Trademark Notice

Oracle, Java, JD Edwards, PeopleSoft, and Siebel are registered trademarks of Oracle Corporation and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

License Restrictions Warranty/Consequential Damages Disclaimer

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or de-compilation of this software, unless required by law for interoperability, is prohibited.

Warranty Disclaimer

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

Restricted Rights Notice

If this software or related documentation is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, the following notice is applicable:

U.S. GOVERNMENT RIGHTS

Oracle programs, including any operating system, integrated software, any programs installed on the hardware, documentation, and/or technical data delivered to U.S. Government end users are “commercial computer software” or “commercial technical data” pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, documentation, and/or technical data shall be subject to license terms and restrictions as mentioned in Oracle License Agreement, and to the extent applicable, the additional rights set forth in FAR 52.227-19, Commercial Computer Software--Restricted Rights (June 1987). No other rights are granted to the U.S. Government.

Hazardous Applications Notice

This software is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure the safe use of this software. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software in dangerous applications.

Third-Party Content, Products, and Services Disclaimer

This software and documentation may provide access to or information on content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.

About this Document

This document lists the feature enhancements and client platforms and browsers that are supported in this release. It highlights different roles and responsibilities of Oracle and Customer in deploying, configuring, and maintaining the Oracle Revenue Management and Billing Cloud Service. It also highlights the known issues in this release.

ORMB Cloud Service Release 8.1 Patch Set Feature Enhancements

For more information about the new features which are introduced and the existing features which are enhanced in ORMB Cloud Service Release 8.1 Patch Set, refer to the *Oracle Revenue Management and Billing Version 4.0.0.0.0 Release Notes*.

Points to Note:

The **Chatbot** feature is certified only on the Oracle Financial Services Revenue Management and Billing Cloud Services and not on the Oracle Insurance Revenue Management and Billing Cloud Services.

The **Billing Anomaly Detection with Artificial Intelligence (AI) and Machine Learning (ML)** feature is available only on the Oracle Financial Services Revenue Management and Billing Cloud Services where the reporting option is available.

Cloud Service Documentation

User manuals and other technical documents are available in the Portable Document Format (PDF). You can access the Oracle Revenue Management and Billing Cloud Service release-specific documentation library (for example, Oracle Revenue Management and Billing Cloud Service Release 8.X Documentation Library) using the following URL:

https://docs.oracle.com/cd/F32139_01/homepage.htm

The following table lists and describes the different documents available in the Oracle Revenue Management and Billing Cloud Service R8.1 Patch Set documentation library:

Document Name	Description
<i>Oracle Revenue Management and Billing Cloud Service Licensing Guide</i>	Lists different features which are offered when you acquire a license for the following cloud services: <ul style="list-style-type: none"> • Oracle Financial Services Revenue Management and Billing • Oracle Insurance Revenue Management and Billing It also provides the licensing information of Oracle software and third-party JARs and components which are included in the above-mentioned cloud services.
<i>Oracle Revenue Management and Billing Cloud Service Federated Identity Configuration Guide</i>	Provides an overview of federated SSO login. It explains how to configure federated SSO login with SAML for the ORMB Cloud Service.
<i>Oracle Revenue Management and Billing Cloud Service REST Services Configuration Guide</i>	Explains how to configure federated Web service login to access protected REST services on the ORMB Cloud environments.
<i>Oracle Revenue Management and Billing Cloud Service End User Provisioning Guide</i>	Explains how to setup the security administrator account for the ORMB Cloud Service. It also explains how to manage users and user groups for the ORMB Cloud Service. In addition, it explains how to import and export bulk users and user groups for the ORMB Cloud Service.
<i>Oracle Revenue Management and Billing Cloud Service SFTP Authentication and Access Permissions Guide</i>	Explains how to configure SFTP authentication for the ORMB Cloud Service. It also explains how to access the SFTP server using WinSCP, how to create the directories and files on the SFTP server, and how to set the read, write, and execute permissions for a file or folder on the SFTP server.
<i>Oracle Revenue Management and Billing Cloud Service SaaS Reporting using OAS</i>	Provides an overview of the ORMB SaaS reporting architecture. It also explains how to use Oracle Analytics Server for ORMB SaaS reporting.

For feature documentation, refer to Oracle Revenue Management and Billing Version 4.0.0.0.0 Documentation. [The following table lists and describes the different documents which will help you to understand the features offered in](#) Oracle Revenue Management and Billing Cloud Service R8.1 Patch Set.

Document Name	Description
<i>Oracle Revenue Management and Billing Version 4.0.0.0.0 Release Notes</i>	Provides a brief description about the new features, enhancements, and UI level changes introduced in the current release. The new features and enhancements are classified under three distinct heads – Generic (which is intended for both domains), Financial Services, and Health Insurance. It also contains high-level information about the supported platforms, framework upgrade, supported upgrades, and documentation updates. In addition, it contains a list of discontinued features, planned deprecation notices, customer bugs fixed or forward ported and known issues in the current release.
<i>Oracle Utilities Application Framework Business Process Guide</i>	Explains how to get acquainted with the user interface. It explains the different types of pages or portals that you may come across in the application. It explains how to set the user preferences and how to create, manage, assign, and complete a To Do in the application. It also explains how to submit reports and view historic reports in the application.
<i>Oracle Utilities Application Framework Administrative Guide</i>	Explains the general, security, user, designing, developing, and scripting options available in Oracle Utilities Application Framework (OUAF). It describes the user interface, database, configuration, and reporting tools available in OUAF. In addition, it provides information about the application viewer, how to configure incoming and outgoing messages, and how to integrate Lightweight Directory Access Protocol (LDAP), Oracle Identity Manager (OIM), and Batch Scheduler with Oracle Revenue Management and Billing (ORMB).
<i>Oracle Revenue Management and Billing Business Process Guide</i>	Explains how to maintain the demographic, geographic, and financial objects (i.e. accounts) of a customer. It explains how to manage a customer's bills, payments, adjustments, credits, collections processing, statements and deposits in Oracle Revenue Management and Billing (ORMB). It also describes the financial transactions, case management, sales and marketing functions, rates engine, quotations, loans, how to monitor and execute job streams, and how to manage workflows, notifications, and overdue processing. In addition, it explains how to extract the data from the system using an extract template. The features listed and described in this document can be used in both financial services and health insurance domains.

Document Name	Description
<i>Oracle Revenue Management and Billing Administrative Guide</i>	<p>Explains how to configure various features and functionalities in Oracle Revenue Management and Billing (ORMB). For example, billing, payments, adjustments, financial transactions, credits, collections processing, loans, service credits, background processes, quotations, case management, security, overdue processing, batch scheduler, workflow, and notifications, etc.</p> <p>The information available in this document can be used in both financial services and health insurance domains.</p>
<i>Oracle Revenue Management and Billing Banking User Guide</i>	<p>Describes various features which are available for the financial services business. For example, customer registration, customer 360° view, invoicing group, pricing management, multi-currency accounts, currency conversion, construct based billing and settlement, trial billing, product lifecycle management, subscription billing, mass pricing update, accrual, foreign exchange gain loss, transaction feed management, upload validated payment and adjustment data, freeze payments on notification, payment request, offset request, funding request, hold request, refund/write off request, dispute request, upload request, earnings credit rate, payment agreement request, invoice request, deal management, etc.</p> <p>It describes all screens related to these features and explains how to perform various tasks related to the feature in the application.</p>
<i>Oracle Revenue Management and Billing Insurance User Guide</i>	<p>Describes various features which are available for the following three lines of health insurance business – fully-insured group, self-funded, and individual. For example, customer registration, customer 360° view, pricing management, trial billing, transaction feed management, upload validated payment and adjustment data, freeze payments on notification, payment request, offset request, funding request, hold request, refund/write off request, upload request, payment agreement request, invoice request, inbound message processing, reconciliation, entity audit, premium repricing, etc.</p> <p>It describes all screens related to these features and explains how to perform various tasks related to the feature in the application.</p>
<i>Oracle Revenue Management and Billing Transaction Feed Management - Batch Execution Guide</i>	<p>Explains the sequence in which the batches should be executed while performing various tasks in the Transaction Feed Management (TFM) module.</p> <p>It provides detailed information about each TFM batch and its parameters. It also indicates the restart and multi-threading ability of each batch. In addition, it recommends values for various parameters which can be used for tuning batch performance as per the available hardware.</p>

Document Name	Description
<i>Oracle Revenue Management and Billing Batch Guide</i>	Provides detailed information about various batches which are used in different modules, such as billing, payments, financial transaction, pricing management, funding request, offset request, hold request, upload request, inbound message, payment agreement request, accruals, earnings credit rate, ILM, deferred revenue recognition, reconciliation, garbling, repricing, entity audit, statements, etc. It also contains information about the batch parameters and the batch restart and multi-threading abilities.
<i>Oracle Revenue Management and Billing FOP Reports Guide</i>	Explains how to extract data from the system using various FOP reports in Oracle Revenue Management and Billing.
<i>Oracle Revenue Management and Billing Chatbot Configuration Guide</i>	Explains how to integrate Oracle Digital Assistant (ODA) with Oracle Revenue Management and Billing.
<i>Oracle Revenue Management and Billing Chatbot User Guide</i>	Explains how to use the menu based Chatbot introduced in Oracle Revenue Management and Billing.
<i>Oracle Revenue Management and Billing ML Integration Guide</i>	Explains how to integrate Machine Learning (ML) with Oracle Revenue Management and Billing for anomaly detection.

You can access the Oracle Revenue Management and Billing Version 4.X.X.X.X Documentation Library using the following URL:

https://docs.oracle.com/cd/F58541_01/homepage.htm

Documentation Updates

The **SFTP Authentication Guide** is obsolete and no longer supported. Therefore, we have not added this document to the R8.1 Patch Set Documentation Library. Instead, we recommend you refer a new document named **SFTP Authentication and Access Permissions Guide** which is available in the R8.1 Patch Set Documentation Library. This document will help you to understand how to generate the public and private keys for SFTP user authentication. It explains how to establish authentication with the SFTP hosts in the ORMB cloud service using the public and private keys.

It also explains how to access the SFTP server using WinSCP, how to create the directories and files on the SFTP server, and how to set the read, write, and execute permissions for a file or folder on the SFTP server. In addition, it explains how to upload the files and folders to the SFTP server and download the files and folders from the SFTP server.

Supported Client Platforms and Browsers

You can access Oracle Revenue Management and Billing Cloud Service via a supported web browser. Oracle Revenue Management and Billing Cloud Service supports the following operating system and web browser combinations:

Operating System	Web Browser
Windows 10	Chromium Edge v83
	Firefox ESR 78.x
	Note: Here, x represents the vendor supported version.
	Google Chrome Enterprise Version 81 or higher

The recommended monitor resolution is 1920x1080 or higher with the browser zoom level set to 100%. The application can be used with lower resolution monitors and/or at a greater than 100% browser zoom level, but users may need to use horizontal scrolling on some pages.

High-Level Roles and Responsibilities

This section outlines the high-level roles and responsibilities involved in the deployment, configuration, and maintenance of Oracle Revenue Management and Billing Cloud Service. The **Owner** column in the below tables indicate the party responsible for each role and responsibility.

Hardware, Storage, Technology, and Application Software

Role and Responsibility	Owner (Oracle or Customer)
Provide, deploy, and monitor hardware and storage	Oracle
Provide, deploy, run, and monitor all required technology (for example, containers, operating systems, databases, clustering, monitoring, tracing)	Oracle
Provide, deploy, run, and monitor all ORMB base application software	Oracle

Security

Role and Responsibility	Owner (Oracle or Customer)
Monitor cloud service infrastructure security	Oracle
Administer Oracle network security	Oracle
Administer customer network security	Customer
Configure and maintain cloud service users and access	Customer
Integrate with Oracle networks	Customer

Database

Role and Responsibility	Owner (Oracle or Customer)
Database administration services	Oracle
Backup and restore	Oracle
Backup retention	Oracle
Data replication in case of disaster recovery (where applicable)	Oracle
Disaster recovery database fail-over	Oracle
Refresh the testing database from PROD (upon request and within prescribed limits)	Oracle
Information Lifecycle Management	Oracle

Implementation, Configuration, and Extensions

Role and Responsibility	Owner (Oracle or Customer)
Plan and execute implementation project	Customer
Perform configuration of enterprise software features and functions	Customer
Execute functional, system, load, and performance testing of configuration and extensions	Customer
Ensure operational readiness	Customer
Schedule all gate review services	Customer

Patching and Upgrading

Role and Responsibility	Owner (Oracle or Customer)
Patch and upgrade underlying infrastructure software	Oracle
Patch and upgrade base application software	Oracle
Decide the cloud service upgrade schedule (within prescribed limits)	Oracle
Trigger environment upgrades (Development, Testing, and Production)	Oracle
Perform regression testing of configuration and extensions after patching or upgrades	Customer

Batch Processing

Role and Responsibility	Owner (Oracle or Customer)
Monitor underlying batch infrastructure	Oracle
Provide infrastructure logs for batch incidents	Oracle
Resolve infrastructure batch issues	Oracle
Determine batch schedule	Customer
Monitor batch job completion	Oracle
Perform first level investigation of batch issues	Customer
Provide customer logs of batch incidents	Oracle
Resolve functional batch issues	Oracle
Restart batch job	Customer
Resolve data issues	Customer

Support

Role and Responsibility	Owner (Oracle or Customer)
Triage, analyze, and resolve issues with the cloud service	Oracle
Triage, analyze, and resolve issues with configuration and extensions	Customer
Raise service requests via My Oracle Support and provide all requested information	Customer

Known Issues

For feature-specific known issues, refer to the **Known Issues** section in the *Oracle Revenue Management and Billing Version 4.0.0.0.0 Release Notes*.
