Dashboard Overview

Trends dashboard shows widgets of PFM namely, My Spends, Budgets and Goals. They give a brief snapshot of the current financial whereabouts of user with the bank.

My Spends

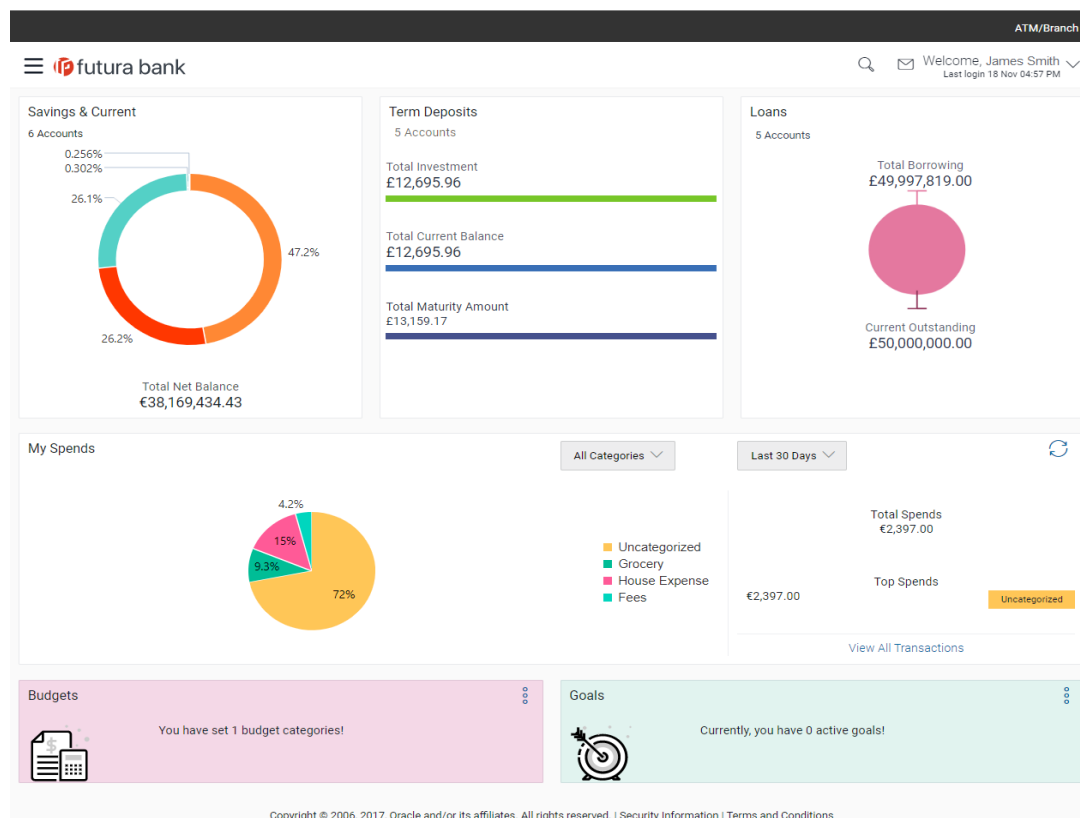

This widget displays the spending analysis of the customer. The spending patterns of the user are in the form of a donut chart. The details displayed in the chart will be based on the category wise expenditure in all savings accounts mapped to the user. The user can also view a period wise and account wise spend analysis.

This displays the total amount expenditure incurred during a period of last 30 days. It also displays the name of the category in which the highest expenditure has been incurred for that period. Click the View Details link to open the **My Spends** transaction screen. This screen displays the records of all transactions made in the customer's accounts. The category that each transaction comes under is displayed against the transaction record.

Trends

The spending analysis can be viewed by clicking on Trends in the toggle menu. The Trend Dashboard is displayed in the form of widgets, and displays the summary of all the current and savings accounts, term deposit and loan accounts held by the user.

The user can also view all his spends up to last 90 days in the My Spends widget. There is also a widget for Goals which shows the number of active goals with an option to create new goal or manage existing ones. Another widget is placed for showing number of active budget categories with option to create new budget or manage existing ones.

My Spends

This widget displays the spending analysis of the customer in the form of a pie chart. The customer can customize the way the spending analysis is displayed on the basis of the following filters:

- Filter 1: This option enables the user to view the spending analysis based on categories.
- Filter 2: Periodic search options available to the user. User can view the spending patterns of the current month, last 30 days, last 60 days or last 90 days.

The graph displays the percentage wise amount spent in each category in the chart. By default the graph displays the current month and all spend categories where expenses were incurred during that period.

Click a particular category on the graph to view details i.e. sub categories of that category. The amount spent in each category is displayed along with the percentage comprising of that sub category. Click  to refresh the graph.

The total amount of expenditure incurred during the period that is being viewed is displayed along with the two categories in which highest expenditure has been incurred for that period.

The **View All Transactions** option is provided so that the customer can view the transaction records comprising of the spending analysis. Clicking this option opens the **My Spends** transaction screen. This screen displays the records of all transactions made in the customer's accounts. The category that each transaction comes under is displayed against the transaction record.

Budgets

This widget displays the count of all the budgets created by the user. User can view, and create new budget by clicking  icon.

By using the **Create Budget** option user can create a new budget. Clicking this link takes you to the **My Budgets** screen.

Goals

This widget displays count of all the active goals that are created by the user.

Clicking on the  **More Options** icon, available on the goal card, opens the **Create Goal** and **Manage Goals** screen from which the customer can view, modify, contribute to a goal or even withdraw some amount from a goal.

3.2 Goal Calculator – Pre-Login

The goal calculator helps evolve a goal for all the customer’s life events and future plans. Goal calculator helps to calculate how much money the user need to contribute at a regular frequency in order to arrive at a specific savings goal.

The goal calculator option present on the pre-login screen or portal page of the application enables the prospect user and visitors to access the goal calculator.

This option allows the user to identify the amount of savings that has to be done to achieve a certain goal. This feature, hence, enables the user to figure out the feasibility of creating a goal based on the regular contribution amount for a defined period.

The user needs to enter the goal details along with his targeted amount. The outcome will be based on the values entered by user.

5. Budget

A budget enables the user to set a virtual cap over the expenditure. It is the key, the essential ingredient in taking command of one's money. Setting a budget, and sticking to it long term, can help to cut down a user's unwanted expenses and thereby enabling him to create wealth.

The Budgeting tool enables a customer to track the progress of budget as well as create, modify or even delete an existing budget. It enables users to set a limit on various spending categories. Over a period of time user can then observe and analyze the status and progress of expenditures against the budgeted value. Users can further set the periodicity of budget, that is, whether they want it for current month, a period of months or on recurring basis, while the frequency is set as monthly. This can be created for new customized user defined categories as well. Once created, users can adjust the budget as per the spending pattern, thus ensuring maximum savings.

Pre-requisites:

- Transaction access is provided to retail user.
- Accounts are maintained in the core banking system under a party ID mapped to the user.

5.1.1 Set Budget

This function enables the user to set a budget for a particular period with a monthly frequency. User can create a budget for the set category. The option to continue with the same budget on a rolling basis is also available.

Budget can be set for periodicity as: This month, Recurring or Specific Duration. User can also view, modify and delete his created budgets.

How to reach here:

Toggle menu > Personal Finance Management > Budget > My Budgets > Set your budget > Set Budget

OR

Toggle menu > Personal Finance Management > Trends > Budgets > More options > Create Budget > My Budgets > Set your budget > Set Budget

Set Budget

The screenshot shows the 'Set Budget' dialog box in the Futura Bank app. The dialog is titled 'Set Budget' and contains the following fields:

- Choose a Category:** A dropdown menu with 'Monthly Expenses' selected.
- Set Budget Amount:** A text input field containing '£1,000.00'.
- Periodicity:** Three radio buttons: 'This Month' (selected), 'Recurring', and 'Specific Duration'.
- Frequency:** A text input field containing 'Monthly'.

At the bottom of the dialog are two buttons: 'Save' (red) and 'Cancel' (grey). The background shows the 'My Budgets' section with 'Essentials' selected, a budget set of £200.00, and 0.00% consumed.

Field Description

FAQ

1. How do I set a budget for a one-time expense?

You can budget a one-time expense by selecting the option 'This Month' from the Periodicity field while creating the budget.

2. How can I identify how much I have spent against a set budget?

The bar graph displays the amount consumed against a budget as a percentage value. The amount spent can also be viewed in terms of actual amount value by hovering over the bar graph.

3. Can I edit my Goal amount?

Yes, you can adjust your goal amount as per your requirements; however the amount should be within the range of the product under which you have created your goal.

4. Can I change the maturity instructions of my goal after it has been created?

Yes, you can change these maturity instructions by selecting the option to edit a goal from the Goal Details page.

5. Can I stop the standing instructions set for a goal?

Yes, you can stop, alter and restart the standing instructions defined on a goal.

6. How much can a user withdraw from a goal account?

The user can withdraw a partial amount or the entire amount of the goal. Please note that if you withdraw the entire amount of the goal, the goal account gets closed. From there on the Goal can be viewed in the closed account section.

7. What happens to the interest accrued in my Goal account if I withdraw some amount?

The interest of the amount withdrawn for that period along with the penalty, if any, will be credited to the Goal account if it is active, in case of full withdrawal, the interest would be credited to the maturity account defined at the time of goal creation.

8. Can a goal be funded from an account of a different currency than that of the goal account?

Yes, however the total value will always be shown as per the base currency of account.

9. Are the interest components added to my Goal account also visible in the Goal Details page?

Amount with interest accumulated in the goal account appears on the Goal details page. Separate interest component is not shown.

10. Can I view the transactions performed on my goal that is currently closed?

No, you cannot view the transactions performed on a goal that has been closed.

11. Is there a minimum amount I must contribute initially at the time of goal creation?

Yes, the bank defines a minimum contribution amount for each goal product. At the time of goal creation, you are required to credit the goal account with an amount that is not lower than this minimum amount defined.

12. Are there any validations on the standard instructions to be defined at the time of Goal Creation?

Yes, the validations to be adhered to while defining standing instructions are as follows:

- The standing instruction must be set from a savings account you hold with the bank.
- The end date of the instruction should not be later than the date on which the goal ends.

13. What do the values in the fields 'You Pay' and 'We Pay' displayed in the Goal Calculator page signify?

The value displayed in the 'You Pay' field is the amount that you contribute towards your goal, while value displayed in the 'We Pay' component is interest accrued by the bank towards fulfillment of your goal.

14. Can I calculate the time I will require to achieve a Goal if I contribute a certain amount every month?

No, the goal calculator helps you to identify the amount you need to contribute at a defined frequency and time period. The Goal Calculator does not enable calculation of amount of time required to achieve a goal.
