3. Introduction

Islamic Banking is a Banking system that is based on the principles of sharia (Islamic law) and guided by the Islamic economics. The Shariah Laws provide guidance on each and every aspect of human life, and the laws which govern and guide financial and commercial transactions define Islamic Banking activities.

Although Islamic banking may seem similar to conventional banking, the two differ conceptually. One key difference is that in conventional banking, banks earn their money by charging interest and fees for services, whereas in Islamic banking, banks earn their money by profit and loss sharing, leasing, charging fees for services rendered, and more.

The OBDX corporate banking modules cater to Islamic accounts as well. Users of an Islamic bank, can view the account details, transfer money, make payments, request for cheque books, and more using the portal.

A user can either have only Islamic accounts or only conventional accounts or a mix of both types of accounts. The portal caters to each case. If the customer has both conventional term deposit accounts and Islamic term deposit accounts under the same ID and password, he will have a consolidated view of all accounts on logging.

The term deposit accounts widget has a representation of both conventional and Islamic accounts. This is also true for enquiry and transaction screens. While initialing any transaction or payment, the user selects either an Islamic account or a conventional account, grouped under the respective labels.

The labels on the different pages / screens, for Islamic accounts, reflect the nomenclature as per and in accordance with Islamic Banking requirements.

4. Term Deposit

As the name suggests, a Term Deposit is a deposit held at a bank for a fixed term, generally ranging from a few days to a few years. Islamic Term deposit account offers a competitive return that varies according to the investment period that customer selects. Islamic Term deposits solutions offers the customers their returns based on the principle of profit-sharing.

Customers opt to invest in term deposits as they are a safe and secure mode of investment and yield higher returns than regular checking or savings accounts.

Pre-requisites

- Transaction access is provided to corporate customers
- Islamic Term Deposit accounts are maintained in the core banking system under a party ID mapped to the customer

Features Supported In the Application

The Corporate Islamic Term Deposit module of the application supports the following features:

- View Term Deposit Details
- Edit Maturity Instructions
- Redemption
- Request Statement
- New Term Deposit
- View Closed Deposits

5. Term Deposit Widget - Overview

The corporate overview/dashboard page displays an overview of the customer’s holdings with the bank as well as links to various transactions offered to the customer. The customer’s holdings in each account type such as Current and Savings Accounts, Term Deposits, Loans and Finances and Credit Cards, are displayed. On clicking on any account type, the details specific to that account type are displayed. One such widget is the Term Deposits widget, which is displayed on selection of account type, ‘Term Deposits’ in the Dashboard page.

The term deposits widget displays basic details of each deposit, such as the deposit account number in masked format, name of the primary account holder, profit rate applicable, maturity date, amount of deposit, and maturity amount of each deposit. Additionally, if the customer holds both Islamic and Conventional term deposits, the deposit type (Islamic or Conventional) is defined against each deposit. On selecting any term deposit account from this widget, the customer is provided with the options to view further details, view transactions, or redeem the deposit. By default, this widget displays the customer’s active term deposits.

9. Redemption

In times of financial emergencies, the primary source of funds for most people is their savings and investments. The facility to liquidate funds becomes imperative in such cases. The redeem term deposit feature enables customers to quickly liquidate their term deposits in any such situations.

Using this option, the customer can redeem either the entire amount or partial amount of a term deposit.

Customers can choose to payout the funds from a deposit through any of the following methods:

- Own Account
- Internal Account

Tips

You can apply to withdraw the funds partially or redeem your deposit fully before the actual term is up. There may be some penalty charges for premature withdrawal, which depends on the deposit type. The penal provisions for premature closure on term deposits are subject to change from time to time and may also vary with deposit schemes.

12. Deposit Calculator

The Term Deposit calculator gives an indication to the customer about the amount that the customer can acquire at maturity, if a specific amount is invested in term deposits at the bank for a fixed period of time. The system calculates the total amount of the term deposit at the end of maturity period. The Customer can choose a term deposit product that suits their needs best among all the deposit products available with the bank.

Note: This Term Deposit calculator is available only for conventional term deposit calculations.

13. Account Nickname

User can assign their own description or name to all of their individual savings, checking, term deposit, and loan and finance accounts. User's nickname is the unique ID. Nicknames will be displayed on various transactions instead of the standard account description. This option also allows user to modify or delete the nickname whenever required.

To add nickname to account:

1. Click , to add nickname to an account.
2. In the **ADD Nickname** field, enter the nickname you want to use.

FAQ

1. What is advantage of assigning a nickname to an account?

You can personalize your account by giving it a nickname. This way you will be able to easily identify it when viewing account summary.

2. Can I modify the term deposit details?

Yes, you can modify the maturity instructions defined for your term deposit as well as top up the deposit amount. Both these options are provided on the Term Deposit Details screen.

3. What happens to my term deposit at maturity?

This will depend on the maturity instructions defined by you at the time the deposit was opened. Based on your selection at that point, at the time of maturity, the deposit would either be renewed or the amount will get credited to a specified account. If the funds are to be withdrawn at maturity, you can provide the details of the account to which the maturity proceeds are to be credited.

4. Can I add funds to my term deposit?

If the term deposit product has a facility for top up, then an option will be provided to add funds into the term deposit. The maximum amount with which you can top up the deposit will be defined by the bank and displayed on the top up page.

5. Can I redeem the term deposit before the maturity date?

Yes, depending on the bank's offerings, it is possible to redeem the term deposit amount either partially or fully before the maturity date.

6. Can the maturity amount be credited into my account held with another bank?

Yes, it is possible to setup instructions to credit the maturity amount into another bank account.
