# 1. Server Setup for Web Service Based BIP Reports

# 1.1 Introduction

This chapter explains the method to setup the web services based BI Publisher reports server on BIP 12C.

# 1.2 Prerequisites

Before you continue, ensure that Oracle BI Publisher 12C on the server machine.

# 1.3 Deploying BIP Reports

This section guides you through the deployment of BI Publisher reports. BIP reports deployment involves the following steps:

- Setup BI Publisher Server
- Setup BI Publisher Data Source
- Create BI Publisher FC Reports folder
- Configure BI Publisher Currency

These steps are explained under the following headings.

## 1.3.1 Setting up BIP Server

For setting up BI Publisher server, follow the steps below.

1. Go to Oracle BI Publisher Web Server's Administration Console.

	Sign In
	Plass enter username and password
	Usertame
	Vice name
	Password
	Accessibility Mode
	Sign In
	Triglish (United States)
Cracle BI Publisher 12.2.1.0.0 Copyright © 2003, 2015, Cracle and/or its affiliates. All rights reserved.	
Copyright & court, court, unable analysis its annualds. All rights reserved.	

Specify the user name and password and click 'Sign In' button to sign in.

On successful login, the following screen is displayed.

Treate	Recent		Home	Catalog	New +	Open v	Signed In As	weblogic

Specify the following details:

#### **Cache Expiration (Minutes)**

Specify the duration for which the data need to be stored in the cache. You need to specify the duration in terms of minutes.

#### Cache Size Limit

Specify the maximum size allowed for cache.

#### **Maximum Cached Report Definition**

Specify the maximum number of reports that can be stored in cache.

Cache related settings are optional. Once you have specified the above details, click 'Apply'. This completes the process of BIP service setup.

## 1.3.2 Setting Up BIP Data Sources

For setting up BI Publisher data sources, follow the steps below.

1. Go to Oracle BI Publisher Web Server's Administration Console. Specify the user name and password and click 'Sign In' button to sign in.

Click the link 'Administration' on the top right of the screen. The following screen is displayed.

ORACLE' BI Publisher Enterprise	Search All		9	Administration	Help v	Sign Out

	Test-Connection								
Sup Data Source									
TIP To enable access to a backup data source, please check the Use Backup Data Source checkbox arc	anter the new array consultant advantation								
Use Backup Data Source Connection String									
Consector Served		0							

Specify the JDBC connection details as shown in the screen.

Ensure that the data source name displayed on the screen is the same as the one provided or 'defaultDataSourceRef' in the function ID specific report xdm files. All the xdm files should have the same defaultDataSourceRef.

Enter the user ID and password and click 'Test Connection' button. On successful connection, you will see a confirmation message on the screen.

Once the connection testing is successful, Click 'Apply' button. This completes the process of BIP data source setup.

### 1.3.3 Creating BI Publisher 'FCReports' Folder

For creating BI Publisher FC reports folder, follow the steps below.

- 1. In the shipment media, copy all the files from the following folders to a common location:
  - MAIN/<Module>/Datamodels\_12c
  - MAIN/<Module>/Reports\_12c

Along with these create a folder called 'Adv' and keep the files under these directories

- MAIN/<Module>/Advices\_12c/Datamodels\_12c
- MAIN//<Module>/Advices\_12c/Reports\_12c (except Branch Module)
- MAIN/<Module>/Advice\_12c/XSD

### For example:

Name	Date modified	Туре	Size
\mu Adv	9/2/2016 10:54 AM	File folder	
acrdltxn.xdmz	7/27/2016 12:14 PM	XDMZ File	4 KB

# 1.3.5 Configuring BIP Currency

You can set configuration for each currency by using one of the following methods.

- Configure using xdo.cfg file
- Configure from BIP server

### 1.3.5.1 Configuring Currency using 'xdo.cfg' file

In this method, you need to define the mask for each currency in the 'xdo.cfg' file. Further, place the 'xdo.cfg' file in the folder '<BI Publisher Repository>\Admin\Configuration'.

Click to view the 'xdo.cfg' file.

### 1.3.5.2 Configuring Currency from BIP Server

In order to configure the currency from BI Publisher server, follow the steps given below.

1. Go to Oracle BI Publisher Web Server's Administration Console. Specify the user name and password and click 'Sign In' button to sign in. On successful login, the following screen is displayed.

	🧱 MET OpenCourseWan 🦼 BUG [ BugD	<ul> <li>recking system</li> <li>https://drastcoevisyn./</li> </ul>	Ste napst/ofsstcoevsvi.				_	***	Other bookman

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate failsafe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

This software or hardware and documentation may provide access to or information on content, products and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.
