This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this software or related documentation is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle and Java are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information on content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.

Value-Added Reseller (VAR) Language

Oracle Retail VAR Applications

The following restrictions and provisions only apply to the programs referred to in this section and licensed to you. You acknowledge that the programs may contain third party software (VAR applications) licensed to Oracle. Depending upon your product and its version number, the VAR applications may include:

- (i) the **MicroStrategy** Components developed and licensed by MicroStrategy Services Corporation (MicroStrategy) of McLean, Virginia to Oracle and imbedded in the MicroStrategy for Oracle Retail Data Warehouse and MicroStrategy for Oracle Retail Planning & Optimization applications.
- (ii) the **Wavelink** component developed and licensed by Wavelink Corporation (Wavelink) of Kirkland, Washington, to Oracle and imbedded in Oracle Retail Mobile Store Inventory Management.
- (iii) the software component known as **Access Via**™ licensed by Access Via of Seattle, Washington, and imbedded in Oracle Retail Signs and Oracle Retail Labels and Tags.
- (iv) the software component known as **Adobe Flex**™ licensed by Adobe Systems Incorporated of San Jose, California, and imbedded in Oracle Retail Promotion Planning & Optimization application.

You acknowledge and confirm that Oracle grants you use of only the object code of the VAR Applications. Oracle will not deliver source code to the VAR Applications to you. Notwithstanding any other term or condition of the agreement and this ordering document, you shall not cause or permit alteration of any VAR

Applications. For purposes of this section, "alteration" refers to all alterations, translations, upgrades, enhancements, customizations or modifications of all or any portion of the VAR Applications including all reconfigurations, reassembly or reverse assembly, re-engineering or reverse engineering and recompilations or reverse compilations of the VAR Applications or any derivatives of the VAR Applications. You acknowledge that it shall be a breach of the agreement to utilize the relationship, and/or confidential information of the VAR Applications for purposes of competitive discovery.

The VAR Applications contain trade secrets of Oracle and Oracle's licensors and Customer shall not attempt, cause, or permit the alteration, decompilation, reverse engineering, disassembly or other reduction of the VAR Applications to a human perceivable form. Oracle reserves the right to replace, with functional equivalent software, any of the VAR Applications in future releases of the applicable program.

Send Us Your Comments

Oracle® Retail Trade Management Obligation User Guide, Release 19.1.000

Oracle welcomes customers' comments and suggestions on the quality and usefulness of this document.

Your feedback is important, and helps us to best meet your needs as a user of our products. For example:

- Are the implementation steps correct and complete?
- Did you understand the context of the procedures?
- Did you find any errors in the information?
- Does the structure of the information help you with your tasks?
- Do you need different information or graphics? If so, where, and in what format?
- Are the examples correct? Do you need more examples?

If you find any errors or have any other suggestions for improvement, then please tell us your name, the name of the company who has licensed our products, the title and part number of the documentation and the chapter, section, and page number (if available).

Note: Before sending us your comments, you might like to check that you have the latest version of the document and if any concerns are already addressed. To do this, access the Online Documentation available on the Oracle Technology Network Web site. It contains the most current Documentation Library plus all documents revised or released recently.

Send your comments to us using the electronic mail address: retail-doc_us@oracle.com

Please give your name, address, electronic mail address, and telephone number (optional).

If you need assistance with Oracle software, then please contact your support representative or Oracle Support Services.

If you require training or instruction in using Oracle software, then please contact your Oracle local office and inquire about our Oracle University offerings. A list of Oracle offices is available on our Web site at <http://www.oracle.com>.

Preface

This document describes the Oracle Retail Trade Management user interface. It provides step-by-step instructions to complete most tasks that can be performed through the user interface.

Audience

This document is for users and administrators of Oracle Retail Trade Management. This includes merchandisers, buyers, business analysts, and administrative personnel.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

Customer Support

To contact Oracle Customer Support, access My Oracle Support at the following URL: <https://support.oracle.com>

When contacting Customer Support, please provide the following:

- Product version and program/module name
- Functional and technical description of the problem (include business impact)
- Detailed step-by-step instructions to re-create
- Exact error message received
- Screen shots of each step you take

Improved Process for Oracle Retail Documentation Corrections

To more quickly address critical corrections to Oracle Retail documentation content, Oracle Retail documentation may be republished whenever a critical correction is needed. For critical corrections, the republication of an Oracle Retail document may at times not be attached to a numbered software release; instead, the Oracle Retail document will simply be replaced on the Oracle Technology Network Web site, or, in the case of Data Models, to the applicable My Oracle Support Documentation container where they reside.

Oracle Retail product documentation is available on the following web site:

<https://docs.oracle.com/en/industries/retail/index.html>

An updated version of the applicable Oracle Retail document is indicated by Oracle part number, as well as print date (month and year). An updated version uses the same part number, with a higher-numbered suffix. For example, part number E123456-02 is an updated version of a document with part number E123456-01.

If a more recent version of a document is available, that version supersedes all previous versions.

Oracle Help Center (docs.oracle.com)

Oracle Retail product documentation is available on the following web site:

<https://docs.oracle.com/en/industries/retail/index.html>

(Data Model documents can be obtained through My Oracle Support.)

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
<code>monospace</code>	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Obligation Overview

In the Obligation window you can create, edit and view obligations. An obligation can be received from a partner or supplier, and contains the expenses typically incurred for the movement and handling of goods. An obligation does not include the cost of the goods.

You can choose which expenses should be included in the actual landed cost calculation. For obligations entered at the Purchase Order header or Purchase Order/Item level, you can allocate each cost component to one or more locations. After entering the details of the obligation, you can set the status of the obligation to Approved.

If Trade Management is being used to import costs, it is assumed that all locations have the same cost value for an item. However, if the cost of the items that are being imported do vary by location, Trade Management will convert the cost values to an identical weighted average cost.

As commercial invoices are received from trading partners and suppliers, they can be recorded in the obligations module. The expenses can be recorded at a variety of levels. The levels are:

Trans Container

Applies to a unique shipment and container combination.

Trans Container PO

Applies to a unique shipment, container and purchase order combination.

Trans Container PO/Item

Applies to a unique shipment, container, purchase order, and item combination.

Trans BL/AWB

Applies to a unique shipment and bill of lading or air waybill combination.

Trans BL/AWB PO

Applies to a unique shipment, bill of lading or air waybill and purchase order combination.

Trans BL/AWB PO/Item

Applies to a unique shipment, bill of lading or air waybill, purchase order, and item combination.

Trans Vessel/Voyage/ETD

Applies to a unique shipment.

Trans Vessel/Voyage/ETD PO

Applies to a unique shipment and purchase order combination.

Trans Vessel/Voyage/ETD PO/Item

Applies to a unique shipment, purchase order, and item combination.

Purchase Order Header

Applies to a unique purchase order.

Purchase Order/Item

Applies to a unique purchase order and item combination.

PO Trans Vessel/Voyage/ETD

Applies to all transportation records associated with a unique purchase order.

Customs Entry Header

Applies to a unique customs entry.

ASN Shipment

Applies to an ASN.

ASN Purchase Order

Applies to a unique ASN and purchase order combination.

ASN Container

Applies to a unique ASN and carton combination.

Each shipment is designated by a unique combination of vessel, voyage, and estimated departure date. For obligations at the purchase order header and purchase order/item level, you can allocate costs to one or more locations.

When the obligation is complete, you can approve the costs. The costs are transmitted to the actual landed cost module. If you have access to the Oracle Retail Invoice Matching product, non-merchandise invoices are created automatically from approved obligations.

The Obligation window contains the following sections.

- Obligation (see [Define/Enter an Obligation](#))
- [Invoice and Payment](#)
- [Comments](#)
- [Components](#)
- [Locations](#)
- [Obligations Toolbar](#)

Create an Obligation

To create a new obligation follow the steps below.

1. From the Tasks menu, select **Trade Management > Import Financials > Create Obligation**. The Create Obligation window appears.
2. In the **Level** field, select the level of the obligation from the list. For example, select ASN.
 - Click **OK** to create the obligation. The Obligation window appears.
 - Click **Cancel** to exit the Obligation window.
3. In the Obligation window fill out the sections as necessary. For more information about the Obligation window, see the [Define/Enter an Obligation](#) section.
4. After you have entered all necessary information, choose one of the following options.
 - Click **Save and Close**, to save changes to the obligation and exit the Obligation window.
 - Click the arrow on the right side of the button to display the additional save options.
 - Click **Save** to save your entries.
 - Click **Save and Create Another** to save the current obligation and create further entries.

Define/Enter an Obligation

The header of the Obligation section displays the obligation ID, the level and the status of the obligation. For example, the level of the ASN and the status Pending are displayed in the top right corner of the section.

The fields of the Obligation section vary depending on the selected level of the obligation. Only fields necessary for the specific level are displayed. The table below lists the possible fields.

Table 2–1 Obligation - Fields and Description

Fields	Description
Vessel	Enter, select or search for the vessel.
Voyage/Flight	Enter, select or search for the voyage/flight number.
Estimated Departure Date	Enter, select or search for the estimated departure date.
Container	Enter, select or search for the container.

Table 2–1 (Cont.) Obligation - Fields and Description

Fields	Description
Order No.	Enter, select or search for the order number.
Item	Enter the item number or use the Search icon to search for an item.
BOL/AWB	Enter the bill of lading or airway bill.
Entry No.	Enter, select or search for the entry number.
ASN	Enter, select or search for the Advanced Shipping Notice (ASN).
Carton	Enter, select or search for the carton.

Invoice and Payment

In the Invoice and Payment container you can identify the partner or supplier site the obligation is being received from.

If Partner is selected, a choice list will be enabled, which will enable the user to select a Partner Type. Once a Partner Type is selected, the LOV will enable and will allow the user to select partners for the selected partner type. If Supplier Site is selected, the Partner Type choice list will not be enabled, and the LOV will contain Supplier Site values.

It will also contain fields for Invoice, Invoice Date, Payment Method, Check Authorization No., Amount Paid, Paid Date, Currency and Exchange Rate. The Exchange Rate field will be auto-populated upon selecting a Currency Code value, but will remain editable.

Table 2–2 Invoice and Payment - Fields and Description

Fields	Description
Partner checkbox	If you check the Partner checkbox, the Partner Type field is enabled. After have selected a partner type, you can enter, select or search for the partner.
Supplier Site checkbox	If you check the Supplier Site checkbox, the Supplier field is enabled. Enter, select or search for the Supplier.
Invoice	Enter the invoice number.
Invoice Date	Enter the invoice date or use the Calendar icon to select the date.
Payment Method	Enter, select or search for the payment method.
Check Authorization No.	Enter the authorization number.
Amount Paid	Enter the amount paid.
Paid Date	Enter the paid date or use the Calendar icon to select the date.
Currency	Enter, select or search for the currency.
Exchange Rate	Enter the exchange rate used to convert from the currency on the obligation to the currency of the import locations that the shipment is intended for. This target currency is displayed as a suffix to the exchange rate field. For more information about how to edit the exchange rate, see "Editing the Exchange Rate" in the <i>Oracle Retail Trade Management Letters of Credit User Guide</i> .

Comments

The Comments section holds the comments field. Enter any comments for the obligation, if necessary.

Components

In the Components section you can add, edit or delete components from the obligation. The section contains the following columns by default.

- Component
- Allocation Type and Basis
- Rate
- Per Count and Per Count UOM
- Quantity and Quantity UOM
- Amount
- Allocate to ALC checkbox

Components Table - Actions Menu, Icons and Button

Use the Actions Menu, icons and button to apply actions to the table. You can perform the actions listed below.

Table 2–3 Components Table - Actions Menu/Icons/Button and Description

Actions Menu/Icon/Button	Description
Add and Add icon	You can add components to an obligation by selecting Actions > Add or by using the Add icon. For more information about how to add components to an obligation, see the Add a Component to an Obligation section.
Edit and Edit icon	You can edit components of an obligation by selecting Actions > Edit or by using the Edit icon. For more information about how to edit components of an obligation, see the Edit a Component of an Obligation section.
Delete and Delete icon	You can delete components from an obligation by selecting Actions > Delete or by using the Delete icon. For more information about how to delete components from an obligation, see the Delete a Component from an Obligation section.
Update Quantities and Update Quantities button	You can update the quantities of the table by selecting Actions > Update Quantities or by clicking the Update Quantities button.
Export to Excel and Export to Excel icon	You can copy the records in the table to a Microsoft Excel spreadsheet by selecting Actions > Export to Excel or by using the Export to Excel icon.

Locations

In the Locations section you can add and delete locations from a component of the obligation. The section is only available, if the level of the obligation is Purchase Order Header or Purchase Order/Item. The Location table contains the location type, location and location name as well as quantity and amount columns by default.

Obligations Toolbar

The Toolbar displays the icons and buttons for actions that can be performed for the obligation. The Obligations Toolbar contains the following icons and buttons as well as actions described in “Screen Level Action - Icons and Buttons” in the *Oracle Retail Trade Management Do the Basics User Guide*.

Table 2–4 Obligations Toolbar - Icons/Buttons and Description

Action Icons/Buttons	Description
Approve	Changes the status of the obligation to Approved.
Reallocate	Reallocates the cost components.

Add a Component to an Obligation

To add a component to an obligation follow the steps below.

1. From the Tasks menu, select **Trade Management > Manage Obligation**. The Obligation window appears.
2. Enter or select search criteria as desired to make the search more restrictive.
3. Click **Search**. The obligations that match the search criteria are displayed in the Results section.
4. Select a record in the Results section.
5. In the Obligation column, click on the obligation link, or mark a record and select **Actions > Edit** or use the Edit icon. The Obligation window appears. The data of the selected obligation is shown.
6. In the Component section, select **Actions > Add** or use the Add icon. The Add Component window appears.

Figure 2–1 Add Component Window

- a. In the **Component** field, enter, select or search for the corresponding component. This field is a required field.
- b. The **Allocate to ALC** checkbox is selected by default. Deselect the checkbox, if the components should not be included in the actual landed cost calculation.
- c. The **Allocation Type** field is populated with the allocation type, depending on the component you selected. Possible allocation types are Unit of Measure and Amount. Change the allocation type, if necessary. This field is a required field.

- * If you select Amount as the allocation type, only the **Quantity** and **Amount** fields are enabled. Change the values of these fields, if necessary.
 - * If you select Unit of Measure as the allocation type, the **Allocation Basis**, the **Rate**, the **Per Count**, and the **Quantity** as well as the **Amount** field are enabled. Change the values of these fields, if necessary.
- d. Then choose one of the following options.
- * Click **OK** to add the component to the obligation and close the Add Component window.
 - * Click **OK and Add Another** to add additional entries.
 - * Click **Cancel** to reject all entries and close the Add Component window.
7. After you have added all necessary components to the obligation, choose one of the following options.
- Click **Save and Close** to save changes to the obligation and close the Obligation window.
 - Click the arrow on the right side of the button to display the additional save options.
 - Click **Save** to save your entries.
 - Click **Save and Create Another** to create additional entries.

Edit a Component of an Obligation

To edit a component of an obligation, follow the steps listed below.

1. From the Tasks menu, select **Trade Management > Manage Obligation**. The Obligation window appears.
2. Enter or select search criteria as desired to make the search more restrictive.
3. Click **Search**. The obligations that match the search criteria are displayed in the Results section.
4. Select a record in the Results section.
5. In the Obligation column, click on the obligation link, or mark a record and select **Actions > Edit** or use the Edit icon. The Obligation window appears. The data of the selected obligation is shown.
6. In the Component section, select a record in the table.
7. Then select **Actions > Edit** or use the Edit icon. The Edit Component window appears.
 - a. The **Component** field is populated with the component you selected. The field is disabled, you cannot change the component.
 - b. The **Allocate to ALC** checkbox is selected or deselected, depending the previous entry of the component. Change the entry, if necessary.
 - c. The **Allocation Type** field is populated with the allocation type, depending on the component. Possible allocation types are Unit of Measure and Amount. Change the allocation type, if necessary. This field is a required field.
 - * If the selected allocation type is Amount, only the **Quantity** and **Amount** fields are enabled. The fields are populated with the current values of the component. Change the values of these fields, if necessary.

- * If the selected allocation type is Unit of Measure, the **Allocation Basis**, the **Rate**, the **Per Count**, and the **Quantity** as well as the **Amount** field are enabled. The fields are populated with the current values of the component. Change the values of these fields, if necessary.
- d. Then choose one of the following options.
 - * Click **OK** to save the changes and exit the Edit Component window.
 - * Click **Cancel** to reject all entries and exit the Edit Component window.
- 8. After you have made all necessary changes to the obligation, choose one of the following options.
 - Click **Save and Close** to save changes to the obligation and exit the Obligation window.
 - Click the arrow on the right side of the button to display the additional save options.
 - Click **Save** to save your entries.
 - Click **Save and Create Another** to create additional entries.

Delete a Component from an Obligation

To delete a component from an obligation, follow the steps below.

1. From the Tasks menu, select **Trade Management > Manage Obligation**. The Obligation window appears.
2. Enter or select search criteria as desired to make the search more restrictive.
3. Click **Search**. The obligations that match the search criteria are displayed in the Results section.
4. Select a record in the Results section.
5. In the Obligation column, click on the obligation link, or mark a record and select **Actions > Edit** or use the Edit icon. The Obligation window appears. The data of the selected obligation is shown.
6. In the Component section, select a record in the table.
7. Then select **Actions > Delete** or use the Delete icon.
8. You are prompted to delete the component. Confirm the prompt with **Yes**.
9. After you have deleted all necessary components from the obligation, choose one of the following options.
 - Click **Save and Close** to save changes to the obligation and exit the Obligation window.
 - Click the arrow on the right side of the button to display the additional save options.
 - Click **Save** to save your entries.
 - Click **Save and Create Another** to create additional entries.

Add a Location to a Component

To add a location to a component follow the steps below.

1. From the Tasks menu, select **Trade Management > Manage Obligation**. The Obligation window appears.
2. Enter or select search criteria as desired to make the search more restrictive.
3. Click **Search**. The obligations that match the search criteria are displayed in the Results section.
4. Select a record in the Results section.
5. In the Obligation column, click on the obligation link, or mark a record and select **Actions > Edit** or use the Edit icon. The Obligation window appears. The data of the selected obligation is shown.
6. In the Location section, select **Actions > Add** or use the Add icon. The Add Location window appears.
 - a. In the **Location Type** field, enter, select or search for the corresponding location.
 - b. After you have entered the location type, the **Location** field is enabled. Enter, select or search for the appropriate location.
 - c. In the Quantity field, enter the quantity.
 - d. In the Amount field, enter the amount.
 - e. Then choose one of the following options.
 - * Click **OK** to add the location to the component and close the Add Location window.
 - * Click **OK and Add Another** to add additional entries.
 - * Click **Cancel** to reject all entries and close the Add Location window.
7. After you have added all necessary locations to the component, choose one of the following options.
 - Click **Save and Close** to save changes to the obligation and exit the Obligation window.
 - Click the arrow on the right side of the button to display the additional save options.
 - Click **Save** to save your entries.
 - Click **Save and Create Another** to save the current obligation and create further entries.

Delete a Location from a Component

To delete a location from a component, follow the steps below.

1. From the Tasks menu, select **Trade Management > Manage Obligation**. The Obligation window appears.
2. Enter or select search criteria as desired to make the search more restrictive.
3. Click **Search**. The obligations that match the search criteria are displayed in the Results section.
4. Select a record in the Results section.
5. In the Obligation column, click on the obligation link, or mark a record and select **Actions > Edit** or use the Edit icon. The Obligation window appears. The data of the selected obligation is shown.

6. In the Locations section, select a record in the table.
7. Then select **Actions > Delete** or use the Delete icon.
8. You are prompted to delete the location. Confirm the prompt with **Yes**.
9. After you have deleted all necessary locations from the component, choose one of the following options.
 - Click **Save and Close** to save changes to the obligation and exit the Obligation window.
 - Click the arrow on the right side of the button to display the additional save options.
 - Click **Save** to save your entries.
 - Click **Save and Create Another** to save the current obligation and create further entries.

Delete an Obligation

To delete an obligation follow the steps below.

1. From the Tasks menu, select **Trade Management > Manage Obligation**. The Obligation window appears.
2. Enter or select search criteria as desired to make the search more restrictive.
3. Click **Search**. The obligations that match the search criteria are displayed in the Results section.
4. Select a record in the Results section.
5. In the Obligation column, click on the obligation link, or mark a record and select **Actions > Edit** or use the Edit icon. The Obligation window appears. The data of the selected obligation is shown.
6. In the Obligation Toolbar, select the Delete icon.
7. You are prompted to delete the obligation. Confirm the prompt with **Yes**.
8. Then choose one of the following options.
 - Click **Save and Close** to save changes to the obligation and exit the Obligation window.
 - Click the arrow on the right side of the button to display the additional save options.
 - Click **Save** to save your entries.
 - Click **Save and Create Another** to save the current obligation and create further entries.

Manage Obligations

The Manage Obligations option opens the Obligation Search window. In the Obligation window you can search, create, maintain and view obligations.

You can access the Obligation Search window from the Task menu, select **Trade Management > Import Financials > Manage Obligations**. The Obligation Search window appears.

The Obligation Search window contains the following two sections.

- Search

For more information about how to search for obligations, see the [Search for an Obligation](#) section.

- Results

Figure 3–1 Obligation Search Window

The screenshot shows the 'Obligation Search' window. It has a 'Search' section with filters for Match (All, Any), Obligation, Level, Status (Approved), Supplier Site, Partner Type, Partner, Invoice, and Invoice Date. There are 'Search', 'Reset', and 'Save...' buttons. Below is a 'Results' section with a table of obligations.

Search for an Obligation

To search for an obligation:

1. From the Task menu, select **Trade Management > Import Financials > Manage Obligations**. The Obligation Search window appears.
2. You can search for an obligation by using basic or advanced search criteria, depending on the requirement. The basic mode is the default search mode.
 - Click **Advanced** to access the search section in advanced mode.
 - Click **Basic** to return to the basic mode.

Search for an Obligation Through the Basic Search Criteria

To search for an obligation using basic search criteria:

1. Enter, select or search for one or all of the following basic search criteria.

Table 3–1 Obligation Search - Basic Search Criteria and Description

Fields	Description
Match option	Check the radio button All or Any. All - only obligations matching all entered search criteria are shown. Any - obligations matching any of the entered search criteria are shown.
Obligation	Enter the obligation.
Level	Select the level of the obligation from the list. For example, select ASN.
Status	Select the status of the obligation. Possible statuses are: ■ Pending ■ Approved
Supplier Site	Enter, select or search for the supplier site.
Partner Type	Select the partner type from the list.
Partner	Enter, select or search for the partner ID.
Invoice	Enter, select or search for the invoice ID.
Invoice Date	Enter the invoice date or use the Calendar icon to select a date.

2. Click **Search**. The obligations that match the search criteria are displayed in the Results section.
3. Click **Reset** to clear the search section and results.
4. Click **Done** to close the window.

Search for an Obligation Through Advanced Search Criteria

To search for an obligation using advanced search criteria:

1. To search using advanced search criteria, enter or select one or all of the advanced search criteria.
2. To narrow down the search, use the list next to the search fields. For example, determine if the entered value should equal or not equal the search result.

3. Click **Search**. The obligations that match the search criteria are displayed in the Results section.
4. Click **Reset** to clear the search section and results.
5. Click **Add Fields** to add more fields for the advanced search. To remove the field from the search, click the x right next to the field.
6. Click **Done** to close the window.
