary, Non-Monetary, Payments, and Call Activities. You can filter to view them by selecting the required option or select 'ALL' to display all the activities related to the account. By default, system displays 'Monetary' transactions.
- On selecting 'Monetary' and 'Payments' options, timeline displays only good monetary transactions and good payments. More details of these transactions can be viewed in Transaction History > Transactions tab by selecting 'Good Txns' and 'Good Payments' option.

- On selecting 'Call Activities' timeline displays all the call activities posted to the account.
- The Zoom bar  has options to view the timeline based on Hours, Days, Weeks, Months, Quarters and Half Years.
- On hovering over the timeline, the arrows  and  helps you to scroll through the timeline.

## 4.18 Customer Service screen's Cross/Up Sell Activities tab

The Customer Service screen's Cross/Up Sell Activities tab enables you to view and edit all the captured marketing trigger based events for respective customers linked primary accounts.

Oracle Financial Services Lending and Leasing Application has been integrated with a third party database marketing solutions provider to receive monitoring triggers related to marketing based call activities. Primarily the active customer details are shared through an input file and corresponding monitoring triggers data within the processed customer input file are uploaded back into designated location of OFSLL database through an automated interface.

The Customer Service screen's Cross/Up Sell Activities tab displays the first 10 marketing trigger based call activities with the opportunity details and follow-up requirements. You can select **View All** check box to view all the 'active' and 'closed' call activities.

### 4.18.1 Edit Cross/Up Sell Activity

#### To edit a reported Cross/Up Sell Activity

1. Open the **Customer Service** screen and load the account you want to work with.
2. On the Customer Service screen, click **Cross/Up Sell Activities** tab.
3. Select the record which you want to update and click **Edit**.
4. Complete the following fields:

In this field:	Do this:
<b>Trigger Dt</b>	View the date on which the activity has been recorded.
<b>Product</b>	Select the product from drop-down list.
<b>Trigger Action</b>	View the trigger action captured.
<b>Trigger Description</b>	View the description of the action.
<b>Result</b>	Select the result of the action from the drop-down list.
<b>Reason</b>	Select the desired reason for the result selected.
<b>Appn'mnt</b>	Select the check box to indicate if a prior appointment is required for next communication.
<b>Followup Dt</b>	Select the agreed follow-up date from the adjoining calendar icon.
<b>Close</b>	If there is no follow-up and the opportunity is closed, you can select this check box indicating the status of call activity as closed.

In this field:	Do this:
<b>Time Zone</b>	Select the time zone of the contact from the drop down list.
<b>Comments</b>	Specify additional information, if any.

5. Click **Save and Stay** or any other save option as explained in Basic Actions section.

#### 4.18.2 **Create Simple Application**

You can use the call activity data and directly initiate the Loan Origination process from Cross/Up Sell Activities tab.

##### **To create simple application**

1. Open the **Customer Service** screen and load the account you want to work with.
2. On the Customer Service screen, click **Cross/Up Sell Activities** tab.
3. Select the required call activity record and click **Create Simple Application**.

The system opens Origination > Simple Application Entry screen with Application section capturing the details of call activity.

You can enter/edit the required details and continue creating credit application data into Oracle Financial Services Lending and Leasing Application.

For detailed information, refer to Simple Application Entry chapter in Loan Origination User Manual.

#### 4.18.3 **Close Opportunity**

You can close an opportunity based on the response received from customer and if there are no follow-ups required. However, you can close an opportunity and de-link the same from an account only when all the records are closed.

##### **To close an opportunity**

1. Open the **Customer Service** screen and load the account you want to work with.
2. On the Customer Service screen, click **Cross/Up Sell Activities** tab.
3. Ensure that all the records are marked as closed and click **Close Opportunity**.

### 4.19 **Customer Service screen's External Interfaces tab**

The Customer Service screen's External Interfaces tab displays the account specific information derived from external system.

Oracle Financial Services Lending and Leasing has been integrated with a third party system to explicitly fetch the account specific information through an input data file. A set of automated batch jobs which are scheduled at regular intervals pulls the data shared by external system and populates in the respective account in Customer Service > External

Interfaces tab. For more information on available Batch Jobs, refer to Setup Guide > Administration > System > Batch Jobs section.

In the External Interfaces tab, each input data file either new or an update to existing information is displayed as individual record in the Interface section and the column definition details (as sorted in Setup > Data Files screen) are displayed in Interface Details section.

In this field:	View this:
<b>Interface section</b>	
ID	Unique case identification number.
Interface Name	Name of the external interface.
File Name	Input data file name appended with New (IBN) or Existing (IBU) file identifier convention.
Status	Current status of the record (None, Accepted, or Rejected).
Creation Dt	Date when the record was created.
Action Taken By	User who has modified the record status.
Action Dt	Date when the action was performed on the record.
<b>Interface Details section</b>	
Parameter	Name of header used in input data file corresponding to the account information such as First Name, Last Name, Address and so on.
Value	Data fetched from external system for each header/parameter.

Along with the account specific updates, the records may also contain bankruptcy details which needs you attention. You need to verify those details and confirm the authenticity by either accepting or rejecting the bankruptcy information. If Accepted, system posts the bankruptcy details on the corresponding customer accounts.

### 4.19.1 Accept or Reject Bankruptcy Details

In the External Interfaces tab you can Accept or Reject information of those records which are specific to bankruptcy update and marked with status as 'None'.

- To accept the bankruptcy details, you need to create a new record with tracking attributes and then proceed with steps explained below.
- To reject a record, you can select the record and click 'Reject' in the external interface tab.

Post update, the status of record is marked as 'Accepted' or 'Rejected'.

#### **To Accept Bankruptcy Details**

1. Open the **Customer Service** screen and load the account you want to work with.
2. On the Customer Service screen, click External Interfaces tab.
3. In the Interface section, select the bankruptcy record with status 'None' for which action has to be performed.
4. Verify the details displayed in Interface Details section.
5. Once confirmed, navigate to Customer Service screen > **Bankruptcy** tab.
6. Create a Bankruptcy record and load the tracking attributes as explained in '[Customer Service screen's Bankruptcy tab](#)' section.
7. Click **Accept** in the action section and click 'Yes' in the confirmation dialog to accept changes.

On confirmation, system updates the bankruptcy details based on either 'SSN' for new bankrupt accounts or 'Case Number' for existing bankrupt accounts.

## 4.20 Review Request

The Review Requests screen is primarily a work flow tool used to flag an Account for the attention of another Oracle Financial Services Lending and Leasing user and ask for review / feedback. It allows the system users to send and receive requests (including e-mail) commenting on a specific Account. The Review Request tab supports iterative review of selected Account and also to process the review with multiple reviewers.

In this chapter, you will learn how to complete the following tasks:

- [Filter and View Review Requests](#)
- [Create and Send Review Request](#)
- [Reviewing a Request](#)
- [Responding to Review Request](#)
- [Reassign Review Request](#)
- [E-mailing Review Request](#)
- [Closing Review Request](#)
- [Complete Review Request](#)

---

#### **Note**

You can complete the above tasks for an Account Review Request using Review Request tab in the Customer Servicing screen.

---

## 4.20.1 Filter and View Review Requests

The Review Requests tab contains the following sections:

- Query Section
- Action Section
- Email Section
- Comment History Section

### Query Section

The Query section enables you to filter records based on User and type of review requests using any of the following options:

The 'User' drop-down lists your User ID along with your Supervisor ID if the same has been defined in User Definition screen (Setup > Administration > User > Users). If you are the supervisor, you can view all your subordinates User ID's along with yours for selection.

On selecting a particular User ID from the list, system displays all the requests which are created, reviewed, closed and completed by that user.

You can further filter the review request based on the following:

<b>Query Options</b>	<b>Descriptions</b>
<b>Originator</b>	Displays the records of all the active review requests created by the selected User.
<b>Receiver</b>	Displays the records of all the active review requests received by the selected User.
<b>Both</b>	Displays all the review requests records created as well as reviewed by the selected User with the status other than 'CLOSED' and 'COMPLETED'.
<b>View All</b>	Displays all the review requests records created as well as reviewed by the selected User with all the statuses.
<b>Forwarded Only</b>	Displays all the review requests records which are forwarded by the selected User to another user for review.

### Action Section

The **Action** section enables you to Send (create), Respond, Close, or Complete the review request.

<b>Action Options</b>	<b>Descriptions</b>
<b>Open Account</b>	Displays the Customer Service screen with the Account details assigned for review.
<b>Send Request</b>	Sends a review request to another Oracle Financial Services Lending and Leasing user.
<b>Send Response</b>	Sends a response to a review request received from another Oracle Financial Services Lending and Leasing user.

Action Options	Descriptions
<b>Close Request</b>	Changes the status of review request to <b>CLOSED</b> and can be viewed by selecting 'View All' option in the 'Query' section.
<b>Complete Request</b>	Changes the status of review request to <b>COMPLETED</b> and can be viewed by selecting 'View All' option in the 'Query' section.
<b>Remove Filter</b>	Removes the selected filters applied to narrow the view of review request. The option is available when a review request is accessed from DashBoard > My Pending Review Requests section.

### Email Section

The **Email** section enables you to send an email to either originator or receiver of the review request if an email setup is configured. However, note that a review request cannot be responded or replied back from email recipient.

Email Options	Descriptions
<b>Originator</b>	Sends an email of review request information to the person listed in the <b>Originator</b> column on Review Request page.
<b>Receiver</b>	Sends an email of review request to the person listed in the <b>Receiver</b> column on Review Request page.

The 'Review Requests' section in Customer Service screen displays the following information for each record:

Fields	Descriptions
<b>Request #</b>	View the system generated review request number. The same can be used to query and track the review requests.
<b>Originator</b>	The user id of the review request originator.
<b>Priority</b>	The request priority: HIGH, NORMAL, or LOW.
<b>Receiver</b>	The recipient of the review request.
<b>Phone</b>	Applicant's phone number in the review request.
<b>Address</b>	Applicant's address in the review request.
<b>Email</b>	Applicant's email in the review request.
<b>Status</b>	The current status of review request. Following status are tracked in this column: WAITING FOR RESPONSE - when request is sent to reviewer RETURN TO ORIGINATOR - when reviewer has responded to request CLOSED - when the request is closed COMPLETED - when the request is completed
<b>Date</b>	The date and time when the review request was created.

Fields	Descriptions
<b>Account #</b>	The Account number which needs review.
<b>Days Past Due</b>	Total number of days elapsed past the due date.
<b>Total Outstanding Balance</b>	Displays either 'Account outstanding principal balance' for active accounts, or 'Deficiency balance' for charge-off accounts.
<b>Customer</b>	Primary / Secondary (spouse) name associated to the account.

### Comment History

The 'Comment History' section displays the log of comments or additional information added by originator or receiver while creating or reviewing a request.

During an iterative review, where there are multiple trails of communication exchanged between originator and receiver, the 'Comment History' section tracks all the updates as individual records for reference.

The Comment History section also allows you to know the actually reviewer when an Account review request is forwarded to multiple reviewers and is reviewed or completed by second or third person other than the one assigned by originator.

In the Comment History section, you can view the following details of the selected review request:

Comments From	Descriptions
<b>Type</b>	View the type of request and is indicated as REVIEW REQUEST by default as maintained in 'COMMENT_TYPE_CD' lookup code.
<b>Sub Type</b>	View the sub type of request which can be ORIGINATOR, RECEIVER, or SYSTEM GENERATED as maintained in COMMENT_SUB_TYPE_CD lookup code.  Note: The sub type 'SYSTEM GENERATED' is automatically posted by the system when the review request is forwarded to another user by the assigned reviewer. The same is also updated with a comment in the next column.
<b>Comment</b>	View the Originator's or Reviewer's comment.  SYSTEM GENERATED comments are posted in the format - REVIEW REQUEST: <Request #> FORWADED FROM <first assigned user id> TO <next assigned user id>.
<b>Comment By</b>	View the user who has posted the comment.  SYSTEM GENERATED comments are marked as 'INTERNAL'.
<b>Comment Dt</b>	View the Date and time when the comment was posted.

## **4.20.2 Create and Send Review Request**

The review request tab primarily allows you to flag an Account for the attention of another OFSLL user through a request asking for review / feedback. While doing so, you can either choose to send it to the reviewer immediately on creating the request or only create the request and later send for review.

## To Create and Send Review Request

1. On the Oracle Financial Services Lending and Leasing Application home page, click Servicing > Customer Service screen and select 'Review Requests' tab.

The screenshot shows the 'Review Requests' section of the Oracle Financial Services Lending and Leasing application. The interface includes a header with the Oracle logo and 'Financial Services Lending and Leasing'. Below the header, there are several tabs: 'Review Requests', 'Save and Add', 'Save and Stay', 'Save and Return', and 'Return'. The main content area contains a form with the following fields and values:

- Request #: 12003
- Originator: [empty]
- Priority: HIGH
- Receiver: ANAND SHEKAR
- Comment: REVIEW ACCOUNT BALANCES
- Sender: [empty]
- Account #: 20000100011820
- Reason: REVIEW BALANCES
- Status: [empty]
- Date: 09/18/2017 12:23:39 AM
- Send Request:
- Days Past Due: 0
- Total Outstanding Balance: 330
- Customer: ALIVE PRI / DEA SPO
- Phone: 9728663378
- Address: HOME - ADDRESS JERSEY/NEWJERSEY/MASSACHUSETTS, 34038
- Email: EDW.SRSI@GMAIL.COM

At the bottom, there is a 'Comment History' section with a table that currently displays 'No data to display.' The table has columns for Type, Sub Type, Comment, Comment By, and Comment Dt.

2. In the Review Requests section, select 'Originator'.
3. Click 'ADD'. You can also perform any of the [Basic Operations](#) mentioned in Navigation chapter. A brief description of the fields are given below:

In this field:	View this:
<b>Request #</b>	View the system generated request number.
<b>Originator</b>	View the requester's user ID auto generated by system upon creating the request.
<b>Priority</b>	Select the priority of review request as High, Normal, or Low from the drop-down list. This helps the reviewer to prioritize the request while responding but does not affect the order in which messages are sent or received.
<b>Receiver</b>	Select the user ID of the reviewer from the drop-down list.
<b>Comment</b>	Specify additional details for review (if any) which can be sent to the reviewer along with the review request.
<b>Sender</b>	View the user ID of previous reviewer, if a request has been forwarded to another reviewer.  Note: A forwarded review request can only be viewed in the review request tab by filtering user ID of previous reviewer and selecting 'Forwarded only' check box.
<b>Account #</b>	Select the Account to be reviewed from the drop-down list. The following fields are auto-populated based on selection:  Days Past Due  Total Outstanding Balance  Customer  Phone  Address  Email
<b>Reason</b>	Select the purpose for request from drop-down list.

In this field:	View this:
<b>Status</b>	View the status of review request auto updated by system upon creating the request.
<b>Date</b>	View the date and time when the request was created. System appends the current date by default.
<b>Send Request</b>	(Optional) Select this check box to send it to reviewer immediately on creating the request.  However, if the request still need changes, retain the check box unselected and proceed to create the request. The same can later be sent for review by selecting 'Send Request' option from the action section.

4. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

The review request(s) appear on the recipient's 'My Pending Review Request' window in DashBoard and also on the 'Review Request' tab header with (Pending: <count of unseen requests>). The status of request is updated as WAITING FOR RESPONSE.

### 4.20.3 Reviewing a Request

When you receive a review request, the system notifies you by creating an entry in 'My Pending Review Requests By Priority' section in DashBoard with the number of unseen messages. Clicking on the Account # link opens the Review Request tab.

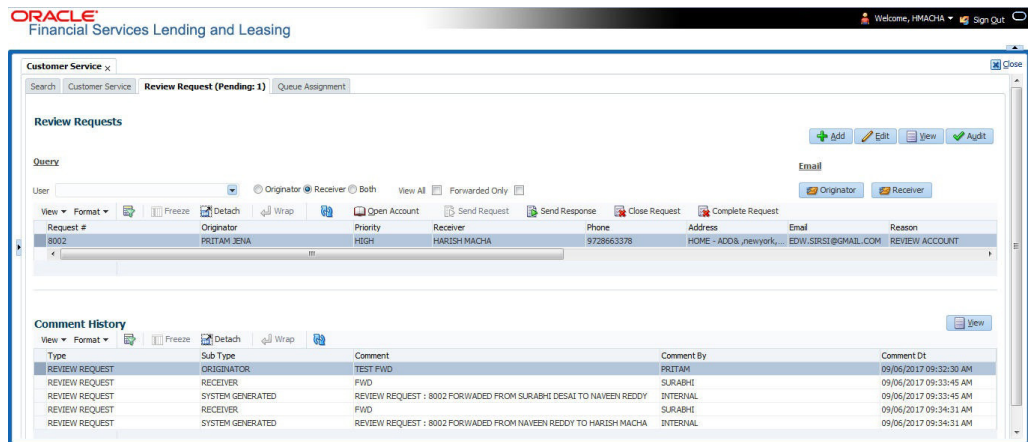

The screenshot displays the Oracle Financial Services Lending and Leasing Dashboard. The top navigation bar includes the Oracle logo, the text 'Financial Services Lending and Leasing', and a user profile section with 'Welcome, ABSHEKAR' and a 'Sign Out' link. The dashboard is divided into several sections:

- Origination:**
  - My User Queues:** A table with columns 'Description' and 'Count'. It shows 'No data to display.'
  - My Pending Review Requests By Applications:** A table with columns 'App #' and 'Priority'. It shows one entry: '0000001044' with 'NORMAL' priority.
  - My Pending Review Requests By Priority:** A table with columns 'Priority' and 'Count'. It shows 'No data to display.'
- Setup:**
  - Product Expiring in Next One Month:** A table with columns 'Product' and 'End Date'. It shows 'No data to display.'
- Admin:**
  - Critical Batch Job Status:** A table with columns 'Batch Job' and 'Status'. It shows 'No data to display.'
- Servicing:**
  - Number of Queues Hard Assigned:** A table with columns 'Queue Description' and 'Count'. It shows 'No data to display.'
  - Number of Accounts:** A table with columns 'Queue Description' and 'Count'. It shows 'No data to display.'
  - My Pending Review Requests By Accounts:** A table with columns 'Queue Description' and 'Count'. It shows 'No data to display.'
- Producer:**
  - Producers Count By Status:** A table with columns 'Status' and 'Count'. It shows one entry: 'ACTIVE' with a count of '59'.
  - Producers Expiring in Next One Month:** A table with columns 'Producer' and 'End Date'. It shows 'No data to display.'
  - Producers Count By ACH Status:** A table with columns 'Producer' and 'End Date'. It shows 'No data to display.'
- Vendor:**
  - Vendors Count By Status:** A table with columns 'Status' and 'Count'. It shows one entry: 'ACTIVE' with a count of '27'.
  - Vendors Expiring in Next One Month:** A table with columns 'Company Name' and 'End Date'. It shows 'No data to display.'

## To review requests

1. On the Oracle Financial Services Lending and Leasing Application home page, click Servicing > Customer Service screen and select 'Review Requests' tab.

2. In the Query section, click 'Receiver'. System displays all open review request you have received.
3. Click 'Open Account'. The Account details are displayed in Customer Service > Summary tab.
4. Review the details in particular to the details specified in the comment (if any).

## 4.20.4 Responding to Review Request

On completing the review, you can Send Response detailing the feedback of your review. It is ideally recommended to send a response back to the originator by providing your views on the review as a comment. The details are recorded in the 'Comment History' section as reference.

However, system also allows your forward the same request to another reviewer in case of additional clarifications.

### To respond to review request

1. On the Oracle Financial Services Lending and Leasing Application home page, click Servicing > Customer Service screen and select 'Review Requests' tab.
2. In the Query section, click 'Receiver'. System displays all open review request you have received.
3. In the Review Request section, select the record that you have reviewed. Click 'Edit'.

Specify your review response in the 'Comment' field. Select the 'Send Request' check

box to send the review response immediately to originator. In case of any further changes, retain the check box unselected and save the details. The response is not sent and the same can later be sent to originator by selecting the record and clicking on 'Send Response' option from the action section.

The details are updated in Review Request tab and status of request is updated as RETURN TO ORIGINATOR.

#### 4.20.5 Reassign Review Request

While reviewing a request, system also facilitates you to reassign (i.e. forward) the review request to another user for review. In such a case, you become the 'Sender' and the assigned user will be the reviewer of the request. The request can further move to other reviewers if required.

When the request is reassigned or forwarded to another reviewer, the actual originator can still track the status of request by selecting user ID in Query section. As a 'Sender', you can view the reassigned review requests by selecting the 'Forwarded Only' check box in Query section. Also, on reassigning or forwarding a review request, system automatically posts a comment in 'Comment History' section in the format - REVIEW REQUEST: <Request #> FORWADED FROM <first assigned user id> TO <next assigned user id> with Sub Type as 'SYSTEM GENERATED' and Comment By as 'INTERNAL'.

#### Note

It is recommended to limit the reassignment of review request since tracking the request status becomes difficult.

#### To reassign review request

1. On the Oracle Financial Services Lending and Leasing Application home page, click Servicing > Customer Service screen and select 'Review Requests' tab.
2. In the Query section, click 'Receiver'. System displays all open review request you have received.
3. In the Review Request section, select the record that you have reviewed and click **Edit**.

The screenshot displays the 'Review Requests' form with the following details:

- Request #: 8002
- Originator: PRITAM JENA
- Priority: HIGH
- Receiver: HARISH MACHA (highlighted in a red box)
- Comment: (empty text area)
- Sender: NAVEEN REDDY
- Account #: 20000100011820
- Reason: REVIEW ACCOUNT
- Status: WAITING FOR RESPONSE
- Date: 09/06/2017 09:32:11 AM
- Send Request:
- Days Past Due: 0
- Total Outstanding Balance: 28,806.94
- Customer: ALIVE PRI / DEA SPO
- Phone: 9728663378
- Address: HOME - ADDR, NEWYORK, MASSACHUSETTS, 34038
- Email: EDW.SIRSI@GMAIL.COM

Below the form is the 'Comment History' table:

Type	Sub Type	Comment	Comment By	Comment Dt
REVIEW REQUEST	ORIGINATOR	TEST FWD	PRITAM	09/06/2017 09:32:30 AM
REVIEW REQUEST	RECEIVER	FWD	SURABHI	09/06/2017 09:33:45 AM
REVIEW REQUEST	SYSTEM GENERATED	REVIEW REQUEST : 8002 FORWADED FROM SURABHI DESAI TO NAVEEN REDDY	INTERNAL	09/06/2017 09:33:45 AM
REVIEW REQUEST	RECEIVER	FWD	SURABHI	09/06/2017 09:34:31 AM

4. Select the required reviewer from 'Receiver' drop down list.
5. (Optional) Specify the reason for reassignment in the 'Comment' field. The same is tracked in 'Comment History' section.
6. Select the 'Send Request' check box to reassign review request immediately on update. In case of any further changes, retain the check box unselected and save the details. The

reassignment can later be completed by selecting the record and clicking on 'Send Response' option from the action section.

The details are updated in Review Request tab and status of request is updated as WAITING FOR RESPONSE.

#### **4.20.6 E-mailing Review Request**

While system updates 'My Pending Review Requests By Priority' section in the DashBoard to notify you about the new requests, you can also e-mail a review request to both the originator and a receiver, as applicable. The system will use e-mail address recorded for both the originator and receiver in Setup > Administration > User > User Definition section.

##### **To e-mail a review request**

1. On the Oracle Financial Services Lending and Leasing Application home page, click Servicing > Customer Service screen and select 'Review Requests' tab.
2. In 'Email' section, click 'Originator' to send the message to the person listed in Originator field.  
-or-
3. Click 'Receiver' to send it to the person listed in the Receiver field.

The system emails the details of selected record to e-mail address recorded in user setup.

#### **4.20.7 Closing Review Request**

You can close a review request you created at anytime, regardless of status. However, you can only close review requests that have your user id in the Originator field. When you close a review request, the system removes it from Review Request tab.

##### **To close a review request**

1. On the Oracle Financial Services Lending and Leasing Application home page, click Servicing > Customer Service screen and select 'Review Requests' tab.
2. Select the request you want to close in the Review Request section.
3. In the Action section, click 'Close Request'.

The system assigns the request as CLOSED and removes it from your Review Request record. The closed review requests can be reviewed anytime by selecting 'View All' in the Query section.

#### **4.20.8 Complete Review Request**

When a particular review request has completed the review process from reviewer with required changes and confirmation, the same can be marked as 'COMPLETE' in the Review Request tab. However, you can complete a request only if you are the originator of the request. When you complete a review request, system removes it from Review Request tab.

##### **To complete a review request**

1. On the Oracle Financial Services Lending and Leasing Application home page, click Servicing > Customer Service screen and select 'Review Requests' tab.
2. Select the request you want to close in the Review Request section.
3. In the Action section, click 'Complete Request'.

The system assigns the request as 'COMPLETED' and removes it from your Review Request record. The completed review requests can be reviewed anytime by selecting 'View All' in the Query section.

## 4.21 Queue Assignment

The Queue Assignment tab in Oracle Financial Services Lending and Leasing application allows you to search and view the hard assigned customer service queues maintained in the system. You can also view the queue assignment details with option to reassign users in a hard assigned queue and track activity status posted on the account.

Customer Service Queues are maintained in Administration's setup screen (Setup > Administration > User > Queues > Customer Service). For more information on hard assigned queues, refer to section "Using the Hard Assigned feature" in setup guide.

### Navigating to Queue Assignment

On the Oracle Financial Services Lending and Leasing home screen, click **Servicing > Servicing > Customer Service > Queue Assignment**.

In this section, you will learn how to complete the following tasks:

- [Using Queue Search](#)
- Filter Queues in [Queues sub tab](#)
- Define criteria in [Criteria sub tab](#)
- View options in [Queue Assignment sub tab](#)
- [Reassign Users in Queue](#)
- [Filter Accounts based on Queue Criteria](#)
- [View Accounts in Sort Order Sequence](#)
- [Track Activity Status](#)

### 4.21.1 Using Queue Search

In the Search Criteria section, you can primarily use the 'Search List By' filter to search based on either 'Queues' or 'Users' maintained in the system. Depending on the option selected, you

can further filter your search using the following list of parameters and query the database by providing one or more parameter values.

Field:	Do this:
<b>Hard Assigned Queue</b>	Select the queue name from the drop-down list. The list displays both 'Enabled' and 'Hard Assigned' customer servicing queue definitions.
<b>Acc #</b>	Specify the account number to which the queue is assigned.
<b>Responsibility</b>	Select the user/queue responsibility from the drop-down list. The list displays various user responsibilities as defined in Setup > Administration > User > Queues > User Groups tab.
<b>User</b>	Select the 'User' from the drop-down list. The list displays all the hard assigned users maintained in the system.

---

#### Note

You need to specify a minimum of one parameter for the search to retrieve queues from the database. Else system displays an error message.

---

Click **'Search'**. The search results for Queues are displayed in both the Queues & Queue Assignment section. Whereas, the search results for a 'User' (selected in Search List By option) is displayed in Queue Assignment section.

You can also click 'Reset' to clear the filters specified in Search Criteria.

#### **Remove Account Filter**

While searching for queues using Account number as the Search Criteria, the Queue Assignment section displays the filtered search results along with the 'remove Filter' option in the header.

Clicking on 'remove Filter' button will remove the account number filter and displays all the accounts belonging to the selected queue.

### **4.21.2 Queues sub tab**

The Queues sub tab displays the search results for the specified search criteria and contains 'Enabled' and 'Hard Assigned' customer servicing queues with the following details:

- Queue name
- Queue Desc
- Account Condition
- Priority
- Company
- Branch
- Hard Assigned
- Group Follow-up Ind
- Near Real-Time
- Dialer Extract
- Enabled

### 4.21.3 Criteria sub tab

The Criteria sub tab allows you to define account selection criteria and sort order to filter the accounts displayed in Queue Assignment section.

1. In the Criteria Definition section, click 'ADD'. You can also perform any of the [Basic Operations](#) mentioned in Navigation chapter. A brief description of the fields are given below:

Field:	Do this:
Name	Specify a unique name to identify the criteria.
Description	Specify the required description for the criteria.
Hard Assigned Queue	Select the queue name from the drop-down list. The list displays all the 'Enabled Hard Assigned' customer service queues.
Enabled	Check this box to enable the criteria.

The Criteria sub tab further consists of 'Selection Criteria' and 'Sort' tabs.

2. In the 'Selection Criteria' section, you can define the account selection criteria with the following fields. Perform any of the [Basic Operations](#) mentioned in Navigation chapter. A brief description of the fields are given below:

Field:	Do this:
Seq	Specify sequence numbers.
(	Specify left bracket.
Parameter	Select the parameter from the drop-down list. The list displays all the 'Enabled' attributes maintained in user defined table which has both 'Queue Assignment' fields and 36 activities defined in Queues > Activity Tracking tab for selection.
Comparison Operator	Select comparison operator from the drop-down list.
Criteria Value	Specify criteria value.
)	Specify right bracket.
Logical Expression	Specify logical operator from the drop-down list.
Enabled	Check this box to enable the selection criteria.

3. Click 'Check Criteria' to validate the correctness of the SQL statement generated and to resolve errors, if any.
4. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.
5. In the 'Sort' section, you can define the order to sort the account selection criteria with the following fields. Perform any of the [Basic Operations](#) mentioned in Navigation chapter. A brief description of the fields are given below:

Field:	Do this:
Seq	Specify sequence number.

Field:	Do this:
Sort field	Select the sort field from the drop-down list. The list contains both the 'Queue Assignment' fields and 36 customer call activities defined in Queues > Activity Tracking tab for selection.
Order	Select sort order as either Ascending or Descending from the drop-down list.

6. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

#### 4.21.4 Queue Assignment sub tab

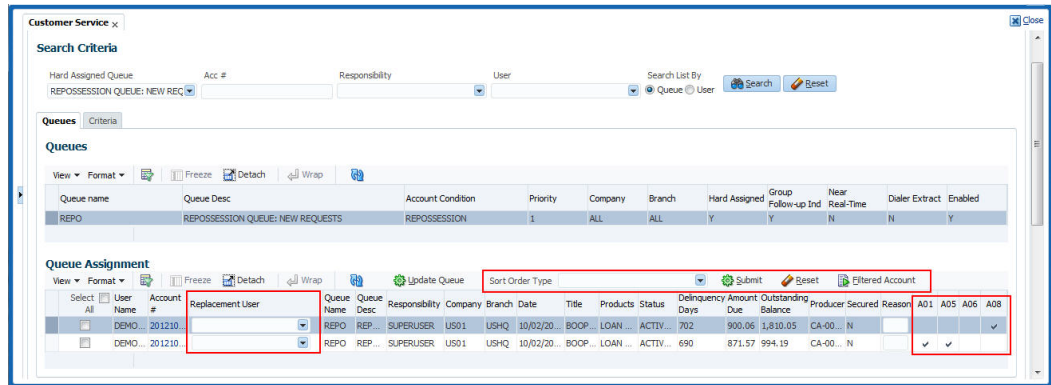

The Queue Assignment section, displays the user accounts associated with the selected queue and consists of the following details:

- User Name
- Account #
- Replacement User
- Queue Name
- Queue Desc
- Responsibility
- Company
- Branch
- Date
- Title
- Products
- Status
- Delinquency Days
- Amount Due
- Outstanding Balance
- Producer
- Secured
- Reason

In the Queue Assignment section, you can do the following:

- [Reassign Users in Queue](#)
- [Filter Accounts based on Queue Criteria](#)
- [View Accounts in Sort Order Sequence](#)

- Track Activity Status

## 4.21.5 Reassign Users in Queue

In the Queue Assignment tab, you can reassign a different user for a queue either individually or in bulk and reassign the hard assigned queues. While doing so, you can state the reason for change which later gets appended and displayed in the account conditions history log (Customer Service > Account Details > Condition Details sub tab).

### 4.21.5.1 Replace User in Queue

1. On the Oracle Financial Services Lending and Leasing home screen, click **Servicing > Servicing > Customer Service > Queue Assignment**.
2. Search for the required Queue or User using the parameters in Search Criteria. The search results are displayed in the Queues & Queue Assignment section.
3. In the Queue Assignment section, click on the 'Replacement User' drop-down list against the required user and select the new user from the list. You can also use the 'Search' option within the list to search for the required user.
4. Specify the reason for change in the Reason column against the user selected.
5. Click **Update Queue**.

### 4.21.5.2 Bulk Replace Queue Users

1. On the Oracle Financial Services Lending and Leasing home screen, click **Servicing > Servicing > Customer Service > Queue Assignment**.
2. Search for the required Queue or User using the parameters in Search Criteria. The search results are displayed in the Queues & Queue Assignment section.
3. In the Queue Assignment section, click 'Select All' check box.
4. Click on the 'Replacement User' drop-down list on the header and select the new user from the list. You can also use the 'Search' option within the list to search for the required user.
5. Specify the reason for change in the Reason field on the header.
6. Click **Update Queue**.

On successful user replacement, a system generated comment is posted on the account with the following details:

- Alert flag as 'N'
- Type
- Sub Type

- Comment Format QUEUE USER CHANGED FROM XXX TO YYY BECAUSE OF <<REASON>> ON <<DATEFORMAT>>

#### **4.21.6 Filter Accounts based on Queue Criteria**

To filter the list of accounts in Queue Assignment section, select the required option in 'Sort Order Type' drop-down list and click 'Submit'. The list is populated based on the defined Queue Criteria. You can also click 'Reset' to remove the filter and display all the account associated to the queue.

#### **4.21.7 View Accounts in Sort Order Sequence**

In the Queue Assignment section the 'Account #' column is enabled with a link to directly navigate and view the account details in the Customer Service screen.

To view the next account in the same sequence as listed, click 'Filtered Account' button in the Queue Assignment section header. The details are displayed in Customer Service screen's > Summary tab.

On reviewing the account details, you can further navigate to the subsequent accounts in the sequence by clicking 'Filtered Account' button in Right-Splitter window > Quick Search section. Successively, clicking 'Filtered Account' button displays all the accounts and when the last account is reached, a message is displayed indicating 'There is no account in this queue'.

#### **4.21.8 Track Activity Status**

All the customer service call activities defined and enabled in setup screen (Setup > Administration > User > Queues > Customer Service > Queue Activity tab) for the selected Queue are listed against each account in separate columns. These activity fields are auto updated with call activity results and gives a quick snap shot of all the activity status scheduled and performed on the account.

---

##### **Note**

The activity status fields are available only when the accounts are populated from a Queue search by selecting the 'Search List By' option as 'Queue'.

---

When a particular call activity is posted on the account, the respective activity status field is marked with a  indicating that the activity is complete.

However, in case the activity duration has expired based on the 'Activity Expiry Days' defined in Queue Activity tab, the activity field is disabled and status is not updated in Queue Assignment section.

---

## 5. Customer Credit Limit

### 5.1 Introduction

Customer Credit limit in general refers to the maximum amount of credit that a financial institution can extend to a prospective customer which can then be leveraged by an underwriter while funding an application.

In Oracle Financial Services Lending and Leasing, you can define the Customer Credit Limit during underwriting stage based on the customer credit worthiness or historical customer data. Using this limit, applications can be funded up to the credit limit amount allowed. However, application funding with or without customer credit limit is controlled based on the setup and applications can still be funded with the normal process when a particular customer is not allocated with any credit limit.

A customer credit limit facilitates for quick decisioning by an underwriter and also facilitates for auto approval of accounts on-boarded from external system with basic validations. While approving, underwriter has to ensure that the sum of utilizations should always be equal to the financed amount which can be distributed within applicants primary / secondary or business categories.

A minimum of one application has to be funded to define customer credit limit for funding subsequent applications and the defined information is updated into credit limit details. A credit limit once defined can further be increased from servicing module by posting the required transaction which is referenced in origination module during application funding.

On receiving a payment, the amount is reinstated to the credit limit balance which can be re-used while funding next application. Similarly, the credit limit balance is also updated when account is moved to VOID status. On reversing a payment, the Total Utilization of credit limit is increased by the principal portion of the payment and decreased with the Available Amt field. Also, the Suspended and Hold amount fields are increased and decrease based on the respective transactions posted.

When two applications are being funded simultaneously (i.e. moving application to 'Approved Funded' status), the utilization amount will be considered for first application while the second one will be on HOLD since there could be a difference in the available credit limit after funding. In such a case, you need to re-hash the application, fetch the details in Origination > Decision tab, (if required) increase credit limit from servicing module, and then proceed for funding.

While processing applications using Customer Credit Limit, the 'Update Customer Info' (check box in applicant tab) and 'Link to Existing Customer' (check box in contract tab) are selected by default for all the existing customers. This is to ensure the application details are propagated to customer accounts.

On funding a new application for an existing customer using customer credit limit, the details are updated into the existing customer details in the Servicing module. Also, while posting any monetary transaction that results in increase of account maturity date, system auto validates if the same is within the 'Customer Credit Limit Expiry date' of any one or all of the customer(s) who contributed for funding the Account. In case it is greater, system displays an error indicating that the resulting Maturity date is greater than 'Customer Credit Limit Expiry date' and does not allow to post the transaction.

## Navigating to Customer Credit Limit screen

From the LHS menu, select Servicing > Customer Credit Limit. The screen by default opens with 'Search' tab.

Customer Credit Limit screen consists of the following tabs:

- Search
- Customer

### 5.1 Search tab

The Search tab available in Customer Credit screen facilitates to locate the Customer or Business applicant's details maintained in the system and consists of the following sections:

- Quick Search
- Search Criteria

#### To search for a Customer/Business

1. On the Oracle Financial Services Lending and Leasing home screen, click **Servicing > Customer Credit Limit** tab.
2. In the 'Search Options', select the option against Customer or Business to search for corresponding details.
3. Do one of the following:
  - In 'Quick Search' section, specify the Customer or Business number and click 'Submit'.
  - Or-
  - In the 'Search Criteria' section, use 'Comparison Operator' and 'Value' columns to enter search criteria and click 'Search'.

System displays the matching records in the 'Search Results' section at the bottom of the screen.
4. Select the required record and click 'Open Customer Details'. The details of that particular record is displayed in the adjacent Customer/Business tab. However, system displays the selected record details only for authorized users based on access/permissions defined in setup.

You can click 'Reset Criteria' at any time to clear search parameter values.

## 5.2 Customer/Business tab

The Customer / Business tab displays the Credit Limit Details that are recorded while funding the application.

### To view Customer/Business details

1. Click Servicing > Customer Credit Limit screen.
2. In the Search tab, search for the required customer/business applicant details and click 'Open Customer Details'.

The following credit limit details of the Customer/ Business are as displayed:

Customer Details	Business details
Customer # (Customer ID is displayed in case of Individual Customer)	Business # (Business ID is displayed in case of Business Customer)
Name	Name
Max Limit	Max Limit
Total Utilized Amt	Total Utilized Amt
Available Amt	Available Amt
Hold Amt	Hold Amt
Suspended Amt	Suspended Amt
Grade	Grade
Max Late Charge	Max Late Charge
Limit Expiry	Limit Expiry
Limit Next Renewal	Limit Next Renewal

The 'Credit Limit Details' tab allows to capture additional details in the below sub tabs.

## 5.2.1 Transactions sub tab

The Transactions sub tab allows you post the following non-monetary transactions to update the customer/business credit details in respective tabs.

- Customer Credit Limit Transactions:
  - Customer Credit Limit Increase
  - Customer Credit Limit Decrease
  - Decrease Customer Credit Limit HOLD
  - Increase Customer Credit Limit HOLD
  - Increase Customer Credit Limit SUSPEND
  - Decrease Customer Credit Limit SUSPEND
- Business Credit Limit Transactions:
  - Business Credit Limit Increase
  - Business Credit Limit Decrease
  - Decrease Business Credit Limit HOLD
  - Increase Business Credit Limit HOLD
  - Increase Business Credit Limit SUSPEND
  - Decrease Business Credit Limit SUSPEND
- Customer/Business Credit Limit Maintenance
- Customer/Business Address Maintenance
- Customer/Business Telecom Maintenance
- Business Partners Maintenance
- Business Affiliates Maintenance

For information on how to post non-monetary transaction, refer to [Creating Monetary and Non monetary Transactions](#) section in Customer Service > Maintenance chapter.

For information on defining parameters for each of the above transactions, refer to [Customer Credit Limit Transactions](#) section in Appendix chapter.

## 5.2.2 Addresses sub tab

The Addresses sub tab allows you to maintain address information of the customer/business. This tab is similar to the Addresses sub tab in Customer Service screen's Customer Details tab. For information on updating the field details, refer to [Addresses sub tab](#) section.

On updating the address information in this tab, system automatically posts 'ADD CUSTOMER ADDRESS PHONE' transaction to update the details into Customer Service screen's Customer Details > Addresses sub tab.

## 5.2.3 Telecoms sub tab

The Telecoms sub tab allows you to maintain Telecom information of the customer/business. This tab is similar to the Telecoms sub tab in Customer Service screen's Customer Details tab. For information on updating the field details, refer to [Telecoms sub tab](#) section.

On adding the Telecom information in this tab, system automatically posts 'ADD CUSTOMER TELECOM' transaction and similarly during update, system posts 'CUSTOMER TELECOM MAINTENANCE' transaction to update the details into Customer Service screen's Customer Details > Telecoms sub tab.

#### **5.2.4 Employments sub tab**

The Employments sub tab allows you to maintain employment information of the customer. This tab is similar to the Employment sub tab in Customer Service screen's Customer Details tab. For information on updating the field details, refer to [Employments sub tab](#) section.

On updating the Telecom information in this tab, system automatically posts 'EMPLOYMENT ADDRESS MAINTENANCE' transaction to update the details into Customer Service screen's Customer Details > Employment sub tab.

#### **5.2.5 Partners sub tab**

The Partners sub tab allows you to maintain business partner Information. This tab is similar to the Partners sub tab in Customer Service screen's Business Details tab. For information on updating the field details, refer to [Partners sub tab](#) section.

On adding the Partner information in this tab, system automatically posts 'ADD BUSINESS PARTNER' transaction and similarly during update, system posts 'BUSINESS PARTNERS MAINTENANCE' transaction to update the details into Customer Service screen's Customer Details > Partners sub tab.

#### **5.2.6 Affiliates sub tab**

The Affiliates sub tab allows you to maintain business affiliate information. This tab is similar to the Affiliates sub tab in Customer Service screen's Business Details tab. For information on updating the field details, refer to [Affiliates sub tab](#) section.

On updating the Affiliates information in this tab, system automatically posts 'ADD BUSINESS AFFILIATES' transaction to add new affiliate details and 'BUSINESS AFFILIATES MAINTENANCE' to update the existing affiliate details into Customer Service screen's Business Details > Affiliates sub tab.

#### **5.2.7 Tracking Attributes sub tab**

The Tracking Attributes sub tab allows you to add tracking attribute information to customer/business. This tab is similar to the Tracking Attributes sub tab in Customer Service screen's Customer Details tab. For information on updating the field details, refer to [Tracking Attributes sub tab](#) section.

#### **5.2.8 Accounts sub tab**

The Accounts sub tab allows you to view customer/business accounts information maintained in the system. This tab is similar to the Existing Accounts sub tab in Origination screen's Applicant tab. For information on the field details, refer to 'Existing Accounts' section in Origination User Guides.

#### **5.2.9 Applications sub tab**

The Applications sub tab allows you to view customer/business applicant's information maintained in the system. The application details are fetched based on 'Customer / Business number' and displays only non-funded applications with 'Existing Customer flag = Y' in Origination > Applicant tab and 'Link to existing customer flag = Y' in Contract tab. The following application details are displayed:

- App #
- Company
- Branch

- Date
- Title
- Product
- Status
- Sub Status
- Collateral Description
- Identification #

---

### Note

The Collateral Description and Identification # displayed here are populated from primary collateral details.

---

## 5.2.10 Comments sub tab

The Comments sub tab allows you add additional customer/business information as comments. Comments updated from Customer/Business > Comments tab are categorized with default Type as 'Regular' and Sub type as 'Customer/Business'.

For information on adding comments, refer to Customer Service > [Comments sub tab](#) section.

## 5.2.11 Documents sub tab

The Documents sub tab allows you to view the customer/business applicant's documents attached to a particular account. For detailed information about the usability of this tab, refer to [Document Tracking sub tab](#) section.

## 5.2.12 Master Account tab

The Master Account tab in Customer Credit Limit screen displays all the Customer / Business Master Accounts and its associated accounts maintained in the system.

<b>Account #</b>	The master account number. Clicking on the hyperlink opens the respective account in Customer Servicing screen.
<b>Title</b>	The title of the account.
<b>Relation</b>	Customer's relationship to the account.
<b>Product</b>	The type of product associated with the account.
<b>Currency</b>	The disbursement currency.
<b>Billing Cycle</b>	The billing frequency.
<b>Delq Days</b>	The number of days the account has been delinquent.
<b>Pay Off Amount</b>	The total pay off amount on the account.
<b>Amount Due</b>	The total amount due on the account.
<b>Oldest Due Dt</b>	The oldest payment due date on the account.
<b>Status</b>	The status of the account.
<b>Asset Type</b>	The type of asset associated with the account.
<b>Asset Sub Type</b>	The asset sub type.
<b>Collateral Description</b>	Details of primary collateral associated with account. In case of Home Collateral, no Collateral Description is displayed.
<b>Identification #</b>	The identification number of the asset.
<b>Company</b>	The portfolio company.
<b>Branch</b>	The portfolio branch.

### 5.2.12.1 **Associated Account Details**

The 'Associated Account Details' section displays all the accounts associated with the selected Master Account along with a summary of rolled-up balances for the accounts being displayed.

For detailed information, refer to [Customer Service screen's Associated Accounts tab](#) section.

## 6. Securitization

With the Securitization screen, the system provides a powerful tool that enables financial institutions to create account pools, to track and manage portfolios.

The Securitization screen enables you to:

- Query account information
- Select accounts based on selection criteria
- Create a pool of selected accounts for sale
- Maintain the pools created and report transactions on these accounts
- Report on investors
- Repurchase pools or specific accounts from pools.

### Navigating to Securitization screen

1. On the Oracle Financial Services Lending and Leasing home screen, click **Servicing > Servicing > Securitization**.

Data in the Securitization screen is grouped into two tabs:

- Pool Inquiry
- Pool Creation

### 6.1 Pool Inquiry

The Pool Inquiry screen enables you to enter and view pool related transactions. It can also be used to view various summaries related to the pool.

#### Navigating to Pool Inquiry

1. On the Oracle Financial Services Lending and Leasing home screen, click **Servicing > Servicing > Securitization > Pool Inquiry**. The details for each inquiry pool are maintained in the following seven categories:
  - Pool Transaction
  - Pool Accounts
  - Products
  - Status
  - Rate

- Delinquency
- Term

2. In the **Pools** section, you can view the following information:

A brief description of the fields is given below:

<b>Field:</b>	<b>View this:</b>
<b>Pool</b>	Displays the pool code.
<b>Status</b>	Displays the pool status.
<b>Description</b>	Displays the pool description.
<b>Class</b>	Displays the pool class from the drop-down list.
<b>Company</b>	Displays the pool portfolio company from the drop-down list.
<b>Product Type</b>	Displays the type of product associated with the Pool.
<b>End Dt</b>	Displays the pool end date.
<b>Owner</b>	Displays the pool owner.
<b>Super Pool</b>	Displays the pool super pool code from the adjoining drop-down link.
<b>Repurchase Dt</b>	Displays the pool re-purchase date.
<b>Reason</b>	Displays the pool re-purchase reason.
<b>Sale Dt</b>	Displays the pool sale date.
<b>Days Repo</b>	Displays the number of days in repossession to liquidate.
<b>Days Delq</b>	Displays the number of days in delinquency to liquidate.
<b>Max Limit</b>	Displays the max limit of the pool.
<b>Service Rate</b>	Displays the servicing rate for the pool.
<b>Certificate Rate</b>	Displays the certificate rate for the pool This is the rate which will be payable to the investor who buys this pool and is entitled to its receivable stream.

3. In the **Pool** section, you can click 'Export to Excel' button to export the details of the selected record to a .xls file with the following information:

- Pool
- Status
- Description
- Type
- Company
- End Dt
- Owner

## 6.1.1 Pool Transactions

The Pool Transactions sub screen enables you to view pool related transactions history, and well as enter a pool transaction.

### To post Pool Transactions

1. In the **Servicing > Servicing > Securitization > Inquiry > Pool** section, select the record you want to work with.
2. Click **Pool Transactions**.
3. In the **Transaction History** section, click **Add**.

A brief description of the fields is given below:

Field:	Do this:
<b>Transaction</b>	Select the transaction from the following list: ADD ACCOUNT -- Add an account to the pool externally. REMOVE ACCOUNT -- Remove an account from Securitization pool before the pool is marked as SOLD. This transaction is supported for pools which are in NEW / OPEN status and helps to remove account(s) without recreating the pool. CANCELLED -- Cancel the pool. HELD FOR SALE -- Change the status of pool to "HELD FOR SALE." OPEN -- Change the status of pool to "OPEN." RELEASED -- Change the status of the pool to "RELEASED" and clear all accounts related to the pool. REPURCHASED -- Change the status of pool to "REPURCHASED." SOLD -- Change the status of pool to "SOLD." (required).
<b>Reason</b>	Enter the transaction reason (required).
<b>Date</b>	Enter the transaction effective date (required).
<b>Account</b>	Select the account to be added (optional).

4. Click **Post**. The Details appear in the **Transaction History** summary table.
5. Click **Clear** to clear the details.
6. In the **Transaction History** section, click 'Export to Excel' button to export the details of the selected transaction to a .xls file with the following information:
  - Txn Dt
  - Post Dt
  - Description
  - Reason

## 6.1.2 Pool Accounts

The Pool Accounts sub screen enables you to view previous account related transactions, as well as enter a pool account transaction for the selected pool.

### To post the Pool Accounts

1. In the **Servicing > Servicing > Securitization > Inquiry > Pool** section, select the record you want to work with.
2. Click the **Pool Accounts**. The details are grouped into two:
  - Accounts
  - Account Transactions
3. In the **Accounts** section, you can view the following information:

A brief description of the fields is given below:

Field:	View this:
<b>Account #</b>	Displays the account number.
<b>Title</b>	Displays the account holder's name.
<b>Sale Acc Status</b>	Displays the account status at the time of pool sale.
<b>Account Status</b>	Displays the account status.
<b>Dt</b>	Displays the pool sale date.
<b>Sale Rate</b>	Displays the account interest rate at the time of pool sale.
<b>Balance</b>	Displays the account balance at the time of pool sale.
<b>Term Remaining</b>	Displays the account remaining terms at the time of pool sale.

4. In the **Account Transactions** section, click **Add**:

A brief description of the fields is given below:

Field:	Do this:
<b>Txn date</b>	Transaction date.
<b>Post date</b>	Transaction posted date.
<b>Description</b>	Details of the transaction.
<b>Amount</b>	Amount of the transaction.
<b>Reason</b>	Reason for the transaction .

5. Click **Post**. The Details appear in the **Account Transaction** summary table.
6. Click **Clear** to clear the details

### 6.1.3 Product

The Product sub screen enables you to view summaries of various statistics of the products in the pool.

#### To view the Product details

1. In the **Servicing > Servicing > Securitization > Inquiry > Pool** section, select the record you want to work with.
2. Click the **Product**.

3. In the **Product** section, you can view the following information:

A brief description of the fields is given below:

<b>Field:</b>	<b>View this:</b>
<b>Product</b>	Displays the product.
<b>Principal at Sale</b>	Displays the principal at sale amount.
<b>Principal Paid</b>	Displays the principal paid amount.
<b>Repurchase Balance</b>	Displays the principal repurchase balance amount.
<b>Loss Amount</b>	Displays the loss amount.
<b>Pay ahead Amount</b>	Displays the pay ahead amount. For any paid off accounts in the product summary, this field contains the sum of the amount that was applied to principal during the payoff payment allocation.
<b>Current Balance</b>	Displays the current balance amount.

#### 6.1.4 **Status**

The Status sub screen enables you to view summaries of various statistics of the status of the products in the pool.

##### **To view the Status details**

1. In the **Servicing > Servicing > Securitization > Inquiry > Pool** section, select the record you want to work with.
2. Click the **Status**.
3. In the **Product/Status** section, you can view the following information:

A brief description of the fields is given below:

<b>Field:</b>	<b>View this:</b>
<b>Product</b>	Displays the product.
<b>Status</b>	Displays the securitization account status.
<b>Principal at Sale</b>	Displays the principal at sale amount.
<b>Principal Paid</b>	Displays the principal paid amount.
<b>Repurchase Balance</b>	Displays the principal repurchase balance amount.
<b>Loss Amt</b>	Displays the loss amount.
<b>Payahead Amt</b>	Displays the pay ahead amount.
<b>Current Balance</b>	Displays the current balance amount.

#### 6.1.5 **Rate**

The Rate sub screen enables you to view a summary of the pool by product and rates.

### To view Rate details

1. In the **Servicing > Servicing > Securitization > Inquiry > Pool** section, select the record you want to work with.
2. Click the **Rate**.
3. In the **Product/Rate** section, you can view the following information:

A brief description of the fields is given below:

<b>Field:</b>	<b>View this:</b>
<b>Product</b>	Displays the product.
<b>Rate</b>	Displays the rate (should equal the interest rate on account).
<b>Principal at sale</b>	Displays the principal at sale amount.
<b>Principal Paid</b>	Displays the principal paid amount.
<b>Repurchase Balance</b>	Displays the principal repurchase balance amount.
<b>Loss Amt</b>	Displays the loss amount.
<b>Pay ahead Amt</b>	Displays the pay ahead amount.
<b>Current Balance</b>	Displays the current balance amount.

### 6.1.6 Delinquency

The Delinquency sub screen enables you to view a summary of the pool in regards to delinquencies of products.

#### To view Delinquency details

1. In the **Servicing > Servicing > Securitization > Inquiry > Pool** section, select the record you want to work with.
2. Click **Delinquency**.
3. In the **Product/Delinquency** section, you can view the following information:

A brief description of the fields is given below:

<b>Field:</b>	<b>View this:</b>
<b>Product</b>	Displays the product.
<b>Category</b>	Displays the delinquency category.
<b>Principal at Sale</b>	Displays the principal at sale amount.
<b>Principal Paid</b>	Displays the principal paid amount.
<b>Repurchase Balance</b>	Displays the principal repurchase balance amount.
<b>Loss Amt</b>	Displays the loss amount.
<b>Pay ahead Amt</b>	Displays the pay ahead amount.

Field:	View this:
<b>Current Balance</b>	Displays the current balance amount.

### 6.1.7 Term

The Term sub screen enables you to view a summary of the pool by product and by terms.

#### To view the Term

1. In the **Servicing > Servicing > Securitization > Inquiry > Pool** section, select the record you want to work with.
2. Click **Term**.
3. In the **Product/Term** section, you can view the following information:

A brief description of the fields is given below:

Field:	View this:
<b>Product</b>	Displays the product.
<b>Term</b>	Displays the term.
<b>Principal at sale</b>	Displays the principal at sale amount.
<b>Principal Paid</b>	Displays the principal paid amount.
<b>Repurchase Balance</b>	Displays the principal repurchase balance amount.
<b>Loss Amount</b>	Displays the loss amount.
<b>Pay ahead Amount</b>	Displays the pay ahead amount.
<b>Current Balance</b>	Displays the current balance amount.

## 6.2 Pool Creation

The Pool Creation screen enables you to create pools and perform “what if” analysis of pool appearance using different criteria. Based on the parameter values, the system will query the accounts database and builds the list of accounts. Once you choose the pool criterion, you can view the query generated by the system. Oracle Financial Services Lending and Leasing would further display errors in the query built so that you can revisit the parameter values.

In addition, Oracle Financial Services Lending and Leasing application facilitates to ‘add’ or ‘remove’ account(s) to a pre-defined pool in bulk through file upload process. For more information, refer to section ‘[Bulk Update of Accounts to Securitization Pool](#)’.

#### To create a pool

1. Click **Servicing > Servicing > Securitization > Pool Creation**. Securitization details are grouped into three:
  - Pools
  - Pool Queries
  - Account Selection Criteria

2. In the **Pools** section, you can define a pool (set of accounts) that you want to securitize by doing one of the following:
  - Use the 'Create Copy' feature to quickly create new pool with the existing pool parameters (pool queries and account selection criteria) by specifying 'New Pool' name. The new Pool created this way (copying from existing pool) will be in disabled stage.
  - Create new pool by clicking 'Add'. You can also perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Pool</b>	Specify the pool code.
<b>Status</b>	Displays the pool status.
<b>Description</b>	Specify the pool description.
<b>Class</b>	Select the pool class from the drop-down list.
<b>Company</b>	Select the pool portfolio company from the drop-down list.
<b>Product Type</b>	Select the type of product from the drop-down list. It is mandatory to select the product type and based on the selection, each pool created can have specific product type accounts associated to it. <b>Note:</b> Product type can be selected only during ADD (i.e. new Pool Creation) and is displayed in view mode during EDIT operations.
<b>End Dt</b>	Specify the pool end date. You can even select the date from adjoining Calendar icon
<b>Owner</b>	Specify the pool owner.
<b>Super Pool</b>	Select the code for super pool from the drop-down list (Multiple pools belong to a super pool). <b>Note:</b> The Super Pool list is sorted based on the 'Class' selected.

Field:	Do this:
<b>Repurchase Dt</b>	Displays the pool re-purchase date.
<b>Reason</b>	Displays the pool re-purchase reason.
<b>Sale Dt</b>	Displays the pool sale date.
<b>Days Repo</b>	Specify the number of days in repossession to liquidate.
<b>Days Delq</b>	Specify the number of days in delinquency to liquidate.
<b>Max Limit Amt</b>	Specify the max limit of the pool.
<b>Service Rate</b>	Specify the servicing rate for the pool. The servicing rate is an additional rate you can charge for security.
<b>Certificate Rate</b>	Specify the certificate rate for the pool. This is the rate which will be payable to the investor who buys this pool and is entitled to its receivable stream.

3. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.
4. In the **Pool Queries** section, you can define possible queries for the pool. Perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Query Name</b>	The query name is system generated which is the concatenation of Pool name with system generated random number.
<b>Query Description</b>	Specify the query description.
<b>Enabled</b>	Check this box to enable the query.

5. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.
6. In the **Account Selection Criteria** section, you can define the account selection criteria for each of the queries. Perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Seq</b>	Specify the sequence number.
(	Specify the left bracket.
<b>Attribute</b>	Select the attribute from the drop-down list.
<b>Comparison Operator</b>	Select the comparison operator from the drop-down list.
<b>Criteria Value</b>	Specify the criteria value.
)	Specify the right bracket (optional).
<b>Logical Expression</b>	Specify the logical expression (optional).

7. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

### **Validate Account Selection Criteria**

After defining the Account Selection Criteria for the created Pool Query, you can validate the criteria which is further used to query the database to build the list of accounts.

1. In the Pool Queries section, select the required pool from the list.
2. Click 'Check Criteria'.

The 'SQL Statement' that is generated based on the defined Account Selection Criteria is displayed. Also the 'SQL Result' of the query is indicated with either the status or issues (if any) to be rectified.

Note that, adding accounts to a Securitization Pool through the Account Selection Criteria is also controlled by the status of a system parameter 'POOL\_ACTIVE\_ACCOUNTS\_ONLY'.

- If the status of the system parameter is 'Y' (default), system includes all the matching accounts with only 'ACTIVE' status.
  - In case if 'Account Status' is selected as the Attribute in Account Selection Criteria, on clicking either 'Check Criteria' or 'Create pool', system displays an error indicating 'Parameter is set Only to include Active accounts in pool; change the Parameter'
- If the status of the system parameter is 'N', system allows to include all the matching accounts to the Securitization pool irrespective the account status. However, you are expected to define the 'Account Status' as the Attribute in Account Selection Criteria to filter accounts with different status such as VOID, PAIDOFF, CHGOFF and so on.

### **Create Pool**

You can create a Securitization Pool after creating the Pool Query and validating the Account Selection Criteria. However, ensure that the selected Pool Query is 'Enabled'.

1. In the Pool Queries section, select the required pool from the list.
2. Click 'Create Pool'.

Further, when the Pool Query is updated with additional account selection criteria, you can click 'Re-Create Pool' to consider the new criteria for building the list of accounts for Securitization Pool.

### **Remove Pool**

To remove a Securitization Pool Query, select the required pool from the Pool Queries section and click 'Remove Pool'.

## **6.2.1 Bulk Update of Accounts to Securitization Pool**

In addition to manually adding / removing accounts from Securitization pool, you can perform bulk update of records using file upload process. In this process, all the accounts which are to be either attached or detached from respective pool can be collated into a single file as individual record and uploaded into the system through input file processing.

During bulk update, you can,

- Add accounts to pool
- Remove accounts from pool
- Transfer account from Pool A to Pool B (depending on configured pool status)

In-order to perform bulk upload, the upload file should be a csv (comma separated value) file and need to contain two main parameters namely Pool ID and Account ID separated by comma as one record. Multiple rows can be included in a single upload file to process the data in bulk.

For example,

```
POOL A,20190100010673,
SEC_POOL_1,20190100010673,
,20181200010027,
```

If there is no value provided for Pool ID, then system assumes it as NULL and respective account is removed from the Pool to which it is currently attached.

The below table indicates the possible combinations on how data in upload file is processed based on Pool ID and Account ID value in upload file:

Condition	Pool ID	Account ID	Results
<b>If account is not attached to any Pool</b>	<b>A</b>	ABC	Account 'ABC' is attached to pool A
<b>If account is attached to Pool A</b>	<b>NULL or no value</b>	ABC	Account 'ABC' is detached from Pool A
<b>If account is attached to Pool A</b>	<b>B</b>	ABC	Account 'ABC' is detached from Pool A and attached to pool B
<b>If account is attached to Pool A</b>	<b>A</b>	ABC	Indicates error -Account 'ABC' is already mapped to Pool.

During processing of upload file data, separate transactions either to ADD ACCOUNT or REMOVE ACCOUNT or both, are automatically posted on respective pool.

The processing of data in upload file is also controlled by the following lookup types:

Lookup Type	Description
<b>POOL_ADD_ACC_CRITERIA</b>	<b>CRITERIA TO ADD ACCOUNT TO POOL</b>
<b>POOL_REMOVE_ACC_CRITERIA</b>	<b>POOL CRITERIA FOR REMOVING ACCOUNT FROM POOL</b>

Each Lookup Type can have on or more lookup code which are basically the configured pool status and acts as the criteria to allow an account to either get attached or detached from a

specific Securitization pool, Lookup can be defined in Setup > Administration > System > Lookups screen.

As per the above configuration, for Lookup Type POOL\_ADD\_ACC\_CRITERIA an account is attached to only those Securitization pool which are in status OPEN, HELD, NEW, and SOLD. Any other status is not processed in the system and is indicated as error.

### **Processing Bulk Update of Accounts to Securitization Pool**

The upload file is to be placed in the location - /scratch/work\_area/<domain name>/input/isc. During the scheduled execution of batch job - SET-IFP-ISCPRC\_BJ\_100\_01 (SECURITIZATION POOL FILE UPLOAD) in SET-IFP (Input File Processing), the file is picked up for processing and data within is loaded into respective table. The status of batch job can be viewed in Dashboard > System Monitor > Batch Jobs screen.

After the batch processing, the records which are successfully processed during bulk update can be viewed in Servicing > Securitization > Pool Inquiry > Pool Accounts tab.

The records which resulted in error are listed in the bad file indicating the account number in specific row with inappropriate data that was not processed. For example, record 1,3,5 failed due to improper data.

---

## 7. Transaction Authorization

Transaction Authorization enables you to validate transactions (which have the Authorize property enabled) that were entered on the Customer Service screen's Maintenance screen by a different Oracle Financial Services Lending and Leasing user. You can view these transactions on the Transaction Authorization screen before they are posted. This process is referred to as 'Maker-Checker', as one Oracle Financial Services Lending and Leasing user enters (or 'makes') the transaction on Maintenance screen and another validates (or 'checks') the transaction on the Transaction Authorization screen. As an example, the checker might review transactions to determine if the transaction will increase the credit limit to an acceptable level or decrease the payment to an unacceptable level.

Type	Description
Maker	The person who posts (or makes) transaction on the Maintenance screen.
Checker	The person who checks the details entered by the maker and either accepts or rejects the transaction in the Transaction Authorization screen.

While defining transaction code, the maker and checker responsibilities can be defined using the access type field available under access grid sub tab. Maker-Checker concept applies only to manual transactions, and not the automated ones.

### 7.1 Transaction Authorization screen

The Transaction Authorization screen displays the transactions posted on **Customer Services** screen that requires authorization.

On the **Customer Service** screen, follow the process for posting transactions on the Maintenance screen and clicking Post. If the Authorization check box is selected for the transaction on the Administration screen's Transaction tab (i.e. Setup > Administration > User > Access > Transaction tab), rather than being posted, the transaction receives a status of WAITING FOR APPROVAL and the message "TRANSACTION IN WAITING FOR APPROVAL" appears on the Results section.

A checker can use the Authorization screen to view transactions with the status WAITING FOR APPROVAL, then approve or reject the transactions. As a checker you can view all the transactions listed within/under your hierarchy, but can authorize or reject only those transactions which qualify the conditions defined for authorization. The same user who initiated the request cannot authorize the transaction even though that user might have the checker responsibility.

The maker uses the Authorization screen to view the transactions posted with a status of POSTED, ERROR or REJECT.

- Posted transactions are those which have been approved by the checker.
- Transactions with an ERROR status are those which have invalid business rules such as the parameter value is incorrect or has a back dated date and so on.
- Transactions with a REJECT status are those which have been rejected by the checker.

In both statuses (ERROR or REJECT), the maker can modify the transaction and re-post it for the checker to review.

## To authorize or reject a transaction the Authorization screen

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing > Servicing > Transaction Authorization > Authorization**.

2. In the Transaction Authorization screen you can click on the following options to filter the Transactions:
  - **Checker** - To display all transactions within/under logged-in Checker's hierarchy for authorization and having status as 'Waiting For Approval'.
  - **Maker** - To display data in descending order of date in the below order:
    - Waiting For Approval
    - Rejected
    - Error
    - Posted
  - **Both** - To display all records with Checker responsibility and having status as Rejected, Error and Posted.
3. Click one of the following to limit the display of transactions in the Transaction section according to when the transaction was posted:

Click:	The system displays:
1 Day	The transactions posted within the last one day.
2 Day	The transactions posted within the last two days.
5 Day	The transactions posted within the last five days.
All Days	The posted transactions.

The system displays transactions entered on the Maintenance screen with status as ERROR or WAITING FOR APPROVAL. If you want to view all transactions with only ERROR status, select **View Failed** check box.

## To Authorize or Reject Transactions

1. In the Transactions section, select the required transaction. The transaction parameters are displayed in 'Parameters' section and processing details are displayed in 'Transaction Processing Details' section.
2. Click **Edit**. You can perform any of the [Basic Actions](#) mentioned in Navigation chapter.
3. To Authorize the transaction, click **Authorize** in the 'AuthRej' section.

4. To Reject the transaction, click **Reject** in the 'AuthRej' section.
5. Add a comment and your decision regarding the transaction in the 'Comments' column.
6. In the **Action** section, click **Post**.

Based on comment input, the system authorizes or rejects the transaction and removes it from the Transaction section.

You can view the transaction result on the Transaction Authorization screen's Authorization History screen.

The results of the decision can be viewed on the Customer Service screen's Maintenance screen.

The system user who posted the transaction on the Customer Service screen's Maintenance screen and received a WAITING FOR APPROVAL status can open the Authorization screen, click **Maker** in the **Query** section and view all the transaction they posted that have a status of POSTED, ERROR or REJECT.

- If the transaction has a status of ERROR or REJECT, make the required changes to the original transaction on the Authorization screen and click **Post** in the **Action** section.
- If you click the **Void** in **Action** section, the system removes the transaction from the Transaction Authorization screen.

---

**Note**

If the transaction remains unauthorized beyond the number of days specified in the system parameter "AUTH\_TXN\_VOID\_LIMIT", then the transaction is marked as "void". The daily batch job checks for inactivity of authorization transactions against this parameter.

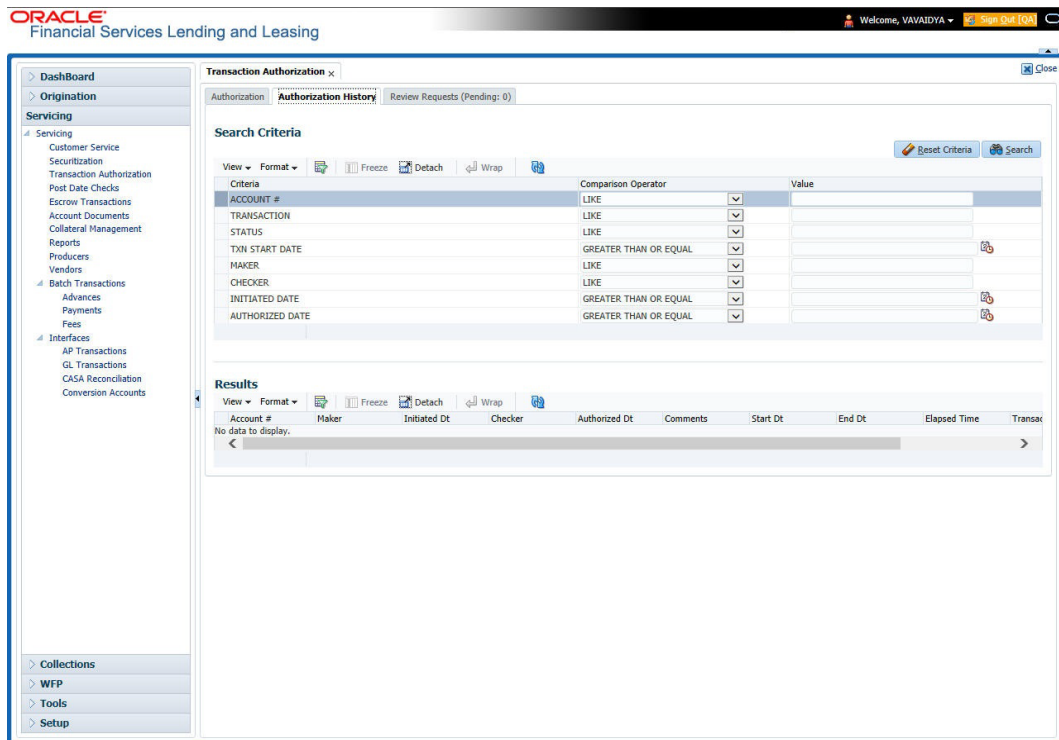

---

## 7.2 Authorization History tab

The Authorization History screen displays the all the transactions with a status of OPEN, VOID, ERROR, POSTED, WAITING FOR APPROVAL, and REJECT. Aged transactions will not be displayed. The Search Criteria section enables you to select the transactions you want to view in the Results section.

## To search for accounts using the Authorization History screen

1. On the Oracle Financial Services Lending and Leasing home screen, click the **Servicing** > **Servicing** > **Transaction Authorization** > **Authorization History**.

2. In the **Authorization History** screen's **Search Criteria** section, use the **Comparison Operator** and **Value** columns to enter the search criteria you want to use to locate an account.
3. Click **Search**. The system displays the result of the search in the Results section at the bottom of the screen. You can click **Reset Criteria** at any time to clear the **Comparison Operator** and **Values** columns on the Search screen.
4. In the **Results** section, view the following information:

Field:	View this:
<b>Account #</b>	The account number.
<b>Transaction</b>	The transaction.
<b>Status</b>	The status of the transaction.
<b>Maker</b>	View the user Id of the person who entered the transaction on the Customer Service screen.
<b>Initiated Dt</b>	View the date and time the transaction was initially posted on the Customer Service screen.
<b>Checker</b>	View the user Id of the person who validated the transaction on the Authorization screen.
<b>Authorized Dt</b>	The authorized date.
<b>Comments</b>	Any comment attached to the transaction.
<b>Start Date</b>	The transaction start date.

Field:	View this:
End Date	The transaction end date.
Elapsed Time	The elapsed time of the transaction.

### End of Day (EOD) processing

The Transaction Authorization screen's Authorization screen employs the 24 x 7 accessibility feature. You can continue working with the Authorization screen and post transactions even when end of day (EOD) batch process is running. When you post a transaction on the Transaction Authorization screen's Authorization screen and the transaction posting is deferred or cannot be posted at the present time, "SYSTEM UNDER MAINTENANCE. TRANSACTION POSTING DEFERRED" appears in the Results section. If transaction posting is deferred, the system automatically posts the transactions once it completes batch processing.

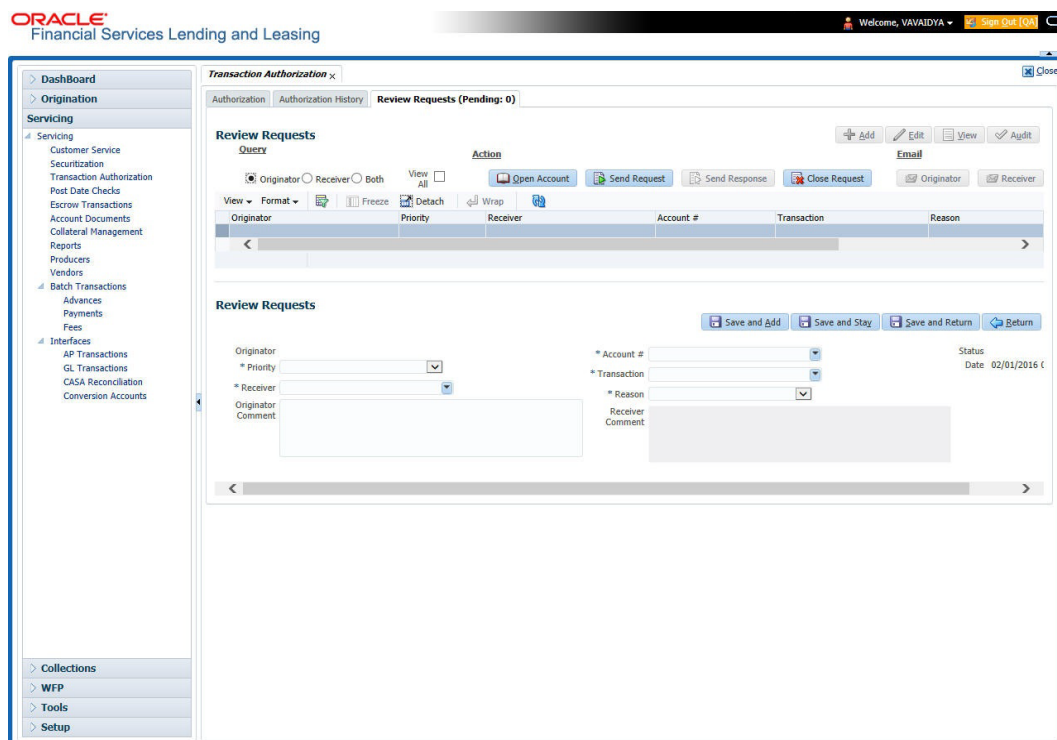

## 7.3 Review Request Tab

The Review Requests screen allows for effective communication between the Maker and Checker. The Transaction Authorization screen's Review Request screen operates the same way as the existing Review Request screen in Customer Service screen. One difference is that the Transaction Authorization screen's Review Request screen contains the Transaction field.

Review requests created on the Transaction Authorization screen can be viewed in the Customer Service screen's Review Request screen. However, the Transaction Authorization screen's Review Request screen will only display transaction authorization requests.

### To view the Review Request screen

1. On the Oracle Financial Services Lending and Leasing home screen, click the **Servicing** > **Servicing** > **Transaction Authorization** > **Review Request** tab.

## 7.4 Review Request

The Review Requests screen is primarily a work flow tool used to flag an Account for the attention of another Oracle Financial Services Lending and Leasing user and ask for review / feedback. It allows the system users to send and receive requests (including e-mail) commenting on a specific Account. The Review Request tab supports iterative review of selected Account and also to process the review with multiple reviewers.

In this chapter, you will learn how to complete the following tasks:

- Filter and View Review Requests
- Create and Send Review Request
- Reviewing a Request
- Responding to Review Request
- Reassign Review Request
- E-mailing Review Request
- Closing Review Request
- Complete Review Request

---

### **Note**

You can complete the above tasks for an Account Review Request using Review Request tab in the Customer Servicing screen.

---

### 7.4.1 Filter and View Review Requests

The Review Requests tab contains the following sections:

- Query Section
- Action Section
- Email Section
- Comment History Section

#### **Query Section**

The **Query** section enables you to filter records based on User and type of review requests using any of the following options:

The 'User' drop-down lists your User ID along with your Supervisor ID if the same has been defined in User Definition screen (Setup > Administration > User > Users). If you are the supervisor, you can view all your subordinates User ID's along with yours for selection.

On selecting a particular User ID from the list, system displays all the requests which are created, reviewed, closed and completed by that user.

You can further filter the review request based on the following:

<b>Query Options</b>	<b>Descriptions</b>
Originator	Displays the records of all the active review requests created by the selected User.

Query Options	Descriptions
Receiver	Displays the records of all the active review requests received by the selected User.
Both	Displays all the review requests records created as well as reviewed by the selected User with the status other than 'CLOSED' and 'COMPLETED'.
View All	Displays all the review requests records created as well as reviewed by the selected User with all the statuses.
Forwarded Only	Displays all the review requests records which are forwarded by the selected User to another user for review.

### Action Section

The **Action** section enables you to Send (create), Respond, Close, or Complete the review request.

Action Options	Descriptions
Open Account	Displays the Customer Service screen with the Account details assigned for review.
Send Request	Sends a review request to another Oracle Financial Services Lending and Leasing user.
Send Response	Sends a response to a review request received from another Oracle Financial Services Lending and Leasing user.
Close Request	Changes the status of review request to <b>CLOSED</b> and can be viewed by selecting 'View All' option in the 'Query' section.
Complete Request	Changes the status of review request to <b>COMPLETED</b> and can be viewed by selecting 'View All' option in the 'Query' section.
Remove Filter	Removes the selected filters applied to narrow the view of review request. The option is available when a review request is accessed from DashBoard > My Pending Review Requests section.

### Email Section

The **Email** section enables you to send an email to either originator or receiver of the review request if an email setup is configured. However, note that a review request cannot be responded or replied back from email recipient.

Email Options	Descriptions
Originator	Sends an email of review request information to the person listed in the <b>Originator</b> column on Review Request page.
Receiver	Sends an email of review request to the person listed in the <b>Receiver</b> column on Review Request page.

The 'Review Requests' section in Customer Service screen displays the following information for each record:

<b>Fields</b>	<b>Descriptions</b>
Request #	View the system generated review request number. The same can be used to query and track the review requests.
Originator	The user id of the review request originator.
Priority	The request priority: HIGH, NORMAL, or LOW.
Receiver	The recipient of the review request.
Phone	Applicant's phone number in the review request.
Address	Applicant's address in the review request.
Email	Applicant's email in the review request.
Status	The current status of review request. Following status are tracked in this column: WAITING FOR RESPONSE - when request is sent to reviewer RETURN TO ORIGINATOR - when reviewer has responded to request CLOSED - when the request is closed COMPLETED - when the request is completed
Date	The date and time when the review request was created.
Account #	The Account number which needs review.
Days Past Due	Total number of days elapsed past the due date.
Total Outstanding Balance	Displays either 'Account outstanding principal balance' for active accounts, or 'Deficiency balance' for charge-off accounts.
Customer	Primary / Secondary (spouse) name associated to the account.

### **Comment History**

The 'Comment History' section displays the log of comments or additional information added by originator or receiver while creating or reviewing a request.

During an iterative review, where there are multiple trails of communication exchanged between originator and receiver, the 'Comment History' section tracks all the updates as individual records for reference.

The Comment History section also allows you to know the actually reviewer when an Account review request is forwarded to multiple reviewers and is reviewed or completed by second or third person other than the one assigned by originator.

In the Comment History section, you can view the following details of the selected review request:

Comments From	Descriptions
Type	View the type of request and is indicated as REVIEW REQUEST by default as maintained in 'COMMENT_TYPE_CD' lookup code.
Sub Type	View the sub type of request which can be ORIGINATOR, RECEIVER, or SYSTEM GENERATED as maintained in COMMENT_SUB_TYPE_CD lookup code.  Note: The sub type 'SYSTEM GENERATED' is automatically posted by the system when the review request is forwarded to another user by the assigned reviewer. The same is also updated with a comment in the next column.
Comment	View the Originator's or Reviewer's comment.  SYSTEM GENERATED comments are posted in the format - REVIEW REQUEST: <Request #> FORWADED FROM <first assigned user id> TO <next assigned user id>.
Comment By	View the user who has posted the comment.  SYSTEM GENERATED comments are marked as 'INTERNAL'.
Comment Dt	View the Date and time when the comment was posted.

## 7.4.2 Create and Send Review Request

The review request tab primarily allows you to flag an Account for the attention of another OFSLL user through a request asking for review / feedback. While doing so, you can either choose to send it to the reviewer immediately on creating the request or only create the request and later send for review.

### To Create and Send Review Request

1. On the Oracle Financial Services Lending and Leasing Application home page, click Servicing > Customer Service screen and select 'Review Requests' tab.

The screenshot displays the 'Review Requests' form in the Oracle Financial Services Lending and Leasing application. The form is titled 'Customer Service' and includes several sections:

- Request Information:** Request # 12003, Originator, Priority: HIGH, Receiver: ANAND SHEKAR.
- Sender Information:** Account # 20000100011820, Reason: REVIEW BALANCES.
- Status and Date:** Status, Date: 09/18/2017 12:23:39 AM, Send Request: .
- Customer Details:** Days Past Due: 0, Total Outstanding Balance: 330, Customer: ALNE PRI / DEA SPO, Phone: 9728663378, Address: HOME - ADD8, NEWYORK, MASSACHUSETTS, 34038, Email: EDW.SRST@GMAIL.COM.
- Comment:** A text area containing the comment 'REVIEW ACCOUNT BALANCES'.
- Comment History:** A table with columns for Type, Sub Type, Comment, Comment By, and Comment Dt. The table is currently empty, showing 'No data to display.'

2. In the Review Requests section, select 'Originator'.

3. Click 'ADD'. You can also perform any of the [Basic Operations](#) mentioned in Navigation chapter. A brief description of the fields are given below:

In this field:	View this:
Request #	View the system generated request number.
Originator	View the requester's user ID auto generated by system upon creating the request.
Priority	Select the priority of review request as High, Normal, or Low from the drop-down list. This helps the reviewer to prioritize the request while responding but does not affect the order in which messages are sent or received.
Receiver	Select the user ID of the reviewer from the drop-down list.
Comment	Specify additional details for review (if any) which can be sent to the reviewer along with the review request.
Sender	View the user ID of previous reviewer, if a request has been forwarded to another reviewer.  Note: A forwarded review request can only be viewed in the review request tab by filtering user ID of previous reviewer and selecting 'Forwarded only' check box.
Account #	Select the Account to be reviewed from the drop-down list. The following fields are auto-populated based on selection:  Days Past Due Total Outstanding Balance Customer Phone Address Email
Reason	Select the purpose for request from drop-down list.
Status	View the status of review request auto updated by system upon creating the request.
Date	View the date and time when the request was created. System appends the current date by default.
Send Request	(Optional) Select this check box to send it to reviewer immediately on creating the request.  However, if the request still need changes, retain the check box unselected and proceed to create the request. The same can later be sent for review by selecting 'Send Request' option from the action section.

4. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

The review request(s) appear on the recipient's '**My Pending Review Request**' window in DashBoard and also on the 'Review Request' tab header with (Pending: <count of unseen requests>). The status of request is updated as WAITING FOR RESPONSE.

## 7.4.3 Reviewing a Request

When you receive a review request, the system notifies you by creating an entry in 'My Pending Review Requests By Priority' section in DashBoard with the number of unseen messages. Clicking on the Account # link opens the Review Request tab.

### To review requests

1. On the Oracle Financial Services Lending and Leasing Application home page, click Servicing > Customer Service screen and select 'Review Requests' tab.

2. In the **Query** section, click 'Receiver'. System displays all open review request you have received.
3. Click 'Open Account'. The Account details are displayed in Customer Service > Summary tab.
4. Review the details in particular to the details specified in the comment (if any).

## 7.4.4 Responding to Review Request

On completing the review, you can Send Response detailing the feedback of your review. It is ideally recommended to send a response back to the originator by providing your views on the review as a comment. The details are recorded in the 'Comment History' section as reference.

However, system also allows you forward the same request to another reviewer in case of additional clarifications.

### To respond to review request

1. On the Oracle Financial Services Lending and Leasing Application home page, click Servicing > Customer Service screen and select **'Review Requests'** tab.
2. In the Query section, click 'Receiver'. System displays all open review request you have received.
3. In the **Review Request** section, select the record that you have reviewed. Click **'Edit'**.

Specify your review response in the **'Comment'** field. Select the 'Send Request' check box to send the review response immediately to originator. In case of any further changes, retain the check box unselected and save the details. The response is not sent and the same can later be sent to originator by selecting the record and clicking on 'Send Response' option from the action section.

The details are updated in **Review Request** tab and status of request is updated as RETURN TO ORIGINATOR.

## 7.4.5 Reassign Review Request

While reviewing a request, system also facilitates you to reassign (i.e. forward) the review request to another user for review. In such a case, you become the 'Sender' and the assigned user will be the reviewer of the request. The request can further move to other reviewers if required.

When the request is reassigned or forwarded to another reviewer, the actual originator can still track the status of request by selecting user ID in Query section. As a 'Sender', you can view the reassigned review requests by selecting the 'Forwarded Only' check box in Query section. Also, on reassigning or forwarding a review request, system automatically posts a comment in 'Comment History' section in the format - REVIEW REQUEST: <Request #> FORWARDED FROM <first assigned user id> TO <next assigned user id> with Sub Type as 'SYSTEM GENERATED' and Comment By as 'INTERNAL'.

---

### Note

It is recommended to limit the reassignment of review request since tracking the request status becomes difficult.

---

### To reassign review request

1. On the Oracle Financial Services Lending and Leasing Application home page, click Servicing > Customer Service screen and select **'Review Requests'** tab.

- In the Query section, click 'Receiver'. System displays all open review request you have received.
- In the **Review Request** section, select the record that you have reviewed and click **Edit**.

**Review Requests**

**Comment History**

Type	Sub Type	Comment	Comment By	Comment Dt
REVIEW REQUEST	ORIGINATOR	TEST FWD	PRITAM	09/06/2017 09:32:30 AM
REVIEW REQUEST	RECEIVER	FWD	SURABHI	09/06/2017 09:33:45 AM
REVIEW REQUEST	SYSTEM GENERATED	REVIEW REQUEST : 8002 FORWADED FROM SURABHI DESAI TO NAVEEN REDDY	INTERNAL	09/06/2017 09:33:45 AM
REVIEW REQUEST	RECEIVER	FWD	SURABHI	09/06/2017 09:34:31 AM

- Select the required reviewer from 'Receiver' drop down list.
- (Optional) Specify the reason for reassignment in the '**Comment**' field. The same is tracked in 'Comment History' section.
- Select the 'Send Request' check box to reassign review request immediately on update. In case of any further changes, retain the check box unselected and save the details. The reassignment can later be completed by selecting the record and clicking on 'Send Response' option from the action section.

The details are updated in **Review Request** tab and status of request is updated as WAITING FOR RESPONSE.

## 7.4.6 E-mailing Review Request

While system updates '**My Pending Review Requests By Priority**' section in the **DashBoard** to notify you about the new requests, you can also e-mail a review request to both the originator and a receiver, as applicable. The system will use e-mail address recorded for both the originator and receiver in **Setup > Administration > User > User Definition** section.

### To e-mail a review request

- On the Oracle Financial Services Lending and Leasing Application home page, click Servicing > Customer Service screen and select '**Review Requests**' tab.
  - In '**Email**' section, click '**Originator**' to send the message to the person listed in Originator field.
- or-
- Click '**Receiver**' to send it to the person listed in the **Receiver** field.

The system emails the details of selected record to e-mail address recorded in user setup.

## 7.4.7 Closing Review Request

You can close a review request you created at anytime, regardless of status. However, you can only close review requests that have your user id in the Originator field. When you close a review request, the system removes it from Review Request tab.

### **To close a review request**

1. On the Oracle Financial Services Lending and Leasing Application home page, click Servicing > Customer Service screen and select '**Review Requests**' tab.
2. Select the request you want to close in the **Review Request** section.
3. In the **Action** section, click '**Close Request**'.

The system assigns the request as CLOSED and removes it from your Review Request record. The closed review requests can be reviewed anytime by selecting '**View All**' in the **Query** section.

## **7.4.8 Complete Review Request**

When a particular review request has completed the review process from reviewer with required changes and confirmation, the same can be marked as 'COMPLETE' in the Review Request tab. However, you can complete a request only if you are the originator of the request. When you complete a review request, system removes it from Review Request tab.

### **To complete a review request**

1. On the Oracle Financial Services Lending and Leasing Application home page, click Servicing > Customer Service screen and select '**Review Requests**' tab.
2. Select the request you want to close in the **Review Request** section.
3. In the **Action** section, click '**Complete Request**'.

The system assigns the request as 'COMPLETED' and removes it from your Review Request record. The completed review requests can be reviewed anytime by selecting '**View All**' in the **Query** section.

---

## 8. Post Dated Cheques (PDC) Management

It is a standard banking practice in some countries to request post-dated checks for the retail Loan repayments. When Loan are sanctioned, the lending institution collects post-dated checks in advance from the Loan recipient - at times for the full tenor of the Loan . The main reason for the practice of seeking post dated checks by banks is that it is far quicker for the banks to recover money that is due in a cheque dishonor case than in a regular civil case for recovery of Loan dues.

Post dated checks can also be used for payment in the realization for the Loan . Security checks are used only when the account becomes non-performing.

Managing accounts using post dated checks is very complex and important, as it has significant bearing on the servicing operations. If the PDCs due for clearing are not sent as required, the repercussions are huge. The lending institution loses its payment from the customer and may levy penalties such as late fees and insufficient funds charges which can lead to customer dissatisfaction. Hence, the utmost care should be taken while servicing the Loan accounts using PDC. The PDC process begins with the sorting of checks received from various account holders. They are segregated by Loan product and location before being vaulted in conduits at the centralized location or PDC center. This sorting enables the lending institution to quickly retrieve the PDCs with relevant date and send them for clearing.

The Post Dated Cheques screen is opened from the Servicing master tab's Post Dated Cheques link and contains the following tabs in its link bar:

- PDC Entry
- PDC Maintenance
- PDC Search

### 8.1 PDC Entry Tab

The PDC Entry link opens the PDC Entry screen which enables you to record details about the post dated checks collected from customer.

When post dated check is processed by the PDC batch, the status changes to PROCESSED. All the processed checks will then be picked by the Payment Batch and processed. After this, the system posts a payment transaction on the Payment screen's Payment Entry tab.

The View Options section enables you to view PDC batches by status (Open, Post, Void, and All). You can choose whether the PDCs from the customer are for a single Loan account or for multiple Loan accounts in the same bank. Once you enter the Loan account number of the customer in the PDC Batch section, The system displays all Loan accounts pertaining to the customer.

The information has to be captured to facilitate the inward sorting i.e. sorting the cheques by Loan product group and location and then vaulting them in boxes placed in the vaults at the PDC center and subsequently send them for clearance on the day the payment is due. Usually the PDCs are sent for clearance a few days before the actual due date.

Information maintained here can be viewed at Customer Service > Account Details > Contract Information > PDC sub tab.

After the batch has been created, click POST in Action section to post the batch of PDCs to Loan account. You can also click VOID in the Action section to cancel the PDC entry on a Loan account.

## To view the PDC Entry section

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing > Servicing > Post Dated Cheques > PDC Entry**.

2. On the PDC Entry screen's **View Options** section, select the type of PDC batch you want to view.

If you choose:	System displays in the PDC Batch section:
<b>Open</b>	All batches with OPEN status.
<b>Post</b>	All batches with POST status.
<b>Void</b>	All batches with VOID status.
<b>All</b>	All batches, regardless of the status.

3. In this section, you can perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Account</b>	Select the account number.
<b>Date</b>	Specify the date.
<b>Status</b>	View the status.

4. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.
5. In the **Check Details** section, you can perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

<b>Field:</b>	<b>Do this:</b>
<b>PDC Type</b>	Select the post dated check type, SECURITY CHECKS or POST DATED CHECKS FOR PAYMENT.
<b>Bank Acc #</b>	Specify the account number, on which the cheque is drawn.
<b>Account Type</b>	Specify the type of the account
<b>Routing #</b>	Specify routing number of the cheque. It is the number printed on cheque, also called MICR number (Magnetic Ink Character Recognition).
<b>Bank Name</b>	Specify the bank name of the customers cheque
<b>Branch Name</b>	Specify the Branch name of the customers cheque
<b>Docket #</b>	Specify the docket number where post dated checks are supposed to be stored
<b>Check #</b>	Specify the starting cheque number
<b>Check Dt</b>	Select the check date. In case there are multiple checks being deposited that have sequential serial numbers, the date of the first cheque in the series would be entered in the date field. The remaining cheque dates would be anniversary dates based on the frequency set up.  For example, the cheque range could be from 111 to 180. If date on first cheque-111 is October 12, 2003 and the frequency is set to Monthly, the next cheque would be picked up for processing on November 12, 2003.
<b>Check Amt</b>	Specify the appropriate cheque amount.
<b>Status</b>	Specify if there are any additional status of the PDC.
<b>Comments</b>	Specify any remarks for the details.

Once the PDC batch is posted, an entry appears in Post Dated Checks section on the Customer Service screen's Payment Mode tab, with OPEN status.

The status changes to PROCESSED when post dated check is sent for clearance on the pre-processing day and the payment is received. At that time, a payment transaction is posted on the Payments screen's Payment Entry screen.

## **8.2 PDC Maintenance Tab**

The PDC Maintenance tab opens the PDC Maintenance screen which enables you to modify check details for a specific account. You can either use view options to filter the PDC details by status or search the details using Query By Example option. The Edit button enables you to modify docket number, change status, and to add comments.

## To view the PDC Maintenance screen

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing > Servicing > Post Dated Cheques > PDC Maintenance** tab.

2. On the PDC Maintenance screen's **View Options** section, select the type of PDC entry you want to view in the PDC Maintenance section.

If you choose:	The system displays in the PDC Batch section:
<b>Open</b>	All entries with OPEN status.
<b>Processed</b>	All entries with POST status.
<b>Void</b>	All entries with VOID status.
<b>All</b>	All entries, regardless of status.

3. In this section, you can perform any of the [Basic Operations](#) mentioned in Navigation chapter.

4. A brief description of the fields is given below.

Field:	Do this:
<b>Bank Name</b>	View the bank name for which check is provided.
<b>Branch Name</b>	View the bank's branch name.
<b>Drawer Account #</b>	View the bank account number.
<b>Docket #</b>	Edit/view the location number where checks have been stored.
<b>Check#</b>	View the check number.

Field:	Do this:
<b>Check Dt</b>	View the check date.
<b>Check Amt</b>	View the check amount.
<b>Status</b>	Select to change or view the cheque's current status.
<b>PDC Type</b>	View the check type (PAYMENT or SECURITY).
<b>Account Type</b>	View the bank account type.
<b>Routing #</b>	View the bank's routing number.
<b>Comments</b>	Specify or view any comments associated with the record.

5. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

## 8.3 Search Tab

The Search tab opens Search screen. On Search screen, the Search Criteria section enables you to locate an account or group of accounts. The Results section displays details of the Loan account. This is a useful alternative to using the Customer Service screen to search for account information.

The screenshot displays the Oracle Financial Services Lending and Leasing Search screen. The top navigation bar includes the Oracle logo and the text 'Financial Services Lending and Leasing'. The user's name 'Welcome, PRAKRABO' and the version 'S11.03.104' are visible in the top right corner.

The main interface is divided into a left-hand navigation pane and a central content area. The navigation pane includes sections for Dashboard, Origination, Servicing (with sub-items like Customer Service, Securitization, Transaction Authorization, Post Date Checks, Escrow Transactions, Account Documents, Collateral Management, Reports, Producers, Vendors, Batch Transactions, Advances, Payments, Fees, and Interfaces), Collections, WFP, Tools, and Setup.

The central content area is titled 'Post Date Checks x' and features a 'Search' tab. Below the tab are buttons for 'Reset Criteria' and 'Search'. The 'Search Criteria' section contains a table with columns for 'Criteria', 'Comparison Operator', and 'Value'. The criteria listed are ACCOUNT #, ACCOUNT STATUS, CUSTOMER SSN, CUSTOMER LAST NAME, CUSTOMER FIRST NAME, CUSTOMER ID, and ACCOUNT CONDITION. Each criterion has a dropdown menu for selecting a comparison operator (LIKE, EQUAL).

Below the search criteria is the 'Results' section, which includes a table header with columns: Account #, Date, Title, Account Status, Branch, Product, Producer, Company, and Secured. The results area currently displays the message 'No data to display.'

## 9. Escrow Transactions

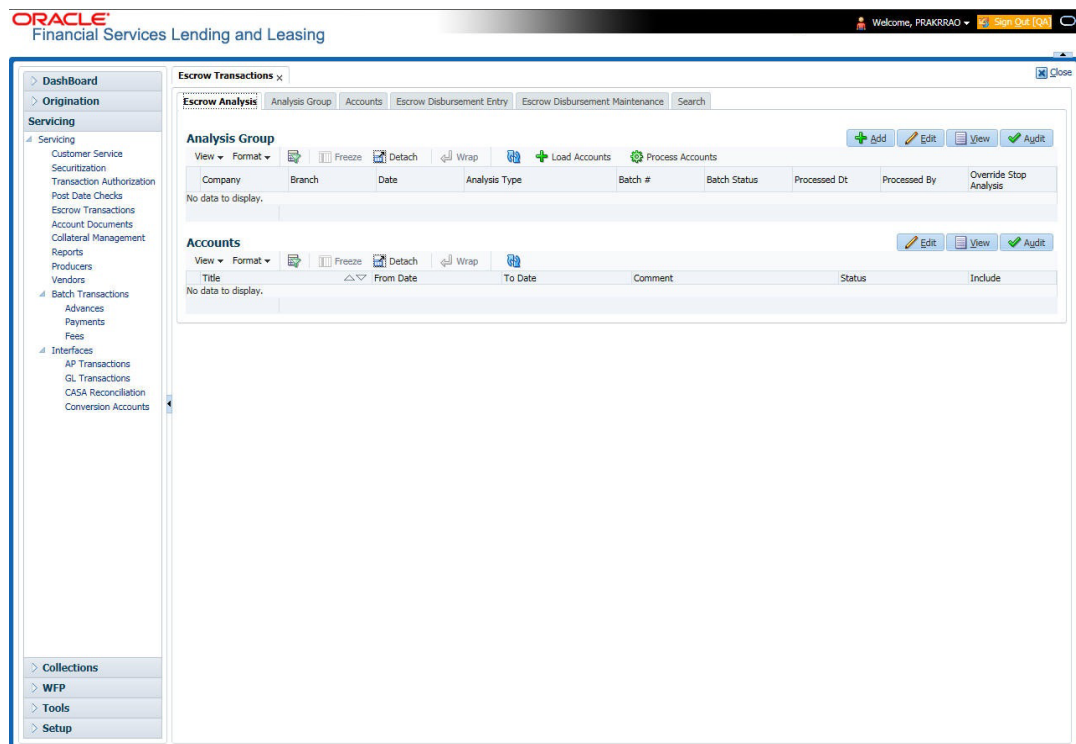

Oracle Financial Services Lending and Leasing enables you to perform escrow analysis with the Escrow Analysis and Disbursement screens' Analysis and Analysis Maintenance tabs and perform escrow disbursement with the Disbursement Entry and Disbursement Maintenance tabs.

### 9.1 Escrow Transaction

The Escrow Analysis page enables you to analyze accounts involving escrow disbursement. Accounts are analyzed in batches, or 'analysis groups'. The system generates a batch number for the analysis group and sets the batch status to OPEN. You can view and process the accounts included in the analysis group and exclude the erroneous account from an analysis group. Also, you can perform an escrows analysis for a period between two to twelve months. By default, the analysis horizon is selected as twelve months from the date of analysis.

#### To enter an escrow analysis batch

1. On the Oracle Financial Services Lending and Leasing Application home page, click the **Servicing > Servicing > Escrow Transactions > Escrow Analysis**.

2. In this section, you can perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
Company	Select the portfolio company.
Branch	View the portfolio branch.

Field:	Do this:
Date	Specify the batch date.
Analysis Type	Select the analysis type. The analysis type (INITIAL ESCROW ANALYSIS DISCLOSURE, REGULAR, COMPLIANCE, and so on) is a list of user-defined values.
Batch #	View the system generated batch number with a format of ANA-YYYY-DDD-SEQNUM.
Batch Status	View the batch status.
Processed Dt	View the user analysis process date.
Processed By	View the user who processed the analysis.

3. If you select **Override Stop Analysis** check box, system ignores the Stop Escrow Analysis flag on the account.
4. Click **Load Accounts**.  
The accounts which match the company and branch in Analysis Group section, are loaded from the search page to the Accounts section  
Load accounts button also loads the accounts which have the escrow required flag as Y and Opt out Indicator as N.
5. Click **Edit**
6. Specify the following information.

Field:	Do this:
Title	View the account title.
From Date	Specify the from date (start analysis from MM/DD/YYYY). <b>Note:</b> From date has to be the first date of the month.
To Date	Specify the to date (end analysis at MM/DD/YYYY). <b>Note:</b> To date has to be the Last date of the Month.
Comment	View the comment.
Status	View the payment status.

7. Select the **Include** check box if you want to include the account in the analysis. Clear the Include check box if you want to remove the account in the analysis.
8. In the **Action** section, choose **Process Accounts**.

The system performs the analysis and changes the batch status to PROCESSING.

If the system successfully processes the batch, it changes the batch status to **PROCESSED**. The individual accounts will all have a status of **NEW**. The analysis group can now be viewed on the Escrow Analysis Maintenance page.

If the system is unable to process one or more individual accounts in the batch, it changes the batch status to **ERRORED**. One or more of the individual accounts will have status of **ERROR** in the Accounts section. The reason of the error appears in the Comment field.

### 9.1.1 Reprocessing an Analysis Batch with Error Status

#### To reprocess an analysis batch with a status of ERROR

1. On the **Analysis Group** section of the **Escrow Analysis** page, load the analysis group with the status of ERRORED.
2. In the **Accounts** section, click **Edit** and clear the **Include** box for the accounts with a status of ERROR, then click **Save**.
3. In the **Action** section, click **Process Accounts**. The system performs the analysis and changes the batch status to PROCESSING.
4. The analysis group can now be viewed on the **Escrow Analysis Maintenance (Analysis Group)** page.

## 9.2 Analysis Group Tab

The Escrow Analysis Maintenance (Analysis Group) page enables you to review and maintain escrow analysis for each account in a selected analysis group (batch).

With the Escrow Analysis Group tab, you can:

- Review the analysis results for a selected batch
- Approve the analysis
- Cancel the analysis.

An escrow analysis for a batch may retrieve more than one account. These accounts appear in the Escrow Analysis section, along with the:

- Parameters used for the analysis
- Results of the analysis (standard payment, along with additions or deductions and the resulting new payment)
- Any surplus or shortage
- Escrow items used for analysis and the disbursement rule
- Analysis details, which lists all the escrow transactions.

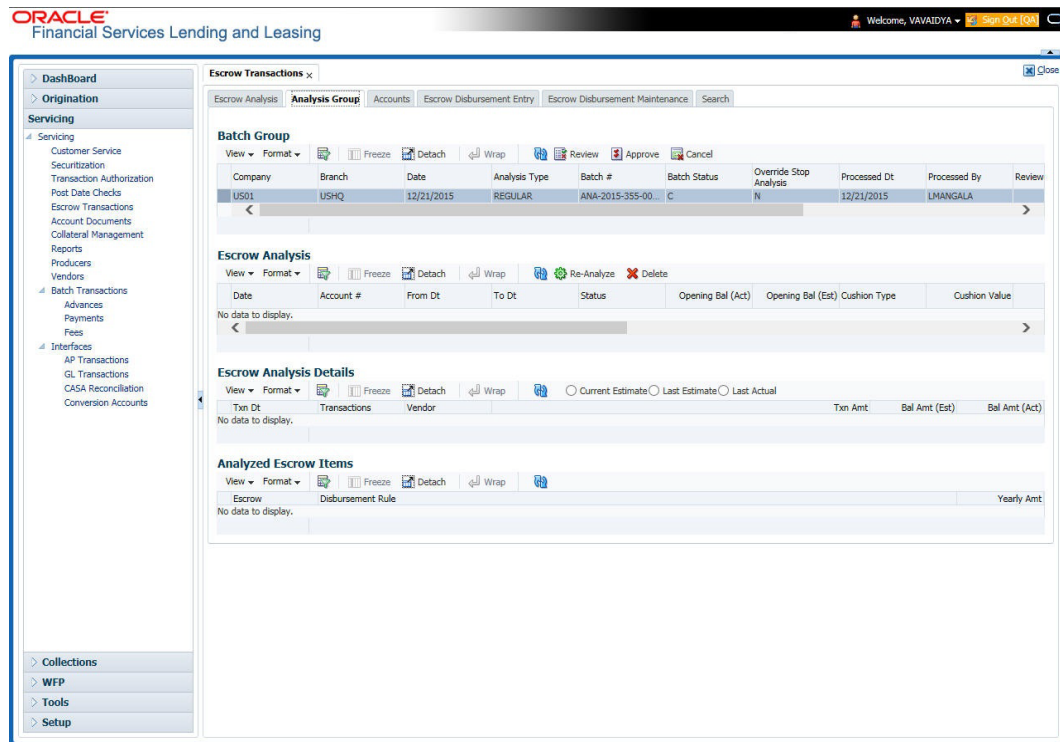

The system then enables you to:

- Re-analyze the account after making changes to the account on the Customer Service window if the status of the analysis is OPEN, ERROR, REVIEW or APPROVED.
- Delete an analysis.

## 9.2.1 Viewing Analysis Group tab

To view the Analysis Group page

1. On the Oracle Financial Services Lending and Leasing Application home page, click the **Servicing > Servicing > Escrow Transactions > Analysis Group** tab.

2. In the Escrow Analysis Group page's **Batch Group** section, select the record you want to work with and click **View**.
3. In the **Batch Group** section, view the following display only information.

Field:	View this:
Company	The portfolio company.
Branch	The portfolio branch.
Date	The batch date.
Analysis Type	The analysis type.
Batch #	The system generated batch number.
Batch Status	The batch status.
Override Stop Analysis	Override stop analysis indicator.
Processed Dt	The user analysis process date.
Processed By	The user who processed the analysis.
Reviewed Dt	The user analysis review date.
Reviewed By	The user who reviewed the analysis.
Approved Dt	The user analysis approved date.

Field:	View this:
Approved By	The user who approved the analysis.

## **Reviewing the Analysis Result**

### **To review the analysis results for a selected batch**

1. On the Oracle Financial Services Lending and Leasing Application home page, click the **Servicing > Servicing > Escrow Transactions > Analysis Group** tab.
2. In the **Batch Group** section on the **Analysis Group** screen, select the batch you want to review. Those batches which are pending for review will have status as PROCESSED.
3. In the **Action** section, click **Review**. The system changes the Batch Status field to PROCESSING.
4. In the **Batch Jobs** section on the **Analysis Group** page, select the escrow analysis group you reviewed. The reviewed group will have a batch status as REVIEWED.
5. In the **Batch Jobs** section, click **Execute Search**.

## **9.2.2 Approving the Analysis**

### **To approve the analysis**

1. On the Oracle Financial Services Lending and Leasing Application home page, click the **Servicing > Servicing > Escrow Transactions > Analysis Group** tab.
2. In the **Batch Group** Section on the **Analysis Group** page, select the batch with the status of REVIEWED you want to approve.
3. In the **Action** section, click **Approve**. The system changes the Batch Status to PROCESSING.
4. In the **Batch Jobs** section, search for the escrow analysis group which now has a status of APPROVED.

## **9.2.3 Cancelling the Analysis**

### **To cancel the analysis**

1. On the Oracle Financial Services Lending and Leasing Application home page, click the **Servicing > Servicing > Escrow Transactions > Analysis Group** tab.
2. In the **Batch Group** section on the **Analysis Group** page, select the batch you want to cancel.
3. In the **Action** section, select **Cancel**. The system changes the Batch Status for the selected status group to PROCESSING.
4. In the Escrow Analysis Maintenance (Analysis Group), click Analysis.

On the Escrow Analysis page, the batch you cancelled now has a status of CANCELLED in the Analysis Group section.

## **9.2.4 Reanalysing the Escrow Analysis**

### **To re-analyze escrow analysis**

1. On the Oracle Financial Services Lending and Leasing Application home page, click the **Servicing > Servicing > Escrow Transactions > Analysis Group** tab.

2. In the **Batch Group** section on the **Analysis Group** page, select the batch you want to re-analyze. You can only re-analyze an account if the status of the analysis batch is OPEN, ERROR, REVIEWED, or APPROVED.
3. On the **Escrow Analysis** page's **Parameters** section, select the account you want to re-analyze and click **View**.
4. In the **Parameters** section on the Escrow Analysis section, view the following display only information:

<b>Field:</b>	<b>View this:</b>
Date	The date.
Account #	The account # and title.
From Dt	The escrow activity from date.
To Dt	The escrow activity to date.
Status	The status of the analysis.
Opening Bal (Act)	The opening balance actual amount.
Opening Bal (Est)	The opening balance estimated amount.
Cushion Type	The cushion type.
Cushion Value	The cushion value.
Cushion Amt	The cushion amount.
<b>Results section</b>	
Std Pmt Amt	The standard payment amount.
(+) Esc Pmt Amt	The escrow payment amount.
(+) Spread Pmt Amt	The spread payment amount.
(+) Other Pmt Amt	The other payment amount.
= New Pmt Amt	The new payment amount.
<b>Surplus/Shortage section</b>	
Surplus/Shortage Amt	The surplus shortage amount.
Refund Amt	The refund amount.
<b>Approval section</b>	
Approval Dt	The approval date.
Approved By	The user id of who approved the analysis.

5. In the **Analyzed Escrow Items** sub page, view the following information:

<b>Field:</b>	<b>View this:</b>
Escrow	The escrow.

Field:	View this:
Disbursement Rule	The disbursement rule.
Yearly Amt	The yearly amount.

6. In the **Analysis Details** sub page, view the following information:

Field:	View this:
Txn Dt	The transaction date.
Transactions	The transactions.
Vendor	The vendor name.
Txn Amt	The transaction amount.
Bal Amt (Est)	The balance amount estimated.
Bal Amt (Act)	The balance amount actual.

7. In the **View** section, choose how you want to view the information in the Analysis Details sub page.

Choose:	The system displays:
Current Estimated	The current estimated analysis.
Last Estimated	The last estimated analysis.
Last Actual	The last actual analysis.

8. In the **Escrow Analysis** page, click **Re-Analyze**. Oracle Financial Services Lending and Leasing clears the Parameter section on the Escrow Analysis section.

9. When you search for the account in the **Parameters** section on the Escrow Analysis page, the status is now NEW.

### 9.2.5 Deleting the Analysis

#### To delete an individual analysis

1. On the Oracle Financial Services Lending and Leasing Application home page, click the **Servicing > Servicing > Escrow Transactions > Analysis Group** tab.
2. In the **Batch Group** section on the **Analysis Group** page, select the batch with the individual analysis you want to delete.
3. On the **Escrow Analysis** page's **Parameters** section, select the account you want to delete and click **View** in the **Details** column.
4. On the **Escrow Analysis** page, click **Delete**.

The system changes the Status field in the Parameters section to DELETED.

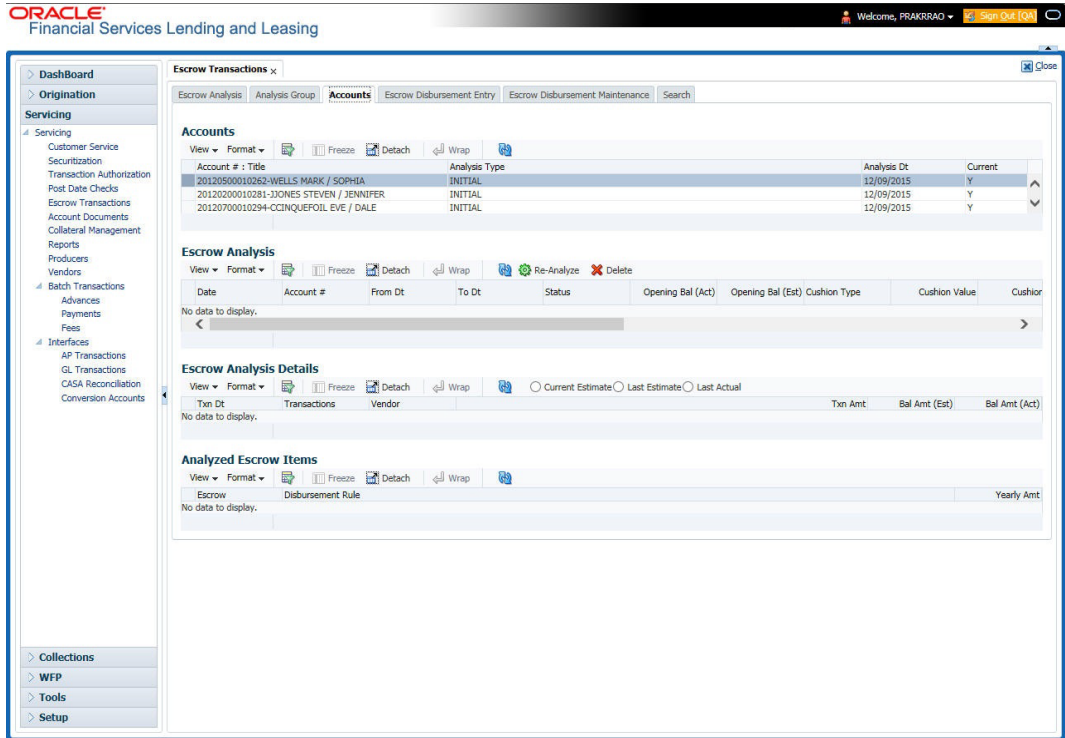

## 9.3 Accounts Tab

As an alternative to selecting an analysis group and then selecting an account, use the Escrow Analysis Maintenance (Accounts) page to directly view an account. You can then use the Escrow Analysis page to re-analyze or delete an escrow analysis following the same steps

described previously in the Escrow Analysis Maintenance (Analysis Group) section of this chapter.

**To view an escrow analysis for an account**

1. On the Oracle Financial Services Lending and Leasing Application home page, click the **Servicing > Servicing > Escrow Transactions > Accounts** tab.

2. In the **Accounts** section on the Escrow Analysis Maintenance (Accounts) page, select the required account. You can also use **Search > Search Criteria** tab to limit the display of account records.
3. In the **Accounts** section, view the following information:

Field:	View this:
Account # Title	The standard payment amount.
Analysis Type	The escrow payment amount.
Analysis Dt	The spread payment amount.
Current	If selected, indicates that the information is up-to-date.

4. On the **Escrow Analysis** page's Parameters section, select the account you want to re-analyze and click **View**.
5. In the **Parameters** section on the Escrow Analysis page, view the following display only information:

Field:	View this:
Date	The date.
Account #	The account # and title.
From Dt	The escrow activity from date.

<b>Field:</b>	<b>View this:</b>
To Dt	The escrow activity to date.
Status	The status of the analysis.
Opening Bal (Act)	The opening balance actual amount.
Opening Bal (Est)	The opening balance estimated amount.
Cushion Type	The cushion type.
Cushion Value	The cushion value.
Cushion Amt	The cushion amount.
<b>Results section</b>	
Std Pmt Amt	The standard payment amount.
(+) Esc Pmt Amt	The escrow payment amount.
(+) Spread Pmt Amt	The spread payment amount.
(+) Other Pmt Amt	The other payment amount.
= New Pmt Amt	The new payment amount.
<b>Surplus/Shortage section</b>	
Surplus/Shortage Amt	The surplus shortage amount.
Refund Amt	The refund amount.
<b>Approval section</b>	
Approval Dt	The approval date.
Approved By	The user id of who approved the analysis.

6. Click the **Analyzed Escrow Items** sub tab.

7. In the **Analyzed Escrow Items** sub page, view the following information:

<b>Field:</b>	<b>View this:</b>
Escrow	The escrow.
Disbursement Rule	The disbursement rule.
Yearly Amt	The yearly amount.

8. Click the **Analysis Details** sub tab.

9. In the **Analysis Details** sub page, view the following information:

<b>Field:</b>	<b>View this:</b>
Txn Dt	The transaction date.

<b>Field:</b>	<b>View this:</b>
Transactions	The transactions.
Vendor	The vendor name.
Txn Amt	The transaction amount.
Bal Amt (Est)	The balance amount estimated.
Bal Amt (Act)	The balance amount actual.

10. In the **View** section, choose how you want to view the information in the Analysis Details sub page.

<b>Choose:</b>	<b>The system displays:</b>
Current Estimated	The current estimated analysis.
Last Estimated	The last estimated analysis.
Last Actual	The last actual analysis.

## 9.4 Escrow Disbursement Entry Tab

With the Escrow Disbursement Entry page, you can make payments on escrow from the system in the form of disbursement batches. Disbursement batches record the following information in the Disbursement Group section:

- Company/branch of the account
- Total dollar amount of disbursements
- Total number of disbursements.

The Details section enables you record the following information for each escrow disbursement batch:

- Account number
- Transaction date
- Disbursement amount
- Escrow sub type.

You can use the Escrow Disbursement Entry page to:

- Validate disbursement totals entered in the Disbursement Group section against the transaction totals entered in the Details section.
- Post a validated disbursement entry batch.
- Cancel a disbursement entry batch.

---

### **Note**

You cannot cancel a posted batch. Hence temporarily place a disbursement entry batch on hold before validating or posting it.

---

A posted batch cannot be cancelled. Temporarily place a disbursement entry batch on hold before validating or posting it.

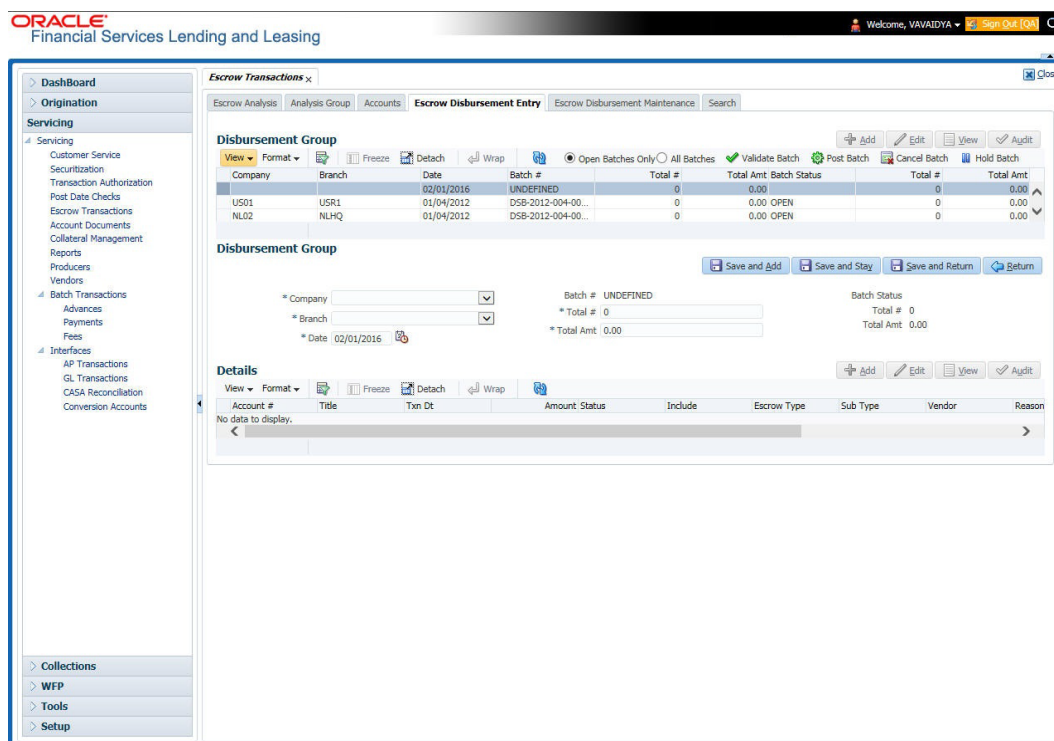

## Viewing Batches

The Escrow Disbursement Entry pages enables you to view either all escrow disbursement batches or only open escrow disbursement batches. You can choose which type of batch you want to view using the View Options section. Viewing all batches enables you to locate escrow disbursement batches with a status of OPEN, PROCESSING, PROCESSED, ERROR, or CANCELLED.

### 9.4.1 Viewing Open batches

To view open batches

1. On the Oracle Financial Services Lending and Leasing Application home page, click the **Servicing > Servicing > Escrow Transactions > Escrow Disbursement Entry** tab.
2. In the **View Options** section on the Escrow Disbursement Entry page, select **Open Batch Only**. In the Disbursement Group section, the system displays all batches with a status of OPEN that have not been posted.

3. In the **Disbursement Group** section, select the record you want to work with.

### 9.4.2 Viewing All Batches

To view all batches

1. On the Oracle Financial Services Lending and Leasing Application home page, click the **Servicing > Servicing > Escrow Transactions > Escrow Disbursement Entry** tab.
2. In the **View Options** section on the Escrow Disbursement Entry screen, select **All Batches**. In the Disbursement Group section, the system displays all batches regardless of status.
3. In the **Disbursement Group** section, select the record you want to work with.

### 9.4.3 Locating a batch with an Error

#### To locate a batch with an error

1. On the Oracle Financial Services Lending and Leasing Application home page, click the **Servicing > Servicing > Escrow Transactions > Escrow Disbursement Entry** tab.
2. In the **View Options** section of the Escrow Disbursement Entry page, select **All Batches**. The system displays all batches, regardless of status, in the Disbursement Group section.
3. In **Disbursement Group** section, select the batch with the status **ERRORED** you want to work with.
4. In the **Details** section, select the payment with **ERROR Status** and click **Edit**. The system displays the cause of the error in the Comment field.

### 9.4.4 Validating and Posting Batches

#### To validate and post an escrow disbursement batch

1. On the Oracle Financial Services Lending and Leasing Application home page, click the **Servicing > Servicing > Escrow Transactions > Escrow Disbursement Entry** tab.
2. In the **Disbursement Group** section on the Escrow Disbursement Entry page, In this section, you can perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below.

Field:	Do this:
Company	Select the portfolio company.
Branch	View the portfolio branch.
Date	Enter batch date. Oracle Financial Services Lending and Leasing uses this date and the number of pre process days (if in use) to determine when to disburse the payment.
Batch #	View the system generated batch number with a format of DSB-YYYY- DDD-SEQNUM.
Total #	Enter total number of disbursements in the batch.
Total Amt	Enter total amount of disbursements in the batch.
Batch Status	View batch status.
Total #	View total number of actual disbursements in the batch.
Total Amt	View total amount of actual advances in the batch.

3. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.  
The **Details** section records itemized information of the escrow disbursement batch. It enables you to make one payment for one account, or more than one payment to more than one account.
4. In the **Details** section, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below.:

Field:	Do this:
Account #	Specify the account number.
Title	View the title.
Txn Dt	Specify the disbursement date.
Amount	Specify the disbursement amount.
Status	View the status.
Include	Select to indicate this is an active record.

- In the **Details** section, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below.:

Field:	Do this:
Escrow Type	Select the escrow type.
Sub Type	View the escrow sub type.
Vendor	View the vendor.
Reason	Select the reason for the disbursement.
Pmt Mode	Specify the payment mode for the disbursement.
Reference	Specify the reference for the disbursement.
Comment	Specify any comments regarding the disbursement.

- Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

The system updates the display only Total # and Total Amt fields in the Disbursement Group section to record the contents of the Details section.

When you want to post escrow disbursement batch on Escrow Disbursement Entry page, ensure that the contents of the display only Total # and Total Amt fields match with the contents of the required Total # and Total Amt fields in the Disbursement Group section.

- In the **Action** section, click **Validate Batch**.

The system changes the escrow disbursement batch status from OPEN to PROCESSING and submits the batch to the job service. After the batch has been processed, Oracle Financial Services Lending and Leasing changes the its status to POSTED or ERRORED.

If an escrow disbursement batch has a status of ERRORED, the accounts in the Details section with the status of ERROR must be excluded from the Disbursement Group before the batch can be posted.

- Clear the include box of any accounts in the Details section with a status of ERROR, then click **Validate Batch** again.

When an escrow disbursement batch has a status of PROCESSED, the Post Batch button in the Action section is available.

9. In the **Action** section, click **Post Batch**.

The system changes the status for the accounts in the Details section included in the escrow disbursement batch to POSTED and creates an entry on the Disbursement Maintenance page.

The system also creates an entry for the escrow disbursement on the AP Requisitions page.

#### **9.4.5 Holding an Escrow Disbursement Batch**

Only escrow disbursement batches with the status of OPEN can be put on hold.

##### **To hold an escrow disbursement batch**

1. On the Oracle Financial Services Lending and Leasing Application home page, click the **Servicing > Servicing > Escrow Transactions > Escrow Disbursement Entry** tab.
2. On the **Escrow Disbursement Entry** page, use the **View Option** section to select the batch you want to place on hold:
  - If the batch status is OPEN, click **Open Batches Only** in the **View Options** section.
  - If the batch status is ERROR, click **All Batches** in the **View Options** section.
3. Use the **Disbursement Group** section to select the escrow disbursement batch you want to hold.
4. In the **Action** section, click **Hold Batch**.

The system changes the escrow disbursement batch status from OPEN to HOLD.

#### **9.4.6 Opening/Removing Hold on an Escrow Disbursement batch**

Only escrow disbursement batches with a status of HOLD can be opened.

##### **To open or remove hold on an escrow disbursement batch**

1. On the Oracle Financial Services Lending and Leasing Application home page, click the **Servicing > Servicing > Escrow Transactions > Escrow Disbursement Entry** tab.
2. On the **Escrow Payment Entry** page, use the **View Options** section to select **All Batches**.
3. Use the **Disbursement Group** section to search for and select the escrow disbursement batch with the status of HOLD you want to open.
4. In the **Action** section, click **Validate Batch**.

The system changes the escrow disbursement batch status from OPEN to PROCESSING and submits the batch to the job service in the Disbursement Group section. After the batch has been processed, the system changes the its status to POSTED or ERRORED.

If an escrow disbursement batch has a status of ERRORED, the accounts in the Details section with the status of ERROR must be excluded from the Disbursement Group before the batch can be posted.

5. Clear the include box of any accounts in the Details section with a status of ERROR, then click **Validate Batch** again.

When an escrow disbursement batch has a status of PROCESSED, the Post Batch button in the Action section is available.
6. In the **Action** section, click **Post Batch**.

The system changes the status for the accounts in the Details section included in the escrow disbursement batch to POSTED and creates an entry on the Disbursement Maintenance page.

### **9.4.7 Cancelling an escrow disbursement batch**

Only the escrow disbursement batches with the status of OPEN, PROCESSED, HOLD, or ERRORED can be cancelled.

#### **To cancel an escrow disbursement batch**

1. On the Oracle Financial Services Lending and Leasing Application home page, click the **Servicing** master tab.
2. Click the **Escrow Transactions** link.
3. On Escrow Analysis screen, click the **Escrow Disbursement Entry** tab.
4. On the **Escrow Disbursement Entry** page, use the **View Options** section to select the escrow disbursement batch you want to cancel:
  - If the batch status is OPEN, click **Open Batches Only** in the **View Options** section.
  - If the batch status is PROCESSED, HOLD, or ERRORED, click **All Batches** in the **View Options** section.
5. Use the **Disbursement Group** section to select the escrow disbursement batch you want to cancel.
6. In the **Action** section, click **Cancel Batch**.

The system changes the Status field in the Details section to VOID.

When you refresh the Escrow Disbursement Entry page, the escrow disbursement batch that you cancelled has a batch status of CANCELLED in the Disbursement Group section.

## **9.5 Escrow Disbursement Maintenance Tab**

The Disbursement Maintenance page enables you to cancel escrow disbursement transactions.

## 9.5.1 cancelling the Disbursement Maintenance

### To cancel the disbursement maintenance

1. On the Oracle Financial Services Lending and Leasing Application home page, click the **Servicing > Servicing > Escrow Transactions > Escrow Disbursement Maintenance** tab.

2. On the **Disbursement Maintenance** page's **Disbursements** section, select the record you want to work with and click **View**. You can also use **Search > Search Criteria** tab to limit the display of account records.
3. In the **Disbursements** section, view the following display only information:

Field:	View this:
Account #	The account number.
Title	The title.
Txn Dt	The disbursement date.
Amount	The amount.
Escrow Type	The escrow type.
Sub Type	The sub type.
Status	The status.
Include	Include indicator.
Company	The portfolio company.
Branch	The portfolio branch.
Batch #	The batch number.

Field:	View this:
Vendor	The vendor.
Reason	The reason.
Pmt Mode	The payment mode.
Reference	The reference.
Comment	The comment.

4. Select the disbursement you want to void and click **Void** in the **Action** section.

The system changes the status of the escrow disbursement to VOID.

## 9.5.2 Viewing Cancelled Escrow Disbursement on the AP Requisition screen

To view the cancelled escrow disbursement on the AP Requisition page

1. On the Oracle Financial Services Lending and Leasing Application home page, click the **Servicing > Servicing > Interfaces > AP Transaction** link.

The screenshot displays the Oracle Financial Services Lending and Leasing interface. At the top, there's a navigation bar with the Oracle logo and the text 'Financial Services Lending and Leasing'. Below this, the 'AP Transactions' window is open, showing a 'Requisitions' table. The table has columns for Requisition Id, Company, Branch, Transaction Date, Status, Sub Status, Sub Status Dt, Payee Type, Payee, Currency, Amount, and Pmt Mode. The table is filtered to show 'All' payee types and 'All' payment modes. The status is set to 'Void'. The details section below the table shows a payment record for 'ITM CASH SALES-20190100010037 AV INFO' with a payment ID and amount of 12,000.00.

2. On the **Payee Type** section of the **AP Transactions** page, select **All**.
3. On the **Pmt Mode** section, select **All**.
4. On the **Status** section, select **Void**.
5. On the **AP Requisitions** page, the system changes the escrow disbursement status to VOID.

## 9.6 Search Tab

The Search tab enables you to locate the accounts on which the escrow analysis is to be performed. You can select accounts for an escrow analysis using the following attributes in

the **Criteria** column of the **Search Criteria** section. You can also configure the system to search other account attributes if required.

#### To search for an account

1. On the Oracle Financial Services Lending and Leasing Application home page, click the **Servicing > Servicing > Escrow Transactions > Search**.
2. In the **Search** page's **Search Criteria** section, use the **Comparison Operator** and **Value** columns to enter the search criteria you want to use to locate an account.
3. Click **Search** and use criteria and comparison operator to search criteria:

<b>Field:</b>	<b>View this:</b>
Account	Specify the account number.
Account Status	Select the account status.
Account State	Select the state name where the account belongs.
Account Last Escrow Analysis Date	Select the date on which the escrow analysis was last performed on the account.
Escrow Analysis Required Indicator	YES: If selected, the system displays the accounts that require escrow analysis. NO: If selected, the system displays the accounts that do not require escrow analysis.
Escrow Analysis Stopped Indicator	YES: If selected, the system displays the accounts with the escrow analysis is allowed NO: If selected, the system displays the accounts with the escrow analysis is stopped.
Product	Specify the product name.
Account Condition	Select the account condition.

The system displays the result of the search in the Results section at the bottom of the page.

<b>Field:</b>	<b>View this:</b>
Company	The company.
Branch	The branch.
Account #	The account number.
Date	The account effective date.
Title	The account title.
Product	The product.
Status	The account status.
Producer	The producer.
Secured	If selected, the account has a customer classified as secured

If you click **Reset Criteria**, the system clears the contents of the Search Criteria section and refreshes with the its default values.

**To search for accounts that require escrow analysis**

1. On the Oracle Financial Services Lending and Leasing Application home page, click the **Servicing > Servicing > Escrow Transactions Search** tab to view the Search page.
2. In the **Search Criteria** section, complete the ESCROW ANALYSIS REQUIRED INDICATOR criteria with a value of YES.
3. In the **Search Criteria** section, complete the ESCROW ANALYSIS STOPPED INDICATOR criteria with a value of NO.
4. Click **Search**. The system displays all the accounts that require escrow analysis.

---

# 10. Account Documents

## 10.1 Introduction

The Documents Maintenance screen allows for both the paperless storage of documents within Oracle Financial Services Lending and Leasing system, first with Accounts during the Loan origination cycle and later with accounts during customer service.

This chapter explains how use the Account Document section to:

- View an image
- Search for an image
- Split an image of more than one page
- Change the status of an image
- Combine two images into a multiple page image
- Attach an image to an existing Account
- Print an image
- Attach documents to Accounts and then view these documents in a browser.

It also explains how to use the Account Document Tracking screen to attach documents to accounts and then view these documents in a browser.

### **Account Document screen**

The Account Document screen consists of “Document Maintenance” and “Document Details” sections.

Credit Accounts are often sent or faxed to financial institutions from producers (or ‘dealers’) on behalf of the customer. These credit Accounts, if received as fax, can be stored in the system as images. Frequently, more than one Account is received in a single fax or a single Account is received across multiple faxes. In such cases, the Account Document Tracking screen can help you organize and maintain your image collection.

The Account Document screen’s Document Maintenance screen allows you to upload documents to an Account in the form of GIF files, PDF files, DOC files, XLS files, and TXT files. The Document Maintenance screen’s Document Details section allows you to view these documents.

## 10.2 Account Document screen

Oracle Financial Services Lending and Leasing supports the online attachment of document images to an Account using the Account Documents screen’s Document Maintenance section. You can attach the documents from either a client machine or server. A default image directory can be maintained in the system using the system parameter: `UIX_DEFAULT_IMAGE_PATH`.

When you choose List File in the **Select Document** sub section in the **Document Maintenance** section, system displays all available files in the selected directory in **Document Details** section. You can use the **Document Maintenance** sub-section and **Action** sub-section to attach selected documents to a particular account.

## 10.2.1 Attaching a Document to an Account from a server

### To attach a document to an Account from a server

1. On the Oracle Financial Services Lending and Leasing Account home screen, click the **Servicing > Servicing > Account Documents** link.

2. In the **Action** sub-section, click **Attach Document (Server)**.
3. In the **Select Document** sub-section, use the default image directory in **Directory Path** field. (The default path is the value for system parameter `UIX_DEFAULT_IMAGE_PATH`).  
-or-
4. In the **Directory Path** field, specify the full path name to the document on server that you want to attach to an account. You can click **Reset Path** at any time to return to the default image directory.
5. In the **Select Document** section, click **List File**. The system displays files from the entry in Select Document section Directory Path in the Document Maintenance record.
6. In the **Document Details** record, select the record you want to work with and click **Edit** in **Details** column.
7. In the **Document Details** record, specify, view or edit the following information:

Field:	Do this:
<b>File Name</b>	View the file name for the document.
<b>Document Type</b>	Select the type for the document.
<b>Document Sub Type</b>	Select the sub type for the document.
<b>Account#</b>	Select the account number to attach/copy/move the document image.
<b>Attach</b>	Select the attachment type.
<b>Status</b>	View the status of the document.
<b>Tracking #</b>	Specify the tracking number of the document.
<b>Docket #</b>	Specify the docket number of the document.

Field:	Do this:
<b>Location</b>	Specify the location of the document.
<b>Received Dt</b>	View the document image received date.
<b>Effective Dt</b>	Specify the effective date of the document.
<b>Expiry Dt</b>	Specify the expiration date of the document.
<b>Comment</b>	Specify any comments regarding the document.

8. Select the **Attach** check box to attach file to the account.
9. Click **Save And Return**.
10. In the **Action** sub-section, click **Post**.  
The system attaches the document to Account.

You can view the document in a browser by clicking **View Document** in the **Document Details** section.

## 10.2.2 Attaching a Document to an Account from a Client Machine

### To attach a document to an Account from a client machine

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Origination** master tab.
2. Click the **Account Documents** link.
3. In the **Action** sub-section, click **Attach Document (Client)**.
4. In the **Select Document** section, click **Browse** in **File to upload** field.  
The system opens a **Choose File to Upload** dialog box.
5. In the **Choose File to Upload** dialog box, locate the document you want to attach to the account. You can select multiple files by holding the Ctrl or Shift key on your keyboard.
6. When you have located the document you want to attach to the account in **Open** dialog box's **File name:** field, click **Open**.
7. The selected files appear in the **Select Document** sub-section's **File to Upload** field.
8. In the **Select Document** sub-section, click **Upload**.
9. In the **Document Details** record, select the file uploaded from your server and click **Edit**.
10. In the **Document Details** section, enter, view or edit the following information:

Field:	Do this:
<b>File Name</b>	View the file name for the document.
<b>Document Type</b>	Select the type for the document.
<b>Document Sub Type</b>	Select the sub type for the document.
<b>Account #</b>	Select the application number to attach/copy/move the document image.
<b>Attach</b>	Select the attachment type.
<b>Status</b>	View the status of the document.

Field:	Do this:
<b>Comment</b>	Specify any comments regarding the document.
<b>Tracking #</b>	Specify the tracking number of the document.
<b>Docket #</b>	Specify the docket number of the document.
<b>Location</b>	Specify the location of the document.
<b>Received Dt</b>	Specify the received date of the document.
<b>Effective Dt</b>	Specify the effective date of the document.
<b>Expiry Dt</b>	Specify the expiration date of the document.
<b>Comments</b>	Specify any comments regarding the document.

11. Select the **Attach** check box to attach the file to account.
12. Click **Save And Return**.
13. In the **Action** sub-section, click **Post**.  
The system attaches the document to Account.

You can view the document in a browser by choosing **View Document** in the Action section.

### 10.2.3 Copying a Document

The Action section's Copy Document command copies the document image from one Account to another Account. This command has no impact on the source Account or the source Account's document image.

#### To copy a document to an Account from another Account

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **origination** master tab.  
Click the **Account Documents** link.
2. In **Action** sub-section, click **Copy Document**.
3. In **Document Maintenance** sub-section, select either 'Customer#' or 'Business#' option and use the **Account#** field to specify Account with the image you want to copy.
4. While selecting the above option, you can use any of the below combinations to define your search:
  - Customer # (only)
  - Customer # and Account #
  - Business # (only)
  - Business # and Account #
5. In **Document Maintenance** sub-section, click **Search**.  
The system displays the files attached to that Account in **Document Details** section.
6. In **Document Details** section, select the document you want to copy and click **Edit**.
7. In **Copy/Move Account #** field, specify the application number of Account to which you want to copy the document.
8. Click **Save And Return**.
9. In the **Action** sub-section, click **Post**.

## 10.2.4 Moving a Document

The Action section's Move Document command moves an existing document image from one Account to another Account. This command detaches the document image from source Account and attach to second Account.

### To move a document to an Account from another Account

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Origination > Origination > Account Documents** link.
2. In **Action** sub-section, click **Move Document**.
3. In **Document Maintenance** sub-section, select either 'Customer#' or 'Business#' option and use **Account #** field to specify the Account with the image you want to move.
4. While selecting the above option, you can use any of the below combinations to define your search:
  - Customer # (only)
  - Customer # and Account #
  - Business # (only)
  - Business # and Account #
5. In **Document Maintenance** sub-section, click **Search**.  
The system displays the files attached to that Account in Document Details sections.
6. In **Document Details** section, select the document you want to move and click **Edit**.
7. In **Copy/Move Account #** field, specify the application number of Account to which you want to move the document.
8. Click **Save And Return**.
9. In the **Action** sub-section, click **Post**.

You can view the documents attached to a particular account by loading application on Customer Service screen, then clicking Customer Service tab and then clicking on Document Tracking sub tab.

## 10.2.5 Viewing a Document Attached to an Account

### To view a document attached to an Account

1. Using above method, load the account with the document you want to view.
2. In the **Account Document** section, click Edit.
3. View/edit the following display only information:

Field:	Do this:
<b>Document Type</b>	View the document type.
<b>Comment</b>	Specify any comments regarding the image.

4. In the **Account Document Details** section, select the record you want to work with and click **Edit**.
5. In the **Account Document Details** section, view the following display only information:

Field:	View this:
<b>Document Sub Type</b>	The document sub type.

Field:	View this:
<b>Version</b>	The version (version numbers will be incremental by batch job, first version will start with 1.0).
<b>Page #</b>	The page number.
<b>Document File Type</b>	The document file type.
<b>Status</b>	The status.
<b>Tracking #</b>	The tracking number of the image.
<b>Docket #</b>	The docket number of the image.
<b>Location</b>	The location of the of the image.
<b>Received Dt</b>	The effective date of the image.
<b>Effective Dt</b>	The effective date of the image.
<b>Expiry Dt</b>	The expiration date of the image.
<b>Comment</b>	Any comments regarding the image.

6. Use the **Account Document** and **Account Document Details** sections to select the document you want to view.
  - In multiple paged documents, choose **1** in the **Page #** field on **Account Document Details** section to view the all pages in the document
  - or–
  - Choose a specific page number to view only that page.
7. Click **View Document**.  
The system opens a browser to display the actual document (which browser appears depends on what type of document you selected and what browsers are set up to work in conjunction with your Oracle Financial Services Lending and Leasing system).
8. You can add comments to the **Comments** field in the **Account Document** and **Account Document Details** sections.
9. Click **Save And Return**.

## 10.3 Document Tracking section

You can view the documents attached to a particular Account by loading the application on the Underwriting/Funding screen and then clicking on Document tab.

### 10.3.1 Locating an Account Document

#### To locate an account document

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Origination > Underwriting/Funding** link.
2. Select and open the application you want to work with.
3. Click **Document** sub tab. The Account Document screen appears.

Information about the documents attached to Account appears in **Account Documents** and **Account Document Details** sections.

### 10.3.2 Viewing a Document Attached to an Account

To view a document attached to an account

1. Using the above method, load the account with the document you want to view.
2. In the **Account Document** section, click **Edit**.
3. View/edit the following display only information:

Field:	Do this:
<b>Document Type</b>	View the document type.
<b>Comment</b>	Specify any comments regarding the image.

4. In the **Account Document Details** section, select the record you want to work with and click **Edit**.
5. In the **Account Document Details** section, view the following display only information:

Field:	View this:
<b>Document Sub Type</b>	The document sub type.
<b>Version</b>	The version (version numbers will be incremental by batch job, first version will start with 1.0).
<b>Page #</b>	The page number.
<b>Document File Type</b>	The document file type.
<b>Status</b>	The status.
<b>Tracking #</b>	The tracking number of the image.
<b>Docket #</b>	The docket number of the image.
<b>Location</b>	The location of the image.
<b>Received Dt</b>	The effective date of the image.
<b>Effective Dt</b>	The effective date of the image.
<b>Expiry Dt</b>	The expiration date of the image.
<b>Comment</b>	Any comments regarding the image.

6. Use the **Account Document** and **Account Document Details** section to select the document you want to view.
  - In multiple paged documents, choose **1** in the **Page #** field on **Account Document Details** section to view the all pages in the document
  - or-
  - Choose a specific page number to view only that page.
7. Choose **View Document**. The system opens a browser to display the actual document (which browser appears depends on what type of document you selected and what browsers are set up to work in conjunction with your system).
8. You can add comments to the **Comments** field in the **Account Document** and **Account Document Details** sections.
9. Click **Save And Return**.

---

# 11. Collateral Management

Centralized Asset Management or Collateral Management System (CMS) enables the user to record a new collateral, evaluate it, and re-evaluate the existing collateral.

A Collateral Management System is used to minimize the frauds which involve the same collateral being pledged for different Loan and re-evaluating existing collateral manually or connecting to the VIN Interface.

The Collateral Details screen is opened from the **Servicing > Servicing > Collateral Management** and contains the following tab:

- Collateral
- Search

## 11.1 Collateral Tab

Using the Collateral screen, you can record a new collateral, view the valuation of collateral, and re-evaluate the existing collateral.

The collateral details can also be defined in the collateral screen of Application Entry screen.

The system assigns collateral statuses and the following are the statuses:

- **Undefined**- When the collateral is created for the first time.
- **New**- When an undefined collateral/ asset gets validated, its status is changed to New. This collateral can only be used for Substitution in Servicing.
- **Inactive**- When an asset/collateral from 'Released, Sold or Inventory' status is attached to application, it becomes Inactive.
- **Active**- When the application gets funded, inactive collateral gets associated with the account in Servicing and gets activated. The status of the collateral then becomes 'Active'.
- **Released**- The Loan collateral can move to "Released" when the collateral is no more attached to any account.
- **Substituted**- When collateral with the status active is replaced with different collateral, the active status is changed to SUBSTITUTED.

## To enter the Collateral Details

1. On the application master screen, click **Servicing > Servicing > Collateral Management > Collateral Details**.

The screenshot displays the Oracle Financial Services Lending and Leasing application. The main window is titled "Collateral Management" and shows a "Collateral Details" section. At the top, there is a search bar and a table of collateral items. The table has columns for Status, Asset Id, Asset #, Asset Class, Primary, Collateral Type, Asset Type, Sub Type, Lien Status, Lien Event Dt, and Second Lien Holder. Below the table, there is a "Collateral Details" form with various fields for entering information, including "Type & Description", "Country", "County", "Address #", "Address Line 1", "Address Line 2", "Zip", "Zip Extn", "City", "State", "Registration #", "Status", "Select Make and Model", "Year", "Estimated Life", "Usage/Rental Details (Cycle)", "Billing", "Due Amt Account Type", "Trade Eligible", "Consolidate Points at Master", "Points Consolidation Type", and "Custom Fields".

2. In this section, you can perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Type and Description section</b>	
<b>Collateral Type</b>	Select the collateral type.
<b>Primary</b>	Select the check box if this property is the primary collateral.
<b>Asset ID</b>	View the asset identification number.
<b>Asset #</b>	View the asset number which is automatically generated.
<b>Asset Class</b>	Select the asset Class.
<b>Asset Type</b>	Select the asset type.
<b>Sub Type</b>	Select the asset sub type.
<b>Registration #</b>	Enter the vehicle registration number.
<b>Status</b>	View the vehicle status.
<b>Select Make and Model</b>	Select the Make and Model number of asset from the drop down list. You can use the search option to select the details.
<b>Year</b>	Specify the year of the vehicle.
<b>Estimated Life</b>	Specify the estimated life of the asset.
<b>Make</b>	Specify the make of the vehicle.
<b>Model</b>	Specify the model of the vehicle.

<b>Field:</b>	<b>Do this:</b>
<b>Identification #</b>	Specify the vehicle identification number.
<b>Body</b>	Specify the body of the vehicle.
<b>Description</b>	Specify the description of the asset.
<b>Condition</b>	Select the condition of the asset from drop-down list.
<b>Lien Details</b>	
<b>Lien Status</b>	Select the type of Lien action.
<b>Lien Event Dt</b>	Select the lien event date from the calendar.
<b>Second Lien Holder</b>	Specify the name of second lien holder.
<b>Comments</b>	Specify additional details if any.
<b>Lien Release Entity</b>	<p>Select the lien release entity from the drop-down list. The list displays the following values:</p> <ul style="list-style-type: none"> <li>- Customer</li> <li>- Producer</li> <li>- Others</li> <li>- Business</li> </ul> <p><b>Note:</b> If 'Others' is selected as the Lien Release Entity, ensure that the Entity Name and Address details are updated correctly since the same is not auto-validated with the data maintained in the system.</p>
<b>Entity Name</b>	<p>If you have selected the lien release entity as 'Customer' or 'Producer', system automatically filters entity name list with corresponding customer accounts or producers. Similarly, if the lien release entity is selected as 'Business' system displays the Business name if the asset is linked to Business account. Select the required entity name from the drop-down list.</p> <p>If you have selected the lien release entity as 'Others' specify the entity name.</p>
<b>Address section</b>	
<b>Country</b>	Select the country.
<b>County</b>	Select the county.
<b>Address #</b>	Specify the address number.
<b>Address Line 1</b>	Specify the first address line.
<b>Address Line 2</b>	Specify the second address line.
<b>Zip</b>	Select the zip code.
<b>Zip Extn</b>	Specify the zip extension.

Field:	Do this:
City	Specify the city.
State	Select the state.
<b>Usage Details</b>	
The details maintained in this section is used to calculate 'EXCESS USAGE FEE' in pay-off quote and termination transactions.	
Start	View/specify the start unit of asset usage.
Base	View/specify the base units.
Extra	View/specify the extra usage units.
Total	View/specify the total usage units.
<b>Vacation Ownership Details</b>	
Billing	Check this box to indicate if the asset is considered for billing.
Due Amt Account Type	<p>Select one of the following account type from the drop-down list to indicate on which account this asset is to be considered for billing.</p> <ul style="list-style-type: none"> <li>- Current Account</li> <li>- Linked Account</li> <li>- Master Account</li> </ul> <p><b>Note:</b> If 'Billing' option is checked and the Due Amt Account Type is selected as Current/Linked/Master Account, then the billing batch job posts the transactions based on Asset Billing Rate setup in Current account / Linked Account of current Account / Master Account of current Account respectively.</p>
Trade Eligible	<p>This check box is selected by default and indicates that the asset is eligible for trade.</p> <p>If checked (Trade Eligible = Y) then Asset Status is marked as INACTIVE during Trade. If unchecked (Trade Eligible = N) Asset status is marked as ACTIVE.</p>
Consolidate Points at Master	Check this box to indicate that point can be consolidated at master account level. Refer to ' <a href="#">Consolidate Points at Master</a> ' section for more details.
Points Consolidation Type	Select the type of points consolidation option from drop-down list. This field is used to identify the assets at Associated accounts to consolidate the points.
<b>Custom Fields</b> - This section displays the custom User Defined Fields if enabled in Setup and if configured, populates specific business computation values.	

3. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.
4. Click **Submit**.

## **Consolidate Points at Master**

If 'Consolidate Points at Master' option is checked, system consolidates the asset level points at Master Account of the associated account provided the following conditions are satisfied:

- The same 'Points Consolidation Type' is selected for associated account.
- The status of asset is ACTIVE.
- The status of account is available and enabled in ACC\_STATUS\_POINT\_CONS\_CD lookup type.
- The asset expiry date is greater than GL date (asset is not expired).

Points consolidation is done in following scenarios:

- When new account is added under a Master Account by UI, Funding process, API, Onboarding Multi Account onboarding, and/or Master Account Maintenance Transaction.
- Account Status Change
- During Current Account Level Asset Maintenance updates.
  - Collateral POST/PUT/GET Web Services
  - Collateral Create/Update File uploads
  - Collateral Maintenance from UI
  - Add New Asset Transaction
  - Substitution of asset Transaction

To 'Consolidate Points at Master', following validations and update options are provided:

- Lookup code 'Account Statuses for Points Consolidation' determines which Accounts with which status are to be considered for point's consolidation.
- Batch job which updates the consolidated points at Master Account level only if the 'Expiration Date of Asset' of Actual Asset at associated account is less than the GL date. This batch job is scheduled to run before the billing batch job to update the actual points that needs to be considered for Billing.
- 'Points' are maintained at actual asset level and any changes done at Master account level asset points does not flow down to the Actual Asset.
- In case of an update at Master Account level Asset Point's and subsequently any change in actual asset at current account, system recalculates the points and overrides the points at master account.

### **11.1.1 Valuations Sub Tab**

The Valuation sub section contains information about the value of the asset. The Values section enables you enter the value of the asset. The Addons sub tab records information about any add ons associated with the collateral.

#### **To complete the Valuations section**

1. Click **Valuations** section.
2. In this section, you can perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Valuations section</b>	
<b>Current</b>	Select if this is the current valuation.
<b>Valuation Dt</b>	Specify the valuation date.
<b>Source</b>	Select the valuation source.
<b>Edition</b>	Specify the valuation edition.
<b>Supplement</b>	Specify the valuation supplement.
<b>Total Value =</b>	View the total value.
<b>Wholesale Base</b>	Specify the wholesale value.
<b>Usage</b>	Specify the usage value; that is, the monetary effect that current mileage has on the value of vehicle.
<b>Retail Base</b>	Specify the retail value.
<b>Addons +</b>	View the add-ons value.
<b>Usage Value +</b>	Specify the usage. This pertains to Loan and usually is entered as the current mileage on vehicle.

3. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.
4. In the **Addons** section, you can perform any of the [Basic Operations](#) mentioned in Navigation chapter. You need to specify all the field values for every asset's add-ons and attributes on the application.
5. A brief description of the fields is given below::

Field:	Do this:
<b>Addons/Attributes</b>	Select the add-on/attribute.
<b>Value</b>	Specify the value of the attribute.
<b>Amt</b>	Specify the add-on amount.

6. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

### 11.1.2 Tracking Sub Tab

The Tracking sub screen enables you to record further information associated with the collateral. What items you choose to track are setup during implementation.

#### To track attributes for the collateral

1. Click the **Tracking** sub tab.
2. In the **Tracking Items** section, click **Load Details**.
3. In the **Tracking Items** section, you can perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Tracking Item</b>	View the tracking type
<b>Disposition</b>	Select the disposition.
<b>Start Dt</b>	Specify the tracking start date.
<b>End Dt</b>	Specify the tracking end date.
<b>Followup Dt</b>	Specify the next follow-up date.
<b>Enabled</b>	Select to track the information from start date in the Start Dt field.
<b>Comment</b>	Specify any comments regarding the tracking item.

4. Complete the Tracking Item Details section by entering information about a parameter in the corresponding the Value field.
5. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

### 11.1.3 Vacation Ownership sub tab

In the Vacation Ownership sub tab you can capture and maintain 'Timeshare' specific collateral details of an account. This tab is displayed only for 'Home' collateral and allows to maintain only one records for the selected account.

For detailed information of the fields in this sub tab, refer to '[Vacation Ownership tab](#)' section in Customer Service > Collateral > Home tab.

### 11.1.4 Status History Sub Tab

The Status History sub tab enables you to view the asset history of association with accounts.

#### To view the Status History

1. Click the **Status History** sub tab.
2. In the **Status History** section, view the following information:

Field:	Do this:
<b>Account #</b>	View the account number.
<b>Status</b>	View the status of asset.
<b>Lien Status</b>	View lien status of the asset.
<b>Line Event Date</b>	View lien event date of the asset.
<b>Data Change Sta-tus</b>	View the data change status of the asset.
<b>Data Change Date</b>	View the data change date of the asset.
<b>Comments</b>	View comments of the asset if any.

### 11.1.5 Asset Relation Sub Tab

The Asset Relation sub tab enables you to view the asset relationship.

#### To view the Asset Relation

1. Click the **Asset Relation** sub tab.
2. In the **Asset Relation** section, view the following information:

Field:	Do this:
<b>Account #</b>	View the account number.
<b>Asset #</b>	View the asset number.
<b>Account Status</b>	View the Account status.
<b>Current Ind</b>	Indicates that this is the current asset.
<b>Primary Ind</b>	Indicates that this asset is the primary.

### 11.1.6 Audit Sub Tab

The Audit sub tab enables you to view the asset relationship.

#### To view the Audit

1. Click the **Audit** sub tab
2. In the **Audit** section, view the following information:

Field:	Do this:
<b>Account Id</b>	View the account identification number.
<b>Asset Id</b>	View the asset identification number.
<b>Column Name</b>	View the column name.
<b>New Value</b>	View the new value.
<b>Old Value</b>	View the old value.
<b>Changed By</b>	View the person name who changed the details.
<b>Changed Date</b>	View the date on when the details are changed.

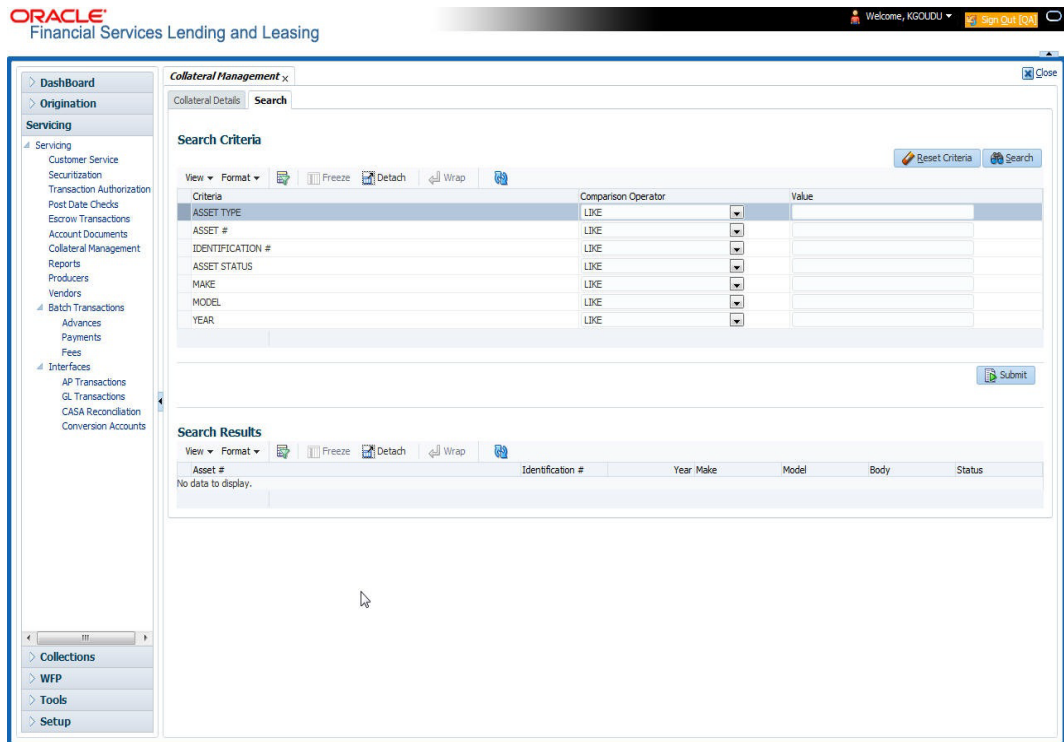

## 11.2 Search Tab

A Search screen is available on the Collateral Management System to help locate information such as an asset type, asset number, identification number, asset status, make, model, and year. This is the information that is used on the Collateral screen.

#### To search for a Collateral details

1. On the Oracle Financial Services Lending and Leasing Application home screen, click **Servicing > Servicing > Collateral Management > Search.**

2. The Collateral Management screen's Search screen appears.

3. In the **Search Criteria** section, use the **Comparison Operator** and **Value** columns to enter the search criteria you want to use to locate a collateral.
4. Click **Search**. The system displays result of the search in Results screen.
5. On the **Results** screen, select the collateral you want to load and click **Submit**. The system loads the collateral details on the Collateral Details screen.

---

## 12. Tools

Depending on the type of product you are working with during origination, the Tools screens enable you to calculate Loan and Vehicle value details.

Tools in the main menu are standalone and information calculated using them can only be viewed.

### 12.1 Loan Calculator

The Loan Calculator screen facilitates you to calculate various parameters. You can also define flexible repayment options, and generate amortization schedules.

This screen is similar to the Loan Calculator screen opened from Underwriting or Funding screens; however, calculators opened from Tools master tab are standalone and do not link calculations or loan information to any specific application.

#### 12.1.1 Parameters

The Parameters section allows you to calculate the payment amount, term, interest rate, loan amount, and blended rate. You can also generate a quote based on the details specified.

In the **Parameters** section, you can select the following parameters:

- Calculate Payment
- Calculate Interest Rate
- Calculate Term
- Calculate Loan Amount
- Calculate Blended Rate

##### 12.1.1.1 Calculating Payments

The **Calculate Payment** option on Loan Calculator screen calculates the standard payment based on information you provide, such as the amount financed, terms, interest rate and finance fee. You can click **Initialize** in **Loan Calculator** screen to clear (or 'refresh') the **Loan Calculator** screen at any time.

## To calculate a loan payment

### 1. Click Tools > Tools > Loan Calculator.

The screenshot shows the Oracle Financial Services Lending and Leasing Loan Calculator interface. The interface is divided into several sections:

- Parameters:** Includes radio buttons for "Calculate Payment", "Calculate Interest Rate", "Calculate Term", "Calculate Loan Amount", and "Calculate Blended Rate".
- Loan Details:** Includes fields for Product Category (STANDARD), Contract Dt (02/01/2016), First Pmt Dt (03/01/2016), Loan Term (0), Maturity Dt (02/01/2016), Amt Financed (0.00), PrePaid Fees (0.00), Financed Fees (0.00), Loan Amt (0.00), and Balloon Pmt Amt (0.00).
- Payment/Finance Charge:** Includes a field for Pmt Amt (0.00).
- Repayment Options:** Includes checkboxes for Flexible Repayment Allowed, Type (UNDEFINED), and Extensible Balloon (Max term: 0). It also includes a Skip Months section with checkboxes for months from Jan to Dec.
- Calculator Options:** Includes dropdown menus for Billing Cycle (MONTHLY), Balloon Method (N PMTS), Accrual Base Method (ACTUAL/ACTUAL), Time Counting Method (ACTUAL DAYS), Installment Method (EQUATED PAYMENTS), Bill Method (LEVEL), Calendar Method (GREGORIAN), and Accrual Start Dt Basis (EFFECTIVE DATE).
- Rate:** Includes fields for Rate (0.0000) and APR (0.0000).
- Amortization Schedule:** Includes a table with columns for Seq Pmt Dt, Pmt Amt, Principal Amt, Interest Amt, and Balance Amt. The table currently shows "No data to display."

### 2. Click Initialize and maintain the following fields.

Field:	Do this:
<b>Loan Details Section</b>	
<b>Product Category</b>	Select the category as Standard for conventional loan product and Islamic for the Islamic loan product.
<b>Contract Dt</b>	Specify the contract date. The system displays current date as the default value.
<b>First Pmt Dt</b>	Specify the first payment date. The system displays the date one month from today as default value.
<b>Loan Term</b>	Specify the number of payments.
<b>Maturity Dt</b>	System automatically displays the maturity date based on the values entered for first payment date, term and billing cycle (i.e. Maturity Date = First Payment Date + Term (based on billing cycle).
<b>Amt Financed</b>	Specify the amount financed.
<b>Pre Paid Fees</b>	Specify the prepaid fees, if any exist.
<b>Financed Fees</b>	Specify the financed fees, if any exist.
<b>Loan Amt</b>	View the estimated loan amount: amount financed plus the pre-paid fees.
<b>Balloon Pmt Amt</b>	Specify the balloon payment amount, if any exist.

Field:	Do this:
<b>Payment/Finance Charge</b>	
<b>Pmt Amt</b>	View the payment amount.
<b>Interest Amt</b>	View the profit amount.
<b>Finance Charge</b>	View the finance charged.
<b>Total of Pmts</b>	View the payment amount.
<b>Final Pmt Amount</b>	View the final payment amount.
<b>Calculator Options</b>	
<b>Billing Cycle</b>	<p>Select the payment frequency.</p> <p>System supports 'Biennial' (once every 2 years) and Triennial (once every 3 years) type of billing cycles. Based on BILL_CYCLE_CD lookup, the billing cycle 'frequency' can be defined.</p> <p>During 'Term' calculation, the 'Rate' field is always considered as per Year only. System displays an error to refine the input data if the calculation for Biennial term goes beyond 15 years and Triennial term goes beyond 10 years. For additional considerations of Biennial and Triennial term calculations (if any), refer to product release notes available at OTN library.</p>
<b>Balloon Method</b>	Select the balloon method.
<b>Accrual Base Method</b>	Select the accrual base.
<b>Time Counting Method</b>	Select the time counting method.
<b>Installment Method</b>	Select the installment method: EQUAL PAYMENTS or FINAL PAYMENT DIFFERS. For more information, see the Installment method section in this chapter.
<b>Bill Method</b>	Select the billing method as either LEVEL, PERCENTAGE OF PRINCIPAL PLUS INTEREST, INTEREST ONLY, FIXED PRINCIPAL PLUS INTEREST, PERCENTAGE OF OUTSTANDING BALANCE.
<b>Calendar Method</b>	Select the calendar method as 'Hijri' or 'Gregorian' for this loan contract. This field will be enabled only if the product category is selected as Islamic.
<b>Accrual Start Dt Basis</b>	<p>Select to define the start date from when the interest accrual is to be calculated for this loan instrument. If <b>Effective Date</b> is selected, then the interest is calculated from Contract date and if <b>Payment Date</b> is selected then the interest is calculated on basis of (first payment date minus one billing cycle).</p> <p>This field will be enabled only if the product category is selected as Islamic.</p>

Field:	Do this:
<b>Accrual Start Days</b>	Select the actual date from when to start interest accrual for loans is to be calculated. This field will be enabled only if the product category is selected as Islamic.
<b>Rate</b>	
<b>Rate</b>	Specify the interest rate. <b>Note:</b> For Islamic products this field is displayed as 'Profit Rate'.
<b>APR</b>	View the system calculated the Annual Percentage Rate.
<b>First Period section</b>	
<b>Calendar Days</b>	View the number of calendar days between contract date and the first payment date. The calendar days will differ based on the calendar method selected.
<b>Interest</b>	View the profit accrued for the calendar days.

- Specify the required information and click **Calculate**. The system computes the standard loan payments with the details specified.

### **Installment Methods**

- **Equal Payments:** If you select Equal Payment option, then the repayment amount will be equal for all installments including the final installment.
- **Final Payment Differs:** If you select Final Payment Differs option, then the final repayment amount may be slightly more or less than the outstanding loan amount due to precise rounding calculations. The final payment amount will be equal to the outstanding loan amount.

When completing Frequency fields, note the following:

- Biweekly in the system means 'once every two weeks' and not 'twice a week'.
- Bimonthly in the system means 'once every two months' and not 'twice a month'.

For more information on frequency, see 'Appendix B: Payment Amount Conversions' section.

#### **12.1.1.2 Calculating Interest Rates**

The **Calculate Interest Rate** option back-calculates the interest rate and APR using the amount financed, standard payment and terms. It also provides the amortization schedule of the loan.

##### **To calculate an Interest Rate**

- Click **Loan Calculator** tab.
- In the **Parameters** section, select **Calculate Interest Rate**.
- Specify the required information. (Refer the section **Calculating Loan Payment** in this chapter for more information.)
- After you specify all the required information click calculate. The system computes the payment change schedule.

You can perform the following activities when the Interest Rate is calculated:

- Creating an amortized schedule of payments (Applications screen)
- Copying the Interest Rate Calculations to the Decision tab (underwriting)
- Copying the Interest Calculations to the Contract tab (funding)

### 12.1.1.3 Calculating Term

The Calculate Term option back-calculates the term and APR using the amount financed and standard payment. It also provides the amortization schedule of the loan.

#### To calculate an Interest Rate

1. Click **Loan Calculator** tab.
2. In the **Parameters** section, select **Calculate Term**. The system enables the required fields based on this selection.
3. Specify the required information. (Refer the section **Calculating Loan Payment** in this chapter for more information.)
4. After you specify all the required information click calculate.  
The system computes the payment change schedule.

You can perform the following activities when the term is calculated:

- Creating an amortized schedule of payments (Applications screen)
- Copying the term calculations to the Decision link (underwriting)
- Copying the interest calculations to the Contract link (funding)

The system will use this information during the funding process when you select an instrument.

### 12.1.1.4 Calculating Loan Amount

The **Calculate Loan Amount** option calculates loan affordability of a customer based on term, payment amount and the rate quoted.

#### To calculate an Interest Rate,

1. Click **Loan Calculator** tab.
2. In the **Parameters** section, select **Calculate Loan Amount**. The system enables the required fields based on this selection.
3. Specify the required information. (Refer the section **Calculating Loan Payment** in this chapter for more information.)
4. After you specify all the required information click calculate.  
The system computes the payment change schedule.

You can perform the following activities when the Interest Rate is calculated:

- Creating an amortized schedule of payments (Applications)
- Copying the loan amount calculations to the Decision link (underwriting)
- Copying the loan amount calculations to the Contract link (funding)

### 12.1.1.5 Calculating Blended Rate

The **Blended Rate** option calculates a combined single rate (Blended Rate) for multiple amounts each of at different rates. On selecting this option, system displays the 'Advances' section to add multiple records to derive the blended rate. It also provides the amortization schedule of the loan.

### To calculate an Blended Rate,

1. Click **Loan Calculator** tab.
2. In the **Parameters** section, select Calculate **Calculate Blended Rate**. The system enables the Advances section.
3. Click **Add** and maintain the following details:

Field	Do this:
<b>Amt Financed</b>	Specify the financed amount.
<b>PrePaid Fees</b>	Specify the pre-paid fees.
<b>Financed Fees</b>	Specify the financed fees.
<b>Balloon Pmt Amt</b>	Specify the balloon payment amount.
<b>Rate</b>	Specify the rate.
<b>Payment Amt</b>	The system displays the calculated payment amount on clicking 'Calculate' button.
<b>Interest Amt</b>	The system displays the calculated interest amount on clicking 'Calculate' button.
<b>Action</b>	Click add button to add next contract details.

4. Perform any of the Basic Actions mentioned in Navigation chapter.
5. Specify the required information. (Refer the section **Calculating Loan Payment** in this chapter for more information.)
6. After you specify all the required information click calculate. The system computes the blended rate of contracts.

You can perform the following activities when the Blended Rate is calculated:

- Creating an amortized schedule of payments (Applications)
- Copying the loan amount calculations to the Decision link (underwriting)
- Copying the loan amount calculations to the Contract link (funding)

### 12.1.2 Repayment Options

If the calculation involves flexible repayment options, you can include the same through the following options:

Option	Description
<b>Flexible Repayment Allowed</b>	<p>Select the check box to include a flexible repayment schedule in calculation. On selection, the following sections are enabled.</p> <ul style="list-style-type: none"><li>• REPAYMENT SCHEDULE</li><li>• PAYMENT CHANGE SCHEDULE</li><li>• RATE SCHEDULE</li></ul> <p>Based on the selection of repayment type in the subsequent field, any or all of the above sections are enabled to define the required flexible repayment schedules.</p>

Option	Description
<b>Type</b>	Select any of the following repayment type that you want to use from the drop-down list. <ul style="list-style-type: none"> <li>• UNDEFINED</li> <li>• SKIP PERIOD</li> <li>• USER DEFINED</li> <li>• GRADUATED PAYMENT</li> <li>• EXTENDABLE BALLOON</li> </ul>

1. Depending on the repayment type selected, complete the following sections:

- If you have selected the type as UNDEFINED (default), you can specify only the 'Rate Schedule' as explained in step 2.
- If you have selected the type as SKIP PERIOD, select the months which you want to exclude in repayment schedule by selecting the adjacent check box.
- If you have selected the type as USER DEFINED, click **Add** in 'Repayment Schedule' section and specify the following information:

Field:	Do this:
<b>Seq</b>	Specify the sequence number of the repayment schedule.
<b>Pmt Amt</b>	Specify the repayment amount borrower agreed to pay during the schedule.
<b># of Payments</b>	Specify the number of payments borrower agreed to pay for stated repayment amount during this schedule.
<b>Generated</b>	View if the repayment schedule is generated.

- If you have selected the type as GRADUATED PAYMENT, click **Add** in 'Payment Change Schedule' section and specify the following information:

Field:	Do this:
<b>Seq</b>	Specify the sequence number in which the repayment is calculated. It prioritizes the calculation.
<b>Option Type</b>	Select the repayment option type: STEP UP, STEP DOWN and BULLET.
<b>Frequency</b>	Select the frequency of payment. The default value is TERM.
<b>Period</b>	Specify the loan period.
<b># of Adj.</b>	Specify the number of times the STEP UP, STEP DOWN or BULLET needs to happen.
<b>Value</b>	Specify the value. For STEP DOWN, value ranges from 1 to 99. For STEP UP, value ranges from 1 to 990. For BULLET, value ranges from 1 to 99999999.

- If you have selected the type as EXTENDABLE BALLOON, specify the maximum number of terms in the 'Extendable Balloon' section.

- If the calculation includes a promotion, complete the Rate Schedule section. Click **Add** and specify the following information:

Field:	Do this:
<b>Seq</b>	Specify the sequence number of the rate schedule.
<b>Rate</b>	Specify the repayment amount borrower agreed to pay during the schedule.
<b>Start Dt</b>	Specify the date on which the borrower agreed to make the first payment.

- After you specify all the required information click **calculate**. The system computes the payment change schedule and populates the **Repayment Schedule** section.  
When you fund the loan application, the system copies repayment schedule information to the loan account on Customer Service screen where it appears in the Repayment Schedule section.

### 12.1.3 Amortization Schedule

You can use the calculated payment data to derive the Amortization Schedule. Click **Amortize** in the 'Amortization Schedule' section. The system generates an amortized schedule with the calculated data with the following headers:

Field:	View this:
<b>Seq</b>	Payment number.
<b>Pmt Dt</b>	Payment date.
<b>Pmt Amt</b>	Payment amount.
<b>Principal Amt</b>	Component of the payment amount allocated towards reduction of the principal balance.
<b>Interest Amt</b>	Component of the payment amount allocated towards reduction of the interest balance.
<b>Balance Amt</b>	Remaining principal balance.

You can click **Print Report** to extract a PDF version of the generated amortized schedule.

### 12.1.4 Printing a Quote

You can generate a summarised report using the calculated loan details in the format of quote with charges, payment structure, financed amount allocation, and amortization scheduled.

In the Loan Calculator screen, click **Print Quote**. The system generates a PDF document to the default downloads repository consisting of the following information in the respective headers:

#### **Loan Details**

The Loan Details section consists of Contract Start Date, Contract End Date, First Payment Date, Total Loan Term, Rate, and Total Loan Amount (Inc. Fee).

### **Payment/Finance Charge**

The Payment/Finance Charge section consists of Total Interest Amount, Finance Charge, Total Of Payments, and Balloon Payment Amount.

### **Payment Structure**

The Payment Structure section consists of details based on the number of payments, billing cycle followed and the payment amount. The payment structure repeats based on the flexible repayment options defined.

### **Financed Amount Allocation**

The Financed Amount Allocation section consists of total amount that can be financed at the specified rate. If there are multiple records included to derive blended rate, then the Financed Amount Allocation varies based on the total number records.

### **Amortization Schedule**

The Amortization Schedule section consists of records in tabular format with the following details:

- Pmt No.
- Payment Date
- Scheduled Payment
- Principal
- Interest
- Ending Balance

## **12.1.5 Copy Calculation to Contract or Decision tab**

Depending on the screen from where you have accessed the tools sub tab, you can copy the calculated values to either Contract or Decision tab. If you are in Underwriting stage, you can copy the values to decision tab. Similarly during Funding stage, you can copy the values to contract tab.

1. Click **Initialize** and reset the calculator.
2. Click **Import values**. System displays basic values entered in previous tabs.
3. Select one of the following option "Calculate Payment / Interest Rate / Term / Loan Amount" and click **Calculate**. System displays calculated values based on selection.

Click Copy to Contract/Decision. The calculated details are copied to the respective fields in Contract/Decision tab.

## **12.2 Vehicle Evaluator**

The Vehicle Evaluator screen allows you to calculate the value of a vehicle. You can use the Vehicle Evaluator screen to calculate the value of either a vehicle you are entering as the new collateral or vehicle currently listed as the application's collateral.

The Vehicle Evaluator screen can be cleared or refreshed at any time by clicking **Clear**.

## To calculate a vehicle value

1. On the Oracle Financial Services Lending and Leasing home screen, click **Tools > Tools > Vehicle Evaluator**

2. In the **Vehicle Evaluator** section, use **Asset** field to select the vehicle you want to appraise. This can be either NEW COLLATERAL or a vehicle entered on the Collateral link.
3. In the **Vehicle Evaluator** section, click **Initialize**. The system completes **Valuation Source, Period** and **Region** fields.
4. If needed, you can change the default contents of the fields in **Vehicle Evaluator**.
5. **If you selected a vehicle from the Collateral link in step 3**, information from the Vehicle section appears in Vehicle section in Vehicle Evaluator screen.
6. **If you selected NEW COLLATERAL in step 3**, complete the **Identification #**  
-or-  
Complete the fields in the **Vehicle** section.
7. In the **Vehicle Evaluator** section, click **Evaluate**.
  - If you have specified the vehicle identification number, system searches for the value of that vehicle with that identification number, then completes Vehicle Evaluator screen with information about that exact match.
  - If you completed the **Vehicle** section, system searches for the value of a vehicle matching that description.
  - In either case, the system displays following information about the vehicle:
  - In the **Vehicle** section, view the returned information:

Field:	View this:
<b>Year</b>	The asset year.
<b>Make</b>	The asset make.
<b>Model</b>	The asset model.
<b>Body</b>	The asset body style.
<b>Usage</b>	The asset usage or current mileage.
<b>Weight</b>	The asset weight.

In the **Valuation (Total Value)** block, view the returned information:

Field:	View this:
<b>MSRP</b>	Manufacturer's suggested retail price value of the asset.
<b>Total</b>	Total value of the asset.
<b>Usage</b>	Adjusted usage value of the asset.

In the **Base and Attribute Value** section, view the returned information:

Field:	View this:
<b>Base Retail</b>	Total retail value of the asset.
<b>Base Loan</b>	Base loan value of the asset.
<b>Base Trade</b>	Base trade value of the asset.
<b>Retail</b>	Retail value of the asset attributes.
<b>Loan</b>	Loan value of the asset attributes.
<b>Trade</b>	Base trade value of the asset attributes.

### 12.2.1 Attributes Tab

In the **Attributes** section, view the following information:

Field:	View this:
<b>Attribute</b>	Asset attribute.
<b>Retail</b>	Attribute retail value.
<b>Loan</b>	Attribute loan value.
<b>Trade</b>	Attribute trade value.
<b>Standard</b>	Standard indicator. If selected, indicates that the attribute is a standard.
<b>Package Incl</b>	If selected, indicates that the attribute is inclusive.
<b>Selected</b>	If selected, indicates that the attribute is selected.

If you want to re-calculate the values using other data in **Total Value** and **Base and Attribute Value** section, do the following:

- Make the required changes to the desired parameters fields in Vehicle Evaluator and **Vehicle** sections.
- In the **Vehicle Evaluator** section, click **Recalculate**.

The system updates the values in **Total Value** and **Base and Attribute Value** sections.

If you choose, use **Attributes** section to select or clear the **Selected** box for attributes of the vehicle. This automatically updates the values in Total Value and Base and Attribute Value

sections. (**Note:** Attribute amounts within brackets reduce the amount in Totals field in the Total Value section.)

### **To copy the calculated value to the Collateral link**

You can copy the calculated value to Collateral link only if you have accessed the tools tab either from Underwriting or Funding Tab. Accessing Tools from the main menu does not support this option.

1. Complete the following steps in the section **To calculate a vehicle value**.
2. In the **Vehicle Evaluator** screen, click **Copy to Asset**.

The system uses calculations on the Vehicle Evaluator screen to complete Valuation sub screen on Collateral link. Any pre-existing collateral is no longer the primary collateral.

# 13. Oracle Financial Services Lending and Leasing Reports

During the day, or at the end of the day, you may want to retrieve information on any of the several operations that were performed during the day in your financial institution. You can generate this information in the form of reports in Oracle Financial Services Lending and Leasing. You can specify the values in the Report Parameters section and generate a report using that information.

## Navigation to Reports

On the Oracle Financial Services Lending and Leasing home page, click **Servicing > Servicing > Reports**.

## 13.1 Accounts Payable Log By Customer

This servicing report lists accounts payables, sorted by customer.

### Parameters:

- Company/Branch
- From MM/DD/YYYY
- To MM/DD/YYYY
- Report Format

## Example of the Accounts Payable Log By Customer report

Report : Accounts payable log By Customer  
 Date: 2/9/2016 4:32 AM  
 Date From : 01/01/1800 To 01/01/2048

**ORACLE**

05/08/2019	WAIVE INTEREST	88
02/01/2019	WAIVE INTEREST	60

## 13.29 Account Asset Details

Generating this report lists all 'active' assets associated to an account during a batch transaction.

Irrespective of the account status, only active asset details are listed in the report and if an account has multiple assets associated, then multiple entries are listed for same account with different asset details.

However, if an account does not have any active asset associated or the entered Account Number is invalid, then blank report is generated.

### Report Parameters:

- COMPANY / BRANCH
- PRODUCT TYPE
- ASSET SUB TYPE
- ACCOUNT NUMBER
- ASSET PHASE NUMBER
- ASSET INVENTORY SITE
- REPORT FORMAT

### 13.30 Trade Details

Generating this report lists the traded accounts information within the specified date range provided in input parameters. These accounts consists of both existing (old) accounts which are traded along with new accounts which are created as part of the trade.

Also, this report consists of only those accounts in which the 'Trade Details' are populated as on the report generation date. Only the 'Primary' customer details are captured and if an account has multiple associated assets, then the consolidated points of all assets is displayed against each account.

#### Report Parameters:

- COMPANY / BRANCH
- PRODUCT TYPE
- TRADE STATUS
- FROM MM/DD/YYYY
- TO MM/DD/YYYY
- REPORT FORMAT

## 13.31 Funding Accounts Log Details

Generating this report lists all the accounts which are funded between the date range specified in input parameters. Also by default this report is generated daily during the scheduled batch job processing and consists of accounts which are funded as on report generation date.

If an account has multiple assets associated, then multiple entries are listed for same account with different asset details. The 'Trade Type' column in the report indicates that the account is created as part of Trade. Else, the same is displayed blank. For more information on Trade, refer to Appendix: Trading of Accounts chapter.

### Report Parameters:

- COMPANY / BRANCH
- PRODUCT TYPE
- ASSET TYPE
- FROM MM/DD/YYYY
- TO MM/DD/YYYY
- REPORT FORMAT

## 13.32 Master Account Payment Log

Generating this report lists all the payment details posted on Master account and its Associated/linked accounts between the date range specified in input parameters.

This report is also generated daily during the scheduled batch job processing and populates the payment details available in 'Transactions' table for Master and Associated/Linked accounts as on report generation date for selected product type.

However, since system derives the payment details from 'Transactions' table data, the scheduled batch job has to be sequenced to run only after 'Account Balance Summary' batch job so that the opening balance for account is available on report generation date.

By default this report captures the payments details posted on 'Primary' customer of account and in case an invalid account # is selected or if the selected one is not a Master Account, then the report is generated blank.

### Report Parameters:

- COMPANY / BRANCH
- PRODUCT TYPE
- ASSET TYPE
- FROM MM/DD/YYYY
- TO MM/DD/YYYY
- REPORT FORMAT

### 13.33 Payment Allocation Details

Generating this report lists the payment allocation details applied on account between the date range specified in input parameters.

This report is also generated daily during the scheduled batch job processing and populates all the payment allocation details applied on accounts as on report generation date for selected product type.

In case an invalid account # is selected, then the report is generated blank.

#### Report Parameters:

- COMPANY / BRANCH
- PRODUCT TYPE
- ACCOUNT NUMBER
- PAYMENT MODE
- FROM MM/DD/YYYY
- TO MM/DD/YYYY
- REPORT FORMAT

## 14. Producer

Oracle Financial Services Lending and Leasing is capable to create and service direct as well as indirect Loan. Indirect Loan are generated through Producer Entities like Dealerships and Agents. It is essential to create and maintain such entities to enable incentive tracking and business development achieved through each entity.

Applications are sent to financial institutions indirectly through producer entities like dealers or agents on behalf of a customer. Specifying Producer details is mandatory while creating a application since the system associates a credit application with the producer entity which sent it, on the Application Entry, Underwriting, and Funding screens. When the credit application is approved and funded, the system associates the account with the producer entity.

When the credit application is approved and funded, system associates account with the producer.

The following three different status are defined for Producer Entities in OFSLL:

- Active: Only if Producer Status is Active, the application sourced through that Producer Entity can be funded.
- Inactive: If the Producer Status is Inactive, the application sourced through that Producer Entity cannot be funded.
- Temporary: If the Producer Status is Temporary, the application sourced through that Producer Entity can only be reviewed. However it cannot be funded.

The producers are paid for their participation, either:

- Up front during funding  
-or-
- Up front on a monthly basis  
-or-
- When the interest is earned  
-or-
- When the payment is received from customer based on the set up compensation plans.

The Producer screen contains pages that enable you to maintain and administer producer compensation, compensation payments, charge back plans, and chargeback parameters.

While setting up Producer entities it is also essential to setup the Producer Cycles under 'Setup' in main menu. For more details, refer to Configuring Lending and Leasing guides.

While working with the Producer screen, you will primarily use the following sub tabs:

1. Payment Details
2. Compensation
3. Subvention
4. Transactions
5. Tracking Attributes
6. Statements
7. Contracts
8. Comments

## 9. Summary

The Producers screen completed during setup, can be used to view and maintain producer details.

The 'Producers' screen consists of the following tabs:

- Producer Details tab
- Search tab

## 14.1 Producer Details tab

The Producer details screen allows you to record or edit basic information about the producer. You can set up dealers or producers for a company and branch. You can also set up a default underwriter and a default collector for a producer. The system uses this information in the origination work flow to select a queue.

The producer number, name, contact information, company and branch to which the producer is associated with, federal tax number, status, and license information can be stored in this screen.

### 14.1.1 Producer Details tab Extensibility

The Producer Details tab is a customizable tab in OFSLL in which you can enable new user defined fields (UDFs), disable /rename existing fields, allow or restrict access to UDFs, non-mandatory fields and also set the field as mandatory/non-mandatory for user input.

To facilitate such customizations, during product installation/upgrade there are additional 20 'Custom' user defined fields provided by default along with 'Base' fields with the below combination in main Producer Details tab and its sub tabs.

- 10 free text fields - 'User Defined Field Char'
- 5 numeric fields - 'User Defined Field Num'
- 5 date fields - 'User Defined Field Date'

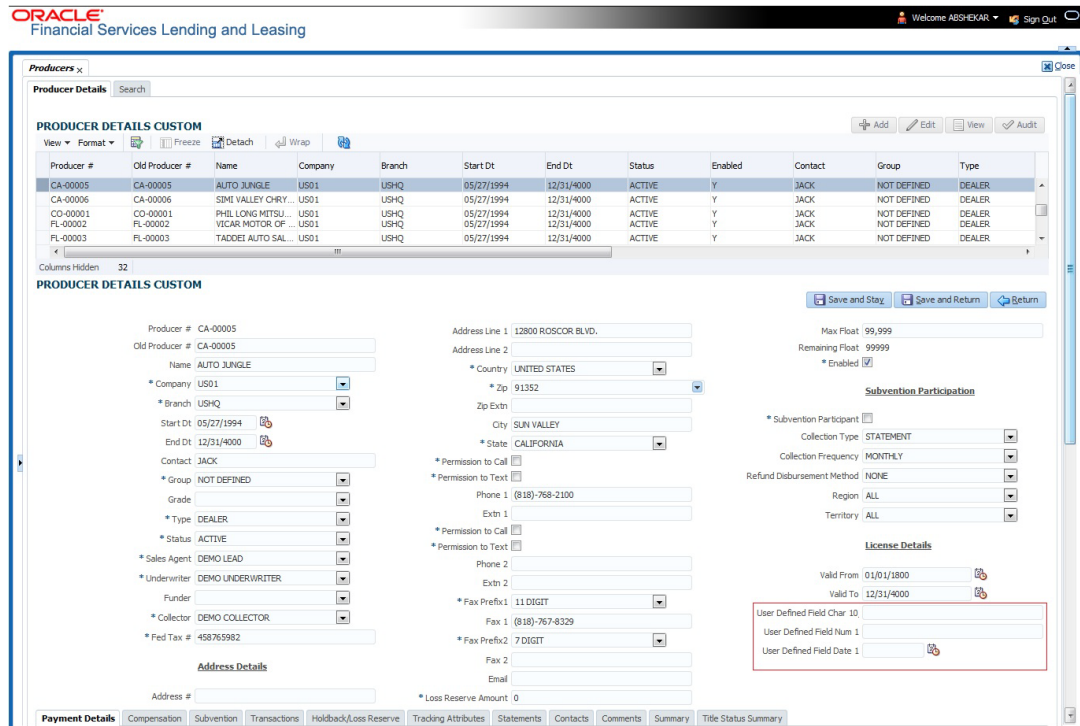

The above user defined fields, also referred to as 'User Defined Fields' are to be basically enabled in Setup > Administration > User > Access > 'Field Access Definition' tab and access is to be provided in 'Security User Access Definition Details' sub tab for the field(s) to appear in Producer Details tab. The enabled fields can be customized in the 'Label Configuration' tab available in Setup > Administration > System > Label Configuration screen.

For detailed information, refer to appropriate sections in Setup Guides.

#### **Navigating to Producer Details**

1. On the Oracle Financial Services Lending and Leasing home screen, click **Servicing > Servicing > Producers > Producer Details**.

2. The system displays the Producers screen.

**To set up the Producer**

1. In the **Producer Details** section, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

**Note**

Field names in the Producer Details section may vary depending on the customization and additional fields introduced. Populate the field details accordingly.

Field:	Do this:
<b>Producer #</b>	Based on the system setup, either: Specify the producer number  -or- The system generates producer number. Producer will be activated on the next system date (current system date + 1) and not on the start date.
<b>Old Producer #</b>	Specify the old producer number.
<b>Name</b>	Specify the producer name.
<b>Company</b>	Select the company from the drop-down list.
<b>Branch</b>	Select the branch from the drop-down list.
<b>Start Dt</b>	Select the producer start date by clicking on the adjoining Calendar icon.

<b>Field:</b>	<b>Do this:</b>
<b>End Dt</b>	Select the producer end date by clicking on the adjoining Calendar icon.
<b>Contact</b>	Specify the producer contact.
<b>Group</b>	Select the producer contact group from the drop-down list.
<b>Grade</b>	Select the producer grade as per business processes from the drop-down list. The list consist of values which are used only for categorizing at the producer level and can be changed periodically as per business requirement.
<b>Type*</b>	Select the producer type from the drop-down list. The Group and Type fields help in setting up the pricing schemes on Pricing screen.
<b>Status</b>	Select the appropriate status from the drop-down list. The contents of this field can be linked to edits in Loan origination cycle so that only applications from Producers whose status is 'Active' can be funded.
<b>Sales Agent</b>	Select the sales agent associated with this producer from the drop-down list.
<b>Underwriter</b>	Select the default underwriter assigned to this producer from the drop-down list. Only users with a responsibility for an UNDERWRITER can be designated as underwriters for producers.
<b>Funder</b>	Select the users with responsibility as Funding Specialist, from the drop-down list.
<b>Collector</b>	Select the default collector or agent assigned to this producer from the drop-down list. (This will appear in the <b>Collector</b> field in <b>Delinquency Information</b> section of <b>Account Details</b> screen on the <b>Customer Service screen</b> ).
<b>Fed Tax #</b>	Specify the federal tax identification number. If the organizational parameter <code>UIX_HIDE_RESTRICTED_DATA</code> is set to Y, this appears as a masked number; for example, XXXXX1234.
<b>Address section</b>	
<b>Country</b>	Select the country code from the drop-down list.
<b>Address Line 1</b>	Specify address line 1
<b>Address Line 2</b>	Specify address line 2
<b>Zip</b>	Select the zip code from the drop-down list.
<b>Zip Extn</b>	Specify the extension of the zip code.
<b>City</b>	Specify the city.
<b>State</b>	Select the state from the drop-down list.
<b>Permission to call</b>	Check this box if customer has provided permission to contact through the specified phone number. When selected, system auto validates this option against the phone number specified.

<b>Field:</b>	<b>Do this:</b>
<b>Permission to Text</b>	Check this box if customer has provided permission to contact through text message.
<b>Phone 1</b>	Specify phone number 1.
<b>Exnt 1</b>	Specify phone number 1 extension.
<b>Permission to call</b>	Check this box if customer has provided permission to contact through the specified phone number. When selected, system auto validates this option against the phone number specified.
<b>Permission to Text</b>	Check this box if customer has provided permission to contact through text message.
<b>Phone 2</b>	Specify phone number 2.
<b>Extn2</b>	Specify phone number 2 extension.
<b>Fax Prefix1</b>	Select fax prefix number 1 from the drop-down list.
<b>Fax1</b>	Specify fax number 1.
<b>Fax Prefix2</b>	Select fax prefix number 2 from the drop-down list.
<b>Fax2</b>	Specify fax number 2.
<b>E-Mail</b>	Specify the producer mail address.
<b>Loss Reserve Amount</b>	Specify the loss reserve amount
<b>Max Float</b>	Specify the value of maximum float allowed for the Producer. A Float represents the application sourced by the producer that is Funded and awaiting 'Title perfection' from the concerned authorities for marking lien. If you do not know the exact value but want to provide a maximum float, then specify the value as 99999.
<b>Remaining Float</b>	System automatically displays the available number of floats by calculating the remaining float value based on 'Max Float' and Title perfections under processing.
<b>Enabled</b>	Check this box to enable the product.
<b>Subvention Participation Details</b>	
<b>Subvention Participant</b>	Check this box to maintain the producer as subvention participant
<b>Collection Type</b>	Select the collection type from the drop-down list.
<b>Collection Frequency</b>	Select the collection frequency from the drop-down list.
<b>Refund Disbursement Method</b>	Select the refund disbursement method from the drop-down list.
<b>Region</b>	Select the region of producer from the drop-down list.

Field:	Do this:
<b>Territory</b>	Select the territory of producer from the drop-down list.
<b>License Details</b>	
<b>Valid From</b>	Specify the date from when the producer's license is valid.
<b>Valid To</b>	Specify the date till when the producer's license is valid.

2. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

---

#### Note

Oracle Financial Services Software recommends that you double-check the fax numbers (especially the 10 digit number) and email addresses you enter on this screen, since the system uses this information to send its system-generated underwriting decisions.

---

### 14.1.2 Payment Details

You can setup ACH as the payment mode for a dealer or producer on Payment Details sub screen. The Payment Details sub screen stores information regarding the payment mode, currency and producer's bank details, such as bank's name, routing number, account type, account number, BIC and IBAN. Once the details are updated the same has to be verified and approved in the payment details section before processing.

The dashboard of Oracle Financial Services Lending and Leasing displays all the producers whose payment details are either APPROVED or WAITING FOR APPROVAL in the 'Producers Count By ACH Status' section. You can click on the respective links to view the details in 'Producers' screen.

#### To complete the Payment Details

1. Click **Servicing > Servicing > Producers > Payment Details**.
2. In the **Payment Details** section, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Pmt Mode</b>	Select the payment mode from the drop-down list.
<b>Bank</b>	Specify the ACH bank name.
<b>Start Dt</b>	Select ACH start date if payment mode is ACH. You can even select the date from adjoining Calendar icon.
<b>Routing #</b>	Specify the ACH bank routing number.
<b>Account Type</b>	Select the ACH bank account type from the drop-down list.
<b>Account #</b>	Specify the ACH bank account number.
<b>Currency</b>	View the currency of the Producer. System defaults the currency depending on the Company or Branch selected for the Producer.

Field:	Do this:
<b>BIC</b>	Select the Business Identifier Code from the drop-down list. The list displays the BIC codes defined in the system.
<b>IBAN</b>	<p>Specify the IBAN (International Bank Account Number). IBAN is used for identifying bank accounts across national borders with a minimal of risk of propagating transcription errors.</p> <p>Ensure that value entered satisfies the check-digit validation based on modulo 97. On save, system automatically validates the IBAN number length based on country code, characters, white spaces, and checksum. Validation is also done during posting non-monetary transaction (ACH Maintenance).</p> <p>You can maintain the IBAN length and other details required as per the country code in the user defined table (Setup &gt; Administration &gt; System &gt; User Defined Tables).</p> <p><b>Note:</b> IBAN for 'NL' country code (IBAN_FORMAT_NL) is defined by default with length of IBAN as 18.</p>
<b>Disbursement Currency</b>	Select the disbursement currency from the drop-down list. System defaults the currency depending on the Company or Branch selected for the Producer.
<b>Approval Detail section</b> - When the payment details are approved, system automatically populates the following fields with the approver details along with the status as 'Approved'. However on subsequent update, the details are reset till further approval and status is changed to 'Waiting for approval'.	
<b>Approved By</b>	View the user who has approved the payment details.
<b>Approved Dt</b>	View the date and time when the payment details were approved.
<b>Status</b>	View the status of producer payment details.

Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

### To Approve Payment Details

You can verify and approve the producer payment details defined by another user in the Producers > Payment Details section. You can either directly select the required record in the 'Producers' screen or sort the list of payment details awaiting approval using the Dashboard.

Before you proceed, ensure that you have approval rights assigned to your login. Else, contact your system administrator.

- To access the payment details to be approved, do one of the following:
  - Click **Servicing > Servicing > Producers**.
  - Click Dashboard and navigate to 'Producer' section. In the 'Producers Count By ACH Status' sub section, click **WAITING FOR APPROVAL**. The payment details are sorted accordingly and displayed in 'Producers' screen.
- In the **Producer Details** section, select the required Producer. The payment details associated with the producer are displayed in the 'Payment Details' section.
- In the 'Payment Details' section, click **Approve Payment Detail**.

The payment details are approved and approver information is captured in Approval Detail section. Also on approval, the Dashboard counters in 'Producers Count By ACH Status' section are updated.

### 14.1.3 Compensation Plan

The Compensation Plan sub screen displays information related to compensation and chargeback for the producer. It displays summaries as well as account level information. The data is gathered from relevant applications and accounts in the system that are approved and funded.

A brief description of the fields in the Compensation Plan sub screen is given below:

Field:	View this:
<b>Account/Application</b>	The account/application number and title
<b>Compensation Plan</b>	The compensation plan defined for the producer.
<b>Upfront Amt</b>	The Upfront Amount defined for the producer.
<b>Remaining Amt</b>	The remaining amount for the producer.
<b>Total Amt</b>	The total amount defined for the producer.

1. In the **Loss Reserve** section, view the loss reserve amount.

You can view additional details of the Compensation Plan, Chargeback Methods, and Compensation/Chargeback Amounts in the sub screen.

### 14.1.4 Subvention

The Subvention sub screen displays information related to Subvention Receivables for the producer. It displays summaries as well as account level information.

In the Subvention Receivables section, you can view the following details. A brief description of the fields is given below:

Field:	View this:
<b>Subvention Participant</b>	The status of subvention participant.
<b>Collection Type</b>	The collection type defined for the subvention.
<b>Collection Frequency</b>	The collection frequency defined for the subvention.
<b>Refund Disbursement Method</b>	The Refund Disbursement Method for the subvention.
<b>Receivable Amt(Open)</b>	The outstanding receivable amount for the subvention.
<b>Receivable Amt(Current)</b>	The current receivable amount for the subvention.
<b>Received Amt</b>	The received amount for the subvention.
<b>Netted Refund Amt</b>	The netted refund amount for the subvention.
<b>Net Receivable Amt</b>	The net receivable amount for the subvention.

Field:	View this:
<b>Payable Refund Amt</b>	The payable refund amount for the subvention.

### 14.1.5 Transactions

The Transactions sub screen facilitates you to post the following types of transactions based on the selection in the action block.

- All transactions relating to Payment to / from Producers, Disbursements transactions from Holdback / Reserve, adjust/add Recourse amount from/to dealer reserve can be posted by selecting 'Others' option in the action block.
- Subvention Receivables / Payments and adjustments can be posted by selecting 'Subvention' option in the action block.

In the Transactions sub screen, you can sort the list of transactions to be displayed based on elapsed days by selecting the 'View Last' option as 1 Day / 1 Week / 1 Month / By Date. When 'By Date' is selected, you can specify a date range (within 3 months) in 'Start Dt' and 'End Dt' fields using the adjoining calendar and click 'Search'.

Select 'Others' or 'Subvention' option, click **Add** and specify the following field information. A brief description of the fields is given below:

Field:	View this:
<b>Effective Dt</b>	Select the Effective Date of the transaction from the calendar.
<b>Transaction</b>	Select the transaction from the drop down list.
<b>Amount</b>	Specify amount for the transaction.
<b>Reference</b>	Specify the transaction reference.
<b>Account #</b>	Select the account from the drop down list.
<b>Account Title</b>	View the account title information.
<b>Comment</b>	Specify additional details of the transaction if any.

Click **Post** to post the transaction for processing.

### 14.1.6 Holdback/Loss Reserve

The Holdback/Loss Reserve sub screen displays information related to Proceed Holdback and Loss Reserve for the producer.

#### **To view the Holdback/Loss Reserve**

1. Click **Producers > Holdback/Loss Reserve**.
2. In the Proceed Holdback section, you can view the account and Holdback amount details.

In the Loss Reserve section, you can view Loss Reserve amount details.

### 14.1.7 Tracking Attributes

The Tracking Attributes sub screen allows you to link information to a producer who is not tracked in the system, by default, however is part of company's business practices.

### To complete the Tracking Attributes

1. Click **Servicing > Servicing > Producers > Tracking Attributes**.
2. In the Tracking section, you can edit the **parameter** and **Value** details.
3. A brief description of the fields is given below:

Field:	View this:
<b>Sub-Parameter</b>	View the sub-parameter details.
<b>Parameter</b>	View the parameter details.
<b>Value</b>	Enter the required value for the selected parameter.

4. In the **Statements Transactions** section, view the following information:

Field:	View this:
<b>Effective Dt</b>	The statement transaction date.
<b>Transaction</b>	The statement transaction.
<b>Account</b>	The statement account number.
<b>Debit Amt</b>	The statement debit amount.
<b>Credit Amt</b>	The statement credit amount.

## 14.1.8 Contacts

The Contacts sub screen allows you to record information regarding contacts associated with a producer, such as employees at a dealership.

### To complete the Contacts

1. Click **Servicing > Servicing > Producers > Contacts** sub tab.
2. On the **Contacts** sub screen, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Contact Type</b>	Select the producer contact type from the drop-down list.
<b>Name</b>	Specify the producer contact name.
<b>Phone</b>	Specify producer contact phone number.
<b>Extn</b>	Enter phone number extension.
<b>Fax</b>	Enter producer contact fax number.
<b>Enabled</b>	Check this box to indicate this is a current contact.

3. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

## 14.1.9 Comments

The Comments sub screen allows you to view and enter comments regarding the producer.

### To enter a comment on the Comments

1. Click **Servicing > Servicing > Producers > Comments** sub tab.
2. In the **Comments** section, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Comment</b>	Enter comment.
<b>Comment By</b>	Displays user id.
<b>Comment Dt</b>	Displays comment date.

3. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

## 14.1.10 Summary

The display only Summary sub screen allows you to view summary information regarding the producer.

### To view summary on the Summary

1. Click **Servicing > Servicing > Producers > Summary** sub tab.
2. In the **Summary** section, view the following information.

A brief description of the fields is given below:

Field:	View this:
<b>Year Month</b>	The year and month.
<b>Total Apps</b>	The application total status count.
<b>Approved</b>	The application approved status count.
<b>Conditioned</b>	The application conditioned status count.
<b>Rejected</b>	The application rejected status count.
<b>Withdrawn</b>	The application rejected status count.
<b>Funded</b>	The application withdrawn status count.
<b>Amount</b>	The application funded status total amount.

## 14.1.11 Title Status Summary

The Title Status Summary screen displays the various stages of titles of assets for applications sourced by the producer. The details are available for specific periods based on elapsed days like last 1 Day / 1 Week / 1 Month or by a specific date range.

### To view Title Status Summary on the Summary

1. Click **Servicing > Servicing > Producers > Title Status Summary** sub tab.
2. Sort the list of statuses to be displayed based on elapsed days by selecting the 'View Last' option as 1 Day / 1 Week / 1 Month / By Date. When 'By Date' is selected, you can specify a date range (within 3 months) in 'Start Dt' and 'End Dt' fields using the adjoining calendar and click 'Search'. View the following field details.

<b>Field:</b>	<b>View this:</b>
<b>New Status</b>	Displays lien status as 'New'
<b>Perfection Processing Status</b>	Displays lien status as either Sent for Perfection/ Sent for Re-perfection
<b>Perfected Status</b>	Displays if lien status has 'Perfected Title'
<b>Release Processing Status</b>	Displays lien status as either Sent for Title Release/Re-sent for Title Release
<b>Released Status</b>	Displays lien status as either Service Requested/Pending Delete
<b>Hold Release</b>	Displays lien Hold Release status
<b>To be Released</b>	Displays lien status if 'To be released'
<b>Closed Status</b>	Displays lien status if 'Deleted'
<b>Exception Status</b>	Displays lien status as either Pending Lien Holder/ Pending DMV
<b>Lien Event Date</b>	Displays lien Event Date attached against each status.

## 14.2 Search Tab

A Search tab is available on the Producers screen to help locate producer information such as producer number, name, status, group, type, grade, and zip code maintained in the system. This is the information that is used on the Producer Details screen.

## To search for a producer

1. On the Oracle Financial Services Lending and Leasing home screen, click **Servicing > Servicing > Producers > Search** tab.

The screenshot shows the Oracle Financial Services Lending and Leasing application interface. The top navigation bar includes the Oracle logo and the text 'Financial Services Lending and Leasing'. The user is logged in as 'Welcome, ABSHEKAR' and has a 'Sign Out' option. The main window is titled 'Producers' and contains a 'Search' tab. The 'Search Criteria' section is active, showing a table with columns for Criteria, Comparison Operator, and Value. The 'Search Results' section below displays a table of producer records with columns: Producer #, Old Producer #, Name, Company, Branch, Start Dt, End Dt, Status, Contact, Group, Type, and Grade.

Criteria	Comparison Operator	Value
PRODUCER #	LIKE	%
PRODUCER NAME	LIKE	
PRODUCER STATUS	LIKE	
PRODUCER GROUP	LIKE	
PRODUCER TYPE	LIKE	
PRODUCER GRADE	LIKE	
PRODUCER ZIP CODE	LIKE	

Producer #	Old Producer #	Name	Company	Branch	Start Dt	End Dt	Status	Contact	Group	Type	Grade
FL-00004	FL-00004	USA AUTO CENTE	US01	USHQ	05/27/1994	12/31/4000	ACTIVE	JACK	NOT DEFINED	DEALER	
FL-00005	FL-00005	TEXAS AUTO MAR...	US01	USHQ	05/27/1994	12/31/4000	ACTIVE	JACK	NOT DEFINED	DEALER	
GA-00001	GA-00001	AUTO SOURCE OF...	US01	USHQ	05/27/1994	12/31/4000	ACTIVE	JACK	NOT DEFINED	DEALER	
GA-00002	GA-00002	ADVANCE LEASIN...	US01	USHQ	05/27/1994	12/31/4000	ACTIVE	JACK	NOT DEFINED	DEALER	
GA-00003	GA-00003	DAUGHTRY AUTO ...	US01	USHQ	05/27/1994	12/31/4000	ACTIVE	JACK	NOT DEFINED	DEALER	
GA-00004	GA-00004	ADVANCE LEASIN...	US01	USHQ	05/27/1994	12/31/4000	ACTIVE	JACK	NOT DEFINED	DEALER	
GA-00005	GA-00005	CARRIAGE NISSAN	US01	USHQ	05/27/1994	12/31/4000	ACTIVE	JACK	NOT DEFINED	DEALER	
IA-00001	IA-00001	DAN O'BRY TOYOTA	NL02	NLR1	05/27/1994	12/31/4000	ACTIVE	JACK	NOT DEFINED	DEALER	
IA-00002	IA-00002	REEDER MOTOR	NL02	NLR1	05/27/1994	12/31/4000	ACTIVE	JACK	NOT DEFINED	DEALER	
IA-00003	IA-00003	CAROUSEL MOTORS	NL02	NLR1	05/27/1994	12/31/4000	ACTIVE	JACK	NOT DEFINED	DEALER	
IA-00004	IA-00004	FRASER V. CLAYCO	NL02	NLR1	05/27/1994	12/31/4000	ACTIVE	JACK	NOT DEFINED	DEALER	

2. In the **Search Criteria** section, use **Comparison Operator** and **Value** columns to enter search criteria you want to use to locate a producer.
3. Click **Search**.

System displays the result in the 'Search Results' section at the bottom of the screen with the following details:

- Producer #
  - Old Producer #
  - Name
  - Company
  - Branch
  - Start Dt
  - End Dt
  - Status
  - Contact
  - Group
  - Type
  - Grade
4. Select the required record and click 'Open'. The details of only that particular Producer is displayed in 'Producer Details' tab. However, system displays the producer details only for authorized users based on access/permissions defined in setup.

### Note

When a single producer record is opened from Search tab, the 'Producer Details' tab enables a 'Remove Filter' option. Clicking on the same removes the filter criteria and displays all the producer records maintained in the system.

You can click **Reset Criteria** at any time to clear **Comparison Operator** and **Values** columns on the Search Criteria section.

---

## 15. Vendors

During the life of an account, a financial institution might require the use of specialized services of a vendor for various purposes; for example, repossessing a vehicle, retaining an attorney for bankruptcy court proceedings or making field calls. With the system's Vendors screen, you can:

- Maintain vendor information
- Maintain services offered by the vendor
- Assign tasks to the vendors and subsequently track and process those tasks
- Charge vendor expenses to customers
- Enter and update invoices raised by the vendors
- Post vendor transactions
- Process vendor payments

Once an invoice has been presented for a service performed by a vendor, you can enter information on Vendor Management form and create a monetary transaction. You can then choose if the customer should pay any particular expense or not.

The Vendors screen allows you to set up vendor information. You can also use the copy feature to quickly create new vendors with the existing details. By default it will show current address but if the vendor receives escrow disbursement at an address which is different from current business address the information can be entered in Payment Details sub screen. Also, the Payment Details sub screen allows you to enter number of days prior to the due date by which payment to vendor must be processed.

### Navigating to Vendor Detail Screen

1. On the Oracle Financial Services Lending and Leasing home screen, click **Servicing > Servicing > Vendors**.
2. The system displays the Vendor screen. The details are grouped under four tabs:
  - Vendors
  - Assignment Allocation
  - Work Orders
  - Follow-up
  - Invoices
  - Search

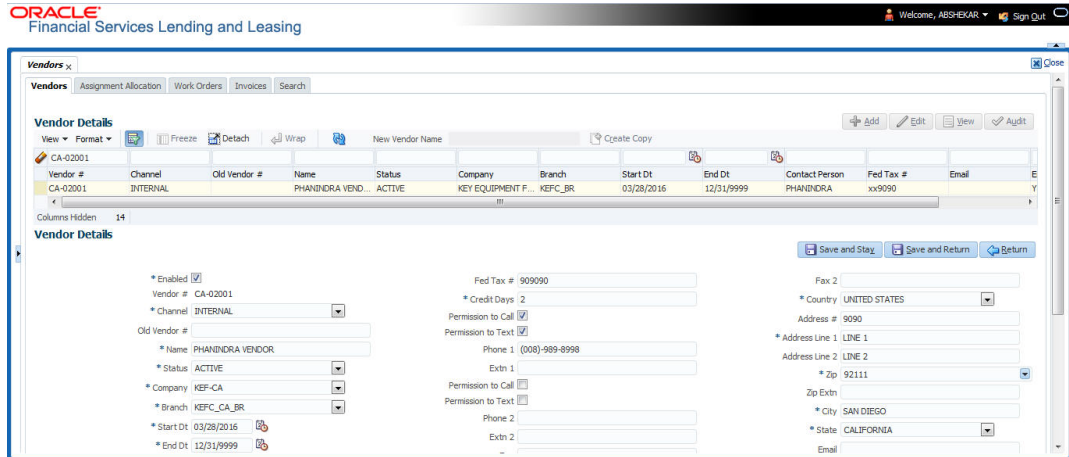

## 15.1 Vendors tab

1. Click **Servicing > Servicing > Vendors > Vendors**. The details in the screen are grouped into the following tabs:
  - Payment Details
  - Vendor Groups
  - Tracking Attributes
  - Comments
2. In the **Servicing > Servicing > Vendors > Vendors > Vendor Details** section, you can create or edit vendor details. While creating new, you can also use the copy feature to copy the existing details to new vendor. The copy option in the Vendor Details screen is controlled by the system defined parameter (UVN\_VEN\_NBR\_SYS\_GENERATED).

Based on the value defined for the parameter in Setup > Administration > System > System Parameter screen, you can copy the existing vendor details in the following ways:

- If the value of the parameter is set to 'Y' (default), specify a new name in 'New Vendor Name' field and click 'Create Copy'.
- If the value of the parameter is set to 'N', specify a vendor number in 'New Vendor #' field and click 'Create Copy'.

3. Perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Enabled</b>	Check this box to enable the vendor.
<b>Vendor #</b>	The vendor number is either editable (default) or auto generated depending on the system parameter defined at setup screen. System auto generates the vendor number when the following system parameter is set to 'Yes' in Setup > Administration > System > System Parameter screen. - Parameter: UVN_VEN_NBR_SYS_GENERATED - Description: VENDOR NUMBER IS SYSTEM GENERATED
<b>Channel</b>	Select the vendor channel from the drop-down list.
<b>Old Vendor #</b>	Displays the old vendor number if exists.
<b>Name</b>	Specify the vendor name.
<b>Status</b>	Select the vendor status from the drop-down list.
<b>Company</b>	Select the vendor portfolio company from the drop-down list.
<b>Branch</b>	Select the vendor portfolio branch from the drop-down list.
<b>Start Dt</b>	Specify the vendor start date. You can select data even from the adjacent Calendar icon.
<b>End Dt</b>	Specify the vendor end date. You can select data even from the adjacent Calendar icon.
<b>Contact Person</b>	Specify the vendor contact name.

<b>Field:</b>	<b>Do this:</b>
<b>Fed Tax #</b>	If available, enter the vendor federal tax identification number. If the organizational parameter <code>UIX_HIDE_RESTRICTED_DATA</code> is set to Y, this appears as a masked number; for example, XXXXX1234.
<b>Credit Days</b>	Specify the credit days for the vendor invoice. This number is used to check that Invoice Due Date is not more than the credit days from Invoice Date.
<b>Permission to Call</b>	Check this box if customer has provided permission to contact through the specified phone number. When selected, system auto validates this option against the phone number specified.
<b>Permission to Text</b>	Check this box if customer has provided permission to contact through text message.
<b>Phone 1</b>	Specify primary phone number.
<b>Extn 1</b>	Specify the primary phone extension.
<b>Permission to Call</b>	Check this box if customer has provided permission to contact through the specified phone number. When selected, system auto validates this option against the phone number specified.
<b>Permission to Text</b>	Check this box if customer has provided permission to contact through text message.
<b>Phone 2</b>	Specify alternate phone number.
<b>Extn 2</b>	Specify the alternate phone's extension.
<b>Fax</b>	Specify the fax number.
<b>Fax 2</b>	Specify the fax number 2.
<b>Country</b>	Select the country code from the drop-down list.
<b>Address #</b>	Specify the vendor address.
<b>Address Line 1</b>	Specify address line 1.
<b>Address Line 2</b>	Specify address line 2.
<b>Zip</b>	Select the zip code from the drop-down list.
<b>Zip Extn</b>	Specify the extension of the Zip code.
<b>City</b>	Specify the city.
<b>State</b>	Select the state from the drop-down list.
<b>Email</b>	Specify the email address.

4. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

### 15.1.1 **Payment Details**

Click **Servicing > Servicing > Vendors > Vendors > Vendor Details > Payment Details**. The Payment Details sub tab allows you to set up automatic clearing house information for vendors.

On the **Payment Details** sub tab, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Remittance section</b>	
<b>Country</b>	Select the country code from the drop-down list.
<b>Address Line 1</b>	Specify address line 1.
<b>Address Line 2</b>	Specify address line 2.
<b>Zip</b>	Specify zip code from the drop-down list.
<b>Zip Extn</b>	Specify extension of the zip code.
<b>City</b>	Specify city.
<b>State</b>	Select state from the drop-down list.
<b>Pre-Process Days</b>	Specify the remittance pre-process days. This is the number of days prior to due date by which payment to the vendor must be processed.
<b>Currency</b>	View the currency attached to vendor.
<b>Payment Details section</b>	
<b>Mode</b>	Select the mode of payment from the drop-down list.
<b>Bank</b>	Specify the ACH bank.
<b>Start Dt</b>	View ACH start date.
<b>Routing #</b>	Specify the bank routing number.
<b>Account Type</b>	Select the account type from the drop-down list.
<b>Account #</b>	Specify the account number. If the organizational parameter <code>UIX-HIDE_RESTRICTED_DATA</code> is set to 'Y', this appears as a masked number; for example, XXXXX1234.
<b>BIC</b>	Select the Business Identifier Code from the drop-down list. The list displays the BIC codes defined in the system.

Field:	Do this:
IBAN	<p>Specify the IBAN (International Bank Account Number). IBAN is used for identifying bank accounts across national borders with a minimal of risk of propagating transcription errors.</p> <p>Ensure that value entered satisfies the check-digit validation based on modulo 97. On save, system automatically validates the IBAN number length based on country code, characters, white spaces, and checksum. Validation is also done during posting non-monetary transaction (ACH Maintenance).</p> <p>You can maintain the IBAN length and other details required as per the country code in the user defined table (Setup &gt; Administration &gt; System &gt; User Defined Tables).</p> <p><b>Note:</b> IBAN for 'NL' country code (IBAN_FORMAT_NL) is defined by default with length of IBAN as 18.</p>
<b>Disbursement Currency</b>	Select the disbursement currency for vendor payment from the drop-down list. The list displays all the available currencies applicable to the vendor.

Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

### 15.1.2 Vendor Groups

Click **Servicing > Servicing > Vendors > Vendors > Vendor Details > Vendor Groups**. The Vendors Groups allows you to set up vendor groups.

On the **Vendor Groups** section, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Sort</b>	Specify sort sequence.
<b>Group</b>	Select the vendor type to which the vendor belongs from drop-down list, based on services provided by the vendor.
<b>Enabled</b>	Check this box to enable the vendor service.

Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

### 15.1.3 Tracking Attributes

Click **Servicing > Servicing > Vendors > Vendors > Vendor Details > Tracking Attributes**. The Tracking Attributes allows you to load tracking attributes and define the parameter value for various parameters listed.

On the **Tracking Attributes** sub tab, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
Sub-Parameter	View the Sub-Parameter.
Parameter	View the listed Parameter.
Value	Specify the required parameter value. By default, NA is displayed.

Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

#### 15.1.4 **Comments**

Click **Servicing > Servicing > Vendors > Vendors > Vendor Details > Comments**. The Comments sub tab allows you to add comments and also view comments posted through AP interface.

On the **Comments** sub tab, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
Comment	View or add the required comment.
Comment By	System automatically selects the logged in user details.
Comment Dt	System automatically displays the current date.

Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

## 15.2 **Assignment Allocation**

The Assignment Allocation tab allows you to define criteria for selecting a specific vendor to execute a work order. A criteria here refers to a combination of a Channel, Work Order Type, Company and Branch associated to a vendor. If the same combination or criteria is selected during work order creation, system selects a specific vendor or highest weighted vendor in the list by default for the work order.

Click **Servicing > Servicing > Vendors > Assignment Allocation**. The details are grouped under two sections:

- Vendor Assignment Criteria
- Vendor Assignment Allocation

### 15.2.1 **Vendor Assignment Criteria**

In the Vendor Assignment Criteria section, you can define the criteria used for vendor selection.

1. In the **Servicing > Servicing > Vendors > Work Order > Assignment Allocation**, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Channel</b>	Select the OFSLL interfaced channel from the drop-down list.  If the channel is selected as 'GENERIC RECOVERY INTERFACE', the work order is processed through an external system. For more information, refer to Appendix chapter - 'Generic Recovery Interface (GRI)'.
<b>Work Order Type</b>	Select the work order type from the drop-down list.
<b>Repo Storage Country</b>	This field is available only if the channel is selected as 'GENERIC AUCTION INTERFACE'. Select the Country where the repossessed asset is currently stored from the drop-down list.
<b>Repo Storage State</b>	This field is available only if the channel is selected as 'GENERIC AUCTION INTERFACE'. Select the State where the repossessed asset is currently stored from the drop-down list.
<b>Company</b>	Select the Company from the drop-down list.
<b>Branch</b>	Select the company's Branch from the drop-down list.
<b>Enabled</b>	Check this box to enable the vendor assignment criteria.

2. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

## 15.2.2 Vendor Assignment Allocation

In the Vendor Assignment Allocation section, system fetches the list of vendors qualifying the combination of channel, work order, company and branch selected and allows you to define the weightage for each vendor in percentage.

By default, the allocated assignment percentage for each vendor is '0'. During subsequent update, the total of assignment percentage allocation for all vendors should be equal to '100'. A vendor with the highest weightage is selected by default during work order creation.

For 'GENERIC AUCTION INTERFACE' related Vendor Assignment Criteria, you can add vendors to the defined criteria from 'Vendor Assignment Allocation' section. For more information, refer to 'Remarketing' chapter in Collections User Guide.

1. In the **Servicing > Servicing > Vendors > Work Order > Assignment Allocation**, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

Field:	Do this:
<b>Vendor #</b>	View the Vendor number. The same is either specified manually or system generated in the Vendors tab.
<b>Name</b>	View the name of the vendor.
<b>Assigned Cases</b>	View the total number of cases assigned to the vendor.
<b>% Allocation</b>	View the percentage of total cases assigned to the vendor.
<b>Assignment %</b>	Specify the percentage allocation value (out of 100) for each vendor. However, ensure that the total of all assignment % is equal to '100'.

2. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

## 15.3 Work Orders Tab

The Work Orders link allows you to assign an account to a vendor for a service that the vendor provides, view the history of work order changes and define tracking attributes.

1. Click **Servicing > Servicing > Vendors > Work Order**. The details are grouped under three tabs:
  - Services
  - Work Order History
  - Tracking Attributes
2. In the **Servicing > Servicing > Vendors > Work Order > Work Order**, sort the list of work orders based on status using the 'View Options' drop down list. You can further sort the list of work orders based on elapsed days by selecting the 'View Last' option as 1 Day / 1 Week / 1 Month / By Date. When 'By Date' is selected you can specify a date range (within 3 months) in 'Start Dt' and 'End Dt' fields using the adjoining calendar and clicking 'Search'.
3. Perform any of the [Basic Operations](#) mentioned in Navigation chapter.

The screenshot displays the Oracle Financial Services Lending and Leasing application interface. At the top, the Oracle logo and 'Financial Services Lending and Leasing' are visible. The user is logged in as 'Welcome, ABSHEKAR' with a 'Sign Out' option. The main window is titled 'Vendors x' and has tabs for 'Vendors', 'Assignment Allocation', 'Work Orders', 'Follow-up', and 'Invoices'. The 'Work Orders' tab is active, showing a 'Work Order' section with a table of work orders. The table has columns: Work Order #, Case #, Channel, Account, Collateral Description, Vendor, Override Reason, Company, Branch, Status, Reason, Work Order Type, Assigned By, Reference #, and Foll. Below the table, there are sections for 'Work Order' and 'Work Order Details' with various input fields and buttons like 'Save and add', 'Save and Stay', 'Save and Return', and 'Return'.

A brief description of the fields is given below:

<b>Field:</b>	<b>Do this:</b>
<b>Work Order #</b>	Displays the work order number.
<b>Case #</b>	Displays the case number received from third party vendor interface.
<b>Channel</b>	Select the OFSLL interfaced channel from the drop-down list. If the channel is selected as 'GENERIC RECOVERY INTERFACE', the work order is processed through an external system. For more information, refer to Appendix chapter - 'Generic Recovery Interface (GRI)'.
<b>Work Order Type</b>	Select the work order type from the drop-down list.
<b>Account</b>	Select account number for the work order from the drop-down list.
<b>Company</b>	Displays the company name based on the account selected.
<b>Branch</b>	Displays the branch based on the account selected.
<b>Vendor</b>	Select vendor who will service the work order from the drop-down list. The list of vendors are displayed based on the selected Channel, Work Order Type, and Account.
<b>Override Reason</b>	In case of vendor re-assignment, select the appropriate override reason for the selected Vendor.
<b>Status</b>	Select the work order status from the drop-down list. If the status is selected as 'SEND TO GRI', the work order is processed through an external system. For more information, refer to Appendix chapter - 'Generic Recovery Interface (GRI)'.
<b>Reason</b>	This field is enabled only if the status of work order is selected as PENDING ON HOLD, RLRELEASED, or PENDING CLOSE. You can select the appropriate reason from the drop-down list.
<b>Collector</b>	Select the Collector from the drop-down list. The list displays all the users defined with 'Collector' responsibility.
<b>Work Order Details section</b>	
<b>Dt</b>	Displays the date when work order was created.
<b>Status Dt</b>	Displays the last work order status-change date.
<b>Currency</b>	Displays the vendor company currency based on the vendor selected.
<b>Estimated</b>	Displays the estimated amount, which is the sum of all the services added to the work order.
<b>Billed</b>	Displays amount billed by the vendor for the work order.
<b>Paid</b>	Displays amount paid to the vendor for the work order.
<b>Reference #</b>	Specify vendor reference details if any.

<b>Field:</b>	<b>Do this:</b>
<b>Assigned By</b>	Displays the user who created/assigned the work order to vendor.
<b>Followup Dt</b>	Select the subsequent follow-up date from adjoining calendar.
<b>Account Information section</b> - System displays the following information depending on the account selected for the work order in 'Work Order' section.	
<b>Account Status</b>	Displays the status of the account.
<b>Charged off Dt</b>	Displays the date when the account was charged off.
<b>Due Amt</b>	Displays the due amount to be paid to the account.
<b>Total Outstanding Balance</b>	Displays either 'Account outstanding principal balance' for active accounts, or 'Deficiency balance' for charge-off accounts.
<b>Total Due</b>	Displays the total of all dues pending on the account.
<b>Due Dt</b>	Displays the last elapsed due date on the account.
<b>Days Past Due</b>	Displays the total number of days elapsed past due date.
<b>Service Address</b>	<p>Displays the combined details of Customer/Business, Address Type and Address based on the account selected. For Business account only business address is populated. You can also select the required service address from the drop-down list only while creating work order details (i.e. when status = New).</p> <p><b>Note:</b> When selecting the service address for an external interfaced channel (i.e. changing primary address), ensure to select the secondary address only. Else, system displays an error message.</p>
<b>Collateral Details section</b> - This section displays the asset details associated with the work order.	
<b>Collateral Description</b>	System displays the primary collateral associated with the account by default. You can also select the collateral from the drop-down list. The list displays all the assets associated with the account.
<b>Identification #</b>	Displays the identification number of the asset.
<b>Year</b>	Displays the manufacturing year of the asset.
<b>Make</b>	Displays the asset's manufacturing company.
<b>Model</b>	Displays the asset's model.
<b>Vendor Information section</b>	
<b>Contact</b>	Specify the vendor contact for the work order.
<b>Phone</b>	Specify the vendor contact phone for the work order.
<b>Extn</b>	Specify the vendor contact phone extension for the work order.
<b>Fax</b>	Specify the vendor contact fax for the work order.
<b>Comment</b>	Specify any comments regarding the work order.

Field:	Do this:
<b>Vendor Messages section</b> - This section is displayed only when the selected channel is 'GENERIC RECOVERY INTERFACE' and allows you to add specific communication or instructions as a message to the vendor.	
<b>Vendor Msg Type</b>	Select the type of vendor message from the drop-down list.
<b>Vendor Msg</b>	Specify additional information that is to be communicated to the external interface.

4. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

### 15.3.1 Services

In the **Servicing > Servicing > Vendors > Work Order > Services**, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

Click 'Load Services' button in the Services section header to load all the services associated with the selected combination of 'Work Order Type' and 'vendor (Vendor Group)'.

A brief description of the fields is given below:

Field:	Do this:
<b>Service #</b>	Specify an unique service number for the work order.
<b>Service</b>	Select the service type from the drop-down list (required).
<b>Currency</b>	System defaults the currency defined in work order which is the vendor currency.
<b>Estimated</b>	System defaults the Estimated cost of the service offered by the vendor as defined in vendor administration setup screen (Setup > Administration > System > Vendors > Vendor Fees > Vendor Service Fee Definition).  However, you can also modify the estimated value to the required amount.
<b>Billed Amt</b>	Displays amount billed by the vendor for the service.
<b>Paid Amt</b>	Displays amount paid to the vendor for the service.
<b>Status</b>	Select the status from the drop-down list.
<b>Status Dt</b>	Displays the last service status change date.

Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

### 15.3.2 Work Order History

The Work Order History sub tab displays the details of the selected work orders in the sequence of the changes done i.e. last change details appear as the first record.

In the Work Order History section, select the required work order and click **View**.

### 15.3.3 Tracking Attributes

Click **Servicing > Servicing > Vendors > Work Order > Tracking Attributes**. The Tracking Attributes allows you to load tracking attributes and define the parameter value for various parameters listed.

On the **Tracking Attributes** sub tab, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Sub-Parameter</b>	View the Sub-Parameter.
<b>Parameter</b>	View the listed Parameter.
<b>Value</b>	Specify the required parameter value. By default, NA is displayed.

Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

## 15.4 Follow-up Tab

The Work Orders link lists the work orders that are not complete and hence require follow-up.

1. Click **Servicing > Servicing > Vendors > Follow-up** tab. The details are grouped into two:
  - Work Order Follow-up
  - Assigned Services

- In the **Servicing > Servicing > Vendors > Follow-up > Work Order Follow-up**, perform any of the [Basic Operations](#) mentioned in Navigation chapter except for creating a new record.

A brief description of the fields is given below:

Field:	Do this:
<b>Company</b>	Displays the vendor company.
<b>Branch</b>	Displays the vendor branch.
<b>Followup Dt</b>	Specify the next follow-up date. You can even select the date from adjoining Calendar icon.
<b>Work Order #</b>	Displays the work order number.
<b>Dt</b>	Displays the work order date.
<b>Account</b>	Displays the account associated with the work order.
<b>Vendor</b>	Displays the vendor associated with the work order.
<b>Status</b>	Select the work order status from the drop-down list.
<b>Status Dt</b>	Displays the last work order status change date.
<b>Work Order section</b>	
<b>Currency</b>	Displays the currency for the work order.
<b>Estimated</b>	Displays the estimated amount, which is the sum of all the services added to the work order.
<b>Billed Amt</b>	Displays amount billed by the vendor for the work order.
<b>Paid</b>	Displays amount paid to the vendor for the work order.

Field:	Do this:
<b>Vendor Information section</b>	
<b>Contact</b>	Displays the vendor contact name.
<b>Phone</b>	Displays the vendor contact phone number.
<b>Extn</b>	Displays the vendor contact phone number's extension.
<b>Comment</b>	Specify a comment.

3. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

### 15.4.1 Assigned Services

In the **Servicing > Servicing > Vendors > Follow-up > Assigned Service**, perform any of the [Basic Operations](#) mentioned in Navigation chapter except for creating a new record. A brief description of the fields is given below:

Field:	Do this:
<b>Services</b>	Displays the service provided by the vendor.
<b>Currency</b>	Select currency for the vendor from the drop-down list.
<b>Estimated</b>	Specify the estimated amount for the service.
<b>Billed Amt</b>	Specify amount billed by the vendor for the service.
<b>Paid</b>	Specify amount paid to the vendor for the service.
<b>Status</b>	Select the service status from the drop-down list.
<b>Status Dt</b>	Specify the last service status change date. You can even select the date from the adjoining Calendar icon.

4. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

## 15.5 Invoices Tab

In the invoice tab of vendors screen, you can define invoices and process them along with internally generated and externally received invoices. Invoice processing involves validating the invoice information either manually or through an automated process.

Manual validation involves verifying the invoice information, accepting or rejecting the details, updating the invoice status and indicating if the invoiced amount is Collectible.

Auto validation is supported for invoices which are in 'OPEN' status and generated internally (i.e. channel = Internal). During auto validation, the invoice details are verified against specific business rules defined in the system and corresponding status update and collectible indicator is updated accordingly.

However, other invoices received from externally interfaced channel would get auto validated with specific business rules when they are received and corresponding status is appended to the invoice while listing in the Invoice Information section.

Post the validation, invoices may still have difference in estimated and invoiced amount. Such invoices are marked with status 'FOR APPROVAL' and requires to be manually approved.

Further in the Invoices tab, you can define Tracking Attributes, Payment Schedules and view the Related Invoice/Work Orders (if any) in the system.

1. Click **Servicing > Servicing > Vendors > Invoices** tab. The details are grouped into following sections:
  - Details
    - Payment Schedules sub tab
    - Related Invoice/Work Orders sub tab
  - Tracking Attributes
2. In the **Servicing > Servicing > Vendors > Invoices > Invoice Information**, sort the list of invoice based on status using the 'View Options' drop down list. You can further sort the list of invoice based on elapsed days by selecting the 'View Last' option as 1 Day / 1 Week / 1 Month / By Date. When 'By Date' is selected you can specify a date range (within 3 months) in 'Start Dt' and 'End Dt' fields using the adjoining calendar and clicking 'Search'.
3. Perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Vendor</b>	Select the vendor name for whom the invoice is to be created.
<b>Company</b>	Displays the vendor portfolio company.
<b>Branch</b>	Displays the vendor portfolio branch.
<b>Invoice #</b>	Specify the invoice number. The invoice number should be unique for every vendor. In case the Invoice # already exists for Vendor, system displays a warning message.
<b>External Ref #</b>	Specify the reference number which can be used for invoice tracking. For invoice received from external system, this field is auto populated with the reference number generated in external interfaced system.
<b>Invoice Dt</b>	Specify the invoice date. You can even select the date from the adjoining Calendar icon.

Field:	Do this:
<b>Due Date</b>	Select the due date. You can even select the date from the adjoining Calendar icon.
<b>Status</b>	Select the invoice status from the drop-down list.
<b>Details section</b>	
<b>Status Dt</b>	Displays the last invoice status change date.
<b>Address</b>	Displays the vendor address.
<b>Currency</b>	Select the currency from the drop-down list.
<b>Estimated</b>	Displays the total estimated amount of all the invoices defined in 'Invoice Details' sub tab.
<b>Invoice Amt</b>	Displays the total invoice amount.
<b>Agreed Amt</b>	Displays the total agreed amount.
<b>Paid Amt</b>	Displays the total paid amount.
<b>Channel</b>	Displays the Channel as 'Internal' for manually defined or internally generated invoice and 'Generic Recovery Interface (GRI)' for externally generated invoice.

4. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

### 15.5.1 Auto Validate Invoice

You can auto validate the invoice details in the Invoice Information section for those invoice which are in 'OPEN' status. Auto validation with system defined business rules ensure that every approved invoice comply to required processing standards and helps to quickly proceed with further action.

1. In the **Servicing > Servicing > Vendors > Invoices > Invoice Information**, sort the list of invoice with status as 'OPEN' from the 'View Options' drop down list.
2. Select the required invoice form the list and click 'Validate Invoice' button on the Invoice Information section header.

The invoice details are validated and the status of the invoice is updated based on validation. For more information on validations, refer to 'Business Rules' section.

### 15.5.2 Invoice Details sub tab

1. In the **Servicing > Servicing > Vendors > Invoices > Invoice Details**, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Work Order</b>	Select the work order from the drop-down list. This list displays the generated work orders. Each work order name is defined in the format which consists of work order number, account number, service number and service name.

<b>Field:</b>	<b>Do this:</b>
<b>Case #</b>	System displays the Case number only if there is a Case number is associated for the selected work order.
<b>Estimated</b>	Displays the estimated cost of selected work order as defined in Vendors > Work Order > Services section.
<b>Invoice Amt</b>	Specify the invoice amount.
<b>Agreed Amt</b>	Specify the agreed amount.
<b>Paid Amt</b>	Displays the paid amount.
<b>Txn Post Dt</b>	Specify transaction effective date. You can even select the date from the adjoining Calendar icon.
<b>Status</b>	Select the status from the drop-down list.
<b>Status Dt</b>	Displays the last status change date. On edit, system updates the current date by default.
<b>Authorized By</b>	Displays the name of the user who verified (accepted/rejected) the invoice details.
<b>Authorized Dt</b>	Displays the date when the invoice details were verified.
<b>Collectible</b>	<p>Check this box to indicate if the agreed amount is collectible from the customer. When checked, the collectible amount is posted as an expense on the customer account.</p> <p>During auto invoice validation, this check box is automatically selected if the same combination of a service and work order status matches with the state specific rule defined in Setup &gt; Administration &gt; System &gt; Vendors &gt; Invoice Rules tab.</p>

2. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

### 15.5.3 Accept/Reject Invoice details

In the Invoice Details sub section, you can accept or reject the details of those invoices which are in 'FOR APPROVAL' status. This status is updated during invoice processing and when there is difference in estimated and invoiced amount which needs manual approval.

1. In the **Servicing > Servicing > Vendors > Invoices > Invoice Details**, select the required invoice record.
2. Click 'Accept' or 'Reject' in the Invoice Details section header and click 'Yes' to confirm the action.
3. Click  Refresh button to view the status update.

On Accepting or Rejecting the invoice details, the 'Authorized By' and 'Authorized Dt' fields are auto updated with user name and current date. Also the status of Invoice information and Payment Schedules are updated as either 'CLOSE' or 'REJECTED' respectively. However, auto update of status is controlled by the 'Current/Next' status defined in Cycle Setup screen.

If the status of a particular invoice is updated from 'APPROVED' to 'CLOSE', system generates a payment requisition record for payment processing.

## 15.5.4 Payment Schedules sub tab

1. In the **Servicing > Servicing > Vendors > Invoices > Invoice Details > Payment Schedules**, you can maintain the payment schedules information. Perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Currency</b>	System displays the vendor currency.
<b>Payment Amt</b>	Specify the actual payment amount for the invoice.
<b>Status</b>	Select the payment status from the drop-down list.
<b>Payment Dt</b>	Select the payment date from the adjoining calendar.
<b>Payment Reference</b>	(Optional) Specify reference details for the payment if any.
<b>Payable Id</b>	View the auto-generated payable ID which is the requisition ID in the AP Transaction screen.
<b>Payment Id</b>	View the Requisition ID generated during AP transaction.
<b>Disbursement Currency</b>	View the vendor disbursement currency. However, you can select the vendor payment disbursement currency from the drop-down list.
<b>Account Currency</b>	View the currency of the account selected at in 'Invoice Details' sub tab.
<b>Amount in Account Currency</b>	View the Invoice Currency amount equivalent of the Account Currency. System displays the 'Amount in Account Currency' by converting Vendor Currency value to Account Currency and considering the exchange rate as per the scheduled payment date.

2. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

## 15.5.5 Related Invoice/Work Order Details sub tab

1. In the **Servicing > Servicing > Vendors > Invoices > Invoice Details > Related Invoice/Work Order Details**, view the following details.

A brief description of the fields is given below:

Field:	Do this:
<b>Invoice #</b>	View the invoice number for the work order.
<b>Invoice Status</b>	View the status of invoice generated for the work order.
<b>Status Dt</b>	View the date on which the status of invoice is recorded.
<b>Currency</b>	View the currency in which the invoice is generated.

Field:	Do this:
<b>WO Estimated Amt</b>	View the estimated amount for the work order.
<b>WO Agreed Amt</b>	View the vendor agreed amount for the work order.
<b>WO Paid Amt</b>	View the amount paid for the work order.

### 15.5.6 Tracking Attributes sub tab

1. In the **Servicing > Servicing > Vendors > Invoices > Tracking Attributes**. The Tracking Attributes allows you to load tracking attributes and define the parameter value for various parameters listed.

On the **Tracking Attributes** sub tab, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Sub-Parameter</b>	View the Sub-Parameter.
<b>Parameter</b>	View the listed Parameter.
<b>Value</b>	Specify the required parameter value. By default, NA is displayed.

Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

### 15.5.7 Business Rules

Business rules facilitate to auto validate invoices and approve only those which comply to the invoice processing requirements in OFSLL. Business Rules are always validated on Invoice information, Invoice details and payment schedules which are in 'OPEN' status.

Business rule validation for Invoices created or generated internally can be performed in the Vendors > Invoices tab and external invoices are auto validated before listing in Invoices tab.

For invoices received from external system, following pre-validation checks are also performed before validating with the business rules.

- A duplicity check is performed based on External Reference number to ensure that there are no two invoices with same details. In case the external reference number of new and existing invoice in the system are same, the status is auto updated as 'Rejected' and invoice is not processed further.
- When the payment for a 'Service' in work order is already paid and the same work order is again received with a new external reference number, system validates the 'Paid' status and if 'Yes', would auto update the invoice status as 'Rejected'.

Following business rules are defined in the system for invoice validation. During the process, if any of the business rule validation fails, system stops the validation process and updates the status of Invoice as 'Rejected'.

## **Rule 1**

Every work order should have a specific closure status corresponding to the type of work order defined. Accordingly, an invoice generated for that work order should comply with any of the following combination of 'Work order Type' and 'Work Order status'.

<b>Work Order Type</b>	<b>Work Order Status</b>
Door Knock	Completed
Involuntary Repossession	Repossessed
Voluntary Repossession	Repossessed
Impound Involuntary	Repossessed
Impound Voluntary	Repossessed
Involuntary Repossession	Closed
Voluntary Repossession	Closed
Impound Involuntary	Closed
Impound Voluntary	Closed
Skip Investigation	Repossessed
Skip Investigation	Closed

## **Rule 2**

Validate invoice for the status of 'Collectible' check box in Vendors > Invoice tab > Invoice Details section.

During invoice processing, if the combination of Service, Work Order Status and State matches with any of the state specific rule defined in Setup > Administration > System > Vendors > Invoice Rules tab, the 'Collectible' check box is selected and invoice is allowed to process the next business rule.

In case the above combination does not exist in Invoice Rules tab, the 'Collectible' check box is NOT selected and the invoice is still allowed to process the next business rule.

## **Rule 3**

Validate invoice based on Estimated and Invoiced amount and updated the corresponding status in Invoice Information, Invoice Details and Payment Schedules sections of Vendors screen.

- If the Invoice Amount is 'Less than or equal' to Estimated amount, the invoice is approved and the status of Invoice Details and Payment Schedules is updated to 'APPROVED'.
- If the Invoice Amount is 'greater than' the Estimated amount, then the invoice needs manual approval and the status of Invoice Details and Payment Schedules is updated to 'FOR APPROVAL'.

An invoice status in Invoice Information section is auto updated to "APPROVED" if both Invoice Details and Payment Schedules have the same status. Else, if status is rejected in

either of the sections, the status of invoice is also updated as 'REJECTED' in Invoice Information section without allowing further edits on the same.

## 15.6 Search tab

A Search tab is available on the Vendors screen to help locate the details of a Vendor, Workorder, and/or an Invoice information maintained in the system. This is the information that is used in the respective tabs of Vendors screen.

### To search for a Vendor/Workorder/Invoice

1. On the Oracle Financial Services Lending and Leasing home screen, click **Servicing > Servicing > Vendors > Search** tab.

The screenshot displays the Oracle Financial Services Lending and Leasing Vendors Search interface. The top navigation bar includes 'Vendors', 'Assignment Allocation', 'Work Orders', 'Invoices', and 'Search'. The 'Search' tab is active. Below the navigation bar, there are search options for 'Vendor', 'Workorder', and 'Invoice'. The 'Search Criteria' section contains a table with columns for 'Criteria', 'Comparison Operator', and 'Value'. The 'Search Results' section contains a table with columns for 'Vendor #', 'Channel', 'Old Vendor #', 'Name', 'Status', 'Company', 'Branch', 'Start Dt', 'End Dt', and 'Zip'.

Criteria	Comparison Operator	Value
VENDOR #	LIKE	%
VENDOR NAME	LIKE	
STATUS	LIKE	
CHANNEL	LIKE	
PHONE 1#	LIKE	
COUNTRY	LIKE	
ZIP	LIKE	

Vendor #	Channel	Old Vendor #	Name	Status	Company	Branch	Start Dt	End Dt	Zip
IL-00001	INTERNAL		DECATUR AUTO AUCTION	ACTIVE	DEMO BANK USA	US HEAD QUARTERS	06/14/1994	12/31/4000	60440
IL-00002	INTERNAL		GRTR QUAD CTTY AUTO AUCTION	ACTIVE	DEMO BANK USA	US HEAD QUARTERS	06/14/1994	12/31/4000	61244
IL-00003	INTERNAL		CRAIG PHELPS, TRUSTEE	ACTIVE	DEMO BANK USA	US HEAD QUARTERS	06/14/1994	12/31/4000	60603
IL-00004	INTERNAL		JAY A STEINBERG, ESQ	ACTIVE	DEMO BANK USA	US HEAD QUARTERS	06/14/1994	12/31/4000	60602
IL-00005	INTERNAL		MICHAEL D. CLARK	ACTIVE	DEMO BANK USA	US HEAD QUARTERS	06/14/1994	12/31/4000	61602
IL-00006	INTERNAL		B AND K TOWING	ACTIVE	DEMO BANK USA	US HEAD QUARTERS	06/14/1994	12/31/4000	61701
IL-00007	INTERNAL		ILLINOIS AUTO RECOVERY	ACTIVE	DEMO BANK USA	US HEAD QUARTERS	06/14/1994	12/31/4000	62549

2. In the 'Search Options', select the option against Vendor or Workorder or Invoice.
3. In the 'Search Criteria' section, use 'Comparison Operator' and 'Value' columns to enter search criteria you want to use to locate a producer.
4. Click 'Search'.

System displays the result in the 'Search Results' section at the bottom of the screen with the following details:

Vendor Details	Workorder details	Invoice details
Vendor #	Work order #	Vendor
Channel	Case #	Company
Old Vendor #	Channel	Branch
Name	Account	Invoice #
Status	Collateral Desc	External Ref #
Company	Vendor	Invoice Dt
Branch	work order Dt	Due Dt
Start Dt	Company	Status
End Dt	Branch	Channel
Zip	Status	
	Reason	
	Workorder Type	

5. Select the required record and click 'Open'. The details of only that particular Vendor / Workorder / Invoice is displayed in the respective tab of Vendors screen. However, system displays the selected record details only for authorized users based on access/permissions defined in setup.

---

**Note**

When a single producer record is opened from Search tab, the Vendors / Work Orders / Invoices tab enables a 'Remove Filter' option. Clicking on the same removes the filter criteria and displays all the corresponding records maintained in the system.

---

You can click 'Reset Criteria' at any time to clear 'Comparison Operator' and 'Values' columns on the Search Criteria section.

---

## 16. Pending Event Actions

### 16.1 Introduction

The Pending Event Actions screen lists all the events that are marked for 'User Input' while defining the Action Parameters in Events screen. This screen acts as a dashboard to review the status 'WAITING FOR USER INPUT' events which require user input and either 'Post' or 'Void' the event processing.

The Pending Event Actions screen has the following sections:

- Event Actions
- Action Parameters

In the 'View Options' section, you can filter the list of Events you want to view on the Pending Event Actions screen.

If you select this:	The system displays:
<b>WAITING</b>	All events waiting for user input.
<b>FAILED</b>	All events failed to process the event action.
<b>ALL</b>	COMPLETED, VOID, FAILED, and WAITING FOR USER INPUT events.

In the 'View Last' section, you can further sort the volume of records displayed on the Pending Event Actions screen with the following options:

Select:	System Displays:
1 Day	List of events with above mentioned status posted in last one-day.
1 Week	List of events with above mentioned status posted in last one-week.
1 Month	List of events with above mentioned status posted in last one-month.
By Date	List of all events posted between specific dates. You can specify a date range (within 3 months) in 'Start Dt' and 'End Dt' fields using the adjoining calendar.

## To View Pending Event Actions

1. On the Oracle Financial Services Lending and Leasing home screen, click Servicing > Pending Event Actions.

2. By default, the Pending Event Actions screen displays all events posted in last one day.
3. In the 'Event Actions' section, view the following information:

Field:	View this:
Entity Nbr	Entity Number on which event generated.
Event Code	Event Definition Description.
Event Query	Event Criteria Definition Description.
Event Action	Event Action Description.
Status	Events with following execution status: COMPLETED VOID FAILED WAITING FOR USER INPUT
Run Dt	Event Action Generation Date and Time.

4. In the 'Action Parameters' section, view the following information:

Field:	View this:
Description	Event Action Parameter Description.
Value Type	Event Action Input Parameter Type.
Value	Value defined for the event action and is editable if the status is WAITING FOR USER INPUT.
Required	Y/N indicating if the Action Parameter is mandatory.

### **Post an Event**

1. In the 'Event Actions' section, select the required event record listed with status 'WAITING FOR USER INPUT'. The defined actions for the event are listed in 'Action Parameters' section below.
2. In the 'Action Parameters' section, click 'Edit'. Only those parameters with Value Type defined as 'USER INPUT' are enabled for update.
3. Select the parameter that needs USER INPUT and specify the 'Value'.
4. Click 'Save and Stay' or 'Save and Return'
5. Click 'Post' in Event Action section. On triggering the event, the 'Run Dt' column is updated with Event Action Generation Date and Time. Click 'Refresh' to fetch the latest status.

### **Void an Event**

In the 'Event Actions' section, select the required event record listed with status 'WAITING FOR USER INPUT' and click 'Void'. The Event Action execution is stopped and the status of Action is updated to 'VOID'.

---

# 17. Batch Transactions

## 17.1 Introduction

This chapter discusses about the various batch transactions handled in the application. We can categorize them in to the following:

- Advances
- Payments
- Fees

## 17.2 Advances

You can enter multiple advances to the account for the draws made by customers. Advances can be entered either by manual entry or batch upload.

### Manual Entry

This screen uses the same concepts and has similar features as the Payment Entry screen. An advance can be paid to one or more payees. The payee can be a standard payee that can be selected from a predefined list of values or a non standard payee. For non standard payees, you must enter the details of the remittance.

Oracle Financial Services Lending and Leasing creates entries for the posted advances on the AP Transaction screen. These entries can be used to process the remittances.

### Batch Upload

With the advance load process, a batch of advances can be loaded into Oracle Financial Services Lending and Leasing (similar to lockbox processing).

Using the Advance Entry screen, you can enter and view a batch of advance transactions. You can then complete the following tasks:

- Posting a batch
- Reversing a batch
- Placing a batch on hold

### 17.2.1 Advance Entry Tab

The Advance Entry tab enables you to view either all batches or only open batches. You can choose which batch you want to view using the **View Options** section. Viewing all batches enables you to locate batches with a status of OPEN, REVERSE, HOLD, ERROR, or POSTED.

## To view open batches

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing > Servicing > Batch Transaction > Advances > Advance Entry**.

2. In the **View Options** section, click **Open Batch Only**. In the Batch section, the system displays all batches with a status of OPEN that have not been posted.

## To view all batches

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing > Servicing > Batch Transaction > Advances > Advance Entry**.
2. In the **View Options** section, click **All Batches**. In the Batch section, the system displays all batches regardless of the status.

If a batch contains a payment with an ERROR status, the **Error Reason** field displays the cause.

### 17.2.1.1 Entering and Posting Advances

The Advance Entry screen enables you to manually post batches of advances. A batch can consist of one or more accounts.

#### To enter and post a batch for advance transactions

1. On the Oracle Financial Services Lending and Leasing A home screen, click the **Servicing > Servicing > Batch Transaction > Advances > Advance Entry**.
2. Perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Company</b>	Select the portfolio company.

Field:	Do this:
<b>Branch</b>	Select the branch.
<b>Date</b>	Specify the batch date.
<b>Batch Type</b>	Select the batch type.
<b>Total #</b>	Specify the total number of advances in the batch.
<b>Total Amt</b>	Specify the total amount of advances in the batch.
<b>Batch #</b>	View the batch number (system generated).
<b>Batch Status</b>	View the batch status.
<b>Ctrl Total #</b>	View the total number of advances in the batch (actual).
<b>Ctrl Total Amt</b>	View the total amount of advances in the batch (actual).

3. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.
4. In the **Advances** section, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Account #</b>	Select the account number.
<b>Account #: Title</b>	View the account title.
<b>Date</b>	Specify the advance effective date.
<b>Currency</b>	View the currency associated with the transaction.
<b>Amount</b>	View the advance amount.
<b>Promotion</b>	Select the promotion associated with advance.
<b>Mode</b>	Select the advance mode.
<b>Reason</b>	Select the reason for the advance.
<b>Status</b>	View the advance status.
<b>Error Reason</b>	View the reason for error.
<b>Reference</b>	Specify any reference information (such as check number).

5. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.
6. In the **Advance Allocations** section, you can record the advance payments (usually called 'Tranche' - slice or portion) of total disbursement. Perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

<b>Field:</b>	<b>Do this:</b>
<b>Validate Payee</b>	(Optional) Select this check box to validate and list all the registered third-party payee maintained in the system.  If selected, the 'Name' field below is rendered as a drop-down list. Else, the same is a free text field to specify the Payee Name.
<b>Amount</b>	Specify the advance amount to be paid to this payee.
<b>Type</b>	Select the payee type as CUSTOMER, BUSINESS, or THIRD PARTY from the drop-down list. Based on selection, system auto populates the Payee # and Name of Customer, Business or Vendor details respectively.
<b>Payee #</b>	Based on 'Validate Payee' option selected, you can either select the payee number from the drop-down list or specify the payee number.
<b>Name</b>	Specify the payee name.
<b>Pmt Mode</b>	Select the payee payment mode from the drop-down list.
<b>Country</b>	Select the country where the payee is located from the drop-down list.
<b>Address Line 1</b>	Specify the address line 1 for the payee.
<b>Zip</b>	Select the zip code where the payee is located from the drop-down list.
<b>City</b>	Specify the city where the payee is located.
<b>State</b>	Select the state where the payee is located.
<b>Bank Name</b>	Specify the payee ACH bank name.
<b>Routing #</b>	Specify the payee ACH bank routing number.
<b>ACH Account</b>	Select the payee ACH bank account type from the drop-down list.
<b>ACH Account #</b>	Specify the payee ACH bank account number.
<b>BIC</b>	Select the Business Identifier Code from the drop-down list. The list displays the BIC codes defined in the system.
<b>IBAN</b>	Specify the IBAN (International Bank Account Number). IBAN is used for identifying bank accounts across national borders with a minimal of risk of propagating transcription errors.  Ensure that value entered satisfies the check-digit validation based on modulo 97. On save, system automatically validates the IBAN number length based on country code, characters, white spaces, and checksum. Validation is also done during posting non-monetary transaction (ACH Maintenance).  You can maintain the IBAN length and other details required as per the country code in the user defined table (Setup > Administration > System > User Defined Tables).  <b>Note:</b> IBAN for 'NL' country code (IBAN_FORMAT_NL) is defined by default with length of IBAN as 18.

Field:	Do this:
<b>Comment</b>	Specify a comments for this advance allocation.
<b>Currency</b>	Specify the currency for disbursement.

7. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

The system updates the display only **Total #** and **Total Amt** fields in Batch section to record the contents of Advance section.

When you want to post a batch transaction on Advance Entry screen, ensure that contents of the display only **Total #** and **Total Amt** fields match with contents of the required **Total #** and **Total Amt** fields in Advance group section.

8. In the **Action** section, click **Post**.

The system changes batch status from OPEN to PROCESSING and submits batch to the job service. After the batch has been processed, system changes the batch status to POSTED or ERROR.

The posted advances can be viewed on the Customer Service screen's Transaction screen. The system creates entries for the posted advances on AP Transaction screen. These entries can be used to process the remittances.

### **17.2.1.2 Holding a Batch of Payment Transactions**

Only the batches with the status of OPEN can be put on hold.

#### **To hold the batch of payments transactions**

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing > Servicing > Batch Transaction > Advances > Advance Entry**.
2. On the **Advance Entry** screen, click **Open Batches Only** in the **View Options** section. Details regarding the selected batch appear in the Advances section.
3. Use the **Batch** section to search for and select the batch you want to hold.
4. In the **Action** section, click **Hold/Open**.

The system changes the batch status from OPEN to HOLD.

### **17.2.1.3 Opening or Removing Hold on the Batch of Payment Transactions**

Only the batches with a status of HOLD can be opened.

#### **To open (or remove hold) on the batch of payments transactions**

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing > Servicing > Batch Transaction > Advances > Advance Entry** tab.
2. On the **Advance Entry** screen, click **All Batches** in the **View Options** section. Details regarding the selected batch appear in the Advances section.
3. Use the **Batch** section to search for and select the batch with the status of HOLD you want to open.
4. In the **Action** section, click **Hold/Open**. The system changes the batch status from HOLD to OPEN.

### **17.2.1.4 Reversing a Batch of Payment Transactions**

Following are the pre-conditions while reversing a Batch of Payment Transactions:

- Only the batches with a status as POSTED can be reversed.
- Only the batches with a status as HOLD can be opened.

### To reverse the batch of payment transactions

Batches can be reversed in case of problems with the batch. This will reverse all advances that have been posted.

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing > Servicing > Batch Transaction > Advances > Advance Entry** tab.
2. On the **Advance Entry** screen, click **All Batches** in the **View Options** section. Details regarding the selected batch appear in the Advances section.
3. Use the **Batch** section to search for and select the batch with POSTED status you want to reverse.
4. In the **Action** section, click **Reverse**.

The system changes batch status from POSTED to PROCESSING and submits batch to the job service. After the batch has been processed, the system changes batch status to REVERSE.

You can verify the reversal either using Transaction screen on Customer Service screen for each account in the batch, or by running payment history report.

## 17.2.2 Advance Maintenance Tab

The Advance Maintenance tab on the Advances screen enables you to perform maintenance functions on individual advances that have been posted. The common functions are as follows:

Function:	Purpose:
<b>Modify</b>	enables you to modify advance attributes such as amount, account number, and date.
<b>Reverse</b>	enables you to reverse the advance from the account completely.

In all cases, the system performs 'true backdating' to post the transaction based upon transaction date. Interest recalculations are automatic and all necessary transactions can be sent to the general ledger for automatic reconciliation.

### Suspended advances

In case of advances that are not posted to accounts due to issues such as incorrect account condition, the advances are posted to suspense. You must process these advances using the work queue for suspense advances. This would typically involve identifying the correct amount or correcting problems with the account before attempting to re-post the advance. In this case, the advance is moved out of the suspense account and posted to the specified account.

## To view advances

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing > Servicing > Batch Transaction > Advances > Advance Maintenance** tab.

The screenshot shows the Oracle Financial Services Lending and Leasing application interface. At the top, there's a navigation bar with 'ORACLE Financial Services Lending and Leasing' and a user welcome message. The main window is titled 'Advances Maintenance' and contains a table of advance transactions. The table has columns for Advance Id, Account #, Account # : Title, Loan Currency, Txn Dt, Txn Amt, Mode, Reason, Reference, Status, Company, Branch, Batch #, and Batch T. Below the table, there are 'View Options' and 'Action' sections. The 'View Options' section has radio buttons for 'Posted', 'Suspense', and 'All'. The 'Action' section has radio buttons for 'Modify', 'Reverse', and 'None'. A 'Return' button is also visible.

2. In the **View Options** section, select which advance you want to view:

Choose:	View this:
<b>Posted</b>	Posted advances.
<b>Suspense</b>	Suspended advances. In cases of advances that have been posted to suspense, the Suspense work queue can be used to process them (similar to suspense payments).
<b>All</b>	All advances.

The system displays the selected payments in the **Advances** section.

3. Perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields are given below:

Field:	View this:
<b>Advance Id</b>	View the system-generated Advance Id generated while posting an advance transaction onto an account. The Advance Id is generated during any of the following AP transactions: <ul style="list-style-type: none"> <li>- For advances to account generated in OFSLL</li> <li>- For transactions posted from third party system to OFSLL through 'AdvanceDisbursement' and 'Advance Entry' RESTful web service to maintain advance balance on account and create Payable Requisition (AP Txn).</li> </ul>
<b>Account #</b>	Account number.
<b>Title</b>	Account title.

Field:	View this:
<b>Loan Currency</b>	Select the Loan currency
<b>Txn Date</b>	Advance effective date.
<b>Txn Amount</b>	Advance amount.
<b>Mode</b>	Advance mode.
<b>Reason</b>	Advance reason.
<b>Reference</b>	Reference information for advance.
<b>Status</b>	Advance status.
<b>Company</b>	Portfolio company.
<b>Branch</b>	Portfolio branch.
<b>Batch #</b>	Batch number.
<b>Batch Type</b>	Batch type.
<b>Date</b>	Displays batch date.

4. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

#### 17.2.2.1 **Modifying/Correcting Advance Transactions**

In some cases, an advance may be valid, but how it was posted was incorrect; for example, advance was posted to the wrong account, with the wrong date, or with incorrect spread data. The Advance Maintenance screen enables you to correct such errors.

##### **To modify/correct an individual advance transaction**

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing > Servicing > Batch Transaction > Advances > Advance Maintenance**.
2. In the **View Options** section, click **Posted**.
3. In the **Advances** section, select the advance you want to modify and click **Edit**.
4. In the **Action** section, click **Modify**.
5. In the **Details** section, update the fields with information about the advance you want to modify.

Field:	Do this:
<b>Account #: Title</b>	Select account number.
<b>Loan Currency</b>	Select the Loan currency.
<b>Amount</b>	Enter advance amount.
<b>Txn Dt</b>	Enter advance effective date.
<b>Reason</b>	Select the reason for error.

6. Click **Save And Return**.

The system modifies the original advance and posts the new advance.

## 17.2.2.2 Reversing Advance Transactions

### To reverse an individual advance transaction

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing > Servicing > Batch Transaction > Advances > Advance Maintenance**.
2. In the **View Options** section, click **Posted**.
3. In the **Advances** section, select the advance you want to reverse and click **Edit**.
4. In the **Action** section, click **Reverse**.
5. In the **Details** section, complete the Reason field (if you choose). You need not have to update any other fields when reversing a transaction.
6. Click **Save And Return**.

The system reverses the original advance.

The reversed advance can be viewed when you load the account on Customer Service screen from Customer Service screen's Transaction screen.

## 17.2.3 Search Tab

A Search link is available on the Advances screen to help locate information such as an account's number, company and branch. This is information that is used on the Advance Entry and Advance Maintenance screens.

### To search for an account

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing > Servicing > Batch Transaction > Advances > Search** tab.

The screenshot displays the Oracle Financial Services Lending and Leasing application interface. The top navigation bar includes the Oracle logo, the text "Financial Services Lending and Leasing", and a user profile section with "Welcome, KGODU" and a "Sign Out" button. The main content area is titled "Advances" and has three tabs: "Advance Entry", "Advance Maintenance", and "Search". The "Search" tab is active, showing a "Search Criteria" section with a table for defining search filters. The table has columns for "Criteria", "Comparison Operator", and "Value".

Criteria	Comparison Operator	Value
ACCOUNT #	LIKE	
ACCOUNT STATUS	LIKE	
CUSTOMER SSN	EQUAL	
CUSTOMER LAST NAME	LIKE	
CUSTOMER FIRST NAME	LIKE	
CUSTOMER ID	EQUAL	
ACCOUNT CONDITION	LIKE	

Below the search criteria table is a "Search Results" section with a table header. The header includes columns for "Account #", "Date", "Title", "Product", "Producer", "Status", "Branch", "Product", "Company", and "Secured". The table content is currently empty, displaying "No data to display."

2. In the **Search Criteria** section, use **Comparison Operator** and **Value** columns to enter search criteria you want to use to locate an account.
3. Click **Search**.

System displays result of the search in Results section at the bottom of the screen.

You can click **Reset Criteria** at any time to clear **Comparison Operator** and **Values** columns on the Search Criteria section.

## 17.3 Payments

Oracle Financial Services Lending and Leasing enables you to post payment transactions to accounts in a batch mode, either by manual entry or by using data files. These transactions can be posted in real-time or in batch mode.

This chapter explains how to use the Payments screen to complete the following tasks:

- Posting a payment
- Correcting a payment

Payments can be entered in Oracle Financial Services Lending and Leasing in a variety of ways:

- Lockbox payments
- ACH payments
- Manual entry with the Payment Entry screen

The manual entry option is useful in a low volume or a branch scenario when customers make payments in person or through the mail. The lockbox and ACH options allow for processing payments electronically without manual input.

The Payments screen in Oracle Financial Services Lending and Leasing consists of the following tabs and the functionality of each tab is explained in detail below:

- [Payments Entry Tab](#)
- [Payment Maintenance Tab](#)
- [Search Tab](#)

### 17.3.1 Lockbox Payments

Oracle Financial Services Lending and Leasing can accept payments from lockboxes in the NACHA format. The NACHA format is an industry standard that can be used to post multiple batches of payments at one time. The Lockbox Load Batch Process can be configured to run at any time of the day and at multiple times if needed. All payments from the lockbox file are loaded into the system as batches. Any errors identified by the system during the load process are logged.

### 17.3.2 ACH Payments

Oracle Financial Services Lending and Leasing enables you to post directly from the ACH file that has been created for customer payments. This is controlled by the `ACA_PAYMENT_AUTO_LOAD` system parameter. If the parameter is set to Y, the system automatically creates payment batches for the payments in ACH file and posts them on the day of payment.

#### Batch NSF Processing

Oracle Financial Services Lending and Leasing provides the upload of the rejected ACH 'Payment Request Files' sent by financial institution/lender to allow for improved NSF processing for all returned payments. This is done using a 'Batch Mode' process.

Oracle Financial Services Lending and Leasing supports upload of payment files through lockbox uploads. In addition to the Payment file, system also provides the upload of Payment Return files through lockbox uploads. The system provides an upload of the 'Entry Detail Addenda Record' in NSF Notification file received from the client's financial institution. This record pertains to payment returns.

### **Entry Detail Addenda Record**

<i>Field</i>	<i>Position</i>	<i>Size</i>	<i>Contents</i>	<i>Data Element Name / Description</i>
1	01-01	1	7	Record Type Code
2	02-03	2	Numeric	Addenda type Code 99=Paperless Return Item Only
3	04-06	3	Blanks	Return Reason Code
4	07-21	15	Numeric	Original Entry Trace Number
5	22-27	6	Blanks	File Creation Date
6	28-35	8	Numeric	Transit Routing Number of Original Entry
7	36-79	44	Blanks	Addenda Information (Left justified, trailing blanks). This will have the reason code R01.
8	80-87	8	Numeric	Transit Routing Number of Original Entry
9	88-94	7	Numeric	Batch Number - sequential batch number within file

### **17.3.3 Bulk Upload of Payment Transactions**

OFSLL supports bulk upload of payment transactions into the system in addition to the option of manually creating the records in the Payment Entry tab.

During the bulk upload process, a set of payment transactions can be grouped together into a single file, in a specific file format and uploaded into the system using the Process File interface. The upload file is then processed through a batch and after successful validation, individual records are created automatically in 'Payment Entry' tab with appropriate status.

While creating the upload file, it is necessary to maintain the details in specific format and to ensure that all the payment transactions are uploaded correctly without any issues during validation. The bulk upload file format supports One Header and Multiple Detail records and the currency defined in the header is applicable for all the records. Example of header record is indicated in the following table:

<b>Company</b>	<b>Currency</b>	<b>Mode</b>	<b>Reason</b>	<b>Total #</b>	<b>Total Amt</b>
US01	USD	CASH	PAYMENT MANUAL	3	3000

In the header record, all the fields are mandatory except 'Reason'. Each field information is validated with the data maintained in the system and in case of any discrepancies, the entire payment upload batch is rejected. For example, when the specified company code or currency code is not maintained, or if 'Total Amount' contains a non numeric data, the entire batch is rejected from processing.

The details of each transaction need to be maintained in the following format as indicated with system defined validations:

Field Name	Expected Values	Mandatory (Y/N)	Validation
Account #	Account Number	Y	Mismatch in Account # is posted as 'Suspense' (Account Number as '0') against 'Company' specified in header.  For suspense account, system defaults the spread where Status, Condition, and State = 'ALL'.
Pmt Date	Payment Date	Y	Payment date cannot be beyond the GL date.
Pmt Amount	Payment Amount	Y	Payment Amount should not contain non-numeric or negative amount.
Spread	Spread (Spread Code)	N	Spread Code has to be valid.  If left blank, default spread is applicable based on spread matrix or value defined in contract.
Reference	Free Text	N	NA

Based on the value defined in CLOB system parameter 'CMN\_FILE\_PROCESS\_TO\_LOB', the file is either processed through Process Files interface (if value is 'Y') or Database Files system (if value is 'N'). For database file upload, the payment transactions file has to be placed in 'IBU' directory for upload and for process files interface, the file is shared in common access folder and uploaded by accessing it from the 'Incoming Process File' tab. For more information, refer to DashBoard > Process Files section.

On initiating the file upload in 'Process Files' screen, new batch job 'IPUPRC\_BJ\_100\_01', under Batch Job Sets 'SET-IFP' is created to process the same. Each batch can process specific number of records as per the 'Parameter Value' defined in the system parameter 'LBX\_TXN\_GROUPING\_CNT' (BATCH SIZE OF PAYMENT UPLOAD RECORDS). Note that a batch can get rejected from processing if the total number of records exceed the parameter value or the 'Total #' specified in the file header.

While uploading the batch, ensure that the following lookup details are maintained in Lookup Code 'PAYMENT\_UPLOAD' with Sub Code as 'PAY' in Lookup Type 'GROUP\_SUB\_TYPE\_CD'.

Once the batch is successfully executed after validation, system identifies the 'Header' and 'Detail' records in payment file and creates individual records with the same batch name in 'Payments' and 'Payment Txns' sections automatically. The status of the Batch is updated depending on the status defined in system parameter 'PMT\_BATCH\_POSTING' (PAYMENT BATCH POSTING PREFERENCE) as OPEN or HOLD or POSTED.

### 17.3.4 **Manual Entry**

The Payment Entry screen enables you to manually post batches of payments. You can enter payment details such as payment date, payment reason and mode, and payment amount for each batch. A batch is comprised of a number of payments. Oracle Financial Services Lending and Leasing provides audit controls to audit the actual payments entered.

Each batch needs to be associated with a company and one or all branches within the company. The system verifies the actual number of payments against the total of payment amounts you enter.

### **17.3.5 Customer Based Payments**

The Payment Entry screen enables you to manually post customer based payments to a single customer account or multiple accounts linked to same customer. System accepts such type of payments based on Customer / Business # and allocates to the accounts linked to the customer. The allocation is based on the payment hierarchy which contains the account selection criteria and sorting order defined in setup (Setup > Administration > User > Payment Hierarchy screen).

To facilitate customer based payments, the system parameter `UIX_CUSTOMER_BASED_PMT_IND` has to be set to 'Y' which enables 'Customer / Business #' and 'Payment Hierarchy' fields along with 'Populate Accounts' button in 'Payment Entry' screen.

Customer based payments can be entered into the system by manually creating in Payment Entry screen, bulk upload through file upload process and through 'Customer based Payments' web services.

In the Payment Entry screen, when payment has to be allocated to multiple linked accounts of the customer, select Multi Account check box, select Customer / Business #, Payment Hierarchy details and click 'Populate Accounts' button. System populates the accounts based on the account selection criteria defined in Payment Hierarchy setup screen.

Following validations are considered while filtering the accounts for payment allocation:

- Accounts which has the same company, branch combination selected at batch level and either the selected customer is of primary relation to account or in case of business, accounts which are associated with the business are displayed.
- Payment allocation order is as per the sequence defined in Setup > Administration > User > Payment Hierarchy screen > Hierarchy Order tab.
- If the account is already closed and/or the account does not have outstanding dues, system excludes those accounts from being populated.

However note that, based on payment and outstanding dues on the accounts, sometimes the entire payment allocation may be consumed by first few accounts with higher dues even if there are other eligible accounts for selected Customer/Business #.

Consider the following example where payment allocation is to be done to accounts based on current dues. if there are 3 accounts linked to a customer and a payment of \$100 is to be allocated to eligible accounts, then system populates the accounts in the following ways:

- If Account 1 has current dues is greater than 100, then \$100 may all be allocated to Account#1. In this case, Account 2 and Account 3 will not be populated.
- If Account 1 dues are \$80 and Account 2 dues are \$50, then \$100 may be allocated to Account 1 and Account 2. In this case, Account 3 will not be populated.
- If Account 1 dues are \$50, Account 2 dues are \$30 and Account 3 dues are \$40, then \$100 may be allocated to Account 1, Account 2 and Account 3. In this case, all 3 accounts will be populated.

In case the Payment Hierarchy is selected as 'Equal Amount', system allocates the total amount into equal portions based on filtered accounts. The payment allocation is done even though there is no due on the accounts. For information on different types of payment allocation supported, refer to Setup > Administration > Users > Payment Hierarchy section.

## **Customer Based Payments File Upload**

Customer based payments can be processed in bulk through file upload process. To do so, the payment file need to contain required field details in the Header and Detail block as indicated below:

Header Record need to contain the following:

<b>Company</b>	<b>Total</b>	<b>Total Amount</b>
Company Code	Total # of 'Detail Records'	Total Amount i.e. sum of Details Records

Each field information is validated with the data maintained in the system and in case of any discrepancies, the entire payment upload batch is rejected. For example, when the specified company code is not maintained, or if 'Total Amount' contains a non numeric data, the entire batch is rejected from processing.

The details of each transaction need to be maintained in the following format as indicated with system defined validations:

<b>Field Name</b>	<b>Expected Values</b>	<b>Mandatory (Y/N)</b>	<b>Validation</b>
Customer / Business #	Cus-tomer# / Business #	Y	Validates for mismatch in Customer# / Business #
Payment Hierarchy	Payment Hierarchy value	N	Payment Hierarchy is validated with setup. If the value is not matching the record is rejected and placed in bad file.  If Payment Hierarchy is not provided system takes default value from Customer Details tab.  If the Payment Hierarchy at customer Details is disabled, record is moved to bad file with error message 'Provided Payment Hierarchy is disabled'.  If the Payment Hierarchy at customer Details is not provided, system takes the value from system parameter.  If system parameter is disabled, the default value 'Equal Amount' is considered.
Currency	Currency Code	Y	Validates Currency code/exchange rate in OFSLL
Pmt Date	Pmt Date	Y	Cannot be a future date. Else, added to bad records.
Pmt Amount	Payment Amount	Y	Require numeric date to be provided.
Reference	Free text	N	Reference Number
Mode	Mode Code	Y	Validates for Mode code.

Field Name	Expected Values	Mandatory (Y/N)	Validation
Reason	Reason Code	N	Validates for 'Reason' code in OFSLL

For more details on processing, refer to '[Bulk Upload of Payment Transactions](#)' section.

### **Customer Based Payments Web Service**

Customer based payments can also be added into the system through web services. To do so, the request/response files need to be updated with above field details (Details block information) and posted. System validates the field details and either displays in Payment Maintenance screen or rejects in case of a mismatch.

For details on web service used for payment posting, refer to 'Web Service' documentation on OTN library.

### **17.3.6 Payment Posting at Master Account Level**

The Payment Entry screen enables you to post payments at Master Account level and its associated accounts that belongs to the same Customer / Business.

The payment allocation is based on the payment hierarchy which contains the account selection criteria and sorting order defined in setup (Setup > Administration > User > Payment Hierarchy screen).

Payment posting in the Payment Entry screen is processed based on values selected for Customer # and Master Account # as indicated below:

- If Customer #, Master Account # and Payment Hierarchy options are selected, on clicking 'Populate Accounts' button system filters the account based on Customer # and Master Account # and posts the payments based on payment hierarchy and populates the records in Payment Txns section.
- If the Customer # is not selected, then system displays all the Master Accounts belonging to the selected Company/Branch at Batch level.
- If only Master Account # is selected, then the Account # list is filtered with Accounts associated with the selected Master Account in case of single payments.
- If Multi check box is selected and Master Account # is selected along with Payment Hierarchy values, on clicking 'Populate Accounts' button, system filters the accounts related Master Account # and posts the payments based on payment hierarchy and populates the records in Payment Txns section.
- If only the Customer # and Payment hierarchy are selected, on clicking 'Populate Accounts' button system populates accounts related to Customer # and posts the payment based on payment hierarchy.

### **17.3.7 Payments Entry Tab**

Using the Payment Entry screen, you can do the following for payment transactions:

- Viewing batches
- Entering a batch
- Posting a batch
- Placing a batch on hold
- Opening a batch on hold

- Reversing a batch

### 17.3.7.1 Viewing Batches

The Payment Entry screen enables you to select the batch you want to view. Based on your selection, the batches are displayed. You can select one of the following:

View Options	Descriptions
<b>Open Batches Only</b>	Displays batches with the status OPEN
<b>All Batches</b>	Displays all the batches regardless of status. i.e. OPEN, REVERSE, HOLD, ERROR, or POSTED.

#### To view open payment batches

1. On the Oracle Financial Services Lending and Leasing Application home screen, click **Servicing > Servicing > Batch Transaction > Payments > Payment Entry** tab.
2. On the Payment Entry screen's **View Options** section, click **Open Batch Only**. In the Batch section, the system displays all batches with a status OPEN that have not been posted.

The screenshot shows the Oracle Financial Services Lending and Leasing Payment Entry screen. The 'View Options' section has 'Open Batches Only' selected. The 'Batch' section displays a table of payment batches with columns for Company, Branch, Batch #, Date, Batch Type, Batch Status, Total #, Ctrl Total #, Total Amt, and Ctrl Total Amt. The 'Payments' section shows a table with columns for Multi, Customer/Business, Master Account #, Payment Hierarchy, Account #, Title, Account Status, Pmt Dt, Currency, Pmt Amt, Spread, and Mode. The 'Payment Txns' section shows a table with columns for Account #, Title, Account Status, Currency, Amount, Spread, Status, and Error Reason.

#### To view all payment batches

On the Payment Entry screen's **View Options** section, click **All Batches**.

In the Batch section, The system displays all payment batches, regardless of status. Details regarding the selected batch appear in the Payments section.

In the Batch section, click **View** to view batch details. If a batch contains a payment with an **ERROR** status, **Error Reason** field under **Payment Txns** section displays the cause.

In the **Payment Entry** tab, you can further sort the view of payment transactions based on 'All Payments' and 'View Last' options. These options allow you to narrow the range of payment transactions that Oracle Financial Services Lending and Leasing displays.

In 'All Payments' section, you can either select '**Payments**' to view only the posted payment transactions or '**Reverse/NSF**' to view only the transactions which are reversed or posted with Non Sufficient Funds in the account.

In 'View Last' section, you can view the payment transactions based on elapsed days.

Choose:	Oracle Financial Services Lending and Leasing displays:
1 Day	All the transactions in last one day.
1 Week	All the transactions in last one week.
1 Month	All the transactions in last one month.
By Date	Specify a date range (within 3 months) in 'Start Dt' and 'End Dt' fields using the adjoining calendar and click 'Search'.

### 17.3.7.2 Entering and Posting Batches

The Payment Entry screen enables you to manually post batches of payments. A batch can consist of one or more payments.

#### To enter and post a batch for a payment transaction

1. On the Oracle Financial Services Lending and Leasing Application home screen, click **Servicing > Servicing > Batch Transaction > Payments > Payment Entry**.
2. Perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Company</b>	Select the portfolio company.
<b>Branch</b>	Select the portfolio branch.
<b>Batch #</b>	View the batch number (system generated). The batch number format is PAY-YYYY-JJJ-SSSS, where YYYY is the year, JJJ is the Julian date, and SSSS is a sequential number. The system generates a new sequence for every different date, so the first batch of each day starts with SSSS = 0001.
<b>Date</b>	Select the batch date, usually either today's date or the date when batch was received as a whole.
<b>Batch Type</b>	Select the batch type. Oracle Financial Services Lending and Leasing identifies each batch with a type signifying the type of payment batch it is; for example, mail, drop box, Western Union, walk in, and so on.
<b>Batch Status</b>	View the batch status.
<b>Total #</b>	Enter total number of payments in the batch.
<b>Ctrl Total #*</b>	The total number of payments in the batch (actual). This figure must match the figure in required Total # field before a batch can be posted.
<b>Total Amt</b>	Enter total amount of payments in the batch.
<b>Ctrl Total Amt*</b>	View the total amount of payments in the batch (actual). This figure must match the figure in required Total Amt field before a batch can be posted.
<b>Note:</b> * These two fields update every time you save the itemized payment entries in the Payments section.	

3. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

The Payments section records itemized information of the batch payment. It enables you to make one payment to one account, or more than one payment to more than one account. You can make Customer based payments to a single customer account or multiple accounts linked to same customer. For more information, refer 'Customer Based Payments' section.

You can post payments directly to Master Accounts and in-turn to its associated accounts based on specific conditions and parameters. Master Account consists of multiple accounts of the same Customer/Business grouped based on specific category. For more information, refer to [Payment Posting at Master Account Level](#) section.

4. In the **Payments** section, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Multi Account</b>	<p>Check this box when multiple entries of the same or different accounts are to be posted in a single batch. Since system also accepts 'Customer Based Payments', selecting this check box enables 'Payment Hierarchy' field and 'Populate Accounts' button in Payments section.</p> <p>Note the following while selecting Multi Account check box:</p> <p>When Multi Account is checked, you need to specify the "Account number" and "Spread" field details in the 'Payment Txns' section below. Else, the above two field details are to be specified in 'Payments' section itself.</p> <p>Every time when you select/deselect the Multi Account check box, system validates the "Account number" and "Spread" fields (as not null) and displays a confirmation message to reset either Payment or Transaction level Account Information and then proceeds.</p>
<b>Customer / Business #</b>	<p>Select the customer / Business # for which you want to allocate the payment from the drop-down list. The list is populated with Customer and Business accounts maintained in the system.</p> <p>This field is enabled only when the value of system parameter <code>UIX_CUSTOMER_BASED_PMT_IND</code> is set to 'Y'. For more information, refer to 'Customer Based Payments' section.</p>
<b>Master Account #</b>	<p>Select the Master Account number for which you want to post the payment and to its associated accounts from the drop-down list. The list is populated with Master Accounts associated with the Customer/Business selected above.</p> <p>This field is enabled only if the value of system parameter <code>UIX_MASTER_ACC_BASED_PMT_IND</code> is set to 'Y'.</p>

<b>Field:</b>	<b>Do this:</b>
<b>Payment Hierarchy</b>	<p>This field is enabled only for Multi Account and system auto-populates the payment hierarchy if the same is selected in Servicing &gt; Customer Details screen. If both Customer # and/or Master Account # is specified, system populates Master Account's Payment Hierarchy. If only Customer # is specified, system populate Customer's Payment Hierarchy.</p> <p>However, you can also select the payment hierarchy from the drop-down list. This list is populated based on the hierarchy definitions maintained in Setup &gt; Administration &gt; User &gt; Payment Hierarchy screen to adjust the payment to all customer linked accounts.</p> <p>This field is enabled only when the value of system parameter UIX_CUSTOMER_BASED_PMT_IND is set to 'Y'. For more information, refer to 'Customer Based Payments' section.</p>
<b>Account #</b>	Select the account number to which the payment entry is to be posted.
<b>Title</b>	System displays the account title upon account selection.
<b>Account Status</b>	System displays the account status upon account selection.
<b>Pmt Date</b>	Select the payment effective date. This date must be less than or equal to the date recorded in the Batch section. By default, system displays the current date.
<b>Currency</b>	Select the currency for the payment.
<b>Pmt Amount</b>	Specify the payment amount.
<b>Spread</b>	<p>Upon account selection, system defaults the spread (payment allocation strategy) based on the matching details defined in Spread Matrix screen (Setup &gt; Products &gt; Spreads &gt; Spread Matrix). If there are no matching details found or spread matrix is not defined, system defaults the spread defined at the contract.</p> <p>However you can also select the required spread for the payment from the drop-down list.</p>
<b>Mode</b>	By default, system displays the mode upon account selection. However, you can also select the payment mode from the drop-down list.
<b>Reason</b>	Select the reason for the payment.
<b>Reference</b>	Specify any reference information (such as check number).
<b>Total Amount</b>	View the total amount of the batch.
<b>Status</b>	View the status of the payment transaction.
<b>Action</b>	<p>You can click on (+) icon to enter multiple accounts.</p> <p>Ensure that you have selected the "Multi Account" check box for entering multiple accounts.</p>
<b>Delete</b>	You can remove the selected record by clicking on "Delete" button in the action block.

5. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

The system updates Ctrl Total # and Ctrl Total Amt fields in Batch section to record the contents of Payments section.

### Customer Based Payments for Multi Account

To make customer based payments to multiple accounts linked to same customer, select 'Populate Accounts' button. System displays the eligible accounts linked to the selected Customer / Business # based on account selection criteria in Payment Hierarchy setup screen. For more information, refer 'Customer Based Payments' section.

### Create Multiple Payments

You can use 'Create Multiple Payments' option to add multiple payments. Depending on the total payments specified in 'Total #' field, equivalent records are created with default value for manual updates.

The system derives the total number of payment rows to be displayed by calculating the difference between 'Ctrl Total #' and 'Total #' fields. However this option is not available if there is no difference in the above field values.

For each payment, use the Payments Txns section to record information about the account receiving payment. (There might be more than one entry for the same account; for example, one account may required different payment spreads).

6. In the **Payment Txns** section, perform any of the [Basic Operations](#) mentioned in Navigation chapter. Ensure that the total Amount in Payments Txns section must match the contents of Total Amt in the Payments section.
7. A brief description of the fields is given below.

Field:	Do this:
<b>Account #</b>	Select the account number. This field is available only if 'Multi Account' option is not checked in 'Payments' section.
<b>Title</b>	View the account title.
<b>Account Status</b>	The current status of the account.
<b>Currency</b>	View the currency for the payment.
<b>Amount</b>	Specify payment amount.
<b>Spread</b>	<p>Upon account selection, system defaults the spread (payment allocation strategy) based on the matching details defined in Spread Matrix screen (Setup &gt; Products &gt; Spreads &gt; Spread Matrix). If there are no matching details found or spread matrix is not defined, system defaults the spread defined at the contract.</p> <p>However you can also select the required spread for the payment from the drop-down list. This field is available only if 'Multi Account' option is not checked in 'Payments' section.</p>
<b>Status</b>	View the payment status.
<b>Error Reason</b>	View the reason for error. This field will populate after you click Post if payments aren't reconciled.

Account Number '0' is a Suspense Account to which unidentified payments and advances are posted.

8. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

When you want to post a batch transaction on Payment Entry screen, ensure that the details of the Batch section's display only **Ctrl Total #** and **Ctrl Total Amt** fields match with details of the required **Total #** and **Total Amt** fields.

9. In the **Action** section, click **Post**.

System changes the batch status from OPEN to PROCESSING and submits batch to the job service. After the batch has been processed, system changes the batch status to POSTED or ERROR.

Only a batch with a batch status of OPEN can be posted. The batch totals and control totals should match before you post the batch. If they do not and you click Post, the system displays the Error message as "Group control Totals not matching, Posting not allowed. The posted payments can be viewed on the Transactions screen on the Customer Service screen.

### **17.3.7.3 Holding a Batch of Payment Transactions**

The Oracle Financial Services Lending and Leasing allows you to hold the posted batches if required. You can hold the batches only with the OPEN status.

#### **To hold the batch of payments transactions**

1. On the Oracle Financial Services Lending and Leasing Application home screen, click **Servicing > Servicing > Batch Transaction > Payments > Payment Entry**.
2. On the Payment Entry screen's **All Payments** section, select **Payments**.
3. In the **View Option** section, select the batches you want to view:
  - If the batch status is OPEN, click **Open Batches Only** in the **View Options** section.
  - If the batch status is ERROR, click **All Batches** in the **View Options** section.
4. Select the batch you want to hold from the **Batch** section.
5. In the **Action** section, click **Hold/Open**.

The system changes the batch status from OPEN/ERROR to HOLD.

### **17.3.7.4 Removing Hold from the Batch of Payments Transactions**

The system allows you to remove hold from the batch when required. You can remove hold from the batches only with the HOLD status.

#### **To open or remove a hold on the batch of payments transactions**

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing > Servicing > Batch Transaction > Payments > Payment Entry**.
2. In the **View Option** section, select **All Batches** section
3. Select the batch you want to open from the Batch section.
4. In the **Action** section, click **Hold/Open**.

The system changes the batch status from HOLD to OPEN.

### **17.3.7.5 Reversing the Batch of Payment Transactions**

The system allows you to reverse the batch of payment transactions. You can reverse batches only with POSTED status.

### To reverse the batch of payments transactions

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing > Servicing > Batch Transaction > Payments > Payment Entry**.
2. In the **View Option** section, select **All Batches**.
3. Select the batch you want to reverse from the Batch section.
4. In the **Action** section, click **reverse**.

System changes the batch status from POSTED to PROCESSING and submits batch to the job service. After the batch has been processed, system changes the batch status to REversed.

You can verify the reversal either using Transaction screen on Customer Service screen's Transactions screen for each account in the batch, or by running payment history report (**Reports** master tab > **Servicing** drop-down link > **Payment History**).

### 17.3.7.6 Printing a Receipt

You can print receipts for walk-in payments using the Print Receipt button on the Payment Entry screen's Action section. Receipts can be printed before actually posting the payment. This enables you to create just batch and leave it for end of the day processing, but also print receipt for customer.

### To print a receipt of the payments transactions

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing > Servicing > Batch Transaction > Payments > Payment Entry**.
2. In the **Batch** section, click **Add** and specify required information regarding the payment for which you want to print a receipt. (**Note:** For more information, see the previous section in this chapter, **Entering and Posting a Payment**). Click **Save**.
3. In the **Payment** section, click **Add** and specify the required information regarding payment for which you want to print a receipt. (**Note:** For more information, see the previous section in this chapter, **Entering and Posting a Payment**). Click **Save**.
4. In the **Payment Txns** section, click **Add** and specify required information regarding the payment for which you want to print a receipt. (**Note:** For more information, see the previous section in this chapter, **Entering and Posting a Payment**). Click **Save**.
5. In the **Action** section, click **Print Receipt**.

System sends the payment receipt directly to the printer based on the company level system parameter CMN\_CMB\_DEFAULT\_PRINTER.

### 17.3.8 Payment Maintenance Tab

The Payment Maintenance screen enables you to perform the following maintenance functions on payments that have been posted:

- Modify and re-post single payment to single or multiple account(s)
- Modify and re-post multiple payments to multiple or single account.
- Post suspense payment, initially posted to a single account to multiple accounts.

The common functions are as follows:

<b>Function:</b>	<b>Purpose:</b>
<b>Modify Payment</b>	Enables you to change one or more of the payment attributes, such as the Account number, Spread, Payment Date, Currency, Payment Amount, and Reason.  For Single Account Payments, these details are editable in 'Payments' section itself and for 'Multi Account Payments', only Payment Date, Currency, Payment Amount, and Reason are editable in 'Payments' section and other details are editable in 'New Payment Txns' section below.
<b>Multi Account (check box)</b>	Selecting the check box allows to change the payment account type from Single Account Payment to Multi Account Payment and vice versa. However, doing so will reset the Payment level Account Information and need to be selected carefully.
<b>Non Sufficient Funds</b>	Notifies Oracle Financial Services Lending and Leasing that the customer did not have sufficient funds in the account and will post a NSF fee (based on setup).
<b>Reverse</b>	Enables you to simply reverse a payment.
<b>Refund</b>	Refunds payment to single account or to multiple account with a single AP requisition. For detailed information, refer to <a href="#">'Reversing Payment Transactions'</a> section.

In all cases, system performs a 'true backdating' to post the transaction based upon transaction date. Interest recalculations are automatic and all necessary transactions can be sent to the general ledger for automatic reconciliation.

### **Suspended Payments**

In case of payments that are not posted to accounts due to issues such as incorrect account condition, the payments are posted to suspense. You can process these payments using the work queue for suspense payments. This typically involves identifying the correct amount or correcting problems with the account before attempting to re-post the payment. In this case, the payment is moved out of the suspense account and posted to the active account.

## To view payments

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing > Servicing > Batch Transaction > Payments > Payment Maintenance** tab.

2. Search for required payment transaction or a batch using the following options:

- In the **View Options** section, select which type of payment you want to load from the following list:

Choose:	To view:
<b>Posted</b>	Posted payments.
<b>Suspense</b>	Suspended payments. (Suspended payments are posted payments that haven't been applied to accounts because of errors involving account numbers or the account itself, such as its status, spread issues, and so on.)
<b>All</b>	All payments.

- Specify one or more of the following **Search Parameters** for searching a payment transaction or a batch:
  - Include Multiple Account - By default, this check box is either selected/deselected depending on the status of system parameter 'ONE PAYMENT TO MULTI ACCOUNTS' (TPE\_PAYMENT\_TO\_MULTI\_ACCOUNTS) defined as (Y/N). Manually selecting or deselecting the same enables the system to search for those payments where single/multiple entries for same or different accounts are posted in a single batch.
  - Account # - Search through the Account in which the specific payment entry is to be posted.
  - Pmt Dt - Search using Payment Date or the transaction date on which payment was made.
  - Pmt Amt - Search using Payment Amount.
  - Reference # - Search using Payment transaction reference number.
- Click **Search**. System displays all payments matching the search criteria from all accounts in 'Payments' section.

3. You can view or edit the following information in 'Payments' section:

<b>Field:</b>	<b>Do this:</b>
<b>Multi Account</b>	If the system displays this check box as selected, then you are allowed to edit the fields in 'Payment Txns' section below.
<b>Account #</b>	Select the required account number from the drop-down list.
<b>Title</b>	View the account holders name in this field.
<b>Account Status</b>	The current status of the account.
<b>Spread</b>	Upon account selection, system defaults the spread (payment allocation strategy) based on the matching details defined in Spread Matrix screen (Setup > Products > Spreads > Spread Matrix). If there are no matching details found or spread matrix is not defined, system defaults the spread defined at the contract.  However you can also select the required spread for the payment from the drop-down list.
<b>Pmt Dt</b>	Specify the payment date.
<b>Currency</b>	Select the currency from the drop-down list.
<b>Pmt Amt</b>	Specify the payment amount.
<b>Reference</b>	View the payment reference.
<b>Reason</b>	Select the payment reason from the drop-down list.
<b>Mode</b>	View the payment mode.
<b>Company</b>	View the portfolio company.
<b>Branch</b>	View the portfolio branch.
<b>Batch #</b>	View the batch number.
<b>Batch Type</b>	View the batch type.
<b>Date</b>	View the batch date.

4. View the following information for the selected payment in **Payment Txns** section:

<b>Field:</b>	<b>View this:</b>
<b>Account #</b>	The account number.
<b>Title</b>	The account title.
<b>Account Status</b>	The current status of the account.
<b>Currency</b>	The currency in which payment is done.
<b>Amount</b>	The payment amount.
<b>Status</b>	The status of payment.
<b>Spread</b>	The spread (payment allocation strategy).

<b>Field:</b>	<b>View this:</b>
<b>Reason</b>	The payment reason.
<b>Error Reason</b>	The error reason for payment, if any.

The **Payment Allocation** section details how the selected payment was applied against the account. This is useful in determining whether the payment was posted correctly or whether the spread or transaction date needs to be modified.

### 17.3.8.1 **Modifying/Correcting Payment Transactions**

In some cases, a payment may be valid, but how it was posted was incorrect; for example, payment was posted to the wrong account, with the wrong date, or with incorrect spread data. The Payment Maintenance screen enables you to correct such errors.

Consider the following scenarios during payment maintenance:

- When a transaction is posted with lesser amount (i.e. amount changed from \$100 to \$40), system automatically posts two transactions. A reverse transaction with amount \$100 and another transaction with amount \$40.
- When a new record is inserted and payment amount is provided, system posts payment on new account.
- When a record is updated with amount as '0', system reverses original payment and does not post any transaction.

#### **To modify/correct an individual payment transaction**

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing > Servicing > Batch Transaction > Payments > Payment Maintenance** tab.
2. In the **View Options** section, select the type of payments you want to view: **Posted**, **Suspense**, or **All**.
3. In the **Search Parameters** section, use Account number, Payment Date, Payment Amount, or Reference number fields and **Search** button to locate the account you want to work with. The system displays payments matching your search criteria in the Payments section.
4. In the **Payments** section, select the payment that you want to modify and click **Modify Payment**.
5. In the **Payments** section, you can modify/correct the following details:

<b>Field:</b>	<b>Do this:</b>
<b>Pmt Dt</b>	Select the payment date from the adjoining calendar.
<b>Currency</b>	Select the currency from the drop-down list.
<b>Pmt Amt</b>	Specify the payment amount.
<b>Reason</b>	(Optional) Select any of the relevant reason for the payment from the drop-down list.

6. In the **New Payment Txns** section, update the fields with information about payment you want to modify to reconcile the payment changes.

Field:	Do this:
<b>Account #</b>	Select account number from the drop-down list.
<b>Amount</b>	Specify the transaction amount.
<b>Spread</b>	Upon account selection, system defaults the spread (payment allocation strategy) based on the matching details defined in Spread Matrix screen (Setup > Products > Spreads > Spread Matrix). If there are no matching details found or spread matrix is not defined, system defaults the spread defined at the contract.  However you can also select the required spread for the payment from the drop-down list.
<b>Reason</b>	(Optional) Select any of the relevant reason for the payment transaction from the drop-down list.

7. In the **New Payment Txns** section, you can also do the following:
- Click  to add additional payment transactions. System inserts a new record and allows you to specify the above details. When new records are added for single account in payment Txns section, system automatically changes the record to 'Multi Account' and displays in 'Payments' section.
  - Click **Delete** to remove the selected payment record which in-turn posts a 'Payment reversal' transaction on to the account. When records are removed from multi-account in payment Txns section either by deleting or posting with zero amount, system automatically changes the record to single payment account and displays in 'Payments' section with the account number.
  - Click **Reset** to revert to previously saved payment transaction data.
8. Click **Post and Stay/Return** or any of the [Basic Actions](#) mentioned in Navigation chapter.

The system modifies the original payment and posts new payment. The modified payment can be viewed on the Customer Service screen's Transaction screen.

### 17.3.8.2 **Reversing Payment Transactions**

#### **To reverse an individual payment transaction**

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing > Servicing > Batch Transaction > Payments > Payment Maintenance** tab.
2. In the **View Options** section, click **Posted**.
3. In the **Search Parameters** section, use Account number, Payment Date, Payment Amount, or Reference number fields and **Search** button to locate the account you want to work with. The system displays payments matching your search criteria in the Payments section.
4. In the **Payments** section, select the payment that you want to reverse.
5. Click **Reverse**, and click 'Yes' in Reverse Transaction confirmation dialog.
6. Click **Post and Stay/Return** or any of the [Basic Actions](#) mentioned in Navigation chapter.  
The system reverses the original payment. The modified payment can be viewed on the Customer Service screen's Transaction screen.

Access to the Reverse button can be restricted by user responsibility and the account's product type using the PAYMENT\_REV transaction code (Super Group: ACCOUNT

MONETARY TXN) on the Administration screen. (For more information, see the **Txn Codes screen** section in the **Oracle Financial Services Lending and Leasing Setup Guide**).

### **17.3.8.3 Reversing Payment Transaction and Assessing NSF Fee**

**To reverse an individual payment transaction and assess NSF fee**

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing > Servicing > Batch Transaction > Payments > Payment Maintenance** tab.
2. In the **View Options** section, click **Posted**.
3. In the **Search Parameters** section, use Account number, Payment Date, Payment Amount, or Reference number fields and **Search** button to locate the account you want to work with. The system displays payments matching your search criteria in the Payments section.
4. In the **Payments** section, select the payment that you want to reverse with an NSF fee.
5. Click **NSF** and click 'Yes' in Reverse Transaction confirmation dialog.
6. Click **Post and Stay/Return** or any of the [Basic Actions](#) mentioned in Navigation chapter.  
The system reverses the original payment and assesses the NSF fee. The modified payment can be viewed on the Customer Service screen's Transaction screen.

### **17.3.8.4 Refund Payment Transaction**

The Refund option in Payment Maintenance screen helps you to refund the payment received from the customer during the servicing stage of Loan.

Payment refund facility is available for both Single Account and Multi-Account. In case of Multi-account, payments appropriated to different customer accounts can be refunded in a single AP requisition.

Payment refund can be processed either in source currency in which the initial payment was posted on account or in account currency in which the account is operated. The same can be defined in the system parameter TPE\_PMT\_REFUND\_CURRENCY\_SRC\_CD as either 'Payment Currency' or 'Account Currency'. However, there is NO exchange rate applicable.

if it is Payment Currency then system considers payment amount and if it is Account Currency then system creates the requisition with the total transaction amount of one or multiple accounts where payment was allocated.

Note the following before posting payment refund transaction:

- Refund option is available only if the status of payment is 'POSTED'.
- Account status should be either 'ACTIVE' or 'CHARGED-OFF' of all associated accounts to payment.
- Accounts with status CLOSED, VOID, TRADED, PAID-OFF and TERMINATED are not allowed for refund.
- In case of Master and Linked accounts, the status of payment should be GOOD in all associated accounts. Else, system displays an error and does not allow to post the transaction.
- A refund in case of Master and Linked accounts is processed either on all accounts or none. Hence if there is any exception in any of the associated account(s), the transaction is not executed on any account.
- If the 'Payment Refund' transaction is marked for Authorization, system allows to post for single account payment and displays an error for multiple account payment indicating 'Transaction marked for authorization' and hence cannot be processed.

- If the refund payment results in 'Excess Payment' on any account, system reverses the excess payment balance.

### **Scenarios to be considered during Multiple & Master Accounts Refunds**

<b>Scenario</b>	<b>Payment Requisition Type</b>
If multiple payments are associated to a payment	System generates requisition with Account Currency.
If the payment was posted using 'Customer ID' or if there is a common customer in all accounts involved in current payment	System creates only one payment requisition of entire payment amount using the customer details.

- System validates if Master Account # was used during payment posting and creates only one requisition of entire payment amount using the master account details.
- In all above scenarios, combined AP requisition will be generated, but individual payment refund transaction is posted on all involved accounts.
- The AP requisition is generated similar to single payment except that amount is total of all payments.
- The customer information is either based on Customer # used for Customer Based Payment or Primary Customer of Master Account used for Master Account Based Payments. However, if Customer # or Master Account # was not used during Payment Entry, but a Primary Customer is common between all the involved accounts, then system generates one AP requisition.

---

#### **Note**

You can also post 'Payment Refund Transaction' to refund payment at account level from Customer Service > Maintenance screen.

---

#### **To refund payment transaction**

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing > Servicing > Batch Transaction > Payments > Payment Maintenance** tab.
2. In the **View Options** section, click **Posted**.
3. In the **Search Parameters** section, use Account number, Payment Date, Payment Amount, or Reference number fields and **Search** button to locate the account you want to work with. The system displays payments matching your search criteria in the Payments section.
4. In the **Payments** section, select the payment that you want to refund.
5. Click **Refund**, and click 'Yes' in Refund Transaction confirmation dialog to validate and the post the refund transaction.

Following are the transaction parameters used during refund:

- Transaction Date = GL Date
- Payment Date = Transaction Date of posting transaction
- Payment Amount = Payment Amount specified against each account
- Refund Amount = Payment Amount

On posting the transaction:

- system refunds the FULL payment which are 'GOOD PAYMENTS' on every account associated to payment.

- Generates AP transaction with equivalent amount corresponding to each account for payment refund with reference to system parameter - UIX\_REFUND\_PAYMENT\_MODE (REFUND PAYMENT AS (CHECK/ACH)).
- Adjust the Due buckets and delinquency counters, once the payment is successfully refunded.
- Records the status of payment refund in the Customer Service screen's Transaction History > Transactions tab.

### **17.3.9 Outbound Customer Extracts To Payment Agencies Batch**

An outbound customer extract file can be generated and sent to multiple payment vendors like Money gram, Quick Collect, Speed Pay from Western Union, Lockbox etc. Sharing this extract enables various outlets of these payment agencies to verify account's existence in FI and proceed with payment processing.

After receiving the payment extract file, the vendor validates customer details and sends a notification confirmation of Payment in NACHA format.

#### **Processing**

The system generates customer extract of customers from which payment is expected, everyday. This process is configured as 'Outbound Customer Extracts To Payment Agencies Batch' batch job which is run daily. The batch generated an extract in text format containing all Accounts relevant details.

Accounts with payment mode ACH or Lockbox can be excluded. The system facilitates setting-up options to pick up payment modes that needs to be included in extract generation.

This file is stored in a configurable shared path from which it is shared to required outlets as discussed earlier.

### **17.3.10 Search Tab**

A Search tab is available on the Payments screen to help locate information of an account or specific payment(s) posted on the account. This is information that is used on the Payment Maintenance tab.

## To search for an Account or Payment

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing > Servicing > Batch Transaction > Payments > Search** tab.

The screenshot shows the Oracle Financial Services Lending and Leasing application interface. At the top, there's a navigation bar with 'ORACLE Financial Services Lending and Leasing' and a user profile 'Welcome, ABSHEKAR'. Below this, the 'Payments' window is open, showing a 'Search' tab. The 'Search Criteria' section has a table with columns for 'Criteria', 'Comparison Operator', and 'Value'. The 'Search Results' section shows a table with columns for 'Multi Account', 'Account #', 'Title', 'Account Status', 'Pmt Dt', 'Currency', 'Pmt Amt', 'Tm Amt', 'Spread', 'Mode', 'Reason', 'Reference', and 'B'. The search results table contains several rows of data for different accounts and payment types.

2. In the 'Search Options', select Account (default) or Payment radio button. The screen arrangement differs for Account / Payment search.

### Note

The list of parameters available for Account / Payment Search criteria is 'user defined' and is configurable in Setup > Administration > System > User Defined Tables screen. For Account Search, the parameters can be added/removed in SEARCH : ACCOUNT ON BATCH ENTRY SCREEN User Table Type and for payment search, it is SEARCH : PAYMENT MAINTENANCE SEARCH.

3. Based on the selection, the following options are available to define the search criteria:

Account Search	Payment Search
ACCOUNT #	PAYMENT STATUS
ACCOUNT STATUS	MULTI ACCOUNT
CUSTOMER SSN	ACCOUNT NUMBER
CUSTOMER LAST NAME	PAYMENT AMOUNT
CUSTOMER FIRST NAME	PAYMENT START DATE
CUSTOMER ID	PAYMENT END DATE
ACCOUNT CONDITIN	PAYMENT REFERENCE NUMBER
	BATCH #

4. In the **Search Criteria** section, use the **Comparison Operator** and **Value** columns to select/enter the details for each search criteria. However, you need to specify a minimum of one criteria for search to retrieve the details. Else system displays an error message.
  - While using PAYMENT AMOUNT parameter to search for payment record, ensure that you specify atleast one more additional parameter for search to retrieve the details. Else system displays an error message.

5. Click **Search**. System displays the result in Search Results section.

<b>Account Search Results</b>	<b>Payment Search Results</b>
Account #	Multi Account
Date	Account #
Title	Title
Product	Account Status
Producer	Pmt Dt
Status	Currency
Branch	Pmt Amt
Product	Txn Amt
Company	Spread
Secured	Mode
	Reason
	Reference
	Batch #
	Status

6. You can either click 'Open' or double-click on the required record to view the details in 'Payment Maintenance' screen.

You can click 'Reset Criteria' at any time to clear the Comparison Operator and Value columns on the Search Criteria section.

## 17.4 Fees

Oracle Financial Services Lending and Leasing enables you to process batch fee and expense assessments for many accounts in one screen outside the preview of automated processing.

This chapter explains how to use the Fees screen to complete the following tasks:

- Posting the batch
- Reversing the batch fees posted on multiple accounts
- Holding / Opening the posting of the current batch

## 17.4.1 Fees Tab

Using the Fees screen, you can enter and view a batch of fee processing. You can then post a batch, place a batch on hold, open a batch on hold, or reverse a batch.

### 17.4.1.1 Viewing Batches

The Fees screen enables you to view either all batches or only open batches. You can choose which batch you want to view using the View Options section. Viewing all batches enables you to locate batches with a status of OPEN, REVERSE, HOLD, ERROR, or POSTED.

#### To view open fee batches

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing > Servicing > Batch Transaction > Fees > Fee Entry** tab.
2. On the Fee Entry screen's **View Options** section, click **Open Batch Only**.

In the Batch section, the system displays all batches with a status of OPEN that have not been posted.

Details regarding the selected batch appear in the Fees section.

#### To view all Fees batches

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing > Servicing > Batch Transaction > Fees > Fee Entry**.
2. On the Fee Entry screen's **View Options** section, click **All Batches**.

In the Batch section, the system displays all fee batches, regardless of status.

Details regarding the selected batch appear in the Fees section.

If a batch contains a fees with an ERROR status, the **Error Reason** field displays the cause.

## 17.4.1.2 Entering and Posting Batches

The Fee Entry screen enables you to manually post batches of fees. A batch can consist of one or more accounts.

### To enter and post a batch for a fees processing

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing > Servicing > Batch Transaction > Fees > Fee Entry**.
2. In the Fee Entry screen's **Batch** section, click **Add**.
3. In the **Batch** section, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below.

Field:	Do this:
<b>Company</b>	Select the portfolio company.
<b>Branch</b>	Select the branch.
<b>Batch #</b>	The batch number (system generated). The batch number format is Fee-YYYY-JJJ-SSSS, where YYYY is the year, JJJ is the Julian date, and SSSS is a sequential number. The system generates a new sequence for every different date, so the first batch of each day starts with SSSS = 0001.
<b>Date</b>	Select the batch date, usually either today's date or the date the batch was received as a whole.
<b>Batch Type</b>	Select the batch type. The system identifies each batch with a type signifying the type of payment batch it is; for example, mail, drop box, Western Union, walk in, and so on.
<b>Batch Status</b>	The status of Batch.
<b>Total #</b>	Specify total number of payments in the batch.
<b>Ctrl Total #*</b>	The total number of payments in the batch (actual). This figure must match the figure in the required Total # field before a batch can be posted.
<b>Total Amt</b>	Specify total amount of payments in the batch.
<b>Ctrl Total Amt*</b>	View the total amount of payments in the batch (actual). This figure must match the figure in the required Total Amt field before a batch can be posted.  These two fields update every time you save the itemized payment entries in the Fees section.

4. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

The Fees section records itemized information of the fees batch processing. It enables you to make one payment to one account, or more than one payment to more than one account.

5. In the **Fees** section, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Fee Date</b>	Select the fee effective date. This date must be less than or equal to the date recorded in the Batch section.
<b>Fee Amount</b>	Specify the fee amount.
<b>Status</b>	View the payment status.
<b>Txn Codes</b>	Select the transaction code.
<b>Reason</b>	Select the reason for the payment.
<b>Reference</b>	Specify any reference information (such as check number).
<b>Total Amount</b>	View the total amount of the batch.
<b>Account #</b>	Select the account number to which this payment applies.

6. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

System updates **Ctrl Total #** and **Ctrl Total Amt** fields in Batch section to record the contents of the Fees section.

7. For each fee, use the Fee Txns section to record information about the fee received. (There might be more than one entry for the same account).
8. In the **Fee Txns** section, perform any of the [Basic Operations](#) mentioned in Navigation chapter. Ensure that the total Amount in Fee Txns section must match the contents of Total Amt in the Fees section.

A brief description of the fields is given below:

Field:	Do this:
<b>Account #</b>	Select the account number.
<b>Title</b>	View the account title.
<b>Amount</b>	Specify payment amount.
<b>Status</b>	View the payment status.
<b>Txn Codes</b>	View the Transaction codes.
<b>Error Reason</b>	View the reason for error. This field will populate after you click <b>Post</b> if payments aren't reconciled.

9. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

When you want to post a fee transaction on Fees Entry screen, ensure that contents of the Batch section's display only **Ctrl Total #** and **Ctrl Total Amt** fields matches with contents of the required **Total #** and **Total Amt** fields. In the following example, batch is ready to post, as these figures match.

10. In the **Action** section, click **Post**.

System changes the batch status from OPEN to PROCESSING and submits batch to the job service. After the batch has been processed, The system changes the batch status to POSTED or ERROR.

You can post only those batch with a batch status as OPEN. Also the batch totals and control totals should match before you post the batch. Else, an error message is displayed.

---

**Note**

You can post only those batch with a batch status as OPEN. Also the batch totals and control totals should match before you post the batch. Else, an error message is displayed.

---

### **17.4.1.3 Holding a Batch of Fee Processing**

Only the batches with the status of OPEN can be put on hold.

#### **To hold the batch of fee processing**

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing > Servicing > Batch Transaction > Fees > Fee Entry**.
2. On the Fee Entry screen's **View Option** section, select the batches you want to view.
  - If the batch status is OPEN, click **Open Batches Only** in the **View Options** section.
  - If the batch status is ERROR, click **All Batches** in the **View Options** section. Use the **Fees** section to select the batch you want to hold.
3. In the **Action** section, click **Hold/Open**.

The system changes the batch status from OPEN to HOLD.

### **17.4.1.4 Removing a Hold on the Batch of Fee Processing**

The status HOLD can be removed for the batch with status HOLD.

#### **To open (or remove hold) on the batch of fee processing**

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing > Servicing > Batch Transaction > Fees > Fee Entry**.
2. On the Fee Entry screen's **View Option** section, select the fees you want to view.
3. Use the **Fees** section to select the batch you want to open.
4. In the **Action** section, click **Hold/Open**.

The system changes the batch status from HOLD to OPEN.

### **17.4.1.5 Reversing the batch of Fee Processing**

Only the batches with a status of POSTED can be reversed.

#### **To reverse the batch of fee processing**

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing > Servicing > Batch Transaction > Fees > Fee Entry**.
2. On the Fee Entry screen's **View Option** section, select the batches you want to view.
3. Use the **Fees** section to select the batch you want to reverse.
4. In the **Action** section, click **Reverse**.

System changes batch status from POSTED to PROCESSING and submits batch to the job service. After the batch has been processed, system changes the batch status to REVERSED.

## 17.5 Search screen

A Search screen is available on the Fees screen to help locate information such as an account's number, customer name and company. This is information that is used on the Fees Entry screen.

### To search for an account

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing > Servicing > Batch Transaction > Fees > Search**. The Fees screen's Search screen appears.
2. In the **Search Criteria** section, use **Comparison Operator** and **Value** columns to enter search criteria you want to use to locate an account.
3. Click **Search**. System displays result of the search in Results section at the bottom of the screen. You can click **Reset Criteria** at any time to clear the **Comparison Operator** and **Values** columns on the Search Criteria section.

# 18. Interface

## 18.1 Introduction

This chapter discusses about the interfaces available in the application which supports following interfaces:

- AP Transaction
- GL Transaction
- Conversion Accounts

## 18.2 AP Transactions

The AP Transactions screen enables you to view accounts payable in Oracle Financial Services Lending and Leasing and complete the following tasks:

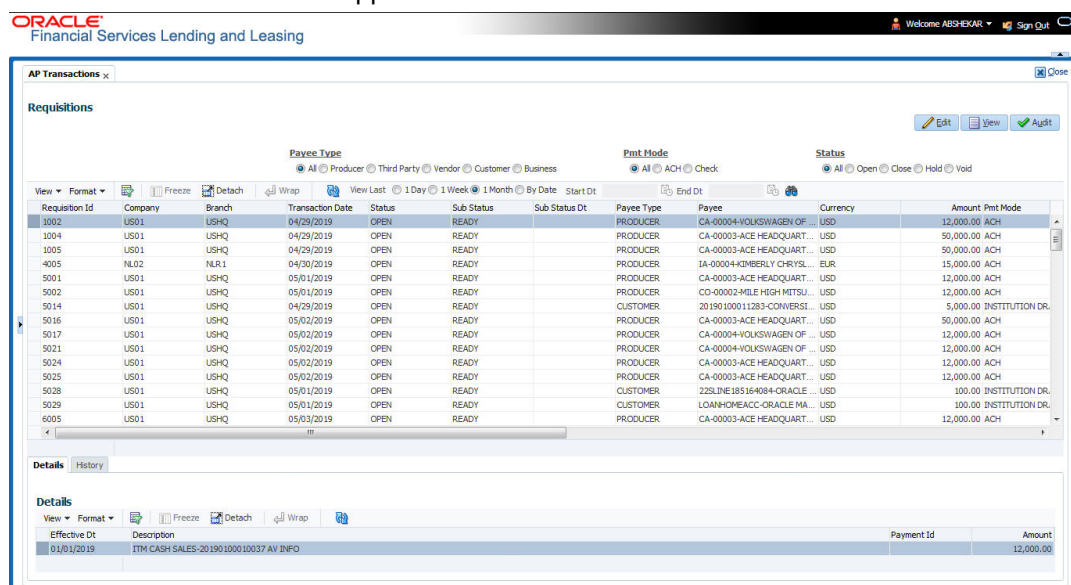

- View requisitions for all payees
- Change Payee Details and Track History
- Put a requisition on hold
- Close a requisition
- Cancel a requisition
- Print check details

The AP Transactions screen displays information regarding advance payments, such as payee type, mode of payment, status, and other details. Whenever there is a refund to be sent to the trustee or estate, you can modify the payee details. System automatically records the changes and maintains a history of changes done on a particular requisition.

### To view requisitions for all payees

1. On the Oracle Financial Services Lending and Leasing home screen, **Servicing > Servicing > Interfaces > AP Transaction**.

The AP Transactions screen appears.

The **AP Transactions** screen contains four sets of option buttons, each in its own section: **Payee Type**, **Pmt Mode**, **Status**, and **View Last**. These option buttons allow you to narrow the range of the requisitions Oracle Financial Services Lending and Leasing displays.

The **Payee Type** section enables you to view requisitions according to whom the payment is made.

<b>Choose:</b>	<b>Oracle Financial Services Lending and Leasing displays:</b>
<b>All</b>	All payees.
<b>Producer</b>	Producer payees.
<b>Third Party</b>	Third party payees.
<b>Vendor</b>	Vendor payees.
<b>Customer</b>	Customer payees.
<b>Business</b>	Business payees.

The **Pmt Mode** section enables you to view requisitions by how the payment is made.

<b>Choose:</b>	<b>Oracle Financial Services Lending and Leasing displays:</b>
<b>All</b>	All requisitions.
<b>ACH</b>	Requisitions paid by ACH.
<b>Check</b>	Requisitions paid by check.

The **Status** section enables you to view requisitions according to status.

<b>Choose:</b>	<b>Oracle Financial Services Lending and Leasing displays:</b>
<b>All</b>	All requisitions.
<b>Open</b>	Open requisitions.
<b>Close</b>	Closed requisitions.
<b>Hold</b>	Requisitions on hold.
<b>Void</b>	Cancelled requisitions.

The **View Last** section enables you to view requisitions based on elapsed days.

<b>Choose:</b>	<b>Oracle Financial Services Lending and Leasing displays:</b>
<b>1 Day</b>	All the transactions in last one day.
<b>1 Week</b>	All the transactions in last one week.
<b>1 Month</b>	All the transactions in last one month.
<b>By Date</b>	Specify a date range (within 3 months) in 'Start Dt' and 'End Dt' fields using the adjoining calendar and click 'Search'.

2. Use the **Payee Type**, **Pmt Mode**, **Status**, and **View Last** buttons to select the requisitions you want to view.
3. On the AP Transactions screen's **Requisitions** section, select the record you want to work with.
4. In the **Requisitions** section, perform any of the [Basic Operations](#) mentioned in Navigation chapter. You can view the following information:

<b>Field:</b>	<b>Oracle Financial Services Lending and Leasing displays:</b>
<b>Requisition Id</b>	View the Requisition Id of the selected AP transaction.
<b>Company</b>	The AP transaction company.
<b>Branch</b>	The AP transaction branch.
<b>Transaction Date</b>	The AP transaction date.
<b>Status</b>	The AP transaction status (OPEN, CLOSE, HOLD, or VOID). Transaction in OPEN status will not have a credit reference number, as it has not been entered or generated.
<b>Sub Status</b>	The AP transaction sub status.
<b>Payee Type</b>	The AP transaction payee type (PRODUCER, THIRD PARTY, VENDOR, CUSTOMER, or BUSINESS).
<b>Payee</b>	The AP transaction payee name.
<b>Payee Account#</b>	The AP transaction payee account number.
<b>Currency</b>	The AP transaction payment currency.
<b>Amount</b>	The AP transaction payment amount.
<b>Disbursement Currency</b>	The disbursement currency.
<b>Disbursement Amount</b>	The AP transaction disbursement amount.
<b>Pmt Mode</b>	The AP transaction payment mode.
<b>Check Ref No</b>	The AP transaction check reference number.
<b>Check Dt</b>	The AP transaction check date.
<b>Sub Unit</b>	The sub unit associated with the AP transaction.
<b>Country</b>	The AP transaction country.
<b>Address Line 1</b>	The AP transaction payment address.
<b>Address Line 2</b>	The AP transaction payment address.
<b>Zip</b>	The AP transaction zip code.
<b>Zip Extn</b>	The AP transaction zip code extension.
<b>City</b>	The AP transaction city.

<b>Field:</b>	<b>Oracle Financial Services Lending and Leasing displays:</b>
<b>State</b>	The AP transaction State.
<b>Transaction Comment</b>	The AP transaction comments received in response format are displayed. You can update the details if required.

5. On the **Details** sub tab, perform any of the [Basic Operations](#) mentioned in Navigation chapter. You can view the following information:

<b>Field:</b>	<b>Oracle Financial Services Lending and Leasing displays:</b>
<b>Effective Dt</b>	The transaction detail effective date.
<b>Description</b>	The transaction detail description.
<b>Payment Id</b>	The payment ID of the AP transaction.
<b>Amount</b>	The transaction detail payment amount.

6. On the **History** sub tab, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

The 'Requisitions History' section in **History** sub tab displays all the requisition changes that was performed on a particular AP transaction requisitions. The Requisitions History sub tab has similar field information of 'Requisitions' tab which is explained in point 4 above.

The Requisitions History table displays the modified fields and you can only view the requisition changes by clicking on 'View'. The details of Updated By and Updated date are displayed below the Requisitions History details.

### Closing a requisition

When the transactions are paid, the requisition should be closed. When you close a requisition, Oracle Financial Services Lending and Leasing changes its status to CLOSED and it cannot be paid again. Oracle Financial Services Lending and Leasing then generates the appropriate GL (general ledger) transactions.

#### **To close a requisition**

1. Open the **AP Transaction screen** and use **Payee Type**, **Pmt Mode**, and **Status** sections to load the requisition you want to close.
2. In the **Requisition** section, select the requisition you want to close.
3. In the **Action** section, click **Close**.
4. Complete the other fields if required. Select the **Sub Action** from the drop-down list and specify **Check Ref #** field with the check reference number and **Check Dt** field when the check was issued.
5. In the **Action** section, click **Save**.
6. In the **Status** section, click **Close** and view the account.

### Putting a requisition on hold

To ensure that the requisition is not paid or closed, you can change its status to HOLD. When a requisition is on hold, it cannot be closed.

### To put a requisition on hold

1. Open the **AP Transaction screen** and use **Payee Type**, **Pmt Mode**, and **Status** sections to load requisition you want to close.
2. In the **Requisition** section, select the requisition you want to put on hold.
3. In the **Action** section, click **Open/Hold**.

---

#### Note

The same option is to be selected while moving a requisition from Hold to Open status.

---

4. Complete the other fields if required. Select the **Sub Action** from the drop-down list and specify **Check Ref #** field with the check reference number and **Check Dt** field when the check was issued.
5. In the **Action** section, click **Save**.
6. In the **Status** section, choose **Hold** and view the account.

### Voiding a requisition

Changing the status of a requisition to VOID cancels the requisition.

#### To void a requisition

1. Open the **AP Transaction screen** and use **Payee Type**, **Pmt Mode**, and **Status** sections to load requisition you want to close.
2. In the **Requisition** section, select the requisition you want to void.
3. In the **Action** section, select **Void**.
4. Complete the other fields if required. Select the **Sub Action** from the drop-down list and specify **Check Ref #** field with the check reference number and **Check Dt** field when the check was issued.
5. In the **Action** section, click **Save**.
6. In the **Status** section, click **Void** and view the account.

### Printing Check Details

Print the requisition details of an open AP transactions.

1. Open the **AP Transaction screen** and use **Payee Type**, **Pmt Mode**, and **Status** sections to load requisition you want to close.
2. In the **Requisition** section, select the requisition you want to print.
3. In the **Action** section, click on **Print Check** button. System generates a PDF report with requisition and payee details.

## 18.3 GL Transactions

Oracle Financial Services Lending and Leasing allows you to view the details regarding general ledger entry as well as amortized transactions posted on a monthly basis. The system updates the GL transaction screen nightly.

The GL Transactions screen contains the following tabs:

- Company
- Account

## 18.3.1 Company tab

The Company tab contains the following sub tabs:

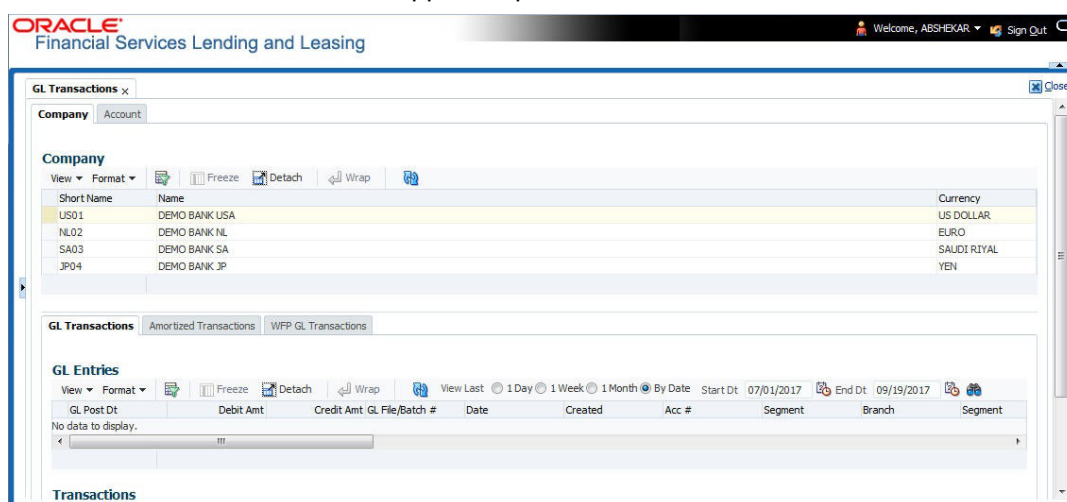

- GL Transactions
- Amortized Transactions

### 18.3.1.1 GL Transactions

The GL Transactions screen is a display only screen that allows you to view details regarding each general ledger entry and its corresponding details.

#### To view the GL Transactions screen

1. On the Oracle Financial Services Lending and Leasing Application home screen, **Servicing > Servicing > Interfaces > GL Transaction** link.
2. The GL Transactions screen appears opened at **GL Transactions** tab.

3. In the **Company** section, select the portfolio company you want to work with. System displays the portfolio company name, portfolio company short name and currency.
4. In the **GL Entries** section, sort the list of GL transactions to be displayed based on elapsed days by selecting the 'View Last' option as 1 Day / 1 Week / 1 Month / By Date. When 'By Date' is selected you can specify a date range (within 3 months) in 'Start Dt' and 'End Dt' fields using the adjoining calendar. Click search and view the following information:

Field:	View this:
<b>GL Post Dt</b>	General ledger effective date.
<b>Description</b>	Segment description.
<b>Debit Amt</b>	The debit amount.
<b>Credit Amt</b>	The credit amount.
<b>GL File/Batch #</b>	Batch number.
<b>Dt</b>	Batch creation date.
<b>Created</b>	If selected, this box indicates that the GL interface file/batch is created.

<b>Field:</b>	<b>View this:</b>
<b>Segment #1</b>	Segment value.
<b>Description</b>	Segment description.
<b>Segment #2</b>	Segment value.
<b>Description</b>	Segment description.
<b>Segment #3</b>	Segment value.
<b>Description</b>	Segment description.
<b>Segment #4</b>	Segment value.
<b>Description</b>	Segment description.
<b>Segment #5</b>	Segment value.
<b>Description</b>	Segment description.
<b>Segment #6</b>	Segment value.
<b>Description</b>	Segment description.
<b>Segment #7</b>	Segment value.
<b>Description</b>	Segment description.
<b>Segment #8</b>	Segment value.
<b>Description</b>	Segment description.
<b>Segment #9</b>	Segment value.
<b>Description</b>	Segment description.
<b>Segment #10</b>	Segment value.

5. In the **Transactions** section, view the following information:

<b>Field:</b>	<b>View this:</b>
<b>Txn Dt</b>	The transaction effective date.
<b>Transaction</b>	The description of transaction.
<b>Amount</b>	The transaction amount.
<b>Account</b>	The account.
<b>Producer</b>	The producer.

### **18.3.1.2 Amortized Transactions Tab**

The Amortized Transactions screen is another display only screen. It allows you to view details of all amortized transactions posted on a monthly basis. The Transactions block displays the earned amount to date and the balance that remains to be earned for each amortized transaction.

### To view the Amortized Transaction screen

1. On Oracle Financial Services Lending and Leasing Application home screen **Servicing > Servicing > Interfaces > GL Transaction > Amortized Transactions** in the **Company** section, select the portfolio company you want to view.
2. The **Transactions** section by default displays amortized transactions of only Active accounts. Select the 'Show All' check box to display all the transaction including Paid-Off or Charged-Off accounts.
3. In the **Transactions** section, sort the list of GL transactions to be displayed based on elapsed days by selecting the 'View Last' option as 1 Day / 1 Week / 1 Month / By Date. When 'By Date' is selected you can specify a date range (within 3 months) in 'Start Dt' and 'End Dt' fields using the adjoining calendar. Click search and view the following information:

Field:	View this:
<b>Transaction</b>	The transaction type.
<b>Account #</b>	The account.
<b>Account Status</b>	The account status.
<b>Method</b>	The amortization calculation method.
<b>Frequency</b>	The amortization frequency.
<b>Term</b>	The term.
<b>Balance</b>	The balance amount.
<b>Earned</b>	The balance earned.
<b>WrittenOff</b>	The balance write-off.

4. In the **Amortized Transactions** section, view the following information:

Field:	View this:
<b>GL Post Dt</b>	The GL post date.
<b>Transaction Code</b>	The transaction code.
<b>Transaction Amount</b>	The transaction amount.

### 18.3.2 Account tab

The Account tab is a display only tab that allows you to search and view GL Transactions by querying through account number.

In the 'Acc #' field, specify the account number and click 'Search'.

System displays the following account details:

Field:	Do this:
<b>Account #</b>	The queried account number.
<b>Title</b>	The primary and other applicant(s) attached to the account.
<b>Status</b>	The current status of the account.
<b>Product</b>	The product for the account.
<b>Contract Dt</b>	The contract funded date.
<b>Currency</b>	The currency for the account.

The Account tab also contains the following sub tabs which are segregated to display the respective transactions maintained in the account:

- Monetary Txns
- Amortized Txns
- Securitization Txns
- Loan Sales Txns
- Payment Txns
- Funding Txns
- Producer Txns

By default, system displays only the previous day's transactions for the selected account and you can modify the same to display the transactions for the last 2 days, 5 days or All Days by selecting the appropriate radio button.

The following table indicates the specific type of GL Transactions displayed for any selected account and the transaction details displayed in each sub tab.

<b>Transaction Type</b>	<b>Transaction Details</b>
Monetary Transactions Amortized Transactions Securitization Transactions Loan Sales Transactions	Effective Date
	GL Post Date
	Transaction Code
	Transaction Description
	Amount
	Remarks
Funding Transactions Producer Transactions	Effective Date
	GL Post Date
	Transaction Code
	Transaction Description
	Amount
	Dealer/Producer Number
	Dealer/Producer Name
Payment Transactions	Effective Date
	GL Post Date
	Batch Type
	Reason
Payment Allocation Transactions	Effective Date
	Transaction Code

	Account #
	Sub Unit
	Category
	Description
	Debit Amount
	Credit amount

## 18.4 Account Conversion

Oracle Financial Services Lending and Leasing Open Interface module is designed to allow businesses to convert accounts (either approved or partially completed). At the end of the process, a new account is created in system which can be viewed on Customer Service. It also allows you to board new accounts. There are two methods to enter this information into the system; a data file upload and a manual data entry.

This chapter explains how to use Oracle Financial Services Lending and Leasing's Account Conversion screen to complete the following tasks:

- Record customer details (including employment and address information), contract information, and collateral information
- Edits to verify the completeness of data with a Verification screen.

### 18.4.1 Conversion of Account screen

In the Conversion Account screen, the first step in converting an account is to complete the account boarding (new/old) details.

The conversion process does not create the underlying general ledger (GL) entries at any time.

#### **To complete the master block**

1. Click **Servicing > Servicing > Interfaces > Conversion Accounts > Account Boarding**.

2. The Account Conversion screen appears..

3. Perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:	
<b>App #</b>	Enter the account number.	
<b>Dt</b>	Enter the account date ( date on which account was originally received).	
<b>Product</b>	Select the product associated to this account.	
<b>Priority</b>	Select the account priority.	
<b>Status</b>	Select the account status and sub status from	
<b>Sub Status (unlabelled)</b>	the following two choices:	
	CONVERSION	ACCOUNT CREATED
	CONVERSION	API ACCOUNT
	<b>Note:</b> In beginning the conversion process, choose API ACCOUNT. After verification process, you will change the status to ACCOUNT CREATED. (See the <b>Verification</b> section for more information.)	
<b>Company</b>	Select the portfolio company to which this account belongs.	
<b>Branch (unlabelled)</b>	View the portfolio branch to which this account belongs.	

Field:	Do this:
<b>New Account</b>	Select box if account doesn't exist in the legacy system. <b>IMPORTANT:</b> Clear this box if the account transactions need to be converted. If this box is selected, data entered on Transaction sub screen of the Account master tab will not convert.
<b>Conversion Dt</b>	Enter the conversion date.
<b>Joint</b>	Select if the account is joint.
<b>Cosigned</b>	Select if the account is co-signed.
<b>Purpose</b>	Select the purpose.
<b>Existing Customer</b>	Select if one of the applicants is an existing customer.
<b>Duplicate</b>	Select if the account is a duplicate application.
<b>Contact</b>	Enter the contact.
<b>Channel</b>	Select the account channel.
<b>Producer Type</b>	Select the producer type.
<b>Producer</b>	Select the producer.
<b>Underwriter</b>	View the underwriter name.
<b>Xref</b>	Enter the account number (if converting an existing account) or the account number (if you need to create an account for funded application). This will help to reference back to the legacy system.
<b>Conversion Status</b>	View the status of the conversion.

4. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

### 18.4.2 Applicants Sub Tab

The Applicants master screen allows you to record information regarding applicants associated with the account. In this section, you will use the information supplied on the application, complete **Primary Applicant** screen and sub screens (**Address**, **Employments**, **Telecoms**, and **Financials** sub screens). If this is a joint account, complete the **Others** screen as well.

### 18.4.3 Business sub tab

If this is a SME or Business Loan, information gathered on the application entry process regarding the business and business's address, partners data, affiliates data, phone numbers and business credit score appears on the Customer Service screen's Business sub tab.

Using the Business sub tab, you can add new business details to an account and/or update the existing business's address, partners and affiliates information, or phone listing. New business details can be added even after an account is created and is usually done in case when the existing business is taken over by another business.

For detailed information, refer to '[Business sub tab](#)' section.

#### **18.4.4 Decision Tab**

On the Decision screen, Oracle Financial Services Lending and Leasing system records information gathered during the underwriting process. Depending on the type of account you are working with, Oracle Financial Services Lending and Leasing will display the Loan screen. These screens all share the following sub screens: Stipulations, Itemization (Conversion form only), and Checklist (Conversion form only).

For more detailed explanation of the fields found on the Decision screen, please see the chapter **Underwriting** in this **User Guide**.

#### **18.4.5 Contract Tab**

The Contract screen allows you to perform important task of completing the truth-in-lending details. These screens include information about financed amount, payment schedule, total of these payments, finance charge, and the resulting annual percentage rate. The truth-in-lending details must be completed before a Loan can be funded.

In completing the truth-in-lending details on Contract link, you will complete the Loan screen.

The Loan screen share the following sub screens:

- Itemizations
- Insurance
- ESC
- Escrow
- Subvention
- Proceeds
- Disbursement
- Fee
- ACH
- Coupon
- PDC

#### **18.4.6 Collateral Tab**

The Collateral screen allows you to record information regarding collateral associated with the account. Depending on the type of product or producer you selected, the Collateral link opens one of the three following collateral screen: a vehicle information screen, a home information screen, or an other information screen. Complete the screen that is available on your Applications screen.

These screens all share the following sub screens: Valuations and Tracking.

#### **18.4.7 Account Details Tab**

The Account Conversion Account's screen allows you to view and add comments regarding an account at any time.

**To complete the Account Details section**

1. Click **Servicing > Servicing > Interfaces > Conversion > Account Boarding > Accounts link**.

The Account screen contains the following sub screens:

- Conditions
- Balances
- Transactions
- ACH
- Bankruptcy
- Charge off
- Compensation
- Loan Details
- Tracking Attributes

2. Perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

<b>Field:</b>	<b>Do this:</b>
<b>Account#</b>	View the value entered in "Xref" field.
<b>Status</b>	Select the account status.
<b>Effective Dt</b>	Enter the effective date of the account.
<b>Paid Off Dt</b>	Enter the paid off date of the PAID account.
<b>Pool</b>	Enter the pool the account is in.
<b>30</b>	Enter the number of times 30 days delinquent over the life of the account.
<b>60</b>	Enter the number of times 60 days delinquent over the life of the account.
<b>90</b>	Enter the number of times 90 days delinquent over the life of the account.
<b>120</b>	Enter the number of times 120 days delinquent over the life of the account.
<b>Next Due Dt</b>	Enter the Next Due date.
<b>Last Pmt Amt</b>	Enter the last payment amount.
<b>Due Day</b>	Enter the due day of the account.
<b>Last Activ-ity Dt</b>	Enter the date of last activity on the account.
<b>Maturity Dt</b>	Enter the maturity date of the account.
<b>Last Pmt Dt</b>	Enter the date the last payment was received.
<b>Excess Amt Pd</b>	Enter the amount paid that needs to be applied towards future due dates.

3. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

- In the **Extensions** block, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b># of Extensions (Year)</b>	Enter the number of times extensions granted (year).
<b># of Extensions (Life)</b>	Enter the number of times extensions granted (life).
<b># of Extension Term (Year)</b>	Enter the number of terms extensions granted (year).
<b># of Extension Term (Life)</b>	Enter the number of terms extensions granted (life).
<b>Last Extn Dt</b>	View the last extension date.

- Perform any of the [Basic Actions](#) mentioned in Navigation chapter.
- In the **Due Dates** block, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Due Dt 1</b>	Enter the latest due date for which the account is due.
<b>Amt Due 1</b>	Enter the amount due on the latest due date of the account.
<b>Amt Paid 1</b>	Enter the amount paid on the latest due date of the account.
<b>Due Dt 2</b>	Enter the (latest - 1) due date of the account.
<b>Amt Due 2</b>	Enter the amount due on the (latest -1) due date of the account.
<b>Amt Paid 2</b>	Enter the amount paid on the (latest - 1) due date of the account.
<b>Due Dt 3</b>	Enter the (latest - 2) due date of the account.
<b>Amt Due 3</b>	Enter the amount due on the (latest -2) due date of the account.
<b>Amt Paid 3</b>	Enter the amount paid on the (latest - 2) due date of the account.
<b>Due Dt 4</b>	Enter the (latest - 3) due date of the account.
<b>Amt Due 4</b>	Enter the amount due on the (latest -3) due date of the account.
<b>Amt Paid 4</b>	Enter the amount paid on the (latest - 3) due date of the account.
<b>Due Dt 5</b>	Enter the (latest - 4 cycle) due date of the account.
<b>Amt Due 5</b>	Enter the total due amount less the sum of the last 4 due amounts on the account.
<b>Amt Paid 5</b>	Enter the amount paid on the account till date less the value in paid buckets 1 through 4.

7. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.
8. In the **Conditions** block, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below.

Field:	Do this:
<b>Condition</b>	View the condition.
<b>Start Dt</b>	View the start date.
<b>Followup Dt</b>	View the next follow-up date.

9. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

### 18.4.8 **Account Details' Sub Tabs**

**To complete the Transactions sub screen**

1. Click **Transactions** sub tab.
2. Perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Seq</b>	Enter the transaction sequence number.
<b>Post Dt</b>	Enter the date of posting this transaction.
<b>Dt</b>	Enter the effective date of this transaction.
<b>Txn</b>	Enter the transaction code.
<b>Balance Amt</b>	Enter the principal/advance (Note balance in case of PC) balance value after this transaction was executed.
<b>Txn Amt</b>	Enter the amount involved in this transaction.
<b>Reference</b>	Enter the reference for this transaction.
<b>Mode</b>	Select the mode in which the transaction was performed.
<b>Reason</b>	Select the reason code for this transaction.
<b>Ext Amt</b>	Enter the part of the payment that was allocated towards the extension fee.
<b>Memo Amt</b>	Enter the part of the payment that was allocated towards the membership fee.
<b>Ovr Amt</b>	Enter the part of the payment that was allocated towards the over limit fee.
<b>Fee Adv</b>	Enter the part of the payment that was allocated towards the advance transaction fee.
<b>Pre-Payment</b>	Enter the part of the payment that was allocated towards the prepayment penalty.

Field:	Do this:
<b>Spread Code</b>	Enter the spread code used if this is a payment transaction.
<b>Advance</b>	Enter the part of the payment that was allocated towards the advance balance.
<b>Interest</b>	Enter the part of the payment that was allocated towards the interest balance.
<b>Late Charge</b>	Enter the part of the payment that was allocated towards the late charge balance.
<b>NSF</b>	Enter the part of the payment that was allocated towards the NSF balance.
<b>Overage</b>	Enter the amount that has been overpaid. Used in the case of the last payment received that pays off all the balances.
<b>Comment</b>	Enter any comments associated with this transaction.

3. Perform any of the [Basic Actions](#) mentioned in Navigation chapter and choose **Update Account**.

#### To complete the ACH sub screen

1. Click **ACH** sub tab.
2. In the **ACH** sub screen, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Bank Name</b>	Enter the current ACH bank name.
<b>Bank Routing #</b>	Enter the current ACH bank routing number.
<b>Status</b>	Select the status as either Active or Inactive from the drop-down list.
<b>Start Dt</b>	Enter the ACH start date.
<b>End Date</b>	Enter the ACH end date.
<b>Default</b>	Select the check box to indicate if this is default account.
<b>Account Type</b>	Select the current ACH account type.
<b>Account #</b>	Enter the current ACH account number. If the organizational parameter <code>UIX_HIDE_RESTRICTED_DATA</code> is set to Y, this appears as a masked number; for example, XXXXX1234.
<b>BIC</b>	Select the Business Identifier Code from the drop-down list. The list displays the BIC codes defined in the system.

Field:	Do this:
<b>IBAN</b>	<p>Specify the IBAN (International Bank Account Number). IBAN is used for identifying bank accounts across national borders with a minimal of risk of propagating transcription errors.</p> <p>Ensure that value entered satisfies the check-digit validation based on modulo 97. On save, system automatically validates the IBAN number length based on country code, characters, white spaces, and checksum. Validation is also done during posting non-monetary transaction (ACH Maintenance).</p> <p>You can maintain the IBAN length and other details required as per the country code in the user defined table (Setup &gt; Administration &gt; System &gt; User Defined Tables).</p> <p><b>Note:</b> IBAN for 'NL' country code (IBAN_FORMAT_NL) is defined by default with length of IBAN as 18.</p>
<b>Pmt Day</b>	Specify the day of payment.
<b>Pmt Amt</b>	Specify the payment amount.
<b>Payment Amt Excess</b>	Specify the excess payment amount if any.
<b>Pmt Freq</b>	Select the payment fee from the drop-down list.
<b>Fee</b>	Select the check box to indicate the fee indicator.

3. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

#### To complete the Bankruptcy sub screen

1. Click **Bankruptcy** sub tab.
2. On the **Bankruptcy** sub screen, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Bankruptcy</b>	Select if account has declared a bankruptcy currently.
<b>Disposition</b>	Select the bankruptcy disposition.
<b>Start Dt</b>	Enter the bankruptcy start date.
<b>Type</b>	Select the bankruptcy type.
<b>Comment</b>	Enter a comment relevant to the bankruptcy of the account.

3. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

#### To complete the Charge off sub screen

1. Click **Charge off** sub tab.
2. In the **Charge off** sub screen, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Charge-off</b>	Select if account has been declared as a charge off.
<b>Disposition</b>	Select the charge-off disposition.
<b>Charge off Dt</b>	Enter the charge-off start date.
<b>Type</b>	Select the charge-off type.
<b>Comment</b>	Enter a comment relevant to the bankruptcy of the account.

3. In the **Repo/Forc** sub screen, enter the following information:

In this field:	Do this:
<b>Repo/Forc</b>	Select if foreclosure or repossession proceedings are underway for this account.

4. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

#### To complete the Compensation sub screen

1. Click **Compensation** sub tab.
2. On the **Compensation** sub screen, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Amt Earned</b>	Enter the transaction code for the amortization balance Five different balance types can be entered in the rows marked 1...5.
<b>Int Amt Earned</b>	Enter the original balance amount.
<b>Amt Paid</b>	Enter the amount of the balance earned as of previous month-end.
<b>Amt Write-off</b>	Enter the amount of the balance written off as of the previous month-end.
<b>Next Pmt Dt</b>	Enter the amount of the balance written off as of the previous month-end.
<b>Last Pmt Dt</b>	Enter the amount of the balance written off as of the previous month-end.
<b>Chbk Amt</b>	Enter the amount of the balance written off as of the previous month-end.

3. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

#### To complete the Loan Details sub screen

1. Click Loan **Details** sub tab.
2. In the **Additional Loan Details** block, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Current Rate</b>	Enter the current rate.
<b>Current Pmt</b>	Enter the current payment amount.
<b>Stop Accrual</b>	Select if the interest accrual is stopped on this account.
<b>Balloon Amt</b>	Enter the balloon amount.
<b>Current Term</b>	Enter the current term.
<b>Paid Term</b>	Enter the paid term.
<b>Last Accrual Dt</b>	Enter the last accrual date for this account.

3. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.
4. In the **Non Performing Rebate** block, perform any of the [Basic Operations](#) mentioned in Navigation chapter.

A brief description of the fields is given below:

Field:	Do this:
<b>Non Performing Type Code</b>	Enter the non performing type code.
<b>Interest Rebate</b>	Enter the interest rebate.
<b>Promotion End date</b>	Enter the promotion end date.
<b>Non Perform Indicator</b>	Select to indicate that this is a non performing account.

5. Perform any of the [Basic Actions](#) mentioned in Navigation chapter.

#### To complete the Tracking Attributes sub screen

1. Click **Tracking Attributes** sub tab.
2. Choose **Create Tracking**. Oracle Financial Services Lending and Leasing loads all the Customer Service (2) account attributes tracking parameters.
3. Sub Attribute field, only attributes in a particular group appear in the Parameter display.
4. Complete **Tracking Details** block by entering requested parameter in the **Value** field.
5. Save any changes you made to the account.

### 18.4.9 Comment Tab

The Comments screen allows you to view and add comments regarding an account at any time.

#### To add a comment

1. Click the **Comment link**
2. In the **Type** block, use drop down list to select the type of comment you are adding.
3. In the **Sub Type** block, use drop down list to select the sub type of comment you are adding.
4. In the **Comments** block, type your comment.

5. If you want Financial Services to recognize this comment as an alert, select **Alert**. When you select the Alert box, the comment appears on Customer Service form's Account Details screen in Comment sub screen.
6. Save your entry.

### 18.4.10 Verification Tab

Oracle Financial Services Lending and Leasing can be configured to automatically validate portions of an application when you attempt to change its status. The results of this data check appear on the **Verification (8)** master tab's Edit screen as an ERROR, a WARNING, or an OVERRIDE.

If it is an **Error**, Oracle Financial Services Lending and Leasing will not allow you change the application's status and approve the Loan until you fix all the errors.

If it is a **Warning**, Oracle Financial Services Lending and Leasing allows you to change an application's status without correcting the matter. While you should still investigate the problem, Warning messages are of a lesser importance than Error messages.

If it is an **Override**, Oracle Financial Services Lending and Leasing displays a dialog box informing you that an override is needed; your responsibility level does not have the authority required to process this step. (Choose **Yes** on dialog box to move the application to queue of the user with the required authority.)

Oracle Financial Services Lending and Leasing can be configured to verify different sets of information; for example, Financial Services could check one set of data when checking application entries for completeness and another when approving auto Loan . Each one of these "edit types" has its on set of "edit details."

#### **To verify the data required for decisioning the account**

1. Click the **Verification link**, then choose the **Edits** tab.
2. In the **Edit Type** block, select the type of edit you want to verify using the drop down list.
3. Choose **Check Edits**. Financial Services checks data for the verification process selected in Edit Type block and displays results in the Edit Details block.
4. In the **Edit Details** block, view verification results and begin making corrections on conversion form.
5. When you are finished correcting errors, change the status in the master block **Status** field from API ACCOUNT to ACCOUNT CREATED.

After entering existing data and successfully changing status of the account, the conversion process is over.

At this point, the account information you entered in this module can be viewed on the Lending menu's **Customer Service** form. However, new accounts cannot be viewed since they need to have the set-up run prior to account creation.

### 18.4.11 Calculator Tab

The Loan Calculator link is only available for the loan product. During the account conversion process, the Loan Calculator screen can be used to complete the information.

To open the Loan Calculator screen

1. Click the **Calculator link**

For more details about using the Loan Calculator screen, refer Tools chapter.

## 18.4.12 Search Tab

The Account Conversion's Search tab opens the Criteria screen.

### Loading an Application on the Account Conversion screen

The first step in account conversion process is to load application you want to work with using the Conversion Account screen's Search link.

#### **To load an application**

1. On the Oracle Financial Services Lending and Leasing Application home screen, click the **Servicing** master tab.
2. Click **Interfaces** drop-down link and then click **Account Conversion** link. The Conversion Account screen is displayed.
3. On the Results screen, select the application you want to load and click Submit.  
You can use the Search Criteria tab to limit or change display of applications on the Results screen.

---

# Appendix A: Transaction Parameters

The Customer Service screen's Maintenance sub tab enables you to post an array of monetary and nonmonetary transactions for any given account. The transactions that are available depend on responsibility of the Oracle Financial Services Lending and Leasing user, nature of account, and whether the account is a Loan.

Appendix A: This appendix catalogues the baseline transaction codes and parameters available on Customer Service screen's Maintenance sub tab. Instructions on how to use the Maintenance sub tab are located in Customer Service chapter of this User Guide.

## A.1 Monetary Transactions

This section catalogues the transaction codes and parameters required to complete the following monetary tasks for Loan:

- Apply, adjust, or waive servicing expenses
- Adjust or waive late charges
- Adjust or waive nonsufficient funds
- Apply, adjust, or waive repossession expenses
- Apply, adjust, or waive bankruptcy expenses
- Apply or adjust phone pay fees
- Change an index/margin rate
- Apply, adjust, or cancel financed insurance
- Generate a payoff quote
- Generate a backdated payoff quote
- Payoff an account
- Charge-off an account/Do Not Charge-Off an account
- Close an account
- Apply, adjust, or waive an extension fee
- Change payment amount
- Change Term
- Adjust or waive a prepayment penalty
- Reschedule an escrow payment
- Adjust or waive an escrow payment
- Adjust or waive a payoff quote fee
- Place an account in a nonperforming condition
- Reverse a nonperforming condition
- Reschedule precomputed Loan to interest bearing Loan
- Change profit rate
- Refunding the payment
- Non Refund GL
- ACH Fee Maintenance
- Adjust, charge-off, or waive the advance/principal balance
- Adjust the interest balance
- Stop interest accrual

- Indicate a borrower as on or off active military duty
- Trading of Accounts - Monetary Transactions
- Billing Cycle Change
- Account Settlement Transaction
- Account Acceleration

## Note

While posting any monetary transaction that results in increase of account maturity date, system auto validates if the same is within the 'Customer Credit Limit Expiry date' of any one or all of the customer(s)/business who contributed for funding the Account. In case it is greater, system displays an error indicating that the resulting Maturity date is greater than 'Customer Credit Limit Expiry date' and does not allow to post the transaction.

### A.1.1 Servicing Expenses

Service expenses are any expenses incurred to service an account; for example, employing a courier to send documents, such as payoff quotes or balance statements. Servicing expenses appear in the Other Due field on the Dues section of the Account Details screen of the Customer Service screen. This is the first screen to appear on the Customer Service when you load an account.

### A.1.5 Bankruptcy Expenses

Bankruptcy expenses include any costs incurred when an account holder declares bankruptcy, such as legal fees or additional collection costs.

Bankruptcy expenses appear in the Other Due field on the Dues section of Summary tab of Customer Service screen. This is the first screen to appear on the Customer Service screen when you load an account.

**ORACLE**  
Financial Services Lending and Leasing

Welcome, VBOUTHI | 09/01/2016

### A.1.6 Phone Pay Fees

Phone pay fees are where a borrower calls the lender and arranges for a debit to their checking or savings account to make a payment on a Loan account.

Phone pay fees appear in Other Due field on Dues section of the Summary tab of Customer Service screen. This is the first screen to appear on the Customer Service screen when you load an account.

### To adjust a phone pay fee

Transaction	Parameters
Adjustment to Phone Pay Fee - Add	Txn Date Amount
Adjustment to Phone Pay Fee - Subtract	Txn Date Amount

### To waive a phone pay fee

Transaction	Parameters
Waive Phone Pay Fee	Txn Date Amount

## A.1.7 Financed Insurances

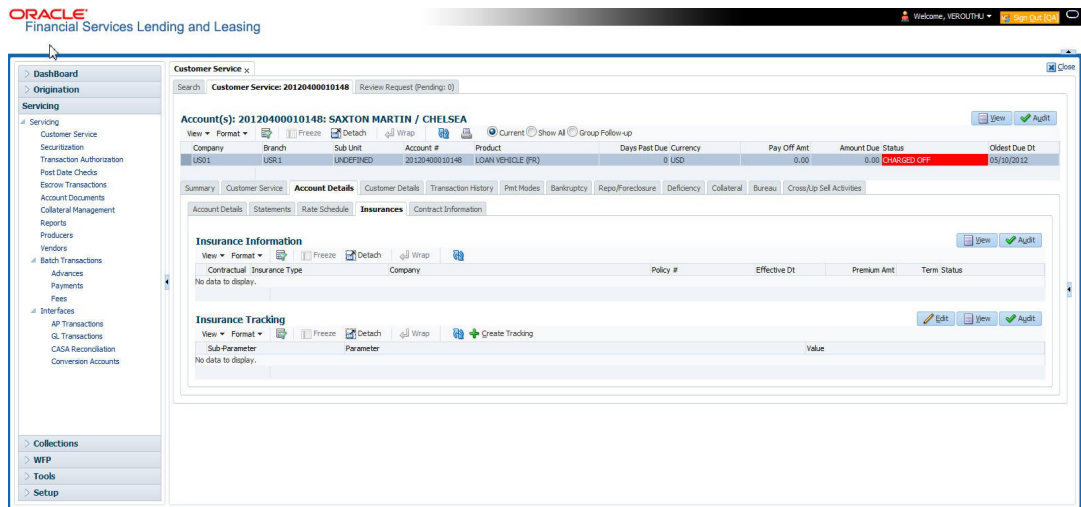

In this section, you can do the following:

- [Insurance Addition](#)
- [Insurance Rebate Quote](#)
- [Insurance Cancellation](#)
- [Insurance Modification](#)

### A.1.7.1 Insurance Addition

You can add financed insurance to an existing account with the INSURANCE ADDITION transaction. This transaction adds insurance premium amount to advance/principal balance on the Loan and adjusts the Loan receivables accordingly. The transaction also triggers the process to re-compute repayment amount for Loan. After you post the transaction Loan will be billed for newly computed payment amount and will be considered for delinquencies and fees calculations based on information on the Contract link's Contract screen. The newly

added insurance information can be viewed on Customer Service drop-down link's Insurances link.

### To add financed insurance

Transaction	Parameters
Insurance addition	Txn Date
	Insurance Type
	Single/Joint
	Insurance Mode
	Insurance Plan
	Company Name
	Phone #1
	Extn #1
	Phone #2
	Extn #2
	Policy #
	Policy Effective Date
	Premium Amount
	Expiration Date
Primary Beneficiary	
Secondary Beneficiary	
Comment	

### A.1.7.2 Insurance Rebate Quote

OFSLL supports the option to generated an insurance rebate quote to derive the rebate amount for all the active funded Insurances before cancelling an Insurance.

You can generate a rebate quote by posting the monetary transaction 'COMPUTE INSURANCE REBATE QUOTE' on an existing account in the Customer Service > Maintenance screen.

Transaction	Parameters
<b>COMPUTE INSURANCE REBATE QUOTE</b>	PAYOFF QUOTE VALID UPTO DATE
	INSURANCE TYPE
	CURRENT USAGE (applicable for loan only)

The same transaction can also be posed to generate a backdated / future dated Insurance Rebate quote.

Note the following:

- If you enter a value for 'Current Usage' parameter (instead of leaving it as zero), system computes the rebate amount using the 'Pro Rata (Mileage) method'. However system also calculates the rebate amount using 'Refund Calculation Method' and considers the minimum value out of both.
- Insurance Rebate quote can also be generated on premium amount for funded insurance (specified in Origination > Funding > Contract > Insurances) while originating Loan applications.

The Rebate amount is displayed in Results section of Maintenance screen.

### A.1.7.3 Insurance Cancellation

You can cancel financed insurance on an existing account with the INSURANCE CANCELLATION transaction. When you post this transaction, the system computes premium refund amount based on the refund method associated with insurance item.

### To cancel a financed insurance

Transaction	Parameters
<b>Insurance Cancellation</b>	Txn Date
	Insurance Type
	Policy Effective Date
	Insurance Refund Amount
	Cancellation Reason
	Current Usage

If you enter a value for INSURANCE REFUND AMOUNT parameter, the system overrides calculated refund amount and adjusts advance/principal balance and Loan receivables accordingly. The INSURANCE CANCELLATION transaction re-computes the repayment amount for Loan based on remaining balances. After posting the transaction, Loan will be billed for newly computed payment amount according information on the Contract tab's Contract sub tab. The insurance cancellation information can be viewed on the Contract link's Insurances sub screen.

Also if you enter a value for 'Current Usage', system computes the rebate amount using the 'Pro Rata (Mileage) method. However system also calculates the rebate amount using 'Refund Calculation Method' and considers the minimum value out of both.

#### **A.1.7.4 Insurance Modification**

You may rectify possible errors resulting from incorrect information entered on the INSURANCE ADDITION transaction (such as an incorrect premium account) with the monetary transaction INSURANCE MODIFICATION.

When you post the INSURANCE MODIFICATION transaction, Oracle Financial Services Lending and Leasing re-computes the repayment amount using new premium amount and adjusts advance/principal balance on Loan and Loan receivables.

### To modify financed insurance information

Transaction	Parameters
<b>Insurance Modifications</b>	Txn Date
	Insurance Type
	Policy Effective Date
	Premium Amount

#### **A.1.8 Index/Margin Rates**

You can change the current Index Rate type (i.e. Prime Rate or Flat Rate) and increase or decrease or even replace the current Margin Rate of a variable rate Loan up to the required basis points using the INDEX / MARGIN RATE CHANGE monetary transaction.

## To change an index/margin rate

Transaction	Parameters
<b>INDEX / MARGIN RATE CHANGE</b>	TXN DATE - Select the date from adjoining calendar.
	INDEX - Select from the drop-down list as either Prime Rate or Flat Rate.
	MARGIN RATE - Specify the Margin Rate.
	REASON - Specify additional information (if any).
	<p>TXNS ADJUSTMENT TYPE - Select one of the following transaction adjustment type from the drop-down list:</p> <p>ACTUAL - Select this option to replace the existing Margin Rate with the current specified Margin Rate.</p> <p>INCREASE - Select this option to add the current specified Margin Rate to the existing Margin Rate.</p> <p>DECREASE - Select this option to reduce the current specified Margin Rate from the existing Margin Rate. However, note that reduction is permitted only up to existing Margin Rate and system displays an error if the current specified Margin Rate is greater than the existing Margin Rate.</p>

On clicking 'Post' system posts RESCHEDULE\_INDEX monetary transaction to change the Index and Margin Rates.

### A.1.9 Payoff Quotes

A payoff quote is the amount still owed on account or amount needed to satisfy the Loan. It can be generated anytime and may be requested during a call from a customer, dealer, or insurance agent. A payoff quote can either be generated for current or future date, but not on a back date.

The transaction processing details and new balances after posting payoff quote appears in Results section of Maintenance screen.

The screenshot displays the Oracle Financial Services Lending and Leasing Customer Service interface. The main content area shows the following sections:

- Transaction Batch Information:** A table with columns: Date, Monetary, Transaction, Status, Batch. Below the table, it states "No data to display."
- Parameters:** A table with columns: Parameter, Value, Required. Below the table, it states "No data to display."
- Result:** A table with columns: Transaction Processing Details. Below the table, it states "No data to display."

### To generate a payoff quote for an account Loan

Transaction	Parameters
<b>PAYOFF QUOTE</b>	TXN DATE
	PAYOFF QUOTE VALID UPTO DATE
	ASSESS PAYOFF QUOTE FEE
	PAYOFF QUOTE LTR PRINT
	COMMENT

#### **A.1.10 Backdated Payoff Quotes**

OFSLL supports generating a backdated payoff quote to identify the total balance amount owed on account to satisfy the Loan as of a specific bankruptcy petition file date. Backdated Payoff quote can be generated anytime in the system and may be requested during a call from a customer, dealer, or insurance agent or a government official.

To generate Backdated Payoff quote, post the below monetary transaction by specifying the bankruptcy date or any other date which is before the current system date.

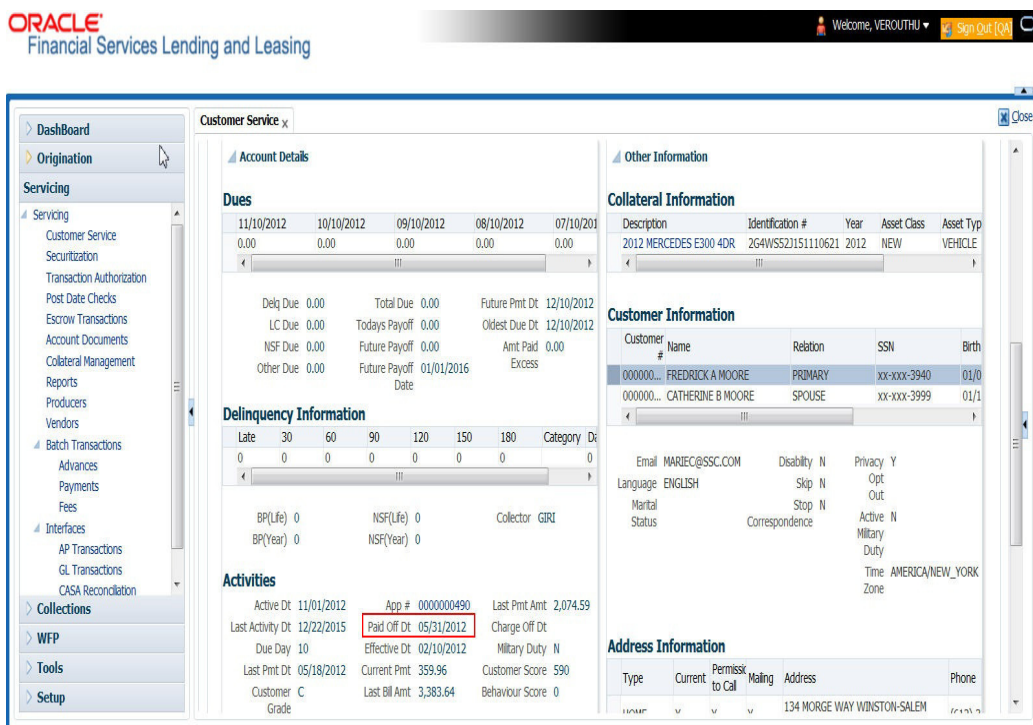

Transaction	Parameters
<b>BACK DATED PAYOFF QUOTE</b>	Payoff Quote Valid Up To Date
	Assess Payoff Quote Fee
	Payoff Quote Ltr Print
	Comment

The Backdated payoff quote appears in Results section of Maintenance screen.

#### **A.1.11 Account Paidoff**

An account is automatically paid off or marked for payoff processing by the system with a batch transaction when the account balance is \$0.00. You can also manually payoff an account with the Maintenance screen. You can also pay off an account using the Consumer Lending (Advance and Payment) form. For more information, see the **Payment Processing** chapter.

When you payoff an account, the system changes the account's status to PAID OFF. The date the account was paid off appears in Activities section's Paid Off Dt field on Account Details screen.

The system also notes the amount of the principal that was waived when account was paid off in the Waived column on Account Balances screen.

### To pay off an account

Transaction	Parameters
Paid off	Txn Date

If you reverse the payoff payment using Customer Service form, then the pay-off is automatically reversed. The system changes the account's status from PAID OFF to ACTIVE when you refresh the account.

## A.1.12 Account Charge Off

Charging off an account refers to when a lender decides to take a loss on an account, signalling that attempts to recover the Loan have failed. In calculating a charge off, the system considers the total compensation amount (up front compensation plus remaining compensation amount). It is different from the waive off process since a waive off is a concession offered to the customer on payment of some component, such as a late fee. The repayment of the original Loan still continues in waive off process.

When you charge off account, the system changes the status to CHARGED OFF. The balance on the account appears on Customer Service form's Balance screen when you choose Deficiency Balance in the Balance Group section.

Balance Type	Opening Balance	Posted	Paid	Waived	Charge Off	Adjusted (-)
ADVANCE / PRINCIPAL	0.00	5,000.00	0.00	0.00	5,000.00	0.00

However, you can select the 'Do Not Auto Charge Off' condition to ignore few account conditions, for the charge-off processing batch job. When an account is marked with the condition DO NOT CHARGE OFF, then batch job will not pick the account for charge off processing.

You can add 'Do Not Auto Charge Off' condition in addition to the already existing condition.

### To charge off an account

Transaction	Parameters
<b>Charged Off-</b>	Txn Date
	PROCESS MASTER ACCOUNT

While posting the transaction,

- if PROCESS MASTER ACCOUNT is selected as 'YES', then CHARGE OFF transaction is automatically posted to corresponding Master Account. If selected as 'No', then CHARGE OFF transaction is posted to current account and its Linked account.
- If Master Account has multiple Linked and Associated Accounts with status TRADED, VOID and Account Close Indicator =N, then system displays an error indicating "'Invalid status for Associated Accounts'".

### A.1.13 Account Closure

The system automatically closes an account when its status changes from ACTIVE status to PAID or VOID. It is manually closed if it has status as CHARGE OFF. Accounts marked as CLOSED are not processed and after a period of time are purged from Oracle Financial Services Lending and Leasing.

The screenshot displays the Oracle Financial Services Lending and Leasing interface. The top navigation bar includes 'Customer Service' and various sub-sections like 'Account Details', 'Customer Details', 'Transaction History', etc. The main content area is titled 'Transaction Batch Information' and contains a table with columns: Date, Monetary, Transaction, Status, and Batch. Below this is a 'Parameters' section with a table showing 'TXN DATE' set to '01/22/2016'. At the bottom, the 'Result' section shows 'Transaction Posting Successful'.

### To close an account

Transaction	Parameters
<b>Account Close</b>	Index Txn Date

### A.1.14 Advance (Principal) Balance

The advance (or principal) balance is posted automatically when you fund the contract on Funding screen. You are not allowed to post the advance with Customer Service screen. However, you can waive, charge off or adjust the advance or principal.

The adjustments will appear in the corresponding column of Customer Service screen's Account Balances sub tab for ADVANCE / PRINCIPAL Balance Type -- Waived, Charged Off, Adjusted (-), or Adjusted (+) -- depending on which of the following transactions you perform.

**To adjust the advance/principal balance**

Transaction	Parameters
Adjustment To Advance/Principal - Add	Txn Date Amount
Adjustment To Advance/Principal - Subtract	Txn Date Amount

**To charge off the advance/principal balance**

Transaction	Parameters
Chgoff Advance/Principal	Txn Date Amount

**To waive the advance/principal balance**

Transaction	Parameters
Waive Advance/Principal	Txn Date Amount

**A.1.15 Interest**

The interest is accrued or posted automatically when you post the payment on Advance screen's Advance Entry tab. You cannot post the interest in the Customer Service screen; however, you can adjust or waive interest.

The adjustments will appear in the corresponding column of Customer Service form's Account Balances screen for INTEREST Balance Type-- Waived, Adjusted (-), or Adjusted (+) -- depending on which of the following transactions you perform.

### To adjust the interest

Transaction	Parameters
Adjustment To Interest - Add	Txn Date Amount
Adjustment To Interest - Subtract	Txn Date Amount

### To waive the interest

Transaction	Parameters
Waive Interest	Txn Date Amount

## A.1.16 Interest Accrual

You can start or stop interest accrual on a Loan.

On the Loan Details screens, Stop Accrual box is selected in Interest and Accruals section.

To remove Stop Accrual indicator, post the start ACCRUAL transaction.

**To start interest accrual for an account**

Transaction	Parameters
<b>Start Accrual</b>	Txn Date

**To stop interest accrual for an account**

Transaction	Parameters
<b>Stop Accrual</b>	Txn Date

**A.1.17 Active Military Duty**

The Servicemembers Civil Relief Act of 2003 (SCRA), formerly known as the Soldiers and Sailors Civil Relief Act of 1940 (SSCRA), is a federal law that gives military members some important rights as they enter active duty military service. The law is designed for active duty military personnel and reservists (and their spouse -- if applicable for joint credit accounts) to receive, as a result of military service economic hardship(s), an interest rate reduction (currently at 6.000%) for certain consumer and mortgage-related debt that was incurred prior to entering military service, for the period of time that the servicemember is on active duty. Under the law, the term's interest includes service charges, renewal charges, fees, or any other charges (except bona fide insurance) with respect to an obligation or liability. The law also provides protection against certain legal actions during the term of active duty military service. The SCRA function is currently available in the system for simple interest LoanLine of credit.

Any account that has been identified under SCRA requirements as eligible for the allowable benefits of active military duty for its primary borrower/spouse will have a new interest rate calculation based upon the 6.000% limit set by the SCRA. However, this change is subject to exception in case of accounts that already have an interest rate less than 6.000%. In such cases, the original interest rate that is less than 6.000% will continue.

**To indicate that a borrower is on active military duty**

Transaction	Parameters
<b>Borrower On Military Duty</b>	Txn Date
	Borrowers Relation With Account
	Active Duty Order Reference

After you post this transaction, the Military Duty box (Account Details screen Activities section) and Active Military Duty box (Customer Details screen Military Service section) are selected. Oracle Financial Services Lending and Leasing changes the condition of the

account to ON ACTIVE DUTY. Details of the transaction appear in the Military Services section on Customer Details screen.

The screenshot shows the Oracle Financial Services Lending and Leasing Customer Details screen. The 'Military Duty' field in the 'Activities' section is highlighted with a red box and contains the value 'N'. Other fields include 'App # 0000001289', 'Last Pmt Amt 0.00', 'Charge Off Dt', 'Effective Dt 01/12/2016', 'Current Pmt 3,078.22', 'Customer Score 0', and 'Behaviour Score 0'. The 'Due Date Change' section shows 'Last Tm Dt' and 'Rem. Tm. Limit (Year) 2'. The 'Address Information' section shows 'HOME' address: '2309 N BCH N # 2309 2 3 YERMO CA-92398' with phone '(000)-000-0000'. The 'Employment Information' section is also visible.

If the interest rate was greater than 6%, Oracle Financial Services Lending and Leasing will change the rate to 6% and adjust the payment accordingly. The CHANGE PAYMENT AMOUNT and RATE CHANGE transactions on the Transactions screen.

While posting an SCRA transaction for a borrower who is on 'Active Military Duty', system processes a lower payment amount regardless of prior payment history.

**To indicate the payment parameters when the borrower is on active military duty**

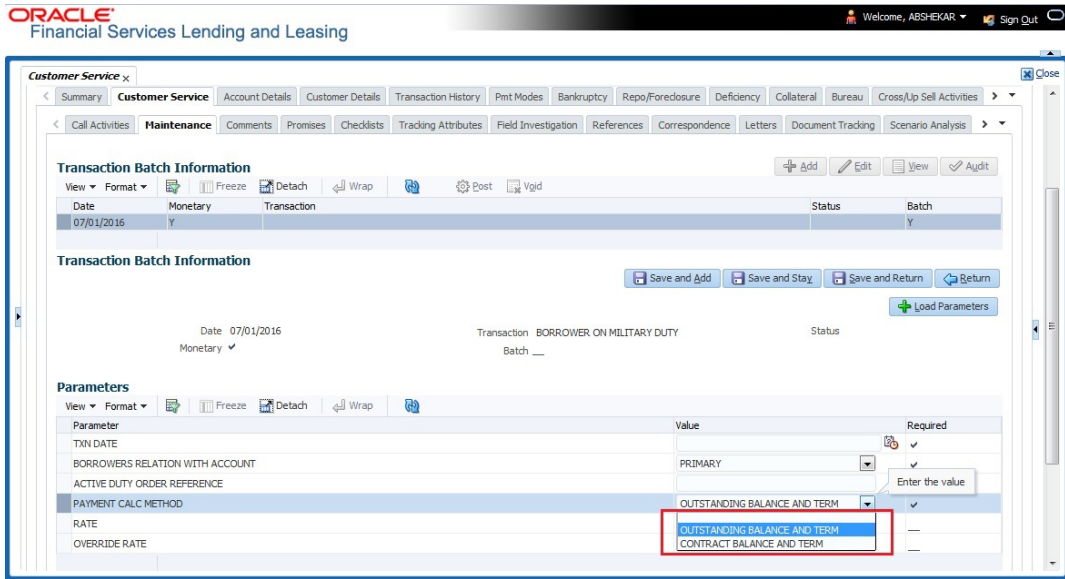

Parameter Name - CUST\_ON\_MLTRY\_DUTY

Transaction	Parameters
<b>Borrower On Military Duty</b>	Txn Date
	Borrowers Relation With Account
	Active Duty Order Reference
	Payment Calculation Method
	Rate
	Override Rate

The Payment Calculation Method has the following options in drop-down list for selection:

- **Outstanding Balance & Term** - System calculates the new payment amount using Outstanding Principal, SCRA Rate, Remaining Term.

- **Contract Balance & Term** - System calculates the new payment amount using Contract principal, SCRA Rate, Contract Term.

**Note**

If the borrower is delinquent during the life of loan, any outstanding balance would be paid along with last installment amount.

**OFF-Military Duty**

If the borrower is off-military duty, the transaction 'BORROWER OFF MILITARY DUTY' is posted to restores the interest and instalment amount for the remaining term of the loan.

**To indicate that a borrower is no longer on active military duty**

Transaction	Parameters
<b>BORROWER OFF MILITARY DUTY</b>	TXN DATE
	BORROWERS RELATION WITH ACCOUNT
	SCRA OFF PAYMENT CALC METHOD

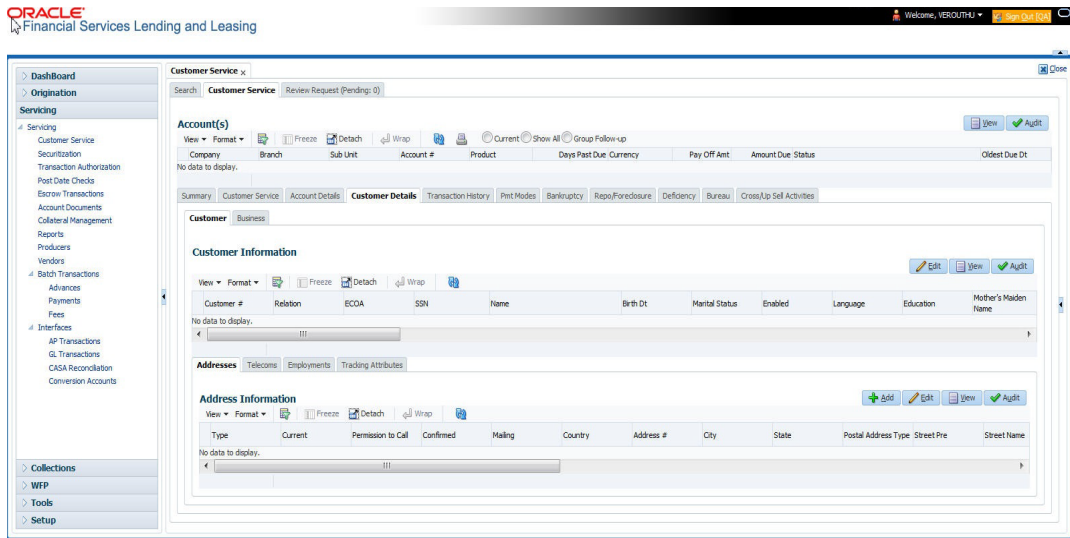

To adjust the contracted interest rate and Payment Amount, the SCRA off Payment Calculation Method has the following options in drop-down list for selection:

- Restore Account Payment - System restores contract interest rate and instalment amount.
  - Remaining balance (if any) after 'Restore to Account Payment' is adjusted to the last instalment amount as a balloon payment.
  - In case if a 'Rate Change' transaction is posted on account before posting 'On Military Duty' transaction, system calculates the remaining payment amount as per the changed interest rate and not the contract rate.
- Calculate New Payment - System recalculates the payment amount using contract interest rate.

After you post this transaction, the Military Duty box (Account Details screen Activities section) and Active Military Duty box (Customer Details screen Military Service section) are

de-selected. Oracle Financial Services Lending and Leasing changes the condition of the account to OFF ACTIVE DUTY.

### A.1.18 Due Date Change

You can change the due date of an account. When it is changed, the system determines next bill date, as well as the next due date. The DUE DATE CHANGE transaction does not allow next billing date to change such that it is less than the current billing date. The due date change transaction has been extended to change the default ACH due day, provided that the account due day and ACH due day match.

If a late fee is no longer applicable because of this due day change, Oracle Financial Services Lending and Leasing will automatically remove the fee.

The new due day appears in Activities section Due Day field on the Account Details screen.

The system also notes change on Loan Details screens in Extn and Due Dates section's # of Due Day Changes (Year), # of Due Day Changes (Life) and Due Day Chg Dt fields.

**To change a due date**

Transaction	Parameters
<b>Due Date Change</b>	Txn Date
	Due day
	Due Date
	<p><b>PROCESS MASTER ASSOCIATED ACCOUNTS</b></p> <p>Select either Yes or No from the drop-down list. Selecting 'Yes' posts the transaction to Master Account and Associated Accounts and selecting 'No' on master account displays an error and rolls-backs all the changes.</p> <p><b>Note:</b> System does not allow to post the transaction if this parameter is selected as NO and the Statement Consolidation option at account level is set to 'Y'.</p>
	<p><b>PROCESS SAME PRODUCT TYPE AND FUNDING TYPE ACCOUNTS</b></p> <p>Select either Yes or No from the drop-down list. Selecting 'Yes' posts the transaction on accounts belonging to same product type and selecting 'No' posts the transaction to ALL accounts.</p>

**A.1.18.1 Override Due Date Change**

You can override the contract 'Due Date' of an account to mark-up the due days limit to the required standard business rules by posting the following monetary transaction.

## To override a due date change

Transaction	Parameters
<b>DUE DATE CHANGE OVERRIDE</b>	TXN DATE
	DUE DAY
	DUE DATE
	ACH DUE DATE CHANGE
	<p>PROCESS MASTER ASSOCIATED ACCOUNTS</p> <p>Select either Yes or No from the drop-down list. Selecting 'Yes' posts the transaction to Master Account and Associated Accounts and selecting 'No' on master account displays an error and rolls-backs all the changes.</p> <p><b>Note:</b> System does not allow to post the transaction if this parameter is selected as NO and the Statement Consolidation option at account level is set to 'Y'.</p>
<p>PROCESS SAME PRODUCT TYPE AND FUNDING TYPE ACCOUNTS</p> <p>Select either Yes or No from the drop-down list. Selecting 'Yes' posts the transaction on accounts belonging to same product type and selecting 'No' posts the transaction to ALL accounts.</p>	

On posting the transaction system ignores the following Due Day contract parameters:

- Max Due Day Change/Yr
- Max Due Day Change/Life
- Max Due Day Change Days
- Due Day Min
- Due Day Max

On successful posting of the transaction, system automatically increases the number on counters (i.e. number of times due date change permitted) for 'Max Due Day Change/Yr' and 'Max Due Day Change/Life'. The transaction is displayed in Customer Service > Transaction History > Transactions screen.

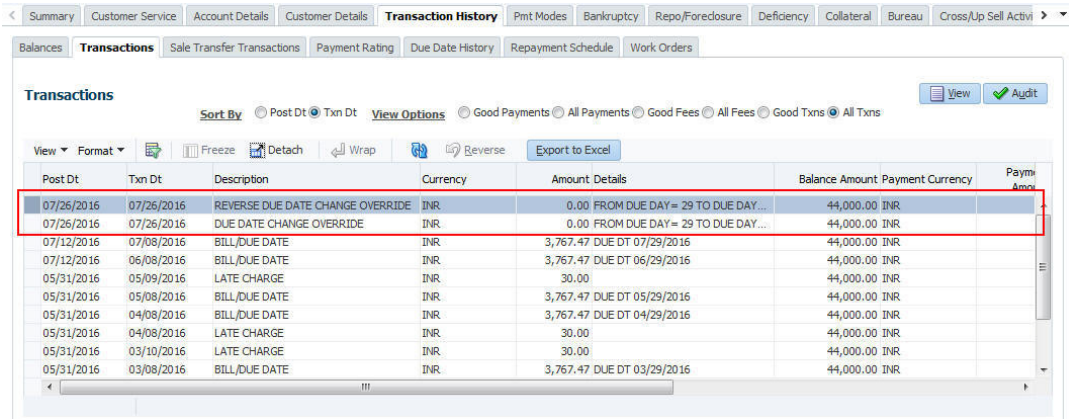

The screenshot shows the Oracle Customer Service Transaction History screen. The 'Transactions' tab is active, and the 'View' button is selected. The table below shows a list of transactions, with the first row highlighted in red.

Post Dt	Txn Dt	Description	Currency	Amount	Details	Balance Amount	Payment Currency	Paym Amount
07/26/2016	07/26/2016	DUE DATE CHANGE OVERRIDE	INR	0.00	FROM DUE DAY = 29 TO DUE DAY...	44,000.00	INR	
07/12/2016	07/08/2016	BILL/DUE DATE	INR	3,767.47	DUE DT 07/29/2016	44,000.00	INR

05/31/2016	05/09/2016	LATE CHARGE	INR	30.00		44,000.00	INR	
05/31/2016	05/08/2016	BILL/DUE DATE	INR	3,767.47	DUE DT 05/29/2016	44,000.00	INR	
05/31/2016	04/08/2016	BILL/DUE DATE	INR	3,767.47	DUE DT 04/29/2016	44,000.00	INR	
05/31/2016	04/08/2016	LATE CHARGE	INR	30.00		44,000.00	INR	
05/31/2016	03/10/2016	LATE CHARGE	INR	30.00		44,000.00	INR	
05/31/2016	03/08/2016	BILL/DUE DATE	INR	3,767.47	DUE DT 03/29/2016	44,000.00	INR	
05/31/2016	02/08/2016	BILL/DUE DATE	INR	3,767.47	DUE DT 02/29/2016	44,000.00	INR	

### A.1.18.2 Reverse an Override Due Date Change

When a posted 'Due Date Change Override' transaction contains error or non desired results, you can reverse the same in Customer Service > Transaction History > Transactions screen.

Select the Due Date Change Override transaction and click **Reverse**.

On successful posting of the transaction, system reverts (decreases) the change in the number on counters (i.e. number of times due date change permitted) for 'Max Due Day Change/Yr' and 'Max Due Day Change/Life'.

### A.1.19 Change Term

You can change the term of a loan account by posting the 'CHANGE TERM' monetary transaction in Customer Service > Maintenance > Transaction Batch Information. When the term is changed, system auto calculates and updates the Term and Maturity date as indicated below:

- New Term is calculated from ACC\_DUE\_DT\_NEXT onwards. (Say, New Terms)
- Number of terms is calculated from Contract date to ACC\_DUE\_DT\_NEXT (Say, Passed Terms).
- Updates ACC\_TERM\_CUR with sum of PASSED TERMS + NEW TERMS.
- Updates ACC\_MATURITY\_DT\_CUR with sum of ACC\_DUE\_DT\_NEXT + NEW TERMS.

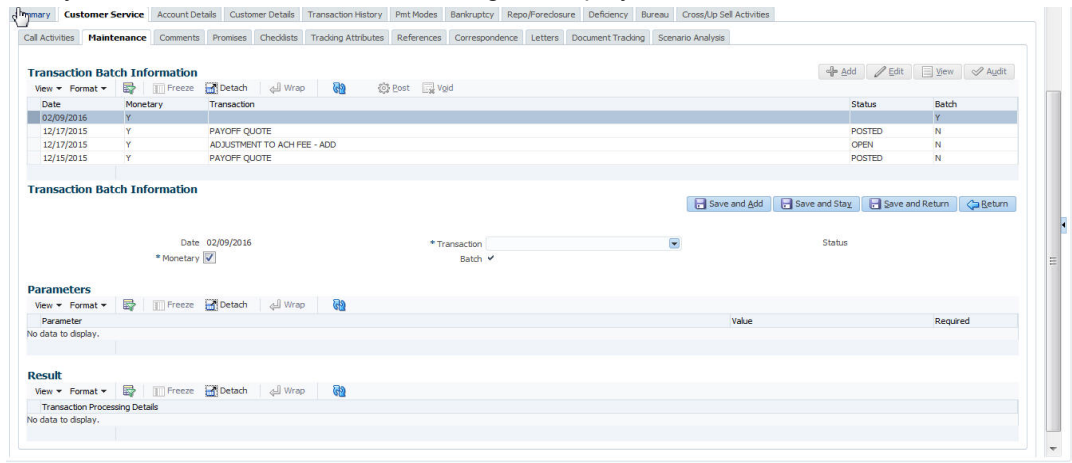

#### To change the term

Transaction	Parameters
CHANGE TERM	TXN DATE
	PAYMENT AMOUNT
	BALLOON PAYMENT AMOUNT

### A.1.20 Payment Refund Transaction

Payment refund transactions allows you to refund excess payment received from the customer during life of the Loan. The Payment Refund transaction is posted at the

maintenance screen in servicing. The refund is posted only when the refund amount is equal to Payment amount. Else an error message is displayed.

### To refund the payment amount

Transaction	Parameters
Payment Refund	Txn Date
	Payment Date
	Payment Amount

### A.1.21 Extensions

Extension transactions allow you to extend a Loan. An extension fee may be assessed when an account receives an extension. In case of precomputed Loan, this is generally done to recoup the interest lost.

The system adjusts due date on Dues section's Oldest Due Dt field on Account Details screen to reflect the extension.

### To apply an extension

Transaction	Parameters
<b>EXTENSION</b>	Txn Date
	Extension Term
	Reason
	Stop Accrual

While posting an extension, ensure that the minimum number of required payments, as defined at contract level is met. Else, system displays an error message on verification. Also while posting subsequent extension transactions, ensure that the minimum gap requirement between two extensions is satisfied.

### To adjust an extension fee

Transaction	Parameters
<b>ADJUSTMENT TO EXTENSION FEE - ADD</b>	TXN DATE AMOUNT
<b>ADJUSTMENT TO EXTENSION FEE - SUBTRACT</b>	TXN DATE AMOUNT

### To waive an extension fee

Transaction	Parameters
<b>WAIVE EXTENSION FEE</b>	TXN DATE AMOUNT

#### **A.1.21.1 Extension Override**

You can post 'EXTENSION OVERRIDE' transaction when you want the system to bypass extension validations which are defined at contract level.

Note the following:

- You can post a 'EXTENSION OVERRIDE' transaction only if you are authorized.
- There are no validations done when an extension override transaction is posted.
- Backdating an extension is allowed and also while backdating, system validates for the number of payments as of Transaction date.
- If 'EXTENSION OVERRIDE' transaction is posted on a backdated transaction which has 'TXN Date' appearing before the transaction extension date, then all the transactions from the date of previous extension will be reversed and re-posted. Here again, no validation rules are checked.
- You can post an 'EXTENSION OVERRIDE' transaction on seriously delinquent Loan accounts (only for IBL and not for pre-compute loans or amortized loans). On posting the transaction the following changes are done:
  - The Due buckets in Customer Service > Summary > Account Details > Dues section are moved from 'Oldest Due Date'.
  - In the Customer Service > Account(s) section, the fields 'Days Past Due' and 'Amount Due' are updated based on revised 'Oldest Due Date'.

## To apply an extension

Transaction	Parameters
EXTENSION	Txn Date
	Extension Term

### A.1.22 Payment Amount

You can change the current payment amount of an account. The new payment amount has to be calculated manually as Oracle Financial Services Lending and Leasing does not perform any checks on the new payment amount.

If the transaction is backdated, due amounts for the affected periods are re-calculated. While delinquency data could potentially change, prior statements are not to be changed. The next ACH (if applicable) does not reflect changed payment amount if the account has already been billed at time of posting the transaction. Payments will be re-applied causing changes to account balances and late fees may be assessed (if applicable).

After you post the transaction, the new payment amount appears on Account Details screen in Current Pmt field of the Activities section.

The screenshot displays the Oracle Financial Services Lending and Leasing interface. The top navigation bar includes the Oracle logo and the text "Financial Services Lending and Leasing". The main content area is titled "Customer Service" and shows the "Account(s)" section. The "Activities" section is expanded, and the "Current Pmt" field is highlighted with a red box. The interface also shows sections for "Dues", "Delinquency Information", and "Other Information".

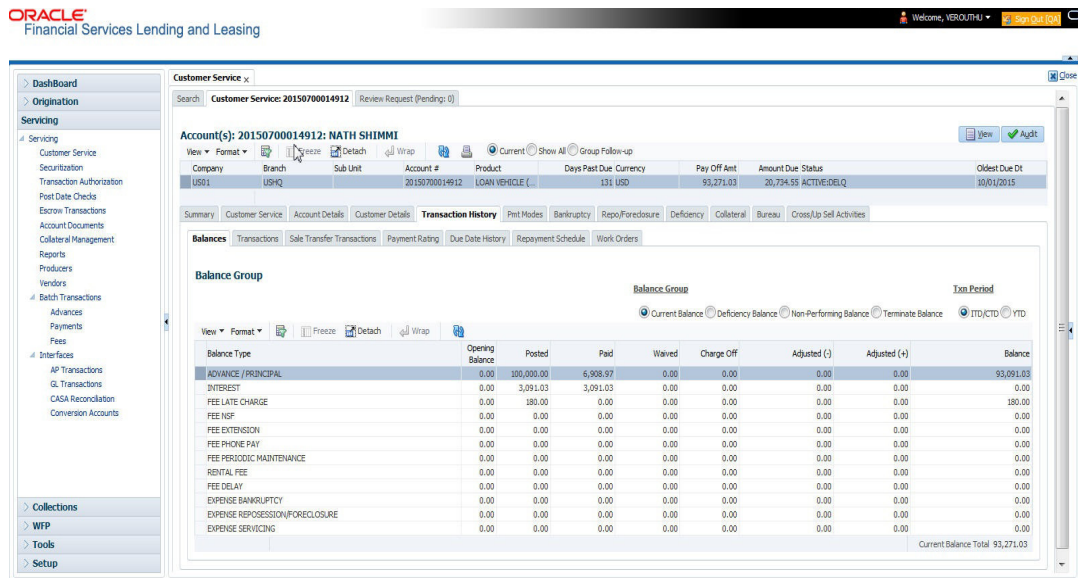

### To change the payment amount

Transaction	Parameters
Change Payment Amount	Txn Date
	Payment Amount
	Payment Auto Computer
	Indicator

### A.1.23 Prepayment Penalty

A prepayment penalty is typically applied automatically by Oracle Financial Services Lending and Leasing if the account is paid off prematurely.

The following transactions allow you to adjust or waive the prepayment penalty fee. The adjustments will appear in the corresponding column of Customer Service screen's Account Balances screen for FEE PREPAYMENT PENALTY Balance Type-- Waive, Adjusted (-), or Adjusted (+) -- depending on which of the following the transactions you perform.

### To adjust a prepayment penalty

Transaction	Parameters
Adjustment Prepayment Penalty - Add	Txn Date Amount
Adjustment Prepayment Penalty - Subtract	Txn Date Amount

### To waive a prepayment penalty

Transaction	Parameters
Waive Prepayment Penalty	Txn Date Amount

### A.1.24 Escrow Payment

The following monetary transactions allow you to specify escrow payment to be billed to the customer each month. Rescheduling an escrow payment enables you to change the payment rate (and hence rate and term) and define when change will begin. The "txn date" parameter is when the new agreement starts.

The following transactions allow you to adjust or waive the escrow advance.

The adjustments will appear in the corresponding column of Customer Service screen's Account Balances screen for ESCROW ADVANCE Balance Type-- Waive, Adjusted (-), or Adjusted (+) -- depending on which of the following transactions you perform.

**To adjust escrow advance**

Transaction	Parameters
Adjustment to escrow advance - add	Txn Date Amount
Adjustment to escrow advance - subtract	Txn Date Amount

**To waive escrow advance**

Transaction	Parameters
Waive Escrow Advance	Txn Date Amount

**To reschedule an escrow payment**

Transaction	Parameters
Reschedule Escrow Payment	Txn Date Amount

**A.1.25 Escrow balance refund**

If an account is paid off resulting in a positive (greater than \$0) escrow balance or the last item being escrowed is removed resulting in a positive (greater than \$0) escrow balance, then Oracle Financial Services Lending and Leasing refunds the escrow and creates a check requisition.

**A.1.26 Pay Off Quote Fee**

The PAYOFF QUOTE transaction on Maintenance screen includes the required parameter ASSESS PAYOFF QUOTE FEE. If you select Y, Oracle Financial Services Lending and Leasing assesses a payoff quote fee on Customer Service form's Balances screen for Balance Type FEE PAYOFF QUOTE. The amount of the payoff quote fee is based on contract setup.

The following transactions allow you to adjust or waive the pay off quote fee.

The adjustments will appear in the corresponding column of Customer Service form's Balances screen for FEE PAYOFF QUOTE Balance Type-- Waive, Adjusted (-), or Adjusted (+) -- depending on which of the following transactions you perform.

#### To adjust a pay off quote fee

Transaction	Parameters
Adjustment to Payoff Quote Fee - Add	Txn Date Amount
Adjustment to Payoff Quote Fee - Subtract	Txn Date Amount

#### To waive a pay off quote fee

Transaction	Parameters
Waive Payoff Quote Fee	Txn Date Amount

### A.1.27 Nonperforming Accounts

Loan accounts can be placed in a nonperforming, or nonaccrual, condition. Once an account is set to a nonperforming condition, the system makes the following modifications and accounting entries:

- After the transaction date, Oracle Financial Services Lending and Leasing assesses no late charge to this account.
- Stops general ledger entries for interest accrual.
- Transfers the existing principal balance on this account to the Non-Performing Balance Group on Customer Service form's Balance screen.
- Charges the unearned dealer compensation back to the dealer.
- Treats payments posted to this account as it does with a normal account; however, the general ledger entries for allocation of these amounts towards principal and interest will go towards the nonperforming balance.

The system's general ledger (GL) is set up for the above items. There will be no impact on balances of the account (principal, interest, fee and expense) as a result of the above transactions.

### To place an account in a nonperforming condition

Transaction	Parameters
Account Non Performing	Txn Date
	Non Performing Description

The following transaction removes nonperforming condition on an account and reverses the nonperforming transactions explained above. General ledger entries for interest accrual, stopped during nonaccrual stage, resume.

### To reverse a nonperforming condition

Transaction	Parameters
Resume Account Performing	Txn Date

## A.1.28 Convert a Precomputed (PC) Loan into a Simple Interest (SI) Loan

When converting a precomputed Loan into a simple interest Loan, Oracle Financial Services Lending and Leasing assumes the following default values:

- Accrual Calculation Method - interest bearing (simple interest)
- Maturity Date - Computed from the term and next payment due date
- Monthly Payment Amount - Computed from the interest rate, new principal balance, accrual start date, and term.
- All balances other than the Note balance are carried over to simple interest Loan.

The resulting 'new' simple interest Loan will have the same account number with details entered/computed above.

**Caution:** The converting a precomputed Loan into a simple interest Loan transaction can be performed only by closing the nonperforming condition.

### To reschedule precomputed Loan to interest bearing Loan

Transaction	Parameters
Reschedule Pre-Compute Loan to Interest Bearing Loan	Txn Date
	Reschedule Payment Start Date
	Amount
	Rate
	Term

## A.1.29 Account Settlement Transaction

A delinquent account can be settled when the lender agrees for a specific 'settlement amount' with the borrower. Here the 'settlement amount' is the net amount agreed for settlement between both the parties. If the borrower makes that payment within the 'Good through date', lender would consider that corresponding account is paid off / closed even if actual payment is less than the actual outstanding balance.

Note that, system does not allow to post account settlement transaction on 'Charged Off' accounts. Similarly when 'Account Settlement Transaction' is in force, system does not allow to charge-off the account.

### To post an account settlement transaction

Transaction	Parameters
<b>ACCOUNT SETTLEMENT</b>	TXN DATE
	EFFECTIVE DATE
	GOOD THROUGH DATE
	AGREED SETTLEMENT AMOUNT
	COMMENT

Here, the transaction date can be back dated but the effective Date for the settlement need to be the current date or a future date.

On posting the transaction successfully, the new account condition 'Account Under Settlement' is updated with end date as 'Good Through Date'.

- On 'Good Through Date' if the settlement amount is partially or not honoured, system automatically closes the 'Account Under Settlement' condition posted on the account and also remove the settlement details posted on the account.
- In case the entire settlement amount is received on or before the 'Good Through Date', on executing the 'Account Settlement Processing' batch on that day, system closes the 'Account Under Settlement' condition. The 'Settlement Information' in Customer Service Summary screen and Account Details screen is retained to indicate the last settlement information that lead to the PAIDOFF status of the account.
- 'Paid Off' transaction is automatically posted so that account balance will be updated as zero.
- System ignores the Write-off Tolerance amount to post Paid-Off transaction and outstanding balances will be waived.

The 'Settlement Information' is updated in following screens:

- Customer Service > Summary > Account Details > Settlement Information
- Customer Service > Account Details'

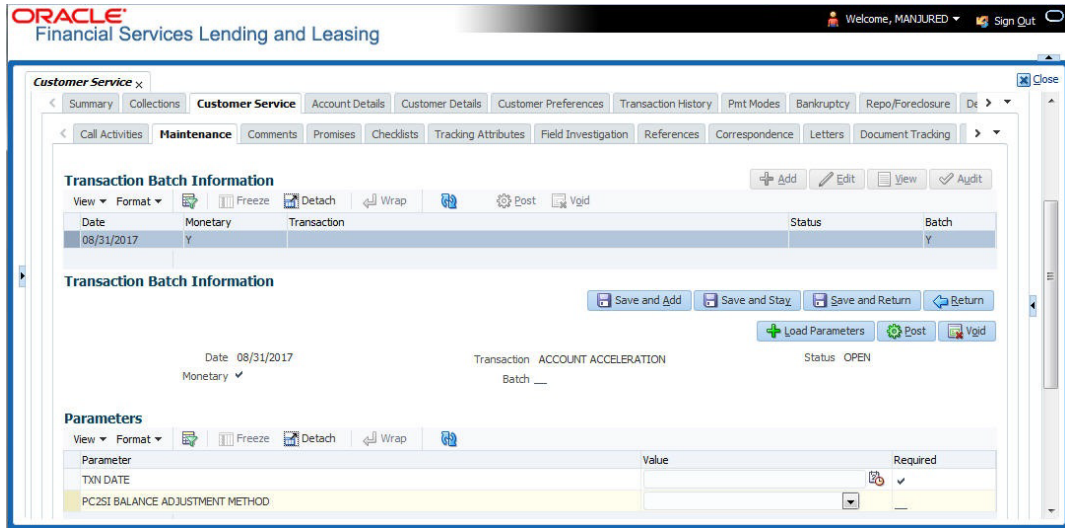

If required, this settlement monetary transaction can also be reversed from the 'Payment Maintenance' screen by clicking the 'Reverse' button.

### **A.1.30 Account Acceleration**

OFSLL supports accelerating a fraudulent loan account for immediate settlement for both pre-compute and non-pre-compute loans. During account acceleration, the loan maturity date is moved to the specified date (either current date or back date) and appropriate transactions are posted for Principal and Interest Adjustment calculations.

Before posting an account acceleration transaction, refer to Appendix - Account Acceleration chapter for detailed information on the process and operational changes on accelerated account.

You can accelerate only those accounts which are in 'ACTIVE' status and post the transaction either manually in the Customer Service > Maintenance screen or through Web Service (generic post transaction service).

**To post an account acceleration transaction**

Transaction	Parameters	Description
<b>ACCOUNT ACCELERATION</b>	TXN DATE	<p>Select the date from which the acceleration is effective on the account. The same can either be the current date or a back date (up to 'contract date' or 'account back date' whichever is higher) but not a future date.</p> <p>The selected date will be the acceleration start date and the new maturity date of the account.</p> <p>In case of pre-compute loan accounts, the same date is used for the following actions:</p> <ul style="list-style-type: none"> <li>- As the effective date for PC (pre-compute) to SI (simple interest) conversion.</li> <li>- As the date for calculating the account finance charge rebate.</li> </ul>
	PC2SI BALANCE ADJUSTMENT METHOD	<p>For 'Pre-Compute' accounts, select one of the following parameter from the drop-down list. The values in this list are populated based on the lookup code 'PC2SI_BAL_METHOD_CD (PC2SI BALANCE ADJUSTMENT METHOD CODES)'</p> <ul style="list-style-type: none"> <li>- PRINCIPAL FIRST</li> <li>- INTEREST FIRST</li> </ul> <p>For details on how the PC to SI conversion calculation is done based on above selection, refer to Appendix - Account Acceleration chapter.</p> <p>For 'Non-Pre-Compute' accounts, select the parameter value as 'Undefined'. Else, system displays an error on selecting any other value as 'Balance Adjustment Method mandatory for Pre-Compute a/c'.</p>

On posting the transaction, there are certain pre-defined validations performed before proceeding with the transaction. Also, on successfully posting the transaction there are certain operational changes on the accelerated account and common actions / implications on posting of transaction (PC or Non PC Account Types).

### **Reversing Account Acceleration**

Acceleration applied on an account can be reversed if required so that the account is reinstated to its previous status. However, the reversal is to be triggered immediately after posting the transaction such that the post maturity interest accruals, fee/expenses posting, and customer payments posting are not initiated.

However during reversal of an account acceleration, there are some changes are performed on the account and the same is detailed in Appendix - Account Acceleration chapter.

#### **To reverse an account acceleration transaction**

Transaction	Parameters
ACCOUNT_ACCELERATION_REV	Txn Date

### **A.1.31 Trading of Accounts - Monetary Transactions**

Following are the monetary transactions involved while processing Trading of Accounts. These processes are either posted automatically by external origination system or need to be posted manually in Servicing > Customer Service > Maintenance screen. For information about how Trading of Accounts is processed in OFSLL, refer to 'Trading of Accounts' chapter.

#### **A.1.31.1 Trade Enquiry Transaction**

Trade Enquiry monetary transaction is posted by external origination system to validate if an Account can be traded. This transaction provides details of total available Trade Equity of an Account for a Specific Validation Date. However, the Trade Amount computation is

configurable using User Defined Parameters defined in Setup > Administration > User Defined Parameters screen.

**To post Trade Enquiry transaction**

Transaction	Parameters
TRADE ENQUIRY	TXN DATE
	TRADE ENQUIRY VALID UPTO DATE
	TRADE ENQUIRY LTR PRINT
	COMMENT

While posting the transaction,

- If TRADE ENQUIRY VALID UPTO DATE is specified, then system calculates Accrued Interest on account till the date specified.
- If TRADE ENQUIRY LTR PRINT is selected as 'YES', then a Trade Enquiry Letter with specific format is generated. The value of parameters in the letter are fetched from variables defined in the configuration.

On posting this transaction, system displays the response based on configurable calculation parameter definition defined for 'Trade Equity' (ACC\_EQUITY\_AMT) in User Defined Parameters screen. Only those definitions with valid selection criteria are consider for processing.

On processing the transaction, the Result section displays the following information:

- A set of pre-defined details such as:
  - ACCOUNT NUMBER
  - MASTER ACCOUNT NUMBER (if associated)
  - ACCOUNT CURRENCY
- System derived values from User Defined Parameters configuration > Formula Variables.
- System derived interest value if the definition contains Accrued Interest as Formula Variable which is calculated based on TRADE ENQUIRY VALID UPTO DATE as similar to payoff quote.
- System derived final composite Trade Equity value and displays based on the description provided for Target Parameter.

On successful posting the transaction, a comment is posted on the Account indicating ACCOUNT TRADE EQUITY PROVIDED TO FOR AMOUNT USD <AMOUNT> VALID UPTO <DATE>.

**A.1.31.2 Trade Transaction**

Trade monetary transaction is posted by external origination system to Trade and transfer equity from an existing (old) Account to new Account. This transaction implicitly posts Equity-In transfer and Equity-Out transfer transactions on new and old accounts respectively.

Following are the different types of Trade transactions supported:

Type	Description
Upgrade	In this case, one existing (old) Account is upgraded to new Account.

Type	Description
Split	In this case, one existing (old) Account is upgraded to multiple new Accounts.
Combine	In this case, multiple old Accounts are upgraded to one new Account.

ACC1			
SNO	From Account	To Account	Equity Transfer
1	ACC1	ACC2	10000

ACC2 - Upgrade			
SNO	From Account	To Account	Equity Transfer
1	ACC1	ACC2	10000
2	ACC2	ACC3	13000
3	ACC2	ACC4	17000

ACC3 - Split			
SNO	From Account	To Account	Equity Transfer
1	ACC2	ACC3	13000
2	ACC3	ACC5	13000

ACC4 - Split			
SNO	From Account	To Account	Equity Transfer
1	ACC2	ACC4	17000
2	ACC4	ACC5	17000

ACC5 - Combine			
SNO	From Account	To Account	Equity Transfer
1	ACC3	ACC5	13000
2	ACC4	ACC5	17000

#### To post Trade transaction

Transaction	Parameters
TRADE	TXN DATE
	PROCESS MASTER ACCOUNT
	PROCESS LINKED ACCOUNT
	VALIDATE COMMON CUSTOMER
	COMMENT

While posting the transaction,

- If PROCESS MASTER ACCOUNT is selected as 'YES', then Trade transaction is automatically posted to corresponding Master Account.
- If PROCESS LINKED ACCOUNT is selected as 'YES', then Trade transaction is automatically posted to corresponding Linked Accounts.
- If VALIDATE COMMON CUSTOMER is selected as 'YES', then system validates for a common customer between existing (old) and new account. If not, displays an error.

Note the following:

- Before processing actual trade transaction, Trade Equity is computed and updated in ACC\_EQUITY\_AMT.
- If Trade transaction is posted on Accounts where Trade Equity is zero, then system considers those as 'Non-Equity Based' accounts.
- As part of Trade process if Trade Eligible flag is set to 'N' for an Asset, then that particular Asset Status is marked as 'ACTIVE'. Else, asset status is updated to INACTIVE.

Trade transaction will be posted 'Only if' the resultant value of following 3 are similar:

- Sum of Equity in itemization of new Accounts
- Sum of Trade Equity of existing (old) Accounts
- Sum of Equity Transfer Amount in Trade Details

In case of mismatch in any one of above, Trade transaction is not posted and instead TRADE MISMATCH transaction is automatically posted by the system with same transaction parameters on the existing (old) account along with a condition - EQUITY MISMATCH DURING TRADE.

In addition,

- During the Trade transaction, a linked 'Equity Out Transfer Transaction' is posted on existing (old) Account to transfer Equity to new account.
- Adjustment minus transaction is posted for all open balances on traded (old) Account to mark the outstanding amount as zero.

On successfully posting of Trade transaction,

- A Comment is posted on existing (old) account in the format ACCOUNT TRADED ON <DATE> WITH TOTAL TRADE EQUITY <VALUE> WITH <TRADE FIX REASON> AND <COMMENT>
- Account status is updated as TRADED.

### **A.1.31.3 Equity Out Transfer Transaction**

'Equity Out Transfer' monetary transaction is automatically posted by the system to transfer Equity from existing (old) account to new account created as part of trade.

#### **Equity Out transaction parameters**

Transaction	Parameters
<b>EQUITY OUT TRANS-FER</b>	TXN DATE
	ACCOUNT NBR
	AMOUNT
	COMMENT
	TRADE TYPE

On successfully posting the transaction, the 'Equity Out' field is updated in Account Details > Trade Details screen and a comment is posted on the existing (old) account in the format ACCOUNT EQUITY OUT TRANSFERRED ON <DATE> TO ACCOUNT NUMBER <ACCOUNT NUMBER> WITH VALUE <VALUE>, < TRADE TYPE > AND <COMMENT>.

### **A.1.31.4 Equity In Transfer Transaction**

'Equity In Transfer' monetary transaction is automatically posted by the system to update Equity to new account created as part of trade.

### Equity In transaction parameters

Transaction	Parameters
EQUITY IN TRANSFER	TXN DATE
	ACCOUNT NBR
	AMOUNT
	COMMENT
	TRADE TYPE

On successfully posting the transaction, the 'Equity In' field is updated in Account Details > Trade Details screen and a comment is posted on the existing (old) account in the format ACCOUNT EQUITY IN RECEIVED ON <DATE> FROM ACCOUNT NUMBER <ACCOUNT NUMBER> WITH VALUE <VALUE>, <TRADE TYPE> AND <COMMENT>.

#### A.1.31.5 Trade Fix Transaction

You can rectify the equity mismatch for a failed Trade transaction and process the Equity transfer by posting TRADE FIX monetary transaction in Customer Service > Maintenance > Transaction Batch Information section.

#### To post Trade Fix transaction

Transaction	Parameters
TRADE FIX	TXN DATE
	PROCESS MASTER ACCOUNT
	PROCESS LINKED ACCOUNT
	VALIDATE COMMON CUSTOMER
	TRADE FIX REASON
	COMMENT

This transaction is processed in the same workflow as similar to Trade Transaction. Refer to '[Trade Transaction](#)' for details. In addition, you need to select the TRADE FIX REASON from the drop-down list while posting the transaction.

On successfully posting the transaction, a comment is posted on existing (old) account in the format ACCOUNT TRADED ON <DATE> WITH TOTAL TRADE EQUITY <VALUE> WITH <TRADE TYPE>, <TRADE FIX REASON> AND <COMMENT>.

#### A.1.31.6 Equity in Maintenance Transaction

You can override the 'Equity In' adjustments that are received in new account after Trade transaction by posting 'EQUITY IN MAINTENANCE' monetary transaction in Customer Service > Maintenance > Transaction Batch Information section.

### To post Equity in Maintenance transaction

Transaction	Parameters
EQUITY IN MAINTENANCE	TXN DATE
	AMOUNT
	COMMENT

On successfully posting the transaction, the value specified in 'Amount' field is updated to 'Equity In' field in Trade Details sub tab of Account Details screen and a comment is posted on existing (old) account in the format ACCOUNT EQUITY IN MAINTAINED ON <DATE> WITH VALUE <VALUE>, <REASON> AND <COMMENT>.

### A.1.32 Billing Cycle Change

You can change the billing cycle/statement of a Loan at any point of time during servicing by posting RESCHEDULE BILL CYCLE monetary transaction in Customer Service > Maintenance > Transaction Batch Information section.

Note the following before posting the transaction:

- The 'Billing Cycle Change' transaction creates significant impact in the system since it impacts the schedule, dues and sensitive account data on account. Hence it is recommended to be posted with careful consideration and OFSLL is not responsible for any impact/mismatch resulting out of this change.
- The 'Billing Cycle Change' transaction can be posted for both Open-Ended and Close-Ended Loans (Vehicle, Home Loan, and Unsecured), Lease and Line of Credit.
- The 'Billing Cycle Change' transaction is applicable for all methods like IBL (Interest Bearing Loans) and Amortized Loans.
- The 'Billing Cycle Change' transaction is 'not' applicable for Pre-compute Loans and for 'Rent Factor Method' of lease accounts.
- In case of any error while posting the transaction, system rolls-back all the changes on the account. Refer to OFSLL Release notes available in OTN library ([https://docs.oracle.com/cd/F22291\\_01/references.htm](https://docs.oracle.com/cd/F22291_01/references.htm)) for additional information on 'Billing Cycle Change' transaction validations.

### To post Billing Cycle Change transaction

Transaction	Parameters
RESCHEDULE BILL CYCLE	TXN DATE
	PROCESS MASTER ASSOCIATED ACCOUNTS Select either Yes or No from the drop-down list. Selecting 'Yes' posts the transaction to Master Account and Associated Accounts.
	NEW BILLING Select the billing frequency from drop-down list.

Transaction	Parameters
	<p><b>PROCESS SAME PRODUCT TYPE AND FUNDING TYPE ACCOUNTS</b></p> <p>Select either Yes or No from the drop-down list. Selecting 'Yes' posts the transaction on accounts belonging to same product type and selecting 'No' posts the transaction to ALL accounts.</p> <p>However, this parameter has no relevance if the 'Process to Master Account' is not set to 'Y'.</p>
	<p><b>PRE BILL DAYS</b></p> <p>Specify the pre-bill days on account.</p> <p>System displays an error if the PRE BILL DAYS is retained as zero '0' (default value).</p>
	<p><b>DUE DAY MIN</b></p> <p>Specify the minimum due day to mark-up the due days limit on account to the required standard business rules.</p> <p>System displays an error if the DUE DAY MIN is retained as zero '0' (default value).</p>
	<p><b>DUE DAY MAX</b></p> <p>Specify the maximum due day to mark-up the due days limit on account to the required standard business rules.</p> <p>System displays an error if the DUE DAY MAX is retained as zero '0' (default value).</p>
	<p><b>MAX DUE DAY CHANGE DAYS</b></p> <p>Specify the total number of times due date change is permitted) on account. System performs a compatibility check for selected billing cycle.</p> <p>System displays an error if the MAX DUE DAY CHANGE DAYS is retained as zero '0' (default value).</p>
	<p><b>RESCHEDULE PAYMENT START DATE</b></p> <p>Select the rescheduled/next payment date from the adjoining calendar. Ensure the date selected is not less than 'Last Due Date' (Current Due Date).</p>
	<p><b>PAYMENT AMOUNT</b></p> <p>If payment amount is specified, then system computes billing change calculation considering system parameter. This is applicable for individual accounts.</p> <p>Retaining as '0' (default) allows system to auto-compute new payment amount during billing change calculation. Required for Master accounts.</p> <p>This field has no relevance for line accounts.</p>

Transaction	Parameters
	<p><b>TERM</b></p> <p>Enter the number of payments. System displays an error if the term is retained as zero '0' (default value).</p> <p>This field has no relevance for line accounts.</p>
	<p><b>RESIDUAL PERCENT REMAINING</b></p> <p>Specify a value of residual percentage to be accounted in billing. This should not be greater than Account Residual percentage.</p>
	<p><b>LATE CHARGE GRACE DAYS</b></p> <p>Specify the number of grace days allowed during billing change calculation. Retaining as '0' (default) does not make any changes on account.</p>
	<p><b>LEASE EARLY TEMINATION</b></p> <p>Specify the amount to be paid for early termination. Retaining as '0' (default) does not make any changes on account.</p>
	<p><b>COMMENTS</b></p>

For detailed information on above fields validation, computation of other transactions, 'Billing Cycle Change' transaction validations, refer to OFSLL Release notes available in OTN library ([https://docs.oracle.com/cd/F22291\\_01/references.htm](https://docs.oracle.com/cd/F22291_01/references.htm)).

While posting the transaction:

- System allows 'Next Due date' after Current Due Date.
- The 'Next Billing Date' is computed after Current Due Date i.e. Next Due Date - Pre Bill Days.
- System allow backdating of this transaction till last due date.
- The 'Paid Term' is auto-computed considering the back dated payments (if any).

On successfully posting the transaction, system updates the billing changes to current/master account as defined and internally posts Due Date Change, Change Payment Amount, and Change Term transactions for new billing cycle to be established.

### **Billing Cycle Change Reversal**

Reversal of 'Reschedule Bill Cycle' is allowed with following restrictions:

- System changes 'Account back dated date' as date of posting of transaction and hence no monetary transaction is allowed to post on or before that date. This implies, system does not allow to reverse the 'Reschedule billing transaction' on same date.
- System does not allow to reverse the transaction, if any monetary transaction is posted (except payoff quote), after posting reschedule billing transaction. User is expected to reverse the monetary transaction manually, to reverse the reschedule billing transaction.

## A.2 Nonmonetary Transactions

This section catalogues the transaction codes and parameters required to complete the following nonmonetary tasks for Loan:

- Update a customer's/Business name
- Maintain customer details
- Mark a customer/business as a skipped debtor
- Mark a customer as deceased
- Change a customer's Privacy Opt-Out indicator
- Stop Customer/Business correspondence
- Modify financed insurance information
- ACH Maintenance
- Reprint a statement (batch only)
- Add or stop servicing of accounts with post dated checks as a repayment method
- Stop an ACH for an account
- Add ACH bank
- Cancel or adjust an ESC
- Apply a refund payment to an ESC
- Cancel insurance (or reverse the insurance cancellation)
- Add new escrow insurance details
- Add new escrow tax details
- Change insurance annual disbursement
- Change insurance disbursement plan
- Change escrow indicators of insurance
- Change insurance expiration date
- Change insurance maturity date
- Change tax annual disbursement
- Change tax disbursement plan
- Change escrow indicators of tax
- Resume escrow analysis
- Resume escrow disbursements
- Stop escrow analysis
- Stop escrow disbursements
- Refund or adjust insurance
- Adjust Dealer Compensation
- Add / Modify Account Contact References
- Account Statement Preference Mode
- Cure Letter Date Maintenance
- Recourse Details Maintenance
- Sub Unit Account Transfer
- Customer Credit Limit Transactions
- Add Existing Customer to Account
- Add/Update Business Customer Details
- Rescission Account

- Add Asset to Account
- Customer / Business Credit Score Update
- Master Account Maintenance
- Master Account - Statement Consolidation Indicator Maintenance
- Add Existing Business to Account
- Add Business Phone Details
- Confirm Customer / Business address
- Trading of Accounts - Non-Monetary Transactions
- Bankruptcy Reporting Indicator
- Collateral Maintenance
- Account Contract Maintenance
- Account Payment Mode Maintenance
- Add Balance to Account
- Linked Account Maintenance
- Mock Statement Maintenance

### **A.2.1 Customer/Business Name Maintenance**

You can update and change a customer's or Business name.

#### **To update a customer's name**

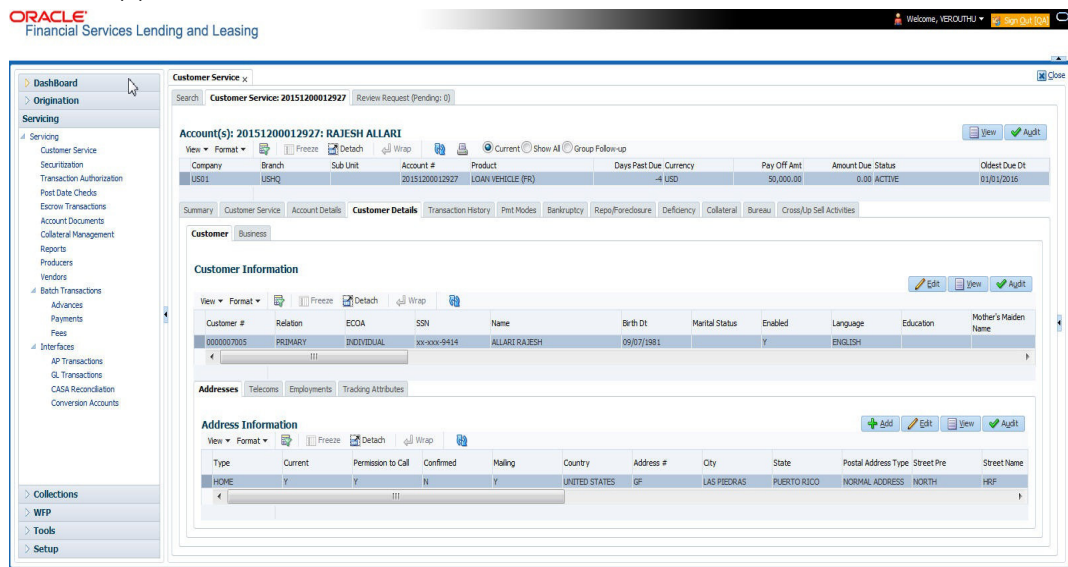

<b>Transaction</b>	<b>Parameters</b>
<b>Customer Name Maintenance</b>	Txn Date
	Relation Type Code
	Customer First Name
	Customer Middle Name
	Customer Last Name
	Customer Generation
	Code

#### **To update business name**

<b>Transaction</b>	<b>Parameters</b>
<b>BUSINESS NAME MAINTENANCE</b>	Txn Date
	BUSINESS NAME
	LEGAL NAME

Here, the legal name is register name of the business and can be the business name itself.

The new details appear throughout the system; for example, in Customer Service screen's Customer(s) section and Customer Details screen's Customer section.

## A.2.2 Customer Details Maintenance

You can update and change the following details regarding a customer: social security number, marital status, disability indicator, driving license number, number of dependants, and email address.

### To change other details about a customer

Transaction	Parameters
Customer Maintenance	Txn Date
	Relation Type Code
	Customer SSN
	Customer Marital Status Code
	Customer Disability Indicator
	Customer Driving License Number
	Customer Number of Dependents
	Customer Email Address 1
	Customer Birth Date
	Customer Gender Code
	Customer Language Code
	Customer Driving Licence State Code
	Customer Time Zone
	Payment Hierarchy

---

#### Note

The payment hierarchy is auto-populated by the system based on new/existing customer details and the same can be modified. For more information, refer to Payment Hierarchy field details in [Customer sub tab](#) section.

---

The new details appear throughout the system.

### A.2.3 Skipped Customers/Business

When a customer/business cannot be located, the system enables you to mark that customer/business as “skipped” (as in, “the customer/business is a skipped debtor”) Marking a customer/Business as skipped indicates that the customer’s/business whereabouts are unknown.

### To mark a customer as “skipped”

Transaction	Parameters
Customer Skip	Txn Date
	Relation Type Code
	Customer Skip Indicator

### To mark a business as “skipped”

Transaction	Parameters
Business Skip	Txn Date
	Business Skip Indicator

The Skip box is selected on the Customer Service screen's Customer/Business Details tab.

To remove the Skip indicator, follow the above procedure and update the 'CUSTOMER/BUSINESS SKIP INDICATOR' as 'NO'.

## A.2.4 Mark Customer as Deceased

You can mark a particular customer as deceased by posting a non-monetary transaction. Marking a customer as deceased indicates that the 'Account holder is deceased' and this condition is posted on the account and an Alert is populated in Comments tab and Summary tab. Also when a particular customer is marked as deceased, you can change the permission to call the customer as “No” on all accounts and contacts where the customer is attached.

## To mark a customer as “deceased”

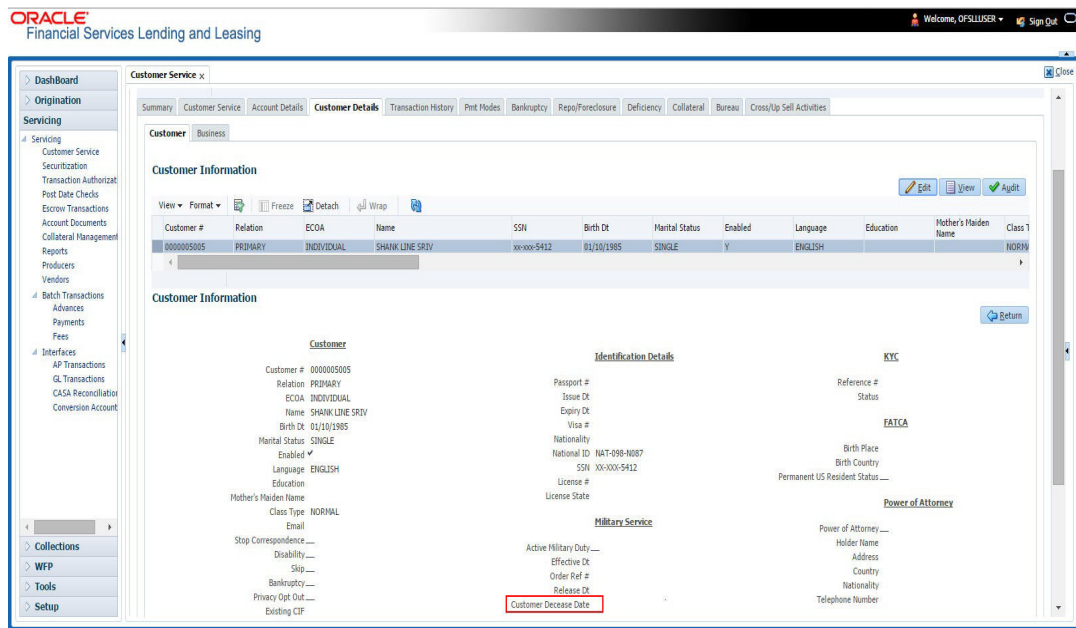

Transaction	Parameters
MARK CUSTOMER AS DECEASED	DECEASED DATE
	TRANSACTION DATE
	RELATION TYPE CODE
	REMOVE PERMISSION TO CALL

The screenshot displays the Oracle Financial Services Lending and Leasing interface. The main window is titled 'Customer Service' and shows a transaction batch information table. The table has columns for Date, Monetary, Transaction, Status, and Batch. The transaction is 'MARK CUSTOMER AS DECEASED' with a date of 07/22/2016. Below the table, there are fields for Date, Monetary, Transaction, and Status, with the transaction name 'MARK CUSTOMER AS DECEASED' and a 'Load Parameters' button. The Parameters section shows a table with columns for Parameter, Value, and Required. The parameters are DECEASED DATE, TRANSACTION DATE, RELATION TYPE CODE, and REMOVE PERMISSION TO CALL. The values are empty, and the Required status is checked for all parameters.

You can select the ‘Deceased Date’ and ‘Transaction Date’ (last transaction date) from the adjoining calendar. Select the ‘Relation Type Code’ and ‘Remove Permission To Call’ (as ‘Yes’) from the drop-down list.

System identifies all the related accounts based on Customer ID and marks ‘the customer deceased date’ on all accounts (primary or joint holder) held by the customer. If the transaction is successful, a confirmation message is displayed in the Results section displaying all the customer accounts on which this status is posted. Also a comment is posted on all accounts when the ‘Permission to Call’ status is changed.

The Customer Deceased Date is also indicated on the Customer Details screen's Military Service section.

## A.2.5 Privacy Opt-Out Indicator

You can change the customer's/Business Privacy information sharing preference (Opt-Out indicators) along with other choice indicators of Insurance, Share Credit and Marketing preferences by posting the following nonmonetary transaction parameter.

### Customer:

Transaction Code: CUS\_PRIVACY\_INFO

Description: CUSTOMER OPT-OUT PREFERENCES (PRIVACY OPT-OUT)

### To change the customer's privacy opt-out indicators

Transaction	Parameters
<b>Customer Privacy Info Sharing Preference</b>	Transaction Date
	Relation Type Code
	Privacy Optout
	Insurance Optout
	Share Credit Optout
	Marketing Optout

### Business:

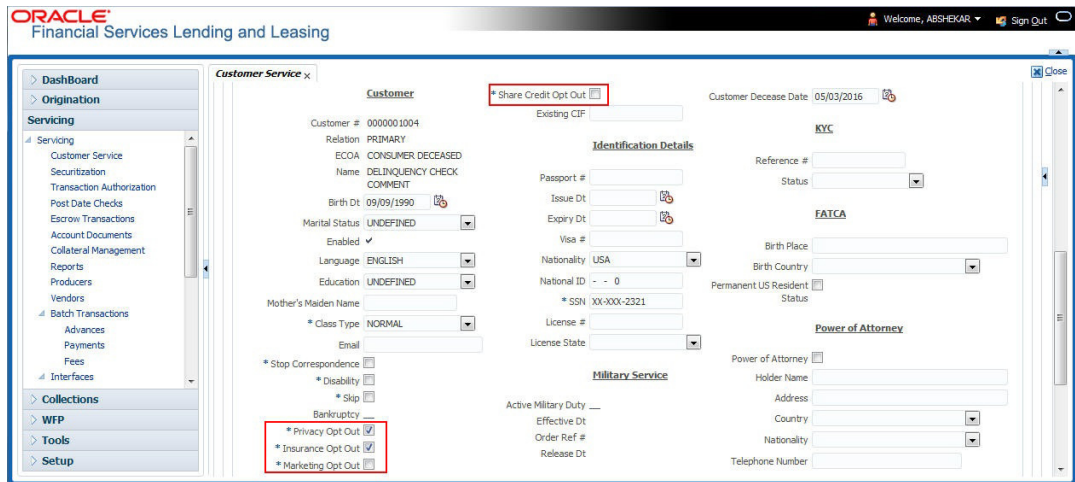

Transaction Code: BUS\_PRIVACY\_INFO

Description: BUSINESS OPT-OUT PREFERENCES (PRIVACY OPT-OUT)

**To change the business privacy opt-out indicators**

Transaction	Parameters
<b>BUSINESS OPT-OUT PREFERENCES (PRIVACY OPT-OUT)</b>	Transaction Date
	Privacy Optout
	Insurance Optout
	Share Credit Optout
	Marketing Optout

The customer's Privacy information sharing preferences are updated on the Customer Service screen's Customer/Business Details tab.

To remove the customer's Privacy information sharing preferences, follow above procedure. However, you can also type **N** in the CUSTOMER STOP CORRESPONDENCE INDICATOR parameter.

**A.2.6 Customer/Business Correspondence (stopping)**

You can choose at any time to stop correspondence to a customer/business. When you do so, the customer/business will receive no correspondence of any kind from the system.

**To stop correspondence with a customer**

Transaction	Parameters
<b>Customer Stop Correspondence</b>	Txn Data
	Relation Type Code
	Customer Stop Corr Indicator

**To stop correspondence with a business**

Transaction	Parameters
<b>Business Stop Correspondence</b>	Txn Data
	Business Stop Corr Indicator

The Stop Correspondence box is selected on the Customer Service screen's Customer/ Business Details tab.

To remove the Stop Correspondence indicator, follow the above procedure and update the 'CUSTOMER/BUSINESS STOP CORR INDICATOR' as 'NO'.

## A.2.7 Financed Insurance (modifying)

You can change other insurance details entered on the INSURANCE ADDITION transaction with nonmonetary INSURANCE DETAILS MODIFICATION transaction. The changed insurance information can be viewed on Customer Service screen's Insurances screen.

---

**Note**

In case any issues on existing Loan accounts, you can back port this functionality. Contact your account manager.

---

<b>Transaction</b>	<b>Parameters</b>
<b>Insurance Modification</b>	Txn Date
	Effective Date
	Insurance Type
	Policy Effective Date Com- pany Name
	Phone # 1
	Extn # 1
	Phone # 2
	Extn # 2
	Policy #
	Expiration Date
	Primary Beneficiary
	Secondary Beneficiary
	Refund Amount Received
	Full Refund Received
Comment	

**A.2.8 ACH Maintenance**

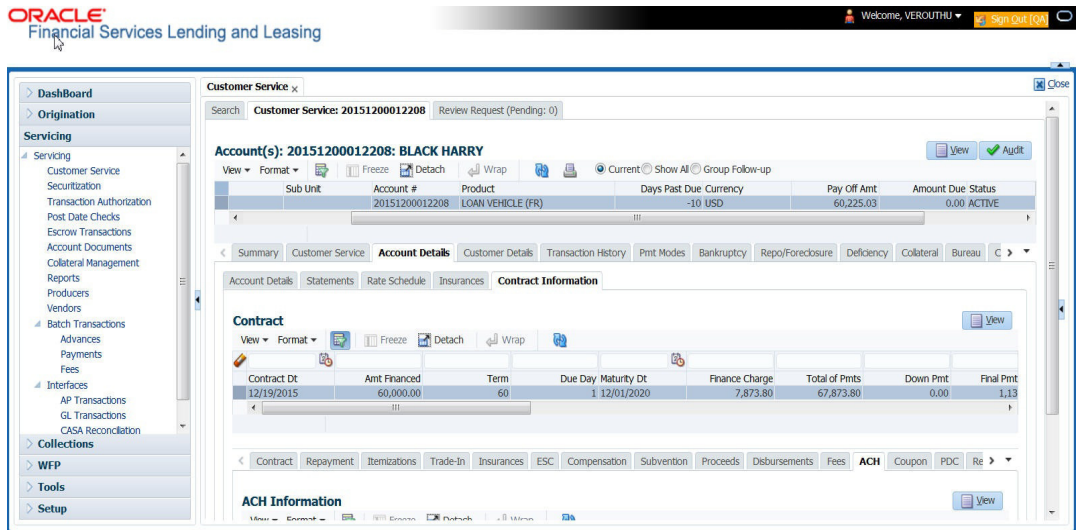

The ACH maintenance transaction is for updating the existing ACH Banks details and not to define a new Ach Bank. The transaction is effective provided the ACH account no, ACH routing no, account type are matching with the existing Ach Banks details. On successful posting, the confirmation number will be generated.

**To update the existing ACH bank details**

<b>Transaction</b>	<b>Parameters</b>
<b>ACH Maintenance</b> <b>and</b> <b>NEW ACH MAINTENANCE</b> <b>and</b> <b>ACH ONE TIME PHONE PAY</b>	ACH Account Number
	ACH Account Type Code
	ACH Payment Frequency Code
	ACH Status Code
	ACH Bank Name
	Bank City
	Bank State
	ACH Bank Routing Number
	ACH Reference Number
	Payment Mode
	Name as it Appears on Account
	ACH Default Indicator
	ACH End Date
	ACH Payment Amount
	ACH Payment Amount Excess
	ACH Payment Day
	Phone Pay Fee
	ACH Fee Indicator
	ACH Start Date
	Debit Date
Txn Date	

Note that for an active Recurring ACH record, ensure that the payment mode is selected as AUTOPAY and for an AUTO PAY type of Payment Mode, ensure that at least one active ACH record exist.

This information appears in the ACH section of the Account Details screen.

## A.2.9 Stop an ACH

To stop an ACH for an account

Transaction	Parameters
Stop ACH Maintenance	Txn Date

Oracle Financial Services Lending and Leasing clears the information on the ACH section of the Account Details screen.

## A.2.10 Statement Reprinting (batch only)

You can reprint a statement of account activity by defining the starting and closing dates included within the statement.

**To reprint a statement**

Transaction	Parameters
Statement Reprint Maintenance	Txn Date
	Statement Closing Date

**A.2.11 Add ACH Bank**

You can add a new ach bank. This enables the customer to make a single payment from more than one bank or monthly payments from different banks. On successful posting, the confirmation number will be generated.

**To add a new ACH bank**

Transaction	Parameters
ADD ACH BANK	ACH Account Number
	ACH Account Type Code
	ACH Payment Frequency Code
	ACH Status Code
	ACH Bank Name
	ACH Bank Routing Number
	ACH Default Indicator
	ACH End Date
	ACH Payment Amount
ACH Payment Amount Excess	

**A.2.12 Post Dated Checks**

You can add or stop servicing of accounts with PDC as a repayment method.

The POST DATED CHEQUE MAINTENANCE transaction enables you to switch an account to the post dated check method of repayment.

**To add post dated checks as a method of repayment**

Transaction	Parameters
<b>Post Dated Cheque Maintenance</b>	Txn Date
	PDC Type
	pdv Check Number
	pdv Check Date
	pdv No Of Checks
	pdv Check Amount
	pdv Bank Routing Number
	pdv Account Type
	pdv Account Number
	pdv Bank Name
	pdv Bank Branch Name
	pdv Docket Code
	pdv Comments
pdv Frequency	

The STOP POST DATED CHEQUE MAINTENANCE transaction stops processing the payments on an account using Post dated checks. Once this transaction is posted, status of all PDCs attached to a Loan account changes to VOID, indicating that the PDCs are of no use.

**To stop post dated checks as a method of repayment**

Transaction	Parameters
<b>Stop Post Dated Cheque Maintenance</b>	Txn Date

**A.2.13 Coupon Book Maintenance (batch only)**

In reordering coupon books, you will need supply the first date of new coupons, the new coupon start number, and number of new coupons to order.

**To re-order coupon book (batch only)**

Transaction	Parameters
<b>Coupon Book Maintenance</b>	Txn Date
	Coupon First Payment Date
	Coupon Start Number Coupon Count

To cancel the coupon book re-order before it is processed in the nightly batch, choose **Void**.

**A.2.14 Extended Service Contract (ESC)**

You can apply, cancel, or adjust a payment to an extended service contract.

**To cancel or adjust an ESC**

<b>Transaction</b>	<b>Parameters</b>
<b>Warranty Maintenance</b>	Txn Date
	Insurance/Warranty Cancel Indicator
	Insurance/Warranty Cancel Date
	Insurance/Warranty Remaining Term
	Insurance/Warranty Refund Amount Estimate
	Insurance/Warranty Refund Amount Received
	Insurance/Warranty
	Full Refund Received Indicator
	Insurance/Warranty Itemization Code

**To apply a refund payment to an ESC**

<b>Transaction</b>	<b>Parameters</b>
<b>Warranty Payment Maintenance</b>	Txn Date
	Insurance/Warranty Refund Amount Received
	Insurance/Warranty
	Itemization Code
	Insurance/Warranty Full Refund Received Indicator

---

**Note**

A Warranty Refund transaction posted or reversed on the Maintenance screen should be matched with a payment posting or reversal.

---

## A.2.15 Insurance Maintenance

To cancel insurance (or reverse the insurance cancellation)

Transaction	Parameters
<b>Insurance Maintenance</b>	Txn Date
	Insurance/Warranty Cancel Indicator
	Insurance/Warranty Cancel Date
	Insurance/Warranty Remaining Term
	Insurance/Warranty Refund Amount Estimate
	Insurance/Warranty Refund Amount Received
	Insurance/Warranty Full Refund Received Indicator
	Insurance/Warranty
	Itemization Code

The above refers to the account insurance and not asset or collateral insurance. For example, 'Credit Life and Disability'.

## A.2.16 Escrow Information and Maintenance

The following nonmonetary transactions allow you to add a new tax or insurance escrow to an account.

**To add new escrow insurance details**

Transaction	Parameters
<b>New Escrow Insurance Details</b>	Escrow Type
	Escrow Sub Type
	Vendor #
	Escrow Required (y/n)
	Escrow Opt out (y/n)
	Annual Disbursement Amount
	Disbursement Rule
	Transaction Date
	Reference Account #
	Insurance Policy #
	Expiration Date
	Maturity Date
	Coverage Type
	Coverage Term
	Coverage Amount
	Reason
Reference	

**To add new escrow tax details**

Transaction	Parameters
<b>New Escrow Tax Details</b>	Escrow Type
	Escrow Sub Type
	Vendor #
	Escrow Required (y/n)
	Escrow Opt out (y/n)
	Annual Disbursement Amount
	Disbursement Rule
	Transaction Date
	Reference Account #
	Property Tax Type
	Reason
	Reference

The following nonmonetary transactions allow you to update any of the escrow information regarding an existing tax and insurance.

**To change insurance annual disbursement**

<b>Transaction</b>	<b>Parameters</b>
<b>Change Insurance Annual Disbursement</b>	Escrow Type
	Escrow Sub Type
	Vendor #
	Transaction Date
	Annual Disbursement
	Amount
	Reason
	Reference

**To change insurance disbursement plan**

<b>Transaction</b>	<b>Parameters</b>
<b>Change Insurance Disbursement Plan</b>	Escrow Type
	Escrow Sub Type
	Vendor #
	Transaction Date
	Disbursement Rule
	Reason
	Reference

**To change escrow indicators of insurance**

<b>Transaction</b>	<b>Parameters</b>
<b>Change Escrow Indicators of Insurance</b>	Escrow Type
	Escrow Sub Type
	Vendor #
	Transaction Date
	Escrow Required (y/n)
	Escrow Opt Out (y/n)
	Reason
	Reference

**To change insurance expiration date**

<b>Transaction</b>	<b>Parameters</b>
<b>Change Insurance Expiration Date</b>	Escrow Type
	Escrow Sub Type
	Vendor #
	Transaction Date
	Expiration Date
	Reason
	Reference

**To change insurance maturity date**

<b>Transaction</b>	<b>Parameters</b>
<b>Change Insurance Maturity Date</b>	Escrow Type
	Escrow Sub Type
	Vendor #
	Maturity Date
	Reason
	Reference

**To change tax annual disbursement**

<b>Transaction</b>	<b>Parameters</b>
<b>Change Tax Annual Disbursement</b>	Escrow Type
	Escrow Sub Type
	Vendor #
	Transaction Date
	Annual Disbursement Amount
	Reason
	Reference

**To change tax disbursement plan**

<b>Transaction</b>	<b>Parameters</b>
<b>Change Tax Disbursement Plan</b>	Escrow Type
	Escrow Sub Type
	Vendor #
	Transaction Date
	Disbursement Rule
	Reason
	Reference

**To change escrow indicators of tax**

<b>Transaction</b>	<b>Parameters</b>
<b>Change Escrow Indicators of Tax</b>	Escrow Type
	Escrow Sub Type
	Vendor #
	Transaction Date
	Escrow Required (y/n)
	Escrow Opt Out (y/n)
	Reason
	Reference

**A.2.17 Escrow Analysis Disbursements**

The following nonmonetary transactions allow you to resume and stop escrow analysis and disbursements.

**To resume escrow analysis**

Transaction	Parameters
Resume Escrow Analysis	Transaction Date
	Reason
	Reference

**To resume escrow disbursements**

Transaction	Parameters
Resume Escrow Disbursements	Transaction Date
	Reason
	Reference

**To stop escrow analysis**

Transaction	Parameters
Stop Escrow Analysis	Transaction Date
	Reason
	Reference

**To stop escrow disbursements**

Transaction	Parameters
Stop Escrow Disbursements	Transaction Date
	Reason
	Reference

**A.2.18 Insurance Payment Maintenance**

**To refund or adjust insurance**

Transaction	Parameters
Insurance Payment Maintenance	Txn Date
	Insurance/Warranty Refund Amount Received
	Insurance/Warranty
	Itemization Code
	Insurance/Warranty For Full Refund Received

---

**Note**

The insurance refund posted or reversed on the Maintenance screen should be matched by a payment posting or reversal.

---

### A.2.19 Adjust Dealer Compensation

The following two nonmonetary transactions allows you to adjust dealer compensation (add/ subtract) in servicing stage itself for 'Upfront and Upfront Month end methods'.

Transaction	Parameters
<b>ADJUSTMENT TO COMPENSATION AMOUNT - ADD</b>	COMPENSATION ADJUSTMENT AMOUNT
	COMMENTS

Transaction	Parameters
<b>ADJUSTMENT TO COMPENSATION AMOUNT - SUBTRACT</b>	COMPENSATION ADJUSTMENT AMOUNT
	COMMENTS

### A.2.20 Add / Modify Account Contact References

The following two nonmonetary transactions allows you to either add or update contact references associated with an account.

- REF\_STATUS\_NEW - To add contact reference to an account
- REF\_STATUS\_MAINT - To modify contact reference attached to the account

Parameters to Add contract references:

Transaction	Parameters
Add contract references	TRANSACTION DATE
	RELATIONSHIP TYPE CODE
	NAME
	COUNTRY CODE
	ADDRESS 1
	ADDRESS 2
	ZIP CODE
	CITY CODE
	STATUS CODE
	YEARS
	MONTHS
	PHONE # 1
	EXTENSION PHONE # 1
	PERMISION TO CALL IND #1

Transaction	Parameters
	PHONE # 2
	EXTENSION PHONE # 2
	PERMISION TO CALL IND #2
	COMMENT

Parameters to Modify contract references:

Transaction	Parameters
Modify contract references	TRANSACTION DATE
	REFERENCE #
	RELATIONSHIP TYPE CODE
	NAME
	COUNTRY CODE
	ADDRESS 1
	ADDRESS 2
	ZIP CODE
	CITY CODE
	STATUS CODE
	YEARS
	MONTHS
	PHONE # 1
	EXTENSION PHONE # 1
	PERMISION TO CALL IND #1
	PHONE # 2
	EXTENSION PHONE # 2
	PERMISION TO CALL IND #2
	COMMENT

### **A.2.21 Account Statement Preference Mode**

You can post the following nonmonetary transactions to define the account statement preference mode as either EMAIL or PHYSICAL.

- Transaction Code: ACC\_STMT\_PREFERENCE\_MODE

- Description: STATEMENT PREFERENCE MODE

Transaction	Parameters
ACCOUNT STATEMENT PREFERENCE MODE	TRANSACTION DATE
	STATEMENT PREFERENCE MODE

### **A.2.22 Cure Letter Date Maintenance**

You can post the following nonmonetary transactions to update 'Cure Letter' details such as Start and Expiry date to the corresponding account. The posted details can be viewed in Customer Service > Account Details > Account Information tab.

- Transaction Code: CURE\_LETTER\_MAINT
- Description: CURE LETTER DATE MODIFY

Transaction	Parameters
CURE LETTER DATE MODIFY	START DATE
	EXPIRY DATE

### **A.2.23 Recourse Details Maintenance**

You can post the following nonmonetary transactions to change existing recourse information such as changing recourse type preference from Partial to Full or vice versa, recourse reason, percentage of recourse allowed or flat amount.

- Transaction Code: RECOURSE\_MAINT
- Description: RECOURSE DETAILS MAINTENANCE

Transaction	Parameters
RECOURSE DETAILS MAINTENANCE	TRANSACTION DATE
	RECOURSE TYPE
	RECOURSE REASON
	MAX RECOURSE %
	RECOURSE AMOUNT

### **A.2.24 Sub Unit Account Transfer**

Post the following transaction to transfer account from one Sub Unit to other.

ACC\_SUBUNIT\_XFER

System automatically triggers a monetary transaction internally to tag the 'New Sub Unit' to respective account. On successful transaction posting, a record added in 'Transaction History'.

Transaction	Parameters
<b>ACCOUNT SUB UNIT TRANSFER</b>	AMORTIZED BALANCE TRANSFER
	COMMENTS

## **A.2.25 Customer Credit Limit Transactions**

In Oracle Financial Services Lending and Leasing, you can define Customer Credit Limit based on the customer credit worthiness or historical customer data and using this limit, applications can be funded up to the credit limit amount allowed.

The defined credit limit details can further be changed by posting appropriate non-monetary transaction. The 'Transactions' sub tab available in Servicing > Customer Credit Limit screen's > Customer/Business tab allows you to post a set of non-monetary transactions to update specific customer credit limit details on the account. However, the same transactions can also be posted from Customer Service > Maintenance tab.

The screenshot displays the Oracle Financial Services Lending and Leasing interface for Customer Credit Limit management. The main window is titled 'Customer Credit Limit x' and shows details for customer # 0000007007, PAVAN 2. The credit limit details table shows a Max Limit of 100,000.00, Total Utilized Amt of 21,000.00, and Available Amt of 79,000.00. Below this, the 'Transaction Batch Information' section shows a transaction on 04/20/2018 for 'CUSTOMER CREDIT LIMIT DECREASE' with a status of 'POSTED'. The 'Parameters' section lists TXN DATE (04/20/2018), AMOUNT (900000), and REASON. The 'Result' section shows a message: 'Customer Credit Max Limit Decreased from 1000000 to 100000' and 'Transaction posted on accounts : 20180400010340, \*\*\*\*\* Transaction Posting Successful \*\*\*\*\*'.

### **A.2.25.1 Customer Credit Limit Transactions**

To update the customer credit limit details, post the following transactions:

<b>Purpose</b>	<b>Transaction Code</b>	<b>Transaction Description</b>
To increase the customer Max limit field by given amount.	CUS_CRLMT_INCREASE	CUSTOMER CREDIT LIMIT INCREASE
To decrease the customer Max limit field by given amount.	CUS_CRLMT_DECREASE	CUSTOMER CREDIT LIMIT DECREASE
To move given transaction amount from Hold amount to Customer Max limit field.	CUS_CRLMT_HOLD_DECREASE	DECREASE CUSTOMER CREDIT LIMIT HOLD AMOUNT
To move given transaction amount from customer Max limit to HOLD amount field.	CUS_CRLMT_HOLD_INCREASE	INCREASE CUSTOMER CREDIT LIMIT HOLD AMOUNT
To move the given transaction amount from Max Limit field to suspended amount field.	CUS_CRLMT_SUSPEND_INCREASE	INCREASE CUSTOMER CREDIT LIMIT SUSPEND AMOUNT
To move the given transaction amount from suspended field to Max Limit amount field	CUS_CRLMT_SUSPEND_DECREASE	DECREASE CUSTOMER CREDIT LIMIT SUSPEND AMOUNT

For the above transactions, following parameters are to be defined:

- Date: The transaction date
- Amount: Amount to increase / decrease credit limit, Hold and Suspend.
- Reason: Additional information if any.

On successful posting of the transaction, a comment is posted indicating the amount increased / decreased from old value to new value.

### **A.2.25.2 Business Credit Limit Transactions**

To update the business credit limit details, post the following transactions:

<b>Purpose</b>	<b>Transaction Code</b>	<b>Transaction Description</b>
To increase the business Max limit field by given amount.	BUS_CRLMT_INCREASE	BUSINESS CREDIT LIMIT INCREASE
To decrease the business Max limit field by given amount.	BUS_CRLMT_DECREASE	BUSINESS CREDIT LIMIT DECREASE
To move given transaction amount from Hold amount to business Max limit field.	BUS_CRLMT_HOLD_DECREASE	DECREASE BUSINESS CREDIT LIMIT HOLD AMOUNT
To move given transaction amount from business Max limit to HOLD amount field.	BUS_CRLMT_HOLD_INCREASE	INCREASE BUSINESS CREDIT LIMIT HOLD AMOUNT

Purpose	Transaction Code	Transaction Description
To move the given transaction amount from Max Limit field to suspended amount field.	BUS_CRLMT_SUS-PEND_INCREASE	INCREASE BUSINESS CREDIT LIMIT SUS-PEND AMOUNT
To move the given transaction amount from suspended field to Max Limit amount field	BUS_CRLMT_SUS-PEND_DECREASE	DECREASE BUSINESS CREDIT LIMIT SUS-PEND AMOUNT

For the above transactions, following parameters are to be defined:

- Date: The transaction date
- Amount: Amount to increase / decrease credit limit, Hold and Suspend.
- Reason: Additional information if any.

On successful posting of the transaction, a comment is posted indicating the amount increased / decreased from old value to new value.

### **A.2.25.3 Customer/Business Credit Limit Maintenance**

To adjust the Grade, Late Charge, or Limit Expiry details of a defined credit limit, you can post 'CUSTOMER/BUSINESS CREDIT LIMIT MAINTENANCE' transaction:

On successful posting of the transaction, a comment is posted indicating the amount increased / decreased from old value to new value.

### **A.2.25.4 Customer/Business Address Maintenance**

To add/update Customer/Business address details into the following tabs, you can post 'ADD CUSTOMER/BUSINESS ADDRESS PHONE' transaction.

- Servicing > Customer Service > Customer details tab > Customer/Business > Addresses sub tab
- Servicing > Customer Credit Limit > Customer/Business > Addresses sub tab

Also, note that if the address details are added or updated directly from the above tabs, system automatically posts the below transaction.

### **A.2.25.5 Customer/Business Telecom Maintenance**

To add Customer/Business Telecom details into the following tabs, you can post 'ADD CUSTOMER TELECOM / ADD BUSINESS TELECOM' transaction.

To update Customer / Business Telecom details into the following tabs, you can post CUSTOMER TELECOM MAINTENANCE / BUSINESS TELECOM MAINTENANCE transactions.

- Servicing > Customer Service > Customer details tab > Customer/Business > Telecoms sub tab
- Servicing > Customer Credit Limit > Customer/Business > Telecoms sub tab

Also, note that if the Telecom details are added or updated directly from the above tabs, system automatically posts the below transaction.

On successfully posting the transaction, a confirmation message is displayed in Result section and the phone details are updated to Customer Service > Customer/Business Details

screen. This also serves as primary communication for business if the 'Permission to Call Indicator' is 'Yes'.

**Customer Information**

Customer #	Relation	ECOA	Name	SSN	Birth Dt	Customer Decease Date	Marital Status	Enabled	Language	Education
87654	PRIMARY	INDIVIDUAL	TECHNOLOGIES PINNACLE JR	xx-xxx-1317	12/18/2017		UNDEFINED	Y	ENGLISH	

**Telecom Information**

PHONE	(989)-631-4672	0	Y	Y	Y	US/EASTERN	01:00	AM

Summary Box:

- Type: PHONE
- Phone: (989)-631-4672
- Extn: 0
- Current:
- Permission to Call:
- Permission to Text:
- Time Zone: US/EASTERN
- Start Time: 01:00
- Period: AM
- Best Day to Call: MONDAY
- End Time: 01:00
- Period: PM

### **A.2.25.6 Business Partners Maintenance**

To add/maintain business partner details into the following tabs, you can post 'ADD BUSINESS PARTNERS' or 'BUSINESS PARTNERS MAINTENANCE' transactions.

- Servicing > Customer Service > Customer details tab > Customer/Business > Partners sub tab
- Servicing > Customer Credit Limit > Customer/Business > Partners sub tab

Also, note that if the business partner details are added or updated directly from the above tabs, system automatically posts the below transaction.

### **A.2.25.7 Business Affiliates Maintenance**

To add/maintain business affiliates details into the following tabs, you can post 'ADD BUSINESS AFFILIATES' or 'BUSINESS AFFILIATES MAINTENANCE' transactions.

- Servicing > Customer Service > Customer details tab > Customer/Business > Affiliates sub tab
- Servicing > Customer Credit Limit > Customer/Business > Affiliates sub tab

Also, note that if the Affiliates details are added or updated directly from the above tabs, system automatically posts the below transaction.

### **A.2.26 Add Existing Customer to Account**

You can attach an existing customer details maintained in the system to an account by posting 'ADD EXISTING CUSTOMER' non-monetary transaction in Customer Service > Maintenance > Transaction Batch Information section.

While posting the transaction, you can add a customer linked to another account but with different SSN and Relationship type other than the existing relation mapped to the account. However, system does not allow to attach those Customer details which are marked as either 'Deceased' or 'Bankrupt'.

### To add existing customer

Transaction	Parameters
ADD EXISTING CUSTOMER	TXN DATE
	CUSTOMER NUMBER
	RELATION TYPE CODE
	COMMENTS

The transaction date has to be the current system date and is auto populated by default. Enter the Customer Number and select the Relation Type Code from the drop-down list. You can specify additional information (if any) as a comment and click 'Post'.

On successfully posting the transaction, a confirmation message is displayed in Result section. Also, if a second customer is added to a single customer account, the 'joint' check box is selected indicating it as joint account thereafter.

---

#### Note

Customer addition to GRI linked accounts are to be handled manually. Also if there is a 'Customer Credit Limit' defined on the account, the credit limit share of newly added customer has to be defined.

---

## A.2.27 Add/Update Business Customer Details

You can add new business details to an account and/or update the existing business details by posting the following non monetary transactions:

- NEW BUSINESS MAINTENANCE
- BUSINESS MAINTENANCE

Adding or Updating Business details is also supported from Customer Details > Business tab. While posting the above non monetary transactions, you can define the parameters either by selecting from the drop-down list/calendar or specifying the details in free text field. For more information, refer [Business sub tab](#) section.

New business details can be added even after an account is created and is usually done in case when the existing business is taken over by another business. When you add new business or update existing details and save the record, the same becomes the current/primary business of the customer and the current indicator is set to 'Y' by default.

**To add new business details**

<b>Transaction</b>	<b>Parameters</b>
<b>NEW BUSINESS MAINTENANCE</b>	TXN DATE ORGANIZATION TYPE BUSINESS TYPE BUSINESS CATEGORY BUSINESS NAME LEGAL NAME TAX ID# START DATE CURR NO OF EMPLOYEES NUMBER OF EMPLOYEES CONTACT PERSON BANK NAME BUSINESS BANK ACCOUNT NUMBER AVG CHECKING BALANCE NUMBER OF LOCATIONS MANAGEMENT SINCE PAYMENT HIERARCHY BUSINESS TIME ZONE BUSINESS SKIP INDICATOR BUSINESS STOP CORR INDICATOR BUSINESS ENABLED INDICATOR PRIVACY OPTOUT BUSINESS EMAIL ADDRESS1

---

**Note**

The above transaction is supported only for Business accounts and if the same is posted on to a non-business account, system displays an error as 'Cannot link/add business details to Individual Account'.

---

**To update existing business details**

<b>Transaction</b>	<b>Parameters</b>
<b>BUSINESS MAINTENANCE</b>	TXN DATE ORGANIZATION TYPE BUSINESS TYPE BUSINESS NAME LEGAL NAME TAX ID# START DATE CURR NO OF EMPLOYEES NUMBER OF EMPLOYEES CONTACT PERSON BANK NAME BUSINESS BANK ACCOUNT NUMBER AVG CHECKING BALANCE NUMBER OF LOCATIONS MANAGEMENT SINCE CATEGORY CODE PAYMENT HIERARCHY BUSINESS TIME ZONE REASON CODE

On successfully posting the transaction, a confirmation message is displayed in Result section and the details are populated in Customer Details > Business tab.

**A.2.28 Rescission Transaction to Void Account**

You can void an account immediately after funding or even during the Servicing stage due to unforeseen circumstances by posting 'ACC\_RESCISSION' - RESCISSION ACCOUNT non-monetary transaction in Customer Service > Maintenance > Transaction Batch Information section.

The statuses for which the transaction is supported depends on the setup configuration which includes the access for REVERSE button in transaction history for ACTIVE transaction.

However, note that you cannot void an account which is already in Void status.

### To rescission a customer linked account

Transaction	Parameters
RESCISSION ACCOUNT	TXN DATE
	PROCESS MASTER ACCOUNT
	REASON CODE
	COMMENTS

While posting the transaction,

- Select the transaction date as the current system date.
- If PROCESS MASTER ACCOUNT is selected as 'YES', then rescission transaction is automatically posted to corresponding Master account and Linked account. If selected as 'No', then rescission transaction is automatically posted to current account and its Linked Account(s).
- Select the Reason Code as STATUTORY RESCISSION or LATE RESCISSION from the drop-down list and click 'Post'.

On posting the transaction, system posts 'REVERSE ACTIVE' transaction along with following changes:

- Account status is marked as VOID in Transaction History > Transactions tab
- Corresponding Application status is marked as VOID
- All the Good Transactions on to the account are reversed.

A comment is posted on rescission account in the format RESCINDED ON <DATE> FOR THE <REASON> AND <COMMENT>.

---

#### Note

If rescission transaction is posted on Traded accounts, system automatically performs certain actions on existing (old) account and new accounts. For more information, refer to '[Trade Reversal/Rescission and Charge-off of Account](#)' section in Appendix: Trading of Accounts chapter.

---

## A.2.29 Add Asset to Account

In addition to swap the asset linked to an account, you can add non primary Asset/Collateral to an Account during Servicing and Collection stage by posting 'ADD NEW ASSET' non-monetary transaction in Customer Service > Maintenance > Transaction Batch Information section.

Any collateral with status NEW, INACTIVE and RELEASED can be added through this transaction and the status of the Asset is set ACTIVE by default. If there is already an asset associated to an account or if this is the first one, the new asset is added with Primary indicator as 'N' which can to be manually changed in Servicing > Customer Service > Collateral > Vehicle tab.

**To add asset to account**

<b>Transaction</b>	<b>Parameters</b>
<b>ADD NEW ASSET</b>	NEW ASSET NUMBER
	COMMENTS

While posting the transaction, you need to specify the New Asset Number. enter additional details (if any) as Comments and select the Reason Code from the drop-down list. Click 'Post'.

On successfully posting the transaction, a confirmation message is displayed and a comment is posted on the account indicating 'NEW COLLATERAL ADDED - ASSET NBR:XXX, PRIMARY IND: N'. You can view and further updated the asset details in Servicing > Customer Service > Collateral > Vehicle tab.

### **A.2.30 Customer / Business Credit Score Update**

You can regularly update and store the credit score of a Customer and Business accounts maintained in the system by posting CUSTOMER CREDIT SCORE UPDATE and BUSINESS CREDIT SCORE UPDATE non-monetary transactions in Customer Service > Maintenance > Transaction Batch Information section.

Customer/Business Credit Score is a numeric summary of credit history compiled by the three major credit bureaus - Equifax, Trans Union, and Experian. This is obtained during Credit bureau pull and is one of the indicator for a Customer/Business account in the entire credit report.

---

**Note**

On posting 'CUSTOMER CREDIT SCORE UPDATE' transaction on any customer account, system automatically posts the transaction to all the linked accounts of that customer.

---

**To update customer/business score**

Transaction	Parameters
<b>CUSTOMER CREDIT SCORE UPDATE</b>  <b>CUS_CREDIT_SCORE_MAINT</b>  or  <b>BUSINESS CREDIT SCORE UPDATE</b>  <b>BUS_CREDIT_SCORE_MAINT</b>	<b>TXN DATE</b> Select the transaction date from adjoining calendar.
	<b>SCORE RECIEVED DATE</b> Select the date when the score was received from credit bureau.
	<b>RELATION TYPE CODE</b> (Applicable only for customer score update) Select the account relation type from the drop-down list. The list displays only those relationship types which are attached to account and are enabled (excluding deceased customer relations).
	<b>SOURCE CODE</b> Select the credit bureau from where the customer/business credit score is received from the drop-down list. The list is populated based on the values maintained in CRB_SOURCE_CD lookup code.
	<b>SCORE</b> Enter the customer/business credit score value.
	<b>REFERENCE NUMBER</b> Enter the reference number associated with the credit score.
	<b>REASON CODE</b> Select the reason for posting this transaction from the drop-down list.
	<b>COMMENTS</b> Additional information if any.

On successfully posting the transaction, a confirmation message is displayed in Result section and the record is captured in Customer Service > Customer Details > Customer/

Business > Customer/Business Score tab.

The screenshot displays the Oracle Financial Services Lending and Leasing Customer Service interface. The top navigation bar includes the Oracle logo, the text "Financial Services Lending and Leasing", and a user profile for "Welcome ABSHEKAR" with a "Sign Out" button. The main window is titled "Customer Service" and contains two tabs: "Customer" and "Business". The "Customer" tab is active, showing "Customer Information" for customer # 678678767. The information includes: Relation: PRIMARY, ECOA: INDIVIDUAL, Name: ASD AD TESTING JR, SSN: xx-xxx-3233, Birth Dt: 12/18/2016, and Customer Deceas Date. Below this is a "Customer Score" section with a "View" and "Audit" button. The "Customer Score Information" table lists several transactions:

Txn Dt	Score Received Dt	Source	Score	Reference Number	Reason Code	Comments
04/29/2019	12/18/2020	EFX	19	1		1
05/05/2019	05/05/2019	EXP	890			
05/03/2019	05/03/2019	EFX	777	10 1APP	GRADE	TEST
05/03/2019	05/03/2019	EFX	777	10 1APP	GRADE	TEST
05/03/2019	05/03/2019	EFX	777	10 1APP	GRADE	TEST

### A.2.31 Master Account Maintenance

While funding an application in Origination, there is option to categorize the current application to be considered as 'Master Account' or link the current application to another existing master account in the system after funding. The selected option in Origination > Funding screen are propagated to Servicing. In Servicing, you can further maintain the linking of associated accounts to Master Account with following option:

- Link/attach an account to Master Account
- Moved a linked account from one Master Account to other
- Remove/de-link an account from Master Account

The above actions can be performed by posting 'MASTER ACCOUNT MAINTENANCE' (ACC\_MASTER\_ACCOUNT\_MAINT) non-monetary transaction from Customer Service > Maintenance > Transaction Batch Information section.

**To post Master Account Maintenance transaction**

Transaction	Parameters
<p><b>MASTER ACCOUNT MAINTENANCE</b></p> <p><b>ACC_MASTER_ACCOUNT_MAINT</b></p>	<p><b>TXN DATE</b></p> <p>Select the transaction posting date from the adjoining calendar.</p>
	<p><b>ACCOUNT NUMBER</b></p> <p>Enter the account number which is to be Attached / Moved / Remove to/from a Master Account.</p> <p>Ensure that the current customer is linked to that account. System displays an error if there is a mismatch or an invalid account number is entered.</p>
	<p><b>MASTER ACCOUNT NUMBER</b></p> <p>Enter the Master Account number to which the current account is to be linked.</p>
	<p><b>MASTER ACCOUNT MAINTENANCE ACTION TYPE</b></p> <p>Select the action type to be performed from the drop-down list. You can select ADD / UPDATE / REMOVE to modify linking of current account to / from selected Master Account.</p> <p><b>VALIDATE COMMON CUSTOMER</b></p> <p>Select either Yes or No from the drop-down list to indicate the system to validate if there are any common customers between the current selected Account and Master Account.</p> <p>System does not allow to post the transaction if this option is selected as Yes and there are no common customer found during validation.</p>
	<p><b>VALIDATE BILLING CYCLE AND DUE DATE</b></p> <p>Select either Yes or No from the drop-down list to indicate the system to validate if the current selected Account and Master Account have the same Billing Cycle and Due Day.</p> <p>System does not allow to post the transaction if this option is selected as Yes and the Billing Cycle and Due Day is found to be different during validation.</p>

Transaction	Parameters
	<p><b>VALIDATE PORTFOLIO COMPANY</b></p> <p>Select either Yes or No from the drop-down list to indicate the system to validate if the current selected Account and Master Account belongs to the same portfolio company.</p> <p>System does not allow to post the transaction if this option is selected as Yes and the portfolio company is found to be different for both accounts during validation.</p> <hr/> <p><b>PROCESS LINKED ACCOUNTS</b></p> <p>Select either Yes or No from the drop-down list.</p> <p>If the parameters is set to 'Y' while posting the transaction from Master/Linked/Associated Account(s), then based on the Maintenance Action Type parameter selected as Add / Update / Remove, system Adds, Updates, or Removes the Master Account # to Associated Account and its Linked Account respectively.</p> <p>On posting the transaction a comment is posted in Linked Account indicating 'MASTER ACCOUNT # ADDED/REMOVED or UPDATED FROM {OLD MASTER ACCOUNT #} TO {NEW MASTER ACCOUNT #}'.</p> <p><b>Note:</b> This parameter has no significance if the other parameter 'Process Master Associated Accounts' is set to Y since system already processes all the Associated Accounts of the Master Account (Assuming Linked Account is also one of the associated account of Master).</p> <p><b>PROCESS MASTER ASSOCIATED ACCOUNTS</b></p> <p>Select either Yes or No from the drop-down list. Selecting 'Yes' posts the transaction to Master Account and Associated Accounts and selecting 'No' posts the transaction to Current Account.</p> <hr/> <p><b>PROCESS SAME PRODUCT TYPE AND FUNDING TYPE ACCOUNTS</b></p> <p>Select either Yes or No from the drop-down list. Selecting 'Yes' posts the transaction to associated accounts where Product Type is equal to Current Account Product Type where this transaction is posted and selecting 'No' posts the transaction to all the Accounts under a Master Account.</p> <hr/> <p><b>REASON CODE</b></p> <p>Selected the appropriate reason code for posting this transaction from the drop-down list.</p> <hr/> <p><b>COMMENTS</b></p> <p>Additional information (if any).</p>

On successfully posting the transaction, a comment is posted on all involved accounts i.e. Master Account and Associated Account. For 'Add' transaction new Master Account # is updated and for 'Update' transaction, the existing Master Account # is replaced with Account # provided in Transaction Parameters.

In case of an error, the transaction is rolled-back from all the accounts.

---

**Note**

If the primary customer of Master Account or linked account is deceased, on replacing the next primary account-relation, the accounts under deceased customer have to be updated to new customer Master Accounts manually.

---

### **A.2.32 Master Account - Statement Consolidation Indicator Maintenance**

While funding an application in Origination, there is a 'Statement Consolidation' option to indicate if the system needs to generate consolidated billing statement at Master Account level along with details of all the associated accounts with same billing cycle and due day. If selected in Origination > Funding screen, the same option is propagated to Servicing.

The Statement Consolidation indicator can also be changed in Servicing to either Yes or No by posting 'STATEMENT CONSOLIDATION INDICATOR MAINTENANCE' (ACC\_STMT\_CONSOLIDATE\_MAINT) non-monetary transaction in Customer Service > Maintenance > Transaction Batch Information section to facilitate consolidated statement generation at Master Account level.

### To update Statement Consolidation indicator

Transaction	Parameters
<b>STATEMENT CONSOLIDATION INDICATOR MAINTENANCE</b>  <b>ACC_STMT_CONSOLIDATE_MAINT</b>	<b>TXN DATE</b> Select the transaction posting date from the adjoining calendar.
	<b>STATEMENT CONSOLIDATION INDICATOR</b> Select either Yes or No from the drop-down list to update the Statement Consolidation indicator flag in Customer Service > Account Details > Other section.
	<b>PROCESS MASTER ASSOCIATED ACCOUNTS</b> Select either Yes or No from the drop-down list. Selecting 'Yes' posts the transaction to Master Account and Associated Accounts and selecting 'No' posts the transaction to Current Account.
	<b>PROCESS SAME PRODUCT TYPE AND FUNDING TYPE ACCOUNTS</b> Select either Yes or No from the drop-down list. Selecting 'Yes' posts the transaction to associated accounts where Product Type is equal to Current Account Product Type where this transaction is posted and selecting 'No' posts the transaction to all the Accounts under a Master Account.
	<b>REASON CODE</b> Selected the appropriate reason code for posting this transaction from the drop-down list.
	<b>COMMENTS</b> Additional information (if any).

On successfully posting the transaction, the Statement Consolidation indicator is updated in Customer Service > Account Details, 'Others' section.

### A.2.33 Add Existing Business to Account

You can attach an existing business details maintained in the system to an account by posting 'ADD EXISTING BUSINESS' non-monetary transaction in Customer Service > Maintenance > Transaction Batch Information section.

While posting the transaction, you need to enter the existing Business number which is previously not mapped to any account in the system. However, system does not allow to attach those business details which are marked as 'Bankrupt'.

#### To add existing business

Transaction	Parameters
<b>ADD EXISTING BUSINESS</b>	<b>TXN DATE</b>
	<b>EXISTING BUSINESS NUMBER</b>

The transaction date has to be the current system date. On successfully posting the transaction, a confirmation message is displayed in Result section.

## A.2.34 Add Business Phone Details

You can update phone details an existing business account maintained in the system to an account by posting 'BUSINESS PHONE MAINTENANCE' non-monetary transaction in Customer Service > Maintenance > Transaction Batch Information section.

### To add business phone details

Transaction	Parameters
<b>BUSINESS PHONE MAINTENANCE</b>	TXN DATE
	ADDRESS PHONE
	ADDRESS TYPE
	PERMISSION TO CALL IND

On successfully posting the transaction, a confirmation message is displayed in Result section and the phone details are updated to Customer Service > Business Details screen. This also serves as primary communication for business if the 'Permission to Call Indicator' is 'Yes'.

## A.2.35 Customer/Business Address Confirmation

You can confirm a Customer/Business address that is updated in the system as verified by posting CUSTOMER ADDRESS CONFIRMATION / BUSINESS ADDRESS CONFIRMATION non-monetary transaction in Customer Service > Maintenance > Transaction Batch Information section.

### To confirm customer / business address

Transaction	Parameters
<b>CUSTOMER ADDRESS CONFIRMATION (CUS_CON_ADR_MAINT) or BUSINESS ADDRESS CONFIRMATION (BUS_CON_ADR_MAINT)</b>	TXN DATE
	RELATION TYPE CODE (Applicable for Customer address)
	ADR ADDRESS TYPE CODE or ADDRESS TYPE
	CONFIRMED ADDRESS INDICATOR

On successfully posting the transaction, a confirmation message is displayed in Result section and the 'Confirmed' field is checked in Customer Service > Customer/Business Details > Address Information section.

## A.2.36 Trading of Accounts - Non-Monetary Transactions

Following are the non-monetary transactions involved while processing Trading of Accounts.

- [Add / Update Trade Details Transaction](#)
- [Trade Reversal](#)
- [Rescission Transaction to Void Account](#)

### A.2.36.1 Add / Update Trade Details Transaction

If a Trade transaction has failed during Equity Validation, the same can be manually corrected by adding or updating entries into Trade Details Table and adjust the 'Equity Transfer Amount' in existing (old) account maintained in the system. This can be done by posting 'ADD/

UPDATE TRADE DETAILS' non-monetary transaction in Customer Service > Maintenance > Transaction Batch Information section.

**To add entries to Trade Details Table**

Transaction	Parameters
<b>ADD TRADE TRANSACTION DETAILS</b> -or- <b>UPDATE TRADE DETAILS</b>	TXN DATE
	AMOUNT
	ACCOUNT NUMBER
	TRADE TYPE
	COMMENTS

While posting the above transaction, ensure that a valid Destination account or Target (new) account number is entered. For more details on Trade Type, refer to 'Trade Transaction' section.

On successfully posting the transaction, a confirmation message is displayed in Result section and a comment is posted on the account in the following format - TRADE DETAILS ADDED/UPDATED ON <DATE> WITH TO <ACCOUNT NBR>, TRADE AMOUNT <VALUE>, TRADE TYPE AS <TRADE TYPE> AND <COMMENT>.

**A.2.36.2 Trade Reversal**

You can reverse the Trade transaction updates on existing (old) account or Source account which contributed to multiple Equity Out (Split) or one-to-one (Upgrade) in OFSLL by posting 'TRADE REVERSAL' non-monetary transaction in Customer Service > Maintenance > Transaction Batch Information section.

**To reverse a Trade**

Transaction	Parameters
<b>TRADE REVERSAL</b>	TXN DATE
	REASON CODE
	COMMENTS

While posting the above transaction, select the Reason Code as STATUTORY RESCISSION or LATE RESCISSION from the drop-down list.

On successfully posting the transaction, a set of changes are done to traded accounts. Refer to 'Trade Reversal/Rescission and Charge-off of Account' section in Appendix - Trading of Accounts chapter.

**A.2.37 Bankruptcy Reporting Indicator**

You can categorize a particular customer or a business account as bankrupt in OFSLL by posting 'CUSTOMER / BUSINESS BANKRUPTCY REPORTING INDICATOR' non-monetary transaction in Customer Service > Maintenance > Transaction Batch Information section.

Marking a customer/business as 'Bankrupt' indicates that the particular customer/business cannot repay the debts and this condition is posted on the account and an Alert is populated in Summary tab.

Before posting the transaction, system validates if the existing customer's/business bankruptcy indicator is set as 'Y'. If yes, an error is displayed and transaction is not allow to post.

### To mark a Customer Account as Bankrupt

Transaction	Parameters
<b>CUSTOMER BANK- RUPTCY REPORTING INDICATOR</b>	BANKRUPTCY INDICATOR
	RELATION TYPE CODE
	BANKRUPTCY DISPOSITION
	BANKRUPTCY TYPE
	EFFECTIVE DATE

### To mark a Business Only Account or SME Account as Bankrupt

Transaction	Parameters
<b>BUSINESS BANK- RUPTCY REPORTING INDICATOR</b>	BUSINESS BANKRUPTCY INDICATOR
	BUSINESS BANKRUPTCY DISPOSITION
	BUSINESS BANKRUPTCY TYPE
	BUSINESS EFFECTIVE DATE

On successfully posting the transaction, system identifies all the related accounts based on Customer ID/Business and marks 'Bankruptcy Indicator' as 'Y' on all accounts (primary or joint holder) held by the customer. A confirmation message is displayed in the Results section.

## A.2.38 Collateral Maintenance

You can update and maintain asset/collateral details associated to an Account during Servicing and Collection stage by posting 'ASSET MAINTENANCE' non-monetary transaction in Customer Service > Maintenance > Transaction Batch Information section.

On posting the transaction, the asset details are updated in Customer Service > Collateral > Home/Vehicle/Others tab and Servicing > Collateral Management > Collateral Details screen.

**To post Asset Maintenance to an account**

Transaction	Parameters
<b>ASSET MAINTENANCE</b>	TXN DATE
	ASSET NUMBER
	ASSET CLASS
	ASSET TYPE
	ASSET SUB TYPE
	REGISTRATION NUMBER
	MAKE
	MODEL
	ESTIMATED LIFE
	COUNTRY CODE
	ZIP
	STATE CODE
	ADDRESS NUMBER
	ADDRESS1
	ADDRESS2
REASON CODE	
COMMENTS	

While posting the transaction, ensure the following:

- The Txn Date and Asset Number are mandatory and need to be specified.
- The transaction date should be current system date by default since system does not allow to post back dated or future dated transaction.
- Specify the registered Asset number. Else, system displays an error indicating 'Asset #: <Asset nbr> does not exist for this account'.
- Specify the Asset Class as per HOME/VEHICLE/OTHER\_ASSET\_CLASS\_CD lookup type.
- The Asset Type and Asset Sub Type should match the Collateral Type of Asset # as defined in Setup > Asset Types > Asset Sub Type screen.
- The Registration number provided for Asset # should be of Collateral Type as 'HOME'.
- The Zip code entered is validated based on Country code defined in Setup > Zip Codes screen.

On successfully posting the transaction, a confirmation message is displayed in the Results section and collateral details are updated to the account.

## A.2.39 Account Contract Maintenance

You can update and maintain Contract Information at Account level during Servicing and Collection stage by posting 'ACCOUNT CONTRACT MAINTENANCE' non-monetary transaction in Customer Service > Maintenance > Transaction Batch Information section.

By default, the contract information in Customer Service screen's Contract sub tab is populated from Origination screen on funding the application and is a display only version of the same information found on the Funding screen's Contract screen.

This transaction can be posted on all Product Type, Status and Conditions. On posting, the same does not restructure the account based on the account fields update. Also, no calculations are performed as a result of posting of this transaction.

### To post Contract updates to an account

Transaction	Parameters
<b>ACCOUNT CONTRACT MAIN-TENANCE</b>	TXN DATE
	AMOUNT FINANCED
	APPLICATION CHANNEL
	DISBURSED LOAN AMOUNT
	TOTAL DOWN PAYMENT AMOUNT
	TOTAL SALES PRICE
	CONTRACT RCVD DATE
	CONTRACT VERIFIED BY
	CONTRACT VERIFIED DATE
	COMMENTS
	REASON CODE

For more information on above fields, refer the section Contracts tab in Funding chapter of the Origination User Guide.

On successfully posting the transaction, a confirmation message is displayed in the Results section and contract details are updated to the account in Customer Service > Account Details > Contract Information tab.

## A.2.40 Account Payment Mode Maintenance

You can update the type of repayment mode to indicate if it is 'Autopay/Direct Debit or not' by posting 'ACCOUNT PAYMENT MODE MAINTAINANCE' non-monetary transaction in Customer Service > Maintenance > Transaction Batch Information section.

### To post repayment mode on an account

Transaction	Parameters
<b>ACCOUNT PAYMENT MODE MAINTAINANCE</b>	TXN DATE
	PAYMENT MODE

While posting the transaction, select the PAYMENT MODE as one of the following:

- INSTITUTION DRAFT / CHECK
- AUTOPAY (ACH)
- AUTOPAY (CREDIT CARD)
- AUTOPAY (DEBIT CARD)
- POST DATED CHECKS

Note the following:

- For an active Recurring ACH record, ensure that the payment mode is selected as AUTOPAY.
- For an AUTO PAY type of Payment Mode, ensure that at least one active ACH record exist and for CHECK type of Payment Mode, there are NO active ACH records.

On successfully posting the transaction, a confirmation message is displayed in the Results section and Payment Mode option is updated to account in Customer Service > Account Details > Account Details tab.

## A.2.41 Add Balance to Account

While posting specific type of transaction on account to update the balances and if the respective balance is not available at account, system displays an error. In such cases, you can add the specific type of balance to the account at runtime by posting 'ADD BALANCE TO AN ACCOUNT' non-monetary transaction in Customer Service > Maintenance > Transaction Batch Information section.

**Transaction Batch Information** + Add Edit View Audit

View Format Freeze Detach Wrap Post Void

Date	Monetary	Transaction	Status	Batch
11/26/2019	N	ADD BALANCE TO AN ACCOUNT	POSTED	N

**Parameters**

SORT	3	Y

**Result**

View Format Freeze Detach Wrap

Transaction Processing Details

\*\*\*\*\* Transaction Posting Successful \*\*\*\*\*

### To add balance to an account

Transaction	Parameters
<b>ADD BALANCE TO AN ACCOUNT</b>	TXN DATE
	BALANCE TYPE
	CHARGE OFF METHOD
	WRITE OFF METHOD
	RESCHEDULE METHOD
	BILLED
	ACCRUED
	NON PERFORMING ROLLOVER
	NON PERFORMING BALANCE TYPE
	SORT

All the parameters indicated above are mandatory and can be selected from the drop-down list. While posting the transaction, system validates the following and in case of mismatch, does not allow to post the transaction:

- If the Balance Type is already loaded, system displays an error indicating 'Balance already available'.
- If the Balance Type does not match with the defined list of codes in TXN\_TYPE\_CD lookup, system displays an error indicating 'Balance Type Doesn't Exist'.
- If the Balance Type matches with lookup code but the Product Type is not configured for the balance type in Transaction Codes setup, system displays an error indicating 'Balance Type not mapped to Product type'.

On successfully posting the transaction, a confirmation message is displayed in the Results section and Balance is updated to account in Customer Service > Transaction History > Balances tab.

### **A.2.42 Linked Account Maintenance**

You can link another account to the current account during servicing and have one-to-one mapping between both by posting 'LINKED ACCOUNT MAINTENANCE' non-monetary transaction in Customer Service > Maintenance > Transaction Batch Information section.

This transaction helps to link accounts which are funded separately and also to maintain (add/update/remove) details of the current account.

**To post linked account maintenance**

Transaction	Parameters
<p><b>LINKED ACCOUNT MAINTENANCE</b></p>	<p><b>TXN DATE</b> Select the transaction posting date from the adjoining calendar.</p>
	<p><b>LINKED ACCOUNT NUMBER</b> Enter the account number which is to be Attached / Moved / Remove to/from the Current Account.  Ensure that the current customer is linked to that account. System displays an error if there is a mismatch or an invalid account number is entered.</p>
	<p><b>LINKED ACCOUNT MAINTENANCE ACTION TYPE</b> Select the action type to be performed from the drop-down list. You can select ADD / UPDATE / REMOVE to modify linking of current account to / from selected Linked Account.</p>
	<p><b>VALIDATE COMMON CUSTOMER</b> Select either Yes or No from the drop-down list to indicate the system to validate if there are any common customers between the current selected Account and Linked Account.  System does not allow to post the transaction if this option is selected as Yes and there are no common customer found during validation.</p> <p><b>VALIDATE BILLING CYCLE AND DUE DATE</b> Select either Yes or No from the drop-down list to indicate the system to validate if the current selected Account and Linked Account have the same Billing Cycle and Due Day.  System does not allow to post the transaction if this option is selected as Yes and the Billing Cycle and Due Day is found to be different during validation.</p>
	<p><b>VALIDATE PORTFOLIO COMPANY</b> Select either Yes or No from the drop-down list to indicate the system to validate if the current selected Account and Linked Account belongs to the same portfolio company.  System does not allow to post the transaction if this option is selected as Yes and the portfolio company is found to be different for both accounts during validation.</p>
	<p><b>REASON CODE</b> Selected the appropriate reason code for posting this transaction from the drop-down list.</p>
	<p><b>COMMENTS</b> Additional information (if any).</p>

On successfully posting the transaction, both the accounts are interlinked and system updates the 'Linked Account' field with Account # provided in transaction parameter.

Also a comment is posted on all involved accounts i.e. Master Account and Associated Account. For 'Add' transaction new Master Account # is updated and for 'Update' transaction, the existing Master Account # is replaced with Account # provided in Transaction Parameters.

## **A.2.43 Mock Statement Maintenance**

Generating a Mock Statement helps to mock the asset billing process with a future date and to get an upfront statement indicating future dues of Master and Associated Accounts. In 'Vacation Ownership' industry, such statements are required to forecast future dues based on current 'Timeshare' holdings.

In Servicing, the Mock Statement preferences displayed in Customer Service > Account Details tab and Contract Information tab are propagated from Origination > Contract screen and are displayed in 'View' mode.

You can update the Mock Statement generation preferences at Master Account level by posting 'MOCK STATEMENT MAINTENANCE TRANSACTION FOR MASTER ACCOUNT' non-monetary transaction in Customer Service > Maintenance > Transaction Batch Information section.

This transaction can be posted only from Master Account. In case this transaction is used to deselect the option 'Mock Statement Req' to 'No', system refreshes the other fields making them 'Null' and 'Read-Only'.

### **To Post Mock Statement Maintenance to Master Account**

<b>Transaction</b>	<b>Parameters</b>
<b>MOCK STATEMENT MAINTENANCE TRANSACTION FOR MASTER ACCOUNT</b>	<b>TXN DATE</b> Select the transaction posting date from adjoining calendar.
	<b>MOCK STATEMENT REQUIRED IND</b> Select this check box to indicate if the account is to be included in Mock statement Generation.
	<b>MOCK STATEMENT DATE</b> Select the start month of Mock Statements period using the adjoining calendar.
	<b>MOCK CYCLES</b> Select the total number of billings (between 1-12) that are to be generated post Mock Statement Start Date.
	<b>MOCK PRE BILL DAYS</b> Specify the number of Pre bill days for Mock Statements generation.

While generating Mock Statement, system considers the 'Mock Statement Date' and 'Pre Bill Days' to generate the next Mock Statement Run Date. In case the Mock Statement Next Run Date is less than Contract Date or GL Date which does not match the criteria, system moves the Mock Start Date to same month of next year.

For example,

If Contract date = 6/1/2018

First Payment Date = 7/1/2018

Mock Start Month = July

Mock Start Date = 7/1/2018 (Derived based on Start Month)

Mock Pre Statement days = 60

Mock Statement Run Date Next = 7/1/2018 - 60 days = 5/2/2018 which is Less than Contract Date.

Here the 'Mock Statement Start Date' is moved to 7/1/2019 so that Mock Statement Run Date Next = 7/1/2019 - 60 days = 5/2/2019

On successfully posting the transaction, a confirmation message is displayed in the Results section indicating the 'Transaction Processing Details' and when the transaction Posting occurs.

The batch job TXNMDT\_BJ\_100\_01 (MOCK BILLING/DUE DATES PROCESSING) available in SET-TPE batch job set generates the future dues/balances based on the parameters defined in the criteria. This batch job is a prerequisite run for the mock statements to get generated.

The batch job OMSPRC\_BJ\_100\_01 (MASTER ACCOUNT CUSTOMER MOCK STATEMENT GENERATION) available in SET-ODD2 batch job set generates Mock Statements based on Mock Statement Details.

While processing, the batch job picks only those accounts with 'Mock Statement Req = Y' and 'Master Account Flag = Y'. This batch job is run on 'Mock Statement Run Date Next' and generates the number of dues based on 'Mock Statement Cycles'.

The structure of the Mock Statement generated is controlled based on Record and Column definitions maintained in the data file MASTER\_ACCOUNT MOCK STATEMENT (MASTER ACCOUNT CUSTOMER MOCK STATEMENT) defined in Setup > Administration > System > Data Files screen's Output tab.

## **A.3 Processing SCRA**

SCRA (Servicemembers Civil Relief Act) is a United States federal law that protects soldiers, sailors, airmen, Marines, Coast Guardsmen, commissioned officers in the Public Health Service and National Oceanic and Atmospheric Administration, from being sued for payment defaults.

The system is facilitated to be compliant with these SCRA laws. The following features are supported:

- Interest Rate Limitation, Prevention of Acceleration of Principal during Borrower's Military Duty
- Fees, Bankruptcy & Deferment rules applicable during Military Duty by the Account holder/Borrower
- Reverting to pre-SCRA terms when Account holder/Borrower is OFF Military Duty
- Validations with respect to Account holder/Borrower reporting Military Duty and
- Validations with respect to Guarantor being on Military Duty.

To be compliant with the above SCRA features, you can setup;

- Transaction Posting checks
- Related configurations OFF MILITARY DUTY through a transaction which will revert to original contractual terms for payment amount, interest rate and term.

Post the 'OFF MILITARY DURY' date, if payment is missed as per contracted billing cycle, delinquency fee transaction is posted separately.

However, delinquency fees will not be applied for period of Borrower's Military duty.

### **A.3.1 Setting up Interest Rate for SCRA**

You can define different interest rate which will be an input parameter for the ON ACTIVE MILITARY DUTY transaction. The system enables you to override default rate values with the values you define. However, if the values are not overridden, then system will pick the transaction from system parameter TPE\_SCRA\_DEFAULT\_INTEREST\_RATE.

The system will apply lowest rate between contract and system default interest rate. However, you can indicate to override the Rate with one entered in the transaction input parameter.

Access to the transaction and availability of the Override and Rate parameters are setup in Transaction Codes Access Grid and Parameters, respectively.

When the transaction is under BORROWER ON ACTIVE MILITARY DUTY status, the system facilitates setting up and validating the following:

- While posting On Military Duty transaction, provides flexibility to choose the Fee to be applicable through Fee Assessment Access Grid, based on **On Military Duty account** condition created in the account.
- You can not initiate Foreclosure / Repossession activities on active military duty accounts.
- The monthly payment amount must not exceed the existing payment amount.
- During deferment period, enables you to define 'NO Interest to be charged' by defining 'Stop Accrual' to the 'EXTENSION transaction' for the same terms of Extension. A batch job re-starts Interest Accrual, once the system posts comments for the same

Once the OFF MILITARY DUTY transaction is posted on account, system facilitates setting up and validating the following:

- The contractual terms are returned once the SCRA condition is removed. That is, the payment amount, terms, and interest rate must revert to their pre-SCRA state. Thus, resulting in a balloon payment at the end of Loan.
- To extend On Military Duty benefits, you can perform any of the following:
  - OFF Military Duty transaction must not be posted
  - If already posted, OFF Military Duty transaction must be REVERSED
  - Close current Military Duty by posting the OFF transaction and then opening a new Duty period by posting the On Military Duty Transaction. Ensure not to overlap the periods.

#### **Note the following for new accounts created on SCRA**

If a borrower is on 'Active Military Duty' for an existing account and the same customer ID is used to create a new account, system by default does not provide SCRA benefits by updating the SCRA Interest Rate. Instead the account is created with Contract Interest Rate.

For SCRA Interest Rate to be effective on new account, the 'Borrower on Military Duty' transaction has to be posted explicitly. For more details, refer to '[Active Military Duty](#)' section.

## A.4 Black Book Interface

The system performs collateral valuation for all the active accounts at a set frequency. However, valuation is not performed for collaterals with account status <ACTIVE> and Asset Status <ACTIVE> and <PRIMARY>.

The source for the above valuation is Black book or any other Collateral Evaluator agency. These valuation details are stored for each collateral in Collateral tables. If an account has multiple collaterals, then the valuation details must be stored for each collateral.

You can run 'BLACK BOOK INTERFACE' batch to perform valuation for active accounts and active collaterals. This batch job performs the following:

- Validates for current valuation in the Black Book interface tables and gets the latest valuation
- After getting the valuation updates the collateral valuation with source as Source setup.
- Loads Black Book values

The system date is saved as Valuation Date along with other valuation details during batch run. Once the batch is run, black book values will load process to Oracle Valuation Section.

---

## Appendix B: Payment Amount Conversions

The following table contains the calculations Oracle Financial Services Lending and Leasing uses to convert different payment frequencies (weekly, biweekly, semi monthly, and so on) to standard monthly values for instalment accounts.

<b>Payment Frequency:</b>	<b>Scheduled Monthly Income Amount:</b>
<b>D = Deferred</b>	Zero fill
<b>P = Single payment Loan</b>	Zero fill
<b>W = Weekly (due every week)</b>	Multiple by 4.33
<b>B = Biweekly (due every two weeks)</b>	Multiple by 2.16
<b>E = Semi-monthly (due twice a month)</b>	Multiple by 2
<b>M = Monthly (due every month)</b>	As given
<b>L = Bimonthly (due every two months)</b>	Divide by 2
<b>Q = Quarterly (due every three months)</b>	Divide by 3
<b>T = Triannually (due every four months)</b>	Divide by 4
<b>S = Semi-annually (due twice a year)</b>	Divide by 6
<b>Y = Annually (due every year)</b>	Divide by 12

---

# Appendix C: Generic Recovery Interface (GRI)

## C.1 Introduction

In general, a Generic Recovery Interface (GRI) is a platform to connect Oracle Financial Services Lending and Leasing (OFSLL) with any third party recovery system. This integration facilitates auto lending institutions to repossess non-performing assets and recover them through a network of third party vendor managed systems.

Accordingly, in an integrated system a particular account in OFSLL can be assigned to a vendor (third party) through GRI for recovery services. Depending on each stage of the process, OFSLL triggers appropriate web service requests to create and update the details into the third party system. Subsequently, the acknowledged details and case updates are retrieved into the corresponding work order(s) and account(s) in OFSLL.

Also the system parameter 'GRI\_WEBSERVICE\_LOG\_IND' when enabled, logs all the GRI related web service communications between OFSLL and external interfaced system. The same can be viewed in Dashboard > System Monitor > Database Server Log Files tab by selecting 'Interfaces' view option.

Following type of web service requests are supported:

- Create Case
- Update Case
- Case Comments
- Hold Case
- Reopen Case
- Reassign Case
- Close Case
- Case Updates Received via FireHose WebService
- Case Repossession
- Case Invoice

### C.1.1 Pre-requisites

Following are the pre-requisites while working with third party integrated system:

- Ensure that 'Cycle' setup (Setup > Vendors> Cycles tab) is defined for the Work Order, where channel is selected as 'Generic Recovery Interface'. Also if the system is defined to automatically post any specific conditions on account, you need to maintain the Action and Result Code.
- Ensure that Vendor Fees (Setup > Vendors > Vendor Fees tab) defaults the 'Estimated Amount'.
- Ensure that the Work Order Types are mapped consistently and are in sync between OFSLL and third party system. The following table lists the Work Order Types maintained in the system.

Work Order Type	Description
DRK	DOOR KNOCK (GRI)
IIR	IMPOUND INVOLUNTARY REPOSSESSION (GRI)

Work Order Type	Description
VRP	VOLUNTARY REPOSSESSION (GRI)
IVR	IMPOUND VOLUNTARY REPOSSESSION (GRI)
SKP	SKIP TRACE (GRI)
IRP	INVOLUNTARY REPOSSESSION (GRI)

- Ensure that the details of Vendors, Collectors and Service types are mapped consistently and are in sync between OFSLL and third party system.
- Define Invoice Rules (Setup > Vendors > Invoice Rules tab) that are applicable to each Vendor Service with appropriate Work Order Status, Close Reason, and State combinations. This ensures that the 'Collectible' flag is set to 'Y' for selected invoice during processing.

## C.2 Create Case

Once a non-performing account is identified in OFSLL, the details are to be registered in the third party system for further action. Using the Work Orders tab (Vendors > Work Orders tab), you can create a work order with the identified account details and selecting the channel as Generic Recovery Interface (GRI).

Note that, system does not allow to create a work order during the following conditions:

- If there is already a case created with the same work order type which is active on the account. On updating the details and clicking 'Save', system displays an error message as 'Active Work Order with same Order Type already exists on account'.
- If a CURE letter is issued on an account and the same is in-force. If the case creation date is before the cure letter expiry date, then system displays an error message as 'Cure Letter Issued and Active. Cannot create work order'.

For information on creating a work order, refer to section Vendors > Work Orders tab.

When the 'Channel' is selected as GENERIC RECOVERY INTERFACE, the Work Orders tab enables 'Vendor Messages' section to specify additional details that are required by the third party vendors to act upon the case. For more information, refer to 'Case Comments' section.

After the work order details are created, the same needs to be registered as a case in third party system by updating the status. Accordingly, when the Status of Work Order is selected as 'SEND TO GRI', the 'add Case()' web service is initiated to create a case in third party system.

The screenshot displays the Oracle Financial Services Lending and Leasing interface for creating a Work Order. The main form is titled "Vendors x Work Order" and is divided into several sections:

- Work Order:** Includes fields for Work Order # (WO:0021410), Case # (UNDEFINED), Channel (INTERNAL), Work Order Type (IMPOUND INVOLUNTARY REPOSSESSION (GR)), Type, Account (200-SMITH), Company (US01), Branch (USHQ), and Vendor (123MAC\_VENDOR-MAC\_VENDOR).
- Work Order Details:** Includes Date (12/26/2016), Status Dt (12/26/2016), Currency (US DOLLAR), Estimated (100.00), Billed Amt (0.00), Paid (0.00), Reference #, Assigned By (PRITAM), and Followup Dt.
- Collateral Details:** Includes Collateral Description (2006 CHEVROLET MONTECARLO 2D), Identification # (284GP45G1VR378252), Year (2006), Make (CHEVROLET), and Model (MONTECARLO).
- Account Information:** Includes Account Status (ACTIVE:DELQ-BKRP:REPO), Charged off Dt, Due Amt (450.03), Total Outstanding Balance (20500.36), Total Due (5050.33), Due Dt (02/10/2017), and Days Past Due (315).
- Vendor Information:** Includes Contact (ME), Phone, Extn, Fax, and Comment.

The "Status" dropdown menu is highlighted with a red box and set to "SEND TO GRI". The "Vendor" dropdown is set to "123MAC\_VENDOR-MAC\_VENDOR".

The 'add Case()' web service request consists of the following Case details to be registered in third party system:

- Primary Customer
- Secondary Customer (Based on the sequence)
- Address Details
- Account Details
- Collateral Details

When the web service request is successful, the response would contain the new case number created in third party system. The case # is then appended to the work order and the status is changed from 'SEND TO GRI' to 'ASSIGNED'. Also a comment is posted on the corresponding account in Customer Service > Comments tab, with the following details:

- Type = SYSTEM GENERATED
- Sub Type = INBOUND FROM INTERFACE
- Comment = [Case No]: "NEW CASE CREATED"
- Comment By = "INTERNAL"
- Comment Dt = Comment Posted date

In case of an error in the web service response received from third party system, the status of work order is changed from 'SEND TO GRI' to 'GRI FAILED' and a comment is posted on the corresponding account in Customer Service > Comments tab, with the following details:

- Type = SYSTEM GENERATED
- Sub Type = INBOUND FROM INTERFACE
- Comment = "<<Error Message>>"
- Comment By = "INTERNAL"
- Comment Dt = Comment Posted date

---

#### Note

Error in web service response can also arise when a work order type is not mapped between the two systems and a case creation request is sent to third party system.

---

## C.3 Update Case

Once the details of a work order has been registered as a case in third party system, there can be subsequent updates in the details of the mapped account arising due to mismatch in

account details, change in address, collateral and so on. These changes need to be incrementally updated into the third party system and are done through the following web services which are triggered when corresponding details are updated.

Web Service	Type of change in mapped account
updateCaseAccountInfo()	When Account details are updated.
updateCaseAddress()	When Address details are updated.
updateCaseCollateral()	When Collateral details are updated.
updateCaseDebtor()	When Primary Customer details are updated.
updateCaseCosigner()	When Secondary Customer details are updated. Secondary Customer can also be the next customer type defined in the sequence.

The update web service request consists of the modified field details that are to be updated in third party system.

If the web service request is successful, the modified details are updated into the case in third party system. Also a comment is posted on the corresponding account in Customer Service > Comments tab, with the following details:

- Type = SYSTEM GENERATED
- Sub Type = INBOUND FROM INTERFACE
- Comment = “CASE NO: <<UPDATED ACCOUNT DETAILS ACCEPTED BY THIRD PARTY INTERFACE>>”
- Comment By = “INTERNAL”
- Comment Dt = Comment Posted date and time.

In case of an error in the web service response received from third party system, case details are not updated and the following details are posted as a comment against the account.

- Type = SYSTEM GENERATED
- Sub Type = INBOUND FROM INTERFACE
- Comment = “CASE NO: <<UPDATED ACCOUNT DETAILS NOT UPDATED IN THIRD PARTY INTERFACE>>”
- Comment By = “INTERNAL”
- Comment Dt = Comment Posted date and time.

## C.4 Case Comments

Case comments refers to additional details provided in the 'Vendor Messages' section of Work Orders tab that are required by the third party vendors to act upon the case.

The 'Vendor Messages' section can be updated after the case has been created in third party system and serves as a communication channel between the integrated system.

'Vendor Messages' section is available in the Work Orders tab only when the 'Channel' is selected as GENERIC RECOVERY INTERFACE and by default, the Vendor Message Type is selected as 'CLIENT UPDATE'.

The screenshot displays the Oracle Financial Services Lending and Leasing application interface. The top navigation bar includes the Oracle logo, the text 'Financial Services Lending and Leasing', and a user profile for 'Welcome, ABSHEKAR' with a 'Sign Out' button. The main content area is titled 'Vendors x' and contains several sections: 'Work Order' (with fields for Work Order #, Case #, Channel, Work Order Type, Account, Company, Branch, Vendor, and Override Reason), 'Work Order Details' (with fields for Dt, Status Dt, Currency, Estimated, Billed Amt, Paid, Reference #, Assigned By, and Followup Dt), 'Collateral Details' (with fields for Description, Identification #, Year, Make, and Model), 'Account Information' (with fields for Account Status, Charged off Dt, Due Amt, Total Outstanding, Balance, Total Due, Due Dt, Days Past Due, and Service Address), 'Vendor Information' (with fields for Contact, Phone, Extn, Fax, and Comment), and 'Vendor Messages' (highlighted with a red box, containing fields for Vendor Msg Type and Vendor Msg). The 'Vendor Messages' section is currently empty.

Accordingly, in the 'Vendor Messages' section when the details of Vendor Message Type and Vendor Message are updated for a work order, system triggers 'addCaseUpdate()' to update the same details in the third party system.

An outbound comment is posted on the corresponding account in Customer Service > Comments tab, with the following details and the update details are also captured as a record in Work Order History tab.

- Type = SYSTEM GENERATED
- Sub Type = OUTBOUND TO INTERFACE
- Comment = "[Case No]: <<Vendor Msg Text >>"
- Comment By = "USER"

- Comment Dt = Comment Posted date

## C.5 Hold Case

A particular work order or case which is already scheduled for repossession can undergo a status change when a payment is received (either full outstanding due or partial) on the non-performing account associated with the work order.

Also, an automatic case status change can happen on work order for an account based on Delinquency Days. Whenever the delinquency days falls below certain number of days as defined in system parameter "GRI\_DLQ\_DAYS\_AUTO\_STATUS\_CHG" (DELINQUENCY DAYS FOR AUTOMATIC CASE STATUS CHANGE), system auto updates the case status as 'PENDING ON HOLD/ON HOLD' on running the batch job SET-GRI (RDNDLQ\_BJ\_100\_01-AUTOMATIC CASE STATUS CHANGE).

Accordingly, when the status of a work order is changed to 'PENDING ON HOLD' in Work Orders screen, system triggers 'holdCase()' web service request to update the status of corresponding mapped case in third party system. This ensures that a work order in hold status is not processed further with third party vendor managed systems.

For information on updating the work order details, refer to section Vendors > Work Orders tab.

If the web service request is successful, a comment is posted on the corresponding account in Customer Service > Comments tab, with the following details:

- Type = SYSTEM GENERATED

- Sub Type = INBOUND FROM INTERFACE
- Comment = “CASE NO: <<CASE HOLD REQUEST ACCEPTED BY THIRD PARTY INTERFACE (Reference No)>>”
- Comment By = “INTERNAL”
- Comment Dt = Comment Posted date.

In case of an error in the web service response received from third party system, following details are posted as a comment against the account with an alert flag and the status of Work Order is not changed.

- Alert = Y
- Type = SYSTEM GENERATED
- Sub Type = INBOUND FROM INTERFACE
- Comment = “CASE NO: <<CASE HOLD REQUEST NOT UPDATED IN THIRD PARTY INTERFACE>>”
- Comment By = “INTERNAL”
- Comment Dt = Comment Posted date.

## C.6 Reopen Case

When the status of a work order is updated from ‘ON HOLD’ to ‘RELEASED’ in Work Orders screen, system triggers ‘reopenCase()’ web service request to update the status of corresponding mapped case in third party system.

This ensures that a work order in hold status is processed further with third party vendor managed systems.

The processing update of REOPEN case request at the third party system is tracked separately through a FIREHOSE web service scheduled at specific interval using a batch process. For more information, refer 'Case Updates Received via FireHose WebService' section.

If the web service request is successful, a comment is posted on the corresponding account in Customer Service > Comments tab, with the following details:

- Type = SYSTEM GENERATED
- Sub Type = INBOUND FROM INTERFACE
- Comment = "CASE NO: <<CASE REOPEN UPDATED IN THIRD PARTY INTERFACE>>"
- Comment By = "INTERNAL"
- Comment Dt = Comment Posted date

In case of an error in the web service response received from third party system, following details are posted as a comment against the account with an alert flag and the status of Work Order is not changed.

- Alert = Y
- Type = SYSTEM GENERATED

- Sub Type = INBOUND FROM INTERFACE
- Comment = “CASE NO: <<CASE REOPEN REQUEST NOT UPDATED IN THIRD PARTY INTERFACE>>”
- Comment By = “INTERNAL”
- Comment Dt = Comment Posted date

## C.7 Reassign Case

A particular work order or case which is already scheduled for repossession in third party system can be reassigned to a different vendor due to delay in action, response, status updates or any such conditions.

Accordingly, when a case is reassigned to a different vendor, the change is processed for update in third party system depending on the current case status maintained across systems as indicated below:

Scenario	OFSLL Work Order Status	GRI Case Status	Case Reassignment Update
1	Send to GRI	NEW FROM CLIENT	Case is assigned to new Vendor.
2	Open	Open	Existing case is closed (i.e. status is updated as 'PENDING REASSIGN/CLOSE') and new case is created and assigned to new Vendor.

Also, system automatically updates the work order status to 'PENDING REASSIGN/CLOSE' based on the days defined in the lookup code 'VEN\_REASSIGN\_DAYS\_CD (VENDOR REASSIGNMENT DAYS CODES)'. If the case status is OPEN for specific number of days as maintained in the sub code of the above lookup code, system auto updates the case status as 'PENDING REASSIGN/CLOSE' on running the batch job SET-GRI (RDNVNA\_BJ\_100\_01 - AUTOMATIC VENDOR REASSIGNMENT).

Accordingly, when a case is reassigned, system triggers 'reassignCase()' web service request for reassigning the case to new vendor in third party system. Depending on the case status, the case is either directly assigned to new vendor, or a new case is created with new vendor by closing the existing case.

- If Case status is 'NEW FROM CLIENT' in GRI, the case is reassigned to new vendor in GRI and no New CASE is created in OFSLL.
- If Case status is 'OPEN' in GRI, the case is updated to 'Pending on Close' status in GRI, new case is created in OFSLL with New Case # and assigned to new Vendor.

If a new case is created in third party system due to vendor reassignment, then the web service response will include the new case number. Subsequently, when a close confirmation is received on the existing case as part of case status update from FIREHOSE web service response, the work order in OFSLL is closed (status = 'CLOSE') and new work order is created with new case number, new assigned vendor and previous work order account details.

Note the following:

- New work order is created in OFSLL only if the 'reassignCase()' web service response consists of new case number created in third party system.

- If the web service response is successful but does not contain a case #, then the case is directly assigned to new vendor in third party system.

A comment is posted on the corresponding account in Customer Service > Comments tab, with the following details:

- Type = SYSTEM GENERATED
- Sub Type = INBOUND FROM INTERFACE
- Comment = NEW CASE NO: "<<CASE REASSIGNMENT REQUEST ACCEPTED BY THIRD PARTY INTERFACE >>"
- Comment By = "INTERNAL"
- Comment Dt = Comment Posted date

In case of an error in the web service response received from third party system, following details are posted as a comment against the account and the work status is not updated nor a new work order is created with new assigned vendor.

- Type = SYSTEM GENERATED
- Sub Type = INBOUND FROM INTERFACE
- Comment = CASE NO: "<<CASE REASSIGNMENT REQUEST NOT UPDATED IN THIRD PARTY INTERFACE >>"
- Comment By = "INTERNAL"
- Comment Dt = Comment Posted date

## C.8 Close Case

A particular work order or case which is already scheduled for repossession can be closed after validating the preceding status and subsequently a repossession may not be required on the account mapped to the work order.

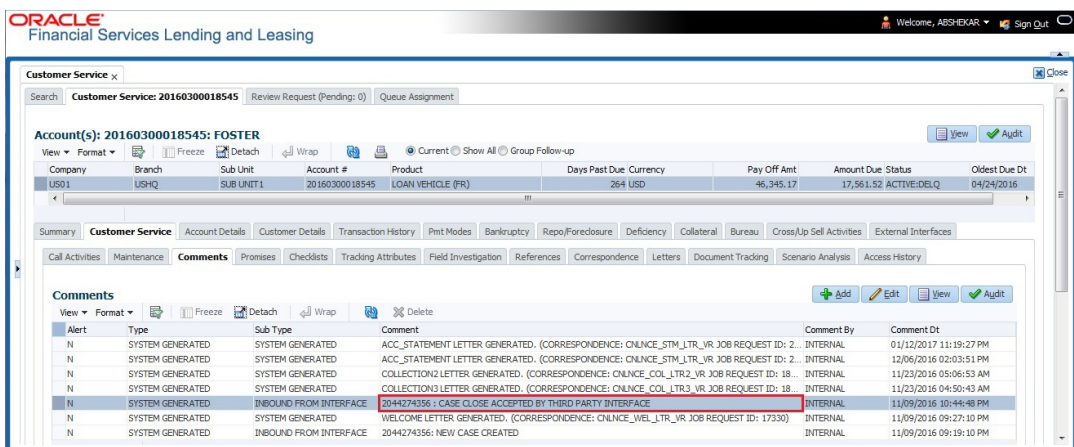

Accordingly, when the status of a work order is changed to 'PENDING CLOSE' in Work Orders screen, system triggers 'closeCase()' web service request to update the status of

corresponding mapped case in third party system. This ensures that the work order is not processed further with third party vendor managed systems.

If the web service request is successful, a comment is posted on the corresponding account in Customer Service > Comments tab, with the following details:

- Alert = N
- Type = SYSTEM GENERATED
- Sub Type = INBOUND FROM INTERFACE
- Comment = CASE NO: "<<CASE CLOSE REQUEST ACCEPTED BY THIRD PARTY INTERFACE >>"
- Comment By = "INTERNAL"
- Comment Dt = Comment Posted date

In case of an error in the web service response received from third party system, following details are posted as a comment against the account with an alert flag and the status of Work Order is not changed.

- Alert = Y
- Type = SYSTEM GENERATED
- Sub Type = INBOUND FROM INTERFACE
- Comment = CASE NO: "<<CASE CLOSE REQUEST NOT UPDATED IN THIRD PARTY INTERFACE >>"
- Comment By = "INTERNAL"
- Comment Dt = Comment Posted date

## C.9 Case Updates Received via FireHose WebService

Retrieving case status updates from the third party system is through a FIREHOSE web service response received into OFSLL through a pull service. Each response is channelled through an individual Event ID and Event Type.

A FIREHOSE web service 'getGriFireHose' - scheduled at specific interval using batch (GRIFRH\_BJ\_100\_01) retrieves the case updates. This response consists of case activities recorded in third party system between specific intervals (based on Max event ID).

Note that, the FIREHOSE web service response always contains specific Event Type Code from the third party system which are updated in the database and return is validated for appropriate action in OFSLL. The table below indicates the list of Event Type and the corresponding action updated in the system.

Event Type	Event Description	Action
600	ACCEPTED CASE	Change Work order status to "OPEN"
601	DECLINED CASE	Change Work order status to "DECLINED"
602	ACKNOWLEDGED CLOSE	Change Work order status to "CLOSE"
603	ACKNOWLEDGED HOLD	Change Work order status to "ON HOLD"
300	CASE WAS REPOED	Change Work order status to "REPOSSESSED" And Trigger "getRepossessionDetails()" web service to get repossession details and update in Servicing > Repo/Foreclosure" tab.
302	CASE COMPLETED	Change Work order status to "COMPLETED"
200	FIRST UPDATE ADDED CUSTOM	Post the received update as "Inbound Comment" from Interface in Servicing >Customer Service >Comments tab.
201	UPDATE EDITED	Post the received update as "Inbound Comment" from Interface in Servicing >Customer Service >Comments tab.
203	UPDATE UNHIDDEN	Post the received update as "Inbound Comment" from Interface in Servicing >Customer Service >Comments tab.
811	INVOICE SENT TO CLIENT	Call the "getCaseInvoiceData()" web service and create the invoices in OFSLL.
1300	CR ADDED	Update 'Condition Report Status ='Y' and Condition Report Recd Dt = Event Received Date

Based on the web service response received from third party system, the status updates are posted onto corresponding work order(s) and account(s) in OFSLL.

For example, if the FIREHOSE web service response consists of the Event Type '600', it indicates that the case is accepted by the assigned vendor in third party system and status of the work order is to be updated to 'OPEN' in OFSLL. Also a comment is posted on the corresponding account in Customer Service > Comments tab, with the following details:

- Type = SYSTEM GENERATED
- Sub Type = INBOUND FROM INTERFACE
- Comment = "[Case No]: <<[Vendor] ACCEPTED CASE>>"
- Comment By = "INTERNAL"
- Comment Dt = Comment Posted date and time

### Note

Work order status change is permitted only if the previous status matches with the defined cycle setup (Setup > Products > Cycles). Else, update is not allowed and comment is posted on the account with the message 'Work Order Status Update failed due to mismatch of previous status'.

## C.10 Case Repossession

When a case has been repossessed, the status of the case is updated by the assigned vendor in third party system. The case status is then retrieved through a FIREHOSE web service scheduled at specific interval using a batch process.

On receiving the case status update as 'REPOSSESSED' (i.e. Event Type 300) from FIREHOSE web service response, system triggers 'getRepossessionDetails()' web service request to fetch the repossession details and update the status of corresponding mapped work order and account in OFSLL.

If the web service request is successful and repossession details are received as part of the response, the status of the work order is updated in Work Orders tab and a comment is posted on the corresponding account in Customer Service > Comments tab, with the following details:

- Type = SYSTEM GENERATED
- Sub Type = INBOUND FROM INTERFACE
- Comment = "[Case No]: <<[Vendor]: REPO DETAILS RECEIVED FROM THIRD PARTY INTERFACE >>"
- Comment By = "INTERNAL"
- Comment Dt = Comment Posted date and time

ORACLE Financial Services Lending and Leasing

Welcome, ABSHEKHAR Sign Out

The screenshot displays the Oracle Financial Services Lending and Leasing interface. The top navigation bar includes the Oracle logo, the text 'Financial Services Lending and Leasing', and a user profile 'Welcome, ABSHEKHAR' with a 'Sign Out' button. The main content area shows a search bar with 'Customer Service: 2016060001' and a 'Queue Assignment' button. Below this, the account details for 'Account(s): 2016060001: COSIGNER' are displayed, including a table with columns for Company, Branch, Sub Unit, Account #, Product, Days Past Due, Currency, Pay Off Amt, Amount Due, Status, and Oldest Due Dt. The 'Comments' tab is active, showing a list of comments with columns for Alert, Type, Sub Type, Comment, Comment By, and Comment Dt. The comments list includes several entries, with the most recent one being '2044275584: GR1\_INTERFACE:REPOSSESSION DETAILS FROM GR1 UPDATED' posted by 'INTERNAL' on 11/10/2016 at 05:02:30 AM.

Alert	Type	Sub Type	Comment	Comment By	Comment Dt

N	SYSTEM GENERATED	INBOUND FROM INTERFACE	2044275584: NEW CASE CREATED	INTERNAL	11/10/2016 04:51:00 AM

The Repossession details are also updated in Repo/Foreclosure tab of Customer Service screen.

## C.11 Case Invoice

When a case has been repossessed, an invoice with the actual cost incurred for repossession and the details of the asset repossessed are updated in the third party system by the assigned vendor.

Subsequently, when the case status update is received as 'REPOSSESSED' (i.e. Event Type 300) from FIREHOSE web service response, system triggers 'getCaseInvoiceData()' web service request to retrieve the invoice and asset details from the third party system.

If the web service request is successful and repossession details are received as part of the response, the details are updated in Vendors > Invoices tab and a comment is posted on the corresponding account in Customer Service > Comments tab, with the following details:

- Type = SYSTEM GENERATED
- Sub Type = INBOUND FROM INTERFACE
- Comment = "[Case No]: <<[Vendor]: INVOICE RECEIVED FROM THIRD PARTY INTERFACE >>"
- Comment By = "INTERNAL"

- Comment Dt = Comment Posted date and time

The details of the invoice in the web service response are captured in Vendors > Invoice Information tab with invoice details and Payment Schedule. By default, the status of the invoice is 'OPEN' to update the payment details.

System auto validates the invoice details which are received from third party system with specific business rules before creating a record in the Invoice Information tab. Hence the 'Validate Invoice' button in the Information tab is disabled for invoice records from external channel (Generic Recovery Interface) and the details are marked as view only.

For more information on business rules and working with Invoices tab, refer to 'Vendors' chapter.

---

# Appendix D:Account Acceleration

## D.1 Introduction

Account Acceleration is a provision that allows a lender to insist a borrower to repay all or a part of an outstanding loan prior to the scheduled maturity date, when the borrower is identified to be fraudulent. An acceleration clause outlines the probable reason(s) for the lender to accelerate a loan account and demand loan repayment.

Accordingly in OFSLL, a fraudulent account can be accelerated by moving the maturity date up to the date of the demand for full payment which can either be the current date or a back date, but not a future date. In case of a back dated acceleration, back date cannot be scheduled beyond the 'contract date' or 'account back date' whichever is higher. Reversal of an account acceleration is also allowed to reinstate the account to its previous status.

The chapter contains the following sections:

- [Posting Account Acceleration](#)
- [Reversing Account Acceleration](#)

Example to illustrate:

- [Account Acceleration and Reversal with 'Principle First' adjustment](#)
- [Account Acceleration and Reversal with 'Interest First' adjustment](#)

## D.2 Posting Account Acceleration

Like any other monetary transaction, even the Account Acceleration transaction can be posted on the required account from the Customer Service > Maintenance screen. For detailed information on posting this transaction, refer to Appendix: Transaction Parameters > Monetary Transactions > Account Acceleration section.

### Pre-defined validations for account acceleration

While posting the account acceleration transaction, system validates the account status with the following pre-defined validations before proceeding with the transaction:

<b>Account Status / Transaction Description</b>	<b>Validations before posting transaction</b>	<b>Validations after posting transaction</b>	<b>Comments</b>
EXTENSION	No	Should not repost after reversal	
EXTENSION OVERRIDE	No	Should not repost after reversal	
INDEX / MARGIN RATE CHANGE	No	Should not repost after reversal	

<b>Account Status / Transaction Description</b>	<b>Validations before posting transaction</b>	<b>Validations after posting transaction</b>	<b>Comments</b>
CHANGE TERM	No	Should not repost after reversal	
CHANGE BALLOON	No	Should not repost after reversal	
CHANGE PAYMENT AMOUNT	No	Should not repost after reversal	
DELAY FEE	No	Should not repost after reversal	
CHANGE PROFIT RATE	No	Should not repost after reversal	
RESCHEDULE PAYMENT	No	Should not repost after reversal	
RESCHEDULE RATE	No	Should not repost after reversal	
RESCHEDULE PRE-COMPUTE LOAN TO INTEREST BEARING LOAN	No	Should not repost after reversal	

### **Errors during account acceleration**

Account acceleration is supported for accounts with 'ACTIVE' status. In case account acceleration transaction is posted on accounts with any other status or if there are any other pre-existing conditions posted on the account, system does not allow to post the transaction and displays an error. The table below lists the type of errors displayed and reason for the same.

<b>Error Message</b>	<b>Reason</b>
<b>'Account Acceleration allowed only for Active accounts'</b>	The status of the account is other than 'ACTIVE'.
<b>'Account Acceleration already posted on account'</b>	There is already an account acceleration transaction posted on account.
<b>'Account Acceleration is not allowed on Non Performing Account.'</b>	There is already a 'Non-Accrual' condition posted on account (i.e., Non Performing Indicator = Y).

Error Message	Reason
<b>'Account Acceleration not allowed as Stop Accrual is active on account'</b>	There is already a 'Stop Accrual' condition posted on account.
<b>'Balance Adjustment Method applicable for Pre-Compute account'</b>	The 'Balance Adjustment' method is selected for non-pre compute account since its applicable only for pre-compute accounts.

### **Account changes post account acceleration**

On successfully posting the account acceleration transaction, following are the account level changes:

- The acceleration effective date will be the new maturity date of the account since the original maturity date of the account is moved to either the current date or a back date.
- On an accelerated account, the periodic billing, normal interest accrual and late fee assessment is discontinued as per the standard functionality since maturity date is reached.
- From the acceleration effective date, post maturity interest accrual with corresponding post maturity interest rate is calculated and added to the total account dues as per normal processing when a monetary transaction is posted.
- For a back dated account acceleration, all the system posted transactions on the account (like billing, interest, and late fees) between acceleration date (i.e. back date) and current system date is reversed, re-calculated and re-posted based on new maturity date (i.e. acceleration date).
  - Also the interest already accrued on the account based on the normal interest rate is reversed from acceleration date (i.e. back date) up to current system date and is re-calculated with post maturity interest rate and re-posted for the same period.
- For SCRA accounts, if the borrower status is 'OFF MILITARY DUTY' during the acceleration period, then the post maturity interest rate is changed to normal interest rate for that period. In case the post maturity rate is less than standard SCRA rate (i.e. 6%), then the same is set as standard interest rate for the account.
- For an accelerated account the following account attributes are displayed in the 'Result' section:
  - Total Accelerated Payment Due Amount
  - Acceleration Effective Date
  - New Maturity Date
  - Post Maturity Interest Rate

### **Transaction posting for account acceleration**

Depending up on the type of loan account (i.e. pre-compute and non pre-compute), the account acceleration transaction is internally categorized and processed either in single stage or two stages.

- For 'Non Pre-Compute' accounts the transaction is posted directly.
- For 'Pre-Compute' accounts, the account is first converted from pre-compute to interest bearing account by internally posting the monetary transaction 'RESCHEDULE\_PC2SI' (RESCHEDULE PRE-COMPUTE LOAN TO SIMPLE INTEREST LOAN) based on the following parameter values:
  - Transaction Date: Specified acceleration date

- Reschedule payment start date: Next payment date as per the existing due date history.
- Amount: Outstanding balance under ADVANCE/PRINCIPAL balance component.
- Rate: Existing normal interest rate of the account.
- Term: Calculated for the remaining term (i.e. cycles not yet billed). Term is not relevant for account acceleration since maturity date is moved to transaction date.
- Rebate on finance and insurance charges is processed as per the normal PC2SI transaction.

Refer to examples included in below section for details on how account acceleration is posted with 'Principle First' adjustment and 'Interest First' adjustment.

## **D.3 Reversing Account Acceleration**

Reversal of an account acceleration can be done to reinstate the account to its previous status. During reversal of an account acceleration, all the related transactions posted are reversed. For example, 'RESCHEDULE\_PC2SI' is reversed in case of pre-compute accounts.

Refer to examples included in below section for details on how transactions are posted during reversal of an account acceleration.

### **D.3.1 Account Acceleration and Reversal with 'Principle First' adjustment**

Consider a loan account with following details:

- Contract Date = 01. Jan 2017
- Contract Maturity Date = 31.Dec 2017
- Rate = 4.99%
- Term = 12 Months

Balances **before** 'Account Acceleration' for a 'Pre-Compute' loan.

	<b>Posted</b>	<b>Paid</b>	<b>Waived</b>	<b>Adjusted</b>	<b>Balance</b>
ADV/INT (Pre-compute)	12300 (12000 + 300)				11900

#### **Acceleration Transaction (PC 2 SI)**

- Txn Date = 16.Aug. 2017
- Reschedule St Dt = 01.Sep. 2017
- Amount = 11900
- Rate = 4.99
- Term = 1

#### **Principal Adjustment - Minus Transaction**

With Interest Estimated Amount = 300

#### **Interest Adjustment - Plus Transaction**

Estimated Interest - Rebate = 300-90 = 210

On posting of 'Acceleration Txn' following transactions would be posted on account:

- Txn 1 - PC 2SI (with about values) = 0
- Txn 2 - Interest Rebate = 90\$(Assumed number) - Pass 11900 for rebate calculation
- Txn 3 - New Principal Adjustment Txn = Outstanding Principal = 11900
- Txn 4 - Post 'Principal Adjustment minus = 300
- Txn 5 - Post 'Interest Adjustment Plus = 210

Balances **after** posting 'Acceleration' transaction.

	Posted	Paid	Waived	Adjusted	Balance
ADV	11900	0	0	Principle adjustment minus = 300	11600
ADV/ INT (Pre-compute)	12300	490 (400 + 90)	0	0	0
INT	0	0	0	Interest adjustment plus = 210	210

Since payment is received after acceleration (i.e. same day), there is no additional interest accrual).

In case payment is received of \$350 subsequently on account acceleration (Interest adjustment spread).

	Posted	Paid	Waived	Adjusted	Balance
ADV	11900	140	0	-300	11460
ADV/ INT (Pre-compute)	12300	490 (400 + 90)	0	0	0
INT	0	210	0	210	0

### **Reversal of Account Acceleration after above Payment posting**

Transactions are reversed / posted on account automatically.

- Reverse Txn 6 - Payment of \$350
- Reverse Txn 5 - Interest Adjustment Plus = 210
- Reverse Txn 4 - Principal Adjustment minus = 300
- Reverse Txn 3 - New Principal Adjustment Txn
- Reverse Txn 2- Interest Rebate
- Reverse Txn 1- PC 2 SI
- Re-post - Txn 6 - Payment

Balances **after reversal**

	Posted	Paid	Waived	Adjusted	Balance
ADV/INT (Pre-compute)	12300	750 (400 + 350)	0	0	11550

**D.3.2 Account Acceleration and Reversal with 'Interest First' adjustment**

Consider a loan account with following details:

- Contract Date = 01. Jan 2017
- Contract Maturity Date = 31.Dec 2017
- Rate = 4.99%
- Term = 12 Months

Balances **before** 'Account Acceleration' for a 'Pre-Compute' loan.

	Posted	Paid	Waived	Adjusted	Balance
ADV/INT (Pre-compute)	12300 (12000 + 300)	500	0	0	11800

**Acceleration Transaction (PC 2 SI)**

- Txn Date = 16.Aug. 2017
- Reschedule St Dt = 01.Sep. 2017
- Amount = 11800
- Rate = 4.99
- Term = 1

**Principal Adjustment - Minus Transaction**

If 'Paid Principal Balance' > Estimated Interest - Rebate  
 Pass 'rebate' amount  
 Else  
 Post transaction with 'Estimated Interest' Amount

**Interest Adjustment - Plus Transaction**

If Paid principal > Interest Estimated - Rebate  
 Pass 0  
 Else  
 Estimated Interest - Rebate - Posted = 300 -100 -100 = 100

On posting of 'Acceleration Txn' following transactions would be posted on account:

- Txn 1 - PC 2SI (with about values) = 0
- Txn 2 - Interest Rebate = \$100 (Assumed number) - **Pass 11800 for rebate calculation**
- Txn 3 - New Principal Adjustment Txn = Outstanding Principal = 11800
- Txn 4 - Post 'Principal Adjustment minus = 100
- Txn 5 - Post 'Interest Adjustment Plus = 100

Balances **after** posting 'Acceleration' transaction

	<b>Posted</b>	<b>Paid</b>	<b>Waived</b>	<b>Adjusted</b>	<b>Balance</b>
ADV	11800	0		Principal Adjust- ment Minus = 100	11700
INT	0	0		Interest Adjust- ment Plus = 0	0
ADV/ INT (Pre-compute)	12300	500+Rebate Amount (100)	12300 - (500+100)	0	0

Since payment is received after acceleration (i.e. same day), there is no additional interest accrual).

In case payment is received of \$350 subsequently on account acceleration (Principal adjustment spread)

	<b>Posted</b>	<b>Paid</b>	<b>Waived</b>	<b>Adjusted</b>	<b>Balance</b>
ADV	11800	350	0	-100	11350
ADV/ INT (Pre-compute)	12300	500+Rebate Amount (100)	12300 - (500+100)	0	0
INT	0	0	0	0	0

### **Reversal of Account Acceleration after above Payment posting**

Transactions are reversed / posted on account automatically.

- Reverse Txn 6 - Payment Txn
- Reverse Txn 5 - Interest Adjustment Plus = 100
- Reverse Txn 4 - Principal Adjustment minus = 100
- Reverse Txn 3 - New Principal Adjustment Txn
- Reverse Txn 2 - Interest Rebate
- Reverse Txn 1 - PC 2SI (with about values) = 0
- Re-post - Txn 6 - Payment

Balances **after reversal**

	<b>Posted</b>	<b>Paid</b>	<b>Waived</b>	<b>Adjusted</b>	<b>Balance</b>
ADV/ INT (Pre-compute)	12300	850 (500 + 350)	0	0	11450

---

# Appendix E: Trading of Accounts

This chapter consists of following sections:

- [Introduction](#)
- [Prerequisites](#)
- [Trading of Accounts Workflow](#)
- [Trade Details Report](#)
- [Assumptions](#)

## **E.1 Introduction**

Trading of Accounts refers to buying and selling of account holdings (also termed as equity). Trading of Accounts in vacation ownership industry refers to an exchange of 'vacation plan' also called as 'Timeshare'. This is a flexibility offered to customer/member to trade their existing Timeshare or vacation plan with new Timeshare.

During the trade, if the existing Timeshare is fully paid then customer/member can use the full Equity/Ownership to exchange for new Timeshare. If partially paid, then only the customer paid equity can be used to exchange for new Timeshare.

Oracle Financial Services Lending and Leasing provides a complete framework for trading of accounts which involves account equity calculation, Timeshare trading (Inquiry, Processing), rescission of trade and account cancellation. Further, the details of trade equity transfer are captured and displayed in Customer Service > Trade Details screen with details of 'From' and 'To' Account(s) created as a result of Trade. This screen also records all the successful and failure equity transfers on the selected Account.

## **E.2 Prerequisites**

To perform trade, Trade Equity calculation are to be setup using User Defined Configurable Calculation parameters. For more details, refer to 'User Defined Parameters' section in Setup Guide.

## E.3 Trading of Accounts Workflow

The workflow in Trading of accounts begins with a web service request generated from third-party origination system and is processed in OFSLL with transfer of customer/member's Trade Equity from an existing (old) account to a new Account as indicated below.

Following are the high-level categorization of different processes involved in Accounts Trading workflow. These processes are handled with corresponding monetary and non-monetary transactions and they are either posted automatically or manually in OFSLL.

Click on each link to view the section details:

1. [Equity Calculation](#)
2. [Trading of Timeshare](#)
  - [Equity Validation](#)
  - [Itemizations](#)
  - [Capture Trade Details](#)
3. [Error Rectification](#)
4. [Trade Reversal/Rescission and Charge-off of Account](#)

### E.3.1 Equity Calculation

As per the above workflow, a particular account or set of customer accounts are identified for Trade and a request is generated from third party origination system to OFSLL to derive the contract equity of the trading account. This request in turn is configured to automatically post 'Trade Enquiry' transaction and Account details web service to calculate and validate if Account(s) can be traded. For more information, refer to '[Trade Enquiry Transaction](#)' section.

**E.3.2 Trading of Timeshare**

Timeshare trading involves the following processes:

- Trade Enquiry
- Add/Update Trade Details
- Trade Transaction (Upgrade, Downgrade, Split, or Combine)

On deriving contract equity of the trading account(s), a ‘Trade Enquiry Transaction’ request is generated from third party origination system to OFSLL. Trade can happen on one-to-one account, or one to multi-account, and/or from multiple to single account. Based on this, a request is placed for new Account creation, and to populate Equity Transfer details from old to new account, and a Trade transaction on existing Account using ‘Multi Account On-boarding with Transaction Posting’ services. This service facilitates to create new account with equity of old account. For detailed information of this transaction, refer to ‘[Trade Transaction](#)’ section.

**E.3.2.1 Equity Validation**

Trade transaction is allowed ‘Only if’ Sum of Equity in itemization of new Accounts = Sum of Trade Equity of existing (old) Accounts = Sum of Equity Transfer Amount in Trade Details.

- If Equity Validation is successful, Trade transaction is processed with following changes on respective accounts:

Changes to Existing (old) Account	Changes to New Account
<ul style="list-style-type: none"> <li>- Trade Details is populated with Equity Transfer details.</li> <li>- TRADE EQUITY is recalculated and updated based on Transaction Date.</li> <li>- TRADE Transaction is posted and Equity Transfer details status is updated to COMPLETED.</li> <li>- Trade related EQUITY OUT TRANSFER transaction is posted with Equity Transfer Amount. For more information, refer to ‘<a href="#">Equity Out Transfer Transaction</a>’ section.</li> <li>- ACH processing is stopped.</li> <li>- One last metro II reporting is generated with account status as PAID-OFF</li> <li>- Future billing is stopped.</li> <li>- Adjust minus transaction is posted.</li> <li>- Account status is updated as TRADED. This status indicates that there is no more Trade Equity available on the account.</li> </ul>	<ul style="list-style-type: none"> <li>- Trade Details is populated with Equity Transfer details.</li> <li>- EQUITY IN TRANSFER transaction is posted with traded transaction amount. For more information, refer to ‘<a href="#">Equity In Transfer Transaction</a>’ section.</li> <li>- Status of Trade Details is updated to COMPLETED.</li> </ul>

- If Equity Validation fails, Trade transaction is not processed and following updates are posted on respective accounts. However, a failed Equity Validation can be manually corrected as explained in 'Error Rectification' section.

Changes to Existing (old) Account	Changes to New Account
<ul style="list-style-type: none"> <li>- Status of Trade Details is updated to FAILED.</li> <li>- TRADE MISMATCH transaction is posted along with a condition - EQUITY MISMATCH DURING TRADE.</li> </ul>	<ul style="list-style-type: none"> <li>Status of Trade Details is updated to FAILED.</li> </ul>

### E.3.2.2 Itemizations

To capture 'Equity In' and 'Unpaid/Rollover Interest' into the new account created as part of Trade transaction, a set of 5 Itemizations are provided for each as part of base product.

Itemizations to record 'Equity In' transfer details from existing (old) account:

- Txn Code - IEQ\_1 to IEQ\_5
- Itemizations - ITM INCOMMING EQUITY 1 to ITM INCOMMING EQUITY 5
- Itemization Group - ITM INCOMMING EQUITY

Itemizations to record 'Unpaid/Rollover Interest' from existing (old) account:

- Txn Code - IRI\_1 to IRI\_5
- Itemizations - ITM ROLLOVER INTEREST 1 to ROLLOVER INTEREST 5
- Itemization Group - ITM ROLLOVER INTEREST

### E.3.2.3 Capture Trade Details

The details of Trade transactions are captured in Customer Service > Account Details > Trade Details sub tab. This tab displays Equity Transfer Details from existing (old) account to new account involved in the Trade. For more information, refer [Trade Details sub tab](#) section.

### **E.3.3 Error Rectification**

If a Trade transaction has failed during Equity Validation, the same can be manually corrected by adjusting the 'Equity Transfer Amount' in existing (old) account. This can be done by posting 'ADD/UPDATE TRADE DETAILS' non-monetary transaction in Customer Service > Maintenance > Transaction Batch Information section. For more details, refer to '[Add / Update Trade Details Transaction](#)' section.

Also, you can override the 'Equity In' adjustments that are received to new account after Trade processing by posting 'EQUITY IN MAINTENANCE' monetary transaction. For more information, refer to '[Equity in Maintenance Transaction](#)' section.

On resolving Equity Mismatch, Equity transfer can be processed by using TRADE FIX transaction. For more information, refer to '[Trade Fix Transaction](#)' section. This in turn posts EQUITY OUT TRANSFER transaction on existing (old) account and EQUITY IN TRANSFER transaction on new account.

On resolving Equity Validation using Trade Fix transaction, the status of Trade Details is updated as COMPLETED and status of account is updated as TRADED. However, the condition EQUITY MISMATCH DURING TRADE posted on existing (old) account needs to be removed manually by posting a Call Activity.

### **E.3.4 Trade Reversal/Rescission and Charge-off of Account**

After processing a Trade transaction, if there are unforeseen circumstances due to which the trade has to be reversed or cancelled, you can do so by posting the following non-monetary transactions in Customer Service > Maintenance > Transaction Batch Information section.

- TRADE REVERSAL - This transaction can be posted on existing (old) account to reverse the Equity Out transfer. This can be posted when the Trade Type is either 'Upgrade' (one-to-one) or 'Split' (one-to-many). For more information, refer to '[Trade Reversal](#)' section.
- RESCISSION ACCOUNT - This transaction can be posted to void the new account created as part of the Trade transaction. This can be posted when the Trade Type is either 'Upgrade' (one-to-one) or 'Combine' (many-to-one). For more information, refer to '[Rescission Transaction to Void Account](#)' section.

On processing Trade Reversal/Rescission transaction, the following changes are posted on respective accounts:

Existing (old) / Source Account	New / Target Account
<ul style="list-style-type: none"> <li>- Reverses TRADE transaction and updates Equity Out value to zero.</li> <li>- If Trade transaction is posted on Linked and Master Account, the same is reversed and account status is reverted to earlier status.</li> <li>- Removes Equity Out value updated in Account Details &gt; Traded Details screen.</li> <li>- ACH processing will be restarted.</li> <li>- Metro II reporting is restarted.</li> <li>- Future billing is restarted on next billing batch job run.</li> <li>- Adjust minus transaction is reverted.</li> <li>- Comment is posted in the format ACCOUNT TRADE REVERSED DUE TO RESCISSION ON &lt;DATE&gt; FOR THE &lt;REASON&gt; AND &lt;COMMENT&gt;.</li> </ul>	<ul style="list-style-type: none"> <li>- Reverses all active transaction on the multiple new Accounts created from Split or One-to-One trade and Void the new Accounts.</li> <li>- RESCISSION non-monetary transaction is posted to convert account to VOID status.</li> <li>- Comment is posted on multiple new Accounts in the format RESCINDED ON &lt;DATE&gt; FOR THE &lt;REASON&gt; AND &lt;COMMENT&gt;.</li> </ul>

**Charge off**

If the new account created is not performing well or due to any other reason an account is to be cancelled in OFSLL, you can post CHARGED OFF monetary transaction. For more information, refer to '[Account Charge Off](#)' section.

**E.4 Trade Details Report**

You can generated Trade Details report to view the traded accounts information within the specified date range provided in input parameters. These accounts consists of both existing

(old) accounts which are traded along with new accounts which are created as part of the trade. For more information, refer to 'Trade Details' in Reports chapter.

## E.5 Assumptions

Following are the assumptions while processing trade transactions in OFSLL:

- Trades, Splits and Combine transactions are permitted only within the same company.
- Single trade transaction is used to perform Trade, Discovery Upgrade, Downgrade, Split and Combine. Reason code or comment can be used to differentiate each process.
- Trade, Discovery Upgrade, Downgrade, Split and Combine transactions are updated with Status as TRADED.
- Downgrade should be performed by creating a new Account and posting trade transaction on existing Account.
- Reallocation of Asset after Rescission should be manually handled.
- Refund processing during Rescission/ Cancellation transaction are to be handled outside OFSLL.
- Fees, Expense and Sales Tax already applied on to be Traded, Rescinded or Cancelled Account are to be settled before transaction processing.
- 'Adjustment transaction posting' for new Trade account during equity mismatch is to be handled manually.
- Statutory Rescission day validation is not supported in OFSLL.
