TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity.

For the purposes of this definition, "control" means

(i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or

(ii) ownership of fifty percent (50%) or more of the outstanding shares, or

(iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent

infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for

reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

DataFlex License Agreement

IMPORTANT- READ CAREFULLY: This License Agreement is a binding legal agreement between You and Data Access Corporation ("DAC") for the Software Product(s) identified above, which includes computer software and associated media, and may include "online", electronic or printed documentation and associated materials (collectively the "Software Product(s)"). By installing, copying, or using a Software Product or any part thereof, you warrant that you have the authority to enter into this License Agreement and you agree to be legally bound by its terms and conditions, the limited warranties and limitations of liability and restrictions herein. If you do not agree to all terms and conditions of this License Agreement, you are not authorized to install or use the Software Product(s).

DEFINITIONS

For the purposes of this License Agreement, the following definitions apply:

"Application Software" – An End-User application software program developed with DataFlex Studio.

 "DataFlex Windows Client" – DataFlex software, the presence of which is required for the execution and use of Windows Application Software.

 "DataFlex WebApp Server" – DataFlex software, the presence of which is required for the execution and use of web, mobile or internet based Application Software.

 "DataFlex Windows/Web Combo Client" – The combination of a DataFlex Windows Client and a DataFlex Web Client licensed as a single Software Product.

 "End User" – A person that uses Application Software and its required Software Product with an appropriate license.

 "Named End User" – A specific, named person that uses Application Software and its required Software Product with an appropriate license.

 "Number of End Users" / "Number of Named End Users" – The number of End Users or Named End Users licensed to use a Software Product under the terms and conditions of this License Agreement.

"Number of Web Applications" – The number of web, mobile or internet Application Software programs licensed for use on a DataFlex WebApp Server.

"Server Instance" – A network operating system environment installed a) directly on a physical hardware server or b) on a virtual server, including a "cloud" server instance, that is configured to share resources among multiple End Users' computers or devices that are connected to it. Non-running, stored virtual Server Instances require licenses as defined in the Software Product Price List. The specific connection technology is not consequential to the definition of a Server Instance; the existence of multiple End User connections and the sharing of resources are the essence of a Server Instance for the purposes of this License Agreement. For licensing purposes, every installation of a Software Product on any Server Instance requires an individual, serialized license and registration code.

SOFTWARE PRODUCT LICENSE

The Software Product(s) are protected by copyright laws and international copyright treaties, as well as other intellectual property laws and treaties. The Software Products are licensed, not sold. Subject to the terms and conditions hereof, this LICENSE grants you the following limited, non-exclusive rights:

1.   GRANT OF LICENSE FOR DAC SOFTWARE PRODUCTS.

1.1 DATAFLEX STUDIO LICENSE: You may install DataFlex Studio on any computer of which you are the primary user. You may use DataFlex Studio on only one computer at a time. You may not share or otherwise allow another person to use your DataFlex Studio or a DataFlex Studio designated solely for your use. You may use DataFlex Studio to design, write, compile and test Application Software. For the purpose of creating Application Software, you may use and incorporate into your compiled Application Software program code, modules, packages, libraries and components installed with DataFlex Studio. You may deploy in your legal business entity compiled Application Software you create provided that properly licensed DataFlex Windows Client, DataFlex Web Client, DataFlex WebApp Server and DataFlex Connectivity Kit Licenses are provided for your End Users. DataFlex Studio includes a three-user DataFlex Windows Client with Connectivity Kit License and a three-user DataFlex Web Client License for use solely within your business. Four or more End Users in your business require the purchase of additional licenses. You may distribute to third parties compiled Application Software you create provided that you acquire or the End User acquires a valid DataFlex Windows Client License, DataFlex Web Client License or DataFlex WebApp Server License and DataFlex Connectivity Kit License as appropriate to the requirements of your Application Software.

The DataFlex Studio License includes entitlement to deploy and use a DataFlex WebApp Testing Server ("Testing Server") for development and testing use only; production deployment and/or use of the Testing Server is not licensed. For your Application Software development and testing purposes only, you may install the Testing Server on a development computer of which you are the primary user. Solely for the purposes of pre-production testing of Application Software that requires a DataFlex WebApp Server, you may install the Testing Server on a Server Instance accessible by Application Software testers and use the Testing Server to assess the quality and suitability for production use of your Application Software. The number of Application Software testers that access the Testing Server is not restricted. You are responsible for the limited, correct and compliant

use of the Testing Server. Solely with respect to electronic documents included with the Software Product, you may make copies (either in hardcopy or electronic form), provided that such copies are only for your use with the Software Product and are not republished or distributed to any third party.

If you are an individual person, only you are entitled to exercise the rights to use the DataFlex Studio granted in this section. If you are a legal business entity, you may designate one named person to exercise the rights to use DataFlex Studio granted above. Your designated user shall be referred to as you in this section. The designation of one named person to exercise your license rights does not create a separate, additional license for the designated user; licensee rights and responsibilities are non-transferrable and remain yours.

1.2 DATAFLEX PERSONAL LICENSE: For the purposes of this Section 1.1, "you" means a private, individual person not acting as or on behalf of a public or private business, organization, school, for-profit or not-for-profit entity of any kind whatsoever, may install and use DataFlex Personal on one computer of which you are the primary user. You may use DataFlex Personal to design, write, compile and test Application Software solely for personal, private, non-commercial use. You may use and incorporate into your compiled Application Software program code, modules, packages and components supplied with DataFlex Personal. DataFlex Personal includes a DataFlex Personal Windows Client with Connectivity Kit License for the personal, private, non-commercial use of your Application Software by up to three non-commercial End Users. You may distribute to third parties compiled Application Software you create solely for their personal, private, non-commercial use as long as you also provide End Users of your Application Software with 1) a copy of the Personal Windows Client with Connectivity Kit included with the Software Product, 2) your Personal License Registration Code and 3) your End User License Agreement. Your End User License Agreement must define the personal, private, non-commercial usage restrictions applicable to your Application Software.

a. Limited Software Performance Warranty. Flexera Software warrants to Licensee that during the Warranty Period the Software shall operate in substantial conformity with the Documentation. Flexera Software does not warrant that Licensee's use of the Software will be uninterrupted or error-free or that any security mechanisms implemented by the Software will not have inherent limitations. Flexera Software's sole liability (and Licensee's exclusive remedy) for any breach of this warranty shall be, in Flexera Software's sole discretion, to use commercially reasonable efforts to provide Licensee with an error-correction or work-around which corrects the reported non-conformity, to replace the non-conforming Software with conforming Software, or if Flexera Software determines such remedies to be impracticable within a reasonable period of time, to terminate the Agreement and refund the license fee paid for the Software. Flexera Software shall have no obligation with respect to a warranty claim unless notified of such claim in writing within the Warranty Period.

b. Exclusions. The limited warranties set forth in this Section shall not apply to warranty claims arising out of or relating to: (a) use of the Software with hardware or software not required in the Documentation; (b) modifications made to the Software source code; (c) defects in the Software due to accident, abuse or improper use by Licensee; or (d) Evaluation Software or Free Software.

c. Disclaimer. THE WARRANTIES IN THIS SECTION ARE LIMITED WARRANTIES AND EXCEPT AS EXPRESSLY SET FORTH IN THIS SECTION, THE SOFTWARE IS PROVIDED "AS IS". EXCEPT AS EXPRESSLY SET FORTH IN THIS SECTION, NEITHER FLEXERA SOFTWARE NOR ITS SUPPLIERS MAKE ANY OTHER WARRANTIES, EXPRESS OR IMPLIED, STATUTORY OR OTHERWISE, INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY, TITLE, FITNESS FOR A PARTICULAR PURPOSE OR NONINFRINGEMENT. LICENSEE MAY HAVE OTHER STATUTORY RIGHTS. HOWEVER, TO THE FULL EXTENT PERMITTED BY LAW, THE DURATION OF STATUTORILY REQUIRED WARRANTIES, IF ANY, SHALL BE LIMITED TO THE LIMITED WARRANTY PERIOD.

9. Limitation of Liability.

a. NEITHER FLEXERA SOFTWARE NOR ITS SUPPLIERS, IF ANY, SHALL BE LIABLE FOR INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, OR FOR DAMAGE TO SYSTEMS OR DATA, EVEN IF FLEXERA SOFTWARE HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.   FLEXERA SOFTWARE'S LIABILITY FOR ANY DAMAGES HEREUNDER SHALL IN NO EVENT EXCEED THE AMOUNT OF LICENSE FEES THAT LICENSEE HAS PAID TO FLEXERA SOFTWARE.

b. FOR USERS WITHIN EUROPE, THE MIDDLE EAST, AFRICA, OR INDIA, NO PERSON WHO IS NOT A PARTY TO THIS AGREEMENT SHALL BE ENTITLED TO

ENFORCE ANY TERMS OF THE SAME UNDER THE CONTRACTS (RIGHTS OF THIRD PARTIES) ACT 1999.

c. FLEXERA SOFTWARE DOES NOT LIMIT OR EXCLUDE ITS LIABILITY FOR DEATH OR PERSONAL INJURY CAUSED BY ITS GROSS NEGLIGENCE OR WILLFUL MISCONDUCT.

d. THE PARTIES AGREE THAT THE LIMITATIONS SPECIFIED IN THIS SECTION WILL SURVIVE AND APPLY EVEN IF ANY LIMITED REMEDY SPECIFIED IN THIS AGREEMENT IS FOUND TO HAVE FAILED IN ITS ESSENTIAL PURPOSE.

10. Assignment. Licensee may not, by operation of law or otherwise, transfer any license rights or other interests in Evaluation Software, Free Software, or Software labeled "Not for Resale" or "NFR." Licensee may not assign this Agreement (or any part thereof) without the advance written consent of Flexera Software, except that Licensee may assign this Agreement in connection with a merger, reorganization, acquisition or other transfer of all or substantially all of Licensee's assets or voting securities; provided that (i) Licensee must permanently and wholly transfer all of Licensee's rights and obligations under this Agreement; (ii) Licensee must permanently and wholly transfer all of the Software (including component parts, media, printed materials, upgrades, prior versions, and authenticity certificates); (iii) Licensee may retain no instances or copies (whole or partial) of the Software, (iv) no assignment by Licensee shall be effective until Licensee (x) provides written notice of such assignment, including the assignee's written agreement to the terms of this Agreement, (y) purchases additional license capacity and/or Support and Maintenance as may be required as a result of such assignment, and (z) pays any outstanding amounts invoiced by Flexera Software. Notwithstanding the foregoing, Licensee may not, in any event, assign any limitless License Level licenses. Any attempt by Licensee to transfer or assign this Agreement except as expressly authorized under this Section will be null and void. This Agreement will bind and inure to the benefit of each party's permitted successors and assigns.

11. Controlling Law. For Licensees in North America and Latin America, this Agreement shall be governed by the laws of the State of California and the United States without regard to conflicts of laws provisions thereof, and without regard to the United Nations Convention on the International Sale of Goods. For Licensees in Europe, Middle East, or Africa, this Agreement shall be governed by the substantive laws of England and Wales, excluding that body of law known as conflicts of law and the United Nations Convention on Contracts for the Sale of Goods. For Licensees in Australia, this Agreement shall be governed by the laws of the State of Victoria, Australia without regard to conflicts of laws provisions thereof, and without regard to the United Nations Convention on the International Sale of Goods. For Licensees in Japan, this Agreement shall be governed by the laws of Japan without regard to conflicts of laws provisions thereof, and without regard to the United Nations Convention on the International Sale of Goods. For Licensees in the Asia Pacific region other than Australia and Japan, this Agreement shall be governed by the laws of Special Administrative Region of Hong Kong without regard to conflicts of laws provisions thereof, and without regard to the Uniform Computer Information Transactions Act and the United Nations Convention on the International Sale of Goods.

12. Survival. Sections I.4 (Disclaimer), I.5 (Limitation of Liability), I.6 (Termination), II.2 (Payment and Delivery), II.3 (Taxes), II.4 (Support and Maintenance), II.5 (Warranty), II.6 (Limitation of Liability), II.7 (Termination), II.8 (Verification/Audits) (Disclaimer), II.7 (Limitation Liability), II.8 (Termination), and all of this Article III (General Terms), as well as any provision that by the very nature of which should survive shall survive any termination or expiration of this Agreement.

13. Compliance.

a. Verification/Audits. Upon Flexera Software's reasonable request, Licensee will furnish Flexera Software with a signed statement confirming whether the Software is being used by Licensee in accordance with this Agreement. Further, during the term of this Agreement and for a period of one (1) year thereafter, with prior reasonable notice of at least five (5) days, Flexera Software may audit Licensee for the purpose of verifying the information provided by Licensee under this Agreement, and for the purpose of verifying that Licensee is conforming to the terms of this Agreement. Any such audit shall be conducted during regular business hours at Licensee's facilities and shall not unreasonably interfere with Licensee's business activities. If an audit reveals an underpayment or that the Licensee's usage is greater than the License Level, then the Licensee shall immediately pay the difference in License fees and, if applicable, Support and Maintenance fees to bring the License Level into compliance. If an audit reveals that (i) Licensee has intentionally misrepresented its usage of the Software, (ii) Licensee materially breached this Agreement, or (iii) Licensee's usage is more than 5% over the License Level, then Licensee shall pay Flexera Software's reasonable costs of conducting the audit in addition to any fees due to Licensee's misrepresentation or material breach. Audits shall be conducted no more than once annually.

b. Validation of Use. In order to protect the Software from unauthorized use and in order to confirm Licensee's compliance with the license grants and restrictions set forth in this Agreement, the Software may contain validation procedures designed to detect and report to Flexera Software information identifying usage potentially violating the terms of this Agreement. This information does not contain any personally identifiable information of Licensee or the end user.

14. Confidentiality.

a. Confidential Information. Any software, documentation or technical information provided by Flexera Software (or its agents), performance information relating to the Software, and the terms of this Agreement shall be deemed "Trade Secrets" of Flexera Software without any marking or further designation.

b. Protection of Confidential Information. The Recipient shall a) have the right to disclose the Confidential Information only to its employees, consultants and Affiliates having a need to know and who have agreed in writing to be bound to confidentiality terms substantially similar to those contained herein; b) use at least as great a standard of care in protecting the Discloser's Confidential Information as it uses to protect its own information of like character, but in any event not less than a reasonable degree of care; c) use such Confidential Information only in connection with its rights and/or obligations under this Agreement; and d) at the Discloser's option return or destroy any or all Confidential Information upon the Discloser's demand. Except as expressly authorized herein, for a period of three (3) years following the disclosure date of Confidential Information to the Recipient, the Recipient will hold in confidence and not make any unauthorized use or disclosure of any Confidential Information. No time limit shall apply to Confidential Information marked or otherwise identified as or deemed to be a "Trade Secret".

c. Usage Data. Licensee understands that Flexera Software may utilize technology that gathers information about Licensee's computer system, however, such data is used solely for the purpose of understanding machine types and other system-oriented information and does not contain any personally identifiable information of Licensee.

d. Exclusions. The Recipient's nondisclosure obligation shall not apply to information that: (a) was rightfully in its possession or known to it prior to receipt of the Confidential Information; (b) is or has become public knowledge through no fault of the Recipient; (c) is rightfully obtained by the Recipient from a third party without breach of any confidentiality obligation; (d) is independently developed by employees of the Recipient who had no access to such information; or (e) is required to be disclosed pursuant to a

regulation, law or court order (but only to the minimum extent required to comply with such regulation or order and with advance notice to the Discloser).

e. Equitable Relief. The Recipient acknowledges that disclosure of Confidential Information would cause substantial harm for which damages alone would not be a sufficient remedy, and therefore that upon any such disclosure by the Recipient the Discloser shall be entitled to appropriate equitable relief in addition to whatever other remedies it might have at law.

15. Publicity. Either party may include the other party's company name in a list of customers and/or suppliers without the other party's written consent. Any other use of the other party's name or logo is prohibited without such other party's written consent.

16. Severability. If any provision of this Agreement shall be adjudged by any court of competent jurisdiction to be unenforceable or invalid, that provision shall be limited to the minimum extent necessary so that this Agreement shall otherwise remain in effect.

17. Amendments; Waivers. No supplement, modification, or amendment of this Agreement shall be binding, unless executed in writing by a duly authorized representative of each party to this Agreement. No waiver will be implied from conduct or failure to enforce or exercise rights under this Agreement, nor will any waiver be effective unless in writing signed by a duly authorized representative on behalf of the party claimed to have waived. No provision of any purchase order or other business form employed by Licensee will supersede the terms and conditions of this Agreement, and any such document relating to this Agreement shall be for administrative purposes only and shall have no legal effect.

18. Construction and Interpretation. The original of this Agreement has been written in English. Licensee waives any rights it may have under the law of its country to have this Agreement written in the language of that country. The use of the terms "including," "include" or "includes" shall in all cases herein mean "including without limitation," "include without limitation" or "includes without limitation," respectively. Unless the context otherwise requires, words importing the singular include the plural and vice-versa. Words importing the singular include the plural and words importing the masculine include the feminine and vice versa where the context so requires. This Agreement shall be equally and fairly construed without reference to the identity of the party preparing this document as the parties have agreed that each participated equally in negotiating and preparing this Agreement, or have had equal opportunity to do so. The parties waive the benefit of any statute, law or rule providing that in cases of uncertainty, contract language should be interpreted most strongly against the party who caused the uncertainty to exist. The headings and titles to the articles and sections of this Agreement are inserted for convenience only and shall not be deemed a part hereof or affect the construction or interpretation of any provision hereof.

19. Independent Contractors. The parties to this Agreement are independent contractors. There is no relationship of partnership, joint venture, employment, franchise or agency created hereby between the parties. Licensee acknowledges and agrees that the Software and Services may provide results and conclusions based on facts, assumptions, data, material, and other information that Flexera Software has not independently investigated or verified. Inaccuracy or incompleteness of such facts, assumptions, data, material, and other information could have a material effect on conclusions reached by the Software or Work Product; all actions taken or not taken by Licensee based on the output of the Software or Work Product shall be the responsibility of Licensee. Neither party will have the power to bind the other or incur obligations on the other party's behalf without the other party's prior written consent.

20. Force Majeure. Neither party shall be liable to the other for any delay or failure to perform any obligation under this Agreement (except for a failure to pay fees) if the delay or failure is due to events which are beyond the reasonable control of such party, including but not limited to any strike, blockade, war, act of terrorism, riot, natural disaster, failure or diminishment of power or of telecommunications or data networks or services, or refusal of approval or a license by a government agency.

21. U.S. Government End-Users. The Software is commercial computer software. If the user or licensee of the Software is an agency, department, or other entity of the United States Government, the use, duplication, reproduction, release, modification, disclosure, or transfer of the Software, or any related documentation of any kind, including technical data and manuals, is restricted by a license agreement or by the terms of this Agreement in accordance with Federal Acquisition Regulation 12.212 for civilian purposes and Defense Federal Acquisition Regulation Supplement 227.7202 for military purposes. The Software was developed fully at private expense. All other use is prohibited. Licensee shall flow-down this provision to any of its authorized sublicensees (including but not limited to any Licensee Products, as applicable).

22. Export Compliance. Licensee acknowledges that the Software is subject to export restrictions by the United States government and import restrictions by certain foreign governments. Licensee shall not and shall not allow any third-party to remove or export from the United States or allow the export or re-export of any part of the Software or any direct product thereof: (a) into (or to a national or resident of) any embargoed or terrorist-supporting country; (b) any end user who has been prohibited from participating in United States export transactions by any federal agency of the United States government; (c) to any country to which such export or re-export is restricted or prohibited, or as to which the United States government or any agency thereof requires an export license or other governmental approval at the time of export or re- export without first obtaining such license or approval; or (d) otherwise in violation of any export or import restrictions, laws or regulations of any United States or foreign agency or authority. Licensee agrees to the foregoing and warrants that it is not located in, under the control of, or a national or resident of any such prohibited country or on any such prohibited party list.

23. Equal Opportunity. Flexera Software agrees that it does not and will not discriminate against any employee or applicant for employment because of race, color, religion, age, sex, handicap, national origin, or sexual orientation.

24. Ambiguities. Each party and its counsel have participated fully in the review and revision of this Agreement. Any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply in interpreting this Agreement.

25. Remedies Cumulative. Except as otherwise expressly stated in this Agreement, the rights and remedies of the parties under this Agreement are cumulative and not exclusive of any rights or remedies to which the parties are entitled by law. The exercise by either party of any right or remedy under this Agreement or under applicable law will not preclude such party from exercising any other right or remedy under this Agreement or to which such party is entitled by law.

26. Entire Agreement. This Agreement is the complete and exclusive statement of the mutual understanding of the parties and supersedes and cancels all previous written and oral agreements and communications relating to the subject matter of this Agreement.

Microsoft Software License Terms

MICROSOFT VISUAL STUDIO 2017 TOOLS, ADD-ONs and C++ REDISTRIBUTABLE

These license terms are an agreement between Microsoft Corporation (or based on where you live, one of its affiliates) and you. They apply to the software named above. The terms also apply to any Microsoft services or updates for the software, except to the extent those have different terms.

IF YOU COMPLY WITH THESE LICENSE TERMS, YOU HAVE THE RIGHTS BELOW.

1. INSTALLATION AND USE RIGHTS.

You may install and use any number of copies of the software.

2. TERMS FOR SPECIFIC COMPONENTS.

a. Utilities. The software may contain some items on the Utilities List at https://go.microsoft.com/fwlink/?linkid=823097.   You may copy and install these Utilities, if included with the software, onto devices to debug and deploy your applications and

databases you developed with the software. Please note that Utilities are designed for temporary use, that Microsoft may not be able to patch or update Utilities separately from the rest of the software, and that some Utilities by their nature may make it possible for others to access devices on which the Utilities are installed. As a result, you should delete all Utilities you have installed after you finish debugging or deploying your applications and databases. Microsoft is not responsible for any third party use or access of Utilities you install on any device.

b. Build Tools. The software may include build tools which have specific use terms. For build tools, you may copy and install files from the software onto your build devices, including physical devices and virtual machines or containers on those machines, whether on-premises or remote machines that are owned by you, hosted on Azure for you, or dedicated solely to your use (collectively, "Build Devices"). You and others in your organization may use these files on your Build Devices solely to compile, build, and verify applications or run quality or performance tests of those applications as part of the build process. For clarity, "applications" means applications developed by you and others in your organization who are each licensed to use the software.

c. Microsoft Platforms. The software may include components from Microsoft Windows; Microsoft Windows Server; Microsoft SQL Server; Microsoft Exchange; Microsoft Office; and Microsoft SharePoint. These components are governed by separate agreements and their own product support policies, as described in the Microsoft "Licenses" folder accompanying the software, except that, if license terms for those components are also included in the associated installation directory, those license terms control.

d. Third Party Components. The software may include third party components with separate legal notices or governed by other agreements, as may be described in the ThirdPartyNotices file(s) accompanying the software. Even if such components are governed by other agreements, the disclaimers and the limitations on and exclusions of damages below also apply.

The software may also include components licensed under open source licenses with source code availability obligations. Copies of those licenses, if applicable, are included in the ThirdPartyNotices file(s). You may obtain this source code from us, if and as required under the relevant open source licenses, as set forth in the ThirdPartyNotices file(s). You may also find a copy of the source code available at https://thirdpartysource.microsoft.com/.

3. DATA. The software may collect information about you and your use of the software, and send that to Microsoft. Microsoft may use this information to provide services and improve our products and services. You may opt-out of many of these scenarios, but not all, as described in the product documentation. There are also some features in the software that may enable you and Microsoft to collect data from users of your applications. If you use these features, you must comply with applicable law, including providing appropriate notices to users of your applications and you should provide a copy of Microsoft's privacy statement to your users. The Microsoft privacy statement is located here https://go.microsoft.com/fwlink/?LinkID=824704. You can learn more about data collection and use in the help documentation and our privacy statement. Your use of the software operates as your consent to these practices.

4. SCOPE OF LICENSE. The software is licensed, not sold. This agreement only gives you some rights to use the software. Microsoft reserves all other rights. Unless applicable law gives you more rights despite this limitation, you may use the software only as expressly permitted in this agreement. In doing so, you must comply with any technical limitations in the software that only allow you to use it in certain ways. You may not

- work around any technical limitations in the software;

- reverse engineer, decompile or disassemble the software, or otherwise attempt to derive the source code for the software except, and only to the extent required by third party licensing terms governing the use of certain open source components that may be included in the software;

- remove, minimize, block or modify any notices of Microsoft or its suppliers in the software;

- use the software in any way that is against the law; or

- share, publish, rent or lease the software, or provide the software as a stand-alone hosted as solution for others to use, or transfer the software or this agreement to any third party.

5. EXPORT RESTRICTIONS. You must comply with all domestic and international export laws and regulations that apply to the software, which include restrictions on destinations, end users, and end use. For further information on export restrictions, visit www.microsoft.com/exporting.

6. SUPPORT SERVICES. Because this software is "as is," we may not provide support services for it.

7. ENTIRE AGREEMENT. This agreement, and the terms for supplements, updates, Internet-based services and support services that you use, are the entire agreement for the software and support services.

8. APPLICABLE LAW. If you acquired the software in the United States, Washington law applies to interpretation of and claims for breach of this agreement, and the laws of the state where you live apply to all other claims. If you acquired the software in any other country, its laws apply.

9. CONSUMER RIGHTS; REGIONAL VARIATIONS. This agreement describes certain legal rights. You may have other rights, including consumer rights, under the laws of your state or country. Separate and apart from your relationship with Microsoft, you may also have rights with respect to the party from which you acquired the software. This agreement does not change those other rights if the laws of your state or country do not permit it to do so. For example, if you acquired the software in one of the below regions, or mandatory country law applies, then the following provisions apply to you:

a. Australia. You have statutory guarantees under the Australian Consumer Law and nothing in this agreement is intended to affect those rights.

b. Canada. If you acquired this software in Canada, you may stop receiving updates by turning off the automatic update feature, disconnecting your device from the Internet (if and when you re-connect to the Internet, however, the software will resume checking for and installing updates), or uninstalling the software. The product documentation, if any, may also specify how to turn off updates for your specific device or software.

c. Germany and Austria.

(i)Warranty. The properly licensed software will perform substantially as described in any Microsoft materials that accompany the software. However, Microsoft gives no contractual guarantee in relation to the licensed software.

(ii)Limitation of Liability. In case of intentional conduct, gross negligence, claims based on the Product Liability Act, as well as, in case of death or personal or physical injury, Microsoft is liable according to the statutory law.

Subject to the foregoing clause (ii), Microsoft will only be liable for slight negligence if Microsoft is in breach of such material contractual obligations, the fulfillment of which facilitate the due performance of this agreement, the breach of which would endanger the purpose of this agreement and the compliance with which a party may constantly trust in (so-called "cardinal obligations"). In other cases of slight negligence, Microsoft will not be liable for slight negligence.

10. DISCLAIMER OF WARRANTY. THE SOFTWARE IS LICENSED "AS-IS." YOU BEAR THE RISK OF USING IT. MICROSOFT GIVES NO EXPRESS WARRANTIES, GUARANTEES OR CONDITIONS. TO THE EXTENT PERMITTED UNDER YOUR LOCAL LAWS, MICROSOFT EXCLUDES THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT.

11. LIMITATION ON AND EXCLUSION OF DAMAGES. YOU CAN RECOVER FROM MICROSOFT AND ITS SUPPLIERS ONLY DIRECT DAMAGES UP TO U.S. $5.00. YOU CANNOT RECOVER ANY OTHER DAMAGES, INCLUDING CONSEQUENTIAL, LOST PROFITS, SPECIAL, INDIRECT OR INCIDENTAL DAMAGES.

This limitation applies to (a) anything related to the software, services, content (including code) on third party Internet sites, or third party applications; and (b) claims for breach of contract, breach of warranty, guarantee or condition, strict liability, negligence, or other tort to the extent permitted by applicable law.

It also applies even if Microsoft knew or should have known about the possibility of the damages. The above limitation or exclusion may not apply to you because your country may not allow the exclusion or limitation of incidental, consequential or other damages.
