1. Preface

1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Structure

This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual.

Introduction provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure. If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

1.5 Related Information Sources

3. Receivables/Payables Management

Receivables/Payables Management includes the following features:

- **Receivables/Payables Management**
 - Invoices – Creation, Viewing, Editing, Accepting, Raising Dispute, Resolving Dispute, Assignment.
 - Debit Notes – Creation, Viewing.
 - Credit Notes – Creation, Viewing.
- **Associated Party Management** - On-boarding, Viewing, KYC document uploading.
- **Reconciliation** - Rule creation, edit and inquiry of the rules. Manual reconciliation and de-reconciliation. Bulk upload and viewing of payments.
- **Allocation of Payments to Virtual Accounts** - Rule creation, edit and inquiry of the rules. Manual allocation of payments.
- **Purchase Order Management** - Creation, Viewing, Editing, Accepting.

[Home](#)

4. Create Receivables

Financial instruments such as invoices and debit notes are categorized as Receivables or Payables. They are referred to as, 'Receivables' when the logged-in corporate party is the Supplier; and 'Payables' when the logged-in corporate party is the Buyer.

Note: The 'Receivables' transactions are only supported on **Desktops/Laptops** and on **Landscape** mode of **Tablet** devices.

4.1 Invoices

An invoice is a bill sent from the seller to the buyer, documenting what has been purchased and what payment is owed. It is also known as a bill or contract of sale. An invoice allows the business owner or freelancer, to keep track of business transactions and make sure that they get paid.

An invoice is an important underlying instrument used in trade and Supply Chain and Cash Management. A commercial invoice is universally used in trade between a buyer and supplier. Financing of Supply Chain also takes place against such Invoices. In OBDX, we have built in the functionality to handle invoices as receivables and payables.

A corporate user (either buyer or supplier) can raise an invoice directly from the portal. Invoices can be created by manually entering the invoice details online, or using an existing template, or uploading the scanned copy of a physical invoice, or through file upload for bulk invoices creation. Based on the status of an invoice, a corporate user can edit, accept, partially accept, cancel, or request finance, directly from the portal.

Pre-requisites

User must have valid corporate login credentials.

The features built for the corporate user for managing invoices are as follows:

- Online Invoice Creation
- Invoice Creation with Document Upload
- Bulk File Upload Invoice Creation
- Edit Invoice
- Accept Invoice
- View Invoices
- Cancel Invoice – (prior to it being accepted)
- Save Invoice as Template
- Delete Invoice Template

4.1.1 Online Invoice Creation

Creation of invoices is an important transaction provided on the Portal. Using this option, corporate users can create single or multiple invoices online for the buyer in the Supply Chain Finance program. Post submission of the invoice, an option is provided to save the content as a Template. The template can be reused for creating invoices for the same corporate party.

Once the user creates invoices, they must be approved by an approver (if the approval flow has been set). The designated corporate approver is notified. The approver can either approve or reject the transaction. In case of rejection, the approver can send the transaction back to the corporate user (maker) to make the required modifications and re-submit it for approval.

New Invoice

Multiple Online Invoice Creation

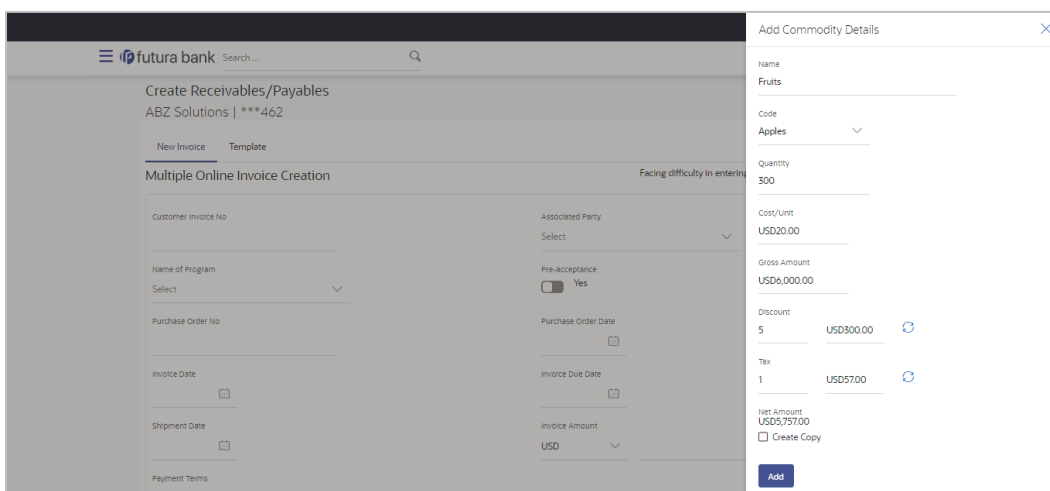

Field Name	Description
Facing difficulty in entering data for multiple invoices? Use Bulk Upload	Click the Bulk Upload link to navigate to the File Upload screen for creating invoices in bulk.
Customer Invoice No	Enter the customer's own reference number of the invoice.
Associated Party	Select the associated party to link the invoice to. A list of all on-boarded associated parties is available for selection. On selecting an associated party, the role of the party as Buyer or Supplier , appears below this field.
Name of Program	Select the program to which the invoice should be linked. Programs linked to the selected associated party are listed.
Auto Accept	Displays whether the invoice will be auto accepted or not. If the invoice will be auto-accepted, then the number of days post creation to auto-acceptance, is displayed. This field appears on selecting a program. It is populated based on the auto acceptance setting in the program definition. For more information on programs, refer the Create Program section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance.
Auto Finance	Displays whether the invoice will be auto financed or not. This field appears on selecting a program. It is populated based on the auto finance setting in the program definition. For more information on programs, refer the Create Program section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance.
Pre-acceptance	Enable this toggle if the invoice should be deemed as accepted by the buyer, on being raised. Note: If the logged-in party is the buyer and associated party is the supplier, then by default the Pre-acceptance toggle is switched to YES and is read-only. If the logged-in party is the supplier and the associated party is the buyer, then by default the Pre-acceptance toggle is switched to NO and is selective, i.e. the user can select either YES/NO.
Purchase Order No	Enter the reference number of the purchase order placed by the buyer.
Purchase Order Date	Click the calendar icon and select the date of creation of the purchase order.
Invoice Date	Click the calendar icon and select the date of creation of the invoice. The Invoice Date should be greater than the Purchase Order Date . You cannot enter a future date.
Invoice Due Date	Click the calendar icon and select the date on which the invoice payment is due. The Invoice Due Date should be greater than or equal to the Invoice Date .

Field Name	Description
Shipment Date	Click the calendar icon and select the date when the shipment is expected to take place. The Shipment Date should be greater than the Purchase Order Date and greater than or equal to the Invoice Date .
Gross Invoice Amount	Enter the gross invoice amount. This amount is before tax and discount. It should be the gross amount of the commodities.
Payment Terms	Enter the terms agreed for the payment of the invoice.

- Once you enter the above details, you can optionally add the commodity details.
- To add a commodity, click **Add** in the **Commodity Details** section. The **Add Commodity Details** overlay window appears.

Add Commodity Details

This overlay window appears when you click **Add** in the **Commodity Details** section.

Field Description

Field Name	Description
Add Commodity Details	
Name	Enter the name of the commodity.
Code	Select the code of the commodity. This value should be selected from the commodity code list.
Quantity	Enter the quantity of the commodity being purchased.
Cost/Unit	Specify the cost per unit of the commodity.

Field Name	Description
Gross Amount	<p>Enter the gross commodity amount. It also gets auto calculated if quantity and cost per unit are entered. It is the product of the entered quantity and cost per unit.</p> $\text{Gross Amount} = \text{Cost/Unit} * \text{Quantity}$
Discount	<p>Enter any discount being offered on the commodity. You can either enter the percentage of discount (in the first field) or the actual discount amount (in the second field). When you enter any one of these values, the other value is automatically calculated and displayed.</p> <p>Click  to reset the values.</p>
Tax	<p>Enter any tax being charged on the commodity. You can either enter the percentage of tax (in the first field) or the actual tax amount (in the second field). When you enter any one of these values, the other value is automatically calculated and displayed.</p> <p>Click  to reset the values.</p>
Net Amount	<p>Displays the net commodity amount. This is automatically calculated as follows:</p> $\text{Net Amount} = \text{Gross Amount} - \text{Discount} + \text{Tax}$
Create Copy	<p>Select this check box to create a copy of the commodity details entered.</p>

On clicking the **Add** button, a commodity record is created in the **Commodity Details** section.

- You can further add commodities by clicking **Add**, and filling out the required details.

Commodity Details

This section displays the commodity detail records, once you add them. Multiple commodities can be added.

Name	Displays the name of the commodity.
-------------	-------------------------------------

Field Name	Description
Code	Displays the code of the commodity.
Quantity	Displays the quantity of the commodity being purchased.
Cost per unit	Displays the cost per unit of the commodity.
Gross Amount	Displays the total gross amount of the commodity being purchased. It is the product of the entered quantity and cost per unit. Gross Amount = Cost per unit * Quantity
Discount	Displays the discount amount and percentage being offered on the commodity.
Tax	Displays the tax amount and percentage being charged on the commodity.
Net Amount	Displays the net amount of the commodity being purchased. It is automatically calculated as follows: Net Amount = Gross Amount – Discount + Tax
Actions	Indicates the actions that can be performed on the commodity record. <ul style="list-style-type: none"> • Click  to edit the record. • Click  to remove the record.

The following fields are present below the Commodity Details section, and are applicable at the invoice-level.

Gross Invoice Amount Displays the total gross amount of all the added commodities.

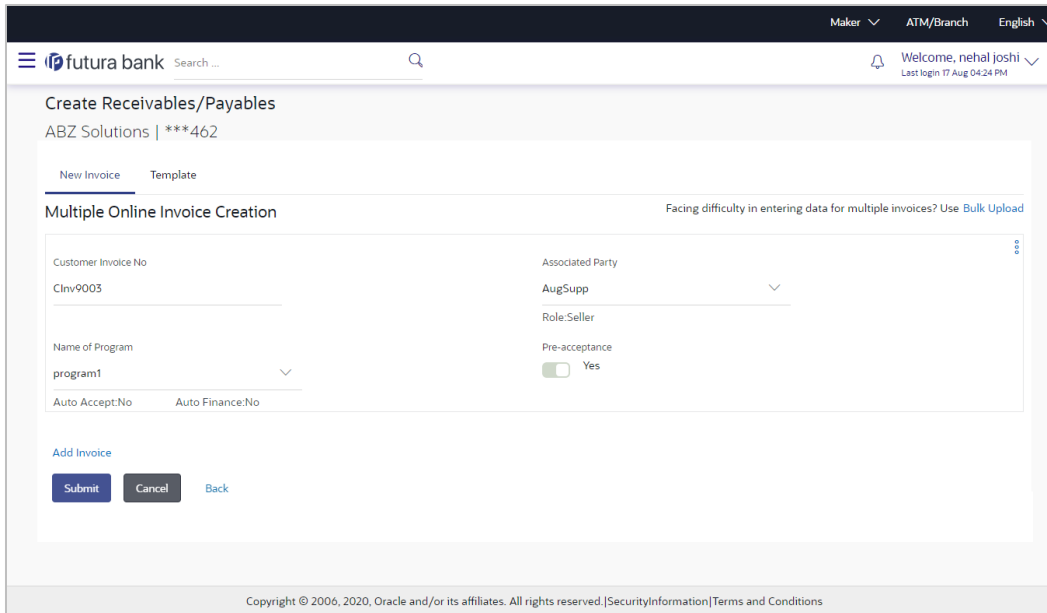

Discount Displays the total discount amount of all the commodities added. The average discount percentage of all added commodities is also displayed. Click  to reset the values.

Total Discount % = (Total discount amount / Total invoice amount) *100

Note: When commodity records are added, the discount value of each commodity is aggregated and populated here. This value cannot then be modified. However, if commodity records are not added, then this field is editable and the discount value or percentage can be entered here.

Field Name	Description
Tax	<p>Displays the total tax amount of all the commodities added. The average tax percentage of all added commodities is also displayed.</p> <p>Click  to reset the values.</p> <p>Total Tax % = (Total tax amount / Total invoice amount) *100</p> <hr/> <p>Note: When commodity records are added, the tax value of each commodity is aggregated and populated here. This value cannot then be modified. However, if commodity records are not added, then this field is editable and the tax value or percentage can be entered here.</p>
Miscellaneous Charges	<p>Add the name and amount of any other miscellaneous charge applicable.</p> <p>Use  to add another charge. A maximum of 2 miscellaneous charges can be added.</p> <p>Click  to reset the values.</p>
Net Invoice Amount	<p>Displays the total invoice amount that the buyer must pay, after deducting the discount and then applying the tax.</p> <hr/> <p>Note: The Net Invoice Amount gets automatically calculated as follows: Net Invoice Amount = Gross Invoice Amount - Discount Value + Tax Amount</p>
	<p>Indicates an option to reset the fields. This icon is present on the top right corner of the screen.</p>
Duplicate Invoice	<p>Indicates an option to add another invoice with the same details.</p>
Add Invoice	<p>Indicates an option to add another blank invoice. You can create multiple invoices using this link.</p>

- Modify the amount in the **Gross Invoice Amount** field above the Commodity Details section, to match the **Gross Invoice Amount** of all commodities.
- Click **Save** to save the invoice.
OR
Click **Save and Copy** to save the invoice details and create a copy.
OR
To clear the fields, click the  icon in the top right side of the screen.

Note: On clicking the **Save** button, the invoice being created appears in a panel with  in the top right corner. Click this icon to edit the invoice.

7. To create another new invoice in the transaction, click the **Add Invoice** link.
 - a. Add required details as mentioned in the steps above.
8. Click **Submit** to submit the transaction, once all required invoices have been added. The Review screen appears.

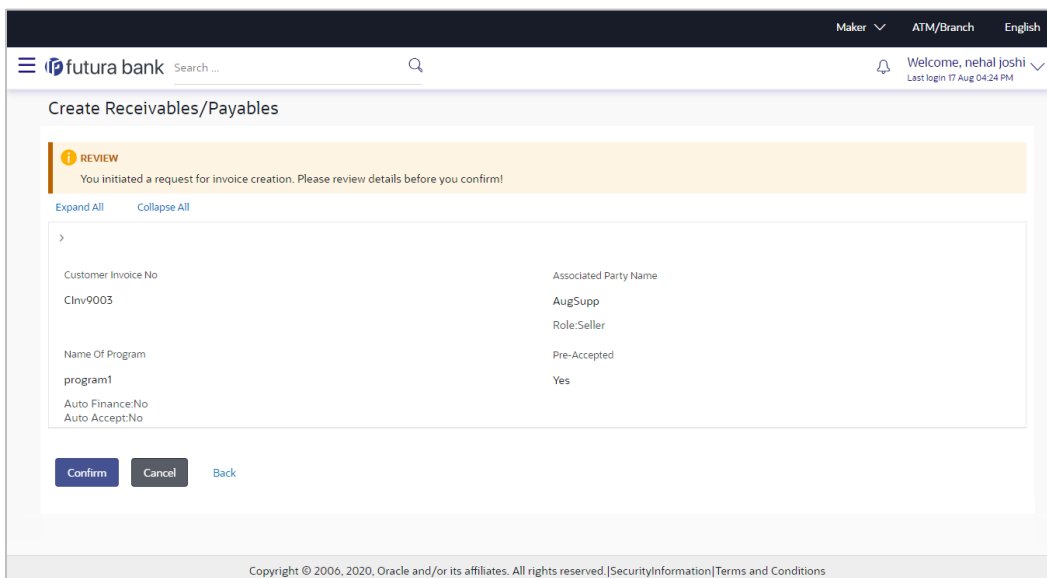

OR

Click **Cancel** to cancel the transaction.

OR

Click **Back** to navigate back to the previous screen.

Create Receivables/Payables - Review Screen

9. In the Review screen, verify the details and click **Confirm**. A confirmation message of request initiation for the invoice(s) creation appears along with the reference number.
OR
Click **Back** to navigate back to the previous screen.
OR
Click **Cancel** to cancel the transaction.

Create Receivables/Payables - Confirmation

10. Click the **Save as Template** link to save the details of the created invoice as a template.
OR
Click the **View Receivables/Payables** link to view the details of existing invoices. The **View Invoice** screen appears.
OR
Click the **Home** link to go to the main dashboard.

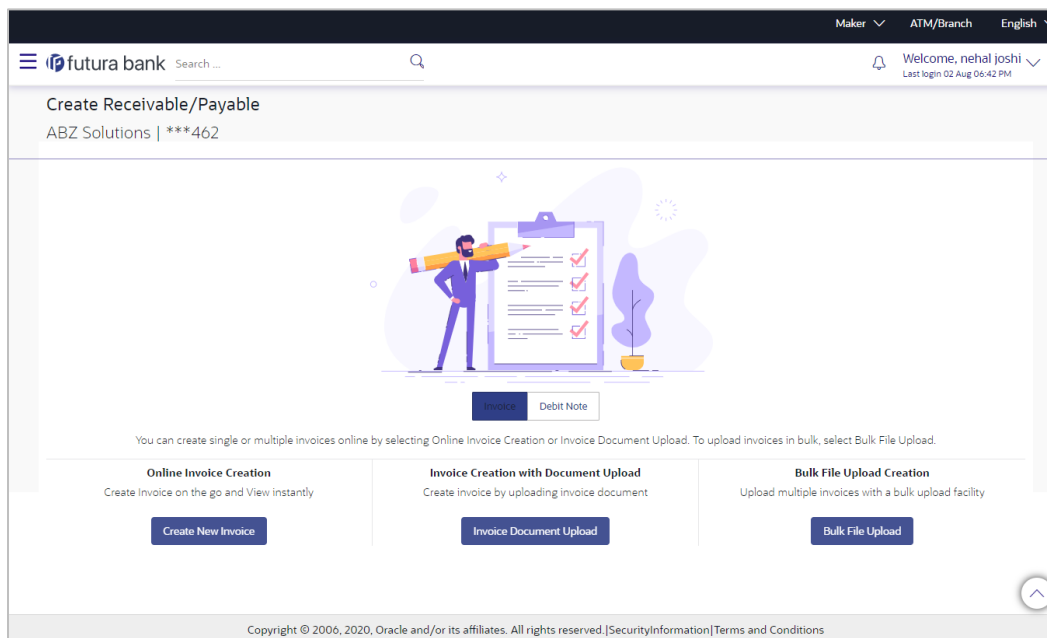

4.1.1.2 Create Invoice using Templates

You can save the data entered during invoice creation, as a template. This option is available upon successful creation of an invoice. You can use this template in the future to create invoices for the same party. This saves the efforts of re-entering the data.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables Management > Create Receivables

To view and use templates for creation of invoices:

1. On navigating to the **Create Receivable/Payable** screen, select the **Invoice** option, and then click the **Create New Invoice** button.
2. Click the **Template** tab. A list of existing templates appears.

Create Receivables/Payables – Template tab

The screenshot shows the 'Create Receivables/Payables' interface for 'ABZ Solutions | ***462'. The 'Template' tab is active, displaying a table of invoice templates. The table has the following data:

Template Name	No. of Invoices Saved	Created By	Last Updated	Action
INV_TMPL_120221115233	4	nehcms10	12 Feb 2021	
INV_TMPL_120221073234	4	nehcms10	12 Feb 2021	
INV_TMPL_120221065734	1	nehcms10	12 Feb 2021	
INV_TMPL_120221060212	3	nehcms10	12 Feb 2021	
INV_TMPL_120221060141	3	nehcms10	12 Feb 2021	
INV_TMPL_120221055032	3	nehcms10	12 Feb 2021	
INV_TMPL_120221054743	3	nehcms10	12 Feb 2021	
INV_TMPL_120221054524	1	nehcms10	12 Feb 2021	
INV_TMPL_050221044738	1	ABZVAMMAK1	05 Feb 2021	
INV_TMPL_050221044628	1	ABZVAMMAK1	05 Feb 2021	

The 'Notes' box states: "You can save the data entered while creating an invoice, in a template. This saves the effort of re-entering the data when an invoice is created for the same party in future. Simply select a template from the given list and the invoice will open in the 'Create Invoice' page for creating an invoice."

Field Description

Field Name	Description
Search	Enter the partial or full name of the template to search for specific templates. As you type the name, the relevant templates appear in the list.
Template Name	Displays the name of the invoice template, as a hyperlink. Click this hyperlink to open the New Invoice screen, with the template details populated in the respective fields.
No. of Invoices Saved	Displays the number of invoices saved under the template.
Created By	Displays the name of the corporate user who created the template.
Last Updated	Displays the last updated date of the invoice template.
Action	Click to delete the invoice template.

- Navigate through the pages to the required template, or use the **Search** field to find a specific template.
- Click the desired **Template Name** link. The template details are populated in the **Create Receivables/Payables – New Invoice** screen.
OR
Click against the template to delete the existing invoice template. A popup message appears to confirm the deletion.

- a. Click **Yes** to delete the invoice template.
OR
Click **No** to cancel the deletion of the invoice template.
5. Add or modify the required details.
6. Click **Save** to save the invoice.
OR
Click the **Save and Copy** to add a new invoice with same details entered in the current invoice.
OR
Click the **Add Invoice** link at the bottom of the screen, to add another invoice.
OR
Click  at the top right corner of an invoice, to clear the existing data.
7. Click **Submit** to submit the transaction. The Review screen appears.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to the previous screen.
8. In the Review screen, verify the details, and click **Confirm**. A confirmation message of request initiation for invoice(s) creation appears along with the reference number.
OR
Click **Back** to navigate back to the previous screen.
OR
Click **Cancel** to cancel the transaction.

4.1.2 **Invoice Creation with Document Upload**

Using this option, corporate users can create invoices online by uploading scanned copies of the physical invoice document.

How to reach here:

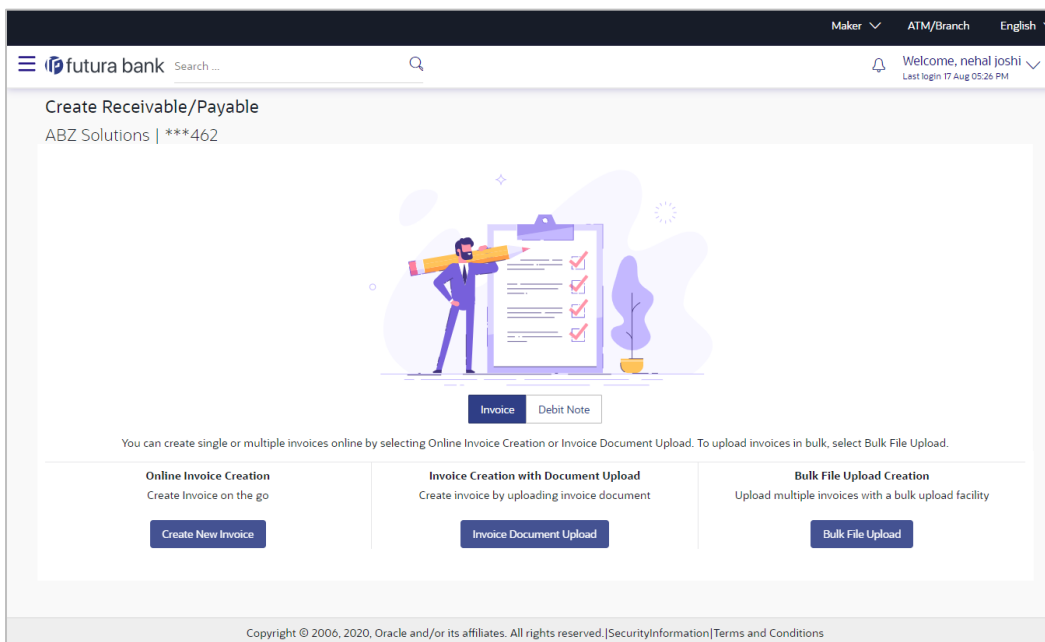

Dashboard > Toggle menu > Receivables/Payables Management > Create Receivables
OR

Dashboard > Toggle menu > Supply Chain Finance > Overview > Quick Links > Create Invoice

To create an invoice through document upload:

1. Scan the physical invoice and save it in one of the following formats: PDF, PNG, JPG, JPEG. Ensure that the file size does not exceed 2MB.

Create Receivable/Payable

Field Description

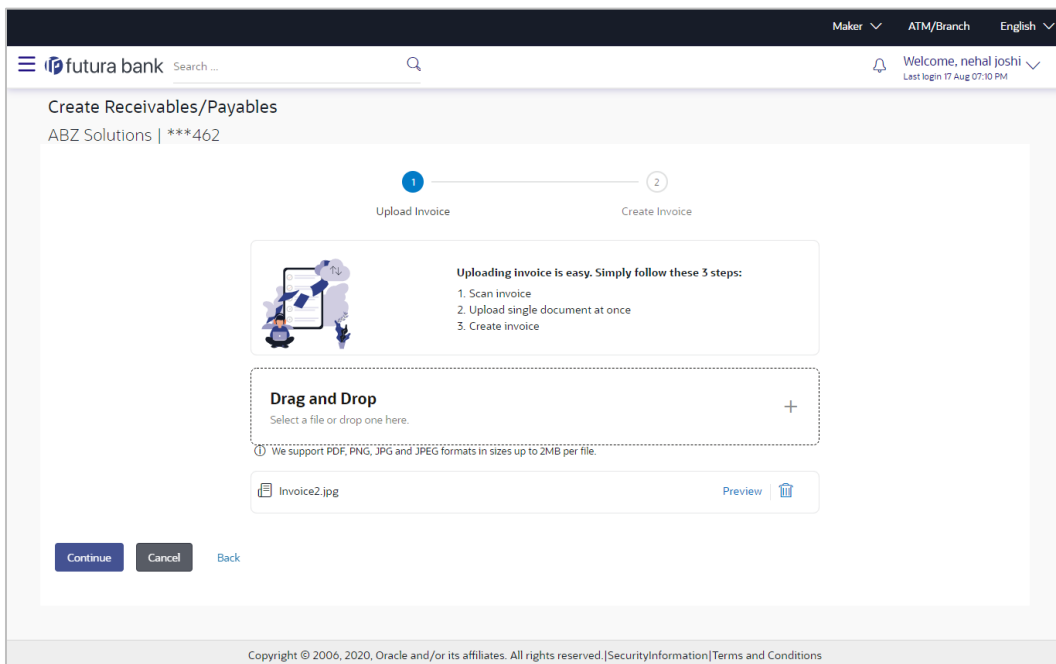

Field Name	Description
Create Receivable/Payable	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Invoice/Debit Note	Select the Invoice option.
Online Invoice Creation	Indicates the option to create invoice records by manual entry of invoice details.
Invoice Creation with Document Upload	Indicates the option to create an invoice record by uploading the actual invoice document image.
Bulk File Upload Creation	Indicates the option to create bulk invoice records through file upload.

- In the **Create Receivable/Payable** screen, select the **Invoice** option and then click the **Invoice Document Upload** button. The **Create Receivables/Payables** screen appears starting with the **Upload Invoice** step.

Create Receivables/Payables – Upload Invoice

3. In the **Upload Invoice** step, either click **+** to browse and select the required file, or, drag and drop the file in the space provided. An entry for the uploaded file appears in the section below.

Note: To preview an uploaded file, click the **Preview** link beside it. To remove an uploaded file, click .

4. Click **Continue** to go to the **Create Invoice** step.
- OR
- Click **Cancel** to cancel the transaction.
- OR
- Click **Back** to go to the previous screen.

Field Description

Field Name	Description
Create Receivables/Payables	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Create Invoice step	
The values that have been extracted from the invoice image (except for commodity details) are automatically populated in the respective fields. You can edit these values, if required.	
Customer Invoice No	Indicates the customer's own reference number of the invoice.
Associated Party	Indicates the associated party with whom the invoice is to be linked. A list of all on-boarded associated parties is available for selection. On selecting an associated party, the role of the party as Buyer or Supplier , appears below this field.
Program Name	Indicates the program to which the invoice needs to be linked. Programs linked to the selected associated party are listed.
Auto Accept	Displays whether the invoice will be auto accepted or not. It is populated based on the auto acceptance setting in the program definition and is non-editable. For more information, refer the Create Program section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance.
Auto Finance	Displays whether the invoice will be auto financed or not. It is populated based on the auto finance setting in the program definition and is non-editable. For more information, refer the Create Program section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance.
Pre-acceptance	Enable this toggle if the invoice should be deemed as accepted by the buyer, on being raised. <p>Note: If the logged-in party is the buyer and associated party is the supplier, then by default the Pre-acceptance toggle is switched to YES and is read-only. If the logged-in party is the supplier and the associated party is the buyer, then by default the Pre-acceptance toggle is switched to NO and is selective, i.e. the user can select either YES/NO.</p>
Purchase Order No	Indicates the reference number of the purchase order placed by the buyer.
Purchase Order Date	Indicates the date of creation of the purchase order.
Invoice Date	Indicates the date of creation of the invoice. The Invoice Date should be greater than the Purchase Order Date .

Field Name	Description
Invoice Due Date	Indicates the date on which the invoice payment is due. The Invoice Due Date should be greater than or equal to the Invoice Date .
Shipment Date	Indicates the date when the shipment is expected to take place. The Shipment Date should be greater than the Purchase Order Date and greater than or equal to the Invoice Date .
Payment Terms	Indicates the terms agreed for the payment of the invoice.
Invoice Amount	Indicates the total invoice amount of all commodities being purchased, along with the currency.
Commodity Details	
Commodity details are not automatically extracted by the application. Click Add to add details of commodities being purchased.	
Name	Enter the name of the commodity.
Code	Select the code for the commodity.
Quantity	Specify the quantity of the commodity being purchased.
Cost Per Unit	Enter the cost per unit of the commodity.
Gross Amount	Displays the total amount of the commodity being purchased. It is the product of the entered quantity and cost per unit. Gross Amount = Cost Per Unit * Quantity
Actions	Indicates the actions that can be performed on the commodity record. <ul style="list-style-type: none"> Click  to make a duplicate record entry. Click  to remove the record.
Total Amount	Displays the total gross amount of the commodities being purchased.
Discount Percentage	Indicates the discount percentage being offered on the invoice.
Tax Percentage	Indicates the tax percentage being charged on the invoice.
Discount Value	Displays the total discount amount.
Tax Value	Displays the total tax amount.

Field Name	Description
Net Invoice Amount	Displays the overall invoice amount to be paid by the buyer. Note: The Net Invoice Amount gets automatically calculated as follows: Net Invoice Amount = Total (Invoice) Amount - Discount Value + Tax Value

5. Check all the extracted details and add or modify any value, if required.

4.1.3 Bulk Invoice Creation

Using this option, corporates can create invoices in bulk by uploading a file. The file must contain the invoice details and its commodity records in a specific format and sequence.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables Management > Create Receivables
OR

Dashboard > Toggle menu > Supply Chain Finance > Overview > Quick Links > Create Invoice

To create invoices in bulk:

Create Receivable/Payable

Field Description

Field Name	Description
Create Receivable/Payable	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Invoice/Debit Note	Select the Invoice option.
Online Invoice Creation	Indicates the option to create invoice records by manual entry of invoice details.
Invoice Creation with Document Upload	Indicates the option to create an invoice record by uploading the actual invoice document image.
Bulk File Upload Creation	Indicates the option to create bulk invoice records through file upload.

1. In the **Create Receivable/Payable** screen, select the Invoice option and then click the **Bulk File Upload** button. The **File Upload** screen appears.
2. For more information on the procedure of uploading the file, refer User Manual Oracle Banking Digital Experience Corporate File Upload. Use the file template detailed below for upload.

4.1.3.1 Bulk Invoice File Template

The file to be uploaded should have data in a specific sequence. For each invoice, there must be a top row with indicator 'I', which specifies invoice-level parameters. For each commodity under the invoice, there must be a row with indicator 'C', which specifies the commodity-level parameters.

Note: Refer this file for the sequence: 

Field Description

Field Name	Description
The following fields are specific to the invoice as a whole. This row must be present for each invoice being added.	
Indicator	Specify the indicator. Enter 'I' for an invoice row.
Customer Invoice Number	Enter the customer's own invoice number.
Invoice Date	Enter the date of creation of the invoice. This should not be a future date.
Invoice Due Date	Enter the date when the invoice payment is due. This should be greater than the invoice date.
Currency	Enter the currency of the invoice amount.
Gross Invoice Amount	Enter the total invoice amount.
Buyer Id	Enter the ID associated with the buyer.
Supplier Id	Enter the ID associated with the supplier.
Buyer Name	Enter the name of the buyer.
Supplier Name	Enter the name of the supplier.
Program Code	Enter the program code associated with the invoice.
Discount Amount	Enter the total discount amount applicable for all commodities being purchased.
Tax Amount	Enter the total tax amount applicable, on all commodities being purchased.

Field Name	Description
Net Invoice Amount	Enter the net invoice amount. Net Invoice Amount = Gross Invoice Amount – Discount Amount + Tax Amount
Acceptance Amount	Enter the invoice amount that has been accepted.
Purchase Order Number	Enter the reference number of the purchase order corresponding to the invoice.
Pre-accepted	Enter Y if the invoice should be pre-accepted, and N , otherwise.
The following fields are specific to a commodity. You must add a row for each commodity being purchased, under the respective invoice row.	
Indicator	Specify the indicator. Enter C for a row at the commodity level.
Customer Invoice Number	Enter the customer's own invoice number.
Commodity Code	Enter the code associated with the commodity.
Commodity Name	Enter the name of the commodity.
Quantity	Enter the quantity of the commodity.
Cost Per Unit	Enter the cost per unit of the commodity.
Gross Amount	Enter the total cost of the commodity. Gross Amount = Cost Per Unit * Quantity
Discount Amount	Enter the discount amount applicable to the commodity.
Tax Amount	Enter the tax amount applicable to the commodity.
Net Amount	Enter the net amount of the commodity. Net Amount = Gross Amount – Discount Amount + Tax Amount

4.2 Debit Notes

A Debit Note can be interpreted as a request to increase the value agreed upon in the invoice. Debit notes may be raised under the following circumstances: the supplier has delivered goods in excess of those stated in the invoice, or an error in pricing.

A corporate user (either buyer or supplier) can raise a debit note directly from the portal. Debit notes can be created by manually entering the details online, or using an existing template, or through file upload for bulk debit notes creation.

Pre-requisites

User must have valid corporate login credentials.

Note: The Debit Notes Transactions are only supported on **Desktops/Laptops** and on **Landscape** mode of **Tablet** devices.

4.2.1 **Online Debit Note Creation**

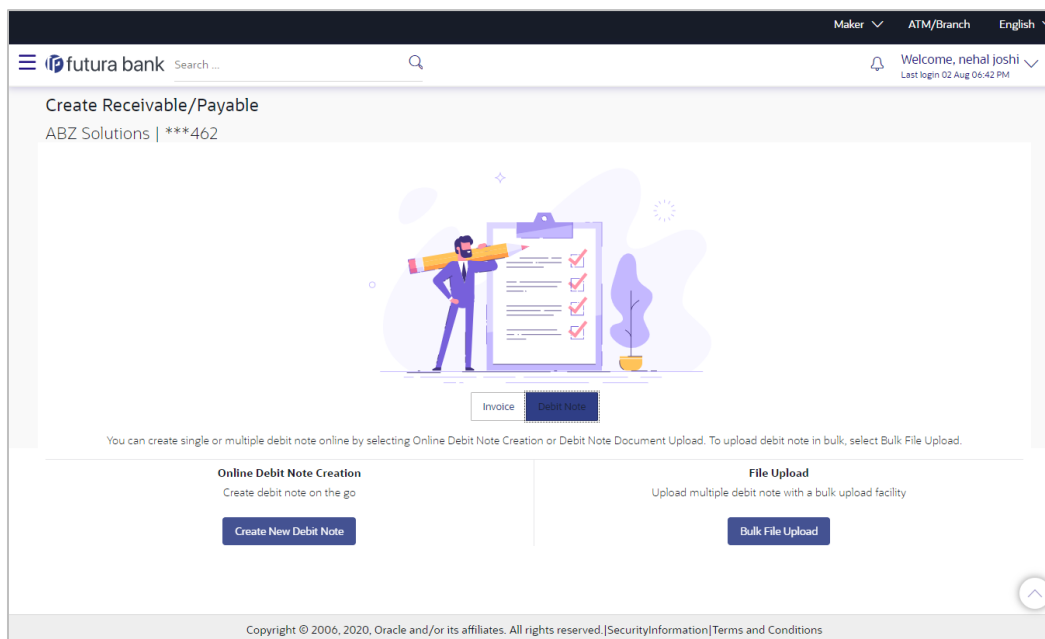

Using this option, corporate users can create single or multiple debit notes online for the buyer in the Supply Chain Finance program. Post submission of the debit note, an option is provided to save the content as a Template. The template can be reused for creating debit notes for the same program and associated corporate party.

Once the user creates debit notes, they must be approved by an approver (if the approval flow has been set). The designated corporate approver is notified. The approver can either approve or reject the transaction. In case of rejection, the approver can send the transaction back to the corporate user (maker) to make the required modifications and re-submit it for approval.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables Management > Create Receivables

Create Receivable/Payable

Field Description

Field Name	Description
Create Receivable/Payable	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Invoice/Debit Note	Select the Debit Note option.
Online Debit Note Creation	Indicates the option to create debit note records by manual entry of the details.

Field Name	Description
File Upload	Indicates the option to create bulk debit note records through file upload.

4.2.1.1 Online Debit Note Creation (manual entry)

A corporate user, based on their role, can create one or more debit notes in one single transaction.

To create debit note(s):

1. In the **Create Receivable/Payable** screen, select the **Debit Note** option.
2. Click the **Create New Debit Note** button to create debit note records manually. The **New Debit Note** tab appears.

New Debit Note

The screenshot displays the 'Create Receivables/Payables' interface for a new debit note. The header includes the Fura Bank logo, a search bar, and user information: 'Welcome, nehal joshi' with a last login of '18 Aug 11:27 AM'. The main title is 'Create Receivables/Payables' for 'ABZ Solutions | ***462'. There are two tabs: 'New Debit Note' (active) and 'Template'. A message states: 'Facing difficulty in entering data for multiple Debit Note? Use Bulk Upload'. The form is divided into two columns of fields:

- Left Column:**
 - Customer Debit Note Number: Cdeb9004
 - Program Name: LinkedProg
 - Auto Accept: No, Auto Finance: No
 - Debit Note Date: 18 Aug 2019
 - Debit Note Amount: USD, USD1,000.00
 - Terms of Sales: DAF
 - Adjustment Reason: Quantity Contested
 - Shipment Date: 13 Aug 2019
 - Shipment Address 1: ABC Lane
 - Shipment Address 3: (empty)
 - Shipment Country: United States
 - Reason of Export: (empty)
 - Populate Commodity Details from Invoice: Yes
- Right Column:**
 - Associated Party: AugBuyer
 - Role: Seller
 - Pre-acceptance: No
 - Due Date: 30 Sep 2019
 - Payment Terms: online transfer
 - Linked Invoice Number: OBDXINV05FebRD
 - Shipment Number: SH9004
 - Shipment Address 2: (empty)
 - Shipment City: New York
 - Pin Code: 12345

Field Description

Field Name	Description
Create Receivables/Payables	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
New Debit Note	
Multiple Online Debit Note Creation	
Facing difficulty in entering data for multiple Debit Note? Use Bulk Upload	Click the Bulk Upload link to navigate to the File Upload screen for creating debit notes in bulk.
Customer Debit Note Number	Enter the customer's own reference number for the debit note.
Associated Party	Select the associated party to link the debit note to. A list of all on-boarded associated parties is available for selection. On selecting an associated party, the role of the party as Buyer or Supplier , appears below this field.
Name of Program	Select the program to which the debit note should be linked. Programs linked to the selected associated party are listed.
Auto Accept	Displays the number of days post creation when the debit note will be deemed as accepted. This field appears on selecting a program. It is displayed only if auto-acceptance is enabled at the program-level. For more information on programs, refer the Create Program section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance.
Auto Finance	Displays whether the debit note will be auto financed or not. This field appears on selecting a program. It is populated based on the auto finance setting in the program definition. For more information on programs, refer the Create Program section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance.
Pre-acceptance	Enable this toggle if the debit note should be deemed as accepted by the buyer, on being raised. Note: If the logged-in party is the buyer and associated party is the supplier, then by default the Pre-acceptance toggle is switched to YES and is read-only. If the logged-in party is the supplier and the associated party is the buyer, then by default the Pre-acceptance toggle is switched to NO and is selective, i.e. the user can select either YES/NO.
Debit Note Date	Click the calendar icon and select the date of creation of the debit note. The selected date should be less than or equal to the current date. By default the current date is displayed.

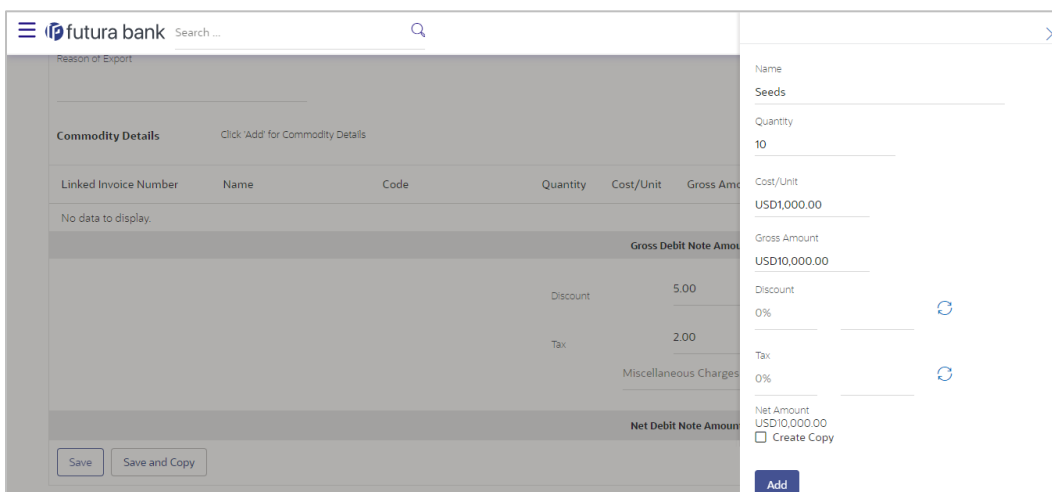

Field Name	Description
Due Date	Click the calendar icon and select the date on which the debit note payment is due. The Due Date should be greater than or equal to the Debit Note Date .
Debit Note Amount	Select the debit note currency and enter the gross debit note amount (not including tax or discount).
Payment Terms	Enter the terms agreed for the payment of the debit note.
Terms of Sale	Enter the applicable 3-digit Incoterms code. The available values are: <ul style="list-style-type: none"> • EXW Ex Works • FAS Free Alongside Ship • FCA Free Carrier • FOB Free On Board • CPT Carriage Paid To • CFR Cost and Freight • CIP Carriage and Insurance Paid To • CIF Cost Insurance and Freight • DAP Delivered at Place • DPU Delivered at Place Unloaded • DDP Delivered Duty Paid
Linked Invoice Number	Select the invoice that should be linked to the debit note. Once you link invoice(s), the Populate Commodity Details from Invoice toggle is enabled, and the commodities from the invoice(s) appear in the Commodity Details grid of the debit note.
Adjustment Reason	Select the reason for adjusting the invoice amount.
Shipment Date	Click the calendar icon and select the date when the shipment is taking place.
Shipment Number	Enter the shipment number.
Shipment Address 1 - 3	Enter the shipment address in the fields provided.
Shipment City	Enter the city to ship the goods to.
Shipment Country	Select the country to ship the goods to.
Pin Code	Enter the pin code to ship the goods to.
Reason of Export	Enter the relevant reason of export.

Field Name	Description
Populate Commodity Details from Invoice	<p>This toggle is automatically enabled when you link invoices to the debit note in the Linked Invoice Number field. The Commodity Details section gets populated with the commodities from the linked invoice(s), when this toggle is enabled.</p> <p>Switch this toggle off in case you want to remove the commodities from the debit note.</p>

3. Once you enter the above details, you can optionally add/modify the commodity details.
- To add a commodity record, click **Add**. An overlay window appears, where you can capture the commodity details.
 - To modify an existing commodity record, click .
 - To delete a commodity record, click .

Add Commodity Details

An overlay window appears when you click **Add** in the **Commodity Details** section.

Field Description

Field Name	Description
Name	Enter the name of the commodity for which the debit note is being raised.
Code	Enter the code of the commodity.
Quantity	Enter the quantity of the commodity for which the debit note is being raised.
Cost/Unit	Specify the cost per unit of the commodity.

Field Name	Description
Gross Amount	<p>Enter the gross commodity amount. It also gets auto calculated if quantity and cost per unit are entered. It is the product of the entered quantity and cost per unit.</p> <p>Gross Amount = Cost/Unit * Quantity</p>
Discount	<p>Enter any discount being offered on the commodity. You can either enter the percentage of discount (in the first field) or the actual discount amount (in the second field). When you enter any one of these values, the other value is automatically calculated and displayed.</p> <p>Click  to reset the values.</p>
Tax	<p>Enter any tax being charged on the commodity. You can either enter the percentage of tax (in the first field) or the actual tax amount (in the second field). When you enter any one of these values, the other value is automatically calculated and displayed.</p> <p>Click  to reset the values.</p>
Create Copy	<p>Select this check box to create a copy of the commodity details entered.</p>

On clicking the **Add** button, a commodity record is created in the **Commodity Details** section.

- You can further add commodities by clicking **Add**, and filling out the required details.

4.2.1.2 Create Debit Notes using Templates

You can save the data entered during debit note creation, as a template. This option is available upon successful creation of a debit note. You can use this template in the future to create debit notes for the same program and associated party. This saves the efforts of re-entering the data.

How to reach here:

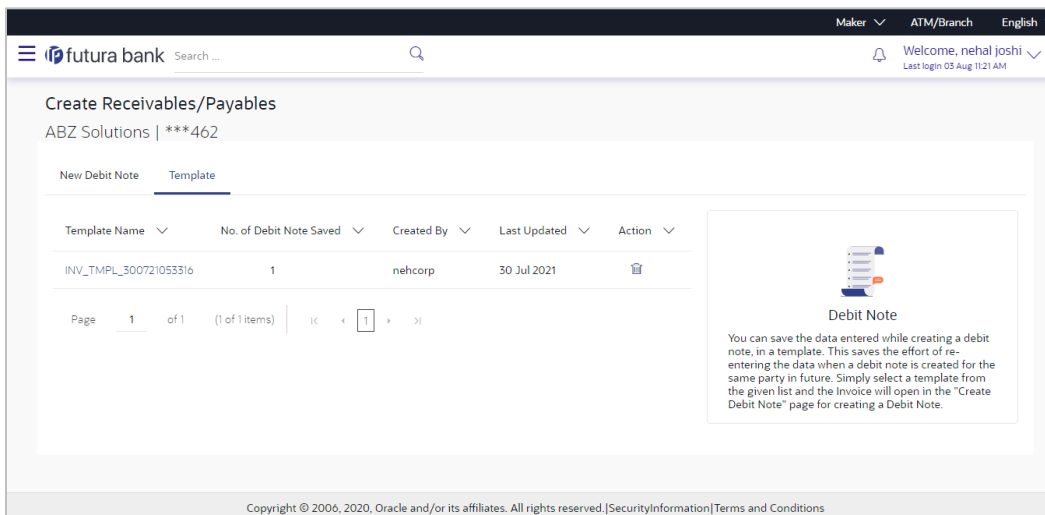

Dashboard > Toggle menu > Receivables/Payables Management > Create Receivables

To view and use templates for creation of debit notes:

1. On navigating to the **Create Receivable/Payable** screen, select the **Debit Note** option and then click the **Create New Debit Note** button.
2. Click the **Template** tab. A list of existing templates appears.

Create Receivables/Payables – Template tab

Field Description

Field Name	Description
Search	Enter the partial or full name of the template to search for specific templates. As you type the name, the relevant templates appear in the list.

Field Name	Description
Template Name	Displays the name of the debit note template, as a hyperlink. Click this hyperlink to open the New Debit Note screen, with the template details populated in the respective fields.
No. of Debit Note Saved	Displays the number of debit notes saved under the template.
Created By	Displays the name of the corporate user who created the template.
Last Updated	Displays the last updated date of the debit note template.
Action	Click  to delete the debit note template.

3. Navigate through the pages to the required template, or use the **Search** field to find a specific template.
4. Click the desired **Template Name** link. The template details are populated in the **New Debit Note** tab.
OR
To delete an existing debit note template, click . A popup message appears to confirm the deletion.
 - a. Click **Yes** to delete the debit note template.
OR
Click **No** to cancel the deletion of the debit note template.
5. Add or modify the required details.
6. Click **Save** to save the debit note.
OR
Click the **Save and Copy** link to create a copy of the debit note in editable mode.
OR
Click the **Add Debit Note** link at the bottom of the screen, to add another debit note.
OR
Click  at the top right corner of a debit note, to delete it.
OR
Click  at the top right corner of a debit note, to clear the existing data.
7. Click **Submit** to submit the transaction. The Review screen appears.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to the previous screen.
8. In the Review screen, verify the details, and click **Confirm**. A confirmation message appears with the reference ID and status of the transaction.
OR
Click **Back** to navigate back to the previous screen.
OR
Click **Cancel** to cancel the transaction.

4.2.2 Bulk Debit Note Creation

Debit note records can be created in bulk through file upload.

How to reach here:

Dashboard > Toggle Menu > File Upload > File Upload

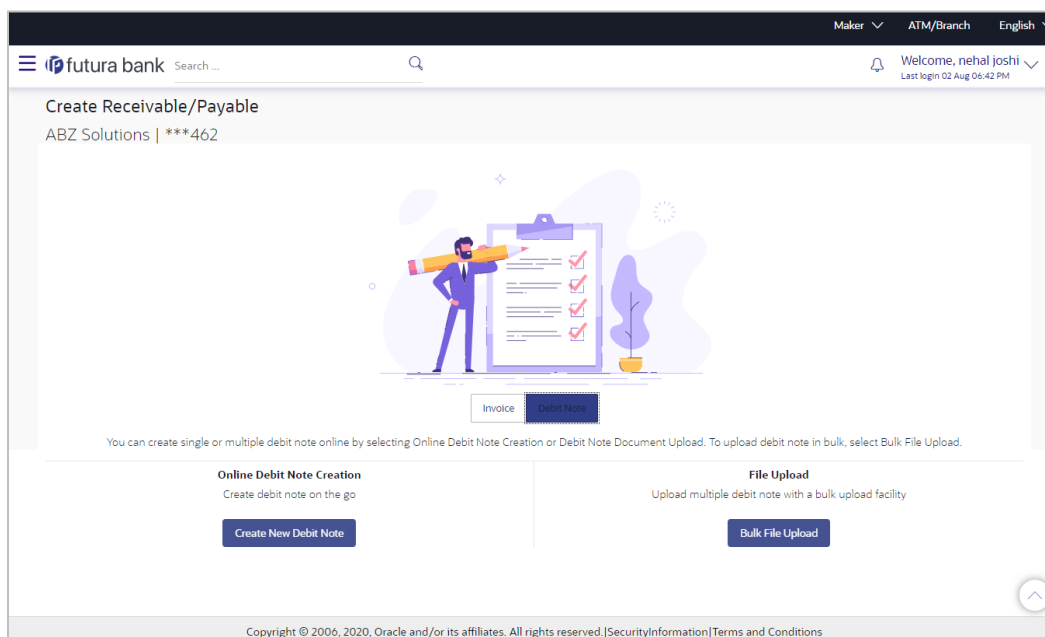

OR

Dashboard > Quick Links > File Upload

OR

Dashboard > Toggle menu > Receivables/Payables Management > Create Receivables > Debit Note

To create debit notes in bulk:

Field Description

Field Name	Description
Create Receivable/Payable	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Invoice/Debit Note	Select the Debit Note option.
Online Debit Note Creation	Indicates the option to create debit note records by manual entry of the details.
File Upload	Indicates the option to create bulk debit note records through file upload.

1. In the **Create Receivable/Payable** screen, select the **Debit Note** option and then click the **Bulk File Upload** button. The **File Upload** screen appears.

2. For more information on the procedure of uploading the file, refer User Manual Oracle Banking Digital Experience Corporate File Upload. Use the file template detailed below for upload.

4.2.2.1 **Bulk Debit Note File Template**

The file to be uploaded should have data in a specific sequence. For each debit note, there must be a top row with indicator 'DN', which specifies debit-note-level parameters. For each commodity under the debit note, there must be a row with indicator 'C', which specifies the commodity-level parameters.

Note: Refer this file for the upload file format: 

Field Description

Field Name	Description
The following fields are specific to a debit note. You must add a row for each debit note record.	
Indicator	Enter DN in this field. This is a mandatory field.
Dr. Note Reference Number	Enter the customer's reference number for the debit note. This is a mandatory field.
Link Invoice Number	Enter the invoice reference numbers to be associated with the debit note. You can provide multiple invoice numbers using the pipe separator. Note: The invoice numbers provided here should belong to the same party ID for which the debit note is being uploaded. The invoice numbers provided here should also belong to the same buyer-supplier combination, as that of the debit note. The invoices specified in this field should not have been cancelled. Debit notes cannot be raised against cancelled invoices.
Dr Note Date	Enter the date of creation of the debit note. This date should not be greater than the current business date. It should also not be less than the invoice date. This is a mandatory field.
Dr Note Due Date	Enter the due date of the debit note.
Buyer Code**	Enter the code associated with the buyer.
Supplier Code**	Enter the code associated with the supplier.
Currency*	Enter the debit note currency. A 3-digit currency code as per ISO standards is acceptable. This is a mandatory field.
Base Dr Note Amount*	Enter the gross debit note amount.
Discount Amount	Enter the discount amount applicable on the base debit note amount.

Field Name	Description
Tax Amount	Enter the applicable tax amount.
Net Dr Note Amount*	Enter the net debit note amount, post application of discount and tax. This is a mandatory field. Net Dr Note Amount = Base Dr Note Amount – Discount Amount + Tax Amount
Buyer Division Code	Enter the division code of the buyer.
Supplier Division Code	Enter the division code of the supplier.
Disputed	Enter Y if the debit note is disputed by the buyer, and N , otherwise.
Buyer ID*	Enter the party ID of the buyer.
Supplier ID*	Enter the party ID of the supplier.
Buyer Name	Enter the name of the buyer.
Supplier Name	Enter the name of the supplier.
PreAccepted	Enter Y if the debit note should be deemed as accepted on upload of file, and N , otherwise.
Acceptance Amount	Enter the debit note amount that is accepted by the buyer. This amount should be less than or equal to the Net Dr Note Amount .
Program ID	Enter the ID of the program associated with the debit note. This ID should be the same as the program ID associated with the linked invoices.
Virtual A/c Flag*	Enter Y if the repayment is to be made to a virtual account number, and N if the repayment is to be made to a physical account number.
Repayment Account Number**	Enter the account number to which the repayment is to be made. This field is mandatory if the Virtual A/c Flag is set to Y .
Bank**	Enter the name of the bank linked to the repayment account.
Branch**	Enter the name of the branch linked to the repayment account.
BIC/Routing Code**	Enter the BIC/Routing code of the repayment account.
Funding Request Amount	Enter the amount for which funding is requested. This should be less than or equal to the Acceptance Amount .

Field Name	Description
Adjustment Reason	Enter the reason for adjustment. The available values are: <ul style="list-style-type: none"> • Pricing Error • Allowance/Charge Error • Extension Error • Quantity Contested • Pallet/Container Charge Error • Freight Deducted • Tax Deducted • Items not received
Remarks	Enter any remarks, if applicable.
Shipment Number	Enter the unique reference number of the shipment.
Shipment Date	Enter the date of the shipment.
Shipment Address	Enter the destination address of the shipment.
Shipment Country	Enter the destination country of the shipment.
Reason for Export	Enter the reason for export.
Terms of Sale(Incoterms)	Enter the applicable 3-digit Incoterms code. The available values are: <ul style="list-style-type: none"> • EXW Ex Works • FAS Free Alongside Ship • FCA Free Carrier • FOB Free On Board • CPT Carriage Paid To • CFR Cost and Freight • CIP Carriage and Insurance Paid To • CIF Cost Insurance and Freight • DAP Delivered at Place • DPU Delivered at Place Unloaded • DDP Delivered Duty Paid
Payment Terms	Enter the agreed payment terms.
Country of Origin	Enter the name of the country from where the shipment originated.
The following fields are specific to a commodity. You must add a row for each commodity in the debit note.	
Indicator**	Enter C for a commodity row.

Field Name	Description
Debit Note reference number	Enter the reference number of the debit note. This is a mandatory field.
Invoice Number**	Enter the invoice reference number of the commodity. This number should also be listed in the Linked Invoice Number field of the Debit Note. Note: Only one invoice number is allowed in this field. If the commodity is linked with multiple invoices, then a commodity row should be added for each invoice.
Commodity Code**	Enter the unique code of the commodity. This code should be the same as that present in the linked invoice in the debit note.
Commodity Name	Enter the name of the commodity. This name should be the same as that present in the linked invoice in the debit note.
Quantity**	Enter the quantity of the commodity.
Unit Cost	Enter the cost per unit of the commodity.
Gross Total of Commodity	Enter the total cost of the commodity. Gross Amount = Unit Cost * Quantity
Discount Amount	Enter the discount amount applicable to the commodity.
Tax Amount	Enter the tax amount applicable to the commodity.
Net Amount**	Enter the net amount of the commodity. Net Amount = Gross Total of Commodity – Discount Amount + Tax Amount

[Home](#)

5. View/Edit Receivables/Payables

Using this option, you can view a list of receivables/payables (invoices and debit notes) based on the corporate party's role as a buyer or supplier.

On selection of Buyer view, you can view all the payables as of current date where the corporate party's role is that of a buyer in the program, and on selection of Supplier view, you can view all the receivables as of current date where the party's role is that of a supplier in the program.

Pre-requisites

- For viewing invoices/debit notes - User must have valid corporate login credentials.
- For editing invoices/debit notes - User must have valid corporate login credentials for creation of invoices/debit notes.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables Management > View/Edit Receivables/Payables

OR

Dashboard > Toggle menu > Supply Chain Finance > Overview > Quick Links > View Invoice

To view receivables/payables:

1. In the **Select Role** pop-up window, select either the **Buyer** or the **Supplier** option to view your data in terms of Receivables or Payables.

Select Role pop-up

Field Description

Field Name	Description
Select Role	<p>Select the role of the corporate party to view data in terms of Receivables or Payables.</p> <p>The options are:</p> <ul style="list-style-type: none"> • Buyer • Supplier

2. Click **Proceed**. The **View Receivables/Payables** screen appears.
OR
Click **Cancel** to cancel the transaction.

The screenshot displays the 'View Receivables/Payables' interface. At the top, it shows the 'futura bank' logo and a search bar. The user is logged in as 'nehal joshi' with the last login on 03 Aug 04:48 PM. The main heading is 'View Receivables/Payables' for 'ABZ Solutions | ***462'. There is a 'Switch View' section with 'Buyer' and 'Supplier' buttons. Below this is a search area with a 'Create Receivables/Payables on the go and View instantly' link. The search filters include: 'Select Receivable/Payable' (Invoice, Debit Note, Receipt), 'Reference Number', 'Associated Party Name' (Select), 'Status' (Select), 'Program Name' (Select), 'Due Date' (From, To), 'Amount Range' (please s..., From, To), and 'Payment Status' (Select). There are 'Search' and 'Clear' buttons at the bottom. A copyright notice at the bottom reads: 'Copyright © 2006, 2020, Oracle and/or its affiliates. 5.1 View Invoice Details

This screen appears if you click the **Customer Reference Number** link of a particular invoice in the **View Receivables/Payables** screen. It displays the detailed information of the invoice. You can view the following details:

- Itemized amount details
- Commodity details, if they have been added during creation.
- Reconciliation details, if the invoice has been partially or fully reconciled with payment(s).
- Finance details, if finance has been availed against the invoice.

The party that has raised the invoice can edit, delete or cancel the invoice, from this screen, based on the status of the invoice. The party that is liable to make the payment can accept the invoice, or request finance from this screen.

View Invoice Details

The screenshot displays the 'View Invoice Details' interface for Futura Bank. The header includes the bank logo, a search bar, and user information: 'Welcome, nehal joshi' with a last login of '04 Aug 12:04 PM'. The main content area is titled 'View Invoice Details' and shows the invoice for 'ABZ Solutions | ***462'. It lists various fields such as Host Reference Number (INV78720), Payment Status (Unpaid), Creation Date (01 Jan 2020), Customer Invoice No (Inv293829e), Payment Terms (obdx), Invoice Due Date (28 Feb 2021), Purchase Order No (-), Shipment Date (12 Feb 2021), Product Code (POPD), Program Name (POFinProg), Pre Accepted (Yes), Acceptance Date (09 Jan 2020), and Supplier Details (AugSupp, Supplier Id: ***715, Address: 202, Preston Road, London, GB, 2009). At the bottom, there is a table for 'Amount Details' and 'Commodity Details'.

Particulars	Amount
Invoice Amount	GBP27,126.00
Discount Amount Percent	GBP1,085.04 (@4%)
Tax Amount Percent	GBP3,124.92 (@12%)
Final Invoice Amount	GBP29,165.88
Acceptance Amount	GBP29,165.88
Outstanding Amount	GBP29,165.88

Buttons for 'Cancel' and 'Back' are visible at the bottom of the table. The footer contains the copyright notice: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. [SecurityInformation] Terms and Conditions'.

Finances tab

This tab appears if finances have been availed against the invoice. Multiple finances can be availed for an invoice.

Finance Reference No.	Displays the reference number of the availed finance. This is a hyperlink, which when clicked opens the View Finance details screen. For more information, refer the View Finance Details section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance .
Finance Date	Displays the date when the finance amount was disbursed.
Maturity Date	Displays the date when the finance must be fully repaid.
Interest Rate	Displays the rate of interest charged on the finance.
Financed Amount	Displays the amount that was financed.
Outstanding Amount	Displays the outstanding amount to be paid.
Status	Displays the status of the finance.

The actions that can be performed from the **View Invoice Details** screen, depends on the status of the invoice and payment, and the role of the logged-in corporate party.

- **Accept** – Refer the **Accept Invoice** section under Invoice Management in this document.
- **Edit** - Refer the **Edit Invoice** section under Invoice Management in this document.

- **Cancel** - Refer the **Cancel Invoice** section under Invoice Management in this document.
- **Raise Dispute** - Refer the **Raise Dispute** section under Invoice Management in this document.
- **Resolve Dispute** - Refer the **Resolve Dispute** section under Invoice Management in this document.
- **Assign** - Refer the **Assignment of Invoice** section under Invoice Management in this document.
- **Request Finance** - From the View Invoice Details screen, the borrowing party can request for finance against an invoice that is ACCEPTED or PARTIALLY ACCEPTED, and with payment status being UNPAID or PARTIALLY PAID. The borrowing party can be either buyer or supplier, based on the attributes of the Program linking these parties. An invoice can be fully or partially financed based on the configuration set by the bank, and the configured borrowing limits of the corporate party. Based on whether the invoice is fully or partially financed, the status of the invoice changes to FINANCED or PARTIALLY FINANCED.

Field Description

Field Name	Description
Invoice Details overlay window	
External Invoice Ref No.	Displays the customer's own invoice reference number.
Download	Click to download the invoice in PDF format.
Party name & address	Displays the name and address of the supplier.
Invoice Date	Displays the date on which the invoice has been raised.
Program Name	Displays the program to which the invoice is linked.
To	Displays the name and address of the buyer.
Purchase Order No	Displays the customer's purchase order number.
Purchase Order Date	Displays the date on which the purchase order has been raised.
Balance Due	Displays the invoice due amount along with the currency.
Due Date	Displays the invoice due date.

Field Name	Description
Payment Terms	Displays the agreed terms for payment of the invoice.
Commodity Details	
Name	Displays the name of the commodity.
Code	Displays the code of the commodity.
Quantity	Displays the quantity of the commodity being purchased.
Cost/Unit	Displays the cost per unit of the commodity.
Gross Amount	Displays the gross amount of the commodity along with the currency. It is the product of the entered quantity and cost per unit. Gross Amount = Quantity * Cost/Unit
Discount	Displays the discount applicable to the commodity.
Tax	Displays the tax applicable to the commodity.
Net Amount	Displays the net amount of the commodity. Net Amount = Gross Amount – Discount + Tax
Gross Invoice Amount	Displays the total amount of all the commodities being purchased (gross amount).
Total Discount Value	Displays the total discount amount of all the commodities added. The average discount percentage of all added commodities is also displayed. Total Discount % = (Sum of discount amount of all commodities / Sum of gross amount of all commodities) *100
Total Tax Value	Displays the total tax amount of all the commodities added. The average tax percentage of all added commodities is also displayed. Total Tax % = [Sum of tax amount of all commodities / (Sum of gross amount of all commodities - Sum of discount amount of all commodities)] *100
Net Invoice Amount	Displays the calculated value on basis of discount and tax values entered. Note: The Net Invoice Amount gets auto calculated as follows: Net Invoice Amount = Gross Invoice Amount - Total Discount Value + Total Tax Value

5.2 View Debit Note Details

This screen appears if you click the **Customer Reference Number** link of a particular debit note in the **View Receivables/Payables** screen. It displays the detailed information of the debit note. You can view the following details:

- Itemized amount details
- Commodity details, if they have been added during creation.
- Linked invoices
- Reconciliation details, if reconciled.
- Finances details, if finance has been availed against the debit note.

Field Name	Description
Invoice Amount	Displays the invoice amount.
Financed Amount	Displays the invoice amount that has been financed.
Invoice Status	Displays the status of the invoice.

From the **View Debit Note Details** screen, you can preview and download the debit note.

5.2.1 Preview and Download Debit Note

To preview and download the debit note:

View Debit Note Details

The screenshot displays the 'View Debit Note Details' interface. At the top, there's a navigation bar with 'futura bank' logo, a search bar, and user information: 'Welcome, nehal joshi' with a last login of '04 Aug 08:19 PM'. Below this, the title 'View Debit Note Details' is shown along with 'ABZ Solutions | ***462' and a 'Preview and Download' link. A summary table provides key details:

Host Reference Number	Date	Payment Status	Pre Accepted
423026863004000001 Rated	05 Jan 2020	Unpaid	No

Below the summary, there are three tabs: 'Amount Details', 'Commodity Details', and 'Linked Invoices'. The 'Amount Details' tab is active, showing a table of financial figures:

Particulars	Amount
Debit Note Amount	GBP200.00
Discount Amount	GBP20.00
Percent	-
Tax Amount	GBP20.00
Percent	-
Net Debit Note Amount	GBP200.00
Acceptance Amount	GBP200.00
Outstanding Amount	GBP200.00

At the bottom of the overlay, there are 'Cancel' and 'Back' buttons. The footer contains the copyright notice: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. [SecurityInformation] Terms and Conditions'.

1. In the **View Debit Note Details** screen, click **Preview and Download**. The debit note details overlay window appears. The debit note fields displayed here are the ones entered during the creation of the debit note.

[Home](#)

6. Invoice Management

Using this screen, a corporate user can manage all the invoices associated with the corporate party. The portal provides a single screen to the corporate party, for all possible actions that can be taken on invoices. At present, the following actions can be effected on relevant:

- Accept Invoice
- Edit Invoice
- Cancel Invoice
- Raise Dispute
- Resolve Dispute
- Assignment of Invoices

Pre-requisites

User must have valid corporate login credentials.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables Management > Invoice Management > Manage Invoices

Manage Invoices

The screenshot displays the 'Manage Invoices' interface for 'ABZ Solutions | ***462'. At the top, there are navigation options: 'Raise Dispute', 'Resolve Dispute', 'Assignment of Invoice', 'Edit Invoice', 'Cancel Invoice', and 'Accept Invoice'. Below these are four main action buttons: 'Raise Dispute', 'Resolve Dispute', 'Assignment of Invoice', and 'Edit Invoice' (which shows '227 Invoices').

The main section is titled 'List of Invoices (0 selected)' and features a search bar and a table of invoices. The table has the following columns: Associated Party Name, Invoice Number, Invoice Due Date, Invoice Amount, Comments, and Status.

Associated Party Name	Invoice Number	Invoice Due Date	Invoice Amount	Comments	Status
SQL Corporation	LinkInvMay31	01 May 2026	GBP8,900.00	Type Comment	Accepted
NehNovCust1	POInvoiceNoCommodity	27 Dec 2023	GBP5,183.00	Type Comment	Raised
NehNovCust1	POINV000002	27 Dec 2023	GBP375,983.64	Type Comment	Raised
NehNovCust1	POInvCurDoubUSDCommodity	03 Aug 2023	USD246,234.00	Type Comment	Accepted

At the bottom of the table, there is a pagination control showing 'Page 1 of 38 (1+0 of 227 items)' and a set of navigation buttons: 'Submit', 'Cancel', and 'Back'. The footer contains the copyright notice: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. [SecurityInformation]Terms and Conditions'.

Field Description

Field Name	Description
Manage Invoices	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
	Displays an instruction to select the required action to be effected on the invoice.
Action Links	<p>Select the required action link to be effected on the relevant invoice(s). The options available are:</p> <ul style="list-style-type: none"> • Accept Invoice - For more information, refer the Accept Invoice section below. • Edit Invoice - For more information, refer the Edit Invoice section below. • Cancel Invoice - For more information, refer the Cancel Invoice section below. • Raise Dispute – For more information, refer the Raise Dispute section below. • Resolve Dispute – For more information, refer the Resolve Dispute section below. • Assignment of Invoice – For more information, refer the Assignment of Invoice section below.
Action Tiles	<p>The actions are also presented as tiles. You can either select the link or the tile to perform the required action.</p> <p>On selecting an action link/tile, the number of invoices that can be effected by that action, appears in the respective tile. The List of Invoices section is also updated with the relevant invoice records.</p>

6.1.1 Accept Invoice

Using this option, the corporate party with the role of 'Buyer' can accept invoices to convey the agreement to pay the invoice amounts. You can partially accept the invoice by entering a part of the amount that you wish to accept from the invoice amount. This resets the invoice amount to the remaining value after partial acceptance.

Note: Only the corporate party with the role of **Buyer**, can accept invoices. Also, only those invoices with invoice status as **Raised**, and payment status as **Unpaid**, can be accepted.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables Management > Invoice Management > Manage Invoices

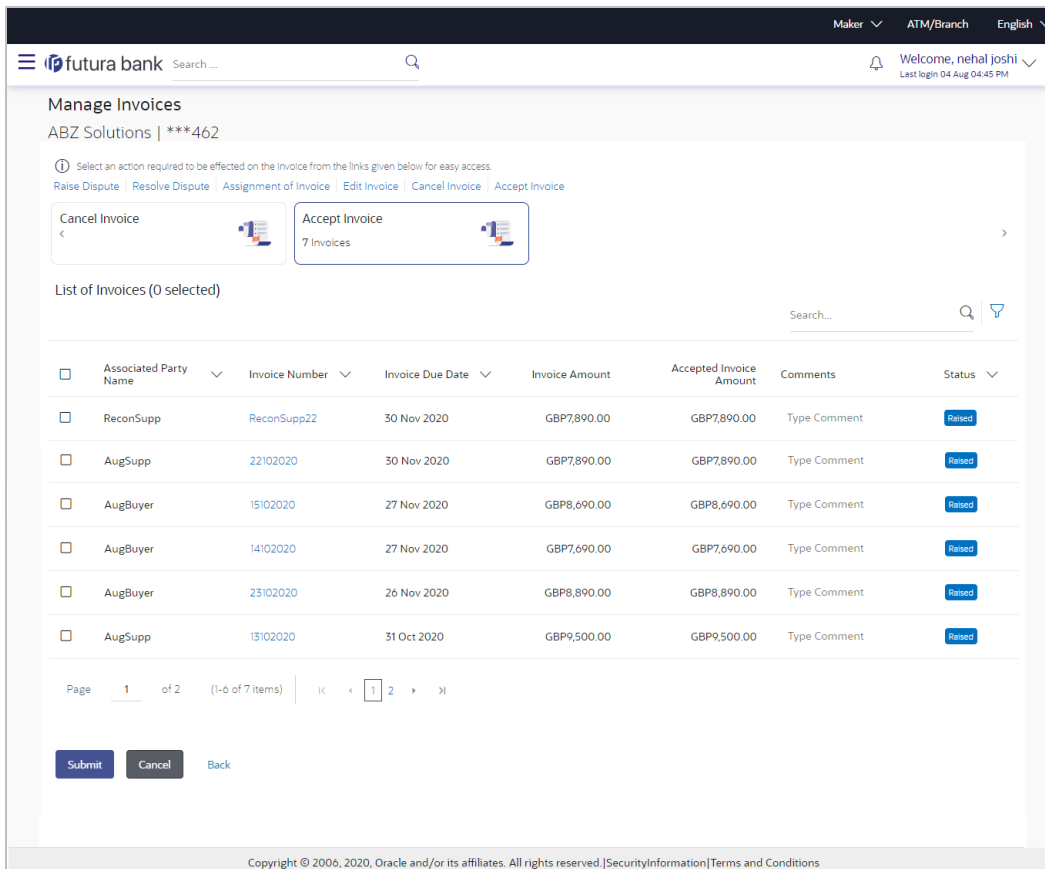

OR

Dashboard > Toggle menu > Receivables/Payables Management > View/Edit Receivables/Payables > Customer Reference Number link of RAISED invoice

To accept invoice(s):

1. In the **Manage Invoices** screen, either click the **Accept Invoice** link or click on the respective tile. A list of invoices that are in the Raised status, appear.

Manage Invoices – Accept Invoice action selected

Field Description

Field Name	Description
Manage Invoices – Accept Invoice	
List of Invoices (number selected)	This section displays a list of invoices against which ‘Accept Invoice’ action can be effected. Once you select one or more invoices to accept, the number of invoices selected is also displayed.
Search	Enter the partial or full invoice reference number / associated party name / status to search for specific invoices. The results appear as and when you enter the data.
	Click this icon to filter the invoices, and narrow down the list. For more information, refer the Invoice Search (overlay window) section below.

Field Name	Description
Check Box	<p>To select all the invoices in the list, select the main check box. To select specific invoices, select the check boxes beside those invoices. If you select more than one invoice, the following message appears:</p> <p> You may add comments for all selected invoices. Click Here.</p> <p>Click the Click Here link to add relevant comments for all selected invoices. A pop-up window appears. Add relevant comments. Click Apply to apply the same, or Cancel to cancel adding the comments.</p>
Associated Party Name	Displays the name of the associated party linked with the invoice.
Invoice Number	Displays the unique reference number of the invoice. The reference number is a hyperlink, which when clicked, displays the invoice details in an overlay window.
Invoice Due Date	Displays the date on which the invoice must be fully paid.
Invoice Amount	Displays the total invoice amount.
Accepted Invoice Amount	<p>Indicates the invoice amount that is acceptable to the buyer. By default, the total invoice amount is displayed in this field.</p> <hr/> <p>Note: The invoice can be partially accepted, as follows:</p> <ol style="list-style-type: none"> 1) Select the check box beside the invoice to be partially accepted. 2) Click  and enter the amount that you wish to accept. 3) Click  to save the entered amount. <hr/>
Comments	<p>Enter the remarks if any while accepting the invoice.</p> <hr/> <p>Note: Remarks are mandatory in case of partially accepting the invoice.</p> <hr/>
Status	Displays the status of the invoice.

The screenshot displays the 'Manage Invoices' screen for 'ABZ Solutions | ***462'. It features a navigation bar with 'futura bank' and user information. Below the header, there are action buttons: 'Cancel Invoice' and 'Accept Invoice (7 Invoices)'. A table lists invoices with columns: Associated Party Name, Invoice Number, Invoice Due Date, Invoice Amount, Accepted Invoice Amount, Comments, and Status. Two invoices are selected (checked):

Associated Party Name	Invoice Number	Invoice Due Date	Invoice Amount	Accepted Invoice Amount	Comments	Status	
ReconSupp	ReconSupp22	30 Nov 2020	GBP7,890.00	GBP7,890.00	Type Comment	Raised

<input type="checkbox"/>	AugSupp	13102020	31 Oct 2020	GBP9,500.00	GBP9,500.00	Type Comment	Raised

At the bottom, there are 'Submit', 'Cancel', and 'Back' buttons. The footer contains copyright information: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

2. Click **Submit**, once you select the required invoice(s), update the **Accepted Invoice Amount** field, and enter relevant comments. The Review screen appears.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to go to the previous screen.
3. Review the details and click **Confirm**. A confirmation message appears with the reference number and status of the transaction.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to go to the previous screen.

6.1.2 Edit Invoice

Using this option, the supplier can modify the due date of an invoice.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables Management > Invoice Management > Manage Invoices

OR

Dashboard > Toggle menu > Receivables/Payables Management > View/Edit Receivables/Payables > Customer Reference Number link of RAISED invoice

To edit invoice(s):

1. In the **Manage Invoices** screen, either click the **Edit Invoice** link or click on the respective tile. A list of relevant invoices appear.

Manage Invoices – Edit Invoice action selected

The screenshot shows the 'Manage Invoices' interface for 'ABZ Solutions | ***462'. At the top, there are navigation options: 'Maker', 'ATM/Branch', and 'English'. The user is logged in as 'Welcome, nehal joshi' with a last login time of '04 Aug 04:45 PM'. Below the header, there are four action tiles: 'Raise Dispute', 'Resolve Dispute', 'Assignment of Invoice', and 'Edit Invoice' (which is selected and shows '227 Invoices').

Below the tiles, there is a 'List of Invoices (0 selected)' section with a search bar. The table below lists several invoices:

Associated Party Name	Invoice Number	Invoice Due Date	Invoice Amount	Comments	Status
SQL Corporation	LinkInvMay28	04 May 2030	GBP8,900.00	Type Comment	Accepted
NehNovCust1	InvJuly1422	15 Jul 2026	GBP8,000.00	Type Comment	Overdue

<input type="checkbox"/>	NehNovCust1	POInvoiceSingleCommodity	03 Aug 2023	GBP42,046.00	Type Comment	Raised

At the bottom of the table, there is a pagination control showing 'Page 1 of 38 (1-6 of 227 items)' and buttons for 'Submit', 'Cancel', and 'Back'.

2. Click **Submit**, once you select the required invoice(s), update the **Invoice Due Date** field, and enter relevant comments. The Review screen appears.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to go to the previous screen.
3. Review the details and click **Confirm**. A confirmation message appears with the reference number and status of the transaction.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to go to the previous screen.

6.1.3 Cancel Invoice

Using this option, the supplier can cancel an invoice. This action can only be performed on invoices in the RAISED and UNPAID status.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables Management > Invoice Management > Manage Invoices

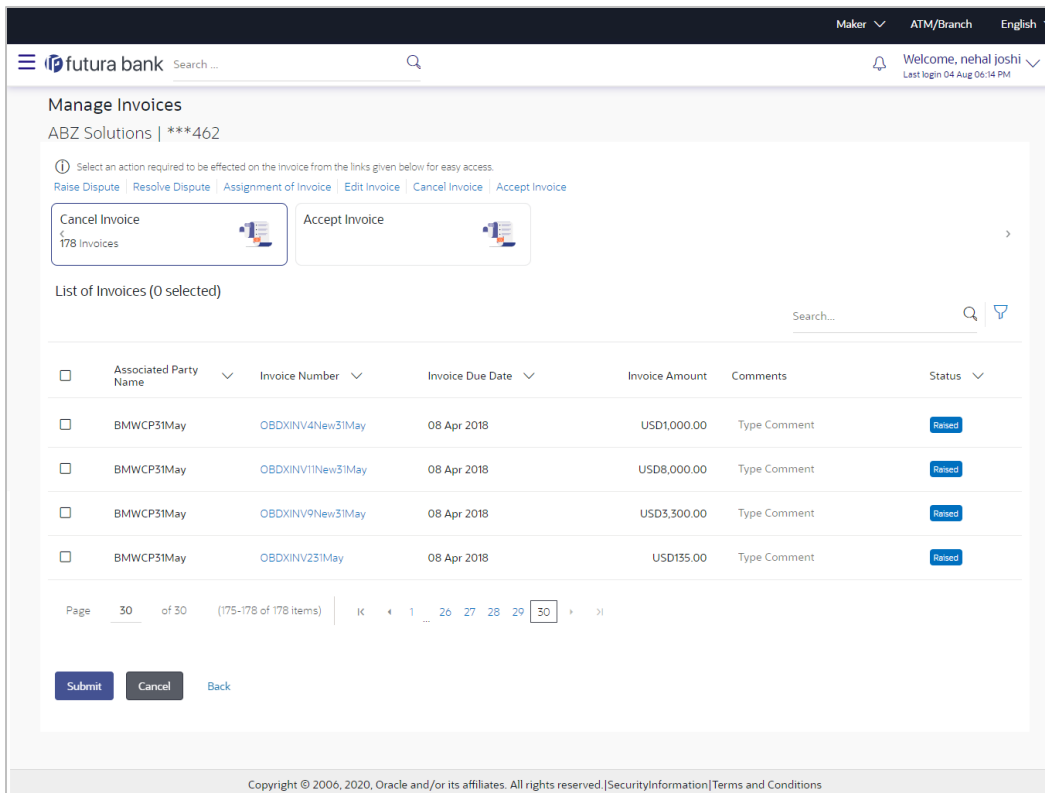

OR

Dashboard > Toggle menu > Receivables/Payables Management > View/Edit Receivables/Payables > Customer Reference Number link of RAISED invoice

To cancel invoice(s):

1. In the **Manage Invoices** screen, either click the **Cancel Invoice** link or click on the respective tile. A list of invoices that are in the Raised status, appear.

Manage Invoices – Cancel Invoice action selected

Field Name	Description
Status	<p>Indicates an option to search for invoices based on their status.</p> <ul style="list-style-type: none"> The status is set to Disputed by default, when filtering invoices for Resolve Dispute. The status cannot be edited in this case. The status is set to Raised, by default, when filtering invoices for Cancel Invoice, or Accept Invoice. The status cannot be edited in these cases.

FAQ

1. Who can create an Invoice?

An invoice can be created into the banks system by a supplier or a buyer, with valid login credentials. If the invoice is being created by a buyer then the pre-acceptance flag gets defaulted as 'Yes' as it is implied that the buyer is accepting the invoice. If the invoice is being raised by a supplier, then the pre-acceptance flag can be set to yes or no based on the user's requirement.

1. Can I create multiple invoices for different buyers?

Yes, a corporate can create multiple invoices online for different buyers.

2. How many invoices can I create at a time?

There is no upper limit for creation of multiple invoices at one time. User can create as many invoices as required.

3. How many templates can I save in total?

There is no limit set for maximum number of templates that can be created.

[Home](#)

7. Credit Notes

In general, a Credit Note can be interpreted as a receipt or an invoice given by a shop to a customer who has returned goods. This can then be offset against future purchases. It is essentially an instruction to debit the supplier and credit the buyer. Credit notes may be raised under the following circumstances:

- The supplier fails to deliver goods of the same value as the buyer's payment, assuming that the buyer has made an advance payment.
- The rate charged on an earlier invoice is higher than the actual rate.
- The buyer pays prior to the due date leading the supplier to provide a discount by way of a credit note.
- Items (commodities) raised in the invoice are returned by the buyer.

Pre-requisites

User must have valid corporate login credentials.

Note: The Credit Notes Transactions are only supported on **Desktops/Laptops** and on **Landscape** mode of **Tablet** devices.

7.1 Create Credit Note

Credit note records can be created by direct online entry or in bulk through file upload.

7.1.1 Online Credit Note Creation

Using this option, corporate users can create single or multiple credit notes online. Post submission of the credit note, an option is provided to save the content as a Template. The template can be reused for creating credit notes for the same program and associated corporate party.

Once the user creates credit notes, they must be approved by an approver (if the approval flow has been set). The designated corporate approver is notified. The approver can either approve or reject the transaction. In case of rejection, the approver can send the transaction back to the corporate user (maker) to make the required modifications and re-submit it for approval.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables Management > Create Credit Note

Create Credit Note

Field Description

Field Name	Description
Create Credit Note	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Online Credit Note Creation	Indicates the option to create credit note records by manual entry of the details.
File Upload	Indicates the option to create bulk credit note records through file upload.

7.1.1.1 Online Credit Note Creation (manual entry)

A corporate user, based on their role, can create one or more credit notes in one single transaction.

To create credit note(s):

1. In the **Create Credit Note** screen, click **Create New Credit Note** to create credit note records manually. The **New Credit Note** tab appears.

New Credit Note

Field Description

Field Name	Description
Create Credit Note	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
New Credit Note	
Facing difficulty in entering data for multiple Credit Note? Use Bulk Upload	Click the Use Bulk Upload link to navigate to the File Upload screen for creating credit notes in bulk.
Customer Credit Note Number	Enter the customer's own reference number for the credit note.
Associated Party	Select the associated party to link the credit note to. A list of all on-boarded associated parties is available for selection. On selecting an associated party, the role of the party as Buyer or Supplier , appears below this field.
Program Name	Select the program to which the credit note should be linked. Programs linked to the selected associated party are listed.
Auto Accept	Displays the number of days post creation when the credit note will be deemed as accepted. This field appears on selecting a program. It is displayed only if auto-acceptance is enabled at the program-level. For more information on programs, refer the Create Program section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance.

Field Name	Description
Auto Finance	Displays whether the credit note will be auto financed or not. This field appears on selecting a program. It is populated based on the auto finance setting in the program definition. For more information on programs, refer the Create Program section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance.
Credit Note Amount	Select the credit note currency and enter the gross credit note amount (not including tax or discount).
Credit Note Date	Click the calendar icon and select the date of creation of the credit note.
Expiry Date	Click the calendar icon and select the date on which the credit note expires. The Expiry Date should be greater than or equal to the Credit Note Date .
Adjustment Reason	Select the reason for adjusting the invoice amount.
Linked Invoice Number	Select the invoice that should be linked to the credit note. Once you link invoice(s), the Populate Commodity Details from Invoice toggle is enabled, and the commodities from the invoice(s) appear in the Commodity Details grid of the credit note.
Populate Commodity Details from Invoice	This toggle is automatically enabled when you link invoices to the credit note in the Linked Invoice Number field. The Commodity Details section gets populated with the commodities from the linked invoice(s), when this toggle is enabled. Switch this toggle off in case you want to remove the commodities from the credit note.

2. Once you enter the above details, you can optionally add/modify the commodity details.
 - a. To add a commodity record, click **Add**. An overlay window appears, where you can capture the commodity details.
 - b. To modify an existing commodity record, click .
 - c. To delete a commodity record, click .

Add Commodity Details

The **Add Commodity Details** overlay window appears when you click **Add** in the **Commodity Details** section.

Field Description

Field Name	Description
Add Commodity Details	
Name	Enter the name of the commodity for which the credit note is being raised.
Code	Enter the code of the commodity.
Quantity	Enter the quantity of the commodity for which the credit note is being raised.
Cost/Unit	Specify the cost per unit of the commodity.
Gross Amount	Enter the gross commodity amount. It also gets auto calculated if quantity and cost per unit are entered. It is the product of the entered quantity and cost per unit. Gross Amount = Cost/Unit * Quantity
Discount	Enter any discount offered on the commodity. You can either enter the percentage of discount (in the first field) or the actual discount amount (in the second field). When you enter any one of these values, the other value is automatically calculated and displayed. Click  to reset the values.

Field Name	Description
Tax	Enter any tax charged on the commodity. You can either enter the percentage of tax (in the first field) or the actual tax amount (in the second field). When you enter any one of these values, the other value is automatically calculated and displayed. Click  to reset the values.
Net Amount	Displays the net amount of the commodity. It is automatically calculated as follows: Net Amount = Gross Amount – Discount + Tax
Create Copy	Select this check box to create a copy of the commodity details entered.

On clicking the **Add** button, a commodity record is created in the **Commodity Details** section.

3. You can further add commodities by clicking **Add**, and filling out the required details.

Field Description

Field Name	Description
Commodity Details	This section displays the commodity detail records, once you add them. Multiple commodities can be added.
Linked Invoice Number	Displays the invoice number of the commodity.
Name	Displays the name of the commodity.
Code	Displays the code of the commodity.

Field Name	Description
Quantity	Displays the quantity of the commodity.
Cost/Unit	Displays the cost per unit of the commodity.
Gross Amount	Displays the total gross amount of the commodity. It is the product of the entered quantity and cost per unit. Gross Amount = Cost per unit * Quantity
Discount	Displays the discount amount and percentage offered on the commodity.
Tax	Displays the tax amount and percentage charged on the commodity.
Net Amount	Displays the net amount of the commodity. It is automatically calculated as follows: Net Amount = Gross Amount – Discount + Tax
Actions	Indicates the actions that can be performed on the commodity record. <ul style="list-style-type: none"> • Click  to edit the record. • Click  to remove the record.

The following fields are present below the Commodity Details section, and are applicable at the invoice-level.

Gross Credit Note Amount	Displays the total gross amount of all the added commodities.
Discount	Displays the total discount amount of all the commodities added. The average discount percentage of all added commodities is also displayed. Click  to reset the values. Total Discount % = (Total discount amount / Total debit note amount) *100 Note: When commodity records are added, the discount value of each commodity is aggregated and populated here. This value cannot then be modified. However, if commodity records are not added, then this field is editable and the discount value or percentage can be entered here.

Field Name	Description
Tax	<p>Displays the total tax amount of all the commodities added. The average tax percentage of all added commodities is also displayed.</p> <p>Click  to reset the values.</p> <p>Total Tax % = (Total tax amount / Total debit note amount) *100</p> <p>Note: When commodity records are added, the tax value of each commodity is aggregated and populated here. This value cannot then be modified. However, if commodity records are not added, then this field is editable and the tax value or percentage can be entered here.</p>
Miscellaneous Charges	<p>Add the name and amount of any other miscellaneous charge applicable.</p> <p>Use  to add another charges. A maximum of 2 miscellaneous charges can be added.</p> <p>Click  to reset the values.</p>
Net Credit Note Amount	<p>Displays the overall credit note amount that is owed to the buyer.</p> <p>Note: The Net Credit Note Amount gets automatically calculated as follows: Net Credit Note Amount = Gross Credit Note Amount - Discount Value + Tax Amount</p>
	<p>Indicates an option to reset the fields. This icon is present on the top right corner of the screen.</p>

4. Modify the amount in the **Credit Note Amount** field above the Commodity Details section, to match the **Gross Credit Note Amount**, of all commodities.
5. Click **Save** to save the debit note.
OR
Click **Save and Copy** to save the credit note and to create an editable copy.
OR
To clear the fields, click the  icon in the top right side of the screen.

Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. [SecurityInformation] Terms and Conditions

Note: On clicking the **Save** button, the credit note being created appears in a panel with  in the top right corner. Click this icon to edit / copy / delete the credit note, if required.

6. To create another new credit note in the transaction, click the **Add Credit Note** link.
 - a. Add required details as mentioned in the steps above.
7. Click **Submit** to submit the transaction, once all required credit notes have been added. The Review screen appears.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to the previous screen.

8. In the Review screen, verify the details and click **Confirm**. A confirmation message appears with the reference number and status of the transaction.
- OR
- Click **Cancel** to cancel the transaction.
- OR
- Click **Back** to navigate back to the previous screen.

Create Credit Note – Confirmation Screen

Note: You can view the details of the credit note just created, by clicking the '**Click here to view status of Credit Note**' link.

9. Click the **Save as Template** link to save the details of the created credit note as a template.
OR
Click the **View Credit Note** link to view the details of existing credit notes. The **View Credit Note** screen appears.
OR
Click the **Create Credit Note** link to create another credit note.
OR
Click the **Go To Dashboard** link to go to the main dashboard.

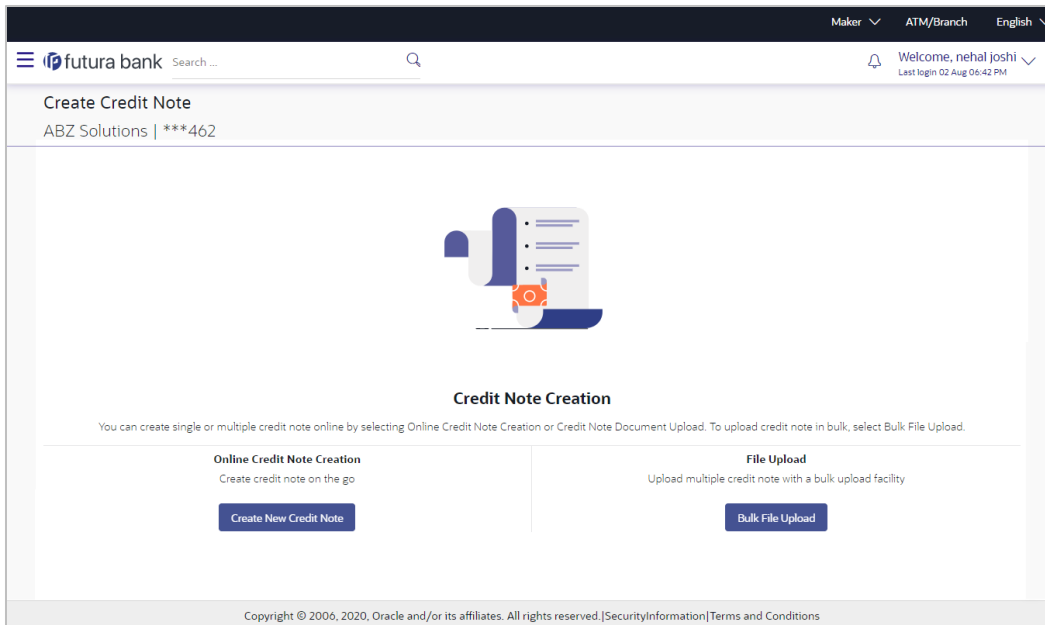

7.1.1.2 Create Credit Notes using Templates

You can save the data entered during credit note creation, as a template. This option is available upon successful creation of a credit note. You can use this template in the future to create credit notes for the same program and associated party. This saves the efforts of re-entering the data.

How to reach here:

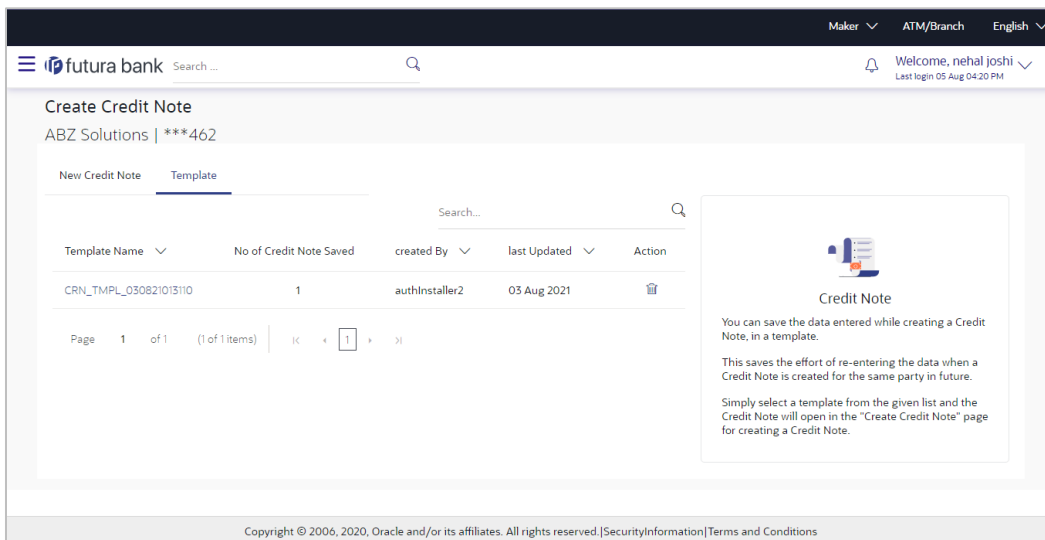

Dashboard > Toggle menu > Receivables/Payables Management > Create Credit Note

To view and use templates for creation of credit notes:

1. On navigating to the **Create Credit Note** screen, click **Create New Credit Note**. The **Create Credit Note** screen appears.
2. Click the **Template** tab. A list of existing templates appear.

Create Credit Note – Template tab

Field Description

Field Name	Description
Search	Enter the partial or full name of the template to search for specific templates. As you type the name, the relevant templates appear in the list.
Template Name	Displays the name of the credit note template, as a hyperlink. Click this hyperlink to open the New Credit Note screen, with the template details populated in the respective fields.
No. of Credit Note Saved	Displays the number of credit notes saved under the template.
Created By	Displays the name of the corporate user who created the template.
Last Updated	Displays the last updated date of the credit note template.
Action	Click  to delete the credit note template.

3. Navigate through the pages to the required template, or use the **Search** field to find a specific template.
4. Click the desired **Template Name** link. The template details are populated in the **New Credit Note** tab.
OR
Click  against the template to delete the existing credit note template. A popup message appears to confirm the deletion.
 - a. Click **Yes** to delete the credit note template.
OR
Click **No** to cancel the deletion of the credit note template.
5. Add or modify the required details.
6. Click **Save** to save the credit note.
OR
Click the **Save and Copy** link to create a copy of the credit note in editable mode.
OR
Click the **Add Credit Note** link at the bottom of the screen, to add another credit note.
OR
Click  at the top right corner of a credit note, to delete it.
OR
Click  at the top right corner of a credit note, to clear the existing data.
7. Click **Submit** to submit the transaction. The Review screen appears.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to the previous screen.
8. In the Review screen, verify the details, and click **Confirm**. A confirmation message appears with the reference ID and status of the transaction.
OR
Click **Cancel** to cancel the transaction.

OR
Click **Back** to navigate back to the previous screen.

7.1.2 Bulk Credit Note Creation

Credit note records can be created in bulk through file upload.

How to reach here:

Dashboard > Toggle Menu > File Upload > File Upload

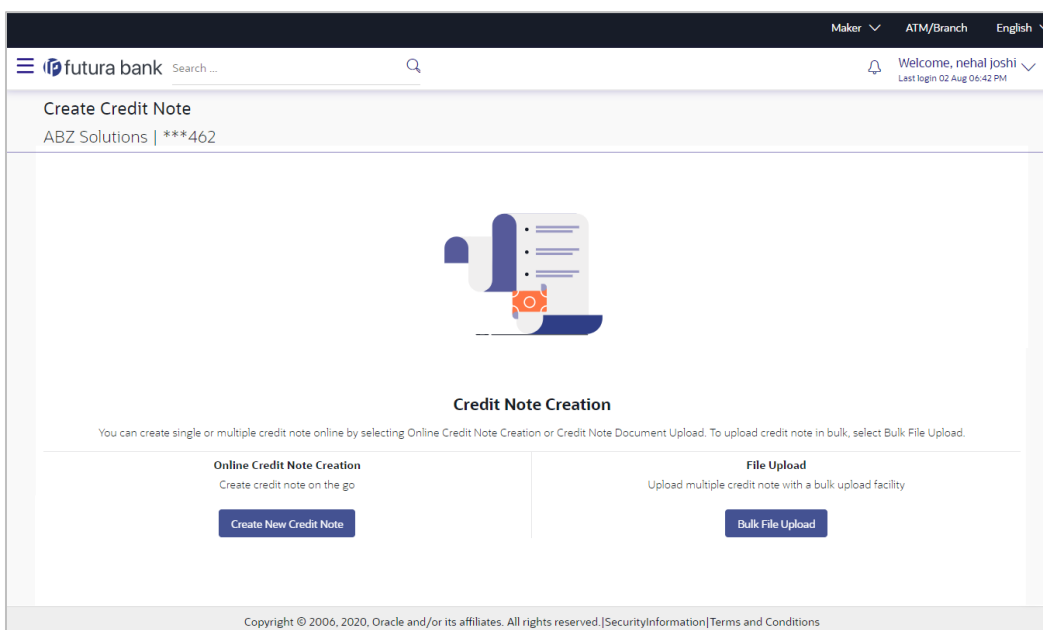

OR

Dashboard > Quick Links > File Upload

OR

Dashboard > Toggle menu > Receivables/Payables Management > Create Credit Note

To create credit notes in bulk:

Field Description

Field Name	Description
Create Credit Note	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Online Debit Note Creation	Indicates the option to create credit note records by manual entry of the details.
File Upload	Indicates the option to create bulk credit note records through file upload.

1. In the **Create Credit Note** screen, click **Bulk File Upload**. The **File Upload** screen appears.

- For more information on the procedure of uploading the file, refer User Manual Oracle Banking Digital Experience Corporate File Upload. Use the file template detailed below for upload.

7.1.2.1 Bulk Credit Note File Template

The file to be uploaded should have data in a specific sequence. For each credit note, there must be a top row with indicator 'CN', which specifies credit-note-level parameters. For each commodity under the credit note, there must be a row with indicator 'C', which specifies the commodity-level parameters.

Note: Refer this file for the upload file format: 

Field Description

Field Name	Description
	The following fields are specific to a credit note. You must add a row for each credit note record.
Indicator	Enter CN in this field. This is a mandatory field.
Cr. Note Reference Number	Enter the customer's reference number for the credit note. This is a mandatory field.
Link Invoice Number	Enter the invoice reference numbers to be associated with the credit note. You can provide multiple invoice numbers using the pipe separator. Note: The invoice numbers provided here should belong to the same party ID for which the credit note is being uploaded. The invoice numbers provided here should also belong to the same buyer-supplier combination, as that of the credit note. The invoices specified in this field should not have been cancelled. Credit notes cannot be raised against cancelled invoices.
Cr Note Date	Enter the date of creation of the credit note. This date should not be greater than the current business date. It should also not be less than the invoice date. This is a mandatory field.
Cr Note Expiry Date	Enter the expiry date of the credit note.
Buyer Code**	Enter the code associated with the buyer.
Supplier Code**	Enter the code associated with the supplier.
Currency*	Enter the credit note currency. A 3-digit currency code as per ISO standards is acceptable. This is a mandatory field.
Base Cr Note Amount*	Enter the gross credit note amount.

Field Name	Description
Discount Amount	Enter the discount amount applicable on the base credit note amount.
Tax Amount	Enter the applicable tax amount.
Net Cr Note Amount*	Enter the net credit note amount, post application of discount and tax. This is a mandatory field. Net Cr Note Amount = Base Cr Note Amount – Discount Amount + Tax Amount
Buyer Division Code	Enter the division code of the buyer.
Supplier Division Code	Enter the division code of the supplier.
Buyer ID*	Enter the party ID of the buyer.
Supplier ID*	Enter the party ID of the supplier.
Buyer Name	Enter the name of the buyer.
Supplier Name	Enter the name of the supplier.
Program ID	Enter the ID of the program associated with the credit note. This ID should be the same as the program ID associated with the linked invoices.
Adjustment Reason	Enter the reason for adjustment. The available values are: <ul style="list-style-type: none"> • Pricing Error • Allowance/Charge Error • Extension Error • Quantity Contested • Pallet/Container Charge Error • Freight Deducted • Tax Deducted • Items not received
Remarks	Enter any remarks, if applicable.
The following fields are specific to a commodity. You must add a row for each commodity in the credit note.	
Indicator**	Enter C for a commodity row.
Credit Note reference number	Enter the reference number of the credit note. This is a mandatory field.

Field Name	Description
Invoice Number**	Enter the invoice reference number of the commodity. This number should also be listed in the Linked Invoice Number field of the credit note. Note: Only one invoice number is allowed in this field. If the commodity is linked with multiple invoices, then a commodity row should be added for each invoice.
Commodity Code**	Enter the unique code of the commodity. This code should be the same as that present in the linked invoice in the credit note.
Commodity Name	Enter the name of the commodity. This name should be the same as that present in the linked invoice in the credit note.
Quantity**	Enter the quantity of the commodity.
Unit Cost	Enter the cost per unit of the commodity.
Gross Total of Commodity	Enter the total cost of the commodity. Gross Amount = Unit Cost * Quantity
Discount Amount	Enter the discount amount applicable to the commodity.
Tax Amount	Enter the tax amount applicable to the commodity.
Net Amount**	Enter the net amount of the commodity. Net Amount = Gross Total of Commodity – Discount Amount + Tax Amount

7.2 View Credit Note

Using this option, corporate users can view the credit notes, with respect to the corporate's role as buyer or supplier.

How to reach here:

8. Associated Party Management

8.1 Introduction

The features built for the corporate user in Associated Party Management are as follows-

- On-board Associated Party
- View Associated Party

Note: The Associated Party Management module is only supported on **Desktops/Laptops** and on **Landscape** mode of **Tablet** devices.

8.2 Onboard Associated Party

On-boarding an Associated Party refers to introducing your trade partner to the Supply Chain Finance or Cash Management system. This is the first step in supply chain finance or cash management business. The Associated Party is the other party in the trade of the Corporate, who may or may not be a customer of the bank. The associated party could be a buyer or a supplier.

Using this option, you can on-board your associated party so that you can link your party to the program for Supply Chain Finance business or add your receivables or payables through Cash Management module against the Associated Party. The Associated Party that is on-boarded can be a customer of the bank or may not be the customer of the bank. This is identified by Back Office through a de-dupe check run on the party's details.

Pre-requisites

User must have valid corporate login credentials.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables Management > Associated Party Management > Onboard Associated Party

OR

*Dashboard > Toggle menu > Receivables/Payables Management > Associated Party Management > View Associated Parties > **Onboard new** link*

OR

Dashboard > Toggle menu > Supply Chain Finance > Overview > Quick Links > Onboard Associated Party

To on-board a new associated party:

Step1- Associated Party Details

1. The Step1 - **Associated Party Details** screen appears.

Onboard Associated Party- Associated Party Details

Field Description

Field Name	Description
Onboard Associated Party – Associated Party Details step	
Party Name and ID	Displays the name and ID of the logged-in corporate party.
Role of Associated Party	Specify the role of the associated party. The options are: <ul style="list-style-type: none"> • Buyer • Supplier
Buyer Code	Enter the buyer code. This field is displayed, only if the Buyer option is selected in the Role of Associated Party field.
Supplier Code	Enter the supplier code. This field is displayed, only if the Supplier option is selected in the Role of Associated Party field.

Field Name	Description
Party Name	Enter the name of the associated party to be on-boarded.
Short Name	Enter the short name of the associated party.
Category Of Corporate	Select the category that the associated party falls under. The options are: <ul style="list-style-type: none"> • Others • Partnership firm • Public Limited Company • Private Limited Company
Corporate Registration Number	Enter the registration number of the associated party.
Tax Registration Number	Enter the tax registration number of the associated party.
Global Intermediary Identification Number	Enter the GIIN that has been issued by the IRS, if relevant.
Auto Accept Invoice	Enable this option to set invoices to be auto accepted for the associated party. The options are: <ul style="list-style-type: none"> • Yes • No
Number of days for auto acceptance	Enter the number of days after which the 'raised' invoices are deemed as 'accepted'. This field appears only if the Yes option is selected in the Auto Accept Invoice field.

- Once you enter the required data in the Associated Party Details step, click **Next**, to proceed to the **Communication Details** step.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to the previous screen.

Step2 - Communication Details

- The Step 2- **Communication Details** screen appears.

Onboard Associated Party- Communication Details

The screenshot shows the 'Onboard Associated Party - Communication Details' form in the Futura Bank system. The form is divided into two main sections: 'Associated Party Details' (marked as completed) and 'Communication Details' (the current step). The 'Communication Details' section includes fields for Landline Number, Fax, Mobile Number, Email ID, and Registered Address. A callout box on the right provides information about the Associated Party, stating that it is a commercial trade partner who is not a customer of the bank and must undergo KYC. The form also includes a 'Submit' button and a 'Cancel' button.

Field Description

Field Name	Description
Onboard Associated Party – Communication Details step	
Landline Number	Enter the landline number of the associated party.
Add Fax	Click the Add Fax link to add the fax number of the associated party. To delete the added fax number, click .
Mobile Number	Enter the mobile number of the associated party along with the country code.
Email ID	Enter the email ID of the associated party.

Field Name	Description
Preferred Communication Mode	Select the preferred mode for communication with the associated party. The options are: <ul style="list-style-type: none"> • Email • Mobile
Registered Address	
Address Line 1- 2	Enter lines 1 and 2 of the registered address of the associated party.
Country	Select the country of the associated party.
State	Select the state of the associated party.
City	Enter the city where the associated party is based in.
PIN Code	Enter the pin code of the associated party.
Communication Address	
Same as Registered Address	Select the check box if you wish to use the registered address as the communication address.
Below fields are enabled only if the Same as Registered Address check box is unchecked.	
Address Line 1- 2	Enter lines 1 and 2 of the communication address of the associated party.
Country	Select the country of the associated party.
State	Select the state of the associated party.
City	Enter the city where the associated party is based in.
PIN Code	Enter the pin code of the associated party.

- Once you enter the required details in the **Communication Details** step, click **Submit** to onboard your associated party. The Review screen appears.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to the previous screen.

- In the Review screen, verify the details, and click **Confirm**. A confirmation message of request initiation for on-boarding the associated party appears, along with the reference number and status of the transaction.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to the previous screen.

Onboard Associated Party – Confirmation

4. In the Confirmation screen, click the **View Associated Parties** link to view the details of existing associated parties.
OR
Click the **Onboard Another Associated party** link to on-board a new associated party.

FAQ

1. Who is an Associated Party?

The Corporate party's customer with whom they trade is their associated party. In Supply Chain Finance parlance, the customer added in the Program by an Anchor (logged-in corporate party) is termed as Associated Party. This customer needs to be on-boarded as an associated party before linking to the Program.

2. What if the Associated Party is a customer of the Bank?

The Associated Party may or may not be a customer of the bank. If the Anchor wants to link an associated party to a program, then the associated party must first be on-boarded to the system.

3. If the Associated Party is an existing customer of the Bank, will the on-boarding of this party create a new party ID for them?

When the associated party is on-boarded and the details are submitted to the Bank's Supply Chain Finance system, a de-dupe check is performed. During this de-dupe check, if the Supply Chain Finance system identifies the associated party as an existing customer then the existing party ID itself is assigned, else a new party ID is assigned.

4. Can the Associated Party get portal access for Supply Chain Finance / Cash Management?

Yes, the associated party will get portal access for Supply Chain Finance / Cash Management.

5. How will the associated party get OBDX portal access, if they are not a customer of the Bank?

The associated party who is not a customer of the Bank, has a party ID assigned by the back office. This party ID resides in the Supply Chain Finance or Cash Management back office system. OBDX portal access can be given to a non customer party ID that is residing in the Supply Chain Finance or Cash Management back office system. Details are explained in the 'OBDX Channel access to Associated Parties (Non Customer)' section of this document.

8.3 KYC Documents Upload

This feature allows the associated party corporate who is not a customer of the bank, to upload its KYC documents. The bank then can complete the KYC validity of the corporate using the documents.

The Associated Party who is non-customer, receives a link on its email id. The associated party then needs to access the link which will redirect the corporate to the browser where it will direct or guide the associated party to upload the documents. On submitting the documents, the same are stored in the document management system and the content id is conveyed to the Bank who can then access these documents using the content id.

To upload KYC documents:

1. On successful on-boarding of the associated party (who is not a customer of the Bank), the Bank sends a link to upload KYC documents on the associated party's email ID (which is captured during the on-boarding).
2. Click the link in the email. The screen to upload KYC documents appears.

Onboard Associated Party- Success screen

8.4 OBDX Channel access to Associated Parties (Non Customer)

The on-boarded associated parties are allowed to transact on the same portal for raising invoices, effecting and accepting payments, availing finances and performing other transactions. The associated parties that are customers of the Bank, are provided with channel access as per BAU and can have access to business transactions.

Parties that are NOT customers of the Bank are also provided channel access. A feature is built-in for the Bank Admin to provide the required access.

The workflow or steps to be followed to provide access to a Non Customer Party ID is the same as that of a Customer of the Bank. All the features of the OBDX framework namely, User Management, Limits and Approvals, corporate admin and Audit Log are applicable to this Party ID too. For more details, refer **User Manual Oracle Banking Digital Experience Core**. Pre-shipped roles such as Non Customer Maker, Non Customer Checker and Non Customer Viewer are available along with relevant dashboards. For more details, refer **User Manual Oracle Banking Digital Experience Corporate Customer Services**.

Mandatory Role Transaction Mapping (RTM) should be done by the admin for the pre-shipped roles.

Access to the following is recommended;

- Supply Chain Finance, Invoice Management, Associated Party Management, Purchase Order Management, Cash Management – All Transactions.
- Customer Servicing – Aggregator, Limits, User Limits.
- Essentials – Mails
- Widgets – Inside Corporate, Dashboard quick links, Finance Maturing, Invoice Time line, Overdue Finances, Overdue Invoices, Top Programs, Limits Widget.

If access to any other transactions is given to the non-customer user, then those transactions are reflected in the hamburger menu but since the customer does not have an account in the Bank the other screens will not have any data displayed.

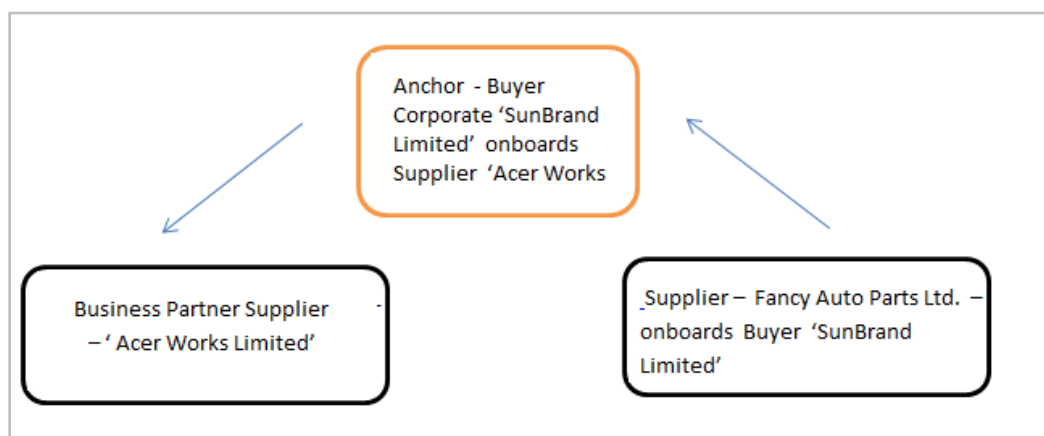

The Bank Admin can define which transactions are to be accessible to a non-customer through RTM. Similarly, bank admin can either enable or disable the corporate admin feature for non-customers. Access of Create Program and On-board Associated Party are NOT given in the RTM if these functionalities are not supported by the host.

8.5 View Associated Parties

Corporate will get a view of all its associated parties through 'View Associated Parties' screen. All its customers on-boarded by the Corporate can be viewed on this screen. Corporate will also be able to view its Anchors here.

Illustration –

Parties Involved:

Explanation:

Corporate SunBrand Limited logs on to the Portal and navigates to 'View Associated Parties, then both the corporates 'Acer Works Limited' who is the associated party of 'SunBrand Limited' and 'Fancy Auto Parts Limited' who has on-boarded 'SunBrand Limited' will be displayed.

The details of each of the associated party are displayed on accessing the respective Party. Details of associated party like his address and contact number along with the associated programs and its invoices are displayed

If the party is a buyer and not a Supplier, then 'Payables' data is displayed on the page for Program widget, vice-versa for if party is Supplier the 'Receivables' data is displayed. If party is buyer as well as Supplier, then 'Receivables' data is displayed default on the screen and the Switcher is set to 'Receivables'.

Pre-requisites

User must be having a valid corporate login credentials.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables Management > Associated Party Management > View Associated Parties

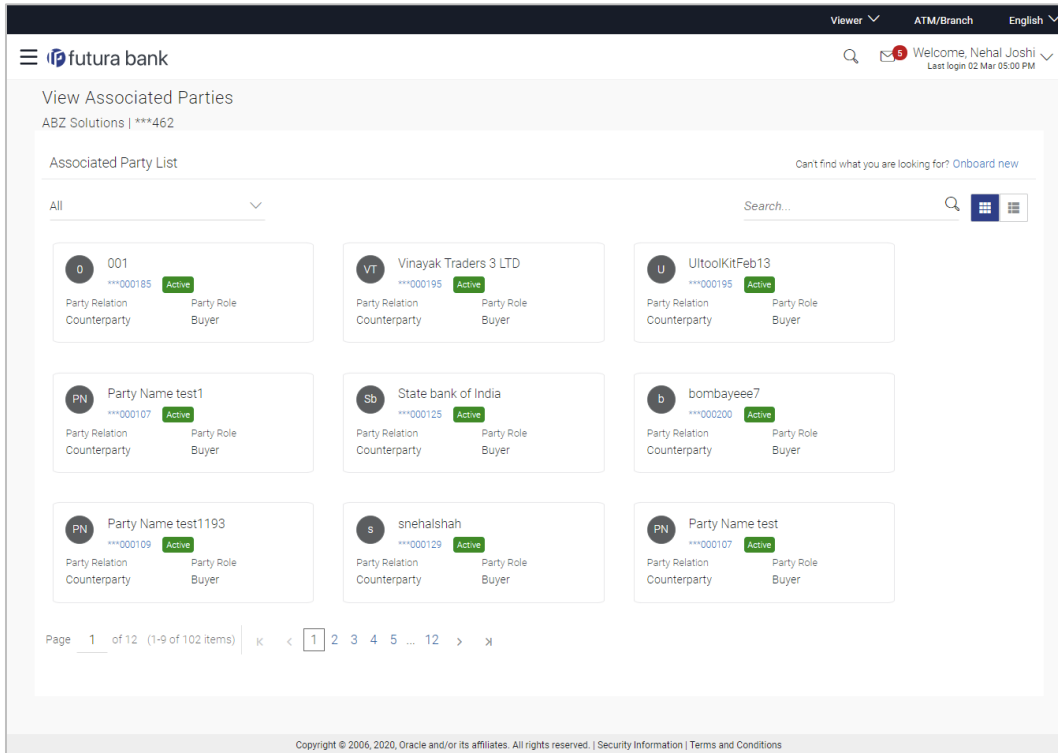

OR

Dashboard > Toggle menu > Supply Chain Finance > Overview > Quick Links > View Associated Parties

To view associated parties:

1. In the **View Associated Parties** screen, a set of on-boarded party tiles appears. You can narrow down the set by using the filter options and the **Search** field.

9. Reconciliation

Reconciliation is the process where payments are reconciled or matched with invoices/cash flows. Invoice records or cash flow records are generally created in advance. However, the actual payment occurs at a later point of time. Using the Reconciliation feature, you can match the payments with invoices and cash flow records.

Reconciliation can either be automated or performed manually. Reconciliation rules are created for the automation. Rules are essentially conditions that are defined; invoice / cash flow records and payments that meet the specified conditions are matched together.

In case a reconciled record must be unmatched, you can use the De-reconciliation option.

Allocation is the process where payments are allocated to virtual accounts. This process can also be automated through rules, or can be performed manually.

Pre-requisites:

User must have valid corporate login credentials.

9.1 Overview

How to reach here:

Dashboard > Toggle menu > Receivables/Payables Management > Reconciliation > Overview

The Reconciliation Overview screen consists of the following widgets:

- Unmatched Payments
- Unreconciled Invoices
- Unreconciled Cash Flows
- Payment Status
- Payment Allocation
- Unallocated Payments
- Quick Links

Unmatched Payments – This widget gives the total incoming and outgoing payment amounts that have not been matched under a specific currency. Swipe across the widget to view the data for other supported currencies. The count of payments for both incoming and outgoing is also displayed for each currency. The count for each type (incoming and outgoing), is a hyperlink which when clicked, displays the **View Payments** screen with the list of unmatched payments of the respective type. On clicking the **Reconcile against Invoice** link, the **Manual Reconciliation** screen appears where the unreconciled invoices can be reconciled. For more information on this screen, refer the **Invoice against Payment** section under **Manual Reconciliation**, in this document. On clicking the **Reconcile against Cash Flow** link, the **Manual Reconciliation** screen appears where the unreconciled cash flow records can be reconciled. For more information on this screen, refer the **Cash Flow against Payment** section under **Manual Reconciliation**, in this document.

Unreconciled Invoices – This widget gives the total receivable and payable unreconciled invoice amounts. The number of invoices for each type (receivables and payables) is also displayed. Swipe across the widget to view the data for other supported currencies. On clicking the **View Details** link, the **View Invoices** screen appears. For more information on this screen, refer the **View Invoice** section in this document. On clicking the **Reconcile Now** link, the **Manual Reconciliation** screen appears where the unreconciled invoices can be reconciled. For more information on this screen, refer the **Invoice against Payment** section under **Manual Reconciliation**, in this document.

Unreconciled Cash Flows – This widget gives the total inflow and outflow cash flow amounts that are unreconciled. The number of cash flows for each type (inflow and outflow) is also displayed. Swipe across the widget to view the data for other supported currencies. On clicking the [View Details](#) link, the **View/Edit Expected Cash Flow Details** screen appears. For more information on this screen, refer the respective section in User Manual Oracle Banking Digital Experience Corporate Cash Management. On clicking the [Reconcile Now](#) link, the **Manual Reconciliation** screen appears where the unreconciled cash flow records can be reconciled. For more information on this screen, refer the **Cash Flow against Payment** section under **Manual Reconciliation**, in this document.

Payment Status – This widget displays a doughnut graph, that depicts the percentage of payments in various status with respect to payments matching. This data can be viewed for both incoming and outgoing payments, as of current date, last month, last quarter, and a custom date range. On clicking the [View Payments](#) link, the **View Payments** screen appears. For more information on this screen, refer the **View Payments** section in this document.

Payment Allocation – This widget displays a doughnut graph, that depicts the percentage of payments in various status with respect to payments allocation. This data can be viewed for both incoming and outgoing payments, as of current date, last month, last quarter, and a custom date range.

Unallocated Payments – This widget displays a doughnut graph that depicts the percentages of unallocated payments, for incoming and outgoing payments. The total payment amounts and the count of payments that are unallocated are also displayed for the incoming and outgoing payments. Swipe across the widget to view the data for other supported currencies. On clicking the [View Details](#) link, the **View Payments** screen appears with the list of unallocated payments. For more information on this screen, refer the **View Payments** section in this document. On clicking the [Allocate Now](#) link, the **Manual Allocation** screen appears. For more information on this screen, refer the **Manual Allocation** section in this document.

Quick Links – The most commonly used transactions are provided as quick links for quick access. Following transactions are provided as quick links:

- View Reconciliation Rules
- Create Reconciliation Rules
- Manual Reconciliation
- De-Reconciliation
- Create Allocation Rule
- Manual Allocation

9.2 Create Reconciliation Rules

Corporates can create reconciliation or allocation rules from the portal using transactions 'Create Reconciliation Rule' and 'Create Allocation Rule' respectively. These transactions enable them to create rules to reconcile their cash flows/invoices against the payments or to allocate payments to virtual accounts. While defining reconciliation rules, user would also be able to specify allocation parameters required to allocate the matched payment to virtual account. Thus, the OBCM application can perform allocation post successful reconciliation of payment with expected cash flows/invoices or can perform stand-alone allocation on unreconciled payment records, provided the allocation rules are set up. Two types of reconciliation rules can be configured: Exact and Generic.

Generic Rules – These rules are applicable to all invoices/cash flows that are reconcilable. A corporate party can have only one generic rule per reconciliation-type (one rule for invoices and payments reconciliation, and one rule for expected cash flows and payments reconciliation). Generic rules are applied as per generic criteria such as, FIFO, LIFO, HAFO, and LAFO.

- FIFO – (first in, first out) Oldest invoice/cash-flow, will get reconciled first.
- LIFO – (last in, first out) Latest invoice/cash-flow, will get reconciled first.
- HAFO – (highest amount, first out) Invoice/Cash-flow with highest amount, will get reconciled first.
- LAFO – (lowest amount, first out) Invoice/Cash-flow with lowest amount, will get reconciled first.

Exact Rules – An Exact rule is a customized rule defined by the corporate to match cash-flow/invoice attributes and payment attributes for reconciliation. Both single sided and double sided conditions can be configured in an exact rule. A single sided condition includes defining a single attribute of either payment or expected-cash-flow/invoice entity along with the pattern explained below; whereas a double sided condition includes defining both cash-flow/invoice and payment attributes with operator conditions along with the specific patterns on their respective matching attributes.

Below patterns are provided to the corporate in order to define exact rules. They can be used in combination with the available operators:

For double-sided conditions:

- 'Text Between Two Positions' – where the text or string between defined signs/positions will be used for reconciliation.
- Exact Attribute – Where exact value of the attributes selected would be used for reconciliation.

Example of using exact attributes in a double-sided rule: Payment Ref No {operator such as =/</>} Cash Flow Ref No OR Payment Narration = Cash Flow Narration

For single-sided conditions:

- Using operators '<', '>', or '='. For example: Payment Ref No = ABC464664
- Starts with* – Where a value following the entered string will be used for reconciliation. For example, Cash flow narration starts with XYZ
- Ends with* – Where a value preceding the entered string will be used for reconciliation. For example, Cash flow narration ends with XYZ

An exact rule enables the corporate to add rule conditions with AND/OR operators based on attributes of a cash-flow/invoice record and/or a payment record. A facility to create groups of conditions with the AND/OR operators is also available.

The complete rule creation is a three-step process, where in the first step the corporate can create a generic or exact rule. The second step involves defining an allocation rule and the final step involves setting a priority for the rule.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables Management > Reconciliation > Create Reconciliation Rule

OR

Dashboard > Toggle menu > Receivables/Payables Management > Reconciliation > Overview > Quick Links > Create Reconciliation Rules

To create a reconciliation rule:

1. In the **Rule Details** step of the **Create Reconciliation Rule** screen, enter the required details.

Rule Details

The screenshot displays the 'Create Reconciliation Rule' interface. At the top, it shows the 'futura bank' logo and user information: 'Welcome, Mayur Thakkar' with a last login time of '02 Feb 10:29 PM'. The main content area features a progress indicator with three steps: '1 Rule Details', '2 Set Allocation', and '3 Prioritize Rule'. The 'Rule Details' step is currently active and contains the following fields:

- Reconciliation Type:** A dropdown menu with 'Select' as the current value.
- Rule Type:** Two radio buttons, 'Generic' (selected) and 'Exact'.
- Rule Name:** A text input field.
- Reconciliation Method:** A dropdown menu with 'Select' as the current value.
- Attribute:** A dropdown menu with 'Select Attribute' as the current value.
- Rule Interpretation:** A text input field.

At the bottom of the form, there are four buttons: 'Continue' (highlighted in blue), 'Cancel', 'Back', and 'Skip Allocation'. The footer of the page contains the copyright notice: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

Field Description

Field Name	Description
Create Reconciliation Rule	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Rule Details	
Reconciliation Type	Select whether the reconciliation is for invoices and payments, or expected cash-flows and payments.

Field Name	Description
Rule Type	Select whether the rule being created is a generic one or an exact one. The options are: <ul style="list-style-type: none"> • Generic • Exact
Rule Name	Enter the name to be assigned to the rule being created.

- Based on the option you select in the **Rule Type** field (**Generic** or **Exact**), enter further details as follows.

9.2.1 Generic Rule

The screenshot shows the 'Create Reconciliation Rule' interface for 'ABZ Solutions | ***462'. The 'Rule Type' is set to 'Generic'. The 'Rule Name' is 'RG122'. The 'Reconciliation Method' is 'FIFO - Oldest invoice to be reconcil...'. The 'Attribute' is 'Invoice Due Date'. The 'Rule Interpretation' is 'Invoice with oldest invoice date will be reconciled first'. The interface includes a progress bar and navigation buttons: Continue, Cancel, Back, and Skip Allocation.

Field Description

Field Name	Description
	These fields appear if you select the Generic option.
Reconciliation Method	Select how the rule is applied to the invoice/cash-flow records for reconciliation. This field appears if you select the Generic option in the Rule Type field. The options are: <ul style="list-style-type: none"> • FIFO – Oldest invoice/cash-flow to be reconciled first • LIFO – Latest invoice/cash-flow to be reconciled first • HAFO – Invoice/Cash-flow with highest amount to be reconciled first • LAFO – Invoice/Cash-flow with lowest amount to be reconciled first

Field Name	Description
Attribute	<p>Select the attribute to be used for applying the reconciliation method. This field appears if you select the Generic option in the Rule Type field.</p> <p>For Invoice and Payments reconciliation:</p> <ul style="list-style-type: none"> • For FIFO and LIFO, the options are: Invoice Date; Invoice Due Date. • For HAFO and LAFO, the options are: Invoice Amount; Outstanding Invoice Amount. <p>For Cash Flow and Payments reconciliation:</p> <ul style="list-style-type: none"> • For FIFO and LIFO, the options are: Expected Date; Revised Expected Date. • For HAFO and LAFO, the option is: Amount.
Rule Interpretation	<p>Displays the rule that is set, based on the options you select in the Reconciliation Method and Attribute fields. This field appears if you select the Generic option in the Rule Type field.</p>

3. If you select the **Generic** option under **Rule Type**, enter the details as stated above.
4. Click **Continue** to go to the **Set Allocation** step.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to reset and start with the **Rule Details** step again.
OR
Click **Skip Allocation** to go to the **Prioritize Rule** step.

9.2.2 Exact Rule

For an exact rule, you must add either one double-sided condition involving an invoice / cash flow attribute and a payment attribute or two single sided conditions, one involving an invoice / cash flow attribute and the other involving a payment attribute.

Field Description

Field Name	Description
	These fields appear if you select the Exact option.
Reconciliation Rule	You should add either one double sided condition with invoice/cash flow and payment; or one or more single sided conditions along with a double sided condition, for invoice/cash flow and for payment.
Add Condition	Indicates an option to add a condition for Exact reconciliation.
Add Group	Indicates an option to add a group of conditions that are clubbed together by logical operator 'AND' or 'OR'.

Field Name	Description
AND / OR	Indicates the logical operator to be used for clubbing the conditions for creating the Exact reconciliation rule.
Single-Sided Condition	<p>You can create single-sided conditions by selecting a specific entity (Invoice/ Cash-Flow or Payment) and then comparing an attribute of this entity with a specific value. A single sided condition should always be created along with atleast one double sided condition. The following fields appear for a single sided condition.</p>
Select Entity	<p>Select the required entity for building the condition. The following options are available:</p> <p>For Invoice-Payment reconciliation:</p> <ul style="list-style-type: none"> • Invoice • Payment • Invoice and Payment <p>For Cash Flow-Payment reconciliation:</p> <ul style="list-style-type: none"> • Cash Flow • Payment • Cash Flow and Payment
Select Attribute	Select the attribute of the entity to be compared.
Select Pattern	<p>Select the relational operator or pattern to be used for comparison. The options available are:</p> <ul style="list-style-type: none"> • = • < • > • Starts with • Ends with
Value	Enter the value that the attribute is to be compared with.
Double-Sided Condition	<p>You can create double-sided conditions by comparing an attribute of one entity with a relevant attribute of the other entity. For example, for the Invoice and Payment double-sided condition, the Net Invoice Amount can be compared with the Payment Amount. The following fields appear for a double-sided condition.</p>
Entities	Select the entities combination for creating the double-sided condition.

Field Name	Description
Select Pattern	Select the pattern to be used for the attribute (of the first entity) to be compared. The options available are: <ul style="list-style-type: none"> • Exact Attribute • Text Between Two Positions – On selecting this option, two fields appear where you can enter the position (numerical values). The attribute text between these positions is used for comparison.
Select Attribute	Select the attribute of the first entity to be compared.
Relational Operator	Select the relational operator to be used for comparison. The options available are: <ul style="list-style-type: none"> • AND • OR
Select Pattern	Select the pattern to be used for the attribute (of the second entity) to be compared. The options available are: <ul style="list-style-type: none"> • Exact Attribute • Text Between Two Positions – On selecting this option, two fields appear where you can enter the position (numerical values). The attribute text between these positions is used for comparison.
Select Attribute	Select the attribute of the second entity to be compared.

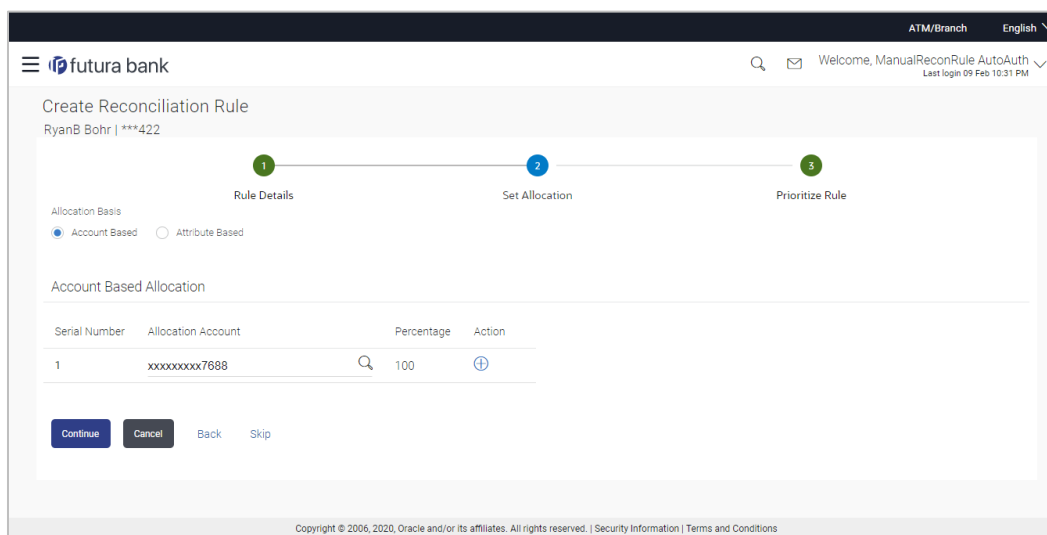

5. If you select the **Exact** option in the **Rule Type** field, then in the **Reconciliation Rule** section, build condition(s) as per requirement, as follows:
 - a. You can define either two or more single-sided condition or one more double-sided condition, or both. You can also define a group of conditions.
 - b. In the single-sided condition, you can select either Invoice/Cash-Flow or Payment.
 - i. Select the attribute to be used for comparing.
 - ii. Select the appropriate relational operator or pattern for comparing.
 - iii. Enter the value that must be used for comparing.
 - c. In the double-sided condition (Invoice/Cash-Flow and Payment), you can select an attribute of the Invoice/Cash-Flow and compare it with an attribute of the Payment.
 - i. Select the required pattern for the attribute of the first entity. If you select 'Text Between Sign' then enter the two signs in the attribute, in the fields that appears. If you select 'Text Between Two Positions' then enter the numerical positions in the attribute, in the fields that appear.
 - ii. Select the attribute of the first entity to be used for comparing.
 - iii. Select the appropriate relational operator.
 - iv. Select the required pattern for the attribute of the second entity.
 - v. Select the attribute of the second entity to be used for comparing.
 - d. Once a condition is defined, click  to save it.

- e. You can define similar individual conditions or a group of conditions by clicking **Add Condition** or **Add Group**, and bind them together using the 'AND' or 'OR' logical operator.
 - f. Once all conditions are defined, click **Save all and Preview** to save and preview all added conditions.
6. Click **Continue** to go to the **Set Allocation** step.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to reset the fields and start with the **Rule Details** step again.
OR
Click **Skip Allocation** to go to the **Prioritize Rule** step.

Note: 1) Once a condition is added and saved, click  to edit it, or click  to delete it.

- 2) If you skip the **Set Allocation** step during rule creation, then the matched and partially matched payments can be allocated to virtual accounts through Allocation Rule or Manual Allocation. For more information, refer the **Create Allocation Rule** and **Manual Allocation** sections in this document.

Field Description

Field Name	Description
Create Reconciliation Rule	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Set Allocation	
In this step, you can set the percentages to be allocated to specific virtual accounts. You must ensure that the sum of the allocated percentages should be 100.	
Allocation Basis	Select whether allocation should be virtual accounts-based or attributes-based. <ul style="list-style-type: none"> If you select the Account Based option, then you can directly set the virtual accounts for allocation. If you select the Attribute Based option, then you can set attributes for allocation. The virtual accounts that are mapped to these attributes will be used for allocation.
Account Based Allocation	
This section appears if you select the Account Based option in the Allocation Basis field.	
Serial Number	Displays the serial number of the allocation account.
Allocation Account	Select a virtual account to assign an allocation percentage.
Percentage	Enter the percentage of payment to be allocated to the virtual account.

Field Name	Description
Action	Click  to add further virtual accounts. Or click  to delete an added account.
Attribute Based Allocation	
This section appears if you select the Attribute Based option in the Allocation Basis field. This option can be used to allocate specific percentages of the payment towards specific attributes. The amount corresponding to the payment percentage set, is allocated to the virtual accounts mapped to these attributes.	
Serial Number	Displays the serial number of the attribute.
Allocation Entity	Select the entity whose attribute should be considered for setting an allocation percentage.
Allocation Attributes	Select the attribute for which the allocation percentage should be set.
Percentage	Enter the percentage of payment to be allocated to the attribute.
Action	Click  to add further attributes. Or click  to delete an added attribute.

7. Once the allocation details are set, click **Continue** to go to the **Prioritize Rule** step.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to go to the previous screen.
OR
Click **Skip** to skip the **Set Allocation** step.

Prioritize Rule

Field Description

Field Name	Description
------------	-------------

Create Reconciliation Rule

Party Name & ID Displays the name and ID of the logged-in corporate party.

Prioritize Rule

Reconciliation Rules

A list of existing rules is displayed. You can set the priority on the rule being created, and also modify the priority on an existing rule, if required. For the rule being created, the keyword 'Current' is displayed beside it. For a rule whose priority is modified, the keyword 'Modified' is displayed beside it.

Search Indicates an option to search for a specific reconciliation rule.

Rule Id Displays the unique rule ID that has automatically been assigned to the rule.

Rule Type Displays whether the rule is a generic or an exact one.

Rule Name Displays the name assigned to the rule.

Field Name	Description
Priority	<p>Indicates the priority assigned to the rule.</p> <p>Note: For the rule being created, the priority assigned by default is, one incremental to the highest priority assigned to the existing rules (highest priority + 1). You can change this priority, if required.</p> <p>For an existing rule, click  to edit and modify the priority, if required.</p>

8. In the **Prioritize Rule** step, you can modify the priority assigned to the rule being created, under the **Priority** column, if required. You can also modify the priority on an existing rule, if required.
9. Click **Submit** to submit the transaction. The Review screen appears.
 - OR
 - Click **Cancel** to cancel the transaction.
 - OR
 - Click **Back** to go to the previous screen.

Create Reconciliation Rule - Review Screen (Exact)

The screenshot displays the 'Review' screen for creating a reconciliation rule. At the top, there is a navigation bar with 'futura bank' and user information. The main content area is titled 'Create Reconciliation Rule' and shows the user 'RyanB Bohr | ***422'. A yellow banner indicates a review step: 'You initiated a request for Create Reconciliation Rule. Please review details before you confirm!'. Below this, the rule details are shown: Rule Type 'Exact' and Rule Name 'R9909'. The reconciliation rule expression is 'Exact Attribute of Invoice No of Invoice = Exact Attribute of Payment Reference No of Payment'. The allocation details are as follows:

Serial Number	Allocation Entity and Attributes	Percentage
1	Invoice - Supplier Name,Buyer Name	60%
2	Payments - Remitter Account no,Payment Party Id	40%

The 'Prioritize Rules' section contains a table of existing rules:

Rule Id	Rule Type	Rule Name	Priority
-	Exact	R9909	6
RR00000911	Exact	SUSInvoiceExactRule Edit 56780120192	8

At the bottom, there are three buttons: 'Confirm', 'Cancel', and 'Back'. The footer contains copyright information: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

10. In the Review screen, verify the details and click **Confirm**. A Confirmation message appears, with the reference number and status of the transaction.

OR

Click **Cancel** to cancel the transaction.

OR

Click **Back** to go to the previous screen.

Create Reconciliation Rule - Confirmation

11. In the Confirmation screen, click the **View Reconciliation Rules** link to view the existing reconciliation rules.

OR

Click the **Create Reconciliation Rule** link to create another rule.

9.3 Create Allocation Rule

Using this screen, the corporate user can create rules for automatic allocation of payments to specific virtual accounts. Manual allocation can also be performed by the user. For more information, refer the **Manual Allocation** section in this document.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables Management > Reconciliation > Create Allocation Rule

To create an allocation rule:

1. In the **Rule Details** step of the **Create Allocation Rule** screen, enter the required details.

Field Description

Field Name	Description
------------	-------------

View Reconciliation Rule

Party Name & ID	Displays the name and ID of the logged-in corporate party.
----------------------------	--

Basic Details

Rule Id	Displays the rule ID of the reconciliation rule.
----------------	--

Reconciliation Type	Displays the type of payment the reconciliation rule has been created for.
----------------------------	--

Rule Type	Displays whether the rule is generic or exact.
------------------	--

Rule Name	Displays the name of the rule.
------------------	--------------------------------

Field Name	Description
Priority	Displays the priority of the rule. If a payment meets the criteria of more than one rule, then the rule with the higher priority (1 being highest) is applied.
Reconciliation Rule	
For an Exact rule, this section displays the rule that has been defined. The rule can be a combination of single sided conditions or double sided conditions or both. The conditions are clubbed together either by the AND or the OR relational operator. A single sided condition includes a single attribute of either payment or expected-cash-flow/invoice entity compared to a specific value using logical operators; whereas a double sided condition includes both cash-flow/invoice and payment attributes with operator conditions along with the specific patterns on their respective matching attributes.	
Reconciliation Rule	
For a Generic rule, the following fields appear.	
Reconciliation Method	Displays the method employed for reconciliation. The options can be: <ul style="list-style-type: none"> • LIFO – Latest invoice/cash flow to be reconciled first • FIFO – Oldest invoice/cash flow to be reconciled first • LAFO – Lowest amount to be reconciled first • HAFO – Highest amount to be reconciled first
Attributes	Displays the attribute on which the reconciliation method will be applied. <ul style="list-style-type: none"> • If the reconciliation criteria is either LIFO or FIFO, then a date-specific attribute is present in this field. • If the reconciliation criteria is either LAFO or HAFO, then an amount-specific attribute is present in this field.
Rule Interpretation	Displays the interpretation of the reconciliation method applicable.
Allocation Details - Account Based	
This section appears if the Account Based option has been selected for allocation.	
Serial Number	Displays the serial number of the allocation account.
Allocation Account	Displays the virtual account that has been selected for allocation.
Percentage	Displays the percentage of payment allocated.
Allocation Details - Attribute Based	
This section appears if the Attribute Based option has been selected for allocation.	
Serial Number	Displays the serial number of the entity and attribute combination.
Allocation Entity and Attributes	Displays the entity and their respective attributes that have been selected for allocation.

Field Name	Description
Percentage	Displays the percentage of payment allocated.

From the **View Reconciliation Rule** (details) screen, you can do the following:

- Edit the reconciliation rule, by clicking **Edit**.
- Go back to the **View Reconciliation Rules** screen, which displays a list of existing reconciliation rules, by clicking **Back**.

9.4.2 Edit Reconciliation Rule

Using this screen, the corporate user can edit a reconciliation / allocation rule.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables Management > Reconciliation > View/Edit Reconciliation Rule

To edit a reconciliation rule:

1. In the **View Reconciliation Rules** screen, search for the required reconciliation rule, using the Search field or the filter options.

View Reconciliation Rules

The screenshot shows the 'View Reconciliation Rules' interface. At the top, there are navigation options for 'Maker', 'ATM/Branch', and 'English'. The user is logged in as 'nehal joshi' with the last login on '10 Aug 01:32 PM'. The main content area displays a table of reconciliation rules. The table has the following data:

Rule Id	Reconciliation Type	Rule Type	Rule Name	Priority
RR00000214	Invoice Payment Recon	Generic	newInvGenRule1	5
RR00000265	Invoice Payment Recon	Generic	ads	6
RR00000563	Allocation of Payment to Virtual Accounts	Exact	aaa	38
RR00000575	Allocation of Payment to Virtual Accounts	Exact	aa	41
RR00000577	Expected Cashflow To Payment Recon	Generic	GenCash	11
RR00000581	Invoice Payment Recon	Generic	RecRule987	11
RR00000587	Expected Cashflow To Payment Recon	Exact	abc	7
RR00000603	Invoice Payment Recon	Generic	InGenTest123	8
RR00000605	Invoice Payment Recon	Generic	NGen123	3
RR00000611	Invoice Payment Recon	Exact	asd	4

At the bottom of the table, there is a pagination control: 'Page 1 of 5 (1-10 of 48 items)'. Below the table is a 'Cancel' button. The footer contains the copyright notice: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. [SecurityInformation]Terms and Conditions'.

2. Click the **Rule Id** link of the rule to be viewed/edited. The **View Reconciliation Rule** (details) screen appears.

OR
Click **Cancel** to cancel the transaction.

View Reconciliation Rule (details)

The screenshot displays the 'View Reconciliation Rule' interface. At the top, it shows the 'futura bank' logo and user information for 'Welcome, nehal joshi'. The main heading is 'View Reconciliation Rule' with an 'Edit' link. Below this, the rule identifier 'ABZ Solutions | ***462' is shown.

The 'Basic Details' section contains the following information:

- Rule Id: RR00002379
- Reconciliation Type: Expected Cashflow to Payment Recon
- Rule Type: Exact
- Rule Name: System Rule Change from Generic to Exact 462
- Priority: 5

The 'Reconciliation Rule' section contains a logical tree of conditions:

- And
 - External Reference No of Cash Flow starts with CR
 - Exact Attribute of Debit Credit Indicator of Cash Flow = Exact Attribute of Debit-Credit Indicator of Payment
- And
 - Text between 5 and 12 in Bank Account Number of Cash Flow = Text between 5 and 12 in Bank Account Number of Cash Flow
 - Payment Currency of Payment equals to USD

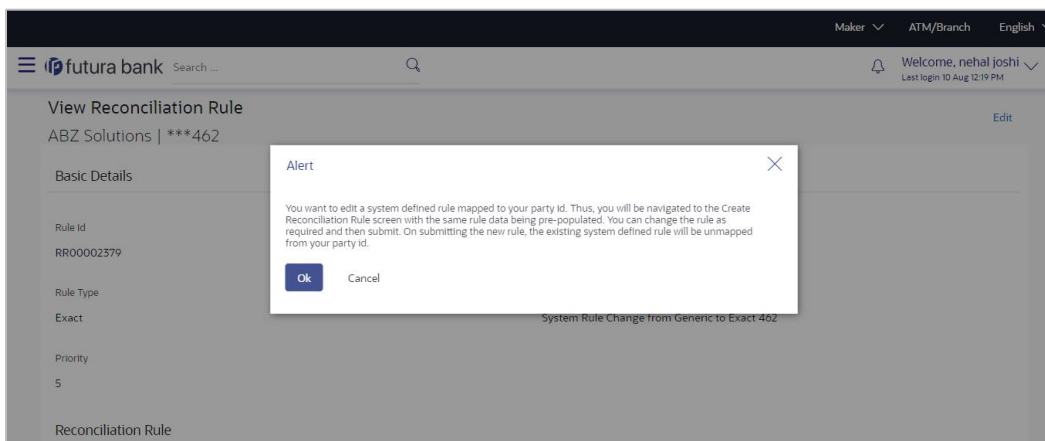

The 'Allocation Details - Attribute Based' section includes a table:

Serial Number	Allocation Entity and Attributes	Percentage
1	Payments - Payment Party Id	66.44%
2	Cash Flow - Corporate Id	33.56%

At the bottom of the page, there is a 'Back' link and a copyright notice: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. |SecurityInformation|Terms and Conditions'.

3. Click the **Edit** link to edit the reconciliation rule. For a system-defined rule, an alert message pops up. For a corporate-defined rule, the **Edit Reconciliation Rule** screen appears.
OR
Click **Back** to go to the previous screen.

On Clicking 'Edit' for a System Defined Rule

Note: For a system-defined rule, an alert message pops up on clicking **Edit**. It states that you are about to edit a system defined rule. Once you modify and submit the rule, it will be unmapped from your party ID. System defined reconciliation rules are applicable to all corporate customers of the bank. If a corporate party wishes to customize a particular system defined rule, they may do so. This unmaps the rule from the party ID. The corporate party can then customize and submit the rule. A new rule with the same rule ID is created which is applicable only to that specific corporate party.

4. Click **Ok**, to accept the warning message. The **Create Reconciliation Rule** screen appears. The fields are populated with the existing values.
OR
Click **Cancel** to cancel the transaction and remain on the **View Reconciliation Rule** (details) screen.

Field Description

Field Name	Description
Edit Reconciliation Rule	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Rule Details (train stop)	
Rule Id	Displays the unique ID assigned that is automatically assigned to the rule during creation. This field is not editable.
Reconciliation Type	Displays whether the reconciliation is for invoices and payments, or expected cash-flows and payments. This field is not editable.
Rule Type	Displays whether the rule is a generic or an exact one. This field is not editable.
Rule Name	Indicates the name of the rule. This field is editable.
Reconciliation Method	Indicates how the rule is applied to the invoice/cash-flow records for reconciliation. This field is displayed only for Generic rule type. It is editable. The options are: <ul style="list-style-type: none"> • FIFO – Oldest invoice/cash-flow to be reconciled first • LIFO – Latest invoice/cash-flow to be reconciled first • HAFO – Invoice/Cash-flow with highest amount to be reconciled first • LAFO – Invoice/Cash-flow with lowest amount to be reconciled first
Attribute	Indicates the attribute used for applying the reconciliation method. This field is displayed only for Generic rule type. It is editable. For Invoice and Payments reconciliation: <ul style="list-style-type: none"> • For FIFO and LIFO, the options are: Invoice Date; Invoice Due Date. • For HAFO and LAFO, the options are: Invoice Amount; Outstanding Invoice Amount. For Cash Flow and Payments reconciliation: <ul style="list-style-type: none"> • For FIFO and LIFO, the options are: Expected Date; Revised Expected Date. • For HAFO and LAFO, the option is: Amount.
Rule Interpretation	Displays the rule that is set, based on the options you select in the Reconciliation Method and Attribute fields. This field is displayed only for Generic rule type.
Reconciliation Rule	
This section appears only for Exact rule type. It displays the conditions that have been set during creation. The entire section is editable.	
Add Condition	Indicates an option to add a condition for Exact reconciliation.

Field Name	Description
Add Group	Indicates an option to add a group of conditions that are clubbed together by logical operators 'AND' or 'OR'.
AND / OR	Indicates the logical operator to be used for clubbing the conditions for creating the Exact reconciliation rule.
<p>Single-Sided Condition</p> <p>You can create single-sided conditions by selecting a specific entity (Invoice/ Cash-Flow or Payment) and then comparing an attribute of this entity with a specific value. The following fields appear for a single sided condition.</p>	
Select Entity	Select the required entity for building the condition.
Select Attribute	Select the attribute of the entity to be compared.
Select Pattern	Select the relational operator or pattern to be used for comparison.
Value	Enter the value that the attribute is to be compared with.
<p>Double-Sided Condition</p> <p>You can create double-sided conditions by comparing an attribute of one entity with a relevant attribute of the other entity. For example, for the Invoice and Payment double-sided condition, the Net Invoice Amount can be compared with the Payment Amount. The following fields appear for a double-sided condition.</p>	
Entities	Select the entities combination for creating the double-sided condition.
Select Pattern	Select the pattern to be used for the attribute (of the first entity) to be compared. The options available are: <ul style="list-style-type: none"> • Exact Attribute • Text Between Two Positions – On selecting this option, two fields appear where you can enter the position (numerical values). The attribute text between these positions is used for comparison.
Select Attribute	Select the attribute of the first entity to be compared.
Relational Operator	Select the relational operator to be used for comparison.
Select Pattern	Select the pattern to be used for the attribute (of the second entity) to be compared. The options available are: <ul style="list-style-type: none"> • Exact Attribute • Text Between Two Positions – On selecting this option, two fields appear where you can enter the position (numerical values). The attribute text between these positions is used for comparison.
Select Attribute	Select the attribute of the second entity to be compared.

Field Name	Description
Save all and Preview	Click this link to save and preview all added conditions.

5. Modify the required details in the **Rule Details** step.
6. Click **Continue** to go to the **Set Allocation** step.
 OR
 Click **Cancel** to cancel the transaction.
 OR
 Click **Skip Allocation** to skip the **Set Allocation** train stop and move to the **Prioritize Rule** train stop.

3. Click **Edit**. For a system-defined rule, an alert message pops up. For a corporate-defined rule, the **Edit Allocation Rule** screen appears.
OR
Click **Back** to go to the previous screen.

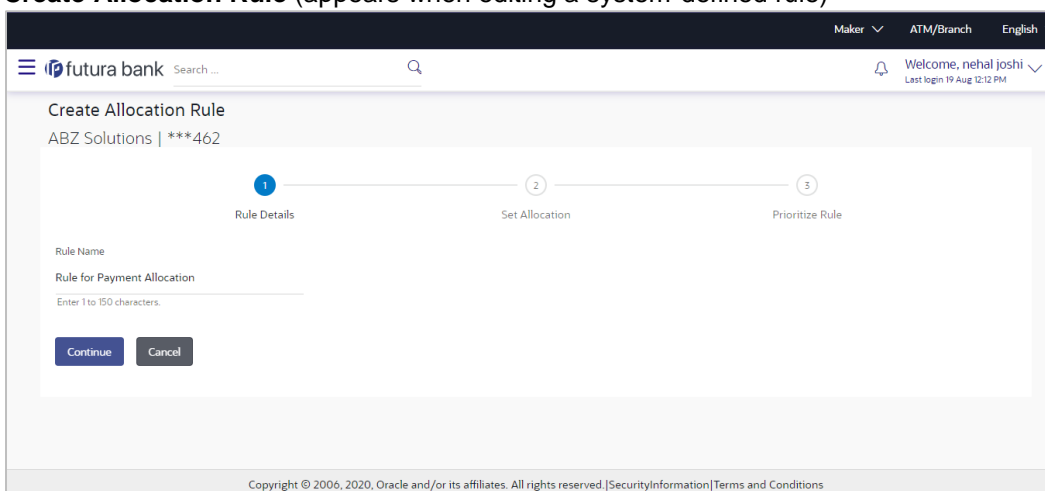

On Clicking 'Edit' for a System Defined Rule

Note: For a system-defined rule, an alert message pops up on clicking **Edit**. It states that you are about to edit a system defined rule. Once you modify and submit the rule, it will be unmapped from your party ID. System defined reconciliation rules are applicable to all corporate customers of the bank. If a corporate party wishes to customize a particular system defined rule, they may do so. This unmaps the rule from the party ID. The corporate party can then customize and submit the rule. A new rule with the same rule ID is created which is applicable only to that specific corporate party.

4. Click **Ok**, to accept the warning message. The **Create Allocation Rule** screen appears. The fields are populated with the existing values.
OR
Click **Cancel** to cancel the transaction and remain on the **View Reconciliation Rule** (details) screen.

Create Allocation Rule (appears when editing a system-defined rule)

Edit Allocation Rule (appears when editing a corporate-defined rule)

The screenshot displays the 'Edit Allocation Rule' page for 'ABZ Solutions | ***462'. It features a progress indicator with three steps: 1. Rule Details, 2. Set Allocation, and 3. Prioritize Rule. The 'Rule Details' section contains the following fields:

- Rule Id: RR00002366
- Rule Name: (empty)
- Alert payment: (empty)

The 'Reconciliation Rule' section includes a logical operator dropdown set to 'And', with 'Or' as an alternative. There are 'Add Group' and 'Add Condition' buttons. A single condition is listed: 'Payment Reference No of Payment equals to 123'. Below this, there is a 'Save all and Preview' button and 'Continue' and 'Cancel' buttons at the bottom.

Field Description

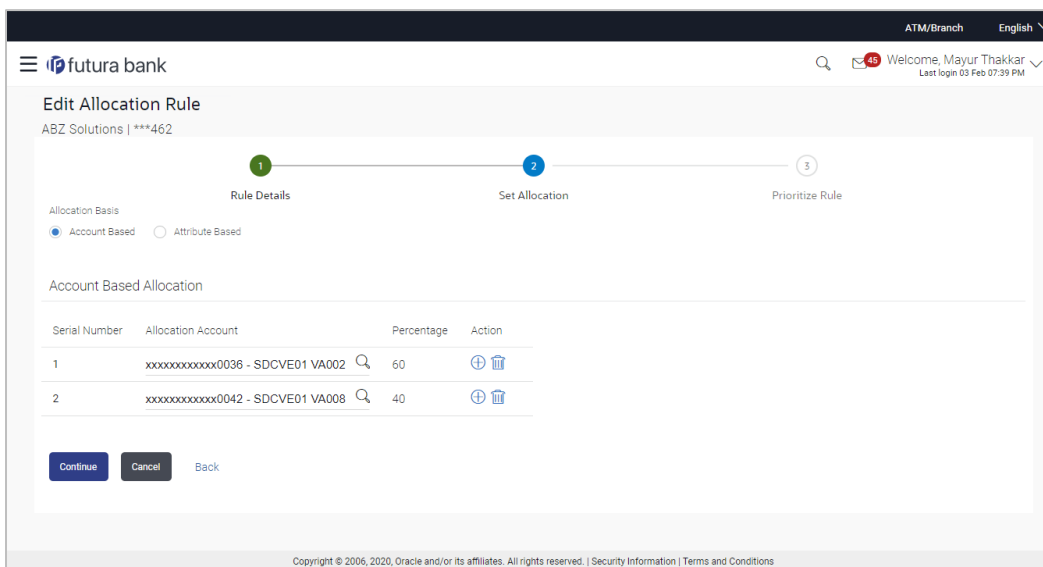

Field Name	Description
Edit Allocation Rule	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Rule Details	
Rule Id	Displays the unique ID assigned to the rule during creation. This field is not editable.
Rule Name	Indicates the name assigned to the rule. This field is editable.
Reconciliation Rule	
	This section displays the conditions that have been set during creation. It is fully editable.
Add Condition	Indicates an option to add a condition for allocation.
Add Group	Indicates an option to add a group of conditions that are clubbed together by logical operator 'AND' or 'OR'.
AND / OR	Indicates the logical operator to be used for clubbing the conditions for creating the allocation rule.
Select Attribute	Select the attribute of the payment to be compared.

Field Name	Description
Match the payment by	Select the relational operator or pattern to be used for matching the payment.
Value	Enter the value that the attribute is to be compared with.
Save all and Preview	Click this link to save and preview all added conditions.

5. In the **Rule Name** field, enter the name to be assigned to the rule.
6. In the **Reconciliation Rule** section, build the condition(s) as per requirement:
 - a. Select the attribute to be used for comparing.
 - b. Select the appropriate relational operator or pattern for comparing, from the **Match the payment by** list.
 - c. Enter the value to compare the attribute value with.
 - d. Once a condition is defined, click  to save it.
 - e. You can define similar individual conditions or a group of conditions by clicking **Add Condition** or **Add Group**, and binding them together using the 'AND' or 'OR' logical operator.
 - f. Once all conditions are defined, click **Save all and Preview** to save and preview all added conditions.
7. Click **Continue** to go to the **Set Allocation** step.
OR
Click **Cancel** to cancel the transaction.

Note: Once a condition is added and saved, click  to edit it, or click  to delete it.

Set Allocation – Attribute Based

The screenshot shows the 'Edit Allocation Rule' page for 'ABZ Solutions | ***462'. It features a progress indicator with three steps: 1. Rule Details, 2. Set Allocation (active), and 3. Prioritize Rule. The 'Allocation Basis' section has two radio buttons: 'Account Based' and 'Attribute Based' (selected). Below this is the 'Attribute Based Allocation' table:

Serial Number	Allocation Entity	Allocation Attributes	Percentage	Action
1	Payment	Credit Account no	100	

At the bottom, there are three buttons: 'Continue', 'Cancel', and 'Back'. The footer contains copyright information: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. |SecurityInformation|Terms and Conditions'.

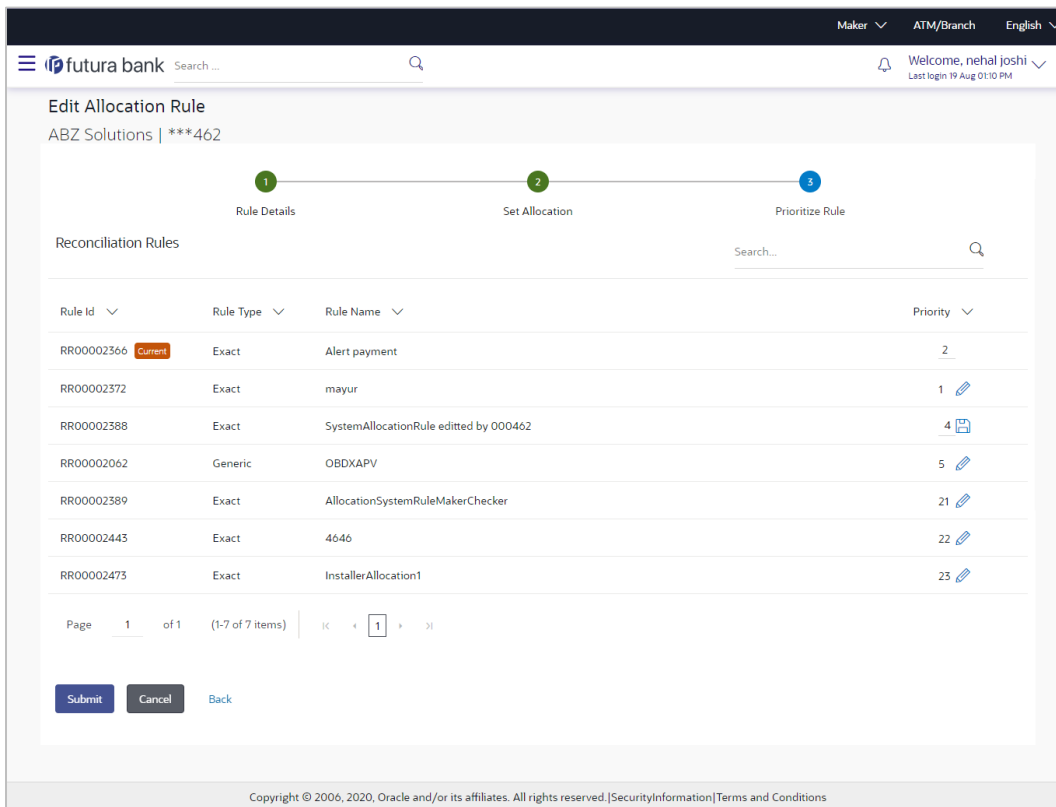

Field Description

Field Name	Description
Edit Allocation Rule	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Set Allocation	
In this step, you can modify the percentages that have been allocated either to specific virtual accounts, or towards specific payment attributes. You must ensure that the sum of the allocated percentages should be 100. This section is fully editable.	
Allocation Basis	Select whether allocation should be virtual accounts-based or attributes-based.
Account Based Allocation	
This section appears if you select the Account Based option in the Allocation Basis field.	
Serial Number	Displays the serial number of the allocation account.
Allocation Account	Select a virtual account to assign an allocation percentage.
Percentage	Enter the percentage of payment to be allocated to the virtual account.
Action	Click to add further virtual accounts. Or click to delete an added account.

Field Name	Description
Attribute Based Allocation	
This section appears if you select the Attribute Based option in the Allocation Basis field. This option can be used to allocate specific percentages of the payment towards specific payment attributes (such as credit account number, remitter account number, payment party ID, and so on), which are mapped to specific virtual accounts.	
Serial Number	Displays the serial number of the attribute.
Allocation Entity	Displays 'Payment' by default.
Allocation Attributes	Select the attribute for which the allocation percentage should be set.
Percentage	Select the percentage of payment to be allocated to the attribute.
Action	Click  to add further attributes. Or click  to delete an added attribute.

- Once the allocation details are set, click **Continue** to go to the **Prioritize Rule** step.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to go to the previous screen.

Program Name	Displays the name of the program linked to the invoice.

- If you select the **Single Invoice Multiple Payments** option, then in the **Select Invoice** step, select the required invoice to reconcile.

4. Click **Continue** to proceed to the **Reconcile with Payments** step.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to go back to selecting the **Reconciliation Type**.
OR
Click **Skip** to skip this step and move to the next.

Reconcile with Payments

The screenshot displays the 'Reconcile with Payments' screen in the Futura Bank system. At the top, there are navigation options for 'Viewer', 'ATM/Branch', 'English', and the user's branch 'UBS OBPM 14.4 HEL Branch'. The user is identified as 'Welcome, Nehal Joshi' with a last login time of '27 Oct 03:23 PM'. The account being reconciled is 'ABZ Solutions | ***462'. Under 'Invoice Type', 'Receivables' is selected. The 'Reconciliation Type' is set to 'Single Invoice Multiple Payments'. A progress bar shows two steps: 'Select Invoice' (completed) and 'Reconcile with Payments' (current). A table lists 22 payments, with the first two selected. The table columns are: Date, Reference Number, Real Account, Virtual Account, Amount, Unreconciled Amount, and Amount To Be Reconciled. A 'Search...' field and a funnel icon for filtering are present above the table. On the right, a 'Reconciliation Details' panel shows: 'Invoice to be reconciled: £7,800.00', 'Reconciled Amount: £7,800.00', and 'Pending for Reconciliation: £0.00'. At the bottom, there are 'Submit', 'Cancel', and 'Back' buttons, along with a 'Save and Add Another' button.

Date	Reference Number	Real Account	Virtual Account	Amount	Unreconciled Amount	Amount To Be Reconciled
10 Nov 2019	PAY1141	-	-	£4,000.00	£4,000.00	£2,819.50
06 Nov 2019	PAY0752	xxxxxxxxxxxx0046	-	£5,200.00	£4,980.50	£4,980.50
06 Nov 2019	PAY0753	xxxxxxxxxxxx0046	-	£6,000.00	£3,970.00	£0.00
06 Nov 2019	PAY0755	xxxxxxxxxxxx0046	-	\$5,900.00	\$4,816.28	\$0.00
06 Nov 2019	PAY0756	xxxxxxxxxxxx0046	-	£8,000.00	£7,880.00	£0.00

Field Description

Reconciled Records	
This section (present on the top right side of the Manual Reconciliation screen) displays the number of records that you have saved for reconciliation by clicking Save and Add Another . You can click the View Details link to view the details of these saved payment-cash flows records, which appear in an overlay window. If a saved record must be removed, click  beside it.	
Cash Flow Details overlay window	
This window appears when you click the cash flow reference number hyperlink.	
Cash Flow Reference Number	Displays the cash flow reference number assigned by the host.
External Reference Number	Displays the external cash flow reference number.
Payment Date	Displays the date of the payment.

Field Name	Description
Type	Displays the type of cash flow, whether inflow or outflow.
Status	Displays the status of the cash flow.
Amount	Displays the cash flow amount.
Unreconciled Amount	Displays the amount that is not yet reconciled.
Real Account	Displays the real account number involved in the cash flow.
Virtual Account	Displays the virtual account number involved in the cash flow.
Associated Party ID and Name	Displays the name and ID of the counter party involved in the cash flow.
Linked Reference Number	Displays the linked reference number of the cash flow.
Narration	Displays any narration text/comments.

12. In the **Reconcile with Cash Flows** step, select the required cash flow records to reconcile.

13. In the **Amount To Be Reconciled** field, click  to edit the amount and then click  to save the changes, if required.

14. Click **Save and Add Another** to save the details and select another payment to reconcile against cash flow records.

- To view a list of records that you have already saved, click the **View Details** link in the **Reconciled Records** section, on the top right side of the Manual Reconciliation screen. An overlay window appears with the saved payment-cash flows records. To delete a record, click .

15. Click **Submit** to submit the transaction. The Review screen appears.

OR

Click **Cancel** to cancel the transaction.

OR

Click **Back** to go to the previous screen.

16. In the Review screen, verify the selected details and click **Confirm**. A confirmation message appears, with the status and reference number of the transaction.

OR

Click **Cancel** to cancel the transaction.

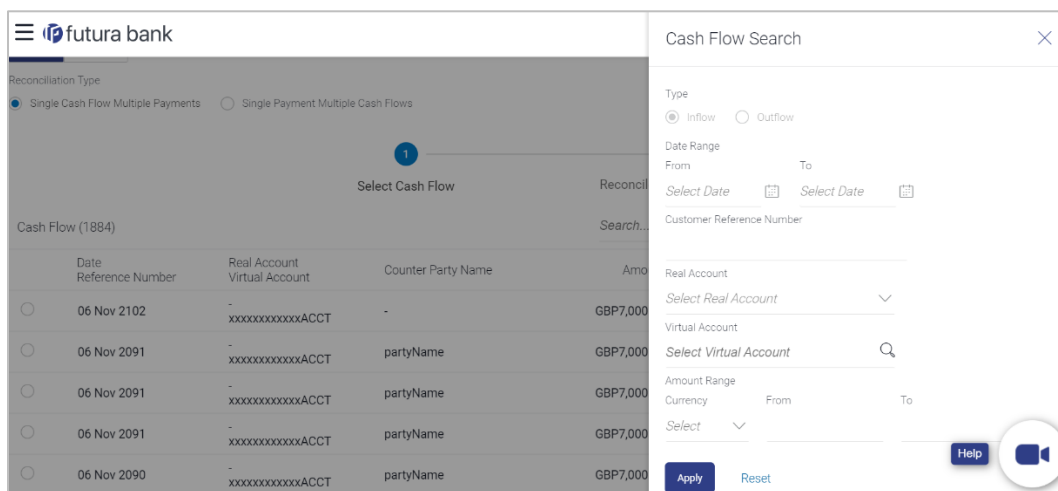

OR

Click **Back** to go to the previous screen.

Once the transaction is submitted, the approver is notified. If any modifications are required, the approver can add relevant comments and send the transaction back to the maker, using the **Send to Modify** feature. Once the required modifications are made, the maker can re-submit the transaction.

Cash Flow Search (overlay window)

This overlay window appears when you click the  icon to search for specific cash flow records.

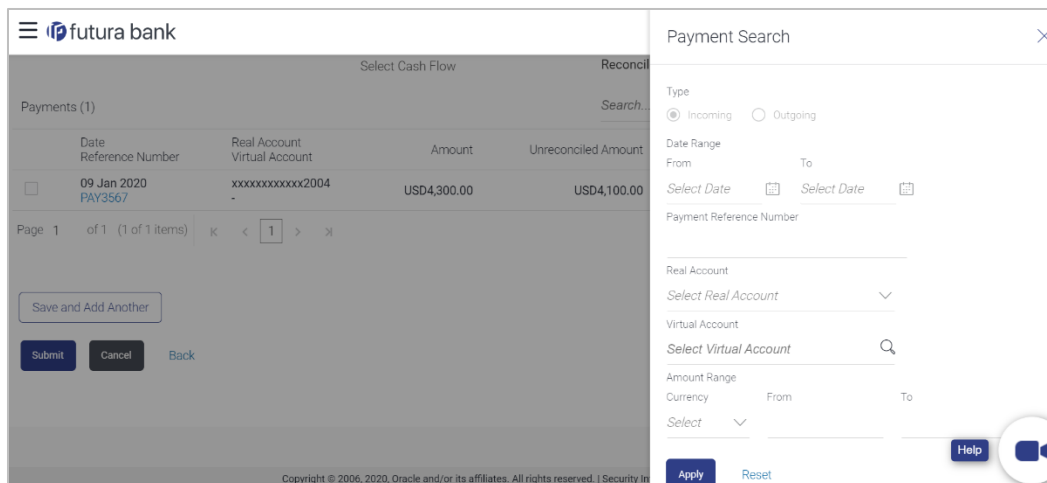

Field Description

Field Name	Description
Cash Flow Search	
Type	Displays the type of cash flow, whether Inflow or Outflow. This field is not editable.
Date Range From/To	Enter the date range for filtering the required cash flow records.
Customer Reference Number	Enter the customer’s own reference number of the cash flow record to be filtered.
Real Account	Enter the real account number associated with the cash flow records to be filtered.
Virtual Account	Enter the virtual account number associated with the cash flow records to be filtered.
Amount Range Currency From/To	Select the currency and enter the cash flow amount range, to filter the required cash flow records.

On selecting/entering the required details, click **Apply** to apply the filter criteria, or, click **Reset** to reset the entered data.

Payment Search (overlay window)

This overlay window appears when you click the  icon to search for specific payment records (either while reconciling with invoices or with cash flow records).

Field Description

Field Name	Description
Payment Search	
Type	Displays the type of payment, whether Incoming or Outgoing. This field is not editable.
Date Range From/To	Enter the date range for filtering the required payment records.
Payment Reference Number	Enter the reference number of the payment record to be filtered.
Real Account	Enter the real account number associated with the payment records to be filtered.
Virtual Account	Enter the virtual account number associated with the payment records to be filtered.
Amount Range Currency From/To	Select the currency and enter the payment amount range to filter the required payment records.

On selecting/entering the required details, click **Apply** to apply the filter criteria, or, click **Reset** to reset the entered data.

9.6 Manual Allocation

Using this screen, the corporate user can manually allocate payments to the required virtual accounts. The manual allocation transaction can be used by corporates to manually allocate payments to accounts, in cases where the execution of the allocation rule has failed or for payments that do not have rules set.

The screen, by default, displays all the matched or partially matched and unallocated or partially allocated payments for manual allocation.

The user can select a single payment and allocate it to a single or multiple virtual accounts and set the corresponding percentage(s) of allocation. The total percentage should always be 100.

Allocation of virtual account can also be based on payment attributes. Payments attributes are listed. The user can select a single or multiple attributes. The values of these attributes are used to make a call to the Virtual Accounts Management system, which in response, returns the associated virtual account. That virtual account is mapped to the payment. Multiple accounts can be mapped by setting the percentage for each. The total percentage should always be 100.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables Management > Reconciliation > Manual Allocation

To perform manual allocation:

1. In the **Manual Allocation** screen, use the **View By** list and/or the filter options to get a list of required payment records.

Manual Allocation

The screenshot displays the 'Manual Allocation' interface for 'ABZ Solutions | ***462'. It features a 'View By' dropdown set to 'All' and a list of payments. The selected payment, PAY1844, is shown in detail with its external reference number and remitter account number. Below this, there is a 'Set allocation' section with a table for defining virtual account allocations. A search bar is provided to find virtual accounts based on attributes, and a 'Save' button is visible at the bottom of the allocation section.

Virtual Account	Percentage to be Allocated	Allocated Amount	Action
1 Search			
Fetch Virtual Account on the basis of attributes			

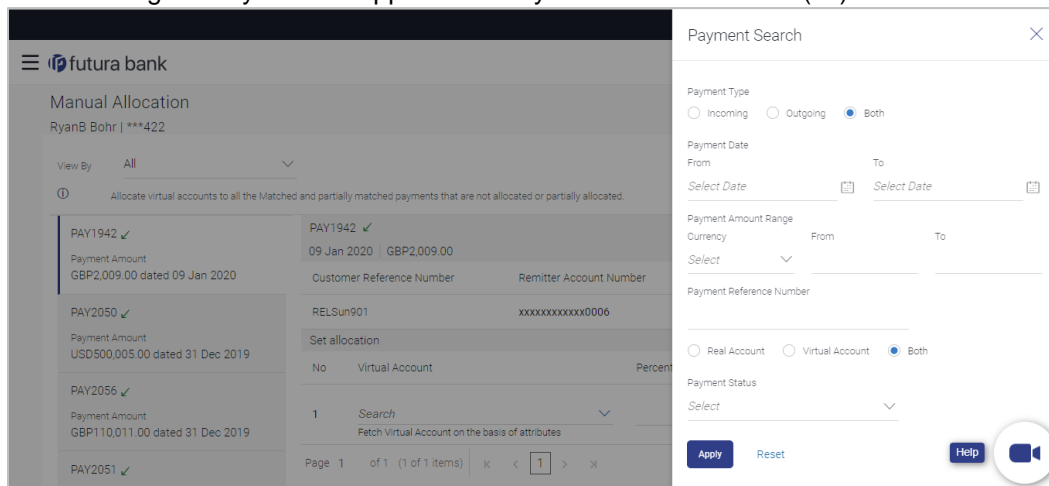

Field Description

Field Name	Description
Manual Allocation	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
View By	Indicates an option to view the payment records based on the following criteria: <ul style="list-style-type: none"> • Saved for Allocation • Incoming Payments • Outgoing Payments
	Indicates an option to filter the payment records based on selected parameters. Refer the Payments Search overlay window section below, for more details.
Payments Panel	
In the Manual Allocation screen, the panel on the left hand side displays a list of matched and partially matched payments that have not been allocated or are partially allocated. You can use the View By field and the filter option to narrow down this list.	
Payment Reference Number	Displays the unique reference number of the payment. The  (incoming) or  (outgoing) indicator is also displayed.
Payment Amount	Displays the currency and amount of the payment.
Payment Date	Displays the date on which the payment occurred.
Selected Payment	
By default, the first payment in the payments panel appears selected. You can select a different record for allocation, as required. The details of the selected payment record are displayed in the main section, with the following fields:	
Payment Reference Number	Displays the unique reference number of the payment. The  (incoming) or  (outgoing) indicator is also displayed.
Payment Date	Displays the date on which the payment occurred.
Payment Amount	Displays the currency and amount of the payment.
External Reference Number	Displays the reference number of the payment assigned by the corporate party. This is a hyperlink which when clicked displays the details of the payment. For more information on the payment details, refer the View Payments (details) section in this document.
Remitter Account Number	Displays the account number from which the payment originated.
Unallocated Amount	Displays the amount that is yet to be allocated.

Field Name	Description
Amount to be Allocated	Enter the payment amount to be allocated in the current transaction. By default, the value in the Unallocated Amount field is displayed.
Set allocation	You can search and set the virtual accounts and their allocation percentages in this section. The sum of percentages of all added accounts should be 100.
Virtual Account	Set the virtual account to which the payment should be allocated. Click the Fetch Virtual Account on the basis of attributes link to search and find the required virtual account. The Set Virtual Account Attributes pop-up window appears. For more information on the fields in this window, refer the Set Virtual Account Attributes section below.
Percentage to be Allocated	Enter the percentage of the payment to be allocated to the selected virtual account. If you enter a percentage in this field, the Allocated Amount field gets updated automatically. Note: The total percentage allocated to all virtual accounts should be less than or equal to 100.
Allocated Amount	Enter the amount to be allocated to the selected virtual account. If you enter an amount in this field, the Percentage to be Allocated field gets updated automatically. Note: The total amount allocated to all the virtual accounts should be less than or equal to the Amount to be Allocated amount.
Action	Click  to add further virtual accounts. Or click  to delete an added account.

Payment Search overlay window

The following overlay window appears when you click the filter icon ().

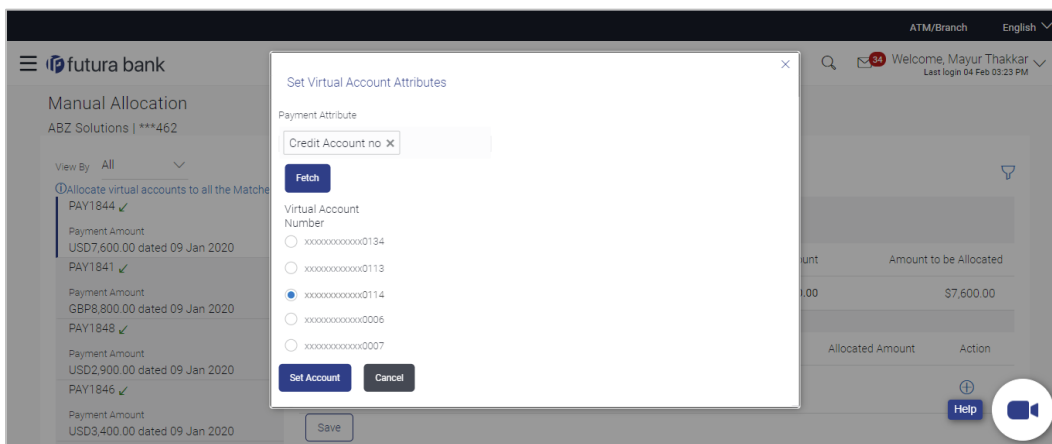

Field Description

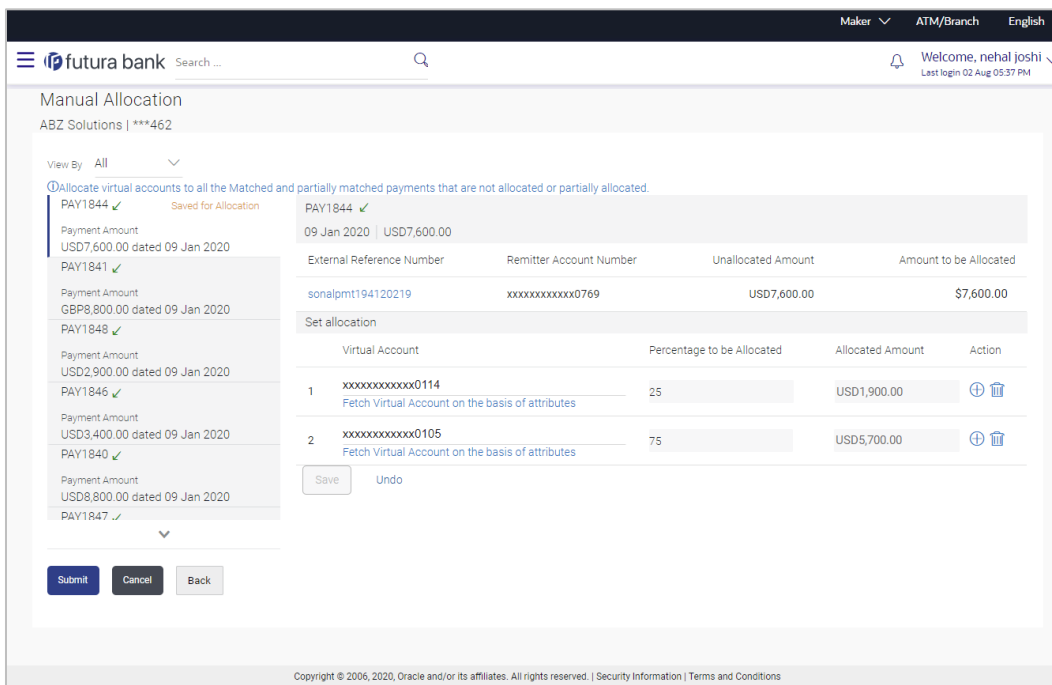

Field Name	Description
Payment Search	
This overlay window appears when you click  . The following fields are available for filtering.	
Payment Type	Indicates an option to filter the payment records based on payment type. The options available are: <ul style="list-style-type: none"> • Incoming • Outgoing • Both
Payment Date From - To	Indicates an option to filter the payment records based on a date range.
Payment Amount Range Currency From-To	Indicates an option to filter the payment records based on an amount range.
Payment Reference Number	Indicates an option to filter the payment records based on reference number.
Type of account being credited	Indicates an option to filter the payment records based on the type of account being credited - a specific real account, or a specific virtual account, or both. The options are: <ul style="list-style-type: none"> • Real Account – On selecting this option, a list of real account numbers (in masked format) associated with the logged-in party is displayed. The required account can be selected. • Virtual Account – On selecting this option, a list of virtual account numbers (in masked format) associated with the logged-in party is displayed. The required account can be selected. • Both
Payment Status	Indicates an option to filter the payment records based on payment status.

2. In the **Payment Search** overlay window, enter the required search criteria.
3. Click **Apply**. A list of relevant payments appear in the payments panel in the **Manual Allocation** screen.
OR
Click **Reset** to clear the data entered.
4. In the **Manual Allocation** screen, from the payments panel on the left hand side, select the required payment record to be allocated. The selected payment details appear in the main section.
5. In the **Set allocation** section, click the **Fetch Virtual Account on the basis of attributes** link. The **Set Virtual Account Attributes** pop-up window appears.

Set Virtual Account Attributes

6. In the **Set Virtual Account Attributes** window, select the required option from the **Payment Attribute** list.
7. Click **Fetch**. A list of relevant virtual accounts appears.
8. Select the required account.
9. Click **Set Account**. The selected account appears in the **Set allocation** section.
OR
Click **Cancel** to cancel setting the virtual account.

10. Enter the required payment percentage to be allocated to the virtual account in the **Percentage to be Allocated** field. The **Allocated Amount** field gets updated automatically.
OR
Enter the required amount to be allocated to the virtual account in the **Allocated Amount** field. The **Percentage to be Allocated** field gets updated automatically.
11. To add further virtual accounts, click ⊕.

Note: Click  to delete an added account.

12. Click **Save** to save the virtual accounts added. The payment that has been selected for allocation is tagged as 'Saved for Allocation'.

Note: Click **Undo** to remove the added accounts.

13. Click **Submit** to submit the allocation. The Review screen appears.

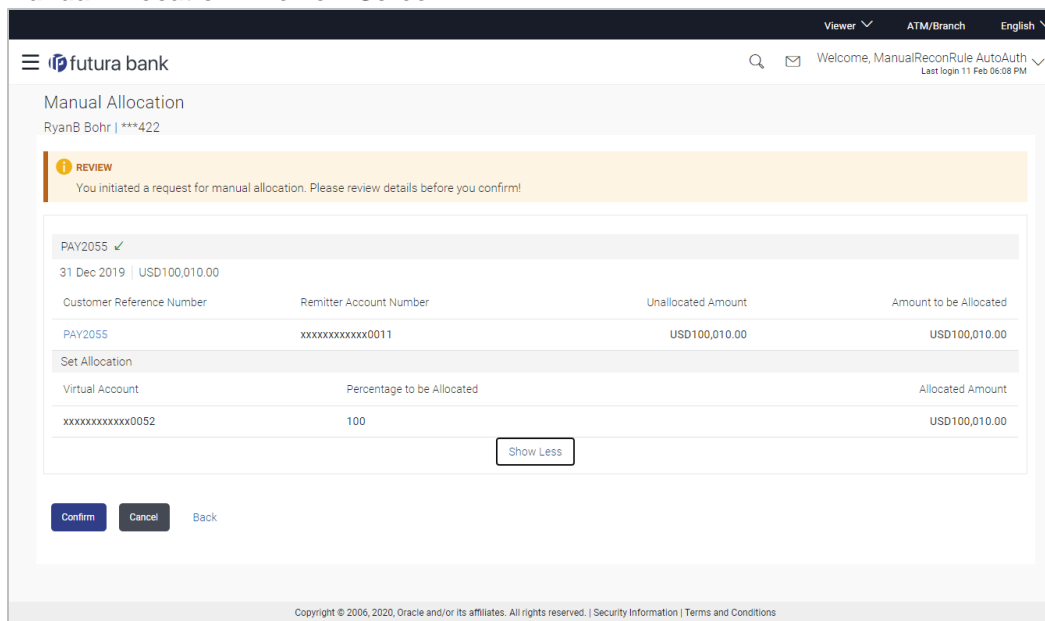

OR

Click **Cancel** to cancel the transaction.

OR

Click **Back** to go to the main dashboard.

9.7 De-Reconciliation

Payments that have been reconciled against invoices or cash flows can be de-reconciled. One or more records can be de-reconciled in a single transaction.

Pre-requisites

User must have valid corporate login credentials.

9.7.1 Invoice - Payment

How to reach here:

Toggle menu > Receivables/Payables Management > Reconciliation > De-Reconciliation > Invoice - Payment

To de-reconcile invoice and payment:

The screenshot displays the 'De-reconciliation' interface for 'ABZ Solutions | ***462'. It features a navigation menu, a search bar, and a user profile for 'Welcome, Mayur Thakkar'. The main content area is divided into a left sidebar and a main table. The sidebar lists several invoices with their respective reconciled amounts and addresses. The main table shows the details for 'ReconInv80 | NehNovCust1', including an 'Invoice' section with columns for Customer Reference Number, Invoice Due Date, Amount, Reconciled Amount, and Amount to be De-reconciled. Below this, a 'Payments (2)' section lists two payments: 'PAY0731' and 'PAY1235', each with their respective reconciliation dates, amounts, and reconciled amounts. The interface includes a 'Save' button and a 'Submit' button.

Field Description

Field Name	Description
De-Reconciliation	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Invoice Type	Select the type of invoice to be de-reconciled. The options are: <ul style="list-style-type: none"> • Receivables • Payables

Field Name	Description
View By	Indicates the option to view the invoices as de-reconciled / not de-reconciled / all. Based on your selection, a list of invoices appears in a pane, with the invoice reference number, reconciled amount, and the associated party name.
	Indicates the option to filter the reconciled invoice-payment records based on date range and reference numbers. When you click this icon, the Search overlay window appears. For more information on the fields in this window, refer the Search section below.

Invoice Reference Number & Associated Party Name

The reference number and associated party name of the invoice selected from the **View By** pane are displayed.

Invoice

This section displays the details of the invoice selected from the **View By** pane.

Customer Reference Number Displays the reference number present on the invoice. This is a hyperlink which when clicked displays the details of the invoice in an overlay window.

Invoice Due Date Displays the date by when the invoice amount must be fully paid.

Amount Displays the total amount of the invoice.

Reconciled Amount Displays the amount that has been reconciled.

Amount to be De-reconciled Displays the invoice amount that can be de-reconciled.

Payments (number)

This section displays the payments that have been reconciled against the invoice.

Reference Number Displays the reference number of the payment. This is a hyperlink which when clicked displays the details of the payment in an overlay window.

Reconciliation Date Displays the date on which reconciliation has been performed.

Amount Displays the payment amount.

Reconciled Amount Displays the amount that has been reconciled.

Amount to be De-reconciled in Invoice Currency Displays the payment amount in invoice currency that can be de-reconciled.

Search

This overlay window appears when you click the  icon in the De-reconciliation screen.

Field Name	Description
Reconciled Date Range From / To	Indicates an option to filter the invoice-payment records based on a date range within which they have been reconciled.
Customer Invoice Reference Number	Indicates the option to filter the invoice-payment records based on the reference number present on the invoice.
Host Invoice Reference Number	Indicates the option to filter the invoice-payment records based on the reference number assigned by the host to the invoice.
Customer Payment Reference Number	Indicates the option to filter the invoice-payment records based on the customer's reference number of the payment.
Host Payment Reference Number	Indicates the option to filter the invoice-payment records based on the reference number assigned by the host to the payment.

1. In the **De-reconciliation** screen, use the **View By** list to view the required reconciled invoices.
2. Click on the required invoice in the **View By** pane. You can also use  to filter the records.
3. Select the check box beside the invoice to be de-reconciled.
4. Select the check box(es) beside the payment(s) to be de-reconciled.
5. Click **Save**. The keyword 'De-reconciled' appears beside the invoice in the **View By** pane.
 - a. Click **Undo** to undo the saving, if required.
6. If further invoice-payment records must be de-reconciled, then repeat the above steps again.
7. Once all required records have been saved for de-reconciliation, click **Submit**. The Review screen appears.
 - OR
 - Click **Cancel** to cancel the transaction.
 - OR
 - Click **Back** to go to the previous screen.
8. Review the details and click **Confirm**. A confirmation message of the de-reconciliation appears.
 - OR
 - Click **Cancel** to cancel the transaction.
 - OR
 - Click **Back** to go to the previous screen.

Once the transaction is submitted, the approver is notified. If any modifications are required, the approver can add relevant comments and send the transaction back to the maker, using the **Send to Modify** feature. Once the required modifications are made, the maker can re-submit the transaction.

9.7.2 Cash Flow - Payment

How to reach here:

Toggle menu > Receivables/Payables Management > Reconciliation > De-Reconciliation > Cash Flow - Payment

To de-reconcile cash flow and payment:

The screenshot displays the 'De-reconciliation' interface for 'ABZ Solutions | ***462'. The 'Cash Flow Type' is set to 'Inflow'. The 'View By' is set to 'All'. A list of cash flows is shown, with the first one selected. The 'Payments (1)' section shows a payment with Reference Number 'PAY0731' and Reconciliation Date '06 Nov 2019'. The interface includes a 'Save' button and a 'Undo' button.

Reference Number	Cash Flow Date	Amount	Reconciled Amount	Amount to be De-reconciled
000000035607	15 Nov 2020	£6,666.00	£79.00	£79.00

Click **Cancel**, go back to the main dashboard.

9.8.1 View Payments (details)

This screen appears when you click the Payment Reference Number of a particular payment record in the **View Payments** screen.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables Management > Reconciliation > View Payments > Payment Reference Number link

View Payments

The screenshot displays the 'View Payments' interface for Futura Bank. At the top, there's a navigation bar with 'My Dashboard', 'ATM/Branch', and 'English'. The main header shows 'futura bank' and a user greeting 'Welcome, Esther Dmello'. The page title is 'View Payments' with a sub-header 'ABZ Solutions | ***462'. The main content area is divided into two sections: 'Payment Details' and 'Reconciliation Details'. The 'Payment Details' section shows: Payment reference number (PAY1846, Matched), Payment Amount (USD3,400.00), Unreconciled Amount (-), Real Account (xxxxxxxxxxxx0760), Payment Type (Incoming), Allocation Status (Unallocated), Payment Date (09 Jan 2020), Customer Reference Number (sonalpmt196120219), Remitter Account Number (xxxxxxxxxxxx0035), and Virtual Account (-). The 'Reconciliation Details' section contains a table with the following data:

Invoice Reference Number	Invoice Amount	Associated Party Name	Reconciliation Date	Reconciliation Amount in Payment Currency	Reconciliation Amount in Invoice Currency
OBCMS3011	GBP7,500.00	SQL Corporation	09 Jan 2020	USD3,400.00	GBP2,686.00

At the bottom of the table, there's a pagination control showing 'Page 1 of 1 (1 of 1 items)' and a 'Cancel' button.

Field Description

Field Name	Description
View Payments	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Payment Reference Number	Displays the unique reference number of the payment.
Payment Amount	Displays the payment amount.
Unreconciled Amount	Displays any amount that is not yet reconciled.
Real Account	Displays the real account number involved in the payment.
Payment Type	Displays the type of payment, whether incoming or outgoing.

Field Name	Description
Allocation Status	Displays the status of allocation of the payment.
Payment Date	Displays the date of the payment.
Customer Reference Number	Displays the customer's reference number for the payment.
Virtual Account	Displays the virtual account number involved in the payment.
Remitter Account Number / Beneficiary Account Number	Displays the account number of the remitter / beneficiary. If the payment is of incoming type, then this field displays the remitter account number. If the payment is of outgoing type, then this field displays the beneficiary account number.
Remark	Displays any remarks entered during the payment.

View Payments – Reconciliation Details tab

The Reconciliation Details tab appears only if the payment has been reconciled with invoices/cash flows.

The screenshot shows the 'View Payments' page for 'ABZ Solutions | ***462'. It displays payment details such as reference number (PAY1846), amount (USD 3,400.00), date (09 Jan 2020), and allocation status (Unallocated). Below this, the 'Reconciliation Details' tab is active, showing a table with one entry:

Invoice Reference Number	Invoice Amount	Associated Party Name	Reconciliation Date	Reconciliation Amount in Payment Currency	Reconciliation Amount in Invoice Currency
OBCMS3011	GBP7,500.00	SQL Corporation	09 Jan 2020	USD3,400.00	GBP2,686.00

Navigation controls include 'Page 1 of 1 (1 of 1 items)' and a 'Cancel Back' button.

View Payments - Reconciled Details tab	
The Reconciliation Details tab appears only if the payment has been reconciled with invoices/cash flows.	
Cash Flow Reference Number / Invoice Reference Number	Displays the reference number of the cash flow / invoice that the payment has been reconciled with. This is a hyperlink which when clicked displays the details of the cash flow / invoice. For more information on the fields in the View Cash Flow Details screen, refer the View Cash Flow Details section in User Manual Oracle Banking Digital Experience Corporate Cash Management . For more information on the fields in the View Invoice screen, refer the View Invoice Details section in this user manual.
Cash Flow Amount / Invoice Amount	Displays the total cash flow / invoice amount.
Counterparty Name / Associated Party Name	Displays the name of the associated party of the payment.
Reconciliation Date	Displays the date of reconciliation.
Reconciliation Amount in Payment Currency	Displays the amount that has been reconciled in the currency in which the payment has been made.
Reconciliation Amount in Cash Flow Currency / Reconciliation Amount in Invoice Currency	Displays the amount that has been reconciled in the cash flow / invoice currency.

View Payments – Allocation Details tab

This tab appears only if the payment status is 'Allocated' or 'Partially Allocated', which means that the payment has been either fully or partially allocated to virtual account(s).

Field Description

Field Name	Description
Allocation Date	Displays the date of payment allocation.
Virtual Account Number	Displays the virtual account number to which the payment has been allocated.
Allocated Amount	Displays the amount that has been allocated.
Allocation Type	Displays the type of allocation.

- Click the **Cash Flow Reference Number / Invoice Reference Number** link to view the details of the cash flow / invoice.
OR
Click **Back** to go to the previous screen.
OR
Click **Cancel** to go to the dashboard.

For more information on the fields in the View Cash Flow Details screen, refer the **View Cash Flow Details** section in **User Manual Oracle Banking Digital Experience Corporate Cash Management**. For more information on the fields in the **View Invoice** screen, refer the **View Invoice Details** section in this user manual.

FAQ

1. **Does View Payments also display the payments that are domestic, internal and international in nature or any other payment from the party's corporate account?**

No, here payment records uploaded by corporate for reconciliation are reflected or those payment records received from the payments engine to the Cash Management system are reflected.

9.9 Payment File Upload – File Template

Payment records can be created in bulk through file upload.

How to reach here:

Dashboard > Toggle Menu > File Upload > File Upload
OR

Dashboard > Quick Links > File Upload
OR

Dashboard > Toggle menu > Receivables/Payables Management > Reconciliation > Payment File Upload

Note: Refer this file for the upload file format: 

For more information on the procedure of uploading the file, refer User Manual Oracle Banking Digital Experience Corporate File Upload.

Field Description

Field Name	Description
	The following fields should be entered in a row for a payment record.
Payment Type	Enter O for outgoing and I for incoming payment. This is a mandatory field. Note: If the payment type is incoming, then the Beneficiary ID should be that of the logged-in party. If the payment type is outgoing, then the Payment Party ID should be that of the logged-in party.
Customer Payment Reference Number	Enter the customer's own unique reference number for the payment. This is a mandatory field.

Field Name	Description
Payment Currency	Enter the currency in which the payment is made. A 3-digit currency code as per ISO standards is acceptable. This is a mandatory field.
Payment Amount	Enter the amount paid. This is a mandatory field.
Finance Repayment Appropriation	Specify the sequence of repayment for principal, interest, and overdue amount. Example: OIP.
Finance Repayment Specific Appropriation	Specify the amounts paid for the repayment appropriation. For example: P:3000.00 I:500.00 O:900.00
Payment Mode	Specify the mode of payment. This is a mandatory field. The acceptable values are: <ul style="list-style-type: none"> • ACT_TRANSFER • NEFT • CASH • CHEQUE • RTGS
Payment Date	Enter the date of payment in the DD-MM-YYYY format. This is a mandatory field.
Payment Party Code	Enter the code of the party making the payment. You can either provide a value in this field, or in the Payment Party ID field.
Counter Party Code	Enter the code of the counter party, in the payment transaction. You can either provide a value in this field, or in the Counter Party ID field. A counter party in this context is generally a third party like a bank or any other medium to the transaction.
Payment to Virtual Account	Specify whether the payment is being made to a virtual account or not. Enter Y if the payment is to a virtual account, and N , otherwise. This is a mandatory field.
Credit Account Number	Enter the account number to which the payment is credited to. This field is mandatory if the Payment Type is incoming (I).
Auto Reconciliation	Specify whether the payment should be auto reconciled, or not. If you enter Y , then the payment is auto reconciled on upload of file. If you enter N , the payment will have to be manually reconciled. This is a mandatory field.
Is Payment for Cashflow OR Invoice OR Finance	Enter E for expected cash flow payment, I for invoice payment, and F for finance payment.

Field Name	Description
Cash flow OR Invoice OR Finance Reference Number	Enter the reference number of the expected cash flow record / invoice / finance, as applicable. If multiple options are applicable, If the payment is made towards multiple options, then you can enter the reference numbers as follows: Invoice Ref No Finance Ref No Expected Dr/Cr Ref No
Remarks	Enter any remarks, if applicable. If specific values are not provided in the respective fields, then they can be provided in the Remarks field. Multiple references can be made using a pipe separator as given below: N:Narration E: Expected Dr/Cr Ref No I: Invoice Ref No F:Finance Ref No P:Program code R: Relationship Code PPC: Payment Party Code CPC: Counterparty Code
Payment Party ID	Enter the ID of the party making the payment. You can either provide a value in this field, or in the Payment Party Code field.
Payment Party Name	Enter the name of the party making the payment.
Counter Party ID	Enter the ID of the counter party. You can either provide a value in this field, or in the Counter Party Code field.
Counter Party Name	Enter the name of the counter party.
Beneficiary ID	Enter the ID of the beneficiary of the payment.
Beneficiary Name	Enter the name of the beneficiary of the payment.
Program Code	Enter the program code applicable for the payment.
Remitter Account Number	Enter the account number from which the payment is initiated. This field is mandatory if the Payment Type is outgoing (O).
Fund Transfer or Cheque Reference Number	Enter the external reference number of the payment, in case of fund transfer or cheque payment.
Mandate Reference Number	Enter the reference number of the mandate.
Credit Note Reference Number	Enter the reference number of the credit note.
Allocation Required	Enter Y if allocation is required, and N , otherwise. This is a mandatory field.

[Home](#)

10. Purchase Order Management

Purchase order is a formal document sent by the buyer to the supplier, for purchasing products/services. It essentially contains details of the commodities that the buyer wishes to purchase, the quantities required, the shipping address, and so on.

In OBDX, purchase orders can be created by a corporate, irrespective of their role as buyer or supplier. If the purchase order is created by the buyer, then the supplier can accept it, directly from the portal. The buyer can edit and modify the purchase order prior to it being accepted by the supplier. If the purchase order is created by the supplier, then it is automatically deemed as accepted. The purchase order cannot be edited, in this case.

Purchase orders with status as 'Accepted', can be financed, either by the buyer or the supplier, based on who is set as borrower in the linked program.

Pre-requisites

User must have valid corporate login credentials.

The features built for the corporate user in Purchase Order Management are as follows:

- Overview
- Online Purchase Order Creation
- Purchase Order Creation with Document Upload
- Bulk File Upload Purchase Order Creation
- Edit Purchase Order
- Accept/ Reject Purchase Order
- View Purchase Orders
- Cancel Purchase Orders
- Save Purchase Order as Template
- Delete Purchase Order Template
- Request Finance against Purchase Orders (through Supply Chain Finance module)

Note: The Purchase Order Management Transactions are only supported on **Desktops/Laptops** and on **Landscape** mode of **Tablet** devices.

10.1 Overview

The Purchase Order Overview screen consists of the following widgets:

- Purchase Order Status Summary
- Upcoming Shipments
- Top 10 Associated Parties
- Quick Links

Dashboard

Purchase Order Status Summary – This widget lists the total amount associated with purchase orders in each status. The amounts are specified in the equivalent local currency. A graphical representation of this data is presented by the doughnut graph. The percentage equivalents of the amounts can be seen by clicking or hovering the cursor over the respective sections in the graph. The data is available for both roles of the corporate party – Buyer and Supplier.

Upcoming Shipments – This widget displays details of the upcoming shipments of the corporate party. Separate views are available for the corporate party's role as Buyer and Supplier. The following details are displayed for each shipment: the purchase order reference number, the counter party name, and the purchase order amount. On clicking the purchase order reference number link, the View Purchase Order (details) screen appears. For more information on this screen, refer the View Purchase Order Details section in this document.

Top 10 Associated Parties – This widget displays a graphical representation of the top 10 counter parties linked with the logged-in corporate party, for each of their roles – Buyer and Supplier. This widget provides a quick view of the top 10 associated parties of the corporate based on the value of purchase orders in Raised and Accepted status.

Quick Links – The most commonly used transactions are provided as quick links for quick access. Following transactions are provided as quick links:

- Create Purchase Order
- View Purchase Order
- Request Finance
- Create Purchase Order via Image Upload
- Accept/Reject Purchase Order

10.2 Online Purchase Order Creation

Purchase orders can be created by manually entering the data, or by uploading a file with the bulk purchase-order entries. The data entered manually can be saved as a template for future use. Once the user creates purchase order(s), they must be approved by an approver (if the approval flow has been set). The designated corporate approver is notified. The approver can either approve or reject the transaction. In case of rejection, the approver can send the transaction back to the corporate user (maker) to make the required modifications and re-submit for approval.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables Management > Purchase Order Management > Purchase Order Creation

Create Purchase Order

Field Description

Field Name	Description
Create Purchase Order	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Online Purchase Order Creation	Indicates the option to create purchase order records by manual entry of purchase order details.
Purchase Order Creation with Document Upload	Indicates the option to create a purchase order record by uploading the actual purchase order document.
Bulk File Upload	Indicates the option to create purchase order records in bulk, through file upload.

10.2.1 Online Purchase Order Creation (manual entry)

A corporate user, based on their role, can create one or more purchase orders in one single transaction.

To create a purchase order(s):

1. In the **Create Purchase Order** screen, click **Create New Purchase Order** to create purchase order records manually. The screen to create a new purchase order appears, starting with the **New Purchase Order** tab.

Create Purchase Order – New Purchase Order

Field Description

Field Name	Description
Create Purchase Order	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
New Purchase Order	

Field Name	Description
Facing difficulty in entering data for multiple Purchase Order? Use Bulk Upload	Click the Bulk Upload link to navigate to the File Upload screen for creating purchase orders in bulk.
Customer Purchase Order Number	Enter the corporate's own reference number associated with the purchase order.
Associated Party	Select the counter party in the business transaction. A list of all on-boarded associated parties is available for selection. On selecting an associated party, the role of the party as Buyer or Supplier , appears below this field.
Program Name	Select the program under which the purchase order is to be created. Once you select a program, the Auto Accept and Auto Finance fields appear with the values that have been set in the program.
Pre-acceptance	Enable this toggle if the purchase order should be deemed as accepted by the supplier, on being raised. Note: If the logged-in party is the supplier and the associated party is the buyer, then by default Pre-acceptance toggle is switched to YES (Read only). If logged-in party is the buyer and the associated party is the supplier, then by default Pre-acceptance toggle is switched to NO and it is selective, i.e. user can select either YES/NO.
Purchase Order Date	Click the calendar icon and select the date on which the purchase order is created.
Purchase Order Amount	Select the currency and enter the amount of the purchase order. This purchase order amount should match with the total gross amount of commodity grid.
Shipment Date	Click the calendar icon and select the date of shipment of the products being purchased.
Shipment Address	Indicates an option to record the shipment address. You can switch the toggle on, and enter the address in the Shipment Address pop-up window that appears. Once you save the address, it appears in this field. You can edit it by clicking  . For more information on the fields, refer the Shipment Address section below.
Payment Terms	Enter the agreed terms of the payment.

Shipment Address

The screenshot shows a web application interface for 'futura bank'. A 'Shipment Address' pop-up window is centered on the screen. The window has a title bar with a close button (X) and contains the following fields: 'Shipping Address to be changed to', 'Address Line 1', 'Address Line 2', 'Address Line 3', 'City', 'Country' (with a dropdown menu showing 'Andorra'), and 'Pin Code'. At the bottom of the window are 'Save' and 'Cancel' buttons. The background interface is dimmed, showing a sidebar with 'Program Name' (Check1), 'Auto Accept/No', 'Auto Finance/No', 'Purchase Order Date' (28 Oct 2020), 'Shipment Date' (31 Oct 2020), and 'Payment Terms'. The main area shows a table with columns for 'Name', 'Code', 'Quantity', and 'Total', with one row for 'Product 1' (Others, 500, 500). A summary table at the bottom right shows 'Gross Purchase Order Amount' as \$12,625.00 and 'Total Value' as \$0.00.

Field Description

Field Name	Description
------------	-------------

Shipment Address

This pop-up window appears when you switch on the **Shipment Address** toggle, or click the  icon to edit an existing address.

Address Line 1 to 3	Enter lines 1 to 3 of the address for the shipment.
City	Enter the city for the shipment.
Country	Enter the country for the shipment.
Pin Code	Enter the pin code for the shipment.

- Once you enter the above details, click **Add** in the **Commodity Details** section, to add the commodities being purchased. The **Add Commodity Details** overlay window appears.

Add Commodity Details

This overlay window appears when you click **Add** in the **Commodity Details** section.

Field Description

Field Name	Description
Add Commodity Details overlay window	
Name	Enter the name of the commodity being purchased.
Code	Select the code of the commodity.
Quantity	Enter the commodity quantity required.
Weight/Unit	Enter the weight per unit of the commodity. Also select the unit of measurement to be used for weight.
Total Weight	Displays the total weight of the commodity. This value is automatically calculated and displayed. It is the product of the values in the Quantity and Weight/Unit fields.
Cost/Unit	Enter the cost per unit of the commodity.
Gross Amount	Displays the total cost of the commodity. This value is automatically calculated and displayed. It is the product of the values in the Quantity and Cost/Unit fields.
Discount	Enter any discount being offered on the purchase. You can either enter the percentage of discount (in the first field) or the actual discount amount (in the second field). When you enter any one of these values, the other value is automatically calculated and displayed. Click  to reset the values.

Field Name	Description
Tax	<p>Enter any tax being charged on the purchase. You can either enter the percentage of tax (in the first field) or the actual tax amount (in the second field). When you enter any one of these values, the other value is automatically calculated and displayed.</p> <p>Click  to reset the values.</p>
Net Amount	<p>Displays the net amount (after application of discount and tax) of the commodity being purchased.</p> <p>Note: The Net Amount gets auto calculated as follows: $\text{Net Amount} = \text{Gross Amount} - \text{Discount amount} + \text{Tax amount}$</p>
Create Copy	<p>Select this check box, to make a copy of the commodity details entered.</p>

- Once the commodity details are recorded in the overlay window, click **Add**. A record is created in the **Commodity Details** section.

- Click **Go To Dashboard** to go to the dashboard.
- OR
- Click **Create Purchase Order** to create further purchase orders.

10.2.2 Create Purchase Order using Template

You can save the data entered during purchase order creation, as a template. This option is available upon successful creation of a purchase order. You can use this template in the future to create purchase orders for the same party. This saves the efforts of re-entering the data.

To view and use templates for creation of purchase orders:

1. On navigating to the **Create Purchase Order** screen, click the **Template** tab. A list of existing templates appears.

Create Purchase Order - Template

The screenshot displays the 'Create Purchase Order - Template' page. At the top, there's a navigation bar with 'futura bank' logo and user information: 'Welcome, Nehal Joshi', 'Last login 28 Oct 02:43 PM'. Below the header, the page title is 'Create Purchase Order' with a sub-header 'ABZ Solutions | ***462'. There are two tabs: 'New Purchase Order' and 'Template'. A search bar is located above the table. The table lists various templates with their names, the number of orders saved, the creator, the last update date, and a delete icon. A callout box titled 'Purchase Order' explains that templates save data entered during creation, saving effort by re-entering data for the same party in the future.

Field Description

Field Name	Description
Automatic Purchase Order Creation	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Create Purchase Order step	
The values that have been extracted from the invoice image (except for commodity details) are automatically populated in the respective fields. You can edit these values, if required.	
Customer Purchase Order Number	Indicates the customer's own reference number of the purchase order.
Associated Party	Indicates the associated party with whom the purchase order is to be linked. A list of all on-boarded associated parties is available for selection. On selecting an associated party, the role of the party as Buyer or Supplier , appears below this field.
Program Name	Indicates the program to which the purchase order needs to be linked. Programs linked to the selected associated party are listed.
Auto Accept	Displays whether the purchase order will be auto accepted or not. It is populated based on the auto acceptance setting in the program definition and is non-editable. For more information, refer the Create Program section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance.
Auto Finance	Displays whether the purchase order will be auto financed or not. It is populated based on the auto finance setting in the program definition and is non-editable. For more information, refer the Create Program section in User Manual Oracle Banking Digital Experience Corporate Supply Chain Finance.
Pre-acceptance	Indicates whether the purchase order once raised will be deemed as accepted by the supplier. Note: If the logged-in party is the supplier and the associated party is the buyer, then by default Pre-acceptance toggle is switched to YES (Read only). If logged-in party is the buyer and the associated party is the supplier, then by default Pre-acceptance toggle is switched to NO and it is selective, i.e. user can select either YES/NO.
Purchase Order Date	Indicates the date of creation of the purchase order.
Purchase Order Amount	Indicates the total purchase order amount of all commodities being purchased, along with the currency.
Shipment Date	Indicates the date when the shipment is expected to take place. The Shipment Date should be greater than the Purchase Order Date .

Field Name	Description
Shipment Address	Indicates the address where the goods should be shipped to.
Payment Terms	Indicates the terms agreed for the payment of the purchase order.
Commodity Details	
Commodity details are not automatically extracted by the application. Click Add in this section to add these details. The Add Commodity Details overlay window appears, with the following fields.	
Name	Indicates the name of the commodity being purchased.
Code	Indicates the code of the commodity.
Quantity	Indicates the commodity quantity required.
Weight/Unit	Indicates the weight per unit of the commodity. Also indicates the unit of measurement to be used for weight.
Total Weight	Displays the total weight of the commodity. This value is automatically calculated and displayed. It is the product of the values in the Quantity and Weight/Unit fields.
Cost/Unit	Indicates the cost per unit of the commodity.
Gross Amount	Displays the total cost of the commodity. This value is automatically calculated and displayed. It is the product of the values in the Quantity and Cost/Unit fields.
Discount	Indicates any discount being offered on the purchase. You can either enter the percentage of discount (in the first field) or the actual discount amount (in the second field). When you enter any one of these values, the other value is automatically calculated and displayed. Click  to reset the values.
Tax	Indicates any tax being charged on the purchase. You can either enter the percentage of tax (in the first field) or the actual tax amount (in the second field). When you enter any one of these values, the other value is automatically calculated and displayed. Click  to reset the values.
Create Copy	Indicates whether a copy of the commodity details entered, must be made.
On clicking Add in the Add Commodity Details overlay window, an entry of the commodity appears in the Commodity Details section. In the Action column, click  to edit an entry, or  to delete it.	

Field Name	Description
Gross Purchase Order Amount	<p>Displays the total gross amount of the purchase order. This is the sum of the gross amounts of all added commodities.</p> <p>This value should be equal to the value in the Purchase Order Amount field. If not, you must adjust the value in the Purchase Order Amount field accordingly.</p>
Discount Value	<p>Displays the total discount amount of all the commodities added. The average discount percentage of all added commodities is also displayed.</p>
Tax Value	<p>Displays the total tax amount of all the commodities added. The average tax percentage of all added commodities is also displayed.</p>
Net Purchase Order Amount	<p>Displays the total net amount, after considering the discount value and the tax value.</p> <p>Net Purchase Order Amount = Gross Purchase Order Amount – Total Discount amount + Total Tax amount</p>

5. The data from the purchase order is automatically read and populated in the relevant fields. Check the details and add or modify any field, if required.
6. Click **Submit** to submit the purchase order. The Review screen appears.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to go to the previous screen.
7. In the Review screen, verify the details and click **Confirm**. A confirmation message appears, with the reference number and status of the transaction.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to go to the previous screen.

10.4 Bulk Purchase Order Creation

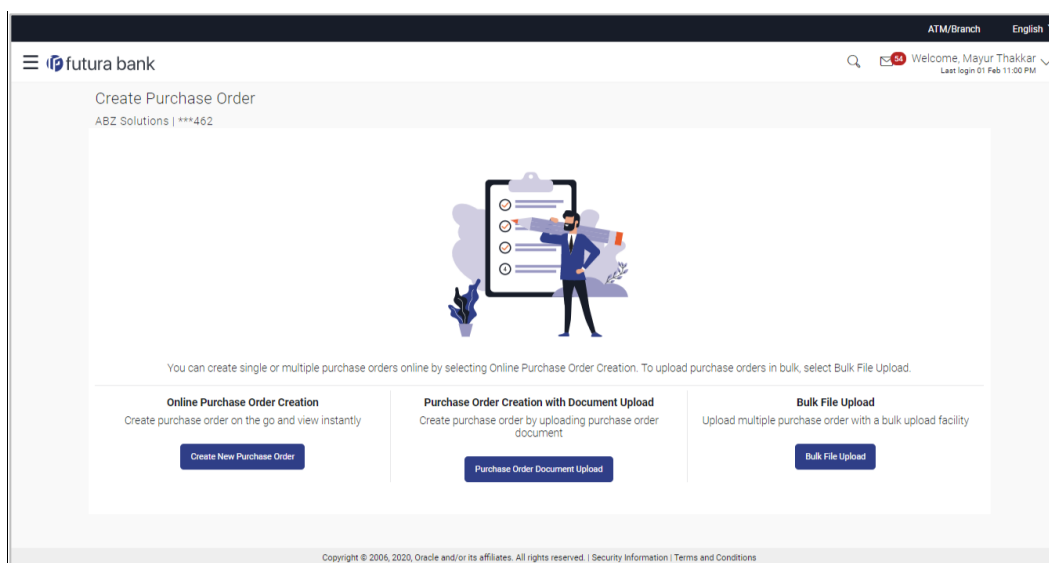

Using this option, corporates can create purchase orders in bulk by uploading a file. The file must contain the purchase order details in a specific format and sequence.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables Management > Purchase Order Management > Purchase Order Creation

To create purchase orders in bulk:

Create Purchase Order

Field Description

Field Name	Description
Create Purchase Order	
Party Name & ID	Displays the name and ID of the logged-in corporate party.
Online Purchase Order Creation	Indicates the option to create purchase order records by manual entry of purchase order details.
Purchase Order Creation with Document Upload	Indicates the option to create a purchase order record by uploading the actual purchase order document.
Bulk File Upload	Indicates the option to create purchase order records in bulk, through file upload.

1. In the **Create Purchase Order** screen, click **Bulk File Upload**. The **File Upload** screen appears.

2. For more information on the procedure of uploading the file, refer User Manual Oracle Banking Digital Experience Corporate File Upload. Use the file template detailed below for upload.

10.4.1 Bulk Purchase Order File Template

For each purchase order, there must be a top row with indicator 'P' which specifies purchase order level parameters. For each commodity under the purchase order, there must be a row with indicator 'C' which specifies the commodity-level parameters.

Note: Refer this file for the sequence: 

Field Description

Field Name	Description
The following fields are specific to the purchase order as a whole. This row must be present for each purchase order being added.	
Indicator	Specify the indicator. Enter P for a row at the purchase order level.
Customer Purchase Order Number	Enter the customer's own purchase order number.
Purchase Order Date	Enter the date of creation of the purchase order.
Shipment Date	Enter the date of shipment. This should be greater than PO date.
Currency	Enter the currency of the purchase order amount.
Gross Purchase Order Amount	Enter the total purchase order amount.
Buyer Id	Enter the ID associated with the buyer.
Supplier Id	Enter the ID associated with the supplier.
Buyer Name	Enter the name of the buyer.
Supplier Name	Enter the name of the supplier.
Discount Amount	Enter the total discount amount applicable for all commodities being purchased.
Tax Amount	Enter the total tax amount applicable, on all commodities being purchased.
Net Purchase Order Amount	Enter the net purchase order amount. Net PO Amount = Gross Purchase Order Amount – Discount Amount + Tax Amount
Acceptance Amount	Enter the purchase order amount that has been accepted.
Buyer Division Code	Enter the division code associated with the buyer.

Field Name	Description
Supplier Division Code	Enter the division code associated with the supplier.
Pre-accepted	Enter Y if the purchase order should be pre-accepted, and N , otherwise.
Shipment Address	Enter address lines 1 to 3 of the shipment address.
City	Enter the city of the shipment address.
Country	Enter the country of the shipment address.
Zip	Enter the pin code of the shipment address.
The following fields are specific to a commodity. You must add a row for each commodity being purchased, under the respective purchase order.	
Indicator	Specify the indicator. Enter C for a row at the commodity level.
Customer Purchase Order Number	Enter the customer's own purchase order number.
Commodity Code	Enter the code associated with the commodity.
Commodity Name	Enter the name of the commodity.
Quantity	Enter the quantity of the commodity.
Cost Per Unit	Enter the cost per unit of the commodity.
Gross Amount	Enter the total cost of the commodity. Gross Amount = Cost Per Unit * Quantity
Discount Amount	Enter the discount amount applicable to the commodity.
Tax Amount	Enter the tax amount applicable to the commodity.
Net Amount	Enter the net amount of the commodity. Net Amount = Gross Amount – Discount Amount + Tax Amount

10.5 View / Edit Purchase Order

Pre-requisites

- For viewing purchase orders – User must have valid corporate login credentials.
- For editing purchase orders – User must have valid corporate login credentials and must be the buyer.

10.5.1 View Purchase Order

Using this option, you can view a list of purchase orders based on the corporate party's role as a buyer or supplier.

On selection of Buyer view, you can view all the purchase orders as of current date where the corporate party's role is that of a buyer in the program. On selection of Supplier view, you can view all the purchase orders as of current date where the party's role is that of a supplier in the program.

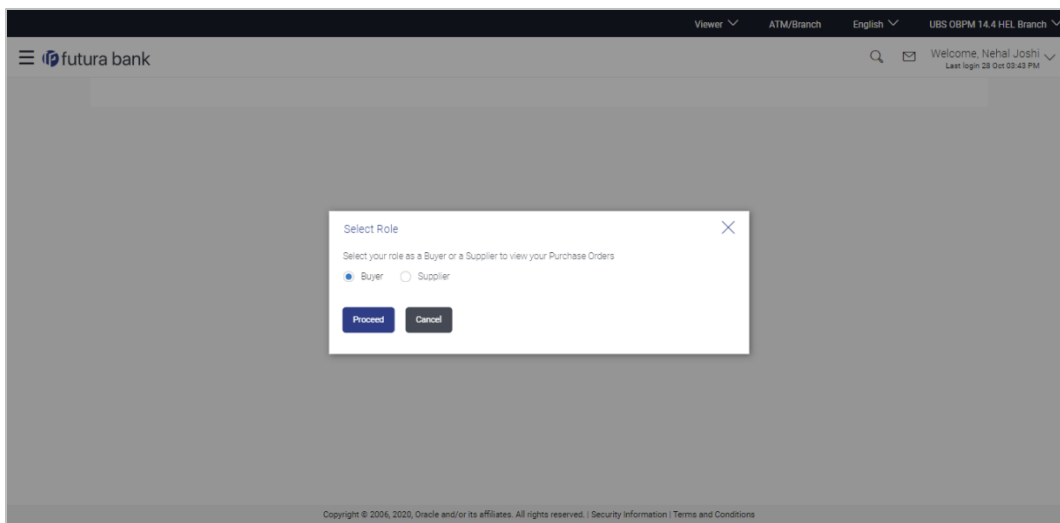

How to reach here:

Dashboard > Toggle menu > Receivables/Payables Management > Purchase Order Management > View Purchase Orders

To view purchase orders:

1. In the **Select Role** pop-up window, select either the **Buyer** or the **Supplier** option.

View Purchase Order - Select Role pop-up

Field Description

Field Name	Description
Select Role	Select the role of the corporate party to view the required purchase orders. The options are: <ul style="list-style-type: none"> • Buyer • Supplier

2. Click **Proceed** to view the existing purchase orders. The **View Purchase Order** screen appears.
OR
Click **Cancel** to cancel the transaction.

Discount	Displays the discount amount applicable on the commodity.
Tax	Displays the tax amount applicable on the commodity.
Net Amount	Displays the amount after considering the discount and tax amounts. This value is automatically calculated as follows:- Net Amount = Gross Amount – Discount + Tax
Gross Purchase Order Amount	Displays the sum of the gross amounts of all the commodities being purchased.
Total Discount Value (@ %-Average of commodity discount)	Displays the sum of the discounts offered on all the commodities being purchased. Also displays the average discount.

Field Name	Description
Total Tax Value (@ %-Average of commodity tax)	Displays the sum of the taxes applicable on all the commodities being purchased. Also displays the average tax.
Net Purchase Order Amount	Displays the sum of the net amounts of all the commodities being purchased. This value is also calculated as follows:- Net Purchase Order Amount = Gross Purchase Order Amount - Total Discount Value + Total Tax Value

10.5.2 Edit Purchase Order

Using this option, the buyer can edit and modify the required details in the purchase order, and submit for approval, if the approval flow has been set. The designated corporate approver is notified, in this case. The approver can either approve or reject the transaction. In case of rejection, the approver can send the transaction back to the corporate user (maker), to make modifications as required, and re-submit for approval.

Note: 1) A supplier can only create purchase orders, but cannot edit them once created.

2) If a purchase order has been accepted by the supplier, then only the Shipment Date can be edited by the buyer.

If a purchase order is in the 'Raised' status, and yet to be accepted by the supplier, then all parameters can be modified, except for Customer Purchase Order Number, Associated Party, and Program.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables Management > Purchase Order Management > View Purchase Orders

To edit the purchase order details:

1. In the **Select Role** pop-up window that appears, select the **Buyer** option.
2. Click **Proceed**. The **View Purchase Order** screen appears.
OR
Click **Cancel** to cancel the transaction.
3. Enter the search criteria and click **Search**. The purchase orders list appears based on the entered search criteria.
OR
Click **Clear** to reset the search parameters.
4. Click the **Customer Purchase Order Number** of the purchase order record to be modified. The details of the specific purchase order appear in the **View Purchase Order** screen.

View Purchase Order Details – for Buyer role

Cancel Purchase Order

6. Click **Yes** to cancel the purchase order. A Confirmation message appears with the reference number and status of the transaction.
OR
Click **No** to stay on the **View Purchase Order** details screen.

10.6 Accept / Reject Purchase Order

Using this option, a supplier can accept or reject purchase orders to convey the agreement or disagreement to supply the required commodities. One or more purchase orders can either be accepted or rejected in a single transaction.

Once the transaction is complete, the designated corporate approver is notified, in case an approval flow is set. The approver can either approve or reject the transaction. In case of rejection, the approver can send the transaction back to the corporate user (maker), to make modifications as required, and re-submit for approval.

Note:

- 1) Only that corporate party with the role of **Supplier** can accept or reject purchase orders. In addition, only those purchase orders with status as **Raised** can be accepted or rejected.
- 2) If the supplier is creating the purchase orders, then they are pre-accepted by default, when raised.

Pre-requisites

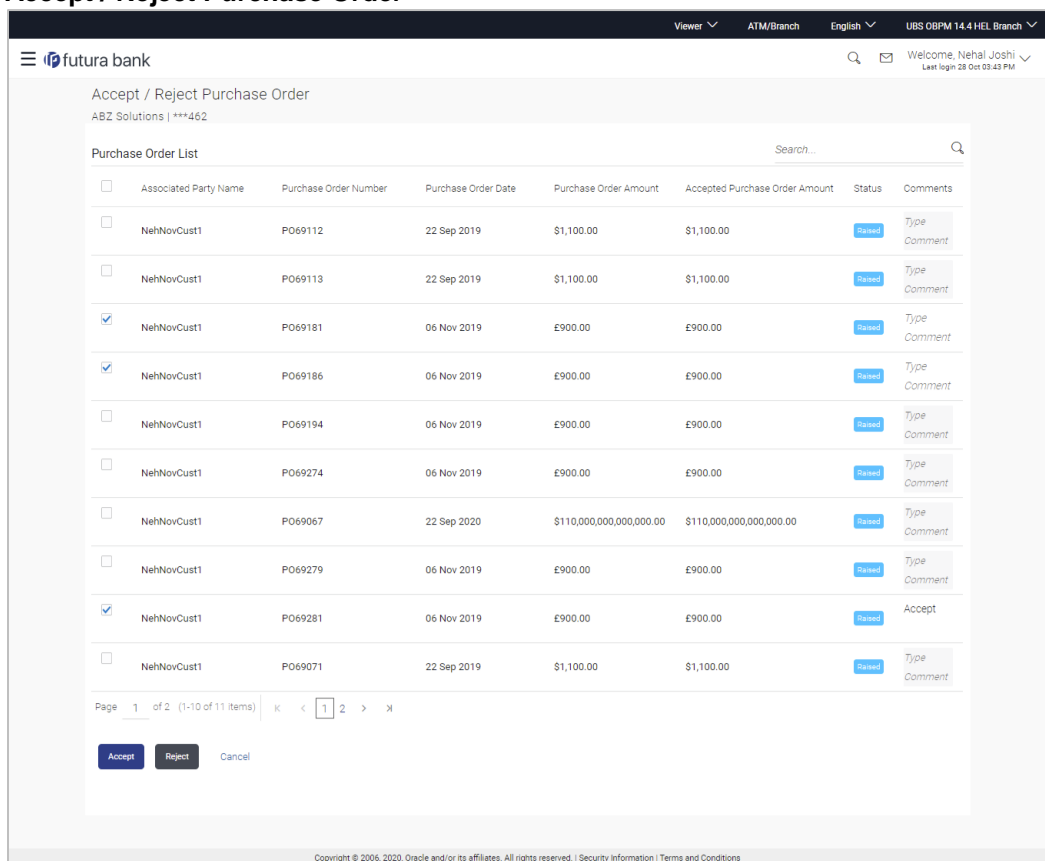

User must have valid corporate login credentials.

How to reach here:

Dashboard > Toggle menu > Receivables/Payables Management > Purchase Order Management > Accept/Reject Purchase Order

To accept / reject purchase order(s):

1. In the **Accept/Reject Purchase Order** screen, a list of purchase orders with status as **Raised**, and where the logged-in party is the supplier, appears.
 - To search for a specific purchase order, enter either the associate party name, or purchase order number, or purchase order amount, or accepted purchase order amount, in the **Search** field.
 - Click . The relevant purchase orders appear.

FAQ

1. Who can create a purchase order?

A purchase order can be created by a supplier or a buyer, with valid login credentials. If the purchase order is being created by a supplier then the pre-acceptance flag gets defaulted as 'Yes' as it is implied that the supplier is accepting the purchase order. If the purchase order is being raised by a buyer, then the pre-acceptance flag can be set to yes or no based on the user's requirement.

2. Can I create multiple purchase orders for different suppliers?

Yes, a corporate can create multiple purchase orders online for different suppliers.

3. How many purchase orders can I create at a time?

There is no upper limit for creation of purchase orders at one time (in a single transaction). You can create as many purchase orders as required.

4. Can I create 2 purchase orders in one single transaction, such that one is a fresh purchase order and the other is from a template?

Yes. When you create a fresh purchase order, you must first save it. Then you can click on the Templates tab, and select the next purchase order template to be added.
