# 1. Preface

## 1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

## 1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

## 1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

## 1.4 Structure

This manual is organized into the following categories:

*Preface* gives information on the intended audience. It also describes the overall structure of the User Manual.

*Introduction* provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure.

If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

## 1.5 Related Information Sources

For more information on Oracle Banking Digital Experience Release 19.2.0.0.0, refer to the following documents:

## 4. Wallets

Today's need of a user is to make fast and easy payment using a hand held device. To know recipient's bank details or entering it while making a payment (or maintaining it) is tedious and time consuming. Payment using a contact number or email id is far more convenient to the user as it is hassle free and requires no maintenance of payment details.

In order to facilitate easy and fast payments for users, a digital channel introduced as 'Wallets'. Wallets will serve easy payments to the recipients just by entering the recipient's email id or mobile number. The bank can serve additional channel for its users for basic banking and a trending way of making payments.

With wallet, user can perform basic banking using a simple and easy to use user interface.

Wallets features includes:

- Wallet Registration
- Wallet Dashboard
- Add funds to wallet
- Request Funds History
- Transfer Money
- Requested Funds from other Wallet users
- Wallet Statement
- Wallet Account Details

[Home](#)

## 5. Wallet Registration – Prospect User

In order to avail wallet and its services, user needs to register for the wallet. The Wallet registration option is available on the bank's portal so that, new user (prospect user) can also access and register for Wallet account to avail the benefits and services of the wallet account with the bank.

A prospect user needs to follow wallet registration process which involves a few steps.

Steps involved in wallet registration;

- A verification code will be sent to the user's mobile number entered at the first step of registration.
- User needs to enter the verification code as received.
- On successful authentication (OTP), the user needs to enter the personal details, such as name, date of birth, email id etc.
- User needs to provide the identification document details and address details
- System allows user to proceed further and create login credentials to get the registration process completed.
- Once registered user lands on the wallet dashboard and can start using the wallet.

## Wallet Registration - Confirm

## FAQ

### 1. Where can I use my wallet?

You can use your wallet for:

- 1) Transferring funds to another wallet user
- 2) Making payments, doing recharges
- 3) Requesting funds from another wallet user

### 2. I have entered wrong OTP, how to register for a wallet now

If you have entered the wrong OTP, you can try providing the correct OTP again. There is also an option available to re-generate the OTP.

[Home](#)

## 6. Wallet Registration – Existing User

Using this feature existing retail user can register and use the wallet facility of the bank for various transactions. The existing user (prospect user) can register for Wallet account to avail the benefits and services of the wallet account with the bank by providing a 2FA (OTP) on the registered mobile number or email ID.

A wallet widget is available on the dashboard to register for wallet using a widget at the dashboard.

Steps involved in wallet registration;

- A verification code will be sent to the user's registered mobile number entered as the first step of registration.
- User needs to enter the verification code as received.
- On successful authentication (2FA), the user gets registered for wallet and can avail the benefits of the wallet account with the bank.

Once the use registration for the wallet is complete, a Wallet account is opened for the user at the host and user can perform the transactions using the same wallet account.

Following is the list of transactions where wallet will appear in the account list

- Transfer Money - Existing Payee Domestic/Internal
- Transfer Money - New Payee Domestic/Internal
- Transfer Money - My Accounts
- Adhoc Transfer - Internal
- Adhoc Transfer - Domestic
- Multiple Transfers
- Fund Transfer History
- Request Money
- Dashboard My Network
- Dashboard Recent Activity
- Quick Bill Pay
- Quick Recharge
- Alerts & Notifications
- PFM - Budget, Spend
- Electronic Bill Payment and Presentment

### **How to reach here:**

*Dashboard > Wallet Widget > Register Now*

## Wallet – Register Now

- Wallet:** Shows the available balance of €1,093.49 and offers options to Add Money, Send Money, or View Statement.
- Deal of the Day:** A promotional banner for a 50% discount on purchases, powered by ZigBank.

## Dashboard Overview

### My Net Worth

This widget displays the total net balance available across all the accounts of the user including the wallet account. It also displays the total cash that is available in all the accounts and the total debt. The graphical representation of availability of net balance within a period of 90 days in the user's accounts and wallet is also displayed.

### Wallet Widget

Standard transactions supported in the wallet are accessible through the transaction section.

Transactions includes;

- **Add Money:** Click the link to go to the wallet **Add Money** screen.
  - **Send Money:** Click the link to go to the wallet **Send Money** screen.
  - **View Statement:** Click the link to go to the wallet **View Statement** screen. This displays the recent financial activities performed by the user. It displays the value date of transaction, description, amount of the transaction and the Dr/Cr indication along with the amount.
- 

[Home](#)

## 8. Add Money To Wallet

In order to make fund transfers or payments through the wallet, there should be balance available in the wallet. The wallet can be funded by one of the following ways:

- From user's own accounts (Only for Existing CASA users)
- Request fund from other user wallet
- Funding from external accounts like credit card, debit card, other bank accounts (depending on Payment aggregator support)

Funding wallet from any credit or debit card or using internet banking requires processing the transaction through a payment aggregator.

Using internet banking, a user can fund wallet using his own account available within bank. After a successful authentication, a user can select an account from which the wallet is to be funded.

### How to reach here:

*Dashboard > Wallets Widget > Add Money*  
*OR*

*Toggle Menu > Payments > Payments and Transfers > Transfer Money > Add Money To Wallet*

### 8.1 My Accounts

By selecting the 'My Accounts' option as transfer type, the user is able to initiate fund transfer from his own accounts held with the bank.

#### To add money to the wallet:

1. In the **Transfer Type** field, select the **My Accounts** option. The fields by which to initiate from own account transfer appear.

Click **Go to Dashboard**, to navigate to the dashboard.  
OR  
Click **More Payment Options** to access other payment options.  
OR  
Click **Add Favorite** to mark the transaction as favorite.

---

**Note:** User with only Wallet account will not be able to see this option to transfer money from their account. It is only for those who have existing CASA account with bank and have wallet account as well

---

## 8.2 Request from Wallet

With Wallet, user has the option to request funds from another wallet that is, from another user using the wallet.

User requests funds from the desired contact using the contact's mobile number. User needs to enter the desired contact mobile number and specify the funding amount to initiate the request for funds. However, it is necessary for the contact (owner mobile number) to have registered for wallet services.

The application identifies whether the mobile number is registered for the wallet. If registered, the request is honored else the initiation is not permitted.

### To request from the contact:

1. In the **Transfer Type** field, select the **Request from Wallet** option. The fields to initiate the request from other wallet user appear.

## 9. Transfer Money Between Wallets

This feature enables the retail user having a wallet account with the bank, to initiate the payments from his wallet to the other user's wallet by specifying his mobile number without adding him as a payee. This is the easy, quick and safe method of payment, the user just needs to enter the mobile number of payee and amount to be paid.

The 'Between Wallets' option in the 'Transfer Money' screen enables the user to initiate the wallet to wallet transfer.

### Prerequisites:

- Transaction and account access is provided to retail user
- The retail user and the payee has a wallet account for the purpose of transferring funds via wallet

### How to reach here:

*Dashboard > Payments Widget > Transfer Money*  
OR

*Dashboard > Toggle Menu > Payments > Payments and Transfers > Transfer Money*

### To transfer money between the wallets:

1. In the Transfer Type field, select the Between Wallets option.  
The fields by which to initiate a fund transfer between the wallets appear.

### Transfer Money - Between Wallets

The screenshot displays the 'Transfer Money' screen on the Futura Bank mobile app. At the top, the user is logged in as 'Welcome, Rahul Kambale' with a last login time of '09 Dec 12:53 PM'. The screen title is 'Transfer Money' and it features a navigation bar with options: Favorites, Adhoc Demand Draft, Transfer Money (selected), Adhoc Transfer, Multiple Transfers, Issue Demand Drafts, Funds Transfer History, and Add Mon. The 'Transfer Type' section has four radio buttons: Existing Payee, New Payee, My Accounts, and Between Wallets (selected). Below this, the 'Transfer From' section shows 'Wallet' as the source. The 'Recipient Mobile Number' field contains '8922100890'. The 'Amount' section shows 'EUR €100.00' and a 'Balance : €447.98'. A 'Note' field contains 'Sending money for bill payment'. At the bottom, there are 'Transfer' and 'Cancel' buttons. A 'Back to Dashboard' link is at the bottom left. On the right side, there is a promotional message: 'Transferring money has never been easier!' followed by text about transferring money to registered payees and a 'Did you know?' tip about multiple transfers.

## Field Description

Field Name	Description
<b>Transfer From</b>	Displays the wallet as a source account from which the funds are to be transferred.
<b>Recipient Mobile Number</b>	The mobile number of the recipient, to whom the funds is to be transferred.
<b>Currency</b>	The currency in which the transfer is to take place. Currency is defaulted to destination account currency.
<b>Amount</b>	Specify the amount to be transferred. Balance in the wallet account is shown below for easy reference.
<b>Note</b>	Any note or message to be conveyed along with the transfer to another wallet.

2. In the **Recipients Mobile Number** field, enter the mobile number of the payee.
3. In the **Amount** field, enter the transfer amount.
4. In the **Note** field, specify a note or remarks.
5. Click **Transfer** to initiate the payment.  
OR  
Click **Cancel** to cancel the operation and navigate back to 'Dashboard'.  
OR  
Click the **Back to Dashboard** link, to navigate to the dashboard.
6. The **Transfer Money - Review** screen appears. Verify the details, and click Confirm.  
OR  
Click **Cancel** to cancel the operation and navigate back to 'Dashboard'.  
OR  
Click **Back** to navigate back to previous screen.
7. The success message appears, along with the reference number and transaction details.  
Click **Go to Dashboard**, to navigate to the dashboard.  
OR  
Click **Bill Pay** to go to the Bill Payment screen.  
OR  
Click **Add Favorite** to mark the transaction as favorite.

## 10. Transfer Money From Wallets

The Transfer Money feature enables the user to initiate online payments from his bank account to any other account. Through this feature, the user is provided with the option to either transfer funds within his own accounts held in the same bank by selecting the 'My Accounts' option or to transfer funds to other accounts (held within the same bank or in other banks within the same country) by selecting the 'Existing Payee' option.

### Features supported in the application

The 'Transfer Money' feature enables users to make payments towards:

- Existing Payee – Internal & Domestic transfers are supported and are triggered based on the payee account selection.
- My Accounts – Users are able to transfer funds from wallet to their own accounts held in the bank.
- New Payee – By selecting this option, users can initiate fund transfers towards email, mobile and facebook and twitter contacts. Alternately, if the intended recipient of the funds is not yet registered as a payee, the user can also select the option 'Bank Account' in order to be navigated to the screen from which he can register an intended recipient as a payee.

### Transfer Money - Existing Payee

The existing payee option of the 'Transfer Money' feature enables the user to initiate payments using a Wallet, towards existing registered payees. All account payees created by the logged in user and shared by other users of the Party are listed for selection. Once a payee has been selected, the details are auto populated on the transaction screen. The user is then required to fill in payment details to initiate the funds transfer. Payment details will vary based on the transfer type associated with the payee's account.

#### How to reach here:

*Dashboard > Payments Widget > Transfer Money > Existing Payee*

*OR*

*Toggle menu > Payments > Payments and Transfers > Transfer Money > Existing Payee*

For more details on this transaction, refer **Oracle Banking Digital Experience Retail Payments User Manual**.

### Transfer Money - My Accounts

By selecting the 'My Accounts' option as transfer type, the user is able to initiate funds transfers towards his own account held within the bank.

#### How to reach here:

*Dashboard > Payments Widget > Transfer Money > My Accounts*

*OR*

*Toggle menu > Payments > Payments and Transfers > Transfer Money > My Accounts*

For more details on this transaction, refer **Oracle Banking Digital Experience Retail Payments User Manual**.

## Transfer Money - New Payee

By selecting the 'New Payee' option, the user is provided with three choices by which to initiate a fund transfer. They are as follows:

- Email/Mobile
- Bank Account
- Facebook
- Twitter

### How to reach here:

*Dashboard > Payments Widget > Transfer Money > New Payee*

*OR*

*Toggle menu > Payments > Payments and Transfers > Transfer Money > New Payee*

For more details on the **New Payee** option under **Transfer Money** transaction, refer **Oracle Banking Digital Experience Retail Peer To Peer Payments User Manual**.

## Multiple Transfers

The Multiple Transfers feature enables users to initiate transfers towards a group of people as part of a single transaction. Through this feature, users can initiate transfers towards registered payees of different transfer types i.e. internal and domestic, with different transfer dates, all at once from a single screen.

### How to reach here:

*Toggle menu > Payments > Payments and Transfers > Multiple Transfers*

*OR*

*Dashboard > Payments Menu > Multiple Transfers*

For more details on this transaction, refer **Oracle Banking Digital Experience Retail Payments User Manual**.

## Adhoc Transfer

An adhoc transfer is one which is used to transfer funds from the user's account to a beneficiary/payee account which is not registered with the bank. Since the transfer is towards an unregistered beneficiary, customers are required to specify the beneficiary details manually along with the transfer details while initiating an adhoc transfer.

### How to reach here:

*Toggle menu > Payments > Payments and Transfers > Adhoc Payment > Adhoc Transfer*

*OR*

*Dashboard > Quick Links > Adhoc Transfer*

For more details on this transaction, refer **Oracle Banking Digital Experience Retail Payments User Manual**.

## **Electronic Bill Presentment and Payment**

Electronic bill presentment and payment (EBPP) is a process that enables the billers to create, and present the bills / invoices online to their customers. This feature also enables the customers/ users to pay the bills online. The EBPP services are widely used in many areas like utility bill payment, fund transfer through net banking against various purchases of utility products and services by the users, payment to service providers, mobile/ DTH bill payment etc. The main advantage of electronic bill presentment and payment is that users/ customers can pay their bills anytime quickly and conveniently, which saves lots of time and paper work.

Wallet can be used to pay the bills by the registered user.

### **How to reach here:**

*Dashboard > Toggle Menu > Bill Payments > Bills*

*OR*

*Dashboard > My Bills Widget > View All Billers > Bills*

For more details on this transaction, refer **Oracle Banking Digital Experience Retail Bill Payments User Manual**.

---

Note: International transfer of funds is not supported via Wallet.

---

# 11. Requested Funds Summary

With wallet, user has an option to see the history of the fund requests received and view the status of these requests. Also, user can accept or decline any request which is pending for transfer.

The user can see the history of fund requests sent by him and the status of these requests. The user can also send a reminder to those requests which are pending for fund transfer from the payer.

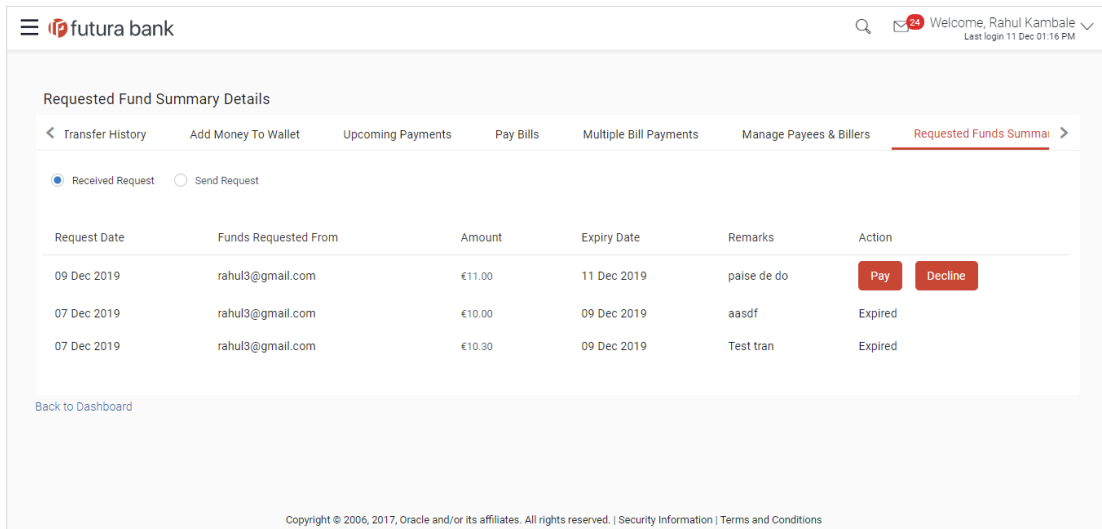

### How to reach here:

*Dashboard > Toggle Menu > Payments > Payments and Transfers > Requested Funds*

### To view the status of the requested funds:

1. Select the **Received Request** option. The list of all the fund requests received from other wallet user appear.

### Requested Funds - Received Request

### Field Description

Field Name	Description

## 12. View Statement

Statement plays an important role for customers to manage and control an account. Similar to any regular saving account, wallets supports activity statements for wallets as well. This Wallet statement shows all the accounting entries that affect the wallet balance. A brief summary of last few transactions can be viewed on the wallet dashboard.

However, there is also an option to view complete statement for the wallet. All transactions performed from wallet are shown in chronological order.

User can use the below filters to narrow the search the result.

- Transaction period
  - Current Month
  - Previous Month
  - Previous Quarter
  - Date Range
- Transaction type
  - Debits Only
  - Credit Only
  - All

User also has sort option to sort the result on the basis of transaction date.

### **How to reach here:**

*Toggle menu > Accounts > Current & Savings > View Statement*

*OR*

*Dashboard > My Account Widget > Current & Savings > Savings Account > More options > View Statement*

### **To view the wallet account statement:**

1. From the **View Options** list, select the appropriate transaction period and transaction type.
  - a. From the **Transaction Period** list, select the appropriate period.
  - b. From the **Transaction Type** list, select the appropriate option.
  - c. Click **Apply Filter** to generate statement based on criteria.  
OR  
Click **Reset** to clear the details entered.

## 13. Account Details

The account details screen displays important information related to a wallet account such as the account holding pattern and the names of all the account holders, the current status of the account and the branch in which the account is held along with details on various balances and limits applicable on the account.

### How to reach here:

*Dashboard > My Accounts Widget > Current and Savings > Active Account > More options > Wallet Account Details*

*OR*

*Toggle Menu > Accounts > Current and Savings > Savings & Current Account Details > Choose Account > Wallet Account Details*

### To view the wallet account details:

1. Select the option Active from the provided filter option on the Current & Savings widget.
2. All the active current & savings accounts held by the user appear.
3. Click on a specific wallet account record, and click on the more option icon, and then select **Account Details** option to view details of that account.

### Account Details

The screenshot shows the 'Account Details' page for Futura Bank. At the top, there's a navigation bar with 'futura bank' logo, a search icon, and a user profile 'Welcome, Rahul Kambale' with a last login time of '11 Dec 02:44 PM'. Below the navigation bar, there are tabs for 'Account Details', 'View Statement', 'Debit Cards', 'Request Statement', and 'Sweep-in'. The 'Account Details' tab is active. The main content area is divided into two columns: 'Basics' and 'Balance Details'. Under 'Basics', there are fields for 'Customer Name' (Rahul Kambale), 'Customer ID' (\*\*\*333), and 'Account Number' (xxxxxxxxxxxx0002). Under 'Balance Details', there is a field for 'Net Balance' (€447.98) and 'Available Balance' (€447.98). At the bottom left, there is a 'Back to Dashboard' link. At the bottom center, there is a copyright notice: 'Copyright © 2006, 2017, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

### Field Description

## 14. One Time Password

One Time Password is a unique code that can be used only once. It is mandatory, if configured. A verification code is sent to your registered mobile number or email ID of the account holder. You have to enter the received code to complete the process. You can use Resend Code, to receive the code (if not received or expired).

### For OTP verification:

1. In the **Verification Code** field, enter the code as received.  
OR  
Click **Resend Code**, if you wish to receive the verification code again or your verification code got expired.

### OTP Mobile - Verification

The screenshot shows the Futura Bank Wallet verification interface. At the top, there is a navigation bar with 'ATM/Branch', 'English', and 'UBS 14.3 AT3 Branch OBCL'. Below this is the Futura Bank logo and a welcome message: 'Welcome to Futura Bank Wallet'. The main content area contains a message: 'A verification code has been sent to your email/mobile. Please enter that code below to complete the process'. Below this is a 'Verification Code' input field with a placeholder '.....' and a 'Submit' button. A 'Resend Code' link is also present. To the right, there is a 'Note' box with a crown icon and text: 'Add money to wallet instantly from your linked Bank Account, request funds from other wallet users or add funds using your debit/credit cards or netbanking of any other bank account. You can easily send money to your friends, recharge your phone, pay bills and much more through the amount added to your Wallet.' At the bottom, there is a copyright notice: 'Copyright © 2006, 2017, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

### Field Description

Field Name	Description
Verification Code	The code sent to the customer to their registered mobile number.

2. Click **Submit OTP**. The success message appears.

### FAQ

#### 1. Why is there a need for a One-Time Password (OTP)?

An OTP helps to protect against online fraud. It is a secure way to authenticate whether a customer who is making an online transaction is the rightful owner of the account/credit / debit card being used.

#### 2. When do I key in the OTP and how do I receive the OTP?

When you make an online transaction using your credit/ debit card, an OTP will be sent to your mobile phone via SMS.

---

**Note:**

1. Currently, users will not be able to use any future dated transaction or utilize pay later options using their Wallet Account.

2. Only OTP should be maintained as the second factor authentication mode for '*Wallet Registration*' event. Other second factor authentication modes like Soft Token, Security Questions etc. are not supported for this event.

3. Post wallet registration, if the wallet user subsequently wishes to apply for a savings/current account by going to a branch and an account is opened in the host system directly and not via OBDX. Branch user will change customer type to appropriate customer type and then open new account.

In this case, the OBDX bank administrator will need to operationally map the role of a "Customer" and remove the role of "Wallets" against the user in OBDX.

4. Only CASA is supported for Merchants in Inward Remittance.
