Contributing Author: John Becker

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle and Java are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Value-Added Reseller (VAR) Language

Oracle Retail VAR Applications

The following restrictions and provisions only apply to the programs referred to in this section and licensed to you. You acknowledge that the programs may contain third party software (VAR applications) licensed to Oracle. Depending upon your product and its version number, the VAR applications may include:

- (i) the **MicroStrategy** Components developed and licensed by MicroStrategy Services Corporation (MicroStrategy) of McLean, Virginia to Oracle and imbedded in the MicroStrategy for Oracle Retail Data Warehouse and MicroStrategy for Oracle Retail Planning & Optimization applications.
- (ii) the **Wavelink** component developed and licensed by Wavelink Corporation (Wavelink) of Kirkland, Washington, to Oracle and imbedded in Oracle Retail Mobile Store Inventory Management.
- (iii) the software component known as **Access Via**™ licensed by Access Via of Seattle, Washington, and imbedded in Oracle Retail Signs and Oracle Retail Labels and Tags.
- (iv) the software component known as **Adobe Flex**™ licensed by Adobe Systems Incorporated of San Jose, California, and imbedded in Oracle Retail Promotion Planning & Optimization application.

You acknowledge and confirm that Oracle grants you use of only the object code of the VAR Applications. Oracle will not deliver source code to the VAR Applications to you. Notwithstanding any other term or condition of the agreement and this ordering document, you shall not cause or permit alteration of any VAR

Applications. For purposes of this section, "alteration" refers to all alterations, translations, upgrades, enhancements, customizations or modifications of all or any portion of the VAR Applications including all reconfigurations, reassembly or reverse assembly, re-engineering or reverse engineering and recompilations or reverse compilations of the VAR Applications or any derivatives of the VAR Applications. You acknowledge that it shall be a breach of the agreement to utilize the relationship, and/or confidential information of the VAR Applications for purposes of competitive discovery.

The VAR Applications contain trade secrets of Oracle and Oracle's licensors and Customer shall not attempt, cause, or permit the alteration, decompilation, reverse engineering, disassembly or other reduction of the VAR Applications to a human perceivable form. Oracle reserves the right to replace, with functional equivalent software, any of the VAR Applications in future releases of the applicable program.

Send Us Your Comments

Oracle Retail Customer Engagement Release Readiness Guide, Release 19.2

Oracle welcomes customers' comments and suggestions on the quality and usefulness of this document.

Your feedback is important, and helps us to best meet your needs as a user of our products. For example:

- Are the implementation steps correct and complete?
- Did you understand the context of the procedures?
- Did you find any errors in the information?
- Does the structure of the information help you with your tasks?
- Do you need different information or graphics? If so, where, and in what format?
- Are the examples correct? Do you need more examples?

If you find any errors or have any other suggestions for improvement, then please tell us your name, the name of the company who has licensed our products, the title and part number of the documentation and the chapter, section, and page number (if available).

Note: Before sending us your comments, you might like to check that you have the latest version of the document and if any concerns are already addressed. To do this, access the Online Documentation available on the Oracle Help Center (docs.oracle.com) web site. It contains the most current Documentation Library plus all documents revised or released recently.

Send your comments to us using the electronic mail address: retail-doc_us@oracle.com

Please give your name, address, electronic mail address, and telephone number (optional).

If you need assistance with Oracle software, then please contact your support representative or Oracle Support Services.

If you require training or instruction in using Oracle software, then please contact your Oracle local office and inquire about our Oracle University offerings. A list of Oracle offices is available on our web site at <http://www.oracle.com>.

Preface

This guide outlines the information you need to know about Customer Engagement new or improved functionality in this update, and describes any tasks you might need to perform for the update. Each section includes a brief description of the feature, the steps you need to take to enable or begin using the feature, any tips or considerations that you should keep in mind, and the resources available to help you.

Audience

This document is intended for the users and administrators of the Oracle Retail Brand Compliance Management Cloud Service.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

Customer Support

To contact Oracle Customer Support, access My Oracle Support at the following URL: <https://support.oracle.com>

When contacting Customer Support, please provide the following:

- Product version and program/module name
- Functional and technical description of the problem (include business impact)
- Detailed step-by-step instructions to re-create
- Exact error message received
- Screen shots of each step you take

Improved Process for Oracle Retail Documentation Corrections

To more quickly address critical corrections to Oracle Retail documentation content, Oracle Retail documentation may be republished whenever a critical correction is needed. For critical corrections, the republication of an Oracle Retail document may at times **not** be attached to a numbered software release; instead, the Oracle Retail document will simply be replaced on the Oracle Help Center (docs.oracle.com) Web site, or, in the case of Data Models, to the applicable My Oracle Support Documentation container where they reside.

Oracle Retail documentation is available on the Oracle Help Center (docs.oracle.com) at the following URL:

<https://docs.oracle.com/en/industries/retail/index.html>

An updated version of the applicable Oracle Retail document is indicated by Oracle part number, as well as print date (month and year). An updated version uses the same part number, with a higher-numbered suffix. For example, part number E123456-02 is an updated version of an document with part number E123456-01.

If a more recent version of the document is available, that version supersedes all previous versions.

Oracle Retail Documentation on the Oracle Help Center (docs.oracle.com)

Oracle Retail product documentation is available on the following web site:

<https://docs.oracle.com/en/industries/retail/index.html>

(Data Model documents can be obtained through My Oracle Support.)

Oracle Retail Cloud Services and Business Agility

Oracle Retail Customer Engagement Cloud Service is hosted in the Oracle Cloud with the security features inherent to Oracle technology and a robust data center classification, providing significant uptime. The Oracle Cloud team is responsible for installing, monitoring, patching, and upgrading retail software.

Included in the service is continuous technical support, access to software feature enhancements, hardware upgrades, and disaster recovery. The Cloud Service model helps to free customer IT resources from the need to perform these tasks, giving retailers greater business agility to respond to changing technologies and to perform more value-added tasks focused on business processes and innovation.

Oracle Retail Software Cloud Service is acquired exclusively through a subscription service (SaaS) model. This shifts funding from a capital investment in software to an operational expense. Subscription-based pricing for retail applications offers flexibility and cost effectiveness.

Feature Summary

This chapter describes the feature enhancements in this release.

Noteworthy Enhancements

This guide outlines the information you need to know about new or improved functionality in the Oracle Retail Customer Engagement (ORCE) update and describes any tasks you might need to perform for the update. Each section includes a brief description of the feature, the steps you need to take to enable or begin using the feature, any tips or considerations that you should keep in mind, and the resources available to help you.

Column Definitions

- Feature
- Module Impacted
- Scale
 - Small: These UI or process-based features are typically comprised of minor field, validation, or program changes. Therefore, the potential impact to users is minimal.
 - Larger: These UI or process-based features have more complex designs. Therefore, the potential impact to users is higher.
- Delivered
 - Is the new feature available for use immediately after upgrade or must the feature be enabled or configured? If no, the feature is non-disruptive to end users and action is required (detailed steps below) to make the feature ready to use.
- Customer Action Required?
 - You must take action before these features can be used. These features are delivered disabled and you choose if and when to enable them.

Feature	Module Impacted	Scale	Delivered	Customer Action Required?
Event Publisher	Job Management	Larger	Enabled with Job Management	Yes

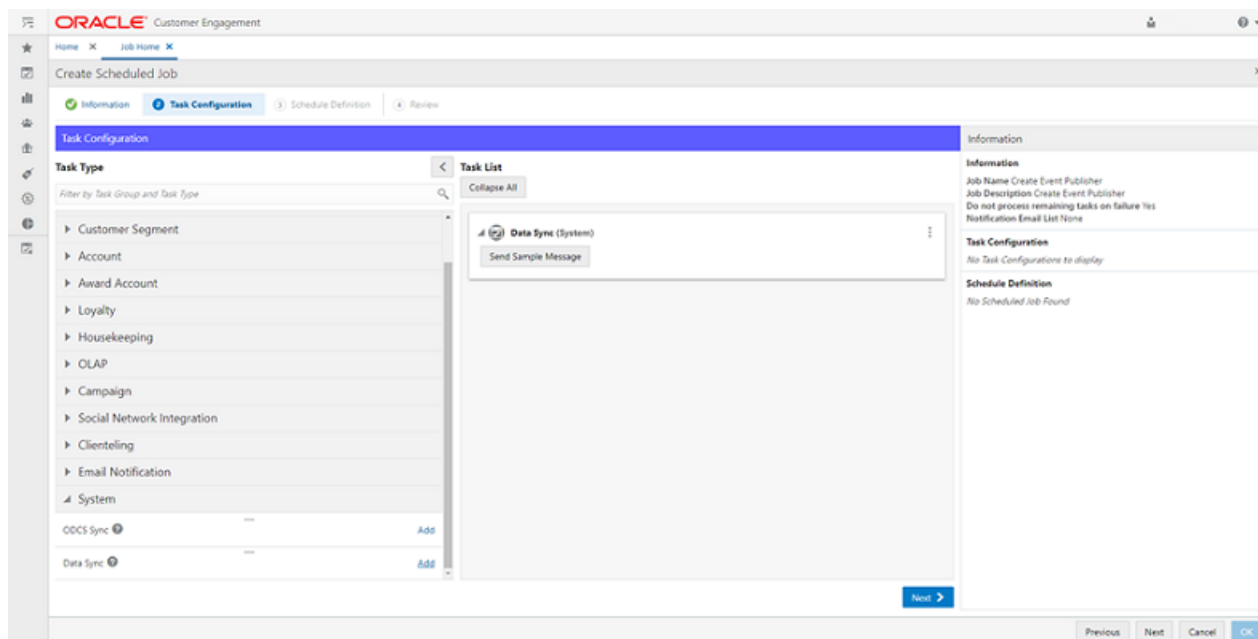

Feature	Module Impacted	Scale	Delivered	Customer Action Required?
Loyalty Points Promotion	Campaign	Larger	Enabled with Campaign Management/Loyalty Roles	Yes
Loyalty Bounceback Promotions	Campaign	Larger	Enabled with Campaign Management/Loyalty Roles	Yes
Favorites in JET Menu	ORCE JET Menu	Small	Part of JET User Interface	No

New Feature Description

This section describes the new features.

Event Publisher

ORCE now publishes data to third-party applications in near real time as part of a new REST service.

- The following data is included in the Event Publisher:
 - Any customers added in ORCE
 - Any customer updated in ORCE
 - Any customers removed/deleted from ORCE
 - Any sales or return transactions that are received from another system
 - The following new System Configurations in the folder called *Data Sync* need set up for this feature:
 - * API Server URL for Data Sync

- * Credential Store Key Name for Data Sync - Name of the Credential Store key that holds the login credential information. This key should reside in the map name configured in the setting CredentialMapName.
- * Credential Store Map Name for Data Sync - Name of the Credential Store map that holds the login credential key
- * Default Setting for Data Sync - This setting is used to enable/display the data sync (yes for on)
- * Token Server URL for Data Sync

Loyalty Points Promotion

A new loyalty promotion type called *Points* is now available on the modern view only.

- Through the new *Points* promotion, a user has the ability to target an audience within a loyalty program or level and push a fixed number of points into member accounts:
 - New *Points* Promotion interactive wizard
 - New *Points* Promotion scorecards
 - *Points* Promotion can be set up by completing the following:
 - * Active subscription to Loyalty & Award Cloud Service is required to use this new functionality
 - * *Points* will be available in the *Promotion Types* configuration in the System Configuration menu and needs to be enabled
 - * Any configuration changes need to be deployed
 - * The logged in user must have CardAdmin or AccountAdmin role to view/create this promotion type
 - * *Points* promotion type will now be available in the list of promotions available

Loyalty Bounceback Promotions

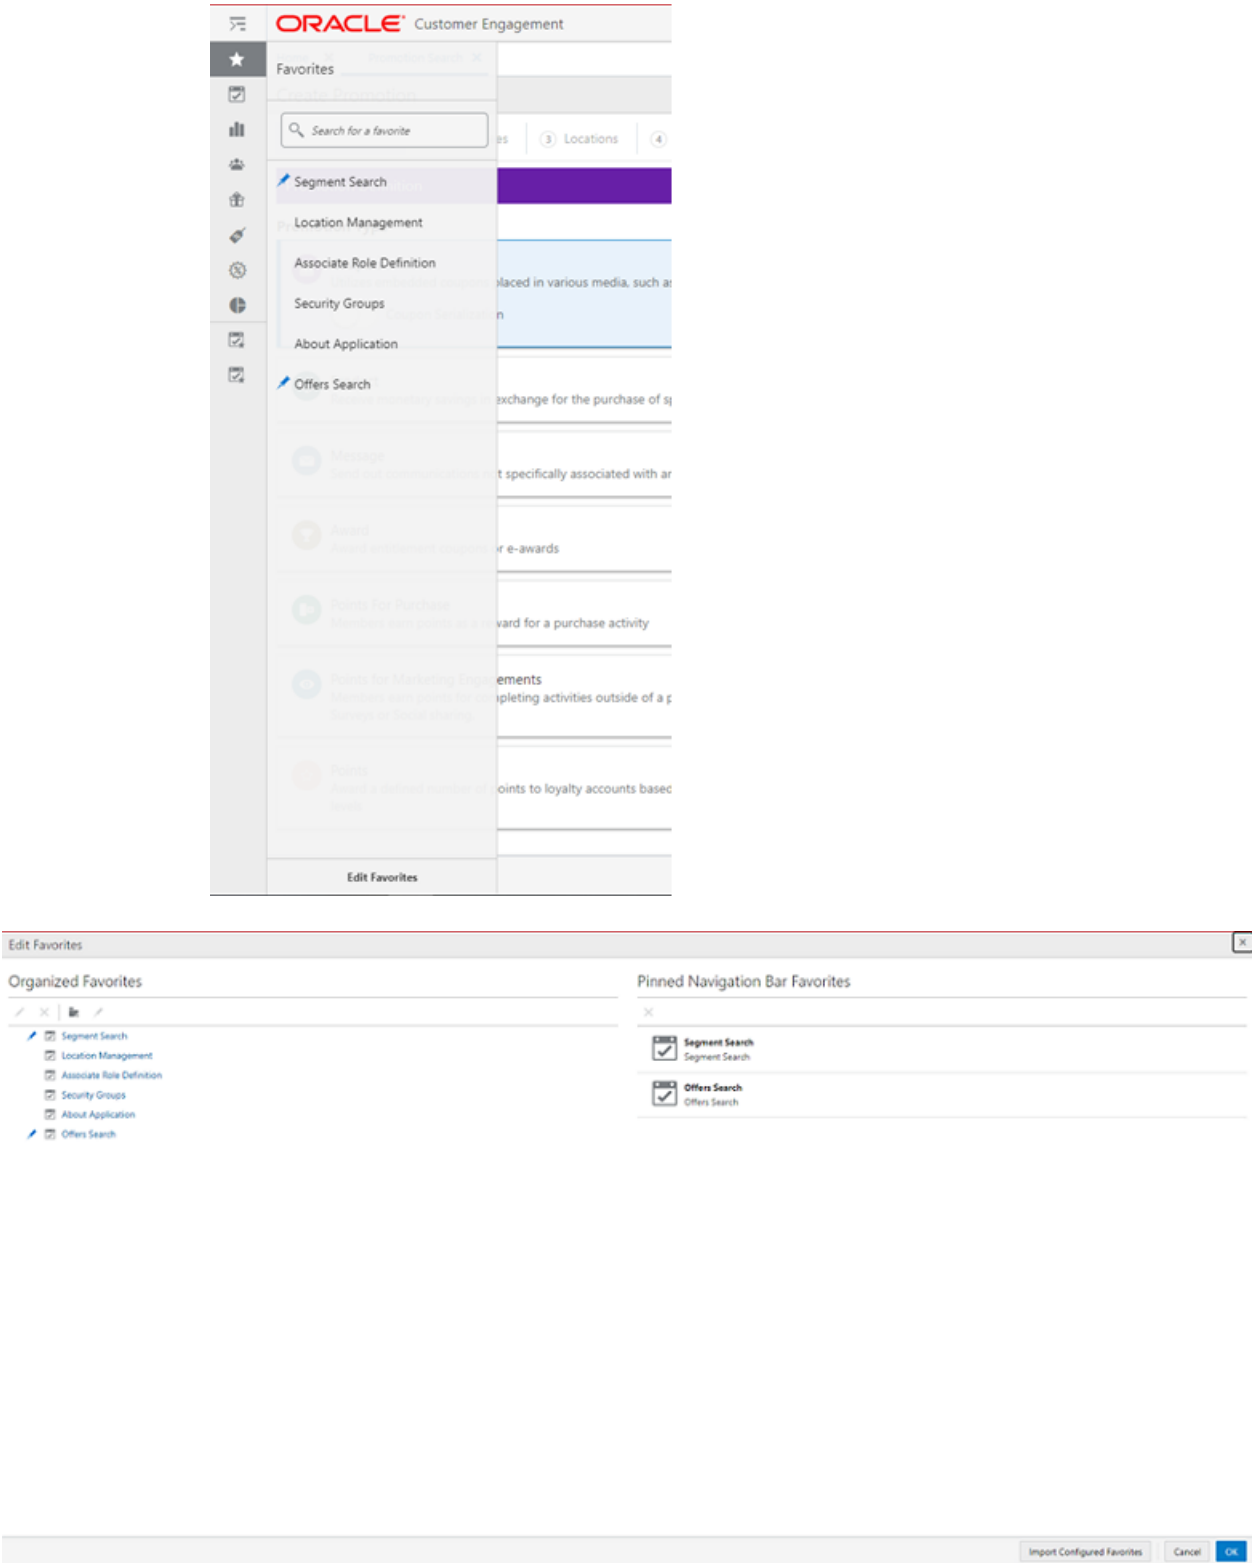

Two new loyalty bounceback options are available for the Product and Coupon promotion types on the modern view only.

- The loyalty bounceback promotions enable loyalty members to take advantage of the promotion offer and instantly receive an additional award:
 - Award Points
 - Entitlements
 - Integrated into the existing Product and Coupon promotion wizards with the appropriate roles
 - An active subscription to both the Campaign & Deal Management Cloud Service and the Loyalty & Awards Cloud Service is required to use this new functionality
 - Product Bounceback promotion can be set up by doing the following:
 - * New Configuration in the *Promotion - Definition* System Configuration folder called *Enable Loyalty Bounceback Support*
 - * Any configuration changes need to be deployed
 - * A user must have CampaignAdmin and PromotionProduct & (CardAdmin or AccountAdmin) roles to view/create this promotion type
 - * The *Loyalty Bounceback* toggle switch should now be visible under the Options section on the Product Promotion
 - Coupon Bounceback promotion can be set up by doing the following:
 - * New Configuration in the *Promotion - Definition* System Configuration folder called *Enable Loyalty Bounceback Support*
 - * Any configuration changes need to be deployed
 - * A user must have CampaignAdmin and PromotionCoupon & (CardAdmin or AccountAdmin) roles to view/create this promotion type

- * The *Loyalty Bounceback* toggle switch should now be visible under the Options section on the Coupon Promotion

Favorites in JET Menu

The Favorites functionality is included in the ORCE menu on the modern view only.

- The following functions are available in the Favorites menu:
 - Add/Remove Favorite menu options
 - Pin/Unpin Favorites
 - Favorite Edit screen

Client Requirements and Supported Products

This chapter covers the Client System requirements and products supported for Oracle Retail Customer Engagement.

Client System Requirements

The technology below is supported.

Browser Support

Note: Oracle Retail assumes that the retailer has ensured its Operating System has been patched with all applicable Windows updates.

Connecting to Customer Engagement Cloud Services requires one of the following web browsers:

- Mozilla Firefox ESR 68+
- Internet Explorer 11
- Microsoft Edge 44+
- Chrome (Desktop) 79+

Supported Oracle Products

Application	Latest Supported Version
Oracle Retail Xstore Point of Service	19.0+
Oracle Retail Order Management System Cloud Service (OROMS)	19.1+
Oracle Retail Omnichannel Data Service (OCDS)	19.0+
Oracle Marketing Cloud	18.0+
Oracle Retail Insights Cloud Service	18.0+

Deprecated Features

As part of the continuous delivery model for cloud services, features and technical components of a solution may be removed or replaced to enhance the security, performance, and overall quality of the cloud service. When this occurs, the deprecation of a feature or component will be announced in advance, allowing customers sufficient time to anticipate the change and transition to any enhanced replacement feature/component. After the deprecation is announced, the deprecated feature or component will remain in the solution until the planned removal date and will not be enhanced or made compatible with other new features.

For the full schedule of planned deprecations for this product, see the Deprecation Advisory accessed from the following Documentation Library: Oracle Retail Customer Engagement Cloud Service Documentation Library MOS Doc ID [1994453.1](#).
