Financial Services Data Governance for North America Regulatory Reporting Release 8.1.2.8.0 One-off Patch Release #2 (8.1.2.8.2)

Oracle Financial Services Data Governance for North America Regulatory Reporting Pack is a separately licensed product.

Description

Bug **38462736** - Oracle Financial Service Data Governance for North America Regulatory Reporting Pack Release v8.1.2.8.2.

1.1 Pre-installation Requirements

The minimum required patch set level is **OFS DGUSRR Application Pack v8.1.2.8.0** and **v8.1.2.8.1**.
For installation details, refer to the Oracle Financial Services Data Governance for North America Regulatory Reporting Installation Guide, Release 8.1.2.8.0 (for version 8.1.2.8.0) and OFS_DG_PACK_81027_README (for version 8.1.2.8.1).

1.2 Downloading and Installing the OFS Data Governance for North America Regulatory Reporting Pack

To install the release, follow these steps:

1. Log in to My Oracle Support, and search for **38462736** under the **Patches & Updates** tab.
2. Download the `38462736_GENERIC.zip` archive file and copy it to your OFSAA Server in **Binary** Mode.
3. Shut down all the OFSAAI Services.
   For more information, see the *Stop Infrastructure Services* section in Oracle Financial Services Data Governance for US Regulatory Reporting Installation and Configuration Guide.
4. Extract the contents of the patch archive file using the following command:
   i. `Unzip <name of the file to be unzipped>`
   ii. For example: `unzip 38462736_GENERIC.zip`
5. Assign RWX (755) permissions to the folder by executing the following command:
   1. `chmod -R 755 OFS_DGS`
   2. `chmod -R 755 appsLibConfig`
6. In the Installer kit path `/appsLibConfig/conf`:
   i. Update the `params.conf` file with the Upload Model Parameter as 0.
7. Navigate to the following directory:
   i. `<>/OFS_DGS/bin`
8. Execute the following setup command:
   i. `./setup.sh SILENT`
9. Verify the patch installation logs in the following directory:

i. `<>/OFS_DGS/logs`

10. Delete the existing EAR or WAR file present in the $FIC_HOME/ficweb directory.
11. Generate the application EAR or WAR file and redeploy the application on your Configured Web Application Server. For more information, see Create and deploy EAR/WAR files.
12. After the successful installation, restart all OFSAAI Services.

> **NOTE** OFS DGS Repository Difference Report can be accessed here.

1.3 Bugs Fixed in this Release

The following bugs are fixed in this Release.

Sl. No.	Bug ID	Bug Description	Bug Fix Summary
1	38315696	Under the User Group Maintenance > User Group Definition menu, the description for the group DGCOGRP is not displayed and appearing as 'NULL	The description for the user group DGCOGRP under User Group Maintenance > User Group Definition has now been updated and is no longer displayed as “NULL
2	38461461	FSDF 81292 changes were not integrated into the DGS RPD, causing missing columns and a display error in the Variance Mapping Analysis Dashboard	Additional columns from FSDF 81292 were added to the DGS RPD, resolving the display error in the Variance Mapping Analysis Dashboard
3	38450422	Report N3, Rule ID #IR998 has a mismatch between the formula ([7476]) and expression ([N3.S2.7477] instead of [N3.S2.7476])	A report code filter has been added for uniqueness, and the rule expression now correctly references N3.S2.7476.

1.4 Known Issues or Limitations in this Release

The known issue in this one-off release is as follows:

Sl. No.	Bug ID	Bug Description
1	38533453	A view display error occurs in the Variance Analysis drill down reports for the following cell IDs in the J2 report: 0468, 0460, 0126, 0461, 0481, 0473, 0475, 0457, 0474, 0463, 0465, 0483, 0097, 0098, 0464, 0479, 0470, 0482, 0458, 0485, 0459, 0466, 0118, 0472, 0467, 0119, 0477, 0469, 0478, 0480, 0484, 0127, 0476, 0462. Error: State: HY000. Code: 27042. [nQSError: 27042] Function LEAST is not defined by administrator. This is due to the LEAST and GREATEST functions in Reg Reporting not being recognized by OBIEE, as OBIEE doesn't support these functions.
