3. Corporate Lending

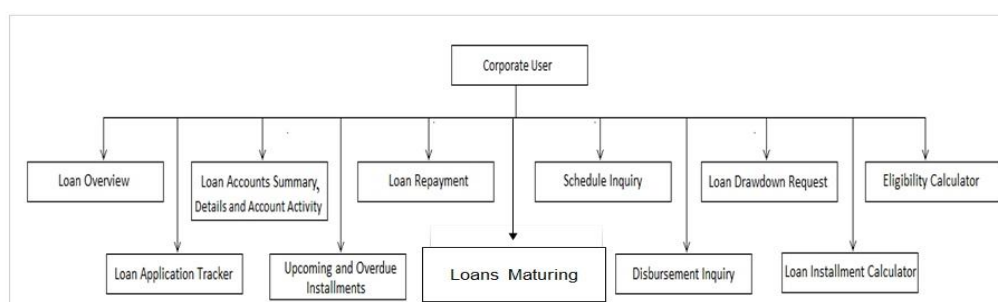

Corporate organizations often need to borrow money to meet their funding requirements, typically to invest in infrastructure, expand business operations at various locations, upgrade to the latest plant and machinery, acquire other assets, maintain inventory, or to increase working capital. Most corporates consider borrowing a business loan from financial institutions as a convenient option because of its flexibility and affordability. OBDX provides a platform by which banks can offer their corporate customers an enriching online banking experience in servicing their existing loans accounts.

Corporates can manage their banking requirements efficiently and effectively through the OBDX self-service channels. The corporate lending module offers a consolidated and easy to understand view of the customer's business loans position with an option to check the detailed view of each loan account. Customers can also view the information of upcoming and overdue loan installments and the detailed loan account activity.

The quick & hassle-free online loan repayment option allows the corporate user to initiate payments using the Digital Banking Platform.

4. Loan and Finance Overview

This screen is like a dashboard which provides a summary of the loan accounts that the corporate user, has access to. The Loan Overview displays a summary of the total borrowings in all accounts along with the current outstanding amount. It allows the user to understand the current position with respect to loan accounts.

The Application Tracker section provides a visual representation of the number of applications in various stages, which are in-progress, draft, submitted, and completed.

Through the Quick Links section, the user can launch into the servicing sections of the Loans module namely, repayment of loan, inquiring the repayment schedule, and viewing the disbursement details. A loan drawdown request can also be initiated from the Quick Links section.

In the Loan Accounts Summary, the user can view account details such as party name, account number in masked format, amount financed, interest rate, outstanding amount, auto payment, and maturity date of the loan accounts that the user has access to. Details of each loan account can be viewed by clicking on the account number hyperlink.

Upcoming and overdue installments are also displayed in the dashboard, with the option to make a repayment.

The user can calculate the loan installment using the Loan Installment Calculator at the bottom of the dashboard. An Eligibility Calculator is also available to check for eligibility of a specific loan amount, based on existing income and expenses.

6. Loan and Finance Repayment

The quick and hassle-free online loan repayment option allows the corporate user to initiate payments against outstanding amounts using the Digital Banking platform. The repayment can be an ad hoc repayment or an installment repayment.

Note: If the user makes a payment equal to the total outstanding loan amount (inclusive of arrears), it may lead to settlement of the loan account. Depending upon the configuration at the host system, premature penalty / charges may be applicable.

Note: If approver wants to modify the Loan and Finance Repayment, then **Send to Modify** option can be used instead of rejecting the repayment. Later, maker can make necessary changes to Loan and Finance Repayment and send for approval.

6.1 Ad Hoc Repayment

Ad hoc repayments can be made by a corporate user at any point of time, against a loan account mapped to him. It need not necessarily be when an installment is due. The amount being repaid need not be equal to the installment due either. In case there are surplus funds available at the corporate user's disposal, they can initiate an ad hoc repayment.

8. Schedule Inquiry

OBDX enables the corporate user to view the amortization schedule of a specific loan account.

The graphical representation of payment overview gives information like principal and interest of paid amount, and principal and interest of unpaid amount.

This screen displays a detailed installment summary of each installment including the interest and principal amounts along with any charges, if applicable, and the total installment amount due on each specific date throughout the loan tenure.

This helps the corporate user to get important information such as the frequency in which repayment installments are made, the total number of installments, the number of installments paid and those that are pending. How to reach here:

Toggle menu > Accounts > Loans and Finances > Schedule Inquiry
OR

Dashboard > Loans and Finances widget > Loan and Finance Summary > Loan account number link > Loan and Finance Details > Quick Links > Schedule Inquiry

10. Loan Calculators

The application provides calculators to the user, to get an indicative estimate of:

- Loan Installment Amount
- Loan Eligibility Amount

Through the;

- Loan Installment Calculator
- Eligibility Calculator

Calculation is done by the application and results are displayed to the user.

The installment calculator enables users to identify the installment amount payable on a loan of a certain amount for a specific duration. This calculator enables users to identify whether applying for a loan for a specific amount and duration is suitable or not.

The loan eligibility calculator enables users to compute the amount of loan that they are eligible for based on their monthly income and expenses and also the desired loan tenure and estimated interest rate.

10.1 Loan Installment Calculator

Repayment of a loan includes both the repayment of the principal amount of the loan, and the interest. These two components, together add up to the loan installment amount, which is typically an equated amount paid monthly to the lender (bank).

Loan installment calculator is a simple calculator which calculates the installment value of the loan, for specific amount, tenure and rate of interest. It helps users to understand the monthly outlay, if they were to borrow a sum of money, for a specific time.

How to reach here:

Toggle menu > Accounts > Loans and Finances > Loan and Finance Overview > Loan Installment Calculator

Loan Installment Calculator

The screenshot shows a web-based calculator interface. At the top, it is titled 'Installment Calculator'. Below the title, there are three input fields, each with a slider control and a corresponding value: 'Amount' is set to £300000.00, 'Tenure (months)' is set to 10, and 'Interest' is set to 3%. At the bottom left, there is a blue 'Calculate' button. At the bottom right, the result is displayed as 'Installment Amount £2,896.82'.

Field Description

Field Name	Description
Amount	The loan amount that the user wants to apply for, from the bank.
Tenure (months)	The tenure of loan in terms of months.
Interest	The interest rate that bank will charge on the applied loan.
Installment Amount	The calculated monthly installment that the user will have to pay towards loan settlement (for the given loan amount, interest rate, and loan tenure).

To calculate the installment for a particular loan amount, tenure and interest rate:

1. In the **Amount** field, click and drag for the desired loan amount, or input the amount manually.
2. In the **Tenure** field, click and drag for the appropriate loan tenure, or input the tenure manually.
3. In the **Interest** field, click and drag for the interest rate, or input the interest rate manually.
4. Click **Calculate**, to view the **Installment Amount**, which the user will have to pay regularly towards the loan (for the given loan amount, interest rate, and loan tenure).

10.2 Eligibility Calculator

The eligibility calculator enables users to understand the maximum amount of loan that they are eligible for, considering their average monthly income and expenditure. The calculator computes the eligible loan amount and average installment per month.

Loan Eligibility Amount calculation is performed by the application and results are displayed.

The eligibility is calculated on the basis of:

- The user's average Monthly Income
- The user's average Monthly Expenses
- Tenure of the loan
- Estimated rate of interest

How to reach here:

Toggle menu > Accounts > Loans and Finances > Loan and Finance Overview > Eligibility Calculator

Eligibility Calculator

FAQ

1. Who all can view a nickname that a user has set?

One account can have multiple nicknames set by different users, who have access to that account – however only the logged in user can view the nickname he has set.

2. Are nicknames displayed in all places, where an account number is displayed?

No, Approvers can only view the account number, but not nicknames set by makers. Further Review screens contain the account number (where applicable), but not the nickname.

3. Can I initiate full loan settlement and closure of loan account from digital banking platform?

OBDX do not restrict the user from initiating a full loan settlement, provided the configuration is available in the host to calculate final settlement amount and accept the request.

4. Can I access closed loan accounts from digital banking platform?

Corporate users can access closed loan accounts from the digital banking platform from the Loan Summary widget.

5. As a corporate user, what are the loan accounts that I can view?

A corporate user can view all the accounts that he has access to. This includes the accounts of his primary party as well as those of the linked parties.

6. Can I perform repayment of the Loan 24/7, on the Online Platform?

Financial Transactions, such as repayment of loan will be allowed within the business hours (or the working window of the transaction).
