Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing trade finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle trade finance transaction.
- Help users to conveniently create and process trade finance transaction

Overview

OBTFPM is a trade finance middle office platform, which enables bank to streamline the trade finance operations. OBTFPM enables the customers to send request for new trade finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage trade finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all trade finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

Export LC Update Drawing

This process involves update of an existing drawing under Export LC.

For Drawings under Export LC, initiated on account of MT 734, 752 and 799, update of drawing under Export LC is initiated to process the substituted documents received from beneficiary and response received from issuing bank with discrepancy highlighted under the LC.

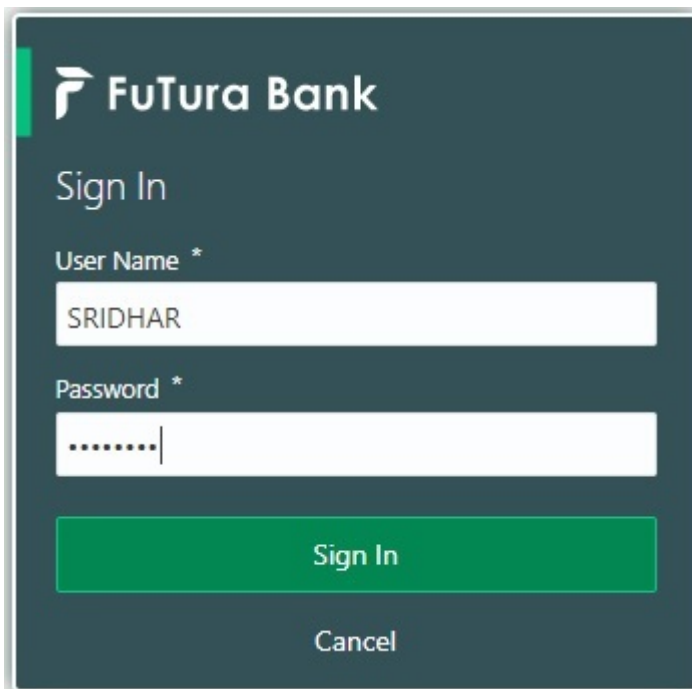

This section contains the following topics:

Registration	Scrutiny
Data Enrichment	Exceptions
Multi Level Approval	Reject Approval

Registration

During registration stage, user can capture the basic details and upload the related documents received from issuing bank. System also enables the user to capture some additional product related details as an option. On submit of the request the request will be available for an LC expert to handle the request in the next stage.

1. Using the entitled login credentials for registration stage, login to the OBTFPM application.

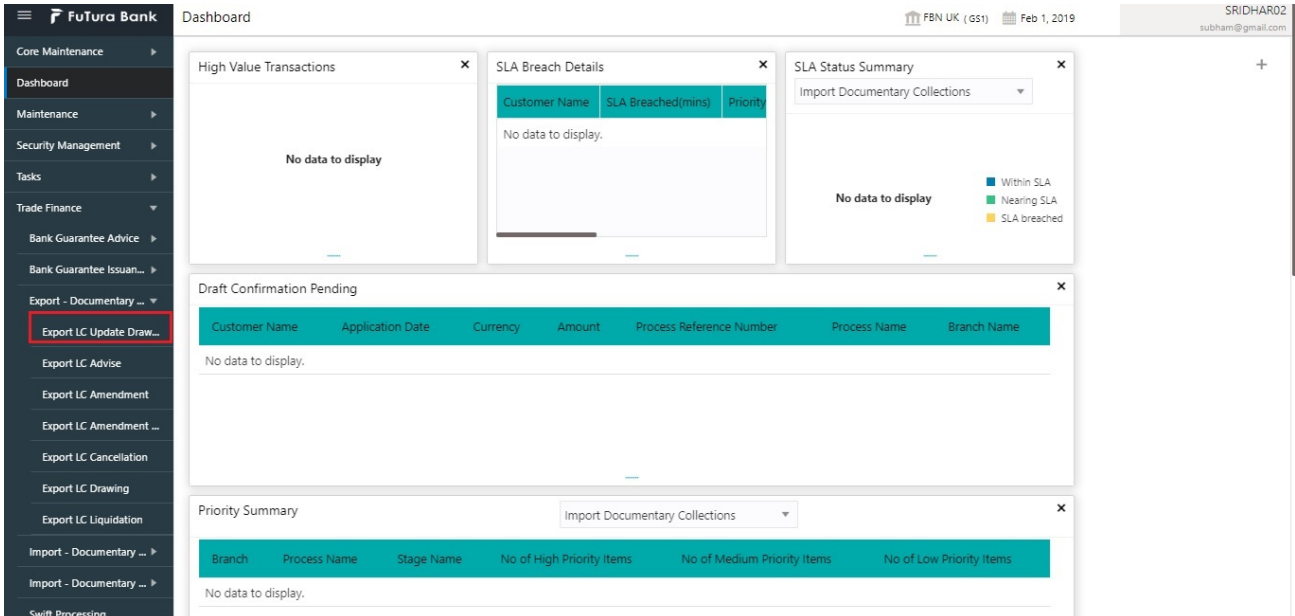

The screenshot shows a dark-themed login interface for FuTura Bank. At the top left is the FuTura Bank logo. Below it, the text 'Sign In' is displayed. There are two input fields: 'User Name *' containing the text 'SRIDHAR' and 'Password *' containing masked characters. Below these fields are two buttons: a green 'Sign In' button and a white 'Cancel' button.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click Trade Finance> Export - Documentary Credit> Export LC Drawing Update.

The registration stage has two sections Basic Details and Drawing Update Details. Let's look at the details of registration screens below:
