# 1. Welcome to Oracle Banking Credit Facilities Process Management

Welcome to the Oracle Banking Credit Facilities Process Management (OBCFPM) User Manual. This manual provides an overview on the OBCFPM application and guides you through the various steps involved in creating and processing collaterals and credit facilities transactions.

If you need any information, look out for the help icon.

This document is intended for helping you to conveniently create and process economic dependency of the customer in OBCFPM

## Overview of OBCFPM

OBCFPM is a collateral and credit facilities middle office platform which enables your bank to streamline the Collateral and Credit facilities operations.

### Benefits

OBCFPM application provides service for the customers and financial institutions. This service helps the financial institutions to manage the Collaterals and Credit Facilities of the corporate clients.

OBCFPM allows you to:

- Handle Collateral Evaluation, Collateral Perfection, Collateral Review and Collateral Release process
- Handle Credit Proposal with Customer on-boarding
- Financial Document Upload of the corporate clients.
- Quantitative and Qualitative analysis of the corporate clients
- Handle Credit Exceptions

### Key Features

- Stand-alone system agnostic to back office application
- Requires very little change to bank's existing core systems
- Faster time to market
- Highly configurable based on corporate specific needs
- Flexibility in modifying processes
- Roll Based Dashboards

---

## 2. Economic Dependency Analysis

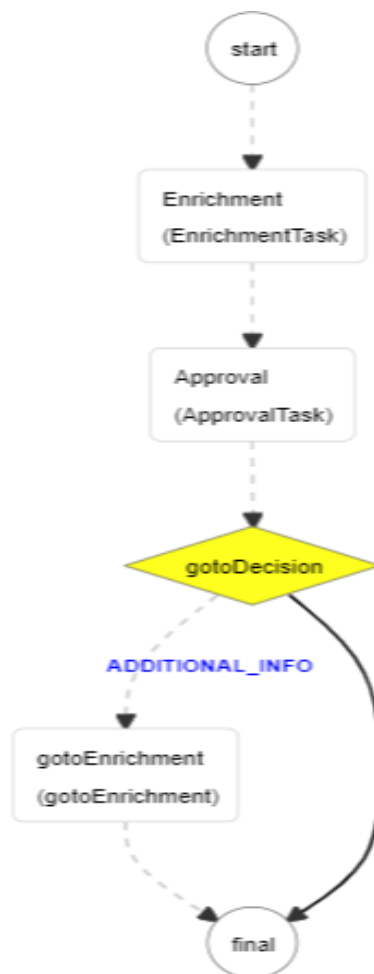

Economic Dependency Analysis is the process of analyzing the customer's dependencies on the following parameters.

- Bankers
- Guarantors
- Shareholders
- Creditors
- Debtors
- Currency
- Country
- Advisors
- Contractors
- Insurers
- Top customers
- Top suppliers
- Directors
- Management team

This helps in understanding how the cash flow or the overall financial or trading position of the bank's customer will change in case of any variation in the terms of interaction with these factors.

The change in terms of interaction with these factors can impact the customers' ability to service loans, meet conditions or adhere to the general covenants put in force by the bank.

Economic Dependency Analysis - Process Flow Diagram

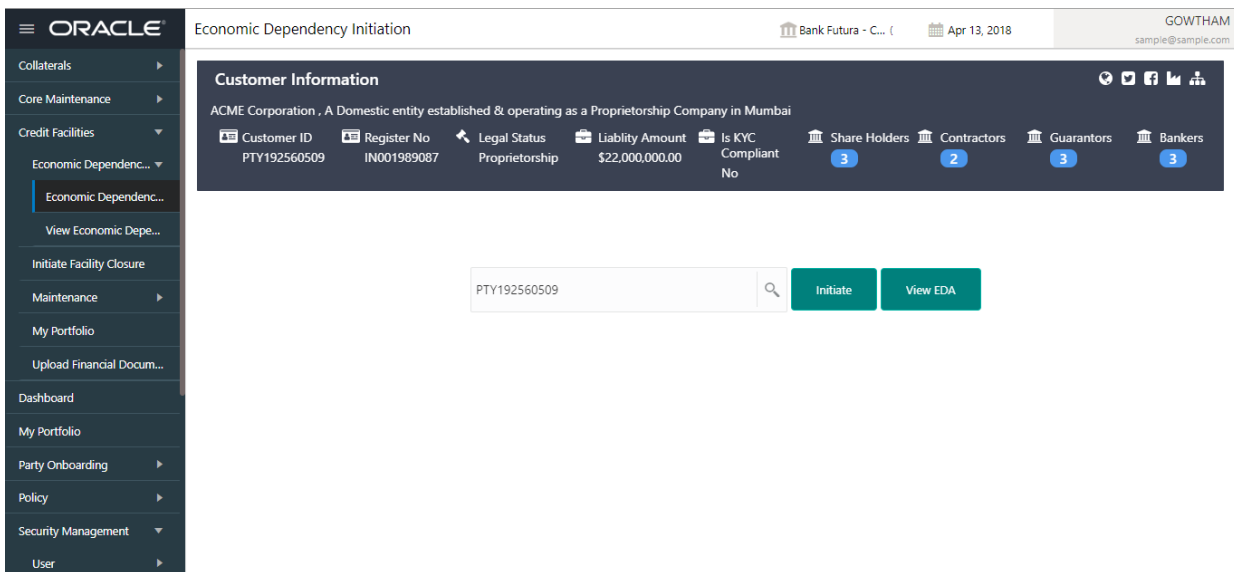

The Economic Dependency Analysis process has the following stages handled by users authorized to perform the task under those stages.

1. Enrichment
2. Approval

Enrichment

**Menu→Credit Facilities →Economic Dependency Analysis→ Economic Dependency Analysis Initiation**

**(Screen)**

From the 'menu bar', you can initiate a new economic dependency analysis.

On selecting, Economic Dependency Analysis, a new screen will open to capture the details.

User can select the customer (party) and click on Initiate to start with the economic dependency analysis.

## 2.1.1 Customer Summary

The Customer's summary information will be displayed.

### 2.1.2.7 Currency

#### Hedging and Exposure analysis

The exposure of the customer in various currencies are analysed in the currency exposure analysis. The important analysis required in the currency exposure is the hedging analysis. The variance is the difference between the credit and debt outstanding. Negative variation means that the hedging required for that currency exposure.

Click on the Edit button in each of the tiles to capture/view the parameters. As soon as the user captures the parameters the Economic Dependency Analysis gets refreshed.

#### **Action Buttons on the each of the Tiles**

- a. Edit – On Click of Edit the details and you will be able to modify the same.

#### **Action Buttons on the footer**

- a. **Save & Close** – On click of Save & Close, the details of the captured will be saved.
  - a. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.
- b. **Hold** – On Click of Hold the task status will be suspended and the task will be available in the Hold queue.
  - a. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.
- c. **Cancel** – On Click the system will ask for confirmation and on confirming the task will be closed without saving the data.
- d. **Back** – On Click of Back, the previous screen will be opened.
- e. **Next** – On click of Next, the details of the captured will be saved and then system will move to the Next Screen.
  - b. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

## 2.1.3 Comments

Field Name	Description	Attribute Type	Object Type	Size	Mandatory/Optional	Field Validation
Comments	Specify the comments for the stage. This will be visible in all the stages	Input	Free Text	600	Mandatory	

### Action Buttons

After providing required data, you will be able to perform one of the below actions –

- a) **Submit** – On Submit, the checklists applicable for the stage will be defaulted based on the application category. On Verifying all the checklist and on selection of the Outcome of the task the task will be submitted.
- b) **Save & Close** – On click of Save & Close, the details of the captured will be saved.
  - a. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.
- c) **Hold** – On Click of Hold the task status will be suspended and the task will be available in the Hold queue.
  - a. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.
- d) **Cancel** – On Click the system will ask for confirmation and on confirming the task will be closed without saving the data.
- e) **Back** – On Click of Back, the previous screen will be opened.

## 2.2 Approval Stage

As an Approver, the user would review the details of the customer's economic dependency and approve.

### 2.2.1 Economic Dependency - Approval

The user can click on each of the tiles to view the detailed information of each of the customer economic dependencies.

Field Name	Description	Attribute Type	Object Type	Size	Mandatory/Optional	Field Validation
Shareholders	Displays the shareholders of the customer.	Display	Tile			
Guarantors	Displays the guarantors of the customer.	Display	Tile			
Bankers	Displays the bankers of the customer.	Display	Tile			
Creditors	Displays the creditors of the customer.	Display	Tile			
Debtors	Displays the debtors of the customer.	Display	Tile			
Country	Displays the country dependency of the customer	Display	Tile			
Currency	Displays the currency dependency of the customer.	Display	Tile			
Advisors	Displays the advisors of the customer.	Display	Tile			
Contractors	Displays the contractors of the customer.	Display	Tile			
Insurers	Displays the insurers of the customer.	Display	Tile			
Top customers	Displays the top customers of the customer.	Display	Tile			
Top suppliers	Displays the top suppliers of the customer.	Display	Tile			

Directors	Displays the directors of the customer.	Display	Tile			
Management team	Displays the management team of the customer.	Display	Tile			

### Action Buttons on the footer

- a. **Save & Close** – On click of Save & Close the screen gets closed.
- b. **Hold** – On Click of Hold the task status will be suspended and the task will be available in the Hold queue.
  - a. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.
- c. **Cancel** – On Click the system will ask for confirmation and on confirming the task will be closed without saving the data.
- d. **Next** – On click of Next, the details of the captured will be saved and then system will move to the Next Screen.
  - b. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.

## 2.2.2 Comments

The screenshot shows the 'Comments' step of a task in the FuTura Bank system. The breadcrumb trail indicates the user is currently in the 'Comments' step, having previously viewed 'Customer Summary' and 'Approval'. The main content area contains a text input field for entering comments, a 'Post' button, and a message stating 'No items to display.' The footer of the interface features a row of action buttons: 'Hold', 'Back', 'Next', 'Save & Close', 'Submit', and 'Cancel'.

Field Name	Description	Attribute Type	Object Type	Size	Mandatory/Optional	Field Validation
Comments	Specify the comments for the	Input	Free Text	600	Mandatory	

	stage. This will be visible in all the stages				
--	---	--	--	--	--

### **Action Buttons**

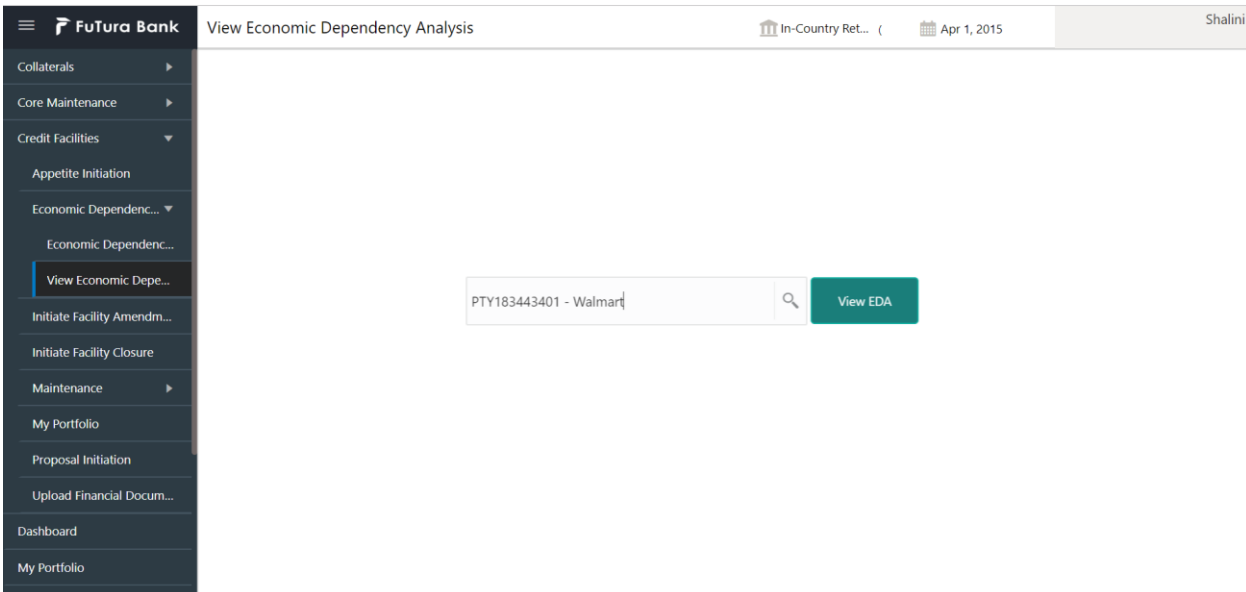

After providing required data, you will be able to perform one of the below actions –

- a) **Submit** – On Submit, the checklists applicable for the stage will be defaulted based on the application category. On Verifying all the checklist and on selection of the Outcome of the task the task will be submitted.
- b) **Save & Close** – On click of Save & Close, the details of the captured will be saved.
  - a. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.
- c) **Hold** – On Click of Hold the task status will be suspended and the task will be available in the Hold queue.
  - a. If mandatory fields have not been captured, system will display error until the mandatory fields have been captured.
- d) **Cancel** – On Click the system will ask for confirmation and on confirming the task will be closed without saving the data.
- e) **Back** – On Click of Back, the previous screen will be opened.

## **2.3 Economic Dependency Query**

**Menu→Credit Facilities →Economic Dependency Analysis→ View**

**(Screen)**

From the ‘menu bar’, you can initiate a new economic dependency analysis.

On selecting, Economic Dependency Analysis View, a new screen will open to capture the details.

User can select the customer (party) and click on View EDA to view the economic dependency analysis of the selected customer.

Basic Info

The customer's economic dependencies on the following parameters will be displayed and the user can view the same and cannot modify it.

- Bankers
- Guarantors
- Shareholders
- Creditors
- Debtors
- Currency
- Country
- Advisors
- Contractors
- Insurers
- Top customers
- Top suppliers
- Directors
- Management team

The user can click on each of the tiles to view the detailed information of each of the customer economic dependencies.

Field Name	Description	Attribute Type	Object Type	Size	Mandatory/Optional	Field Validation
Shareholders	Displays the shareholders of the customer.	Display	Tile			
Guarantors	Displays the guarantors of the customer.	Display	Tile			
Bankers	Displays the bankers of the customer.	Display	Tile			
Creditors	Displays the creditors of the customer.	Display	Tile			
Debtors	Displays the debtors of the customer.	Display	Tile			
Country	Displays the country dependency of the customer	Display	Tile			
Currency	Displays the currency dependency of the customer.	Display	Tile			
Advisors	Displays the advisors of the customer.	Display	Tile			
Contractors	Displays the contractors of the customer.	Display	Tile			
Insurers	Displays the insurers of the customer.	Display	Tile			
Top customers	Displays the top customers of the customer.	Display	Tile			

Top suppliers	Displays the top suppliers of the customer.	Display	Tile			
Directors	Displays the directors of the customer.	Display	Tile			
Management team	Displays the management team of the customer.	Display	Tile
