# 1. Preface

## 1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

## 1.2 **Documentation Accessibility**

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <a href="http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.">http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.</a>

# 1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info or visit

http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs if you are hearing impaired.

## 1.4 Structure

This manual is organized into the following categories:

*Preface* gives information on the intended audience. It also describes the overall structure of the User Manual.

Introduction provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure. If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

## 1.5 Related Information Sources

# 3. Chatbot Mobile Banking Application

Chatbot is an artificial intelligence system that interacts with users over a messaging platform. It answers questions and fulfills an array of tasks for business users.

Customers need to be in regular touch with their bank for various queries and daily transactions. Therefore, banks require a platform to interact with customers, using communication mediums that are widely being used, without requiring logging into internet banking or mobile banking application. By using Futura Bank Chatbot for mobile application, banks can alleviate a lot of the complexity for the user. This application can answer customer queries, enable checking account balance, enable paying utility bills, and more.

To ensure security, before providing any information about the user's accounts or cards, Chatbot authenticates the customer by sending an OTP on the user's registered mobile number or by soft token.

#### Note:

- 1) Authentication of user while using chatbot services, can be done via sending OTP on user's registered mobile number or via Soft Token (as per the configuration done by Bank).
- 2) Support for Voice chat is also available with ODA integration. This enables the user to interact with digital assistant through speech.

#### Features Supported In the Application

#### For Retail User

- Account Balance Inquiry
- Fund Transfer
- Bill Payment
- Locate ATM or Branch
- View Recent Transactions
- Inquire about user's spends
- Inquire upcoming payments
- Inquire about credit card due
- Inquire about cash and credit limits of credit card
- Inquire about outstanding balance on loan account
- Inquire about next installment date and installment amount
- Inquire about banking products

#### For Corporate User

- Account Balance Inquiry
- Fund Transfer
- Bill Payment
- Locate ATM or Branch
- View Recent Transactions
- Inquire upcoming payments
- Inquire about outstanding balance on loan account
- Inquire about next installment date and installment amount
- Inquire about banking products
- Inquire about finances

#### **Pre-requisites**

Oracle Digital Assistant setup only incase of OBDX chatbot facility is deployed

# 3.1 Launch Chatbot Application

#### To launch the application:

1. Click the **Hi**, **How Can I Help You?** button at the bottom of the login page to launch the **Futura Bank Chatbot** application from the mobile application.

#### **Chatbot Application screen**

 Choose the transactions or inquiries from the Help options, or type a question for the options given by Chatbot. OR

Click Got it to close the transaction.

# 3.2 LOG-OUT from Chatbot Application

Using this option the user can log-out from the Chatbot mobile application.

#### To log out of the application:

1. In the mobile application top right corner,  $\operatorname{click}^{\bigcirc}$ .

## 3.3 View Account Balance

Users can inquire about the balance in their account using this option.

#### To inquire about the account balance:

 Type your balance inquiry question in the message area, and press Enter. For example, "Show me account balance in account number XXXXXXXX0045 (You can also input only the last four digits of your account number). OR Click Balance.

Note: In case you do not enter the account number, Chatbot will display all your accounts, and let you select the required one.

## 3.4 Fund Transfer- Existing Payee

Using this option user can initiate a payment to an existing payee.

#### To transfer money to an existing payee:

 Type the request to transfer funds to an existing payee, and press Enter. For example, "Pay JacksonD \$10".
OR

Click Money Transfer.

- a. The application displays a list of all registered payees. Select the required payee.
- b. The application inquires for the amount, once you select the payee.
- 2. The application displays the default account number or prompts you to select the required account number for making the funds transfer.

Note: The default account number is displayed in masked format.

 Type or click Pay to initiate the transaction from the default account number selected. Press Enter. OR

Type or click **Choose**, and press **Enter**. The application displays the list of mapped accounts.

- a. From the list, select the source account for making the funds transfer.
- 4. The success message about funds transfer appears along with the payment details and transaction reference number.

## 3.5 Bill Payment

Bill payment facility is provided to the users to make their utility payments online through Chatbot application. Using Chatbot, users can easily make their various bill payments like mobile, electricity, credit card and so on.

**Note:** There is no out of the box integration with any product processor, and as part of implementation this will need integration with the bill payment aggregator (Third Party qualified).

#### To pay the bill:

1. Type bill payment request along with the Biller Name in the message area, and press **Enter.** For example, "Please pay \$75 to Airtel".

OR Click Bill Payment.

- a. Application displays a list of billers. You can select the required biller from the list.
- b. Application prompts you to input the amount, once the user selects the biller.
- 2. Application displays the default account number and also provides an option to select the account number for making the bill payment.

Note: It displays the account number in masked format.

 Type or click on Pay to make the bill payment from the default account number selected, and press Enter. OR

Type or click on **Choose**, and press **Enter**. Application displays a list of mapped accounts.

- a. From the list, select the source account for making the bill payment.
- 4. The success message for bill payment appears.

## 3.6 View Recent Transactions

Using this option user can view the transactions carried out in the account. The user can select a specific account to view the activities. It will also provide details like transaction description, date on which the transaction took place, the amount and currency of the transaction.

#### To view recent transactions:

1. Type the request to view account activity along with the **Account Number** in the message area. For example, "What are the recent transactions in account 0011" or "Show me the last 10 transactions in my account".

OR

Click Recent Transactions.

Note: Enter the last 4 digits of the account number.

2. Application displays the recent transactions taken place in the given account.

#### **Recent Transactions screen**

## 3.7 ATM / Branch Locator

Using this option, a user can inquire about the ATMs and Branches that are closer to a specific location. The user is provided with the options to search for the bank's ATMs and branches in the vicinity by entering the location name. The search results display a list of ATMs/branches in the mentioned location.

The user can also view the location of these Branches/ATMs on Map and can navigate to the same.

#### To locate ATM / branch:

- 1. Type the inquiry for locating branch or ATM and press **Enter.** For example, "Locate ATM". Or, you can simply click on **Locate ATM** or **Locate Branch**.
  - a. If you click the **Branch** option. The Branch location list appears.
  - b. If you click the ATM option. The ATM location list appears.
- 2. The application inquires for a location where you want to locate the ATMs/Branches.
- 3. In the message box, enter the location name. For example, Goregaon East, and press **Enter**. The application displays the ATMs / branches in and around that area.
- 4. You can click on **Get Directions** being shown under the ATM/Branch name to navigate to the chosen ATM/Branch on the map.

## 3.10 View Credit Card Details

Using this option a business user can inquire about the amount due as well as the limit (Available and Total cash and credit limit) on their credit card from Chatbot.

**Note:** There is no out of the box integration with any product processor, but as part of implementation credit card module can be integrated with a third party system (Third Party qualified).

#### To view credit card details:

 Type a question to inquire about the amount due on a credit card, and press Enter. For example, "What is amount due on my credit card?" The application displays the total amount due on the credit card.

#### **Credit Card Details - Payment Due**

- 3. The application prompts you to enter your mobile number. Type in the mobile number registered with the bank and press **Enter**.
- 4. The application automatically sends a one-time password (OTP) to the mobile number. Type in this password and press **Enter**.

**Note:** The application prompts you to enter the mobile number and OTP only if you are not already logged in; else, you are directly prompted to enter the finance reference number.

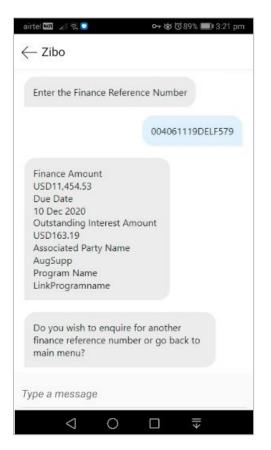

#### **On Entering Mobile Number and OTP**

5. The application then prompts you to enter the finance reference number. Type in the relevant number and press **Enter**. The related finance details, such as, finance amount, due date, outstanding principal amount, outstanding interest, associated party name, and program name, appear.

#### **On Entering Finance Reference Number**

#### **Field Description**

The following details are displayed when you inquire about a particular finance.

| Finance Amount                 | Displays the amount that has been financed.                                                                                             |
|--------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| Due Date                       | Displays the date when the finance amount should be fully repaid.                                                                       |
| Outstanding<br>Interest Amount | Displays any outstanding interest that should be paid.                                                                                  |
| Associated Party<br>Name       | Displays the name of the associated party, linked with the instrument (invoice or purchase order or debit note) that has been financed. |
| Program Name                   | Displays the name of the program linked with the instrument that has been financed.                                                     |

6. The application prompts with options to view details of another finance reference number or go back to the main menu. Type the relevant option and press **Enter**.

## <u>FAQ</u>

#### 1. What are the benefits of using a chatbot?

The chatbot service eliminates waiting time for users in getting answers to their queries and can access their account information without logging in to their net banking account for the same.

#### 2. How does the chatbot authenticate the user before providing any information?

There are two methods of authentication – OTP and Soft Token, supported by OBDX. Bank can configure the mode of authentication as per their requirement.

If the OTP is set as the authentication mode, Chatbot will ask the user for their mobile number and will send an OTP on the registered mobile number so that the user can be authenticated.

If soft token is set as the authentication mode, user will be required to enter the soft token generated on the soft token app.

#### 3. Where can the Bank user configure the authentication mode?

It is a DB configuration and can be done as part of implementation.

#### 4. Can the user transfer funds to new payees or beneficiaries using chatbot?

No, chatbot can transfer funds only to existing payees or beneficiaries.

#### 5. Can a user make a credit card payment using chatbot?

No, a user can only inquire about the amount due on their credit card and card limits (Cash and Credit Limit).
