OFSDIH Unique Keystrokes and Access Keys Document

Copyright © 2021 Oracle and/or its affiliates. All rights reserved.

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable.

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are “commercial computer software” pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle and Java are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

For information on third party licenses, see the [OFSAALicensing Information User Manual](#).

Table of Contents

| | | |
|----------|---|-----------|
| 1 | Introduction..... | 13 |
| 1.1 | How this Guide is Organized | 13 |
| 2 | User Roles and Groups | 14 |
| 2.1 | Map the Application User(s) to User Group..... | 14 |
| 2.2 | DI Admin..... | 14 |
| 2.3 | DI Data Modeler | 15 |
| 2.4 | DI Analyst | 15 |
| 2.5 | DI Operator | 15 |
| 3 | Common Keyboard Shortcuts with Control References..... | 16 |
| 3.1 | Login Page..... | 16 |
| 3.2 | Landing Page | 16 |
| 3.2.1 | Header | 17 |
| 3.2.2 | Tiles..... | 18 |
| 4 | Administration and Configuration | 21 |
| 4.1 | System Configuration | 21 |
| 4.1.1 | Configure Database Server..... | 22 |
| 4.1.2 | Configure Application Server | 23 |
| 4.1.3 | Configure Web Server | 24 |
| 4.1.4 | Configure OLAP Details..... | 25 |
| 4.1.5 | Configure System Configuration..... | 26 |
| 4.2 | Identity Management..... | 31 |
| 4.2.1 | Security Management..... | 32 |
| 4.2.2 | System Administrator | 44 |
| 4.2.3 | User Activity Report..... | 53 |
| 4.2.4 | Role Master Report..... | 55 |
| 4.2.5 | User ID Population report | 56 |
| 4.2.6 | UAM Admin Activity Report | 56 |
| 4.2.7 | User Profile Report..... | 57 |
| 4.3 | Database Details..... | 59 |

| | | |
|----------|---|------------|
| 4.3.1 | Summary..... | 60 |
| 4.3.2 | Details..... | 60 |
| 4.4 | Manage OFSAA Product Licenses | 62 |
| 4.5 | Create New Application | 63 |
| 4.5.1 | Summary..... | 63 |
| 4.5.2 | Details..... | 64 |
| 4.6 | Information Domain | 65 |
| 4.6.1 | Information Domain Summary..... | 65 |
| 4.6.2 | Information Domain Details..... | 66 |
| 4.7 | Translation Tools | 68 |
| 4.7.1 | Config Schema Download..... | 69 |
| 4.7.2 | Config Schema Upload..... | 70 |
| 4.8 | Object Administration | 71 |
| 4.8.1 | Metadata Segment Mapping | 72 |
| 4.8.2 | Batch Execution Rights..... | 73 |
| 4.8.3 | Object to Application Mapping..... | 75 |
| 4.8.4 | Object Migration | 76 |
| 4.8.5 | Export Objects | 89 |
| 4.8.6 | Object Security | 95 |
| 4.8.7 | Metadata Browser | 95 |
| 4.9 | Utilities | 102 |
| 4.9.1 | Metadata Difference | 102 |
| 4.9.2 | Metadata Authorization..... | 103 |
| 4.9.3 | Save Metadata | 104 |
| 4.9.4 | Write Protected Batch..... | 105 |
| 4.9.5 | Component Registration | 106 |
| 4.9.6 | Transfer Document Ownership | 108 |
| 4.9.7 | Patch Information..... | 109 |
| 4.10 | Process Modelling Framework..... | 110 |
| 4.10.1 | Process Modeller or Process Monitor | 111 |
| 5 | Identity Management Reports..... | 147 |
| 5.1 | User Status Report | 147 |

| | | |
|----------|---|------------|
| 5.2 | User Attribute Report | 149 |
| 5.3 | User Admin Activity Report | 149 |
| 5.4 | User Access Report | 150 |
| 5.5 | Audit Trail Report | 151 |
| 6 | OFSAAI Application Modules..... | 153 |
| 6.1 | Data Model Management | 153 |
| 6.1.1 | <i>Data Model Maintenance</i> | 154 |
| 6.2 | Data Management Framework | 156 |
| 6.2.1 | <i>Data Management Tools</i> | 157 |
| 6.2.2 | <i>Data Quality Framework</i> | 176 |
| 6.2.3 | <i>Data Entry Forms and Queries</i> | 183 |
| 6.3 | Unified Analytical Metadata | 204 |
| 6.3.1 | <i>Dimension Management</i> | 205 |
| 6.3.2 | <i>Business Metadata Management</i> | 214 |
| 6.3.3 | <i>Analytics Metadata</i> | 251 |
| 6.4 | Run Rule Framework | 255 |
| 6.4.1 | <i>Rule</i> | 256 |
| 6.4.2 | <i>Process</i> | 265 |
| 6.4.3 | <i>Run</i> | 271 |
| 6.4.4 | <i>Manage Run Execution</i> | 278 |
| 6.5 | Operations | 282 |
| 6.5.1 | <i>Batch Maintenance</i> | 283 |
| 6.5.2 | <i>Batch Execution</i> | 288 |
| 6.5.3 | <i>Batch Scheduler</i> | 290 |
| 6.5.4 | <i>Batch Monitor</i> | 295 |
| 6.5.5 | <i>Batch Cancellation</i> | 297 |

1 Introduction

This is the Unique Keystrokes and Access Keys Guidelines document for the OFSDIH Application Pack.

This document provides accessibility information (Voluntary Product Accessibility Template - VPAT) about the OFSDIH Application User Interface (UI) according to the OAG 3.0 Standards. The Keystrokes reference details for each UI control on each screen of the OFSDIH Application and the information about the Access Keys required to access each UI control are explained. All the UI controls present in each UI screen of the OFSDIH Application are listed.

1.1 How this Guide is Organized

This section provides information about the structure of this document.

- [Users, Roles and Groups](#): This section provides information about the OFSDIH Users, mapping of the OFSDIH Users to each User Group, and the functionalities that a specific User has access to and can perform.
- [Common Keyboard Shortcuts with Control References](#): This section provides information about the common keyboard controls.
- [Administration and Configuration](#): This section provides information about the keystrokes reference details of the Administration Modules.
- [Identity Management Reports](#): This section provides information about the keystrokes reference details of the Report Modules.
- [OFSDIH Application Modules](#): This section provides information about the keystrokes reference details of the modules in the OFSDIH Application User Interface.
- [Appendix A: HTML5 Controls](#): This section provides information about the set of unique keystrokes for the HTML5 controls.
- [Appendix B: OJET Controls](#): This section provides information about the set of unique keystrokes for the OJET controls.
- [Appendix C: LUX Controls](#): This section provides information about the set of unique keystrokes for the LUX controls.
- [Appendix D: OJET CCA Controls](#): This section provides information about the set of unique keystrokes for the OJET CCA controls.
- [Appendix E: HTML Documents on OHC and Help Pages](#): This section provides information about the set of unique keystrokes for the OFSAA documents on the Oracle help center (OHC) and Online Help pages.

2 User Roles and Groups

This chapter includes information about the users mapped to each user group, and the functionalities that a specific user has access to and can perform.

- [Map the Application User\(s\) to User Group](#)
- [DI Admin](#)
- [DI Data Modeler](#)
- [DI Analyst](#)
- [DI Operator](#)

2.1 Map the Application User(s) to User Group

User UserGroup Map facilitates you to map a user (or users) to a specific user group which in turn is mapped to a specific Information Domain and role. Every user group mapped to the Information Domain needs to be authorized. Else, it cannot be mapped to users.

User UserGroup Map Screen displays details such as User ID, Name, and the corresponding Mapped Groups. You can view and modify the existing mappings within the User UserGroup Maintenance Screen.

Starting with the OFSAA 8.1 release, with the installation of the OFSDI Application Pack, preconfigured Application user groups are seeded. These user groups are unique to every OFSAA Application Pack and have application roles pre-configured.

You can access the User UserGroup Map by expanding the Identity Management pane within the tree structure of the LHS menu.

Table 1: Seeded User Groups

| Name | Description |
|-----------------|---|
| DI Admin | A user mapped to this group will have access to all the menu items for the entire DI Application. The exclusive menu's which are available only to this group users are Application Preference and Global Preference under the Settings Menu. |
| DI Data Modeler | A user mapped to this group will have access only for Data Model Management and Metadata Browser Menus. |
| DI Analyst | A user mapped to this group will have access to Data Management Framework, Dimension Management, and Metadata Browser Menus. |
| DI Operator | A user mapped to this group will have access to Rule Run Framework and Operations Menus. |

2.2 DI Admin

This user has access to the following module:

- [Settings](#)

2.3 DI Data Modeler

This user has access to the following modules:

- [Data Model Management](#)
- [Metadata Browser](#)

2.4 DI Analyst

This user has access to the following modules:

- [Data Management Framework](#)
- [Dimension Management](#)
- [Metadata Browser](#)

2.5 DI Operator

This user has access to the following modules:

- [Rule Run Framework](#)
- [Operations](#)

3 Common Keyboard Shortcuts with Control References

This chapter provides more information about the common keyboard controls.

TIP:

When you click a hyperlink and reach a page, if you want to get back to the page where the hyperlink was clicked click Alt + Left Arrow.

Press the Tab key on your keyboard to tab through all the controls within the browser window. Press Shift + Tab to navigate in the reverse direction.

3.1 Login Page

The following table lists all the elements of the OFSDIH login page and the associated keystroke combinations to access them.

Table 2: Keystroke References for the Controls in Login Page

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|---------------|--|-----------------------------------|--------------------------------------|
| oj-select-one | Language  | Language Selection | OJET Select |
| oj-textbox | User ID  | User ID, Password | OJET Textbox |
| oj-button |  | Login Button | OJET Button |

3.2 Landing Page

This section describes all the elements of the OFSDIH login page and the keystroke combinations to access them.

Topics:

- [Header](#)
- [Tiles](#)

3.2.1 Header

The following table describes all the elements of the header and the keystroke combinations to access them.

Figure 1: OFSDIH Header

Table 3: Keystroke References for the Controls in Landing Page - Header

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|--------------------|---|-----------------------------------|--------------------------------------|
| oj-button |  | Application Navigation | OJET Button |
| oj-button |  | Connected To | OJET Button |
| oj-button |  | Last Login Details | OJET Button |
| oj-navigation-list |  | Navigation drawer | OJET Navigation |

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|--------------------|---|-----------------------------------|--------------------------------------|
| oj-navigation-list |  | Main Navigation | OJET Navigation |
| oj-select-one |  | Language | OJET Select |
| oj-menu |  | User Preferences | OJET Context Menu |

3.2.2 Tiles

The following table lists all the elements of the Tiles section and the associated keystroke combinations to access them.

Figure 2: OFSDIH Administration Page - Tiles

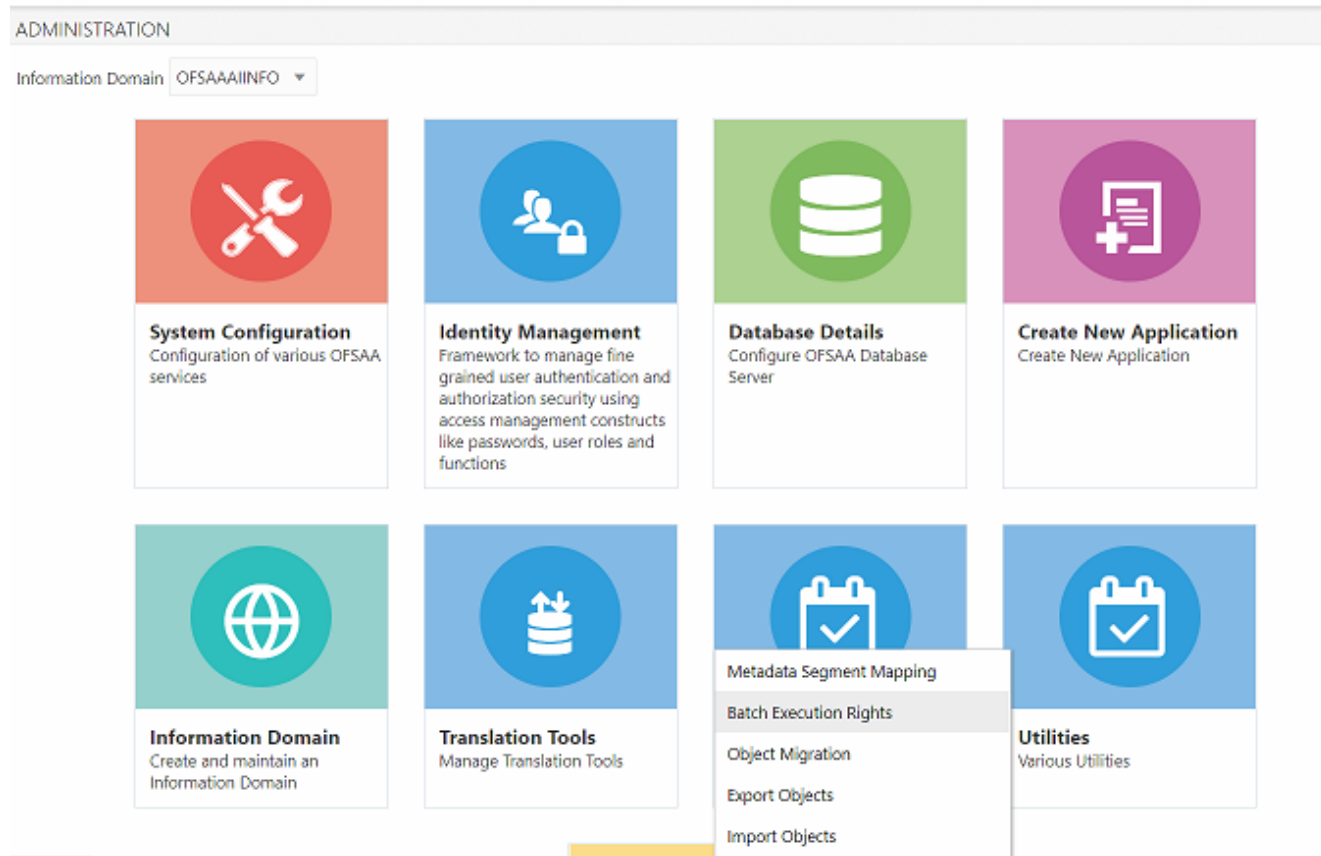

Table 4: Keystroke References for the Controls in Administration Page - Tiles

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|---------------|--|-----------------------------------|--------------------------------------|
| oj-select-one | Information Domain  | Information Domain | OJET Select |

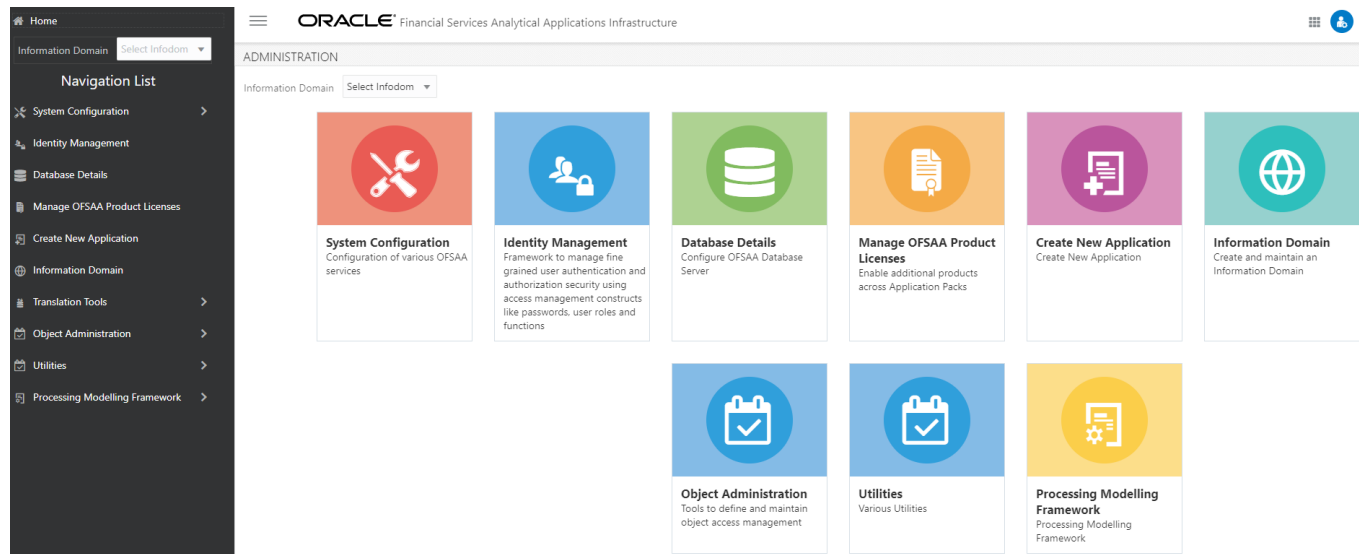

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|------------|---|-----------------------------------|--------------------------------------|
| oj-menu |  | Tile | OJET Context Menu |

4 Administration and Configuration

This chapter includes the keystroke reference details for the following Administration related modules:

- [System Configuration](#)
- [Identity Management](#)
- [Database Details](#)
- [Information Domain](#)
- [Translation Tools](#)
- [Object Administration](#)
- [Utilities](#)
- [Process Modelling Framework](#)

Figure 3: OFSDIH Administration Page

4.1 System Configuration

This section includes the keystroke reference details for the following menus in the System Configuration Module:

- [Configure Database Server](#)
- [Configure Application Server](#)
- [Configure Web Server](#)
- [Configure OLAP Details](#)
- [Configure System Configuration](#)

4.1.1 Configure Database Server

The following table describes all the elements of the System Configuration – Configure Database Server Section and the keystroke combinations to access them.

Table 5: Keystroke References for the Controls in System Configuration – Configure Database Server Section

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|-------------------|---|--|--------------------------------------|
| html5-select-one | IP Address <input type="text" value="whf00osm"/> | IP Address | HTML Select |
| html5-textbox | OS type <input type="text" value="UNIX"/> | <ul style="list-style-type: none"> • Socket Server Port • OS type • Drive • Port Number • User ID • Password | HTML Textbox |
| html5-radiobutton | FTP <input type="radio"/> SFTP <input checked="" type="radio"/> LOCAL <input type="radio"/> | <ul style="list-style-type: none"> • FTP • SFTP • LOCAL | HTML Radio button |
| html5-tab | Technical Metadata Business Metadata Staging Area | <ul style="list-style-type: none"> • Technical Metadata • Business Metadata • Staging Area | HTML Tab |

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|--------------|---|-----------------------------------|--------------------------------------|
| html5-button |  | Modify | HTML Button |
| html5-button |  | Next | HTML Button |
| html5-button |  | Cancel | HTML Button |
| html5-button |  | Help icon | HTML Button |

4.1.2 Configure Application Server

The following table describes all the elements of the System Configuration – Configure Application Server Section and the keystroke combinations to access them.

Table 6: Keystroke References for the Controls in System Configuration – Configure Application Server Section

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|-------------------|---|---|--------------------------------------|
| html5-textbox | Primary IP For Runtime Processes <input type="text"/> | <ul style="list-style-type: none"> • Primary IP For Runtime Processes • Drive • Port Number • User ID • Password | HTML Textbox |
| html5-radiobutton | FTP <input type="radio"/> SFTP <input checked="" type="radio"/> LOCAL <input type="radio"/> | <ul style="list-style-type: none"> • FTP • SFTP • LOCAL | HTML Radio button |
| html5-select-one | <input type="text" value="Password Auth"/> ▼ | Authentication Type | HTML Select |

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|--------------|--|---|--------------------------------------|
| html5-tab |  | <ul style="list-style-type: none"> • Technical Metadata • Business Metadata • Staging Area | HTML Tab |
| html5-button |  | <ul style="list-style-type: none"> • Modify • Cancel • Help icon | HTML Button |

4.1.3 Configure Web Server

The following table describes all the elements of the System Configuration – Configure Web Server Section and the keystroke combinations to access them.

Table 7: Keystroke References for the Controls in System Configuration – Configure Web Server Section

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|------------------|--|--|--------------------------------------|
| html5-select-one | IP Address  | <ul style="list-style-type: none"> • IP Address • Protocol | HTML Select |
| html5-textbox | Servlet Port  | <ul style="list-style-type: none"> • Servlet Port • Local Path | HTML Textbox |
| html5-checkbox | Transfer Protocol Details <input type="checkbox"/> | <ul style="list-style-type: none"> • Transfer Protocol Details | HTML Checkbox |
| html5-button |  | Modify | HTML Button |
| html5-button |  | Cancel | HTML Button |
| html5-button |  | Help icon | HTML Button |

4.1.4 Configure OLAP Details

The following table describes all the elements of the System Configuration – OLAP Details Section and the keystroke combinations to access them.

Table 8: Keystroke References for the Controls in System Configuration – Configure OLAP Details section

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|------------------|--|--|--------------------------------------|
| html5-select-one | Server IP  | <ul style="list-style-type: none"> • Server IP • Type • Locale Identifier | HTML Select |
| html5-textbox | User ID <input type="text" value="oracle"/> | <ul style="list-style-type: none"> • User ID • Password • FIV User ID • FIV Password | HTML Textbox |
| html5-button |  | Add | HTML Button |
| html5-button |  | Save | HTML Button |
| html5-button |  | Cancel | HTML Button |
| html5-button |  | Help button | HTML Button |

4.1.5 **Configure System Configuration**

The following table describes all the elements of the System Configuration – Configure System Configuration Section and the keystroke combinations to access them.

Table 9: Keystroke References for the Controls in System Configuration – Configure System Configuration Section

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|------------------|---|--|--------------------------------------|
| html5-select-one | Authentication Type <input data-bbox="724 284 1102 332" type="text" value="SMS Authentication and Authoriz"/> | <ul style="list-style-type: none">• Authentication Type• Hierarchy Security Type• Guest Login• Guest Password | HTML Select |

| | | | |
|----------------------|---|--|-------------------------------------|
| <p>html5-textbox</p> | <p>Number of invalid logins <input type="text" value="10"/></p> | <ul style="list-style-type: none"> • Number of invalid logins • Path for Application Packaging • Session Timeout Value(in minute) • Session Timeout Popup Interval(in minutes) • Environment Details • Dormant Days • Inactive Days • Working Hours From and To • Frequency of Password Change • Password History • Password Length Minimum and Maximum • Numbers Minimum and Maximum • Upper Case Minimum and Maximum • Lower Case Minimum and Maximum • Special Character Minimum and Maximum • Special Character Occurrence Frequency • Disallowed Special Characters • Input File Format • Output File Format • Encryption Key Path • Link based token validity in minutes • API token validity in seconds • Guest Password • Limit on number of mappings displayed • Page size used in tree pagination | <p>HTML Textbox</p> |
|----------------------|---|--|-------------------------------------|

| | | | |
|--------------|--|---|-----------------------------|
| html5-tab |  | <ul style="list-style-type: none">• General Details• Guest Login• Optimization• Others | HTML Tab |
| html5-button |  | Save | HTML Button |
| html5-button |  | Cancel | HTML Button |
| html5-button |  | Help icon | HTML Button |

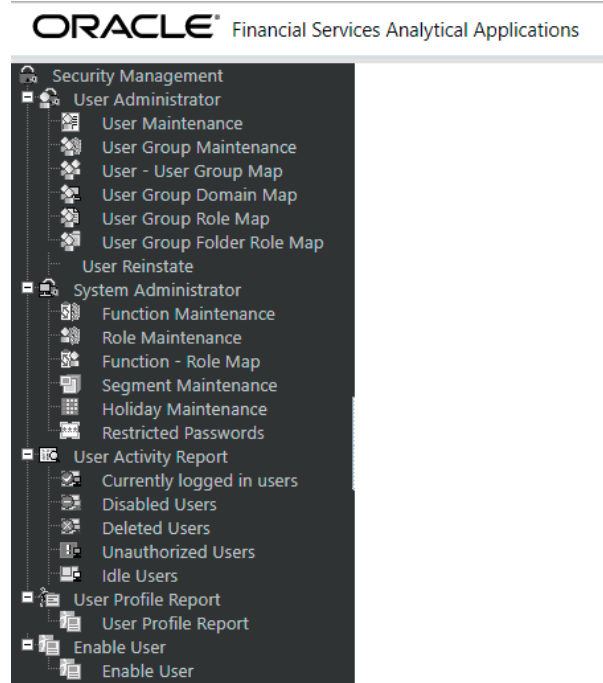

| | | | |
|-------------------|--|---|-----------------------------------|
| html5-checkbox | SSO Enabled <input type="checkbox"/> | <ul style="list-style-type: none"> • SSO Enabled • Enable native authentication for Rest API • Allow user to log in from multiple machines • Allow Data Redaction • Encrypt Login Password • Enable CSRF Protection • Special Characters Allowed • Running Alphabets • Running Numbers • Enable Batch Operation Notification • Enable Batch Owner Notification Only • CMIS Enabled • Security Question Enable • Use ROWID in ON clause of MERGE statement • Application uses new Run Rule Framework • Enable audit log through Security Management System • Populate Execution Statistics • Allow Correction on DI Source | HTML Checkbox |
| html5-textrea | Disclaimer Text <input style="width: 200px; height: 40px;" type="text"/> | Disclaimer text | HTML Textarea |
| html5-radiobutton | Password Restriction <input checked="" type="radio"/> Restricted <input type="radio"/> Un Restricted | Password Restriction | HTML Radio button |

4.2 Identity Management

This section includes the keystroke reference details for the Identity Management Module. It includes the following screens:

- [Security Management](#)
- [System Administrator](#)
- [User Activity Report](#)
- [Role Master Report](#)
- [User ID Population report](#)
- [UAM Admin Activity report](#)
- [User Profile Report](#)

Figure 4: Identity Management

4.2.1 Security Management

This section includes the keystroke reference details for the menu in the Security Management Module.

4.2.1.1 User Administrator

This section includes the keystroke reference details for the User Administrator Menu.

4.2.1.1.1 User Maintenance

The following table describes all the elements of the User Maintenance Section and the keystroke combinations to access them.

Table 10: Keystroke References for the Controls in User Maintenance Section

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|---------------|--|---|--------------------------------------|
| html5-textbox | User ID <input type="text"/> | <ul style="list-style-type: none"> User ID Name Profile Name | HTML Textbox |
| html5-button |  Add | Add | HTML Button |
| html5-button |  View | View | HTML Button |
| html5-button |  Edit | Edit | HTML Button |
| html5-button |  Delete | Delete | HTML Button |
| html5-button |  | Help | HTML Button |
| html5-button |  Search | Search | HTML Button |
| html5-button |  Reset | Reset | HTML Button |

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|------------------|--|--|--------------------------------------|
| html5-pagination | Page <input type="text" value="1"/> of 1 (1 - 7 of 7 items) K < > X | <ul style="list-style-type: none"> Page Records Per Page | HTML Pagination |
| html5-grid |  <input type="checkbox"/> User ID Name Profile Name Start Date End Date Enabled | User Maintenance | HTML Grid |
| html5-checkbox | <input type="checkbox"/> User ID | User ID | HTML Checkbox |

4.2.1.1.2 User Definition

The following table describes all the elements of the User Definition (add/view/edit) section and the keystroke combinations to access them.

Table 11: Keystroke References for the Controls in User Definition Section

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|------------------|--|--|--------------------------------------|
| html5-select-one | Profile Name * <input type="text" value="Profile for the Administrator"/> ▼ | <ul style="list-style-type: none"> Profile Name Database authentication principal | HTML Select |
| html5-textbox | Employee Code <input type="text"/> | <ul style="list-style-type: none"> Employee Code Address Designation Password Start End Mobile Number Email ID Pager Number | HTML Textbox |
| html5-calendar | Date of Birth <input type="text"/>  | <ul style="list-style-type: none"> Date of Birth Start Date End Date | HTML Calendar |

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|----------------|---|---|--------------------------------------|
| html5-button |  | Save | HTML Button |
| html5-button |  | Cancel | HTML Button |
| html5-checkbox | Enable User <input type="checkbox"/> | <ul style="list-style-type: none"> • Enable User • Login on Holidays • Proxy User name • Enable Proxy | HTML Checkbox |

4.2.1.1.3 User Group Maintenance

The following table describes all the elements of the Identity Management - User Group Maintenance section and the keystroke combinations to access them.

Table 12: Keystroke References for the Controls in User Group Maintenance Section

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|---------------|---|--|--------------------------------------|
| html5-textbox | User Group ID <input type="text"/> | <ul style="list-style-type: none"> • User Group ID • Group Name • Description | HTML Textbox |
| html5-button |  | Add | HTML Button |
| html5-button |  | View | HTML Button |
| html5-button |  | Edit | HTML Button |

| html5-checkbox |  | Holiday List checkbox | HTML Checkbox |
| html5-calendar | New - Holiday *  | New- Holiday | HTML Calendar |
| html5-button |  | Save | HTML Button |
| html5-button |  | Cancel | HTML Button |

4.2.2.9 Restricted Password

The following table describes all the elements of the Identity Management - Restricted Passwords Section and the keystroke combinations to access them.

Table 32: Keystroke References for the Controls in Restricted Passwords Section

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|---------------|--|-----------------------------------|--------------------------------------|
| html5-textbox | Password List  | Password List | HTML Textbox |
| html5-button |  | Add | HTML Button |

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|--------------|--|-----------------------------------|--------------------------------------|
| html5-button |  Delete | Delete | HTML Button |
| html5-button |  | Help | HTML Button |
| html5-button |  Search | Search | HTML Button |
| html5-button |  Reset | Reset | HTML Button |

4.2.2.10 Restricted Passwords for Add or View or Edit

The following table describes all the elements of the Restricted Passwords (add/view/edit) Section and the keystroke combinations to access them.

Table 33: Keystroke References for the Controls in Restricted Passwords (add/view/edit) Section

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|---------------|--|-----------------------------------|--------------------------------------|
| html5-textbox | New - Password * <input type="text"/> | Password List | HTML Textbox |
| html5-button |  | Help | HTML Button |
| html5-button |  Search | Search | HTML Button |
| html5-button |  Reset | Reset | HTML Button |

4.2.3 User Activity Report

This section includes the keystroke reference details for the User Activity Report Menu.

4.2.3.1 Currently Logged in Users

The following table describes all the elements of the Currently Logged in Users Section and the keystroke combinations to access them.

Table 34: Keystroke References for the Controls in Currently Logged in Users Section

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|--------------|--|-----------------------------------|--------------------------------------|
| html5-button |  | Help | HTML Button |
| html5-button |  | Save | HTML Button |
| html5-grid |  | Currently logged in Users grid | HTML Grid |

4.2.3.2 Disabled users

The following table describes all the elements of the Security Management – User Activity Report – Disabled Users Section and the keystroke combinations to access them.

Table 35: Keystroke References for the Controls in Disabled Users Section

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|--------------|---|-----------------------------------|--------------------------------------|
| html5-button |  | Help | HTML Button |
| html5-button |  | Save | HTML Button |

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|------------|--|-----------------------------------|--------------------------------------|
| html5-grid |  | Disabled Users grid | HTML Grid |

4.2.3.3 Deleted users

The following table describes all the elements of the Deleted Users Section and the keystroke combinations to access them.

Table 36: Keystroke References for the Controls in Deleted Users Section

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|--------------|--|-----------------------------------|--------------------------------------|
| html5-button |  | Help | HTML Button |
| html5-button |  | Save | HTML Button |
| html5-grid |  | Deleted Users grid | HTML Grid |

4.2.3.4 Unauthorized Users

The following table describes all the elements of the Unauthorized Users Section and the keystroke combinations to access them.

Table 37: Keystroke References for the Controls in Unauthorized Users Section

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|--------------|---|-----------------------------------|--------------------------------------|
| html5-button |  | Help | HTML Button |
| html5-button |  | Save | HTML Button |

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|------------|--|-----------------------------------|--------------------------------------|
| html5-grid |  | Unauthorized Users grid | HTML Grid |

4.2.3.5 Idle Users

The following table describes all the elements of the Idle Users section and the keystroke combinations to access them.

Table 38: Keystroke References for the Controls Idle Users Section

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|--------------|--|-----------------------------------|--------------------------------------|
| html5-button |  | Save | HTML Button |
| html5-button |  | Help | HTML Button |
| html5-button |  | Search | HTML Button |
| html5-button |  | Reset | HTML Button |
| html5-grid |  | Idle Users grid | HTML Grid |

4.2.4 Role Master Report

The following table describes all the elements of the Role Master Report Section and the keystroke combinations to access them.

Table 39: Keystroke References for the Controls in Role Master Report Section

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|--------------|--|-----------------------------------|--------------------------------------|
| html5-button |  | Export to Excel | HTML Button |
| html5-button |  | Export to PDF | HTML Button |
| html5-grid |  | Role Master Report grid | HTML Grid |

4.2.5 User ID Population report

The following table describes all the elements of the User ID Population Report Section and the keystroke combinations to access them.

Table 40: Keystroke References for the Controls in User ID Population Report Section

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|---------------|--|-----------------------------------|--------------------------------------|
| html5-textbox | User ID <input type="text"/> | User ID | HTML Textbox |
| html5-button |  | Export to Excel | HTML Button |

4.2.6 UAM Admin Activity Report

The following table describes all the elements of the UAM Admin Activity Report Section and the keystroke combinations to access them.

Table 41: Keystroke References for the Controls in UAM Admin Activity Report Section

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|---------------|------------------------------|-----------------------------------|--------------------------------------|
| html5-textbox | User ID <input type="text"/> | User ID | HTML Textbox |

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|----------------|---|--|--------------------------------------|
| html5-calendar | Start Date * <input type="text"/>  | <ul style="list-style-type: none"> Start Date End Date | HTML Calendar |
| html5-button |  | Export to Excel | HTML Button |
| html5-button |  | Export to PDF | HTML Button |
| html5-button |  Search | Search | HTML Button |

4.2.7 User Profile Report

This section includes the keystroke reference details for the User Profile Report Menu.

4.2.7.1 User Profile Report

The following table describes all the elements of User Profile Report Section and the keystroke combinations to access them.

Table 42: Keystroke References for the Controls in User Profile Report Section

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|-------------------|---|--|--------------------------------------|
| html5-radiobutton | <input type="radio"/> File <input checked="" type="radio"/> Screen | <ul style="list-style-type: none"> File Screen | HTML Radio button |
| html5-button |  | Map | HTML Button |
| html5-button | <input type="button" value="Generate Reports"/> | Generate Reports | HTML Button |
| html5-button |  | Help | HTML Button |

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|--------------|---|-----------------------------------|--------------------------------------|
| html5-button |  | Reset | HTML Button |
| html5-grid |  | User Profile Grid | HTML Grid |

Table 43: Keystroke References for the Controls in User Map Section

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|--------------------------------------|---|-----------------------------------|---|
| html5-textbox |  | Search | HTML Textbox |
| html5-map-matadata-hierarchy-shuttle |  | Map Metadata Hierarchy Shuttle | HTML Map Metadata Hierarchy Shuttle |

4.2.7.2 Enable User

The following table describes all the elements of the Enable User Section and the keystroke combinations to access them.

Table 44: Keystroke References for the Enable User Section

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|------------------|---|---|--------------------------------------|
| html5-select-one | User ID: <input type="text" value="GUEST"/> | User ID | HTML Select |
| html5-button | <input type="text" value="Search"/> | Search | HTML Button |
| html5-button | <input type="text" value="Reset"/> | Reset | HTML Button |
| html5-button | <input type="text" value="Save"/> | Save | HTML Button |
| html5-checkbox | Enable Login: <input type="checkbox"/> | <ul style="list-style-type: none"> • Enable Login • Clear Station | HTML Checkbox |

4.3 Database Details

This section includes the keystroke reference details for the Database Details Module.

Topics:

- [Summary](#)
- [Details](#)

Figure 5: Database Details Module

4.3.1 Summary

The following table describes all the elements of the Summary Section (Database Master Page with Database Details for DB Server Section) and the keystroke combinations to access them.

Table 45: Keystroke References for the Controls in Database Master page with Database Details for DB Server Section

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|-------------------|--|-----------------------------------|--------------------------------------|
| html5-radiobutton |  | Select | HTML Radio button |
| html5-button |  | Help | HTML Button |
| html5-button |  Add | Add | HTML Button |
| html5-button |  View | View | HTML Button |
| html5-button |  Edit | Edit | HTML Button |
| html5-grid |  | Database Details for DB Server | HTML Grid |
| html5-checkbox |  | Checkbox to select the record | HTML Checkbox |

4.3.2 Details

The following table lists all the elements of the Database Master Details Page for Add, View, and Edit operations, and the associated keystroke combinations to access them.

Table 46: Keystroke References for the Controls in Database Master Details Page for Add, View, and Edit operations

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|------------------|---|---|--------------------------------------|
| html5-select-one | DB server*  | <ul style="list-style-type: none"> • DB Server • DB Type • Auth Type • Alias Name | HTML Select |
| html5-textbox | Name*  | <ul style="list-style-type: none"> • Name • Schema Name • Auth Type • Date Format • JDBC Connection String • JDBC Driver • Created By • Last Modified By • Creation Date • Last Modification Date | HTML Textbox |
| html5-grid |  | DB Details | HTML Grid |
| html5-button |  | Help | HTML Button |
| html5-button |  | Save | HTML Button |
| html5-button |  | Cancel | HTML Button |
| html5-button |  | OK | HTML Button |
| html5-button |  | Add | HTML Button |

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|--------------|---|-----------------------------------|--------------------------------------|
| html5-button |  | View | HTML Button |
| html5-button |  | Edit | HTML Button |

4.3.2.1 Alias Details

The following table lists all the elements of the Alias Details Page and the associated keystroke combinations to access them.

Table 47: Keystroke References for the Controls in Alias Details Page

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|---------------|---|--|--------------------------------------|
| html5-textbox | Auth Alias <input type="text"/> | <ul style="list-style-type: none"> Auth Alias User/Principal Name Auth String | HTML Textbox |
| html5-button |  | Save | HTML Button |
| html5-button |  | Cancel | HTML Button |

4.4 Manage OFSAA Product Licenses

The following table describes all the elements of the Manage OFSAA Application Pack Licenses Section and the keystroke combinations to access them.

Table 48: Keystroke References for the Manage OFSAA Application Pack Licenses Section

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|-------------------|--|-----------------------------------|--------------------------------------|
| html5-radiobutton |  OFS_BFND_PACK | Application Pack ID | HTML Radio button |
| html5-grid |  OFS_BFND_PACK Financial Services Foundation Applications Pack Applications forming analytics foundation such as FSDF, DIH, GLRECON, CONNECTORS for the Banking and Financial Services Domain. 2021-05-11 19:58:25.0 8.1.1.1.0 | Installed Application Packs Grid | HTML Grid |

4.5 Create New Application

This section includes the keystroke reference details for the Create New Application Module.

Topics:

- [Summary](#)
- [Details](#)

4.5.1 Summary

The following table describes all the elements of the Create New Application Summary Screen and the keystroke combinations to access them.

Table 49: Keystroke References for the Controls in Create New Application Summary Screen

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|------------------|---|---|--------------------------------------|
| html5-select-one | Information Domain  | Information Domain | HTML Select |
| html5-textbox | Application ID  | <ul style="list-style-type: none"> • Application ID • Application Pack Name • Application Name | HTML Textbox |
| html5-button |  Search | Search | HTML Button |

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|----------------|---|---|--------------------------------------|
| html5-button |  Reset | Reset | HTML Button |
| html5-button |  | Help | HTML Button |
| html5-button |  Add | Add | HTML Button |
| html5-button |  View | View | HTML Button |
| html5-button |  Edit | Edit | HTML Button |
| html5-grid |  | Applications grid | HTML Grid |
| html5-checkbox | Enabled <input checked="" type="checkbox"/> | <ul style="list-style-type: none"> Enabled Application ID | HTML Checkbox |

4.5.2 Details

The following table describes all the elements of the Create New Application Details Screen and the keystroke combinations to access them.

Table 50: Keystroke References for the Controls in the Details Screen

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|------------------|--|--|--------------------------------------|
| html5-select-one | Information Domain* <input type="text" value="FSDFINFO1"/> | Information Domain | HTML Select |
| html5-textbox | Application ID* <input type="text"/> | <ul style="list-style-type: none"> Application ID Application Description Application Pack Name Application Name | HTML Textbox |

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |

| html5-button |  | Save | HTML Button |
| html5-button |  | Cancel | HTML Button |
| html5-checkbox | Enabled* <input checked="" type="checkbox"/> | Enabled | HTML Checkbox |

4.6 Information Domain

This section includes the keystroke reference details for the Information Domain Module. It includes the following screens:

Topics:

- [Information Domain – Summary](#)
- [Information Domain - Details](#)

Figure 6: Information Domain Module

4.6.1 Information Domain Summary

The following table describes all the elements of the Information Domain Screen and the keystroke combinations to access them.

Table 51: Keystroke References for the Information Domain Screen

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|------------------|---|---|--------------------------------------|
| html5-select-one | Name <input type="text" value="FSDFINFO1"/> | Name | HTML Select |
| html5-textbox | Description <input type="text" value="Information Domain for OFS_BFND"/> | Description | HTML Textbox |
| html5-button | <input type="button" value="Add"/> | Add | HTML Button |
| html5-button | <input type="button" value="Next"/> | Next | HTML Button |
| html5-button | <input type="button" value="Save"/> | Save | HTML Button |
| html5-button | <input type="button" value="Delete"/> | Delete | HTML Button |
| html5-button | <input type="button" value="Cancel"/> | Cancel | HTML Button |
| html5-button |  | Help | HTML Button |
| html5-checkbox | <input type="checkbox"/> Is authorization required for Business Metadata? | <ul style="list-style-type: none"> Is authorization required for Business Metadata? Is this a Staging Information Domain? | HTML Checkbox |

4.6.2 Information Domain Details

The following table describes all the elements of the Information Domain - Details screen and the keystroke combinations to access them.

Table 52: Keystroke References for the Controls in the Details Screen of the Information Domain Details

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|------------------|--|--|--------------------------------------|
| html5-textbox | <p>Name <input type="text"/></p> | <ul style="list-style-type: none"> • Name • Description • ERWIN File Path • Log File Path • Scripts File Path • Entity • Name • Email • Pager • Mobile • Branch Manager Entity • Branch Manager Email • Relationship Manager Entity • Relationship Manager Email | HTML Textbox |

| html5-button | <p></p> | <p>Help</p> | HTML Button |

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|----------------|---|---|--------------------------------------|
| html5-button |  | Next | HTML Button |
| html5-button |  | Cancel | HTML Button |
| html5-button |  | Back | HTML Button |
| html5-checkbox | <input type="checkbox"/> Is authorization required for Business Metadata? | <ul style="list-style-type: none"> Is authorization required for Business Metadata? Is this a Staging Information Domain? | HTML Checkbox |

4.7 Translation Tools

This section includes the keystroke reference details for the Translation Tools Module. It includes the following screens:

Topics:

- [Config Schema Download](#)
- [Config Schema Upload](#)

Figure 7: Config Schema Download Module

The screenshot shows the Oracle Financial Services Analytical Applications Infrastructure interface. The top navigation bar includes the Oracle logo, the text "Financial Services Analytical Applications Infrastructure", and several utility icons (grid, user, help, language, environment, refresh, and help). The main content area is titled "Download Screen" and contains a "Download" button. Below this, there is a section labeled "Download" with a dropdown arrow. It includes three input fields: "Select the table" with a dropdown menu showing "AAI_ACTION_SUB_TYPE_TL", "Format to download" with a dropdown menu showing "Microsoft Excel 2003", and "Filter (Where clause)" with an empty text box.

Figure 8: Config Schema Upload Module

The screenshot shows the Oracle Financial Services Analytical Applications Infrastructure interface. The top navigation bar includes the Oracle logo, the text "Financial Services Analytical Applications Infrastructure", and several utility icons (grid, user, help, language, environment, refresh, and help). The main content area is titled "Upload Screen" and contains "Upload" and "View Log" buttons. Below this, there is a section labeled "Upload" with a dropdown arrow. It includes five input fields: "Select the table" with a dropdown menu showing "AAI_ACTION_SUB_TYPE_TL", "Select the File to Upload:" with a "Choose File" button and "No file chosen" text, "Select the sheet" with an empty text box and a file icon, "Upload Type" with radio buttons for "Incremental" (selected) and "Complete", and "Source Date Format" with an empty text box.

4.7.1 Config Schema Download

The following table describes all the elements of the Config Schema Download Section and the keystroke combinations to access them.

Table 53: Keystroke References for the Config Schema Download Section

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|------------------|--|--|--------------------------------------|
| html5-select-one | Select the table  | <ul style="list-style-type: none"> Select the table Format to download | HTML Select |
| html5-button |  | Download | HTML Button |
| html5-textrea | Filter (Where clause)  | Filter (Where clause) | HTML Textarea |

4.7.2 Config Schema Upload

The following table describes all the elements of the Config Schema Upload Section and the keystroke combinations to access them.

Table 54: Keystroke References for the Config Schema Upload Section

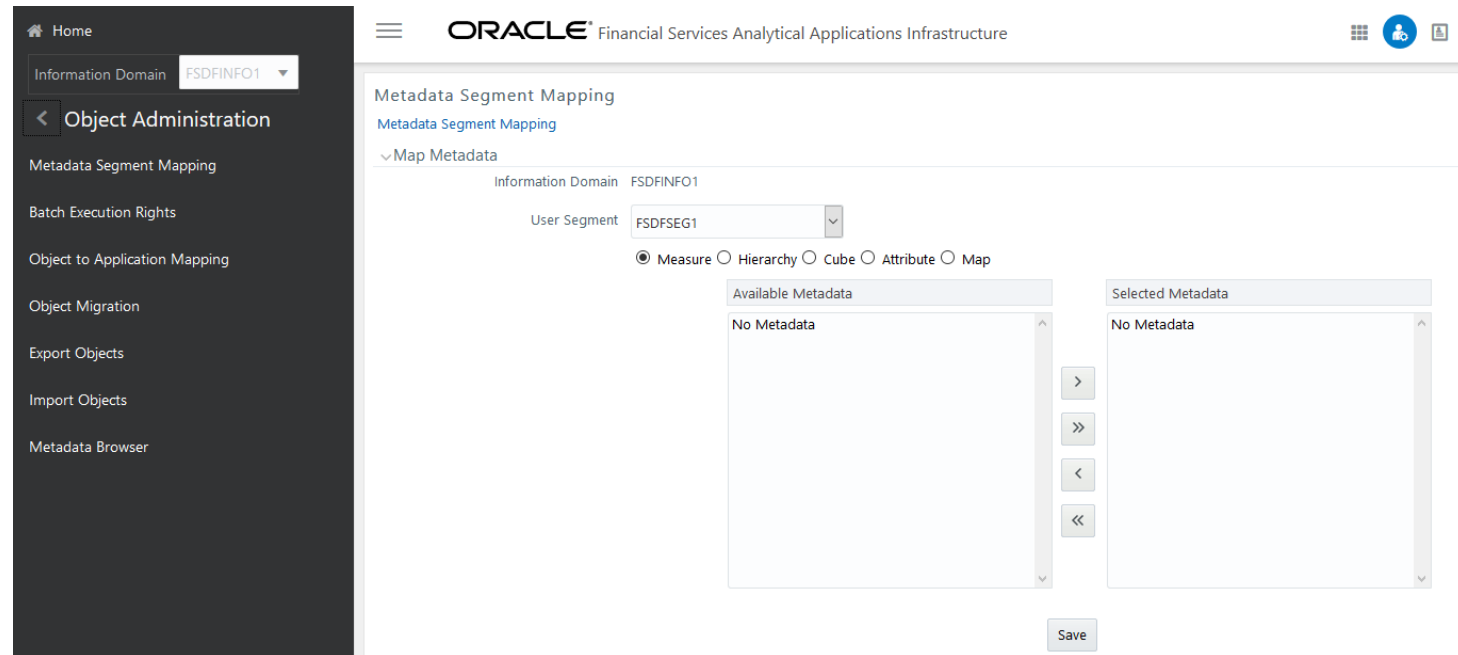

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|------------------|---|-----------------------------------|--------------------------------------|
| html5-select-one | Select the table  | Select the table | HTML Select |
| html5-button |  | Upload | HTML Button |
| html5-button |  | View Log | HTML Button |

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|-----------------------|---|-----------------------------------|--------------------------------------|
| html5-textbox | Source Date Format <input type="text"/> | Source Date Format | HTML Textbox |
| html5-filepicker | Select the File to Upload: <input type="button" value="Choose File"/> No file chosen | Select the file to Upload | HTML Filepicker |
| html5-dialog-launcher | Select the sheet <input type="text"/>  | Select the sheet | HTML Dialog Launcher |

4.8 Object Administration

This section includes the keystroke reference details for the Object Administration Module. This module includes the following screens:

- [Metadata Segment Mapping](#)
- [Batch Execution Rights](#)
- [Object to Application Mapping](#)
- [Object Migration](#)
- [Export Objects](#)
- [Object Security](#)
- [Metadata Browser](#)

Figure 9: Object Administration Module

4.8.1 Metadata Segment Mapping

This section includes the keystroke reference details for the Metadata Segment Mapping Module.

The following table lists all the elements of the Object Administration - Metadata Segment Mapping Page and the associated keystroke combinations to access them.

Table 55: Keystroke References for the Controls in the Object Administration - Metadata Segment Mapping Page

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |
|------------------|--|--|--------------------------------------|

6 OFSAAI Application Modules

This chapter includes the keystroke reference details for the following modules in the OFSDIH User Interface:

Topics:

- [Data Model Management](#)
- [Data Management Framework](#)
- [Unified Analytical Metadata](#)
- [Run Rule Framework](#)
- [Operations](#)
- [Settings](#)

Figure 12: OFSDIH Landing Page

6.1 Data Model Management

This section includes the keystroke reference details for the Data Model Management Module. It includes the following screens:

- [Data Model Maintenance](#)
- [Data Model Maintenance – Summary](#)

- [Data Model Maintenance - Details](#)

Figure 13: Unified Analytical Metadata Module

6.1.1 Data Model Maintenance

This section includes keystroke elements for the Data Model Maintenance Module.

6.1.1.1 Data Model Maintenance Summary

The following table describes all the elements of the Data Model Maintenance - Summary Section and the keystroke combinations to access them.

Table 96: Keystroke References for the Data Model Maintenance - Summary Section

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |

6.2 Data Management Framework

This section includes the keystroke reference details for the Data Management Framework Module. It includes the following screens:

- [Data Management Tools](#)
- [Data Quality Framework](#)
- [Data Entry forms and Queries](#)

6.2.1 Data Management Tools

This section includes the keystroke combinations for the Data Management Tools Section.

6.2.1.1 Data Sources

This section includes the keystroke combinations for the Data Sources Summary and Details Screens.

6.2.1.1.1 Summary

The following table describes all the elements of the Summary Section and the keystroke combinations to access them.

Table 98: Keystroke References for the Summary Section

7 Data Integration Hub Application UI

This chapter includes the keystroke reference details for the following modules:

- [Configure](#)
- [Map](#)
- [Publish](#)
- [Analyse](#)
- [Orchestration](#)
- [Execution](#)

7.1 Configure

This section includes the keystroke reference details for the following modules:

- [Settings – Mandatory and Optional](#)
- [Refresh ADI](#)
- [Parameters](#)
- [External Data Store](#)

7.1.1 Settings – Mandatory and Optional

This section includes the keystroke reference details for the Settings -Mandatory and Optional Menu.

Table 179: Keystroke References for the Controls in the Settings Page

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |

7.5 Orchestration

This section includes the keystroke references for following screens:

- Batch Maintenance
- Run Definition

7.5.1 Batch Maintenance

This section includes the keystroke references for following screen:

- [Batch Maintenance](#)

7.5.2 Run Definition

This section includes the keystroke references for following screens:

- Process
- Run

7.5.2.1 **Process**

This section includes the keystroke references for following screen:

- [Process](#)

7.5.2.2 **Run**

This section includes the keystroke references for following screen:

- [Run](#)

7.5.2.3 **Manage Run Execution**

This section includes the keystroke references for following screen:

- [Manage Run Execution](#)

7.6 **Execution**

This section includes the keystroke references for following screens:

- Batch Execution
- Batch Monitor

7.6.1 **Batch Execution**

This section includes the keystroke references for following screen:

- [Batch Execution](#)

7.6.2 **Batch Monitor**

This section includes the keystroke references for following screen:

- [Batch Monitor](#)

8 Financial Services Data Foundation Integration with Fusion Accounting Hub Cloud

This chapter includes the keystroke reference details for the following Financial Services Data Foundation Integration with Fusion Accounting Hub Cloud modules:

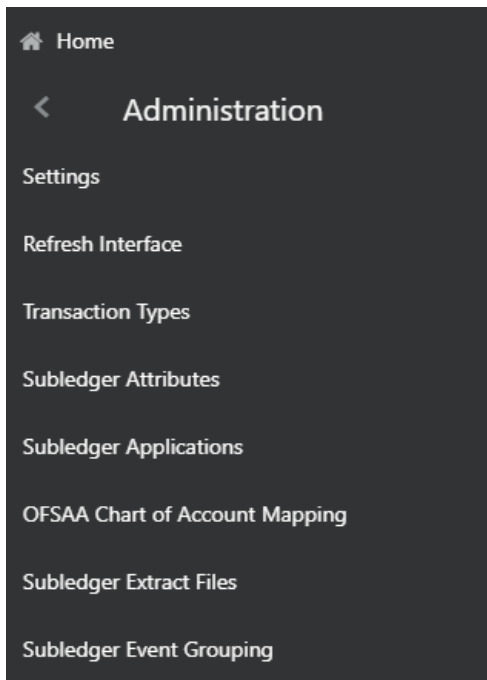

- Administration
- Data Mapping
- Data Management Tools
- Orchestration
- Execution

8.1 Administration

This section includes the keystroke reference details for the following screens in the Administration Module.

- [Settings](#)
- [Refresh Interface](#)
- [Transaction Types](#)
- [Subledger Attributes](#)
- Subledger Applications
- OFSAA Chart of Account Mapping
- Subledger Extract Files
- Subledger Event Grouping

Figure 18: Administration Module

8.1.1 Settings

This section includes the keystroke reference details for the Settings Module.

The following table lists all the elements of the Settings Module, and the associated keystroke combinations to access them.

Table 208: Keystroke References for the Controls in the Settings Module

| UI Control | How Does the UI Control Look | List of UI Controls on the Screen | Keystrokes to Access This UI Control |

10 Appendix A: HTML5 Controls

Every component on the page with a definable focus is accessible by using the tab traversal (by using Tab and Shift+Tab).

NOTE:

Disabled items do not receive keyboard focus and do not allow any interaction. Read-only items receive the keyboard focus.

10.1 HTML Textbox (`html5-textbox`)

This section contains information on the textbox component.

Table 220: Textbox Component

| Target | Key | Action |
|--------|-----|-------------------------|
| Input | Tab | Set focus to the input. |

10.2 HTML Textarea (`html5-textarea`)

This section contains information on the textarea component.

Table 221: Textarea Component

| Target | Key | Action |
|--------|-----|-------------------------|
| Input | Tab | Set focus to the input. |

10.3 HTML Button (`html5-button`)

This section contains information on the button component.

Table 222: Button Component

| Target | Key | Action |
|--------|-------|-------------------------|
| Button | Tab | Set focus to the input. |
| | Enter | Activates the control |

NOTE:

Buttons support the Enter key and not the Space key.

10.4 HTML Select (`html5-select-one`)

This section contains information on the select component.

Table 223: Select Component

| Target | Key | Action |
|-----------|----------------------|--|
| Select | Tab | Set focus to the input. |
| | Enter | Activates the control. |
| Drop down | UpArrow or DownArrow | Highlight the option item in the direction of the arrow. |
| Drop down | Esc | Collapse the drop-down list. If the drop-down is already closed, do nothing. |

10.5 HTML Multiselect List (html5-multiselect-list)

This section contains information on the Multiselect List component.

Table 224: Multiselect List Component

| Target | Key | Action |
|-----------|----------------------|--|
| Select | Tab | Set focus to the input. |
| Drop down | UpArrow or DownArrow | Highlight the option item in the direction of the arrow. |

10.6 HTML Radio button (html5-radio button)

This section contains information on the radio button component.

Table 225: Radio button Component

| Target | Key | Action |
|----------|-----------|---|
| Radioset | Tab | Set focus to the checked radio input. |
| Input | UpArrow | Select the previous input in the group. |
| | DownArrow | Select the next input in the group. |
| | Enter | Activates the radioset |

NOTE:

When running the screen reader, at times the radioset is not activated. Pressing Enter activates the radioset and enables further Keystrokes like UpArrow and DownArrow.

10.7 HTML Checkbox (html5-checkbox)

This section contains information on the checkbox component.

Table 226: Checkbox Component

| Target | Key | Action |
|-------------|-----|--|
| Checkboxset | Tab | Set focus on the first item in the checkbox set. |

10.8 HTML Date (html5-date)

This section contains information on the date component.

Table 227: Date Component

| Target | Key | Action |
|----------------|-------|-------------------------|
| Calendar Popup | Tab | Calendar grid. |
| | Enter | Activates the selection |

10.9 HTML Hierarchy Browser (Flat List) (html5-hierarchy-browser)

This section contains information on the JSP version of the Hierarchy Browser and is a flat list.

Table 228: JSP Version of the Hierarchy Browser (Flat List) Component

| Target | Key | Action |
|-----------------------------|------------|--|
| Left Hand Side (LHS) Panel | Tab | Set focus to the Tree Nodes. |
| Right Hand Side (RHS) Panel | Tab | Set focus to the Tree Nodes. |
| Right Hand Side (RHS) Panel | Enter | Highlights the Tree Node, to move to Left Hand Side (LHS) or Right Hand Side (RHS) Panel |
| Map Button | Enter | Activates the control |
| Map All Button | Enter | Activates the control |
| UnMap Button | Enter | Activates the control |
| UnMap All Button | Enter | Activates the control |
| UnMap All Button | RightArrow | Moves Focus from LHS Panel to Map Button |
| UnMap All Button | LeftArrow | Moves Focus from RHS Panel to UnMap Button |

10.10 HTML Dataset Hierarchy Browser (html5-dataset-hierarchy-browser)

This section contains information on the Dataset Hierarchy Browser.

Table 229: Dataset Hierarchy Browser Component

| Target | Key | Action |
|--------------------------|----------|--|
| Hcy Br LHS Shuttle Panel | Tab | Set focus to the checkbox input. |
| Hcy Br LHS Shuttle Panel | Spacebar | Selects the Node. |
| Hcy Br RHS Shuttle Panel | Tab | Set focus to the selected Node |
| Hcy Br RHS Shuttle Panel | Enter | Selects the Node. |
| Move Buttons | Tab | Set focus to the Move Buttons |
| Move Buttons | Enter | Activates the control. Moves selected items to LHS or RHS |
| Search Button | Enter | Activates the control. Moves focus to the nearest searched item. |

10.11 HTML Container Expand Collapse (html5-container-expand-collapse)

Using the Tab button on the Expand or Collapse button of the Container Header is disabled in most cases. Depending on availability, the following keys can be used:

Table 230: Container Expand Collapse Component

| Target | Key | Action |
|--------|-------|-------------------------|
| Button | Tab | Set focus to the input. |
| Button | Enter | Activates the control. |

10.12 HTML Grid (html5-grid)

This section contains information on the grid component.

Table 231: Grid Component

| Target | Key | Action |
|------------------|-------|-------------------------|
| Checkbox in Grid | Tab | Set focus to the input. |
| Links in Grid | Tab | Set focus on the link. |
| Sort | Tab | Set focus to the input. |
| Sort | Enter | Activates the control. |

10.13 HTML Pagination Panel (html5-pagination)

This section contains information on the pagination panel component.

Table 232: Pagination Panel Component

| Target | Key | Action |
|------------------|-------|--|
| Button | Tab | Set focus to the input. |
| Button | Enter | Activates the control. |
| Page Input | Tab | Setting focus outside the input activates the control. |
| Records Per Page | Tab | Setting focus outside the input activates the control. |

10.14 HTML Tabs (html5-tab)

This section contains information on the Tabs panel component.

Table 233: Tabs Panel Component

| Target | Key | Action |
|--------|-------|----------------------------|
| Tabs | Tab | Set focus to the input. |
| | Enter | Activates the selected Tab |

10.15 HTML Metadata Tree Control (html5-metadata-tree-control)

This section contains information on the Metadata Tree Control component.

Table 234: Metadata Tree Control Component

| Target | Key | Action |
|-----------------------|-------|----------------------------------|
| Metadata Tree Control | Tab | Set focus to the input. |
| | Enter | Launch the Metadata Tree Browser |

10.16 HTML Metadata Tree Browser (html5-metadata-tree-browser)

This section contains information on the Metadata Tree Browser component.

Table 235: Metadata Tree Browser Component

| Target | Key | Action |
|----------------------|-------|-------------------------------------|
| Tree Expand Collapse | Tab | Set focus to the Expand/Collapse. |
| | Enter | Expands the selected Tree Node |
| Tree Node | Tab | Set focus to the Tree Leaf Node |
| | Enter | Selects the Tree Node |
| Ok Button | Enter | The selected Tree Node is persisted |

10.17 HTML Hierarchy Browser Shuttle (html5-hierarchy-browser-shuttle)

This section contains information on the Hierarchy Browser Shuttle component.

Table 236: Hierarchy Browser Shuttle Component

| Target | Key | Action |
|---|----------|--|
| LHS Shuttle | Tab | Set focus to the List |
| Checkbox | Spacebar | Selects the List Node |
| Move Buttons (Select, Select All, Deselect, Deselect All) | Tab | Set focus to the Move Buttons |
| RHS Shuttle | Enter | Highlights the selected List Node |
| Search Button | Enter | Highlights the Nodes with the nearest search results |

10.18 HTML Map Metadata Hierarchy Shuttle (html5-map-metadata-hierarchy-shuttle)

This section contains information on the Map Metadata Hierarchy Shuttle component.

Table 237: Map Metadata Hierarchy Shuttle Component

| Target | Key | Action |
|---|------------|--|
| LHS/RHS Shuttle | Tab | Set focus to the List |
| | Enter | Selects the List Node |
| | RightArrow | Moves focus to the Move Buttons on Highlight of LHS Shuttle Node |
| | Left Arrow | Moves focus to the Move Buttons on Highlight of RHS Shuttle Node |
| Move Buttons (Map, Map All, Unmap, Unmap All) | Tab | Set focus to the Move Buttons |
| | Enter | Highlights the selected List Node |

10.19 HTML Calendar (html5-calendar)

This section contains information on the Date component.

Table 238: Date Component

| Target | Key | Action |
|--------|-----|-------------------------|
| Button | Tab | Set focus to the input. |

| Target | Key | Action |
|--------|-------|--|
| | Enter | Activates the control and opens Calendar |

This section contains information on the Calendar popup component.

Table 239: Calendar Component

| Target | Key | Action |
|---------------------------------------|----------------------|--|
| Popup | Tab | Set focus to the Calendar Popup. |
| Single Select (Month, Year) | Tab | Set focus to the input. |
| | Enter | Activates the Select control. Open |
| Single Select (Month, Year) Drop-down | UpArrow or DownArrow | Highlight the option item in the direction of the arrow. |
| | Esc | Collapse the drop-down list. If the drop-down is already closed, do nothing. |
| | Enter | Switch to selected Month/Year. Reloads the Calendar Popup |
| Left Arrow Button (Month, Year) | Enter | Switch to Previous Month/Year. Reloads the Calendar Popup |
| Right Arrow Button (Month, Year) | Enter | Switch to Next Month/Year. Reloads the Calendar Popup |
| Calendar Picker | Tab | Set focus to the day cells |
| | Enter | Select the currently focused day |
| Close Link | Enter | Closes the Calendar Popup |

10.20 HTML Navigation Tree (html5-navigation-tree)

This section contains information on the Navigation Tree component.

Table 240: Navigation Tree Component

| Target | Key | Action |
|----------------------|-------|--|
| Tree Expand/Collapse | Tab | Set focus to the Tree Expand/Collapse. |
| | Enter | Activates the control and opens Tree |
| Tree Node | Tab | Set focus to the Tree Node |
| | Enter | Activates the Tree Node |

10.21 HTML Records Per Page Dropdown (html5-records-per-page)

This section contains information on the Records Per Page Dropdown component.

Table 241: Records Per Page Dropdown Component

| Target | Key | Action |
|----------------|-------|--|
| Button Menu | Tab | Set focus to the Input field. Activates the control and opens the Drop-down |
| Menu Drop-down | Tab | Moves to the next item |
| | Enter | Activates the selected row/checkbox |
| Go Button | Enter | Closes the Drop-down and refreshes the Grid/List with the New Grid Row Count |

10.22 HTML Records Per Page (html5-records-per-page)

This section contains information on the Records Per Page component.

Table 242: Records Per Page Component

| Target | Key | Action |
|------------------------|-------|--|
| Records Per Page Input | Tab | Set focus to the Input field. |
| | Enter | Activates the control and refreshes the Grid with the New Grid Row Count |

10.23 HTML Pagination with Jump to Page (html5-pagination-with-jump-to-page)

This section contains information on the Pagination with Jump to Page component.

Table 243: Pagination with Jump to Page Component

| Target | Key | Action |
|--------------------|-------|--|
| Pagination Buttons | Tab | Set focus to the pagination buttons |
| | Enter | Activates the control and refreshes the Grid with the updated state of the Grid Rows |
| Jump To Page | Tab | Set focus to the Input field. |
| | Enter | Activates the control and refreshes the Grid with the updated state of the Grid Rows |

10.24 HTML Rules Menu (html5-rulesmenu)

This section contains information on the Rules Menu component.

Table 244: Rules Menu Component

| Target | Key | Action |
|----------------|-------|--|
| Grid Header | Tab | Set focus to the Grid Header |
| | Enter | Activates the control and opens the Drop-down |
| Menu Drop-down | Tab | Set focus to the Menu Item |
| | Enter | Activates the selected Menu Item and refreshes the Grid with the updated state |

10.25 HTML Dialog Launcher (html5-dialog-launcher)

This section contains information on the Dialog Launcher component.

Table 245: Dialog Launcher Component

| Target | Key | Action |
|----------------|-------|--|
| Launch Button | Tab | Set focus to the Launch Button |
| | Enter | Activates the control and opens the Popup Window |
| Menu Drop-down | Tab | Set focus to the Menu Item |
| | Enter | Activates the selected Menu Item and refreshes the Grid with the updated state |

10.26 HTML New Expression Builder (html5-new-expression-builder)

This section contains information on the New Expression Builder Component.

Table 246: New Expression Builder Component

| Target | Key | Action |
|--|---|---|
| Expression Builder Component | Tab In | Set focus to different Controls in the Expression Builder Component |
| Expression Builder Component | Enter | Activates the control |
| The statement in the Expression Builder may contain several Input controls such as Input Text, Select, Multiselect, and so on. | See Textbox (html5-textbox) section, for details on Input Text. See Select (html5-select-one) section, for details on Select. See Select-Many (oj-select-many) section, for details on Select Many. | |

10.27 HTML Breadcrumbs (html5-breadcrumbs)

This section contains information on the Breadcrumb Component.

Table 247: Breadcrumb Component

| Target | Key | Action |
|------------|--------|--|
| Breadcrumb | Tab In | Set focus to breadcrumb |
| | Enter | Activates the Breadcrumb, if the link is available |

10.28 HTML Messages (html5-messages)

This section contains information on the Messages Component.

Table 248: Messages Component

| Target | Key | Action |
|---------|-----|-------------------------------|
| Message | Tab | Set focus to the message text |

10.29 HTML Expression Browser Type BP (html5-expression-browser-type-bp)

This section contains information on the Expression Browser Type BP Component.

Table 249: Expression Browser Type BP Component

| Target | Key | Action |
|-------------------------|--------|--|
| Expression Browser Tree | Tab In | Set focus to tree Nodes |
| | Enter | Activates the tree Nodes and makes an entry in the expression Textarea Input |
| Reset Button | Enter | Resets the Expression Textarea Input |

10.30 HTML Hierarchy Browser Type Checkbox (html5-hierarchy-browser-type-checkbox)

This section contains information on the Hierarchy Browser Type checkbox component.

Table 250: Hierarchy Browser Type checkbox Component

| Target | Key | Action |
|------------------------|---|-----------------------|
| Hierarchy Browser Tree | Tab | Set focus to the Tree |
| Tree | See Hcy Br Tree (oj-tree) for the keystrokes. | |
| Tabs | See Tabs(oj-tabs) for the Keystrokes. | |

10.31 HTML Hierarchy Browser Type 4 (html5-hierarchy-browser-type4)

This section contains information on the Hierarchy Browser Type 4 component.

Table 251: Hierarchy Browser Type 4 Component

| Target | Key | Action |
|-----------------------|-------|---|
| RHS/ LHS Tree Shuttle | Tab | Set focus to the Tree Nodes |
| | Enter | Moves highlighted Tree Nodes from LHS to RHS, and from RHS to LHS |

10.32 HTML Tree (html5-tree)

This section contains information on the HTML Tree Component.

Table 252: HTML Tree Component

| Target | Key | Action |
|-----------|--------|--------------------------|
| HTML Tree | Tab In | Set focus to tree Nodes |
| | Enter | Activates the tree Nodes |

10.33 HTML File Picker (html5-filepicker)

This section contains information on the filepicker component.

Table 253: Filepicker Component

| Target | Key | Action |
|------------|-------|-------------------------|
| Filepicker | Tab | Set focus to the input. |
| | Enter | Activates the control |

11 Appendix B: OJET Controls

This section describes the set of unique keystrokes for LUX and OJET controls:

NOTE:

Disabled items will not receive keyboard focus and do not allow any interaction. Read-only items receive the keyboard focus.

11.1 OJET Navigation List (oj-navigation-list)

The OFSAA landing page uses the Navigation menu for the Left-Hand-Side (LHS) menu. The application selection menu is used to select an Application, Reports, Admin menu, and so on.

Table 254: Navigation List Keystroke

| Target | Key | Action |
|--------------------------|---|---|
| List Item | Enter or Space | Selects list item. |
| List Item | UpArrow | Moves focus to the previous visible list item. |
| List Item | DownArrow | Moves focus to the next visible list item. |
| List Item | RightArrow (LeftArrow in RTL) | For the horizontal navigation list, the focus is moved to the next visible item. |
| List Item | LeftArrow (RightArrow in right to left (RTL)) | For the horizontal navigation list, the focus is moved to the previous visible item. |
| List Item | Home | Moves focus to the first visible list item. |
| List Item | End | Moves focus to the last visible list item. |
| List Item | F2 | If the focus is on a list item, pressing F2 makes its contents accessible using TAB. |
| List Item | Esc | When F2 mode is enabled, press Esc to exit F2 mode. |
| List Item | Shift+Tab | Move focus to the hierarchical menu button. Only applicable for sliding navigation list and when the hierarchical menu button is enabled. |
| Group Item | RightArrow (LeftArrow in RTL) | If the focus is on the collapsed node, expand the sublist. |
| Group Item | LeftArrow (RightArrow in RTL) | If the focus is on the expanded node, collapses the sublist. |
| List Item in the sublist | Esc | Applicable only for sliding navigation list. If focus is in a sublist, closes the sublist and moves focus to the parent list item. |
| Hierarchical Menu button | Enter | NOTE: This target is visible only for the Sliding Navigation List. |

| Target | Key | Action |
|------------------------------|----------------|---|
| Hierarchical Menu button | Tab | Moves focus to the current list item. Note: This target is visible only for the Sliding Navigation List. |
| Hierarchical Menu button | Shift + Tab | Moves focus to the Previous Icon. Note: This target is visible only for the Sliding Navigation List. |
| Overflow Menu button | Enter or Space | NOTE: This is applicable only for the Horizontal Navigation List when overflow is set to popup. |
| Previous Icon or List Header | Enter | Collapses the sublist and slides to the parent list. NOTE: This target is visible only for the Sliding Navigation List. |
| Previous Icon or List Header | Tab | Moves focus to Hierarchical Menu button. NOTE: This target is visible only for the Sliding Navigation List. |

11.2 OJET Button (oj-button)

This section contains information on the Button Keystroke.

Table 255: Button Keystroke

| Target | Key | Action |
|---------------|-----------------------------|--------------------|
| Push Button | Enter or Space* | Push the button. |
| Toggle Button | Enter or Space | Toggle the button. |
| Menu Button | Enter, Space*, or DownArrow | Open the menu. |
| | Esc | Close the menu. |

NOTE:

Some types of Push and Menu buttons support the use of the Enter key and not the Space key.

11.3 OJET Buttonset One (oj-buttonset-one)

This section contains information on the Buttonset One Keystroke.

Table 256: Buttonset One Keystroke

| Target | Key | Action |
|-----------|------------|--|
| Buttonset | LeftArrow | Navigate to the previous enabled button on the left, wrapping around at the end. |
| | RightArrow | Navigate to the next enabled button on the right, wrapping around at the end. |

11.4 OJET Textbox (oj-input-text)

This section contains information on the textbox keystroke.

Table 257: Textbox Keystroke

| Target | Key | Action |
|--------|--------|--|
| Input | Tab In | Set focus to the input. If hints, help, instruction, or messages exist in a note window, pop up the note window. |

11.5 OJET Input Number (oj-input-number)

This section contains information on the number keystroke.

Table 258: Number Keystroke

| Target | Key | Action |
|--------|--------------|--|
| Input | Enter or Tab | Submit the value you typed in the input field. |
| Input | Tab In | Set focus to input. If hints, help, instruction, or messages exist in a note window, pop up the note window. |
| Input | UpArrow | Increment the number. |
| Input | DownArrow | Decrement the number. |

11.6 OJET Password (oj-password)

This section contains information on the Password keystroke.

Table 259: Password Keystroke

| Target | Key | Action |
|---------------|--------|--|
| Input element | Tab In | Set focus to the input. If hints, help, instruction, or messages exist in a note window, pop up the note window. |

11.7 OJET Textarea (oj-textarea)

This section contains information on the textarea keystroke.

Table 260: Textarea Keystroke

| Target | Key | Action |
|----------|--------|---|
| TextArea | Tab In | Set focus to the textarea. If hints, help, instruction, or messages exist in a note window, pop up the note window. |

11.8 OJET Radio (oj-radio)

This section contains information on the Radio keystroke.

Table 261: Radio Keystroke

| Target | Key | Action |
|----------|-----------|---|
| Input | UpArrow | Select the previous input in the group. |
| Input | DownArrow | Select the next input in the group. |
| Radioset | Tab In | Set focus to the checked radio input. If hints, titles, or messages exist in a note window, pop up the note window. |

11.9 OJET Checkbox (oj-checkbox)

This section contains information on the Checkbox keystroke.

Table 262:Checkbox Keystroke

| Target | Key | Action |
|-------------|-----------|---|
| Checkboxset | Tab In | Set focus to the first focusable checkbox in the checkbox set. Disabled checkboxes are not focusable. If hints, help instruction or messages exist in a note window, pop up the note window. |
| Checkbox | Space | Toggles the checkbox; If the checkbox is unselected, it will select it and vice versa. |
| Checkbox | Tab | Sets focus to the next focusable checkbox in the checkbox set. Disabled checkboxes are not focusable. If the target is the last focusable checkbox in the checkbox set, focus goes to the next focusable item after the oj-checkboxset. |
| Checkbox | Shift+Tab | Sets focus to the previous focusable checkbox in the checkbox set. Disabled checkboxes are not focusable. If the target is the first focusable checkbox in the checkbox set, focus goes to the previous focusable item before the oj-checkboxset. |

11.10 OJET Select Single (oj-select-single)

This section contains information on the Select keystroke.

Table 263: Select Keystroke

| Target | Key | Action |
|-------------|----------------------|---|
| Option item | Enter | Select the highlighted choice from the drop down. |
| Input field | Enter | Set the input text as the value. |
| Drop down | UpArrow or DownArrow | Highlight the option item on the drop-down list in the direction of the arrow. If the drop down is not open, expand the drop-down list. |
| Drop down | Esc | Collapse the drop-down list. If the drop down is already closed, do nothing. |
| Select | Tab In | Set focus to the Select. If hints, title or messages exist in a notewindow, pop up the notewindow. |

11.11 OJET Select Many (oj-select-many)

This section contains information on the Multiselect keystroke.

Table 264: Multiselect Keystroke

| Target | Key | Action |
|----------------------------------|------------------------------------|---|
| Option item | Enter | Select the highlighted choice from the drop-down list. |
| Drop down | UpArrow or DownArrow | Highlight the option item in the direction of the arrow. If the drop-down is not open, expand the drop-down list. |
| Select box | LeftArrow or RightArrow | Move focus to the previous or next selected item. |
| A selected item with remove icon | Backspace or Delete | Remove the selected item having focus. |
| Drop down | Esc | Collapse the drop-down list. If the drop-down is already closed, do nothing. |
| Select box or search box | Any characters for the search term | Filter down the results with the search term. |
| Select | Tab In | Set focus to the select. If hints, titles, or messages exist in a note window, pop up the note window. |

11.12 OJET Date or DateTime (oj-datetime / oj-calendar)

This section contains information on the date or DateTime keystroke.

Table 265: Date or DateTime Keystroke

| Target | Key | Action |
|---------------|----------------------|---|
| Input element | DownArrow or UpArrow | Shows the calendar grid and moves the focus into the expanded grid. |

| Target | Key | Action |
|---------------|------------------------|---|
| Input element | Esc | Close the grid. |
| Input element | Tab In | Set focus to the input. If hints, titles, or messages exist in a note window, pop up the note window. |
| Picker | Enter | Select the currently focused day |
| Picker | UpArrow | Move up in the grid. |
| Picker | DownArrow | Move down in the grid. |
| Picker | RightArrow | Move right in the grid. |
| Picker | LeftArrow | Move left in the grid. |
| Picker | Esc | Close the grid. |
| Picker | Home | Move focus to first day of the month. |
| Picker | End | Move focus to last day of the month. |
| Picker | Page Up | Switch to previous month. |
| Picker | Page Down | Switch to next month. |
| Picker | Alt + Page Up | Switch to previous year. |
| Picker | Alt + Page Down | Switch to next year. |
| Picker | Ctrl + Alt + Page Up | Switch to previous by stepBigMonths. |
| Picker | Ctrl + Alt + Page Down | Switch to next by stepBigMonths. |
| Picker | Ctrl + Alt + T | Places focus on the Today button if it exists. |

Table 266: Date Time Keystrokes

| Target | Key | Action |
|---------------|------------------------------|--|
| Input element | DownArrow or UpArrow | When not in Inline Mode, shows the calendar grid and moves the focus into the expanded grid. When in Inline Mode, shows the time picker and moves the focus into the expanded time picker. |
| Input element | Shift + DownArrow or UpArrow | Shows the time picker and moves the focus into the expanded time picker. |
| Input element | Esc | Close the grid. |
| Input Element | Tab In | Set focus to the input. If hints, titles, or messages exist in a note window, pop up the note window. |
| Picker | Enter | Select the currently focused day. |
| Picker | UpArrow | Move up in the grid. |
| Picker | DownArrow | Move down in the grid. |
| Picker | RightArrow | Move right in the grid. |
| Picker | LeftArrow | Move left in the grid. |
| Picker | Esc | Close the grid. |

| Target | Key | Action |
|--------|-----------------------|--|
| Picker | Home | Move focus to the first day of the month. |
| Picker | End | Move focus to the last day of the month. |
| Picker | Page Up | Switch to the previous month. |
| Picker | Page Down | Switch to next month. |
| Picker | Alt + Page Up | Switch to the previous year. |
| Picker | Alt + Page Down | Switch to next year. |
| Picker | Ctrl + Alt + Page Up | Switch to previous by stepBigMonths. |
| Picker | Ctrl + Alt + PageDown | Switch to next by stepBigMonths. |
| Picker | Ctrl + Alt + T | Places focus on the Today button if it exists. |

11.13 OJET Switch (oj-switch)

This section contains information on the switch keystroke.

Table 267: Switch Keystroke

| Target | Key | Action |
|--------------|----------------|---|
| Switch Thumb | Enter or Space | Toggle switch value |
| Switch Thumb | Tab In | Set focus to the thumb. If hints, titles, or messages exist in a note window, pop up the note window. |

11.14 OJET List View (oj-listview)

This section contains information on the list view keystroke.

Table 268: List View Keystroke

| Target | Key | Action |
|-----------|-----------|---|
| List Item | F2 | Enters Actionable Mode. This enables keyboard action on elements inside the item, including navigating between focusable elements inside the item. |
| | Esc | Exits Actionable Mode. |
| | Tab | When in Actionable Mode, navigates to the next focusable element within the item. If the last focusable element is reached, shift focus back to the first focusable element. When not in Actionable Mode, navigates to the next focusable element on the page (outside ListView). |
| | Shift+Tab | When in Actionable Mode, navigates to the previous focusable element within the item. If the first focusable element is reached, shift focus back to the last focusable element. When not in Actionable Mode, navigates to the previous focusable element on the page (outside ListView). |

| Target | Key | Action |
|------------|------------------|---|
| | DownArrow | Move focus to the item below. |
| | UpArrow | Move focus to the item above. |
| | LeftArrow | When display in card layout, move focus to the item on the left. |
| | RightArrow | When display in card layout, move focus to the item on the right. |
| | Shift+DownArrow | Extend the selection to the item below. |
| | Shift+UpArrow | Extend the selection to the item above. |
| | Shift+LeftArrow | When display in card layout, extend the selection to the item on the left. |
| | Shift+RightArrow | When display in card layout, extend the selection to the item on the right. |
| | Shift+F10 | Launch the context menu if there is one associated with the current item. |
| | Enter | Selects the current item. Not applicable if the item is already selected. |
| | Space | Toggles to select and deselect the current item. If previous items have been selected, deselects them and selects the current item. |
| | Shift+Space | Selects contiguous items from the last selected item to the current item. |
| | Ctrl+Space | Toggles to select and deselect the current item while maintaining previously selected items. |
| | Ctrl+X | Marks the selected items to move if dnd.reorder is enabled. |
| | Ctrl+C | Marks the selected items to copy if dnd.reorder is enabled. |
| | Ctrl+V | Paste the items that are marked directly before the current item (or as the last item if the current item is a folder). |
| Group Item | LeftArrow | Collapse the current item if it is expanded and is collapsible. For non-hierarchical data, do nothing. |
| | RightArrow | Expand the current item if it has children and is expandable. For non-hierarchical data, do nothing. |

11.15 OJET Grid (oj-grid)

This section contains information on the grid keystroke.

Table 269: Grid Keystroke

| Target | Key | Action |
|--------|-------------|--|
| Cell | Tab | The first Tab into the DataGrid moves focus to the first cell of the first row. The second Tab moves focus to the next focusable element outside of the DataGrid. |
| | Shift + Tab | The first Shift + Tab into the DataGrid moves focus to the first cell of the first row. The second Shift + Tab moves focus to the previous focusable element outside of the DataGrid. |
| | LeftArrow | Moves focus to the cell of the previous column within the current row. There is no wrapping at the beginning or end of the columns. If a row header is present, then the row header next to the first column of the current row will gain focus. |

| Target | Key | Action |
|--------------------|----------------|--|
| | RightArrow | Moves focus to the cell of the next column within the current row. There is no wrapping at the beginning or end of the columns. |
| | UpArrow | Moves focus to the cell of the previous row within the current column. There is no wrapping at the beginning or end of the rows. If a column header is present, then the column header above the first row of the current column will gain focus. |
| | DownArrow | Moves focus to the cell of the next row within the current column. There is no wrapping at the beginning or end of the rows. |
| | Home | Moves focus to the first (available) cell of the current row. |
| | End | Moves focus to the last (available) cell of the current row. |
| | Page Up | Moves focus to the first (available) cell in the current column. |
| | Page Down | Moves focus to the last (available) cell in the current column. |
| | Ctrl + Space | Selects all the cells of the current column. This is only available if multiple cell selection modes are enabled. |
| | Shift + Space | Selects all the cells of the current row. This is only available if multiple cell selection modes are enabled. |
| | Shift + Arrow | Extends the current selection. |
| | Ctrl + Arrow | Move focus to level 0 of the active index of the header in the arrow direction if it exists. |
| | Shift + F8 | Freezes the current selection, therefore allowing the user to move focus to another location to add additional cells to the current selection. This is used to accomplish non-contiguous selection. Use the Esc key or press Shift+F8 again to exit this mode. |
| | Shift + F10 | Brings up the context menu. |
| | Ctrl + X | Marks the current row to move if dnd is enabled and the data source supports move operation. |
| | Ctrl + V | Move the row that is marked to directly under the current row. If the row with the focused cell is the last, then it is a move to the row above the current row. |
| | Ctrl + A | If multiple selections are enabled, perform a select all on the Datagrid. |
| | Ctrl + Alt + 5 | Read the context and content of the current cell to the screen reader. |
| | F2 | Makes the content of the cell actionable, such as a link. |
| | Enter | Makes the content of the cell actionable and acts on the content, such as going to a link. |
| | Alt + Enter | Makes the content of the cell actionable, such as a link. |
| | Esc | If the cell is actionable, it exits the actionable mode. |
| Column Header Cell | LeftArrow | Moves focus to the previous column header. There is no wrapping at the beginning or end of the column headers. |
| | RightArrow | Moves focus to the next column header. There is no wrapping at the beginning or end of the column headers. |

| Target | Key | Action |
|-----------------|--------------------|--|
| | DownArrow | Moves focus to the cell of the first row directly below the column header. If using nested headers moves to focus up a level. |
| | UpArrow | If using nested headers moves the focus down a level. |
| | Ctrl + UpArrow | If in the column end header, move focus to level 0 of the active index in the column header if it exists. |
| | Ctrl + DownArrow | If in the column header, move focus to level 0 of the active index in the column end header if it exists. |
| | Enter | Toggle the sort order of the column if the column is sortable. |
| | Shift + F10 | Brings up the context menu. |
| | Space | If multiple selections are enabled and not in the selection Mode row, the column(s) underneath the header will be selected. |
| | Shift + RightArrow | If multiple selections are enabled and not in the SelectionMode row, the column selection extends to the right by the number of columns covered by the header to the right of the current selection frontier header. |
| | Shift + LeftArrow | If multiple selections are enabled and not in the SelectionMode row, the column selection extends to the right-left the number of columns covered by the header to the left of the current selection frontier header. |
| | Shift + UpArrow | If multiple selections are enabled and not in the SelectionMode row and the current selection frontier header has a parent nested header, the column selection extends to cover the columns beneath the parent header. Extending the selection with arrow keys use the parent level. If the parent header is directly above the anchor header, the anchor shifts to the parent header and future selections are based on the parent header. If we are already at the highest level, nothing happens. |
| | Shift + DownArrow | If multiple selections are enabled and not in the SelectionMode row and the current selection frontier header has a child nested header, the column selection extends to cover the columns beneath the child header. Extending the selection with arrow keys will use the child level. If the child header is directly below the anchor header, the anchor shifts to the child header and future selections are based on the child header. If we are already at the lowest level, it moves into the data body and select the first cell underneath the header. |
| Row Header Cell | UpArrow | Moves focus to the previous row header. There is no wrapping at the beginning or end of the row headers. |
| | DownArrow | Moves focus to the next row header. There is no wrapping at the beginning or end of the row headers. |
| | RightArrow | Moves focus to the cell of the first column directly next to the row header. If using nested headers moves to focus up a level. |
| | LeftArrow | Moves focus to the cell of the first column directly next to the row header in the RTL direction. If using nested headers moves the focus down a level. |
| | Ctrl + LeftArrow | If in the row end header, move focus to level 0 of the active index in the row header if it exists. |

| Target | Key | Action |
|--------|--------------------|--|
| | Ctrl + RightArrow | If in the row header, move focus to level 0 of the active index in the row end header if it exists. |
| | Shift + F10 | Brings up the context menu. |
| | Space | If multiple selections are enabled, the row(s) underneath the header are selected. |
| | Shift + UpArrow | If multiple selections are enabled, the row selection extends up by the number of rows covered by the header above the current selection frontier header. |
| | Shift + DownArrow | If multiple selections are enabled, the row selection extends down by the number of rows covered by the header below the current selection frontier header. |
| | Shift + LeftArrow | If multiple selections are enabled and the current selection frontier header has a parent nested header, the row selection extends to cover the rows beneath the parent header. Extending the selection with arrow keys use the parent level. If the parent header is directly above the anchor header, the anchor shifts to the parent header and future selections is based on the parent header. If we are already at the highest level, nothing happens. |
| | Shift + RightArrow | If multiple selections are enabled and the current selection frontier header has a child nested header, the row selection extends to cover the rows beneath the child header. Extending the selection with arrow keys uses the child level. If the child header is directly below the anchor header, the anchor shifts to the child header and future selections are based on the child header. If we are already at the lowest level, it simply moves into the data body and select the first cell underneath the header. |

11.16 OJET Dialog (oj-dialog)

This section contains information on the dialog keystrokes.

Table 270: Dialog Keystrokes

| Target | Key | Action |
|-------------------|----------------|-------------------|
| Dialog | Esc | Close the dialog. |
| Dialog Close Icon | Enter or Space | Close the dialog. |

11.17 OJET Popup (oj-popup)

This section contains information on the popup keystrokes.

Table 271: Popup Keystrokes

| Target | Key | Action |
|--------------------|--------------------|---|
| Focus within Popup | Tab or Shift + Tab | Navigate the content of the popup. Close the open popup if there are no tab stops in the popup. |
| | F6 | Move focus to the launcher for a popup with modeless modality. Close the open popup if the modality is modal. |
| | Esc | Close the open popup. |
| Popup Launcher | F6 | Move focus to the first tab stop within the open popup. If there is not a tab stop within the content, the focus is established on the popup. |

11.18 OJET Tabs (oj-tabs)

This section contains information on the tabs keystrokes.

Table 272: Tabs Keystrokes

| Target | Key | Action |
|----------------------|---------------------------------|--|
| List Item | Enter or Space | Selects list item. |
| | Up Arrow | Moves focus to the previous visible list item. |
| | Down Arrow | Moves focus to the next visible list item |
| | Right Arrow (Left Arrow in RTL) | For the horizontal tab bar, the focus is moved to the next visible item. |
| | Left Arrow (Right Arrow in RTL) | For the horizontal tab bar, the focus is moved to the previous visible item. |
| | Home | Moves focus to the first visible list item. |
| | End | Moves focus to the last visible list item. |
| | F2 | If the focus is on a list item, pressing F2 makes its contents accessible using TAB. |
| | Esc | When F2 mode is enabled, press Esc to exit F2 mode. |
| | Ctrl+X | Marks the current item to move if reorderable is enabled. |
| | Ctrl+V | Paste the item that is marked directly before the current item. |
| | DELETE | Delete the current item. |
| Overflow Menu button | Enter or Space | Open menu. See menu button keystrokes for details. NOTE: This is applicable only for Horizontal Tab Bar when overflow is set to popup. |

11.19 OJET Hcy Br Tree (oj-tree)

This section contains information on the OJET Tree keystrokes.

Table 273: Hcy Br Tree Keystrokes

| Key | Action |
|-------------------|---|
| UpArrow/DownArrow | Moves between visible nodes. |
| LeftArrow | On an expanded node, collapses the node. On a collapsed or leaf node, moves focus to the node's parent. |
| RightArrow | On a collapsed node, expands the node. On an expanded node, moves to the first child of the node. On an end node, does nothing. |
| Spacebar | Toggles the selected status of the node. |
| Home | Moves to the top node of the tree. |
| End | Moves to the last visible node of the tree. |
| Shift + UpArrow | Extends selection up one node (assuming multiple selection has been defined). |
| Shift + DownArrow | Extends selection down one node (assuming multiple selection has been defined). |
| Shift + Home | Extends selection up to the top-most node. |
| Shift + PageDown | Extends selection to the last node. |
| Ctrl + Spacebar | Toggles the selection state of the current node (assuming multiple selection has been defined). |
| Shift + Spacebar | Extends selection to the current node (assuming multiple selection has been defined). |
| Shift + F10 | Invoke Context Menu (if defined) on current node. |
| * (asterisk) | Expands all nodes. |

11.20 OJET Expression Builder (oj-expression-builder)

This section contains information on the Expression Builder component.

Table 274: Expression Builder Component

| Target | Key | Action |
|-------------------------|---|---------------------------|
| Expression Shuttle Tree | Tab | Set focus to the Tree |
| Tree | See Hcy Br Tree(oj-tree) for the Keystrokes | |
| Expression Textbox | Tab | Set focus to the TextArea |

11.21 OJET Expression Builder Launcher (oj-expression-builder-launcher)

This section contains information on the OJET Expression Builder Launcher component.

Table 275: OJET Expression Builder Launcher Component

| Target | Key | Action |
|----------------|-------|--|
| Launch Button | Tab | Set focus to the Launch Button |
| Launch Button | Enter | Activates the control and opens the Popup Window |
| Menu Drop-down | Tab | Set focus to the Menu Item |
| Menu Drop-down | Enter | Activates the selected Menu Item and refreshes the Grid with the updated state |

11.22 OJET Tree View (oj-tree-view)

This section contains information on the OJET Tree View keystrokes.

Table 276: OJET Tree View Keystrokes

| Target | Key | Action |
|--------|--|--|
| Item | Tab | Navigates to next focusable element on page. |
| Item | Shift+Tab | Navigates to previous focusable element on page. |
| Item | DownArrow | Moves focus to the item below. |
| Item | UpArrow | Moves focus to the item above. |
| Item | LeftArrow | On an expanded item, collapses the item. Otherwise, move focus to the item above. The action is swapped with RightArrow in RTL locales. |
| Item | RightArrow | On a collapsed item, expands the item. Otherwise, move focus to the item below. The action is swapped with LeftArrow in RTL locales. |
| Item | Shift+DownArrow | Extends the selection to the item below. Only applicable if the multiple selection is enabled. |
| Item | Shift+UpArrow | Extends the selection to the item above. Only applicable if the multiple selection is enabled. |
| Item | Space | Toggles the selection of the current item and deselects the other items. |
| Item | Enter | Selects the current item and deselects the other items. No op if the current item is already selected. |
| Item | Ctrl+Space/Enter / CMD+Space/Enter | Toggles the selection of the current item while maintaining previously selected items. Only applicable if the multiple selection is enabled. |

| Target | Key | Action |
|----------------|--|---|
| Item | Shift+Space/Enter | Selects contiguous items from the last selected item to the current item. Only applicable if the multiple selection is enabled. |
| Ctrl+A / CMD+A | If selection Mode is multiple, will select all selectable nodes. | |

11.23 OJET Context Menus (oj-menu)

The Menus keystroke is used for all button menus. For example, the user menu on the landing page, tile menu in applications, and so on.

Table 277: Menu Keystrokes

| Target | Key | Action |
|---|----------------|---|
| Menu Item | Enter or Space | Invoke the focused menu item's action. |
| | UpArrow | Move focus to the previous menu item, wrapping around at the top. |
| | DownArrow | Move focus to the next menu item, wrapping around at the bottom. |
| | Home | Move focus to the first menu item. |
| | End | Move focus to the last menu item. |
| Menu Item in Top-level Menu | Esc | Close the menu and move focus to the launcher. |
| JET Component or HTML Element having a JET Context Menu | Shift + F10 | Open the context menu. |

11.24 OJET Messages (oj-messages)

This section contains information on the messages keystrokes.

Table 278: Messages Keystrokes

| Target | Key | Action |
|------------------------|--------------------|---|
| Focus within Messages | Tab or Shift + Tab | Navigate the content of the messages region. |
| | F6 | Moves focus back to the last focused element outside the messages region. |
| | Esc | Moves focus back to the last focused element outside the messages region. |
| Focus outside Messages | F6 | Move focus to the first message within the more recently disclosed messages region. |

11.25 OJET Tree (oj-tree-view)

This section contains information on the tree keystrokes.

Table 279: Tree Keystrokes

| Target | Key | Action |
|-------------------|---|--|
| Item | Tab | Navigates to the next focusable element on-page. |
| | Shift+Tab | Navigates to the previous focusable element on-page. |
| | DownArrow | Moves focus on the item below. |
| | UpArrow | Moves focus on the item above. |
| | LeftArrow | On an expanded item, collapses the item. Otherwise, move focus to the item above. The action is swapped with RightArrow in RTL locales. |
| | RightArrow | On a collapsed item, expands the item. Otherwise, move focus to the item below. The action is swapped with LeftArrow in RTL locales. |
| | Shift+DownArrow | Extends the selection to the item below. Only applicable if multiple selections are enabled. |
| | Shift+UpArrow | Extends the selection to the item above. Only applicable if multiple selections are enabled. |
| | Space | Toggles the selection of the current item and deselects the other items. |
| | Enter | Selects the current item and deselects the other items. No-op if the current item is already selected. |
| | Ctrl+Space/Enter | Toggles the selection of the current item while maintaining previously selected items. Only applicable if multiple selections are enabled. |
| Shift+Space/Enter | Selects contiguous items from the last selected item to the current item. Only applicable if multiple selections are enabled. | |

11.26 OJET Accordion (oj-accordion)

This section contains information on the accordion keystrokes.

Table 280: Accordion Keystrokes

| Target | Key | Action |
|--------------------|----------------|--|
| Collapsible header | Space or Enter | Toggle disclosure state. |
| Collapsible header | Tab | Navigate to the next collapsible header and if none then the next element on-page. |
| Collapsible header | Shift+Tab | Navigate to the previous collapsible header and if none then the previous element on-page. |

| Target | Key | Action |
|--------------------|--|---|
| Collapsible header | UpArrow or Left Arrow (RightArrow in RTL) | Move focus to the previous collapsible header with wrap around. |
| Collapsible header | DownArrow or RightArrow (LeftArrow in RTL) | Move focus to the next collapsible header with wrap around. |
| Collapsible header | Home | Move focus to the first collapsible header. |
| Collapsible header | End | Move focus to the last collapsible header. |

11.27 OJET Expand/Collapse (oj-collapse)

This section contains information on the Expand Collapse component.

Table 281: Expand Collapse Component

| Target | Key | Action |
|--------|----------------|--------------------------|
| Header | Space or Enter | Toggle disclosure state. |

11.28 OJET Canvas Diagram (oj-canvas-diagram)

This section contains information on the Canvas Diagram component

Table 282: Canvas Diagram Keystrokes

| Key | Action |
|----------------------------|---|
| Tab | Move focus to next element. |
| Shift + Tab | Move focus to previous element. |
| + | Zoom in one level. |
| - | Zoom out one level. |
| 0 (zero) | Zoom to fit. |
| Ctrl + Alt + 0 (zero) | Zoom and center. |
| PageUp or PageDown | Pan up / down. |
| Shift + PageUp or PageDown | Pan left/right (RTL: Pan right/left). |
| LeftArrow or RightArrow | When focus is on a node, move focus and selection to nearest node left/right. |
| UpArrow or DownArrow | When focus is on a node, move focus and selection to nearest node up/down. |
| Ctrl + Shift + Space | Open/Close an active container node |

| Key | Action |
|--|---|
| [| Move focus and selection to nearest node down in the container hierarchy |
|] | Move focus and selection to nearest node up in the container hierarchy |
| Alt + < or Alt + > | Move focus from the node to a link. |
| UpArrow or DownArrow | When focus is on a link, navigate between links clockwise or counter clockwise. |
| LeftArrow or RightArrow | When focus is on a link, move focus from a link to a start or end node. |
| Ctrl + Space | Select focused node / link. |
| Ctrl + Space | Multi-select node / link with focus. |
| Shift + <node or link navigation shortcut> | Move focus and multi-select a node or a link. |
| Ctrl + <node or link navigation shortcut> | Move focus to a node or a link but do not select. |

11.29 OJET Canvas (oj-canvas)

This section contains information on the OJET Canvas keystrokes.

Table 283: OJET Canvas Keystrokes

| Target | Key |
|--------------------|---|
| LHS Activity List | See OJET Context Menu for Keystrokes. See Canvas Diagram for Keystrokes. |
| RHS Canvas Diagram | See OJET Context Menu for Keystrokes. See Canvas Diagram for Keystrokes. |

11.30 OJET Object Migration Canvas (oj-object-migration-canvas)

This section contains information on the Object Migration Canvas keystrokes.

Table 284: Object Migration Canvas Keystrokes

| Target | Key |
|----------------|--|
| Canvas Diagram | See Canvas Diagram for Keystrokes. |

11.31 OJET Table (oj-table)

This section contains information on the Table Component keystrokes.

Table 285: Table Component Keystrokes

| Target | Key | Action |
|--------|-----------------|---|
| Cell | Tab | The first Tab into the Table moves focus to the first column header. The second Tab moves focus to the next focusable element outside of the Table. If focus is on a row and the row is actionable then Tab moves focus to the next focusable element within the row. If focus is already on the last focusable element then focus will wrap to the first focusable element in the row. If editMode is rowEdit, see the section 'Cell in EditableRow'. |
| Cell | Shift+Tab | The first Shift+Tab into the Table moves focus to the first column header. The second Shift+Tab moves focus to the previous focusable element outside of the Table. If focus is on a row and the row is actionable then Shift+Tab moves focus to the previous focusable element within the row. If focus is already on the first focusable element then focus will wrap to the last focusable element in the row. If Edit Mode is rowEdit, see the Cell in EditableRow section. |
| Cell | DownArrow | Move focus to the next row. |
| Cell | Shift+DownArrow | Select and move focus to the next row. |
| Cell | UpArrow | Move focus to the previous row. If at the first row then move to the column header. |
| Cell | Shift+UpArrow | Select and move focus to the previous row. |
| Cell | LeftArrow | Do nothing. |
| Cell | RightArrow | Do nothing. |
| Cell | Home | Move focus to first row. |
| Cell | End | Move focus to last row. |
| Cell | Space | Select row. |
| Cell | Enter | If the table editMode is rowEdit then make the current row editable. If the table editMode is none then toggle the current row to actionable mode if there exists a tabbable element in the row. Once toggled to actionable mode, focus will be moved to be first tabbable element in the row. |

| Target | Key | Action |
|----------------------|-----------------|---|
| Cell | F2 | If the table editMode is none then toggle the current row to actionable mode if there exists a tabbable element in the row. Once toggled to actionable mode, focus will be moved to be first tabbable element in the row. If the table editMode is rowEdit then toggle the current row between editable and readonly. |
| Cell in Editable Row | Tab | Move focus to next editable cell or focusable element in the row. If focus is on the last editable cell or focusable element in the row, make the next row editable and move focus to the first editable cell or focusable element in the next row. If focus is on the last editable cell or focusable element in the last row, move focus to next focusable element on the page (outside table). |
| Cell in Editable Row | Shift+Tab | Move focus to previous editable cell or focusable element in the row. If focus is on the first editable cell or focusable element in the row, make the previous row editable and move focus to the last editable cell or focusable element in the previous row. If focus is on the first editable cell or focusable element in the first row, move focus to previous focusable element on the page (outside table). |
| Cell in Editable Row | DownArrow | Handled in the editable cell. |
| Cell in Editable Row | Shift+DownArrow | Handled in the editable cell. |
| Cell in Editable Row | UpArrow | Handled in the editable cell. |
| Cell in Editable Row | Shift+UpArrow | Handled in the editable cell. |
| Cell in Editable Row | LeftArrow | Handled in the editable cell. |
| Cell in Editable Row | RightArrow | Handled by the editable cell. |
| Cell in Editable Row | Home | Handled in the editable cell. |
| Cell in Editable Row | End | Handled in the editable cell. |
| Cell in Editable Row | Space | Handled in the editable cell. |
| Cell in Editable Row | Enter | Make the next row editable and move focus to the editable cell in current column in the next row. If last row is editable then make it readonly. |
| Cell in Editable Row | Shift+Enter | Make the previous row editable and move focus to the editable cell in current column in the previous row. If first row is editable then make it readonly. |
| Cell in Editable Row | F2 | Toggle the current row between editable and readonly. |
| Cell in Editable Row | Esc | Make the current row readonly. |
| Column Header | Tab | Navigate to next focusable element on page (outside table). |

| Target | Key | Action |
|---------------|------------------|---|
| Column Header | Shift+Tab | Navigate to previous focusable element on page (outside table). |
| Column Header | DownArrow | Move focus to the first row. |
| Column Header | UpArrow | Do nothing. |
| Column Header | LeftArrow | Move focus to previous column header. |
| Column Header | Shift+LeftArrow | Select and move focus to previous column header. |
| Column Header | RightArrow | Move focus to next column header. |
| Column Header | Shift+RightArrow | Select and move focus to next column header. |
| Column Header | Home | Move focus to first column header. |
| Column Header | End | Move focus to last column header. |
| Column Header | Space | Select column. |

11.32 OJET Foldable Layout (oj-foldable-layout)

This section contains information on the Foldable Layout keystrokes.

Table 286: Foldable Layout Keystrokes

| Target | Key | Action |
|-----------------|-------------|---|
| Foldable layout | Left Arrow | Moves to previous panel |
| Foldable layout | Right Arrow | Moves to next panel |
| Foldable layout | F2 | To navigate between focusable elements inside the panel |

11.33 OJET Object Node (object-node)

This section contains information on the Object Node keystrokes.

Table 287: Object Node Keystrokes

| Target | Key | Action |
|-------------|-------------|--|
| Object Node | Enter | Expands dependencies and usage relationships for the selected item |
| Object Node | Shift + F10 | Opens context menu |
| Object Node | F2 | To navigate between focusable elements inside the panel |

11.34 OJET Chart (oj-chart)

This section contains information on the Chart Component keystrokes.

Table 288: Chart Component Keystrokes

| Key | Action |
|--------------------|--|
| Tab | Move focus to next element. |
| Shift + Tab | Move focus to previous element. |
| UpArrow | Move focus and selection to previous data item. |
| DownArrow | Move focus and selection to next data item. |
| LeftArrow | Move focus and selection to previous data item (on left). |
| RightArrow | Move focus and selection to next data item (on right). |
| Shift + UpArrow | Move focus and multi-select previous data item. |
| Shift + DownArrow | Move focus and multi-select next data item. |
| Shift + LeftArrow | Move focus and multi-select previous data item (on left). |
| Shift + RightArrow | Move focus and multi-select next data item (on right). |
| Ctrl + UpArrow | Move focus to previous data item, without changing the current selection. |
| Ctrl + DownArrow | Move focus to next data item, without changing the current selection. |
| Ctrl + LeftArrow | Move focus to previous data item (on left), without changing the current selection. |
| Ctrl + RightArrow | Move focus to next data item (on right), without changing the current selection. |
| Ctrl + Spacebar | Multi-select data item with focus. |
| = or + | Zoom in one level if zooming is enabled. |
| - or _ | Zoom out one level if zooming is enabled. |
| PageUp | Pan up if scrolling is enabled. |
| PageDown | Pan down if scrolling is enabled. |
| Shift + PageUp | Pan left in left-to-right locales. Pan right in right-to-left locales. |
| Shift + PageDown | Pan right in left-to-right locales. Pan left in right-to-left locales. |
| Enter | Drill on data item, categorical axis label, or legend item when drilling is enabled. |

11.35 OJET Legend (oj-legend)

This section contains information on the Legend Component keystrokes.

Table 289: Legend Component Keystrokes

| Target | Key |
|-------------|---|
| Tab | Move focus to next element. |
| Shift + Tab | Move focus to previous element. |
| UpArrow | Move focus to previous item. |
| DownArrow | Move focus to next item. |
| LeftArrow | Move focus to previous item (on left). |
| RightArrow | Move focus to next item (on right). |
| Enter | Hides or unhides the data associated with the current item. |

11.36 OJET Metadata Browser Breadcrumb (metadata-browser-breadcrumbs)

This section contains information on the Metadata Browser Breadcrumb keystrokes.

Table 290:Metadata Browser Breadcrumb Keystrokes

| Target | Key | Action |
|-------------|-------------|--|
| Object Node | Enter | Expands dependencies and usage relationships for the selected item |
| Object Node | Shift + F10 | Opens context menu |
| Object Node | F2 | To navigate between focusable elements inside the panel |

11.37 OJET Hierarchy Browser Shuttle (oj-hierarchy-browser-shuttle)

This section contains information on the OJET Hierarchy Browser Shuttle component.

Table 291: OJET Hierarchy Browser Shuttle Component

| Target | Key | Action |
|----------------------|-------|---------------------------------------|
| Hcy Browser controls | Tab | Set focus to the Hcy Browser controls |
| | Enter | Activates the controls |

| Target | Key | Action |
|-------------|---|--------|
| Tree | See Hcy Br Tree(oj-tree) for the Keystrokes. | |
| Tabs | See Tabs(oj-Tabs) for the Keystrokes. | |
| Button Menu | See Context Menu(oj-menu) for the Keystrokes. | |

11.38 OJET Hierarchy Browser Map (oj-hierarchy-browser-map)

This section contains information on the Hierarchy Browser Map component.

Table 292: Hierarchy Browser Map Component

| Target | Key | Action |
|---|---|---------------------------|
| Hierarchy Browser Map | Tab | Set focus to the elements |
| Select | See Select-single (oj-single-select) for the keystrokes | |
| Tabs | See Tabs(oj-tabs) for the Keystrokes. | |
| Tree | See Hcy Br Tree (oj-tree) for the keystrokes. | |
| Buttons (Map, Automap, Unmap, Unmap All, Transform Map) | Tab | Set focus to the Buttons |
| | Enter | Activates the Buttons |

11.39 OJET Control Specific Help (oj-control-specific-help)

This section contains information on the Control Specific Help component.

Table 293: Control Specific Help Component

| Target | Key | Action |
|-----------------------|-----|---|
| Control Specific Help | Tab | Set focus to the Help button and reads the context Help text. |

11.40 OJET Search Box (oj-input-search)

This section contains information on the Search Box component.

Table 294: Search Box Component

| Target | Key | Action |
|-------------|----------------------|--|
| Input field | Enter | Set the input text as the value. |
| Input field | UpArrow or DownArrow | If the drop down is not open, expand the drop down list. |
| Input field | Esc | Collapse the drop down list. If the drop down is already closed, do nothing. |
| Input field | Tab In | Set focus to the Input Search. |

11.41 OJET Tab Bar (oj-tab-bar)

This section contains information on the Tab bar keystrokes.

Table 295: Tab Bar Keystrokes

| Target | Key | Action |
|----------------------|-------------------------------|---|
| List Item | Enter or Space | Selects list item. |
| | UpArrow | Moves focus to the previous visible list item. |
| | DownArrow | Moves focus to the next visible list item |
| | RightArrow (LeftArrow in RTL) | For horizontal tab bar, focus will be moved to next visible item. |
| | LeftArrow (RightArrow in RTL) | For horizontal tab bar, focus will be moved to previous visible item. |
| | Home | Moves focus to the first visible list item. |
| | End | Moves focus to the last visible list item. |
| | F2 | If focus is on a list item, pressing F2 will make its contents accessible using TAB. |
| | Esc | When F2 mode is enabled, press Esc to exit F2 mode. |
| | Ctrl+X | Marks the current item to move if reorderable is enabled. |
| | Ctrl+V | Paste the item that are marked to directly before the current item |
| DELETE | Delete the current item. | |
| Overflow Menu button | Enter or Space | Open menu. Refer menu button touch documentation. Note: This is applicable only for Horizontal Tab Bar when overflow is set to popup. |

11.42 OJET Table (oj-table)

This section contains information on the Table keystrokes.

Table 296: Table Keystrokes

| Target | Key | Action |
|--------|-----------------|---|
| Cell | Tab | The first Tab into the Table moves focus to the first column header. The second Tab moves focus to the next focusable element outside of the Table. If focus is on a row and the row is actionable then Tab moves focus to the next focusable element within the row. If focus is already on the last focusable element then focus will wrap to the first focusable element in the row. If editMode is rowEdit, please see the section 'Cell in EditableRow'. |
| | Shift+Tab | The first Shift+Tab into the Table moves focus to the first column header. The second Shift+Tab moves focus to the previous focusable element outside of the Table. If focus is on a row and the row is actionable then Shift+Tab moves focus to the previous focusable element within the row. If focus is already on the first focusable element then focus will wrap to the last focusable element in the row. If editMode is rowEdit, please see the section 'Cell in EditableRow'. |
| | DownArrow | Move focus to the next row. |
| | Shift+DownArrow | Select and move focus to the next row. |
| | UpArrow | Move focus to the previous row. If at the first row then move to the column header. |
| | Shift+UpArrow | Select and move focus to the previous row. |
| | LeftArrow | Do nothing. |
| | RightArrow | Do nothing. |
| | Home | Move focus to first row. |
| | End | Move focus to last row. |
| | Space | Select row. |
| | Enter | If the table editMode is rowEdit then make the current row editable. If the table editMode is none then toggle the current row to actionable mode if there exists a tabbable element in the row. Once toggled to actionable mode, focus will be moved to be first tabbable element in the row. |
| | F2 | If the table editMode is none then toggle the current row to actionable mode if there exists a tabbable element in the row. Once toggled to actionable mode, focus will be moved to be first tabbable element in the row. If the table editMode is rowEdit then toggle the current row between editable and readonly. |
| | Tab | Move focus to next editable cell or focusable element in the row. If focus is on the last editable cell or focusable element in the row, make the next row editable |

| Target | Key | Action |
|----------------------|--------------------------------|---|
| Cell in Editable Row | | and move focus to the first editable cell or focusable element in the next row. If focus is on the last editable cell or focusable element in the last row, move focus to next focusable element on the page (outside table). |
| | Shift+Tab | Move focus to previous editable cell or focusable element in the row. If focus is on the first editable cell or focusable element in the row, make the previous row editable and move focus to the last editable cell or focusable element in the previous row. If focus is on the first editable cell or focusable element in the first row, move focus to previous focusable element on the page (outside table). |
| | DownArrow | Handled in the editable cell. |
| | Shift+DownArrow | Handled in the editable cell. |
| | UpArrow | Handled in the editable cell. |
| | Shift+UpArrow | Handled in the editable cell. |
| | LeftArrow | Handled in the editable cell. |
| | RightArrow | Handled by the editable cell. |
| | Home | Handled in the editable cell. |
| | End | Handled in the editable cell. |
| | Space | Handled in the editable cell. |
| | Enter | Make the next row editable and move focus to the editable cell in current column in the next row. If last row is editable then make it readonly. |
| | Shift+Enter | Make the previous row editable and move focus to the editable cell in current column in the previous row. If first row is editable then make it readonly. |
| | F2 | Toggle the current row between editable and readonly. |
| Esc | Make the current row readonly. | |
| Column Header | Tab | Navigate to next focusable element on page (outside table). |
| | Shift+Tab | Navigate to previous focusable element on page (outside table). |
| | DownArrow | Move focus to the first row. |
| | UpArrow | Do nothing. |
| | LeftArrow | Move focus to previous column header. |

| Target | Key | Action |
|--------|------------------|--|
| | Shift+LeftArrow | Select and move focus to previous column header. |
| | RightArrow | Move focus to next column header. |
| | Shift+RightArrow | Select and move focus to next column header. |
| | Home | Move focus to first column header. |
| | End | Move focus to last column header. |
| | Space | Select column. |

11.43 OJET Conveyor Belt (oj-conveyorbelt)

ConveyorBelt is for layout only and does not directly support keyboard interaction. It is up to the application to provide keyboard support.

11.44 OJET Text Area (oj-text-area)

This section contains information on the Text Area keystrokes.

Table 297: Text Area Keystrokes

| Target | Key | Action |
|----------|-----------|---|
| TextArea | Tab In | Set focus to the textarea. Show user assistance text. This may be inline or in a notewindow depending upon theme and property settings. |

11.45 OJET Train (oj-train)

This section contains information on the Train keystrokes.

Table 298: Train Keystrokes

| Key | Action |
|-----------|---|
| Tab | Move focus to the next selectable step. |
| Shift+Tab | Move focus to the previous selectable step. |
| Enter | Select the focused step. |

11.46 OJET Text Area (Readonly)

11.47 OJET List View (oj-list-view)

This section contains information on the List View keystrokes.

Table 299: List View Keystrokes

| Target | Key | Action |
|------------|--|---|
| List Item | F2 | Enters Actionable mode. This enables keyboard action on elements inside the item, including navigate between focusable elements inside the item. |
| | Esc | Exits Actionable mode. |
| | Tab | When in Actionable Mode, navigates to next focusable element within the item. If the last focusable element is reached, shift focus back to the first focusable element. When not in Actionable Mode, navigates to next focusable element on page (outside ListView). |
| | Shift+Tab | When in Actionable Mode, navigates to previous focusable element within the item. If the first focusable element is reached, shift focus back to the last focusable element. When not in Actionable Mode, navigates to previous focusable element on page (outside ListView). |
| | DownArrow | Move focus to the item below. |
| | UpArrow | Move focus to the item above. |
| | LeftArrow | When display in card layout, move focus to the item on the left. |
| | RightArrow | When display in card layout, move focus to the item on the right. |
| | Shift+DownArrow | Extend the selection to the item below. |
| | Shift+UpArrow | Extend the selection to the item above. |
| | Shift+LeftArrow | When display in card layout, extend the selection to the item on the left. |
| | Shift+RightArrow | When display in card layout, extend the selection to the item on the right. |
| | Shift+F10 | Launch the context menu if there is one associated with the current item. |
| | Enter | Selects the current item. No op if the item is already selected. |
| | Space | Toggles to select and deselect the current item. If previous items have been selected, deselects them and selects the current item. |
| | Shift+Space | Selects contiguous items from the last selected item to the current item. |
| Ctrl+Space | Toggles to select and deselect the current item while maintaining previous selected items. | |
| Ctrl+X | Marks the selected items to move if dnd.reorder is enabled. | |

| Target | Key | Action |
|------------|------------|--|
| | Ctrl+C | Marks the selected items to copy if dnd.reorder is enabled. |
| | Ctrl+V | Paste the items that are marked to directly before the current item (or as the last item if the current item is a folder). |
| Group Item | LeftArrow | Collapse the current item if it is expanded and is collapsible. For non-hierarchical data, do nothing. |
| | RightArrow | Expand the current item if it has children and is expandable. For non-hierarchical data, do nothing. |

11.48 OJET Checkbox Set (oj-checkboxset)

This section contains information on the Checkbox Set keystrokes.

Table 300: Checkbox Set Keystrokes

| Target | Key | Action |
|-------------|-----------|---|
| Checkboxset | Tab In | Set focus to the first focusable checkbox in the checkboxset. Disabled checkboxes are not focusable. If hints, helpInstruction or messages exist in a notewindow, pop up the notewindow. |
| Checkbox | Space | Toggles the checkbox; If the checkbox is unselected, it will select it and vice versa. |
| Checkbox | Tab | Sets focus to the next focusable checkbox in the checkboxset. Disabled checkboxes are not focusable. If the target is the last focusable checkbox in the checkboxset, focus goes to the next focusable item after the oj-checkboxset. |
| Checkbox | Shift+Tab | Sets focus to the previous focusable checkbox in the checkboxset. Disabled checkboxes are not focusable. If the target is the first focusable checkbox in the checkboxset, focus goes to the previous focusable item before the oj-checkboxset. |

11.49 OJET Masonry Layout (oj-masonry layout)

MasonryLayout is for layout only and does not directly support keyboard interaction.

11.50 OJET Filmstrip (oj-filmstrip)

FilmStrip is for layout only. Providing keyboard support for the child items in the filmstrip is the responsibility of the application developer, if the items do not already support keyboard interaction. This could be done, for example, by specifying tabIndex on each item to enable tab navigation among them.

Only the child items of the FilmStrip that are visible in the current logical page can be tabbed to. Items outside the current logical page are hidden from the tab order.

11.51 OJET Timeline (oj-timeline)

This section contains information on the Timeline keystrokes.

Table 301: Timeline Keystrokes

| Key | Action |
|--------------------|--|
| Tab | Move focus to next element. |
| Shift + Tab | Move focus to previous element. |
| UpArrow | Moves focus between series in a Dual Timeline and does nothing in a Single Timeline. |
| DownArrow | |
| LeftArrow | Move focus and selection to previous data item (on left). |
| RightArrow | Move focus and selection to next data item (on right). |
| Shift + UpArrow | Move focus and multi-select previous data item. |
| Shift + DownArrow | Move focus and multi-select next data item. |
| Shift + LeftArrow | Move focus and multi-select previous data item (on left). |
| Shift + RightArrow | Move focus and multi-select next data item (on right). |
| Ctrl + UpArrow | Move focus to previous data item, without changing the current selection. |
| Ctrl + DownArrow | Move focus to next data item, without changing the current selection. |
| Ctrl + LeftArrow | Move focus to previous data item (on left), without changing the current selection. |
| Ctrl + RightArrow | Move focus to next data item (on right), without changing the current selection. |
| Ctrl + Spacebar | Multi-select data item with focus. |
| = or + | Zoom in one level if zooming is enabled. |
| - or _ | Zoom out one level if zooming is enabled. |
| PageUp | Pan up if scrolling is enabled. |
| PageDown | Pan down if scrolling is enabled. |
| Shift + PageUp | Pan left in left-to-right locales. Pan right in right-to-left locales. |
| Shift + PageDown | Pan right in left-to-right locales. Pan left in right-to-left locales. |

11.52 OJET File Picker (oj-file-picker)

This section contains information on the File Picker keystrokes.

Table 302: the File Picker Keystrokes

| Target | Key | Action |
|-------------------|-------|-----------------------------------|
| Clickable element | Enter | Launch the browser's file picker. |

11.53 OJET Combobox Many (oj-combobox many)

This section contains information on the Combobox Many keystrokes.

Table 303: Combobox Many Keystrokes

| Target | Key | Action |
|--------------------------------|-------------------------|---|
| Option item | Enter | Select the highlighted item from the drop down. |
| Input field | Enter | Add the input text to selections. |
| Drop down | UpArrow or DownArrow | Highlight the option item on the drop down list in the direction of the arrow. If the drop down is not open, expand the drop down list. |
| Combobox | LeftArrow or RightArrow | Move focus to the previous or next selected item. |
| Selected item with remove icon | Backspace or Delete | Remove the selected item having focus. |
| Drop down | Esc | Collapse the drop down list. If the drop down is already closed, do nothing. |
| Combobox | Tab In | Set focus to the combobox. If hints, title or messages exist in a notewindow, pop up the notewindow. |

11.54 OJET Paging Control (oj-paging-control)

This section contains information on the Paging Control keystrokes.

Table 304: Paging control Keystrokes

| Target | Key | Action |
|-----------------------|--------|---|
| Page Number Input | Tab In | Set focus to the input. |
| Arrow Page Navigation | Tab | Set focus to the first, previous, next, or last page arrow. |

| Target | Key | Action |
|---------------------|-----|--------------------------------|
| Numbered Page Links | Tab | Set focus to to the page link. |

12 Appendix C: LUX Controls

This chapter includes the keystroke controls for Lightweight User Interface Extensions (LUX).

12.1 LUX Breadcrumbs (oj-lux-breadcrumb)

This section contains information on the breadcrumbs keystroke for LUX and OJET controls.

Table 305: Breadcrumbs Keystroke

| Target | Key | Action |
|----------------|-----------|--|
| Link Button | Tab | Set focus to the Link. |
| | Enter | Activates the control. |
| Menu Drop Down | Tab | Set focus to the DownArrow. |
| | UpArrow | Moves focus to the previous visible list item. |
| | DownArrow | Moves focus to the next visible list item. |
| | Esc | Collapse the drop-down list. If the drop-down is already closed, do nothing. |

12.2 LUX Grid (oj-lux-grid)

This section contains information on the grid (LUX) keystrokes.

12.2.1 Keyboard shortcuts for navigation in and out of the grid

This section contains information on the keyboard shortcuts for navigating in and out of the grid.

Table 306: Keyboard Shortcuts for Navigating in and out of the Grid

| Action for keyboard | Key(s) | Notes |
|--|---|--|
| Move focus from the previous focusable element on the page (outside of the grid) to the grid | (All) Tab | Initially, the first cell in the first data row is focused and selected Once focus has been moved to the grid, subsequent tab presses that re-enter the grid shall return focus to the cell that last held focus. |
| Enter the grid for navigation and editing | (LUX) Any key besides Tab and Shift+Tab | (LUX) Focus must be on the grid (LUX) Most keys other than the Enter key will enter the grid and also perform their normal action |
| Move focus from the grid to the next focusable element on the page (outside of the grid) | (All) Tab | (LUX) The grid must be in the "escape mode" state |

| Action for keyboard | Key(s) | Notes |
|--|-----------------|---|
| Move focus from the next focusable element on the page (outside of the grid) to the grid | (All) Shift+Tab | Once focus has been moved to the grid, subsequent tab presses that re-enter the grid shall return focus to the cell that last held focus. |
| Move focus from the grid to the previous focusable element on the page (outside of the grid) | (All) Shift+Tab | (LUX) The grid must be in the "escape mode" state |
| Toggle the "escape mode" state of the grid | (LUX) Escape | (LUX) The selected cell must be in Navigation Mode |

12.2.2 Keyboard Shortcuts for Navigation within the Grid (Includes Basic Selection of Cells and Rows)

This section contains information on the Keyboard shortcuts for navigation within the grid (includes a basic selection of cells and rows).

Table 307: Keyboard Shortcuts For Navigation within the Grid

| Action for keyboard | Key(s) | Notes for keyboard |
|---|----------------|--|
| Move focus one row up (and update cell and row selection) | (All) Up Arrow | <p>(LUX) The newly focused cell also becomes selected, and any other selected cells are deselected</p> <p>(LUX) The row containing the newly focused cell becomes focused, selected, and initially selected, and any other selected rows are deselected.</p> <p>There is no wrap at the first or last rows</p> <p>(LUX) If the currently focused cell is in the first data row, the Up Arrow moves the focus to the column heading cell immediately above the currently focused cell (see Keyboard shortcuts for sorting on columns, below.)</p> <p>The first data row is no longer focused or selected, but the column heading row does not get selected or focused. Also, any previously selected cells are no longer selected, but the column heading cell does not get selected. Nevertheless, if the Down Arrow is then pressed, the first data row gets focused and selected, focused is moved to the cell immediately below the focused column heading cell, and the newly focused cell becomes selected.</p> |

| Action for keyboard | Key(s) | Notes for keyboard |
|---|---|--|
| Move focus one row down (and update cell and row selection) | (All) Down Arrow | <p>(LUX) The newly focused cell also becomes selected, and any other selected cells are deselected</p> <p>(LUX) The row containing the newly focused cell becomes focused, selected, and initially selected, and any other selected rows are deselected</p> <p>There is no wrap at the first or last rows</p> <p>(LUX) See Up Arrow for behavior in column heading row.</p> |
| Move focus one column to the left (and update cell and row selection) | (All) Left Arrow -or- (LUX) Shift+Tab | <p>(LUX) If the grid is in the "escape mode" state, Shift+Tab moves focus to the previous focusable element in the page (outside of the grid) instead of taking any action within the grid</p> <p>(LUX) Wrap at the first or last column is controlled by the LUX Grid wrapSelection option. The default is to wrap. Wrapping is generally only within data rows, not column headers.</p> <p>(LUX) If wrapSelection is true:</p> <p>If the currently focused cell is the first cell in the header row, then Shift+Tab causes the grid to enter the "escape mode" state</p> <p>If the currently focused cell is the first cell in the first data row, then Shift+Tab moves focus one row up, to the first cell of the header row, similar to Up Arrow</p> <p>(LUX) If the currently focused cell is in editable mode, Shift+Tab causes the cell to exit editable mode and return to navigation mode</p> <p>If the editOnTab option is true, the newly focused cell enters editable mode</p> |

| Action for keyboard | Key(s) | Notes for keyboard |
|---|--|---|
| Move focus one column to the right (and update cell and row selection) | (All) Right Arrow -or- (LUX) Tab | (LUX) If the grid is in the "escape mode" state, Tab moves focus to the next focusable element in the page (outside of the grid) instead of taking any action within the grid (LUX) Wrap at the first or last column is controlled by the LUX Grid wrapSelection option. The default is to wrap. Wrapping is only within data rows, not column headers. (LUX) If wrapSelection is true: If the currently focused cell is the last cell in the header row, then Tab moves focus to the first cell in the first data row (wraps) If the currently focused cell is the last cell in the last data row, then Tab causes the grid to enter the "escape mode" state (LUX) If the currently focused cell is in editable mode, Tab causes the cell to exit editable mode and return to navigation mode If the editOnTab option is true, the newly focused cell enters editable mode |
| Move focus to the first cell in the current row (and update cell and row selection) | (All) Home | (LUX) Excludes the selector column, if present (LUX) If the currently selected cell is in the header row, moves focus to the first cell in the first data row |
| Move focus to the last cell in the current row (and update cell and row selection) | (All) End | (LUX) If the currently selected cell is in the header row, moves focus to the last cell in the first data row |
| Move focus to the first data cell in the grid (and update cell and row selection) | (LUX) Control+Home | (LUX) Excludes the selector column, if present |
| Move focus to the last data cell in the grid (and update cell and row selection) | (LUX) Control+End | |

12.2.3 Adjusting the Row and Cell Selection

This section contains information on adjusting the row and cell selection.

Table 308: Adjusting the Row and Cell Selection

| Action for keyboard | Key(s) | Notes for keyboard |
|--|-------------------------|--|
| Adjust the range of selected cells and rows one row up | (All) Shift+Up Arrow | <p>(LUX) The multiSelect option must be true; otherwise, this has the same behavior as Up Arrow without Shift</p> <p>(LUX) Moves cell focus one row up; the newly focused cell also becomes selected</p> <p>(LUX) The row containing the newly focused cell becomes focused and selected</p> <p>(LUX) Generally selects a range of cells and rows from the "initially selected" row to the newly focused row with the newly focused cell</p> <p>If the focused cell and focused row are moved without changing the selection, e.g., with Control+Up/Down Arrow, then this action generally selects a range of rows from the currently focused row to one row above it</p> |
| Adjust the range of selected cells and rows one row down | (All) Shift+Down Arrow | <p>(LUX) The multiSelect option must be true; otherwise, this has the same behavior as Down Arrow without Shift</p> <p>(LUX) Moves cell focus one row down; the newly focused cell also becomes selected</p> <p>(LUX) The row containing the newly focused cell becomes focused and selected</p> <p>(LUX) Generally selects a range of cells and rows from the "initially selected" row to the newly focused row with the newly selected cell</p> <p>If the focused cell and focused row are moved without updating the selection, e.g., with Control+Up/Down Arrow, then this action generally selects a range of rows from the currently focused row to one row below it</p> |
| Move focus one column to the left (and update cell selection) | (LUX) Shift+Left Arrow | <p>(LUX) Moves cell focus and selection(s) one column to the left (selection can be multiple cells if multiple rows are currently selected)</p> <p>(LUX) If the currently focused cell is the first cell of the row, then behaves the same as Left Arrow without Shift</p> |
| Move focus one column to the right (and update cell selection) | (LUX) Shift+Right Arrow | <p>(LUX) Moves cell focus and selection(s) one column to the right (selection can be multiple cells if multiple rows are currently selected)</p> <p>(LUX) If the currently focused cell is the last cell of the row, then behaves the same as Right Arrow without Shift</p> |

| Action for keyboard | Key(s) | Notes for keyboard |
|--|---|--|
| Move focus one row up (no change to selection) | (All) Control+Up Arrow | (LUX) The row containing the newly focused cell becomes focused (LUX) Note: Enables selection of non-contiguous rows with Control+Space (LUX) There is no wrap at the first or last rows (LUX) If the currently focused row is the first data row, this has the same behavior as Up Arrow without Shift |
| Move focus one row down (no change to selection) | (All) Control+Down Arrow | (LUX) The row containing the newly focused cell becomes focused (LUX) Note: Enables selection of non-contiguous rows with Control+Space (LUX) There is no wrap at the first or last rows |
| Select the current row | (WAI-ARIA) Shift+Space (LUX) Control+Space | (LUX) Toggles selection of currently focused row (LUX) The multiSelect option must be true; otherwise, this has the same behavior as Space without Control |
| Select the current column | (WAI-ARIA) Control+Space | (LUX) Not supported |

NOTE:

WAI-ARIA defines selection within grids solely in terms of cells; a row is just a set of cells, each of which may or may not be selected. The LUX Grid keyboard shortcuts for selection assume the multiSelect option is set to 'true'.

In the LUX Grid:

- If a cell is selected, the cell's row is selected.
- Only one cell in a row may be selected at any given time.
- If multiple rows are selected, their selected cells are always in the same column.

12.2.4 Editing Cells

This section contains information on editing cells.

Table 309: Editing Cells

| Cell mode before action | Action | Key(s) | Cell mode after action | Notes |
|-------------------------|---|---|------------------------|---|
| Navigation | Edit focused cell (enter Actionable mode) | (All) Enter -or- F2 -or- (LUX) Shift+Enter -or- (WAI-ARIA (optional), LUX) Any alphanumeric character | Editable | (LUX) In a Text Column or Text Area Column cell, typing an alphanumeric character will also replace the current cell value with the character just typed (LUX) In a Number/Cost/Percent column cell, typing an alphanumeric character will also select the current cell value, if any; the character just typed is not entered in the cell |
| Editable | Cancel changes and exit Actionable mode | (All) Escape | Navigation | (WAI-ARIA) Does not mention canceling changes, just exiting Actionable mode |

| Cell mode before action | Action | Key(s) | Cell mode after action | Notes |
|-------------------------|---|---|---|---|
| Editable | Commit changes and exit Actionable mode | (WAI-ARIA (optional), LUX) Enter -or- (LUX) Shift+Enter | Navigation | (LUX) If the currently focused cell is not in the last data row of the Grid, Enter or Shift+Enter will also move focus to the cell immediately below the focused cell (note that Shift+Enter moves focus down such as Enter, not up) (LUX) In a Text Area Column cell, Enter does not exit the editor; it just adds a newline character to the text value at the current insertion point. Shift+Enter behaves such as a normal Enter or Shift+Enter, as if the cell were not a Text Area Column cell (LUX) In a Date Column or Select Multi Column cell, Enter and Shift+Enter do nothing |
| Editable | Move focus to next actionable (tabbable) item | (All) Tab | Old cell: Navigation; New cell: Editable | (LUX) Next actionable item is usually in next cell (LUX) If the editOnTab option is true, the newly focused cell enters Actionable mode |
| Editable | Move focus to previous actionable (tabbable) item | (All) Shift+Tab | Old cell: Navigation; New cell: Editable | (LUX) Previous actionable item is usually in previous cell (LUX) If the editOnTab option is true, the newly focused cell enters Actionable mode |

| Cell mode before action | Action | Key(s) | Cell mode after action | Notes |
|-------------------------|--------------------------------------|---|---|---|
| Editable | Move to next row | Enter | Old row: Navigation; New row: Editable | (LUX) See LUX comments for "Commit changes and exit Actionable mode" |
| Editable | Select date in Date Column | (LUX) See the OJET Input Date and Time Keyboard End User Information. | See the OJET Input Date and Time Keyboard End User Information. | |
| Editable | Increment Spinner Number Column cell | Up Arrow | Editable | |
| Editable | Decrement Spinner Number Column cell | Down Arrow | Editable | |
| Navigation | Toggle checked state of checkbox | Space | Navigation | |
| Navigation | Clear data from the focused cell | (LUX) Delete | Navigation | Delete key clears the values in select and check column cells as well |

12.2.5 Keyboard shortcuts for Grouped Rows and Tree Grid

This section contains information on Grouped Rows and Tree Grid.

Table 310: Grouped Rows and Tree Grid

| Action | Key(s) | Notes |
|--------------|---------------------|--|
| Expand [+] | Control+Right Arrow | Focus must be in the cell with the disclosure icon |
| Collapse [-] | Control+Left Arrow | Focus must be in the cell with the disclosure icon |

12.2.6 Keyboard shortcuts for triggering cell actions in other types of cells

This section contains information on keyboard shortcuts for triggering cell actions in other types of cells.

Table 311: Keyboard shortcuts for triggering cell actions in other types of cells

| Action | Key(s) | Notes |
|--------------------------------------|--------|--|
| Trigger cell action in selected cell | Space | If the cell has an <a> with a valid href attribute, Space will follow the link |

12.2.7 Keyboard shortcuts for sorting on columns

This section contains information on sorting on columns.

Table 312: Sorting on Columns

| Action | Key(s) | Notes |
|---|---------------|--|
| Cycle the sort of the focused column in the following sequence: <ul style="list-style-type: none"> • Ascending • Descending • Not sorted (default order) | Space | The selected cell must be the column header cell |
| Cycle the sort of the focused column, subject to any other column sorts that are already defined, in the sequence above | Control+Space | The selected cell must be the column header cell |

12.2.8 Keyboard Shortcuts for Menus

This section contains information on keyboard shortcuts for menus.

Table 313: Keyboard Shortcuts for Menus

| Action | Key | Notes |
|--|--|---|
| Open the menu | (WAI-ARIA, LUX) Enter -or- Space -or- Shift+F10 -or- (WAI-ARIA) Up/DownArrow (in a menu bar) | (LUX) Context Menu uses Space or Shift+F10; Column Menu uses Space; Select Column Menu uses Up/DownArrow (space (or character) opens the menu item search/filter field); Select Multi-Column Menu uses Enter (LUX) In Select Column Menu, Enter causes the cell to enter Actionable mode, but does not open the drop-down menu; the menu opens when Up/DownArrow keys are used (LUX) In the Select Multi-Column Menu, after the cell enters Actionable mode, the first Control+DownArrow enters the menu at the (first) currently selected option (or before the first option if no option is currently selected) |
| Move focus to the next menu item in the menu | (All) DownArrow | (LUX) Column Menus, Select Column menus, and Select Multi-Column menus wrap at the bottom; Context menus do not |

| Action | Key | Notes |
|---|--|--|
| Move focus to the previous menu item in the menu | (All) UpArrow | (LUX) Column Menus, Select Column menus, and Select Multi-Column menus wrap at the top; Context menus do not |
| Open a submenu (if the focused menu item has a sub-menu) | (WAI-ARIA, LUX) RightArrow -or- (WAI-ARIA, LUX) Enter -or- Space | (LUX) Does not apply to Select Column menus and Select Multi-Column menus (LUX) Context Menu uses RightArrow; Column Menu uses RightArrow, Enter, or Space. |
| Close a submenu and return focus to the parent menu item | (WAI-ARIA, LUX) LeftArrow -or- (WAI-ARIA) Escape | (LUX) Does not apply to Select Column menus and Select Multi-Column menus (LUX) Escape closes the top-level menu and any submenus |
| Select a menu item (or invoke the menu action) and close the menu | (All) Enter -or- Space | (LUX) Does not apply to the Select Multi-Column menu (LUX) Select Column does not support Space, only Enter; space (or character) opens the menu item search/filter field |
| Toggle selection of a menu item in the menu | (LUX) Enter -or- Space | (LUX) Select Multi-Column menu only |
| Close the menu (commit selections) | (LUX) Tab -or- Shift-Tab | (LUX) Select Multi Column menu only (LUX) Also moves focused cell one column to the right (Tab) or left (Shift+Tab) |
| Close the menu (no action or selection) | (LUX) Escape | (LUX) Escape closes the top-level menu and any submenus |

12.2.9 Miscellaneous

This section contains information on the miscellaneous keystrokes.

Table 314: Miscellaneous Keystrokes

| Action | Key | Notes |
|---|------------------|--|
| Insert a new row above the selected row | (LUX) Insert Key | A new row is added just above the selected row |

13 Appendix D: OJET CCA Controls

This chapter includes the keystroke controls for OJET CCA Controls.

13.1 OJET CCA Breadcrumb (oj-cca-breadcrumb)

This section contains information on the CCA Breadcrumb Keystroke.

Table 315: CCA Breadcrumb Control

| Target | Key | Action |
|------------|--|--------|
| breadcrumb | See Buttonset One (Oj-buttonset-one) section, for details on breadcrumb. | |

13.2 OJET CCA Summary Search (oj-cca-summary-search)

This section contains information on the CCA Summary Search Control.

Table 316: CCA Search Control

| Target | Key | Action |
|---|---|--|
| Search Control | Tab In | Set focus to Search Control. |
| Search Drop-down Panel | Enter | Activates the control and opens the Drop-down. |
| The drop-down may contain several Input controls such as input Text, Select, Multiselect, and so on | See TextBox(oj-input-text) section, for details on Input Text. See Select Single(oj-single-select) section, for details on Select. See Select-Many(oj-select-many) section, for details on Multiselect. | |

13.3 OJET CCA List View (oj-cca-list-view)

This section contains information on the CCA List View.

NOTE:

The Table Control is a toggle and can either be a List View Control, or a Table View Control. This is configured by the application owner.

Table 317: CCA List View Control

| Action | Key |
|---------------|--|
| List Control | See List View(oj-list-view) section, for details on List View. |
| Table Control | See Table(oj-table-view) section, for details on Table View. |

13.4 OJET CCA Pagination (oj-cca-pagination)

This section contains information on the pagination panel component.

Table 318: Pagination Panel Component

| Target | Key | Action |
|--|-------|---|
| Button (First Page, Previous Page, Next Page, Last Page) | Tab | Set focus to the Button |
| | Enter | Activates the control. |
| Page Input | Tab | Set focus to the input. |
| | Tab | Setting focus outside the input activates the control and updates the List View |

13.5 OJET CCA records per page (oj-cca-records)

This section contains information on the CCA Records Per Page Control.

Table 319: CCA Records Per Page Control

| Action | Key |
|---|---|
| The Records Per Page, makes use of the number control | See Input Number(oj-input-number) section, for details on Number Control. |

14 Appendix E: HTML Documents on OHC and Help Pages

This section describes the set of unique keystrokes for the OFSAA documents on Oracle help center (OHC) and Online Help pages.

NOTE:

Disabled items will not receive keyboard focus and do not allow any interaction. Read-only items receive the keyboard focus.

14.1 Keyboard Shortcuts for OFSAA Documentation

Table 320: HTML Pages Keystroke

| Command | Description |
|---------|---|
| Alt+Z | Bypass Key to move focus from LHS to RHS |
| Alt+X | Bypass Key to move from "Click here to see this page in full context" in the display ribbon to the TOC. |

OFSAA Support

Raise a Service Request (SR) in [My Oracle Support \(MOS\)](#) for queries related to the OFSAA Applications.

Send Us Your Comments

Oracle welcomes your comments and suggestions on the quality and usefulness of this publication. Your input is an important part of the information used for revision.

- Did you find any errors?
- Is the information clearly presented?
- Do you need more information? If so, where?
- Are the examples correct? Do you need more examples?
- What features did you like most about this manual?

If you find any errors or have any other suggestions for improvement, indicate the title and part number of the documentation along with the chapter/section/page number (if available) and contact the My Oracle Support.

Before sending us your comments, you might like to ensure that you have the latest version of the document wherein any of your concerns have already been addressed. You can access My Oracle Support site that has all the revised or recently released documents.
