This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

**U.S. GOVERNMENT END USERS:** Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are “commercial computer software” pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

# Preface

This document provides information about the Data Protection Implementation for the Oracle Financial Services Performance Analytics Applications. Oracle Financial Services Performance Analytics Applications are packaged as part of the Oracle Financial Services Profitability Applications Pack.

**1.1**

## Audience

This document is intended for System Administrators (SA) who are instrumental in implementing data protection for the Oracle Financial Services Performance Analytics Applications.

**1.2**

## Prerequisites for the Audience

This document assumes that you have experience in installing Enterprise components and have a basic knowledge of the following:

- OFSAAI pack components
- OFSAA architecture
- UNIX commands
- Database concepts
- Web server and web application server

It is assumed that the SAs are proficient in UNIX, Database Administration, and Web Application Administration to install and configure Oracle Financial Services Performance Analytics Application in the released environment.

**1.3**

## Reference Document

This section identifies the following document related to the Oracle Financial Services Data Foundation Application Pack:

- [OFS Data Foundation Application Pack Data Protection Implementation Guide](#)

## 2 Data Protection for Performance Analytics Applications

To implement data protection, follow these steps:

1. See the PII data elements in the PII Datasheet for which data protection is required. As per the download specification of the application, the PII data elements are referred. Due to confidentiality reasons, the PII Datasheet is available only in the Knowledge Document: [2170313.1](#) on My Oracle Support.
2. Follow the procedures for Right-to-be-forgotten and Data Redaction as detailed in the [OFS Data Foundation Application Pack Data Protection Implementation Guide](#).

## OFSA Support

Raise a Service Request (SR) in [My Oracle Support \(MOS\)](#) for queries related to the OFSA applications.

## Send Us Your Comments

Oracle welcomes your comments and suggestions on the quality and usefulness of this publication. Your input is an important part of the information used for revision.

- Did you find any errors?
- Is the information clearly presented?
- Do you need more information? If so, where?
- Are the examples correct? Do you need more examples?
- What features did you like most about this manual?

If you find any errors or have any other suggestions for improvement, indicate the title and part number of the documentation along with the chapter/section/page number (if available) and contact the My Oracle Support.

Before sending us your comments, you might like to ensure that you have the latest version of the document wherein any of your concerns have already been addressed. You can access My Oracle Support site that has all the revised or recently released documents.
