Open Development Tool Application Deployment in Weblogic Oracle FLEXCUBE Universal Banking Release 12.87.7.0.0 [May] [2021]

# **Table of Contents**

1.	OPEN DEVELOPMENT TOOL (ODT) APPLICATION FULL DEPLOYMENT	1-1	

# 1. Open development Tool (ODT) Application Full Deployment

- 1. Launch Oracle FLEXCUBE Universal Banking Solution Installer.
- 2. Click on 'Next' to display the screen below.

- 3. Select 'Open Development Tool'.
- 4. Click 'Next' to display the screen below.

🕌 Oracle FLEXCUBE Universal	Installer		
Oracle FLEXCUBE	Universal Banking		ORACLE
Welcome To Oracle FLEXC Choose Oracle FLEXCUBE			
Property File Database Build Application			
Deploy Application			
Release	KERNEL 🔽		
Server's Operating System	Windows -		
Application Server	Weblogic 👻		
DataBase Server	Oracle 👻		
Log		Back	Next Exit

5. Select 'Deploy Application'.

# Release

Select the release in which you are installing the FCUBS application. Select the appropriate one from the adjoining drop-down list.

# Server's Operating System

Select the server's operating system in which you are installing the FCUBS application. Select the appropriate one from the adjoining drop-down list.

#### **Application Server**

Select 'Weblogic' from the adjoining drop down list.

#### **Database Server**

Select the database server in which you are installing the FCUBS application. Select the appropriate one from the adjoining drop-down list.

6. WeblogicClick 'Next' to display the screen below.

실 Oracle FLEXCUBE Universal Installer		- • •
Oracle FLEXCUBE Univers	al Banking	ORACLE'
Application Deployment Provide server details for connecting to	the server.	
Name	Value	
Admin IP	10.10.10.10	
Admin Port	1111	
Admin Username	<user_name></user_name>	
Server Admin Password	•••••	
	Test Connection	
Type of Deployment	ull Deployment 🗸	
Log	Back	Next Exit

7. Specify the following details:

# Admin IP

By default it will display local host and user can not edit it.

# Admin Port

Specify port number of weblogic server.

# Admin UserName

Specify the appropriate admin username of the weblogic application server.

# Admin Password

Specify the appropriate admin password of the weblogic application server.

# **Type of Deployment**

Select 'Full Deployment'.

8. Click 'Test Connection' to test the connection with the application server. On successful connection, the following message will be displayed.

Connection s	successful
C	ж

9. Click 'OK' and click 'Next' to display the screen below.

실 Oracle FLEXCUBE Unive	ersal Installer	
Oracle FLEXCU	BE Universal Banking	ORACLE
Application deploymer Provide the Application	nt Details For the Deployment of EAR	
EAR Path	/Please use the browse button/	
Property File Path		
Application Name		
Application Context		
	Mange Resources	
Log	Back	Next Exit

10. Specify the following details

# EAR Path

Select the application EAR to be deployed using the browse button.

The Application EAR path cannot be copied and pasted on to the text box, thereby demanding the use of the browse button to the select the EAR.

# **Property File Path**

If the property file is internal to the application EAR, it gets displayed here on selection of EAR path. If the property file is external, specify the location. You can use the directory button to browser and select the directory.

# **Application Name**

Application name gets displayed on selection of EAR path.

# **Application Context**

Application context gets displayed on selection of EAR path.

#### Manage Resources

Check this box if resources are to be created along with deployment.

11. Click on 'Next' to display the screen below.

Soracle FLEXCUBE Universal Installer

Application deployment		
This screen lists the Resources that are required for Dep	loyment	
Resource Name	Resour	се Туре
ODT_DATASOURCE	DataSource	
Log	Back	Next Exit

The current screen shows a list and type of resources that are created..

12. Click 'Next'. The following screen will be displayed

le	
	-
	=
	-

13. Specify the following details

# **Resource ID**

Select the data source needs to get created from the adjoining drop down list.

# DataSource Driver

Specify the JDBC driver URL with which the connection is established. Ex: oracle.jdbc.OracleDriver for Non-XA datasources

# DataSource Type

Specify the type of datasource that is to be created, XA or Non-XA.

# Schema Username

Specify the username of the schema to which the connection is established.

# Schema Paasword

Specify the password of the schema.

# **IP Address:**

Specify to provide the host address of the schema.

# **Port Number**

Specify the port number of schema.

# Service Name

Specify the schema name.

# **Initial Capacity**

The number of physical connections to create when creating the connection pool in the data source

# Maximum Capacity

The maximum number of physical connections that this connection pool can contain.

# **Capacity Increment**

The increment by which this JDBC connection pool's capacity is expanded.

# Shrink Frequency

The number of seconds to wait before shrinking a connection pool that has incrementally increased to meet demand.

# **Connection Reserve Timeout**

The number of seconds after which a call to reserve a connection from the connection pool will timeout.

- 14. Click 'Save Changes' to save the values provided In the table against corresponding value of Resource ID.
- 15. Click 'Test Connection' to try to establish connection with required details provided in the table.
- 16. Click on 'Next' to get the following screen.

# Modify JDBC URL

- 17. Select 'Modify JDBC URL' for editing the generated URL.
- 18. If 'Modify JDBC URL' is selected, on click of 'Next', the following screen will be displayed.

Soracle FLEXCUBE Universal Installer	
Oracle FLEXCUBE Universal Banking	ORACLE'
