2.7	Troubleshooting	2-2

1. Preface

1.1 Introduction

This guide helps you to install the Oracle Banking Virtual Account Management services and User Interface. It is assumed that all the prior setup is already done related with WebLogic installation and Oracle DB installation.

It is recommended to use dedicated managed server for each of the Plato infrastructure services, Oracle Banking Virtual Account Management Services, and Oracle Banking Virtual Account Management User Interface.

1.2 Audience

This document is intended for WebLogic admin or ops-web team who are responsible for installing the OBMA banking products.

Abbreviation	Description
Implementation Team	Implementation of Oracle Banking Virtual Account Management (OBVAM)
Presales Team	Install OBVAM for demo purpose
Bank Personnel	Who installs OBVAM

The user of this manual is expected to have basic understanding of Application servers like Oracle Weblogic, and Oracle Database.

1.3 Abbreviations and Acronyms

This guide may refer to the following abbreviations

Abbreviation	Description
OBVAM	Oracle Banking Virtual Account Management
OBMA	Oracle Banking Microservices Architecture
SMS	Security Management System
CMC	Common Core

2.1 **Security Guidelines**

The user of this manual should ensure security guidelines for this release of OBVAM are adhered to as mentioned in the [Security Guide document](#). This is a pre-requisite before proceeding further.

2.2 **Environment Setup**

This section helps you get an outline of the chapters included in the Installation Manuals and provides a summary of each chapter. You can identify the chapters containing the details of each activity that you will perform during OBVAM installation

The Installation Manuals are organized as follows:

Prerequisites

This manual describes the [Prerequisites required for installing OBVAM](#).

Application Server Setup

This guide describes various configurations required to [setup Weblogic server including LDAP setup](#).

2.3 **Plato Infrastructure Services Installation**

Plato Infrastructure Services Installation

This guide describes the steps to [install Plato infrastructure services](#) on designated environment.

2.4 **Security Management System Services Installation**

Security Management System Services Installation

This guide describes the steps to [install SMS Core services](#) on designated environment.

2.5 Common Core Services Installation

Common Core Services Installation

This guide describes the steps to [install Common Core services](#) on designated environment.

2.6 OBVAM Services Installation

OBVAM Services Installation

This guide describes the steps to [install OBVAM services](#) on designated environment, and [Initial setup scripts](#) to create required maintenances for OBVAM.

2.7 Troubleshooting

This guide provides [resolution details](#) for some of the known Flyway related issues faced during service deployments.
