1. Preface

1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

1.2 **Documentation Accessibility**

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.

1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info or visit

http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs if you are hearing impaired.

1.4 Structure

This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual.

Introduction provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure. If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

1.5 Related Information Sources

3. Chatbot on Facebook Messenger

Chatbot is an artificial intelligence system that interacts with users over a messaging platform. It answers questions and fulfills an array of tasks for business users.

Customers need to be in regular touch with their bank for various queries and daily transactions. Therefore banks needed a platform to answer customers' queries within the communication mediums their customers are already using, without them having to log into their internet banking or mobile banking application each time they want to check their balance or pay a utility bill. By using Futura Bank Chatbot for Facebook messenger, banks can alleviate a lot of the complexity for the user.

Futura Bank Chatbot interface is provided over the Facebook Messenger (on Web and Mobile) and on Futura Bank Mobile App, where the user can interact with the bank on chat.

To ensure security, before providing any information about user's accounts/cards, chatbot authenticates the customer by sending an OTP on user's registered mobile number or by soft token.

Note: Authentication of user while using chatbot services, can be done via sending OTP on user's registered mobile number or via Soft Token (as per the configuration done by Bank).

Features Supported In Application

For Retail User

- View Account Balance
- Fund Transfer
- Bill Payment
- Locate ATM or Branch
- View Recent Transactions
- Inquire about user's spends
- Inquire about upcoming payments
- Inquire about credit card due
- Inquire about credit card cash and credit limits
- Inquire about outstanding balance on loan account
- Inquire about next installment date and amount of loan
- Inquire about banking products

For Corporate User

- Account Balance Inquiry
- Fund Transfer
- Bill Payment
- Locate ATM or Branch
- View Recent Transactions
- Inquire about upcoming payments

- Inquire about outstanding balance on loan account
- Inquire about next installment date and installment amount
- Inquire about banking products

Pre-requisites

- Oracle Digital Assistant setup only incase of OBDX chatbot facility is deployed
- Valid Account on Facebook

3.1 LOG-IN to Chatbot Application

The user requires valid credentials to log in to the Chatbot Application.

To log in to the application:

- 1. Open the internet browser or the **Facebook Messenger** application to access the application.
- 2. Login to Facebook with your credentials. The Facebook screen appears.
- 3. Launch the **Futura Bank Chatbot** Page and click **Send message**. After logging in, **Chatbot** welcome message appears along with the OTP login.

Note: From subsequent login, it displays the welcome message along with the Help options.

Chatbot Application screen

4. Click **Get Started**, which is available on the welcome screen of the messaging window. The application displays a help message.

Get Started screen

5. Type **Help Me** in the message area and press **Enter** to interact with the Chatbot. It displays all transactions or inquiries you can do using Chatbot.

Help Me screen

6. Choose the transactions or inquiries from the **Help** options, or type a question for the options given by Chatbot.

OR Click **Got it** to close the transaction.

Got It Screen

3.2 LOG-OUT from Chatbot Application on Facebook

Using this option the user can log-out from the Facebook messenger and hence from Chatbot service.

To log out of the application:

- 1. In the top right corner of **Facebook**, click \bigcirc and then click the **Log Out** option.
- 2. The success message of logging out appears.

3.3 View Account Balance

Users can inquire about the balance in their account using this option.

To inquire about the account balance:

1. Type the balance inquiry question in the message area, and press **Enter**. For example, "Show me account balance in account number XXXXXXX0045? (You can also input only the last four digits of the account number).

Note: In case you do not enter the account number, the Chatbot will give the option to select the account and will display all your accounts.

- a. The Chatbot prompts you to provide your mobile number.
- b. Enter the mobile number and press **Enter**. An OTP is sent to your mobile number for authentication.
- c. Enter the OTP received on the mobile.
- d. The application displays the balance in the account.

Account Balance screen

- 2. If you click **Balance**.
 - a. The Chatbot prompts you to select an account type.

- b. Select the appropriate account type.
- c. The application prompts you to select an account number for which the balance is to be displayed.
- d. The application displays the balance in the account.

3.4 Funds Transfer - Existing Payee

Using this option a user can initiate a payment to an existing payee.

To transfer money to an existing payee:

1. Type the request to transfer funds to an existing payee, and press **Enter.** For example, "Pay JacksonD \$10".

OR Click Money Transfer.

a. The application displays a list of registered payees. Select the required payee.

- b. The application prompts you to enter the amount once you select the payee name.
- 2. The application displays the default account number or prompts you to select the account number for making funds transfer.

Note: It displays the default account number in masked format.

3. Type or click **Pay** to initiate the transaction from the default account number. Press **Enter**. OR

Type or click **Choose**, and press **Enter**. The application displays a list of mapped accounts.

- a. From the list, select the source account for making the funds transfer.
- 4. A success message about funds transfer appears along with the payment details and transaction reference number.

Funds Transfer – existing payee

Field Description

Field Name	Description
Payee	Payee' nickname to whom the fund transfer needs to be done.
Amount	Amount to be transferred.
Currency	Currency of the amount to be transferred.
Account Number/ Choose	Source account from which the funds are to be transferred.

Home

3.5 Bill Payment

Bill payment facility is provided to the users to make their utility payments online through Chatbot application. Using Chatbot, the user can easily make their various bill payments like mobile, electricity, credit card, and more.

Note: There is no out of the box integration with any product processor, and as part of implementation this will need integration with the bill payment aggregator (Third Party qualified).

To pay a bill:

 Type bill payment request along with the Biller Name in the message area, and press Enter. For example, "Please pay \$75 to Airtel". OR

Click Bill Payment.

- a. The application displays a list of billers. Select the required biller from the list.
- b. The application prompts you to input the amount, once the biller is selected.
- 2. The application displays the default account number and also provides an option to select a different account number for making the bill payment.

Note: It displays the account number in masked format.

3. Type or click on **Pay** to make the bill payment from the default account number. Press **Enter**. OR

Type or click on **Choose**, and press **Enter**. The application displays a list of mapped accounts.

- 4. From the list, select the source account for making the bill payment.
- 5. A success message for the bill payment appears.

Bill Payment screen

Field Description

Field Name	Description
Amount	Bill payment amount with currency to be transferred from account.
Biller Name	Name of registered biller.
Account Number/ Choose	Source account for making bill payment.

3.6 View Recent Activities

Using this option a user can view the transactions that have taken place in their account. The user can select a specific account to view the activities. Details like transaction description, date on which the transaction took place, as well as the amount and currency of the transaction, are also displayed.

To view recent activities:

1. Type the request to view account activity along with the **Account Number** in the message area. For example, "What are the recent transactions in account 0011" or "Show me the last 10 transactions in my account".

Note: Enter the last 4 digits of the account number.

2. The application displays the recent transactions that have taken place in the given account.

Recent Activities screen

Field Description

Field Name	Description
Account Number	The current or savings account number for which account activities needs to be viewed.
Recent Activities	Result
Description	Description of the transaction. For example - Interest charged, repayment etc.
Date	Date on which the activity took place.
Amount	Transaction amount along with the currency.

3.7 ATM / Branch Locator

Using this option the user can inquire the ATMs/Branches which are closer to a specific location. The user is provided with the options to search for the bank's ATMs and branches in the vicinity by entering the location name. The search results display a list of ATMs/branches in the mentioned location.

The user can also view the location of these Branches/ATMs on Map and can navigate to the same.

To locate an ATM / branch:

- 1. Type the inquiry for locating a branch or ATM and press **Enter**. For example, "Locate ATM" or simply click on **Locate ATM** or **Locate Branch**.
 - a. If you click the **Branch** option, the Branch location list appears.
 - b. If you click the **ATM** option, the ATM location list appears.
- 2. The application will ask for a location where you want to locate the ATMs/Branches.
- 3. In the message box, enter the location name. For example, Goregaon East, and press **Enter**. The application displays the ATMs / branches in and around that area.
- 4. You can click on **Get Directions** being shown under ATM/Branch name to navigate to the chosen ATM/Branch on the map.

<u>FAQ</u>

1. What are the benefits of using a Chatbot?

The Chatbot service eliminates waiting time of the users in getting answers to their queries and user can access his account information without logging into net banking account for the same.

2. How does the Chatbot authenticate the user before providing any information?

There are two methods of authentication – OTP and Soft Token, supported by OBDX. Bank can configure the mode of authentication as per their requirement.

If the OTP is set as the authentication mode, Chatbot will ask the user for their mobile number and will send an OTP on the registered mobile number so that the user can be authenticated.

If soft token is set as the authentication mode, user will be required to enter the soft token generated on the soft token app.

3. Where can the Bank user configure the authentication mode?

It is a DB configuration and can be done as part of implementation.

4. Can a user transfer funds to a new payee or beneficiary using Chatbot?

No, Chatbot can only transfer funds to existing payees or beneficiaries.

5. Can a user make credit card payments using Chatbot?

No, user can only inquire about amount due on the credit card and card limits (Cash and Credit Limit).
