1. Preface

1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Structure

This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual.

Introduction provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Pre-requisite for the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure.

If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

1.5 Related Information Sources

3. Account Aggregation

Account aggregation feature allows retail users to link their external bank accounts to OBDX. It provides the ability to view and access all savings, term deposits and loan accounts information, anytime, anywhere using a single digital platform. The benefit of account aggregation is that retail users gets a snapshot of all financial accounts while being able to easily retrieve account details such as, net balance available across all the current and savings accounts, recent transactions, and so on, in one place. Using this feature, the user can log on to the application to see all financial accounts, instead of logging in to several accounts to tally up a financial overview, which saves time and effort.

As a part of Account Aggregation module OBDX enables,

Administrative Maintenance:

To enable a retail user to access external bank accounts, and aggregate accounts with OBDX, the system administrator has to perform External Bank Maintenance.

For more information on administrative maintenance, refer '*External Bank Maintenance*' section of *User Manual Oracle Banking Digital Experience Core*.

Retail Customer Functions:

- Consolidated view of all accounts on an Aggregation dashboard
- Quick and easy payment from internal to external accounts

[Home](#)

4. Account Aggregation – Retail Users

Account aggregation feature allows retail users to link their external bank accounts to the OBDX platform, for aggregation. The user can access the link to add the external accounts for aggregation from the dashboard. Further, the user is expected to select and map the required external bank account (s) for aggregation. An option to login using external bank credentials for linking the accounts is enabled, so that the external bank accounts of the user will be fetched and stored for account aggregation.

The user can disable/ enable external accounts at a later stage, to add or remove external accounts from his OBDX view.

Pre-requisites:

- External Banks are maintained using OBDX Administrative maintenance.
- Transaction access is provided to retail user
- Transaction working window is maintained for initiating payment from Internal to External accounts
- Transaction limits are assigned to user to perform the payment transaction

Features Supported In the Application

- Link external bank accounts for account aggregation
- Disable external bank accounts, from account aggregation feature
- Consolidated view of all accounts in an Aggregation dashboard
- Quick and easy payment from internal to external accounts

How to reach here:

If there are no linked accounts

Retail Dashboard > FuturaMax (Widget available on Dashboard) > Link Account

If the external accounts are already linked.

Retail Dashboard > FuturaMax (Widget available on Dashboard) > View Dashboard

4.1 Aggregation Page

If a logged in retail user has not linked any external bank accounts to his OBDX user id, the following Account Aggregation screen appears. The screen presents the highlights of the account aggregation feature and provides the customer with a hyperlink, to link his external bank accounts.

Dashboard Overview

My Net Worth

This widget displays the total net balance available across all the current and savings, term deposits and loan accounts of the user.

Accounts

This section lists down all the internal accounts that the customer holds with the bank as well as external accounts along with the account balance of each. The user can click  to view all the accounts of particular account type.

Each account displays the basic details such as the name of the bank in which the user holds the account, account product or offer name, the masked account number and account nickname, if defined, along with the net balance of the account.

Recent Activity

This widget displays the recent activity in the user's Savings, Term Deposit and Loans accounts. It displays the date of transaction, a description of the transaction and the debit / credit amount. The user can select an account number of a particular account type, to view the recent account activity of that account.

Link/ delink an account

This link allows the retail user to link and delink the external accounts. Clicking this link will open the 'Link Account' page having the list of all the external banks available for account aggregation.

Transfer Now

This link enables the retail user to initiate payments from internal to external accounts. Clicking this section takes the user to Transfer Money page.

Offers and Promotions

Any offers and rewards as hosted by the bank or promotional messages of any bank offerings applicable to the user will be shown in this section of the dashboard.

4.3 Linking the External Bank Accounts

This section allows the retail user to link the external accounts. The list of all the external banks is available for selection for account aggregation; the user can click the link and associate his external accounts.

To link more external bank accounts for aggregation:

1. In the **Aggregation Dashboard** screen, click the **Link/ delink an account** link. The **Link Account** screen appears.

Link Account

The screenshot shows the 'Link Account' interface. At the top right, it says 'ATM/Branch'. The Futura Bank logo is on the left, and user information 'Welcome, James Smith' with a dropdown arrow and 'Last login 18 Nov 04:57 PM' is on the right. The main heading is 'Link Account'. Underneath, there's a section for 'Most Popular Sites' with two entries: 'Demo Bank 1' with a 'Link' button and 'Bank 2' with a 'Delink' button. A 'Back To Dashboard' link is at the bottom left. A text box on the right contains the following text:

A key part of the account aggregation process is identifying the merchant, clarifying the transaction, and sorting transactions into categories as they are aggregated.

You can add and all sorts of accounts.

Some examples are : Checking, Savings, Credit Cards, Rewards, Bills, Investments, Retirements..

At the bottom, there is a copyright notice: 'Copyright © 2006, 2017, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'

2. Click the **Link** link against the external bank icon/ name which you want to link for account aggregation. The user is directed to the **Log in** page of the respective external bank.
OR
Click **Back To Dashboard** link to navigate to the retail dashboard.
3. Repeat the steps 3 to 7 of **Aggregation Dashboard** section.

4.4 De-Linking the External Bank Account

This option allows the retail user to de-link the already linked external accounts.

To de-link the external bank accounts:

1. In the **Aggregation Dashboard** screen, click the **Link/ delink an account** link. The **Link Account** screen appears.

Do you want to delink the account?

Confirm

A key part of the account aggregation process is identifying the merchant, clarifying the transaction, and sorting transactions into categories as they are aggregated.

You can add and all sorts of accounts.

Some examples are : Checking, Savings, Credit Cards, Rewards, Bills, Investments, Retirements..

3. Click **Confirm** to de-link the external bank account.
4. The success message appears.
Click **Go To Dashboard** link to navigate to the retail dashboard.

4.5 Transfer Money to the External Bank Account

The Transfer Money section enables the user to initiate payments towards the external accounts that are linked to the internal accounts.

To transfer money to the external bank account:

1. In the **Aggregation Dashboard** screen, click the **Transfer Now** link. The **Transfer Money** screen appears.

Transfer Money

The screenshot shows the 'Transfer Money' interface for Futura Bank. At the top right, it says 'ATM/Branch'. The Futura Bank logo is on the left. A search icon and a user greeting 'Welcome, James Smith' with a dropdown arrow and 'Last login 18 Nov 04:57 PM' are on the right. The main content area has a title 'Transfer Money'. Below it are two dropdown menus: 'Transfer To' with the value 'xxxxxxxxxxxx0434' and 'Transfer From' with the value 'xxxxxxxxxxxx0026'. A balance field shows 'Balance : \$38,562.15'. An 'Amount' section shows 'GBP' as the currency and '£1,000.00' as the amount, with a 'View Limits' link. A 'Note' field contains 'Reference 323233' and indicates '19 Characters Left'. At the bottom, there are two buttons: a red 'Transfer' button and a grey 'Cancel' button. A 'Back to Dashboard' link is at the very bottom. A copyright notice is at the bottom of the page: 'Copyright © 2006, 2017, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

OR
Click **Feedback** to provide feedback on the transaction.

FAQ

1. Will all my account information get refreshed automatically?

The account information of an internal account will be real time whereas the information of external accounts will be fetched from the respective banks on specific intervals set by the Bank.

2. Can I categorize the transactions performed from my external accounts?

No, as of now, Personal Finance Management module related functions (Spend and Budgets) are not enabled on account aggregation platform.

3. What is the purpose of the Account Aggregation Dashboard?

The Dashboard page provides an overview of all your internal and external accounts which are linked to your current application.

4. Will I be able to link or delink specific external accounts fetched from the external bank I have selected?

You can choose to either link or delink all accounts fetched from the external bank account using which you have logged in. Specific account selection for linking/delinking is currently not supported.

5. For transferring the money to my external account, which payment network will be used?

The network selection will be derived automatically on best suitable domestic clearing network available for the transfer based on various parameters set by the Bank or defaulted by the Bank.
