# 1. Preface

## 1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

## 1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

## 1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

## 1.4 Structure

This manual is organized into the following categories:

*Preface* gives information on the intended audience. It also describes the overall structure of the User Manual.

*Introduction* provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this User Manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure.

If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

### 3. Term Deposit

As the name suggests, a Term Deposit is a deposit held at a bank for a fixed term, generally ranging from a month to a few years. If compared to regular savings accounts, the interest earned on a term deposit is higher.

Customers opt to invest in term deposits as they are a safe and secure mode of investment and yield higher returns than regular checking or savings accounts.

#### Pre-requisites

- Transaction access is provided to retail customers.
- Term Deposit accounts are maintained in the host system under a party ID mapped to the customer.

#### Features Supported In the Application

The retail module of the application supports the following features:

- Term Deposits Widget
- View Term Deposit Details
- Edit Maturity Instructions
- Top Up Term Deposit
- Redeem Term Deposit
- View Term Deposit Statement
- Request Statement
- Apply for a New Term Deposit
- View Closed Deposits
- Calculate Deposit Maturity Amount

### 3.1 Overview

The retail overview/dashboard page displays an overview of the customer's holdings with the bank as well as links to various transactions offered to the customer. The 'My Accounts' widget displays the customer's holdings in each account type such as Current and Savings Accounts, Term Deposits, Loans and Credit Cards. On clicking on any account type record, the widget displaying details specific to that account type is displayed. One such widget is the Term Deposits widget which is displayed on selection of account type, 'Term Deposits' under the My Accounts widget.

The term deposits widget displays basic details of each deposit such as the deposit account number and name of the primary account holder, the amount of deposit, interest rate applicable as well as maturity date of each deposit. Additionally, if the customer holds both Islamic and Conventional term deposits, the deposit type (Islamic or Conventional) is defined against each deposit. On selecting any term deposit from this widget, the customer is provided with the options to view further details, view statement, top up the deposit or redeem the deposit. By default, this widget displays the customer's active term deposits. The customer can also opt to view the closed deposits on this widget by selecting the provided option. The total number of active or closed term deposit accounts (depending on which are being viewed) is also displayed on the widget.

In addition to displaying records of the customer's deposits, the term deposit widget also displays options by which the customer can open a new deposit or view the deposit calculator.

## Term Deposits Widget Overview

The term deposits widget features the following:

- **Active Term Deposits:** All the active term deposits of the customer are listed down with basic details such as the deposit account number (masked), the name of the primary account holder, the deposit amount, interest rate and maturity date as well as type of deposit i.e. conventional or Islamic. Further options to view deposit details or statement and to perform top up or redemption are provided on selection of any term deposit account.
- **Inactive / Closed Term Deposits:** The customer is also provided with the option to view all the term deposits that are closed. On selecting this option, all the closed or inactive term deposits of the customer are listed down. The customer can view further details of a closed deposit by selecting any closed deposit account record.
- **New Deposit:** The customer can click on the link provided in this widget to apply for a new term deposit. On clicking on the link, the screen on which the customer can setup a new deposit is displayed.
- **Deposit Calculator:** By clicking on this option, the customer is able to navigate to the term deposit calculator page.

## 4. New Deposit under Oracle FLEXCUBE Core Banking

The New Deposit page enables the customer to apply for a new term deposit. All the term deposit offerings of the bank are available for selection on this page. The customer can select any product offered in order to apply for a term deposit of choice.

While applying for a term deposit, the customer is required to identify the amount for which the deposit is to be opened, the tenure i.e. the term of the deposit and the holding pattern i.e. single or joint. Additionally, the customer is also required to define maturity instructions and also to select the savings account from which funds are to be debited in order to fund the deposit.

In certain cases, such as specific to India region, banks might require the customer to specify his/her PAN (Permanent Account Number) while applying for a new term deposit. These could be mandatory if the customer is creating a new term deposit that exceeds a value defined by the bank or if, at any given point in time, while creating a new term deposit, the cumulative value of the deposits (Fixed as well as Recurring Deposits) held by the customer exceeds a certain amount.

The retail user will get only the corresponding products to choose from while creating the term deposit.

The term deposit offerings of the bank available are:

1. Opening conventional Term Deposit account
2. Opening RFC Term Deposit account
3. Opening TD account for NRI customers:
  - Opening NRO TD account
  - Opening NRE TD account
  - Opening FCNR TD account

However retail user with NRE CASA account can open a NRE TD and FCNR TD while the RFC CASA holders can open only RFC TD, and NRO CASA holders can open NRO TD accounts respectively.

---

**Note:** The Product mapping should be done for the user segment, so that concerned TD products are available for the user.

---

### How to reach here:

## 4.4 New FCNR Deposit

The NRI customers can open FCNR term deposit account from the respective CASA accounts in different currencies like US Dollar, UK Pound, Canadian Dollar, Deutsche Mark, Japanese Yen, and Euro. These deposits serve the dual purpose of tax savings and safety from currency fluctuations for the customers.

The retail user with NRE account, can open a FCNR term deposit account only. In case of premature withdrawal from term deposit, the maturity amount goes to NRE account with same currency.

### New FCNR Deposit

The screenshot displays the 'New FCNR Deposit' form on the Futura Bank website. The interface includes a header with the bank logo, user name (GOWRI P), and last login time. The main content area is divided into sections: 'Deposit Details' and 'Maturity Details'. In the 'Deposit Details' section, the user has selected 'OBDX FCNR USD' as the product and entered a deposit amount of '\$1,000.00'. The current exchange rate is shown as '\$1.00 = ₹71.55'. The deposit tenure is set to 'Tenure' with 3 years, 6 months, and 1 day. A note on the right side of the form instructs the user to 'Update PAN Number'. The 'Maturity Details' section includes fields for 'Maturity Instruction', 'Pay Interest To', and 'Own Account', with a dropdown menu for 'Transfer Account' showing the account number 'xxxxxxxxxx0505'.

## **FAQs**

### **1. How does a term deposit work?**

A term deposit offers a fixed interest rate for a fixed term. Interest rates differ based on the deposit term, the amount of the deposit and the interest payment frequency.

**2. When will I start earning interest on my term deposit?**

You will begin to earn interest from the day your term deposit is opened with the bank and not on the day the application is submitted.

**3. Can I open a term deposit in joint names?**

Yes, it is possible to open the term deposit with joint holders. Details of the holders have to be provided while opening the deposit. The maximum number of joint holders that can be added depends on the bank's offerings.

## 5. Redemption under Oracle FLEXCUBE Core Banking

In times of financial emergencies, the primary source of funds for most people is their savings and investments. The facility to liquidate funds becomes imperative in such cases. The redeem term deposit feature enables customers to quickly liquidate their term deposits in any such situations.

Using this option, the customer can redeem either the entire amount or a partial amount of a term deposit.

Customers can choose to payout the funds from a deposit through any of the following methods for premature withdrawal or full redemption:

- Transfer to own account
- Transfer to internal account
- Transfer to a domestic account
- Transfer to international account

---

**Note:** Only Transfer to Own Account is working with this host setup.

---

In case of premature withdrawal or on deposit maturity of Term Deposit, the following transfers are permitted:

- Conventional term deposit transfer is permissible to Current and Savings account with same local currency
- RFC term deposit transfer is permissible only to RFC accounts with same currency
- NRE term deposit transfer is permissible only to NRE account or its international account
- NRO term deposit transfer is permissible only to NRO account with same currency
- FCNR term deposit transfer is permissible only to NRE account with same currency

## 6. New Deposit under Oracle FLEXCUBE Universal Banking

The New Deposit page enables the customer to apply for a new term deposit. All the term deposit offerings of the bank are available for selection on this page. The customer can select any product offer in order to apply for a term deposit of choice.

While applying for a term deposit, the customer is required to identify the amount for which the deposit is to be opened, the tenure i.e. the term of the deposit and the holding pattern i.e. single or joint. Additionally, the customer is also required to define maturity instructions and also to select the current or savings account from which funds are to be debited in order to fund the deposit.

Certain cases, specific to India region, might require the customer to specify his/her PAN (Permanent Account Number) while applying for a new term deposit. These could be if the customer is creating a new term deposit that exceeds a value defined by the bank or if, at any given point in time, while creating a new term deposit, the cumulative value of the deposits (Fixed as well as Recurring Deposits) held by the customer exceeds a certain amount.

The term deposit offerings of the bank available are:

1. Opening conventional Term Deposit account

## FAQs

### 1. What is the advantage of assigning a nickname to an account?

You can personalize your account by giving it a nickname. This way you will be able to easily identify it.

### 2. What is Total Maturity Amount?

The total maturity amount is the amount that the deposit is worth at the time of maturity.

### 3. How does a term deposit work?

A term deposit offers a fixed interest rate for a fixed term. Interest rates differ based on the deposit term, the amount of the deposit and the interest payment frequency.

**4. When will I start earning interest on my term deposit?**

You will begin to earn interest from the day your term deposit is opened with the bank and not on the day the application is submitted.

**5. Can I open a term deposit in joint names?**

Yes, it is possible to open the term deposit with joint holders. Details of the holders have to be provided while opening the deposit. The maximum number of joint holders that can be added depends on the bank's offerings.

**6. Can I modify the term deposit details?**

Yes, you can modify the maturity instructions defined for your term deposit as well as top up the deposit amount. Both these options are provided on the Term Deposit Details screen.

**7. What happens to my term deposit at maturity?**

This will depend on the maturity instructions defined by you at the time the deposit was opened. Based on your selection at that point, at the time of maturity, the deposit would either be renewed or the amount will get credited to a specified account. If the funds are to be withdrawn at maturity, you can provide the details of the account to which the maturity proceeds are to be credited.

**8. Can I add funds to my term deposit?**

If the term deposit product has a facility for top up, then an option will be provided to add funds into the term deposit. The maximum amount with which you can top up the deposit will be defined by the bank and displayed on the top up page.

**9. Can I redeem the term deposit before the maturity date?**

Yes, depending on the bank's offerings, it is possible to redeem the term deposit amount either partially or fully before the maturity date.

**10. Can the maturity amount be credited into my account held with another bank?**

Yes, it is possible to setup instructions to credit the maturity amount into another bank account.
