<b>Description</b>			
For the <i>chg-stpopts</i> and <i>rtrv-stpopts</i> commands, LNP ported Telephone Numbers (TNs) quantity is increased to 756M, which is allowed only with ELAP SLIC SM.			
<b>Impact</b>			
This update adds the <b>Inptn756m</b> parameter in <i>chg-stpopts</i> and <i>rtrv-stpopts</i> commands in <i>Commands User's Guide</i> .			
<b>Needed Actions</b>			
The <b>Inptn756m</b> parameter has a dependency on SLIC cards. All ELAP based SM cards should be running on SLIC cards. If SMxG ELAP cards are running in the system, customers need to inhibit all SMxG ELAP cards to turn on this feature. Customers should refer to the inh-card command for more information. The <b>Inptn756m</b> parameter should only be turned ON after connecting to ELAP 10.2.
