FCUBS Application Deployment in Weblogic Oracle FLEXCUBE Universal Banking Release 12.87.7.0.0 [May] [2021]

Table of Contents

1.	F	LEXCUBE UNIVERSAL BANKING SOLUTIONS 1	1-1
1	.1	FCUBS APPLICATION FULL DEPLOYMENT 1	1-1
1	.2	FCUBS APPLICATION PARTIAL DEPLOYMENT1-	-10

1. FLEXCUBE Universal Banking Solutions

This document describes step to install FCUBS application into weblogic server in full and partial deployment modes.

Please refer "FCUBS Manual Deployment WL" to install jersey-bundle before deployment of FCUBS application.

1.1 FCUBS Application Full Deployment

1. Launch Oracle FLEXCUBE Universal Banking Solution Installer.

🕌 Oracle FLEXCUBE Universal Insta	ller	
Oracle FLEXCUBE Uni	versal Banking	ORACLE
Prerequisites		
Please specify the JDK and Orac	le Home path.	
JDK Path	C:/Program Files/Java/jdk1.7.0_79	`
Oracle Home	C:/oracle/app/product/12.1.0/dbhome_	1 📔
Application Server Home	C:/Oracle/Middleware/Oracle_Home/w	Iserver 📄
Application Server Location	Local 🔻	
Log	Back	Next Exit

Enter the following details

JDK Path:

Provide Home folder path of JDK1.7

Oracle Home

Provide home folder path of Oracle Client or Database

Application Server Home

Provide home folder path of Application Server

Application Server Location

Select location of the application server either local or remote

2. Click on 'Next' and the following screen is displayed:

- 3. Select 'Universal Banking Solution'.
- 4. Click 'Next' and the following screen is displayed:

실 Oracle FLEXCUBE Universal	Installer		
Oracle FLEXCUBE	Universal Banking		ORACLE
	UBE Component for installation.		
Property File Database Build Application			
Deploy Application			
Release	KERNEL		
Server's Operating System	Windows -		
Application Server	Weblogic 👻		
DataBase Server	Oracle 👻		
Log		Back	Next Exit

- 5. Select 'Deploy Application'.
- 6. Specify the following details:

Release

Select the release in which you are installing the FCUBS application. Select the appropriate one from the adjoining drop-down list.

Server's Operating System

Select the server's operating system in which you are installing the FCUBS application. Select the appropriate one from the adjoining drop-down list.

Application Server

Select 'Weblogic' from the adjoining drop down list.

Database Server

Select the database server in which you are installing the FCUBS application. Select the appropriate one from the adjoining drop-down list.

7. Once you have specified all the details , click 'Next' and the following screen is displayed:

🙆 Oracle FLEXCUBE Universal Installer			- • 💌
Oracle FLEXCUBE Univers	Oracle FLEXCUBE Universal Banking		RACLE
Application Deployment Provide server details for connecting to	the server.		
Name	Value		
Admin IP	10.10.10.10		
Admin Port	1111		
Admin Username	<user_name></user_name>		
Server Admin Password	•••••		
	Test Connection		
Type of Deployment	ull Deployment		
Log	Back	Next	Exit

8. Specify the following details:

Admin IP

By default it will display local host and user cannot edit it.

Admin Port

Specify the port number of weblogic server.

Admin UserName

Specify the appropriate admin username of the weblogic application server.

Admin Password

Specify the appropriate admin password of the weblogic application server.

Type of Deployment

Select 'Full Deployment'.

9. Click 'Test Connection' to test the connection with the application server. On successful connection, the following screen is displayed:

Message	×
Connection successful	
ОК	

10. Click 'OK' and the following screen is displayed:

Oracle FLEXCUBE Universal Installer				
Oracle FLEXCUBE Universal Banking			ORACLE	
Application deploymen Provide the Application	t Details For the Deployment of EAR			
EAR Path	/Please use the browse button/			
Property File Path				
Application Name				
Application Context				
	Manage Resources			
Log		Back	Next Exit	

11. Specify the following details:

EAR Path

Specify the location. You can use the directory button to browse and select the directory.

The Application EAR path cannot be copied and pasted on to the text box, thereby demanding the use of the browse button to the select the EAR.

Property File Path

If the property file is internal to the application EAR, it gets displayed here on selection of EAR path. If the property file is external, specify the location. You can use the directory button to browser and select the directory.

Application Name

Application name gets displayed on selection of EAR path.

Application Context

Application context gets displayed on selection of EAR path.

Manage Resources

Check this box if resources are to be created along with deployment.

12. Click 'Next' and the following screen is dispayed:

🛃 Oracle FLEXCUBE Universal Installer		- • •
Oracle FLEXCUBE Universal Banki	ng	ORACLE
Application deployment		
This screen lists the Resources that are required	for Deployment	
Resource Name	Resource	Туре
INIT_DATASOURCE	DataSource	···
SCHEDULER_DS	DataSource	
GIUPLOAD_MDB_JMS_QCF	Queue Connecti	on Factory 😑
NOTIFY_MDB_JMS_DLQ_CF	Queue Connecti	on Factory
EMS_EXT_QCF	Queue Connecti	on Factory
NOTIFY_MDB_JMS_QCF	Queue Connecti	on Factory
EMS_INT_QCF	Queue Connecti	on Factory
BIP_MDB_JMS_QCF	Queue Connecti	on Factory
NOTIFY_MDB_JMS_DEST_Q_QCF	Queue Connecti	on Factory
DEFFERED_MDB_JMS_DEST_Q_QCF	Queue Connecti	on Factory
DIDADVICE MOD INC DLO	Qualia	•
Log	Back	Next Exit

The current screen shows a list and type of resources that are created.

13. Click 'Next' and the following screen is displayed:

Oracle FLEXCUBE Universal Installer					
Orac	Oracle FLEXCUBE Universal Banking ORACLE				
	Application deployment Please select the resource and update the details				
	Entity Name ENT1				
S.No. 2 3 4 5 6	Property Name DataSource Type Schema UserName Schema PAssword IP Address Port Number Service Name	Property Value XA scott ••••• localhost 1521 ord in oracle com			
Test C	Connection Save Changes	Modify JDBC url	Next Exit		

Specify the following details:

Entity Name

Select the entity name from the drop down. For each entity in entity name enter below details and save changes (unless 'same schema for all DS' checked). This is visible only for Multi Entities.

Resource ID

Select the data source needs to get created from the adjoining drop down list. Enter below details for each resource id, click "test connection" then click "save changes"

Same schema for all DS

If this checkbox is checked, then same schema details will be applied to all entities. This is applicable only for Multi Entities.

DataSource Driver

specified the jdbc driver url with which the connection is established. Ex: oracle.jdbc.OracleDriver for Non-XA datasources

DataSource Type

Specifies the type of datasource that is to be created. The resource INIT_DATASOURCE must be NXA type and others must be XA.

Schema Username

specified the username of the schema to which the connection is established.

Schema Paasword

specifies the password of the schema.

IP Address

specifies to provide the host address of the scema.

Port Number

provide the port number of schema.

Service Name

provide the schema name.

Initial Capacity

The number of physical connections to create when creating the connection pool in the data source

Maximum Capacity

The maximum number of physical connections that this connection pool can contain.

Capacity Increment

The increment by which this JDBC connection pool's capacity is expanded.

Shrink Frequency

The number of seconds to wait before shrinking a connection pool that has incrementally increased to meet demand.

Connection Reserve Timeout

The number of seconds after which a call to reserve a connection from the connection pool will timeout.

- 14. Click 'Save Changes' to save the values provided In the table against corresponding value of resource ID.
- 15. Click 'Test Connection' to establish connection with required details provided in the table.

Modify JDBC Url

Check this box to modify the JDBC URL.

16. Click 'Next' and following screen is displayed:

실 Oracle FLEXCUBE Uni	versal Installer		
Oracle FLEXCU	JBE Universal Banking	C	DRACLE
JDBC Url JDBC url to get conn Resource ID jdbc:oracle:thin:@10	ected to the Application server		
Test Connection	Save Changes	Back Next	Exit

17. Specify the following details:

Resource ID

It provides the list of all the datasources created. Select the data source for which the JDBC url needs to be modified from the adjoining drop down list.

The URL generated from the previous screen will be displayed here. If the user wants to change the URL. It can be changed in the present screen.

18. Click 'Test Connection' to check the connection using the changed url, If the url changed is correct the connection will be success.

- 19. Click on 'Save Changes' for saving the changed JDBC url
- 20. Click 'Next' and the following screen is displayed.

🛓 Oracl	le FLEXCU	BE Universal Installer		
Ora	cle FLE	EXCUBE Universal Banking		ORACLE
		Deployment ivironment details for deployment		
Domaii	n Name	Default_domain	Get D	Details
S.No. 1 2 3 4	AdminS(Manage ClusterT AVAST	dServer		Deploy
Log			Back	Next Exit

21. Specify the following details:

System displays the weblogic domains name.

- 22. Click 'Get Details' and the list of available servers are displayed:.
- 23. Check the box against one of the server's name.

Atleast one server should be selected to proceed to next screen. Click 'Next' and the following screen is displayed:

🛃 Oracle FLEXCUBE Universal Installer	
Oracle FLEXCUBE Universal Banking	ORACLE
Application Full Deployment	
Current screen Displays the status of Applications being deployed.	
	
	=
	_
	•
Start Deployment	
	Neva Paa
Log	Next Exit

24. Click 'Start Deployment' to begin the process of application deployment.

On successful deployment, the following screen is displayed:

Message	
i	Application FCUBSApp123 deployed successfully
	ОК

25. Click 'OK' and the following screen is displayed:

🛃 Oracle FLEXCUBE Universal Installer	
Oracle FLEXCUBE Universal Banking	ORACLE
Application Full Deployment Current screen Displays the status of Applications being deployed.	
Application FCUBSApp123 deployed successfully.	
Log	Next Exit

If the deployment is not successful, the 'Undeploy' button gets enabled.

🛃 Oracle FLEXCUBE Universal Installer	- • •
Oracle FLEXCUBE Universal Banking	ORACLE
Application Partial Deployment Current screen Displays the status of Applications being deployed.	
Start Deployment Undeploy	
Log Back	Next Exit

Click 'Undeploy' for undeploying the partially deployed EAR from the server.

1.2 FCUBS Application Partial Deployment

- 1. Launch Oracle FLEXCUBE Universal Banking Solution Installer.
- 2. Click 'Next' and the following screen is displayed:

- 3. Select 'Universal Banking Solution'.
- 4. Click 'Next' and the following screen is displayed:

🙆 Oracle FLEXCUBE Universal	Installer		
Oracle FLEXCUBE	Universal Banking		ORACLE
Welcome To Oracle FLEXC Choose Oracle FLEXCUBE Property File Database			
Build Application Deploy Application			
Release	KERNEL		
Server's Operating System	Windows -		
Application Server	Weblogic 👻		
DataBase Server	Oracle 🗸		
Log		Back	Next Exit

- 5. Specify the following details:
- 6. Select 'Deploy Application'.
- 7. Specify the following details:

Release

Select the release in which you are installing the FCUBS application. Select the appropriate one from the adjoining drop-down list.

Server's Operating System

Select the server's operating system in which you are installing the FCUBS application. Select the appropriate one from the adjoining drop-down list.

Application Server

Select 'Weblogic' from the adjoining drop down list.

Database Server

Select the database server in which you are installing the FCUBS application. Select the appropriate one from the adjoining drop-down list.

8. Click 'Next' and the following screen is displayed:.

🕌 Oracle FLEXCUBE Universal Installer			- • •
Oracle FLEXCUBE Universa	Oracle FLEXCUBE Universal Banking		RACLE
Application Deployment Provide server details for connecting to	the server.		
Name	Value		
Admin IP	10.10.10.10		
Admin Port	1111		
Admin Username	<user_name></user_name>		
Server Admin Password	•••••		
	Test Connection		
Type of Deployment P	Partial Deployment		
Log	Back	Next	Exit

Specify the appropriate admin username of the weblogic application server.

Admin IP

By default it will display local host and user cannot edit it.

Admin Password

Specify the appropriate admin password of the weblogic application server.

Type of Deployment

Select 'Partial Deployment'.

9. Click 'Test Connection' to test the connection with the application server. On successful connection, the following screen is displayed:

10. Click 'OK' and the following screen is displayed:

Oracle FLEXCUBE Univ	ersal Installer	X	
Oracle FLEXCU	Oracle FLEXCUBE Universal Banking		
Application deployment Provide the Application Details For the Deployment of EAR			
EAR Path	/Please use the browse button/		
Property File Path			
Application Name			
Application Context			
	Manage Resources		
Log	Back	Next Exit	

11. Specify the following details:

EAR PATH

Specify the path of the ear which is to be deployed.

Property File Path

If the property file is internal to the application EAR, it gets displayed here on selection of EAR path. If the property file is external, specify the location. You can use the directory button to browser and select the directory.

Application Name

Application name gets displayed on selection of EAR path.

Application Context

Application context gets displayed on selection of EAR path.

Manage Resources

This checkbox is disabled as manage resource is not supported in partial deployment.

12. Click on 'Next' and the following screen is displayed:

실 Oracle FLEXCUB	E Universal Installer			- • •
